Remarks

The assignment of customs duties as own resource to the financing of common expenditure is the logical consequence of the free movement of goods within the Union. This article may comprise levies, premiums, additional or compensatory amounts, additional amounts or factors, Common Customs Tariff duties and other duties established or to be established by the institutions of the European Union in respect of trade with third countries and customs duties on products under the expired Treaty establishing the European Coal and Steel Community.

Figures are net of collection costs.

Remarks

The GNI-based resource is an ‘additional’ resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments, the plastic-based own resource and other revenue in any particular year. By implication, the GNI-based resource ensures that the budget is always balanced *ex ante*.

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (plastic-based own resource, VAT-based resource, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States’ GNI for financial year 2025 is 0,5472 %.

Remarks

This appropriation is intended to cover actions to contribute to the development of projects of common interest relating to efficient, interconnected and multimodal networks and infrastructure for smart, interoperable, sustainable, inclusive, accessible, safe and secure mobility. Those projects will be implemented mainly through calls for proposals under multiannual work programmes constituting financing decisions within the meaning of Article 110 of the Financial Regulation.

This appropriation will support actions that take into account the long-term decarbonisation commitments of the Union. The implementation will take the form of studies, works and other accompanying measures necessary for the management and delivery of the CEF, in line with the sector specific guidelines, i.e. the TEN-T Guidelines.

Eligible actions will relate to the development of efficient, interconnected and multimodal networks in railways, inland waterways, maritime ports and road infrastructure along the TEN-T core network and for cross-border links, maritime ports and inland ports located on the TEN-T comprehensive network. Moreover, support will be provided to smart, interoperable, sustainable, multimodal, inclusive, accessible, safe and secure mobility, such as Motorways of the Sea, telematics application systems for all transport modes, new technologies and innovation with a specific focus on alternative fuels infrastructures, actions to remove interoperability barriers and actions improving transport infrastructure accessibility and resilience.

Assigned revenue received may give rise to additional appropriations under this budget line in accordance with Article 22(1) of the Financial Regulation.

Remarks

Appropriations under this chapter are intended to contribute to the good functioning of the single market for goods and services, including financial services, anti-money laundering and the free movement of capital, and to provide high quality European statistics on all Union policies, as per the purpose of the Programme for the single market, competitiveness of enterprises, including small and medium-sized enterprises, and European statistics ('Single Market Programme'). In particular, the programme will support the design, implementation and enforcement of the Union legislation underpinning the proper functioning of the single market for goods and services, including financial services, anti-money laundering and the free movement of capital, as well as capacity building, coordination of joint actions between Member States and the Commission, and the international dimension of the internal market. It will also support women's participation and contribute to the empowerment of all actors of the single market: businesses, citizens including consumers, civil society and public authorities. The Single Market Programme brings together six preceding programmes from different policy areas, notably the grants and contracts part of the Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME), programmes on consumer protection, enhancing the participation of consumers and other end users in financial services policymaking, the development of international financial, auditing and corporate reporting standards, measures to contribute to a high level of health for humans, animals and plants along the food chain and in related areas, and European statistics. In addition, the programme includes several other budgetary lines concerning, in particular market surveillance, company law, contract and extra-contractual law, standardisation and support for competition policy, customs and taxation. The

impact assessment showed that one single programme will create synergies contributing to more agile and efficient budgetary spending.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover expenditure relevant to Regulation (EU) 2021/240 establishing a Technical Support Instrument and Regulation (EU) 2021/241 establishing the Recovery and Resilience Facility.

The Recovery and Resilience Facility is intended to promote the Union's economic, social and territorial cohesion by improving the resilience, crisis preparedness, adjustment capacity and growth potential of the Member States, by mitigating the social and economic impact of the COVID-19 crisis, and supporting the green and digital transitions, thereby contributing to restoring the growth potential of the economies of the Union, fostering employment creation in the aftermath of the COVID-19 crisis, and promoting sustainable growth. It is to provide Member States with financial support with a view to achieving the milestones and targets of reforms and investments as set out in their recovery and resilience plans.

In accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue gives rise to the provision of appropriations for this programme under this title for a total amount of EUR 337 969 000 000 in commitments. Moreover, a total amount of EUR 20 000 000 000 is made available under that Regulation as additional non-repayable financial support to finance key investments and reforms that will help increasing the resilience of the Union's energy system through a decrease of dependence on fossil fuels and diversification of energy supplies at Union level (REPowerEU). That amount also constitutes external assigned revenue in accordance with Article 21(5) of the Financial Regulation. Such amounts had to be legally committed before the end of 2023 with the exception of administrative expenditure for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

The Technical Support Instrument is intended to promote the Union's economic, social and territorial cohesion by supporting Member States' efforts to implement reforms. This is necessary to encourage investment, to increase competitiveness and to achieve sustainable economic and social convergence, resilience and recovery. The Technical Support Instrument's objective is to support Member States' efforts to design, develop and implement reforms and prepare, develop, amend and implement recovery and resilience plans pursuant to Regulation (EU) 2021/241. This includes strengthening their institutional and administrative capacity, in order to properly quantify costing, milestones and targets, including at regional and local levels, to facilitate socially inclusive, green and digital transitions, to effectively address the challenges identified in the country-specific recommendations and to implement Union law.

