PECHE 485

NOTE

From:	Presidency
To:	Council
No. prev. doc.:	ST 14946/21 + ADD 1 - 2 ST 14390/21
Subject:	1/ Proposal for a COUNCIL REGULATION fixing for 2022 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in Union waters and for Union fishing vessels in certain non-Union waters 2/ Proposal for a Council Regulation fixing for 2022 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Mediterranean and Black Seas

Delegations will find attached a Presidency compromise in agreement with the Commission on the above-mentioned proposals. The changes are marked in **bold underline** and ~~**bold strikethrough**~~ and compared to:

- (in part 1) the consolidated version of the Main TAC and quotas proposal (docs. 14946/21 + ADD 1-2);
- (in part 2) the presidency compromise of the Mediterranean and Black Seas fishing opportunities (doc. 14390/21).

With regards to part 1, technical corrections inserted in some tables are not marked.

This document replaces the first Presidency compromise.

**Part 1: Main TACs
Fishing Opportunities 2022**

1. CHANGES TO RECITALS

The following recital is inserted:

(9c) In ICES divisions 8c, 8d, 8e and subareas 9 and 10 and in Union waters of CEEAF 34.1.1, three distinct species of sole are managed within a single TAC. As fishing opportunities for one of those stocks, i.e. for common sole (*Solea solea*) in ICES divisions 8c and 9a, should be set in line with Article 4 of the Western Waters MAP, a separate catch limit should be established for that species, in line with the maximum sustainable yield advice.

Recital (31) is replaced by the following:

(31) The annual meeting of the South Pacific Regional Fisheries Management Organisation (SPRFMO) will be held from 24 to 28 January 2022. The current measures in the SPRFMO Convention Area **that are functionally linked to the TACs** should therefore be provisionally maintained until the annual meeting is held **and the TACs for 2022 are determined.**

Recital (45) is replaced by the following:

“(45) **In accordance with the procedure provided for in the Agreement and Protocol on fisheries relations with Greenland, the Joint Committee has established the level of fishing opportunities available for the Union in Greenland waters in 2022¹. Those measures should be implemented in Union law.**”

The following recitals are amended as follows:

~~None of these consultations have been concluded.~~

As ~~the above mentioned consultations have not yet been undertaken~~ **the bilateral consultations with the UK have not been concluded yet**, the Council should, in full respect of the United Nations Convention on the Law of the Sea (UNCLOS) and rights and obligations of the coastal states as well as their sovereignty and jurisdiction, fix provisional TACs to be fished in EU and international waters, and waters to which the EU vessels are granted access by third countries.

¹ Fisheries Partnership Agreement between the European Community on the one hand, and the Government of Denmark and the Home Rule Government of Greenland, on the other hand (OJ L 172, 30.6.2007, p. 4) and Protocol setting out the fishing opportunities and financial contribution provided for in that Agreement (OJ L 293, 23.10.2012, p. 5).

In paragraph 13.12 of the Agreed Record from the bilateral consultations between the EU and Norway for Skagerrak, the EU announced its intention to use certain flexibility in the North Sea areas 4a and 4b equal to the EU part of 5.7% of the A-fleet level, or 21,038 tonnes. ~~This IAF is based on the C fleet levels for the different Member States although also available for the D fleet.~~

2. CHANGES TO THE ARTICLES

Paragraph 3 of Article 9 is amended as follows:

3. By way of derogation from paragraph 1, in January 2022, Union fishing vessels in ICES divisions 4b, 4c, 7d, 7e, 7f and 7h may fish for European seabass, and retain, tranship, relocate or land European seabass caught in that area with the following gear and within the following limits:
- (a) using demersal trawls², for unavoidable by-catches not exceeding 380 kilogrammes per month and 5 % of the weight of the total catches of marine organisms on board caught by that vessel per fishing trip;
 - (b) using seines³, for unavoidable by-catches not exceeding 380 kilogrammes per month and 5 % of the weight of the total catches of marine organisms on board caught by that vessel per fishing trip;
 - (c) using hooks and lines⁴, not exceeding 1,43 tonnes per vessel;
 - (d) using fixed gillnets⁵, for unavoidable by-catches not exceeding 0,35 tonnes per vessel.

