Subject:	Regulation amending the organic farming regulation as regards rules on production, labelling, certification and trade *Confirmation of the final compromise text with a view to agreement*

In document 14715/26, on pages 28 and 29, the amendment to point 1.3.4.4.2 of Part II of Annex II to Regulation (EU) 2018/848 should read as follows:

"point 1.3.4.4.2 is replaced by the following:

'1.3.4.4.2 - For breeding purposes, non organic sexually mature male and non-organic nulliparous female animals may be introduced for the renewal of a herd or flock. They shall be reared subsequently in accordance with the organic production rules. In addition, the number of female animals shall be subject to the following restrictions per year:

(a) up to a maximum of 10 % of adult equine animals or bovine animals and 20 % of the adult porcine animals, ovine animals, caprine animals, rabbits or cervine animals may be introduced;

(b) for units with fewer than 10 equine animals, cervine animals or bovine animals or rabbits, or with fewer than five porcine animals, ovine animals or caprine animals, any such renewal shall be limited to a maximum of one animal per year.'.'".

On page 28 of the same document, the amendment to point 1.9.3.1 of Part II of Annex II to Regulation (EU) 2018/848 appears in error and will be deleted. The correct amendment appears on page 30.
