Subject:	Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL amending Council Regulation (EC) No 1224/2009, and amending Council Regulations (EC) No 768/2005, (EC) No 1967/2006, (EC) No 1005/2008, and Regulation (EU) No 2016/1139 of the European Parliament and of the Council as regards fisheries control – Preparation of the trilogue

I. INTRODUCTION

1. On 30 May 2018, the Commission submitted the abovementioned proposal to the European Parliament and the Council.¹ The proposal was presented to the Agriculture and Fisheries Council on 18 June 2018. Prior to that, on 17 October 2017, the Council adopted conclusions on a Special Report from the European Court of Auditors on "EU fisheries control: more efforts needed".²

¹ doc. 9317/18 + ADD 1-3.

² doc. 13323/17.

2. The Union fisheries control system is mainly set out in three Council regulations: (1) on the Union control system for fisheries of 2009 ("control regulation")³; (2) on illegal, unreported and unregulated fishing of 2008 ("IUU regulation")⁴; and (3) on the European Fisheries Control Agency (EFCA) of 2019 ("EFCA regulation")⁵. Some other regulations contain additional specific rules relating to fisheries control.⁶
3. The Commission proposal amending these regulations envisages the first major revision of the Union fisheries control system since its last reform in 2009. Most amendments relate to the revision of the control regulation. A key objective of the reform is the creation of a more effective and efficient fisheries control system through improved, simplified and modernised rules, procedures and instruments.
4. The European Economic and Social Committee delivered its opinion on 12 December 2018⁷. The European Committee of the Regions decided on 1 October 2018 not to issue an opinion.
5. The European Parliament adopted amendments to the Commission proposal on 11 March 2021 and referred the matter back to the PECH Committee for inter-institutional negotiations⁸.
6. The Croatian, German and Portuguese Presidencies worked towards a General Approach, which was adopted, during the Portuguese Presidency, on 28 June 2021.⁹ All Member States supported the General Approach, except for Poland, which objected to the text, and Finland, which abstained.

³ Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Union control system for ensuring compliance with the rules of the common fisheries policy (OJ L 343, 22.12.2009, p.1).

⁴ Council Regulation (EC) No 1005/2008 of 29 September 2008 establishing a Community system to prevent, deter and eliminate illegal, unreported and unregulated fishing (OJ L 286, 29.10.2008, p. 1).

⁵ Regulation (EU) 2019/473 of the European Parliament and of the Council of 19 March 2019 on the European Fisheries Control Agency (OJ L 83, 25.3.2019, p. 18). The Commission proposal refers to the predecessor of that regulation of 2005, which was replaced in 2019 (Council Regulation (EC) No 768/2005 of 26 April 2005 establishing a Community Fisheries Control Agency (OJ L 128, 21.5.2005, p. 1).

⁶ For example, Council Regulation (EC) No 1967/2006 of 21 December 2006 concerning management measures for the sustainable exploitation of fishery resources in the Mediterranean Sea (OJ L 409, 30.12.2006, p. 11) and Regulation (EU) 2016/1139 of the European Parliament and of the Council of 6 July 2016 establishing a multiannual plan for the stocks of cod, herring and sprat in the Baltic Sea and the fisheries exploiting those stocks (OJ L 191, 15.7.2016, p. 1).

⁸ Amendments adopted by the European Parliament on 11 March 2021 on the proposal for a regulation of the European Parliament and of the Council amending Council Regulation (EC) No 1224/2009, and amending Council Regulations (EC) No 768/2005, (EC) No 1967/2006, (EC) No 1005/2008, and Regulation (EU) No 2016/1139 of the European Parliament and of the Council as regards fisheries control (COM(2018)0368 – C8-0238/2018 – 2018/0193(COD)), P9_TA(2021)0076.

II. INTERINSTITUTIONAL NEGOTIATIONS

7. The Slovenian Presidency started inter-institutional negotiations with the European Parliament in July 2021. Between July and late November 2021, 11 inter-institutional technical meetings and three political trilogues were held. The Presidency debriefed Coreper on the outcome of these trilogues on 8 September, 20 October and 19 November 2021 respectively. The Presidency also debriefed the Working Party on Fisheries Policy regularly on the progress made in inter-institutional technical meetings. The last inter-institutional technical meeting under the Slovenian Presidency is scheduled on 3 December and the last trilogue on 7 December.
8. The institutions agreed to divide the Commission proposal into 19 thematic “sequences” and to address those in the order of their numbering (see Annex 3). The numbering was chosen with a view to facilitate negotiations. Between July and late November 2021, the institutions intensively discussed sequences 1, 2, 3, 5 and part of sequence 6. The European Parliament repeatedly postponed negotiations on sequence 4 due to ongoing internal discussions. It has recently indicated that it might be ready to exchange views on sequence 4 in the trilogue on 7 December 2021.
9. Negotiations proved to be most intensive on the composition of the Administrative Board of EFCA and the definitions of and approach to fishing and catching vessels. It became increasingly obvious that granting the Parliament a seat on EFCA’s Administrative Board, together with aligning the EFCA Regulation with horizontal rules on decentralised agencies¹⁰, would allow agreeing on numerous other provisions, including the topic of fishing and catching vessels. As for the IUU regulation, the European Parliament accepted all changes proposed in the General Approach.