The derogations set out in the first subparagraph shall apply to Union fishing vessels that have recorded catches of European seabass over the period from 1 July 2015 to 30 September 2016: in point ~~(a)~~(c) with recorded catches using hooks and lines, and in point ~~(b)~~(d) with recorded catches using fixed gillnets. In the case of a replacement of a Union fishing vessel, Member States may allow the derogation to apply to another fishing vessel provided that the number of Union fishing vessels subject to the derogation and their overall fishing capacity do not increase.

² All types of demersal trawls (OTB, OTT, PTB, TBB, TBN, TBS and TB).

³ All types of seines (SSC, SDN, SPR, SV, SB and SX).

⁴ All long lines or pole and line or rod and line fisheries (LHP, LHM, LLD, LL, LTL, LX and LLS).

⁵ All fixed gillnets and traps (GTR, GNS, GNC, FYK, FPN and FIX).

In Article 51a, the following is inserted:

“In Annex IB of Council Regulation (EU) 2021/92, the fishing opportunities table for capelin in Greenland waters of 5 and 14 (CAP/514GRN) is replaced by the following:

Species:	Capelin <i>Mallotus villosus</i>	Zone:	Greenland waters of 5 and 14 (CAP/514GRN)
Denmark	0	Analytical TAC	
Germany	0	Article 3 of Regulation (EC) No 847/96 shall not apply	
Sweden	0	Article 4 of Regulation (EC) No 847/96 shall not apply	
All Member States	0 ⁽¹⁾		
Union	0 ⁽²⁾		
Norway	69 623 ⁽²⁾		
TAC	Not relevant		
⁽¹⁾	Denmark, Germany and Sweden may access the ‘All Member States’ quota only once they have exhausted their own quota. However, Member States with more than 10 % of the Union quota shall not access the ‘All Member States’ quota at all. Catches to be counted against this shared quota shall be reported separately (CAP/514GRN_AMS).		
⁽²⁾	For a fishing period from 15 October 2021 to 15 April 2022.		

”

3. CHANGES TO THE TAC TABLES

Common name	TAC Unit	TAC for 2021	Proposal TAC change 2021 - 2022	Compromise TAC change 2021 - 2022	Compromise TAC 2022 (tonnes)
Cod	3 (Kattegat)	123 tonnes	97 tonnes		97 tonnes and additional 30% for vessels participating in remote electronic monitoring fisheries
Hake	8c, 9, 10	8 517 tonnes	-18% (6 947t)	-8%	7 836 tonnes
Norway lobster	FU31 in 8c	0.7 tonnes	+1 429% (10 t)	2 000%	14 tonnes
Norway lobster	9, 10	374 tonnes	-16% (316t)	-5%	355 tonnes
Pollack	8abde	1 482 tonnes	-20% (1 185t)	RO	1 482 tonnes
Pollack	8c	166 tonnes	-10% (149t)	RO	166 tonnes
Pollack	9, 10	203 tonnes	-10% (182t)	RO	203 tonnes
Common sole	7bc	34 tonnes	- 44% (19t)	RO	34 tonnes
Sole	8cde, 9, 10	686 tonnes	- 15% (582t)	-5% Sub-TAC for common sole of 320 tonnes	652 tonnes for TAC under which up to 320 tonnes of common sole may be fished

- The TAC table for cod in the Kattegat is replaced by the following:

Species: Cod <i>Gadus morhua</i>	Zone: Kattegat (COD/03AS.)
Denmark	60 ⁽¹⁾⁽²⁾ Precautionary TAC
Germany	1 ⁽¹⁾⁽²⁾ Article 3 of Regulation (EC) No 847/96 shall not apply
Sweden	36 ⁽¹⁾⁽²⁾ Article 4 of Regulation (EC) No 847/96 shall not apply
Union	97 ⁽¹⁾⁽²⁾
TAC	97 ⁽¹⁾⁽²⁾

⁽¹⁾ Exclusively for by-catches. No directed fisheries are permitted under this quota.

