ADD 1

LIMITE

PECHE 476

NOTE

From: General Secretariat of the Council
To: Delegations

Subject: Proposal for a Council Regulation fixing for 2022 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in Union waters and for Union fishing vessels in certain non-Union waters

- Commission non-paper

Delegations will find attached a Commission non-paper on the above-mentioned proposal, as received from the Commission services.

CORRIGENDUM

TO THE COMMISSION NON-PAPER OF 7 DECEMBER 2021

12 December 2021

This document serves as a basis for discussion at the Working Party on Internal and External Fisheries Policy. It cannot in any circumstances be regarded as the official position of the Commission. It is intended solely for those to whom it is addressed.

UPDATES TO COMMISSION PROPOSAL FOR A COUNCIL REGULATION FIXING FOR 2022 THE FISHING OPPORTUNITIES FOR CERTAIN FISH STOCKS AND GROUPS OF FISH STOCKS APPLICABLE IN UNION WATERS AND FOR UNION FISHING VESSELS IN CERTAIN NON-UNION WATERS (COM(2021) 661)

Contents

1. EXPLANATORY MEMORANDUM 3
2. AMENDMENTS TO ENACTING TERMS OF THE COMMISSION PROPOSAL (COM(2021) 661) 6
3. AMENDMENTS TO ANNEX IA OF THE COMMISSION PROPOSAL 9

1. EXPLANATORY MEMORANDUM

In order to anticipate for the contingency of no agreement with the UK and with Norway, the Commission submitted a non-paper on 7 December 2021 with provisional TACs for 2022. The TAC levels are based on a rollover of the 2021 adopted TACs by the Council, applying a 25 % ratio to these 2021 TAC levels, to cover the fishing activity in the first quarter of 2022.

TACs included in the Commission non-paper were calculated without factoring in TAC deductions applied to take into account the applicable exemptions to the obligation to land all discards, nor Hague preferences. This corrigendum replaces these TACs figures with new figures reflecting the 25 % ratio of the 2021 TACs including application of TAC deductions and Hague preferences. The table below provides an overview of the TACs to which such deductions and Hague preferences were applied, together with the associated impact on the EU quota when these are applied deductions. It also includes sandeel TACs, which should be set at zero pending publication of the scientific advice. While Hague preferences were applied to all eligible stocks in 2021 and thus reflected in this proposal of 25 % ratio of the 2021 TAC, this does not prejudice the decision of the relevant Member State whether to invoke such a mechanism in the setting of the definitive TACs.

On 10 December 2021, the Union reached a trilateral agreement with Norway and the UK on fishing opportunities for 6 shared stocks in the North Sea and Skagerrak, and a bilateral agreement with Norway on fishing opportunities for 2 shared stocks in the Skagerrak, also including reciprocal access to waters and exchange of quotas. The Commission therefore proposes to set the relevant TACs at levels agreed with Norway and the UK for the whole of 2022, through a stand-alone non-paper.

This corrigendum also updates the Commission non-paper in relation to Northern European seabass. Article 9 in the Commission non-paper is replaced by a new article 9, where measures on recreational fisheries are added.

In its non-paper from 7 December 2021, the Commission included in Annex IA a table for Norway lobster in Skagerrak (NEP/03A.). This is an EU-only stock which should have not been proposed for a 25% rollover of the 2021 TAC. It is therefore necessary to withdraw this TAC table from the non-paper.

2. AMENDMENTS TO ENACTING TERMS OF THE COMMISSION PROPOSAL (COM(2021) 661)

In the Commission non-paper of 7 December 2021, the seventeenth paragraph of the recital is amended as follows:

“**Northern** European seabass is a stock shared with third countries. Therefore provisional measures should be set for the first quarter of 2022 for this stock, pending the outcome of international negotiations and consultations.”

In the Commission non-paper of 7 December 2021, Article 9 should be replaced by article 9a as follows:

“Article 9

1. It shall be prohibited for Union fishing vessels, as well as for any commercial fisheries from shore, to fish for European seabass in ICES divisions 4b and 4c, and in ICES subarea 7. It shall be prohibited to retain, tranship, relocate or land European seabass caught in that area.
2. The prohibition set out in paragraph 1 shall not apply to by-catches of seabass in shore-based commercial netting activities. This exemption applies to historic numbers of beach nets set at pre-2017 levels. Shore-based commercial netting activities shall not target seabass and only unavoidable by-catches of seabass may be landed.
3. By way of derogation from paragraph 1, in January 2022, Union fishing vessels in ICES divisions 4b, 4c, 7d, 7e, 7f and 7h may fish for European seabass, and retain, tranship, relocate or land European seabass caught in that area with the following gear and within the following limits:
 - (a) using demersal trawls¹, for unavoidable by-catches not exceeding 380 kilogrammes per month and 5 % of the weight of the total catches of marine organisms on board caught by that vessel per fishing trip;
 - (b) using seines², for unavoidable by-catches not exceeding 380 kilogrammes per month and 5 % of the weight of the total catches of marine organisms on board caught by that vessel per fishing trip;
 - (c) using hooks and lines³, not exceeding 1,43 tonnes per vessel;
 - (d) using fixed gillnets⁴, for unavoidable by-catches not exceeding 0,35 tonnes per vessel.

The derogations set out in the first subparagraph shall apply to Union fishing vessels that have recorded catches of European seabass over the period from 1 July 2015 to 30 September 2016: in point (a) with recorded catches using hooks and lines, and in point (b) with recorded catches using fixed gillnets. In the case of a replacement of a Union fishing vessel, Member States may allow the derogation to apply to another fishing vessel provided that the number of Union fishing vessels subject to the derogation and their overall fishing capacity do not increase.

¹ All types of demersal trawls (OTB, OTT, PTB, TBB, TBN, TBS and TB).

² All types of seines (SSC, SDN, SPR, SV, SB and SX).

³ All long lines or pole and line or rod and line fisheries (LHP, LHM, LLD, LL, LTL, LX and LLS).

⁴ All fixed gillnets and traps (GTR, GNS, GNC, FYK, FPN and FIX).

4. The catch limits set out in paragraph 3 shall not be transferable between vessels and, where a monthly limit applies, from one month to another. For Union fishing vessels using more than one gear in a single calendar month, the lowest catch limit set out in paragraph 3 for either gear shall apply.

Member States shall report to the Commission all catches of European seabass per type of gear no later than 15 days after the end of each month.

5. In recreational fisheries, including from shore, in ICES divisions 4b, 4c, 6a, 7a to 7k:
 - (a) from 1 January to 28 February, only catch-and-release fishing with a rod or a handline for European seabass shall be allowed. During that period, it shall be prohibited to retain, relocate, tranship or land European seabass caught in that area;
 - (b) from 1 to 31 March not more than two specimens of European seabass may be caught and retained per fisherman per day; the minimum size of European seabass retained shall be 42 cm.

Point (b) of the first subparagraph shall not apply to fixed nets, which shall not be used to catch or retain European seabass during the period referred to in that point.

6. Paragraph 5 shall be without prejudice to more stringent national measures on recreational fisheries.”

3. AMENDMENTS TO ANNEX IA OF THE COMMISSION PROPOSAL

In the Commission non-paper of 7 December 2021, the relevant fishing opportunities tables of Annex IA are replaced by the following:

| | | | |
|----------------|--|--|--|
| Species: | Sandeel and associated by-catches <i>Ammodytes spp.</i> | Zone: | United Kingdom and Union waters of 4; United Kingdom waters of 2a; Union waters of 3a(1) |
| Denmark | 0 ⁽²⁾⁽³⁾ | Analytical TAC | |
| Germany | 0 ⁽²⁾⁽³⁾ | Article 3 of Regulation (EC) No 847/96 shall not apply | |
| Sweden | 0 ⁽²⁾⁽³⁾ | Article 4 of Regulation (EC) No 847/96 shall not apply Article 6a(1) of this Regulation applies | |
| Union | 0 ⁽²⁾ | | |
| United Kingdom | 0 ⁽²⁾ | | |
| TAC | 0 ⁽²⁾ | | |

(1) Excluding waters within six nautical miles of the UK baselines at Shetland, Fair Isle and Foula.

(2) In management areas 1r and 2r the TAC may only be fished as monitoring TAC with an associated sampling protocol for the fishery.

(3) Up to 2 % of the quota may consist of by-catches of whiting and mackerel (OT1/*2A3A4X). By-catches of whiting and mackerel counted against the quota pursuant to this provision and by-catches of species counted against the quota pursuant to Article 15(8) of Regulation (EU) No 1380/2013 shall, together, not exceed 9 % of the quota.

Special condition: within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the following sandeel management areas, as defined in Annex III:

Zone: United Kingdom and Union waters of sandeel management areas

| | 1r | 2r | 3r | 4 | 5r | 6 | 7r |