Remarks

Article 3 of Regulation (EC) No 851/2004 provides that the mission of the European Centre for Disease Prevention and Control is the following:

- In order to enhance the capacity of the Union and the Member States to protect human health through the prevention and control of communicable diseases in humans and related special health issues, the mission of the Centre is to identify and assess current and emerging threats to human health from communicable diseases and related special health issues, to report thereon and, where appropriate, to ensure that information thereon is presented in an easily accessible way. The Centre acts in collaboration with competent bodies of the Member States or on its own initiative, through a dedicated network. The mission of the Centre is also to provide science-based recommendations and support in coordinating the response at Union and national levels, as well as at cross-border interregional and regional level, to such threats, where appropriate. In providing such recommendations, the Centre, where necessary, cooperates with Member States and takes into account existing national crisis management plans and the respective circumstances of each Member State.
- In the event of other outbreaks of diseases of unknown origin that may spread within or to the Union, the Centre acts on its own initiative until the source of the outbreak is known. In the case of an outbreak that is clearly not of a communicable disease, the Centre acts only in cooperation with the coordinating competent bodies and upon their request, and provides a risk assessment.
- In pursuing its mission, the Centre respects the responsibilities of the Member States, the Commission and other Union bodies or agencies, and the responsibilities of third countries and international organisations

active within the field of public health, in particular the World Health Organisation (WHO), in order to ensure that there is comprehensiveness, coherence and complementarity of action and that actions are coordinated.

- The Centre supports the work of the Health Security Committee (HSC), established by Article 4 of Regulation (EU) 2022/2371 of the European Parliament and of the Council of 23 November 2022 on serious cross-border threats to health and repealing Decision No 1082/2013/EU (OJ L 314, 6.12.2022, p. 26, ELI: <http://data.europa.eu/eli/reg/2022/2371/oj>)

), the Council, the Member States and, where relevant, other Union structures, in order to promote effective coherence between their respective activities and to coordinate responses to serious cross-border threats to health, within its mandate.

Remarks

European Food Safety Authority (EFSA) is the cornerstone of the Union system of risk assessment for food and feed safety. Its scientific advice on existing and emerging risks underpins the policies and decisions of risk managers in the Union institutions and Member States with the objective of protecting consumer health. The Authority's most critical commitment is to provide objective, transparent and independent advice and clear communication grounded in the most up-to-date scientific methodologies, information and data available. The Authority is committed to the core standards of scientific excellence, openness, transparency, independence and responsiveness.

The establishment plan of the Authority, as the outgoing Chair of the EU Agencies Network, includes one post to create a position for the Head of the Shared Support Office in Brussels. This is with the aim of promoting efficiency gains and

synergies across agencies and with the institutions, so that individual agencies can focus their resources on core tasks. The financing of the post for the Head of the Shared Support Office will be shared between the agencies, which means that no additional funding for the Authority is required in this respect.

Remarks

Appropriations under this chapter are intended to cover expenditure to support Member States to achieve high employment levels, fair social protection and a skilled and resilient workforce ready for the future world of work, as well as expenditure to support, complement and add value to the policies of the Member States to ensure equal opportunities, access to the labour market, fair working conditions, social protection and inclusion.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue gives rise to the provision of appropriations for programmes financed under REACT-EU under Titles 05 and 07 for a total amount of EUR 50 620 000 000 in commitments. Such amounts had to be legally committed before the end of 2023, with the exception of administrative expenditure, for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

Remarks

This appropriation is intended to cover expenditure aiming to reduce the economic, social and territorial disparities, which have arisen, particularly in countries and regions whose development is lagging behind, in connection with the speeding-up of economic and social restructuring, clean energy transition, digitalisation of the workplace, growing skills and labour shortages and the implications and impact of demographic change, including population ageing, in order to create a more social Europe. This is to be done in line with the principles of the European Pillar of Social Rights.

It will cover the following three categories of regions:

- less developed regions, with a GDP per capita less than 75 % of the average GDP of the Union,
- transition regions, with a GDP per capita between 75 % and 100 % of the average GDP of the Union,
- more developed regions, with a GDP per capita above 100 % of the average GDP of the Union.

Promotion of equality between women and men horizontally and through specific actions should be part of the support provided by the ESF+ in order to increase the participation of women in employment as well as conciliation between working and personal life and combat the feminisation of poverty and gender discrimination in the labour market and in education and training.