⁽²⁾ **In addition to the above-mentioned quotas, a Member State may grant to vessels flying its flag and participating in trials on remote electronic monitoring an additional allocation, within an overall limit of 30% of the quota allocated to that Member State. Each vessel participating in trials on remote electronic monitoring shall take no more than 300kg. Catches from this additional allocation shall be reported separately (COD/...). This shall be without prejudice to the relative stability.**

- The TAC table for Solea spp. in 8cde, 9 and 10 is replaced by the following:

Species: Sole <i>Solea spp.</i>	Zone: 8c, 8d, 8e, 9 and 10; Union waters of CECAF 34.1.1 (SOO/8CDE34)
Spain	245 ⁽¹⁾ Precautionary TAC
Portugal	407 ⁽¹⁾
Union	652 ⁽¹⁾
TAC	652 ⁽¹⁾

⁽¹⁾ **Within the limits of the above-mentioned quotas, no more than the quantities of common sole (*Solea solea*) given below shall be taken:**

<u>Species:</u> <u>Common sole</u> <i>Solea solea</i>	<u>Zone:</u> <u>8c, 8d, 8e, 9 and 10; Union waters of</u> <u>CECAF 34.1.1</u> <u>(SOL/8CDE34)</u>
<u>Union</u>	<u>320</u> <u>Precautionary TAC</u>
<u>TAC</u>	<u>320</u>

- The TAC table for Mediterranean albacore in the Mediterranean Sea is replaced by the following:

Species:	Mediterranean albacore <i>Thunnus alalunga</i>	Zone:	Mediterranean Sea (ALB/MED)
TAC	2 500 ⁽¹⁾⁽²⁾	Analytical TAC	Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply
(1)	In order to protect juvenile swordfish, a closure period shall also apply to longline vessels targeting Mediterranean albacore from 1 October to 30 November. In addition, Mediterranean albacore, either as a targeted species or as by-catch, shall not be caught, retained on board, transhipped or landed from 1 January to 31 March during either (a) the period from 1 October to 30 November and during an additional period of one month between 15 February and 31 March; or (b), alternatively, during the period from 1 January to 31 March each year.		
(2)	Each Member State shall limit the number of their fishing vessels authorised to fish for Mediterranean albacore to the number of vessels authorised to fish this species either (a) in 2017; or alternatively, (b) in 2018 for Member States which started to issue licenses for their fishing vessels in 2018. Member States, which used 2017 as the year of reference, may apply a tolerance of 10% to this capacity limit.		

4. CHANGES TO THE TAC TABLES FOR PROVISIONAL TACS

Stock	Proposed rollover	Compromise for 2022	2022 EU TAC
Norway pout North Sea <i>NOP/2A3A4</i>	25%	75%	EU quota: 36 957 TAC: 44 796
Horse mackerel <i>JAX/2A-14</i>	65%	70%	43 416 t
Boarfish <i>BOR/567-</i>	25%	30%	5 380 t
Cod Celtic Sea <i>COD/7XAD34</i>	5%	25%	182 t
Anglerfish North Sea <i>ANF/2AC4-C</i>	25%	40%	619 t
Skates and rays North Sea <i>SRX/2AC4-C</i>	25%	50%	267 t

Plaice Bristol Channel <i>PLE/7HJK.</i>	25%	40%	28 t
Whiting Irish Sea <i>WHG/07A.</i>	25%	40%	120 t
Whiting Celtic Sea <i>WHG/7X7A-C</i>	25%	85%	7 383 t
Norway lobster North Sea <i>NEP/2AC4-C</i>	25%	40%	1 021 t

5. CORRECTIONS FOR STOCKS SUBJECT TO BILATERAL AND TRILATERAL CONSULTATIONS

In Annex IA, the relevant TAC tables are replaced by the following:

Species: Tusk <i>Brosme brosme</i>	Zone: 6 and 7; United Kingdom and international waters of 5 (USK/567EI.)
Germany	15 ⁽¹⁾ Precautionary TAC
Spain	52 ⁽¹⁾ Article 7(2) of this Regulation applies
France	617 ⁽¹⁾
Ireland	60 ⁽¹⁾
Others	15 ⁽²⁾
Union	758 ⁽¹⁾
Norway	0 ⁽³⁾⁽⁴⁾⁽⁵⁾
United Kingdom	316 ⁽¹⁾
TAC	1 074

- (1) Special condition: of which up to 10 % may be fished in United Kingdom and Union waters of 4 (USK/*04-C).
- (2) Exclusively for by-catches. No directed fisheries are permitted under this quota. Catches to be counted against this shared quota shall be reported separately (USK/567EI_AMS).
- (3) Special condition: of which an incidental catch of other species of 25 % per vessel, at any moment, is authorised in 6 and 7; United Kingdom and international waters of 5 . However, this percentage may be exceeded in the first 24 hours following the beginning of the fishing on a specific ground. The total incidental catch of other species in 6 and 7; United Kingdom and international waters of 5 shall not exceed the amount below in tonnes (OTH/*5B67-). By-catch of cod under this provision in area 6a may not be more than 5 %.