III. PREPARATION OF THE NEXT TRILOGUE

10. To prepare the trilogue of 7 December, the Presidency presented, on 25 November, to the Working Party on Fisheries Policy its suggested mandate on sequences 1 to 6, with a focus

¹⁰ In particular, the ‘Framework Financial Regulation’ (Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1)) and the Joint Statement of the European Parliament, the Council of the EU and the European Commission on decentralised agencies of 19 July 2012.

on sequences 1, 2, 3 and 5¹¹, which was widely supported by delegations. On 29 November, the Presidency presented a slightly revised version of the suggested mandate¹², taking into account oral and written comments of several delegations¹³, during a meeting of Councillors/Attachés on Fisheries Policy. This revised Presidency's proposal for a mandate is set out in Annexes 1 and 2 to this note¹⁴.

11. On the basis of this mandate, the Presidency will in principle defend the Council's General Approach for most of the provisions. However, the Presidency seeks to have some flexibility to address some of the European Parliament's most important concerns and to accept several compromise texts prepared during the inter-institutional negotiations and acceptable to the European Parliament and the Commission, as follows:

a) On the EFCA regulation ('sequence 1'):

- i. to accept the proposed compromise texts relating to the objectives, definitions and mission of the Agency set out in Annex 1 (Articles 1, 2 and 3 EFCA Regulation¹⁵);
- ii. to accept that the European Parliament appoints one representative without the right to vote to EFCA's Administrative Board (Article 33(1) EFCA Regulation¹⁶);
- iii. to align various provisions related to the adoption of EFCA's programming documents to horizontal rules applicable to decentralised agencies (Articles 24(3), 25, 32(2)(c), 38(3)(a) and 48(1)¹⁷);

b) On definitions of the control regulation ('sequence 2'):

- i. to accept a corrected definition of the term 'multiannual plans' (Article 4(24) of the control regulation)¹⁸;

c) On licences and authorisations set out in the control regulation ('sequence 3'):

- i. to agree to refer to 'towing and auxiliary vessels' in the definition of 'fishing vessel' and to grant flexibility to further explore how to refer to aquaculture vessels (Article 4(31) of the control regulation¹⁹);

¹¹ doc. 14148/21 + ADD1.

¹² doc. 14148/21 REV1.

¹³ doc. 14446/21 + ADD1.

¹⁴ The document set out in Annex 2 can for technical reasons linked to the Trilogue Table Editor (TTE) not be included in the 4-column document set out in Annex 1.

¹⁵ Rows 1150, 1151a, 1151c and d, 1154, 1156 and 1156a in the Table set out in Annex 1.

¹⁶ Row 1178c.

¹⁷ Rows 1174a and b, 1178a and b, 1191 and 1201.

¹⁸ Row 146. References to the control regulation mean references to the Articles of the control regulation set out in the Commission's proposal and/or the General Approach.

- ii. grant flexibility to modify the definition of ‘fishing authorisation’ and the provisions related to it (Articles 4(10) and 7 of the control regulation)²⁰ and to introduce a new Article (proposed Article 7a)²¹ relating to authorisations of vessels that are not catching vessels;
 - iii. flexibility to support new wording for the provision relating to exemptions of having authorisations that takes into account certain concerns about this provision in the GA (Article 7(6) of the control regulation²²);
 - iv. flexibility to accept a paragraph and recital on end of use fishing gear (Article 8(2) of the control regulation)²³
- d) On the topic of fishing without a fishing vessel (‘sequence 4’):
- i. flexibility to explore including an explicit definition of “fishing without fishing vessels” in the control regulation and its exact wording (Article 4 and 54d of the control regulation²⁴), as well as flexibility to explore using terminology and approaches proposed by the Parliament on some elements of the proposal (Article 54d)²⁵;
- e) On the IUU Regulation, in particular, IT CATCH - digital management of catch certificates (‘sequence 5’):
- i. to accept various changes that address errors and omissions in the Commission’s proposal, in particular, relating to ‘exportation’(Articles 12(5), 12a(1) and 54a)²⁶;
 - ii. to accept updating an outdated reference to vessel identifiers as proposed by the Parliament (Annex II to the IUU regulation²⁷);
- f) On the topic of national control programme, surveillance and inspections (‘sequence 6’):
- i. to grant flexibility to explore alternative drafting for the definition of “rules of the common fisheries policy” (Article 4(2) of the control regulation²⁸) as

well as agreeing to different wording as regards several other definitions (Article 4(5) to (7) of the control regulation²⁹);

- ii. flexibility to refer to “landing site” in various provisions (Article 43 of the control regulation³⁰) and consider adding an explicit definition.

III. CONCLUSIONS

12. The Permanent Representatives Committee is invited to enable the Presidency to conduct negotiations with the European Parliament and to:

- endorse the Presidency's suggested mandate for sequences 1 to 6 as set out in Annexes 1 and 2 to this note;
- indicate flexibilities in relation to issues as presented in point 11 of this note.

Note: The institutions work under the premise that “nothing is agreed until everything is agreed”. Where this document mentions that individual institutions agree on specific text or an approach, this only means a tentative agreement. The same applies to comments that an institution withdraws a proposal.

Column 4 (“Presidency’s proposed mandate”) provides information on the state of play in the negotiations and suggestions by the Presidency on changes to the General Approach in view of achieving an agreement in the inter-institutional negotiations.

The numbering of the rows is overall identical to the numbering in doc. ST 10406 (4-column document of 2 July 2021), except for a very limited number of rows which have been renumbered, including for technical reasons linked to the database used. Proposed changes to Annex II to Regulation (EC) No 1005/2008 (IUU Regulation) (distributed before in doc. ST 10406 ADD 1-3) are set out in Annex 2.

Recitals will need to be examined once an agreement has been reached on the related Articles, and are thus currently excluded from the suggested approach, with the exception of specific provisions where agreement on a recital is crucial for agreement on the provision. Such recitals are addressed in the particular row relating to the provision.