0

- (4) Including ling. The following quotas for Norway shall only be fished with long-lines in 6 and 7; United Kingdom and international waters of 5 :

Ling (LIN/*5 B67-)	0
Tusk (USK/* 5B67-)	0

- (5) The tusk and ling quotas for Norway are interchangeable up to the following amount, in tonnes:
0

Species: Herring <i>Clupea harengus</i>	Zone: 3a (HER/03A.)
Denmark	10 516 ⁽¹⁾⁽²⁾⁽³⁾ Analytical TAC
Germany	168 ⁽¹⁾⁽²⁾⁽³⁾ Article 7(2) of this Regulation applies
Sweden	11 000 ⁽¹⁾⁽²⁾⁽³⁾
Union	21 684 ⁽¹⁾⁽²⁾⁽³⁾
Norway	3 337 ⁽²⁾
TAC	25 021

- (1) Catches of herring taken in fisheries using nets with mesh sizes equal to or larger than 32 mm.

- (2) Only the following amounts of the herring stocks HER/03A. and HER/03A-BC may be fished in ICES Division 3a:

Denmark	554
Germany	8
Sweden	407
Union	969
Norway	167

- (3) Special condition: subject to the relevant access restrictions, up to the following amounts may be fished in United Kingdom and Union waters of 4a and 4b (HER/*04-AB.):

Denmark	10 203
Germany	163
Sweden	10 672
Union	21 038

Species:	Herring <i>Clupea harengus</i>	Zone:	3a (HER/03A-BC)
Denmark	5 692	(1)(2)(3)	Analytical TAC
Germany	51	(1)(2)(3)	Article 7(2) of this Regulation applies
Sweden	916	(1)(2)(3)	
Union	6 659	(1)(2)(3)	
TAC	6 659	(2)	

(1) Exclusively for catches of herring taken as by-catch in fisheries using nets with mesh sizes smaller than 32 mm.

(2) Only the following amounts of the herring stocks HER/03A. and HER/03A-BC may be fished in ICES Division 3a:

Denmark	554
Germany	8
Sweden	407
Union	969

(3) Special condition: up to 50% of this quota may be fished in Union waters of 4 (HER/*04-C-BC).

Species:	Herring(1) <i>Clupea harengus</i>	Zone:	United Kingdom, Union and Norwegian waters of 4 north of 53°30' N (HER/4AB.)
Denmark	62 988		Analytical TAC
Germany	41 155		Article 7(2) of this Regulation applies
France	20 502

Union	267	(1)(3)	
United Kingdom	559	(1)(2)(3)(4)	
TAC	826	(3)	

- (1) Catches of blonde ray (*Raja brachyura*) in United Kingdom and Union waters of 4 (RJH/04-C.), cuckoo ray (*Leucoraja naevus*) (RJN/2AC4-C), thornback ray (*Raja clavata*) (RJC/2AC4-C) and spotted ray (*Raja montagui*) (RJM/2AC4-C) shall be reported separately.
- (2) By-catch quota. These species shall not comprise more than 25 % by live weight of the catch retained on board per fishing trip. This condition applies only to vessels over 15 metres' length overall. This provision shall not apply for catches subject to the landing obligation as set out in Article 15(1) of Regulation (EU) No 1380/2013 and UK retained Regulation (EU) No 1380/2013.
- (3) Shall not apply to blonde ray (*Raja brachyura*) in United Kingdom waters of 2a and small-eyed ray (*Raja microocellata*) in United Kingdom and Union waters of 2a and 4. When accidentally caught, these species shall not be harmed. Specimens shall be promptly released. Fishermen shall be encouraged to develop and use techniques and equipment to facilitate the rapid and safe release of the species.
- (4) Special condition: of which up to 10 % may be fished in 7d (SRX/*07D2.), without prejudice to the prohibitions set out in Articles 14 and 51 of this Regulation and in UK law for the areas specified therein. Catches of blonde ray (*Raja brachyura*) (RJH/*07D2.), cuckoo ray (*Leucoraja naevus*) (RJN/*07D2.), thornback ray (*Raja clavata*) (RJC/*07D2.) and spotted ray (*Raja montagui*) (RJM/*07D2.) shall be reported separately. This special condition shall not apply to small-eyed ray (*Raja microocellata*) and undulate ray (*Raja undulata*).

Species:	Mackerel	Zone:	3a and 4; 3b, 3c and Subdivisions 22-32 (MAC/2A34.)

PART B

MAXIMUM NUMBER OF FISHING AUTHORISATIONS
FOR THIRD-COUNTRY VESSELS FISHING IN UNION WATERS

Flag State	Fishery	Number of fishing authorisations	Maximum number of vessels present at any time
Norway	Herring, north of 62° 00' N	To be establ.	To be establ.
Venezuela ⁽¹⁾⁽²⁾	Snappers (French Guiana waters)	45	45
<p>(1) To issue those fishing authorisations, proof must be produced that a valid contract exists between the vessel owner applying for the fishing authorisation and a processing company situated in the Department of French Guiana, and that it includes an obligation to land at least 75 % of all snapper catches from the vessel concerned in that department so that they may be processed in that company's premises. Such a contract must be endorsed by the French authorities, which shall ensure that it is consistent both with the actual capacity of the contracting processing company and with the Guianese economy development objectives. A copy of the endorsed contract shall be appended to the fishing authorisation application. Where such an endorsement is refused, the French authorities shall notify this refusal, and state the reasons therefore, to the parties concerned and to the Commission.</p> <p>(2) Fishing activities are authorised on an annual calendar basis. However, a fishing vessel can continue its fishing activities up to three months after expiry of its fishing authorisation, provided that the operator:</p> <ul style="list-style-type: none"> - initiated the renewal process of its fishing authorisation; - fulfilled all its contractual and information communication obligations. <p>This extension expires upon entry into force of the Commission decision for a new fishing authorisation or notification of the refusal of the new fishing authorisation.</p>

6. STATEMENTS

Statement by Belgium, Denmark, France, Germany, Ireland, the Netherlands and Sweden on the application of Article 15(9) in the Basic Regulation for COD/03AS; COD/5BE6A; WHG/56-14; WHG/07A and PLE/7HJK in 2021

Given that the biomass of the stocks of COD/03AS; COD/5BE6A; WHG/56-14; WHG/07A and PLE/7HJK is below Blim and that only by-catch and scientific fisheries will be permitted in 2022, in order to ensure the recovery of the stocks in accordance with Regulations (EU) 2018/973 and (EU) 2019/472, Belgium, Denmark, France, Germany, Ireland, the Netherlands and Sweden undertake not to make use of inter-annual flexibility under Article 15(9) of Regulation (EU) No 1380/2013 with regard to these stocks in 2022. This undertaking is a response to the current exceptional circumstances for these stocks.

Statement by the Commission on Norway lobster, 8c, FU25

The Commission will submit a request to ICES to evaluate the sentinel fishery for 2022 for FU 25 with a view to increasing the sentinel TAC. Following the advice of ICES, the Commission may submit an appropriate amendment to the fishing opportunities for 2022.

Statement by the Commission on Norway lobster, 9 and 10, FU26 and FU27

The Commission will submit a request to ICES on the appropriateness of conducting a sentinel fishery in FU26 and FU27 and under what conditions. Following the advice of ICES, the Commission may submit an appropriate amendment to the fishing opportunities for 2022.

Joint Statement by the Council and Commission on ICCAT stocks

The Council and the Commission acknowledge that, under several ICCAT recommendations, the Union may, upon request, carry over a percentage of its unused quota of ICCAT stocks in the period of two years.

The Commission will do its utmost to take the necessary steps to implement the adjustments to the Northern albacore quotas of individual Member States to reflect any carry-overs and deductions by 30 June 2022 at the latest, on the basis and within the limits of the legal instruments available.

Joint Statement by the Commission and France on the option of support of the temporary cessation of fishing activities by the European Maritime and Fisheries Fund (EMFF) or the European Maritime, Fisheries and Aquaculture Fund (EMFAF)

Given the assessment of the International Council for the Exploration of the Sea (ICES) on common sole (*Solea solea*) in the Bay of Biscay (ICES divisions 8.a-b), France considers that the protection of common sole requires the temporary cessation of activity, in addition to the fishing opportunities for that stock established in Annex I to the Regulation fixing for 2022 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters.

The Commission and France agree that the temporary cessation of activity is eligible for funding from the EMFF or the EMFAF, provided that it is in accordance with the conditions set out in Article 33(1)(a) of Regulation (EU) No 508/2014 of the European Parliament and of the Council of 15 May 2014 on the European Maritime and Fisheries Fund and Article 21(2)(c) of Regulation (EU) 2021/1139 of the European Parliament and the Council of 7 July 2021 establishing the European Maritime, Fisheries and Aquaculture Fund and amending Regulation (EU) 2017/1004.

Statement by the Commission and the Council on mackerel

The Commission and the Council reaffirm the need acknowledged during the October 2021 Council to assess all elements relevant for the methodology applied for allocation and distribution of the Union's fishing opportunities for mackerel in waters of 4a and Norwegian waters of 2a (MAC/2A4A-N).

Taking into account the information submitted to the Commission and the Council by the Member States concerned by 15 January 2022, the Commission will do its utmost to propose, by 31 March 2022 and by way of a non-paper, a methodology applicable to the allocation and distribution of the fishing opportunities in question that would uphold the principle of relative stability.

The Commission and the Council will in any event do their utmost to take the necessary steps to establish the fishing opportunities in question before 30 September 2022.

Statement by the Commission on Southern Horse Mackerel Inter-area Flexibility

In light of the new definition of Fpa for horse mackerel (*Trachurus trachurus*) in division 9a, the Commission commits to asking ICES to review the level of inter-area flexibilities between 9a and 8c that would remain precautionary.

Should ICES produce an updated advice in 2022, the Commission would consider proposing an amendment of the Regulation fixing for 2022 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters to include suitable inter-area flexibilities.

On shared stocks managed under provisional TACs (Commission)

Provisional TACs are established to allow fishing activities of EU fleets to continue while not prejudging the outcome of ongoing international consultations. The Commission will monitor the situation of the stocks shared with the United Kingdom and subject to provisional TACs. On the basis of the uptake of quotas reported by Member States and taking into account the results of consultations, the Commission will take stock and will present relevant suggestions for the way forward and possible revisions of the provisional TAC levels, especially concerning the seasonality of fishing activities, in order to address Member States' needs, or to establish definitive TACs.

On commitments regarding conservation measures for the seabass fishery in the Bay of Biscay (8a,b) by France and Spain

France and Spain welcome the good state of the seabass stock in the Bay of Biscay (8a,b) and the responsible measures implemented at national level.

Considering that the MSY value is set by ICES at a level of 3156 tons, France commits to maintain its national management scheme in 2022, which consists in fishing licences and individual yearly and periodic ceilings per vessels.

Part 2: MED
Fishing Opportunities 2022

1. CHANGES TO THE BODY OF THE REGULATION

A. RECITALS

(7 **new**) In accordance with Article 4(1) of Regulation (EU) 2019/1022, fishing opportunities for stocks listed in Article 1 of that Regulation should be fixed to achieve fishing mortality at maximum sustainable yield on a progressive, incremental basis by 2020 where possible, and by 1 January 2025 at the latest. Fishing opportunities should be expressed as maximum allowable fishing effort for trawlers and longliners fixed in accordance with the fishing effort regime laid down in Article 7 of Regulation (EU) 2019/1022 as well as **maximum catch limits** TACs for blue and red shrimp (*Aristeus antennatus*) and giant red shrimp (*Aristaeomorpha foliacea*) fixed in accordance with scientific advice.

(8 **new**) STECF advised that, in order to attain the MSY targets for the western Mediterranean fish stocks, further urgent actions are needed and significant reductions of fishing mortality are necessary for trawlers. For 2022, the maximum allowable fishing effort of trawlers, in accordance with Article 7(3)b of the western Mediterranean multiannual management plan, should therefore be reduced by **6%** compared to the 2015-2017 baseline, to be deducted from the maximum allowable fishing effort set for 2021 by Council Regulation (EU) 2021/90 and the additional effort reduction established at the level of Italian authorities.

(8a **new**) STECF advised that, in order to attain the MSY targets for the western Mediterranean fish stocks, further urgent actions are needed, **notably** and ~~proportional reductions of~~ **to manage the** fishing mortality ~~are necessary~~ **for the demersal** longliners. For 2022, **it is necessary to establish a** ~~the~~ maximum allowable fishing effort of longliners, in accordance with Article 7(5) of the Western Mediterranean Multiannual Management Plan, ~~should therefore be reduced by 7,5%~~ **based on the fishing effort expressed as number of fishing days between 1 January 2015 and 31 December 2017** compared to the 2015-2017 baseline, to be deducted from the effort recorded in 2020 and declared by Member States. **This maximum allowable fishing effort for longliners should not prejudice the maximum allowable fishing effort to be established for 2023.**

(8b **new**) In 2020, STECF advised that the fishing mortality of blue and red shrimp in GSAs 1-5-6-7 and GSAs 8-9-10-11 would need to decrease significantly to achieve MSY by 2025 at the latest. The GFCM Scientific Advisory **Committee on Fisheries** (SAC) also issued the same advice for fishing mortality of blue and red shrimp in GSA 2. Moreover, STECF estimated that the biomass of blue and red shrimp was declining. In 2021, STECF advised that the fishing mortality of this species has not changed and further management measures are thus required. Given the scientific advice and the unchanged stocks situation, in accordance with Article 7(3)(b) of the Western Mediterranean Multiannual Management Plan, it is appropriate to complement the effort regime with TACs **maximum catch limits** and establish a specific TAC **maximum catch limit** for blue and red shrimp in GSAs 1-2-5-6-7 and a **maximum catch limit**-specific TAC for blue and red shrimp in GSAs 8-9-10-11.

(8c **new**) In 2020, STECF advised that the biomass of giant red shrimp in GSAs 8-9-10-11 was declining. In 2021, STECF advised that the fishing mortality of this species has not changed and that the biomass is still declining. Given the scientific advice and the unchanged stocks situation, in accordance with Article 7(3)(b) of the Western Mediterranean Multiannual Management Plan, it is appropriate to complement the effort regime with TACs **maximum catch limits** and establish a specific TAC **maximum catch limit** for giant red shrimp in GSAs 8-9-10-11.

B. ARTICLES

Art. 8 (3 **new**)

The allocation among Member States of **maximum catch limits** TACs for Union fishing vessels in Union waters of the western Mediterranean Sea is set out in Annex III to this Regulation.

2. CHANGES TO ANNEX III

The tables in this Annex set out the maximum allowable fishing effort (in fishing days) by stock groups, as defined in Article 1 of Regulation (EU) No 2019/1022, **maximum catch limits** and ~~the total allowable catches~~ and overall length of vessels for all types of trawls⁶ and **demersal longliners** fishing for demersal stocks in the western Mediterranean Sea.

(a) **Trawlers in Alboran Sea, Balearic Islands, Northern Spain and Gulf of Lion (GSAs 1-2-5-6-7)**⁷

Stock group	Overall length of vessels	Spain	France	Italy	Fishing effort group code
Red mullet in GSAs	< 12 m	1921	0	0	EFF1/MED1_TR1

⁶ TBB, OTB, PTB, TBN, TBS, TB, OTM, PTM, TMS, TM, OTT, OT, PT, TX, OTP, TSP.

⁷ **In addition to the above-mentioned maximum allowable fishing effort for trawlers, a Member State may grant to vessels flying its flag an additional allocation of fishing days within an overall 2% of the fishing effort to that Member State for the fleet segment concerned. A Member State may do so, provided that:**

a). those vessels use a trawl net with 45 mm square mesh size codend in order to reduce by at least 25% of catches of the juveniles of hake; or

b). those vessels use a trawl net with mesh size codend of 50 mm square mesh size for deep water fisheries in order to reduce by at least 25% of catches of blue and red shrimps less than 25 mm carapace length (CL) in geographical subareas 1, 2, 5, 6, 7, 8, 9, 10 and 11 and to reduce by at least 25% catches of giant red shrimps in the geographical subareas 8, 9, 10 and 11 less than 35 mm CL; or

c). those vessels use a regulated highly selective gear, the technical specifications of which result in, according to the scientific study by STECF, at least a reduction of 25% of juveniles or at least 20% of catches of spawners of all demersal species compared to 2020; or

d). the Member State concerned has adopted temporary closure areas in order to reduce by at least 25% the catches of juveniles of demersal species or at least 20% of catches of spawners of all demersal species.

The Member State concerned shall notify to the Commission the list of the fishing vessels concerned by such an additional allocation of fishing days. The Member State concerned shall also separately notify every month to the Commission the additional allocation.

The Member State concerned shall submit to the Commission, at the latest by 15 October, all available information related to the implementation of the measures referred in paragraphs a), b), c) or d).

The overall 2% of the fishing effort shall be calculated from the effort allocation of the concerned fleet segment as from the date of the notification of the concerned Member State.
