**EUROPEAN UNION PATENT COURT –
DRAFT AGREEMENT**

THE CONTRACTING PARTIES,

CONSIDERING that co-operation amongst the countries of Europe in the field of patents contributes significantly to the integration process in Europe, in particular to the establishment of an internal market within the European Economic Area characterized by the free movement of goods and services and the creation of a system ensuring that competition in the internal market is not distorted,

CONSIDERING that the fragmented market for patents and the significant variations between national court systems are detrimental for innovation, in particular for small and medium sized enterprises which have difficulties to enforce their patents and to defend themselves against unfounded claims,

WISHING to improve the enforcement of patents and to enhance legal certainty by setting up a European Union Patent Court for litigation related to the infringement and validity of patents,

CONSIDERING that the integrated and exclusive European Union Patent Court shall be set up for Community patents and European patents designating the Contracting Parties, under the necessary legal control of the Court of Justice of the European Communities, and that the present Agreement shall be open for all Contracting States of the European Patent Convention,

CONSIDERING that the European Union Patent Court shall be designed to ensure expeditious and high quality decisions, striking a fair balance between the interests of right holders and other parties and taking into account the need for proportionality and flexibility,

HAVE AGREED AS FOLLOWS:

Order to preserve evidence and to inspect property

(1) The Court may, even before the commencement of proceedings on the merits of the case, on application by a party who has presented reasonably available evidence to support the claim that the patent right has been infringed or is about to be infringed, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement.

(2) Such measures may include the detailed description, with or without the taking of samples, or the physical seizure of the infringing goods, and, in appropriate cases, the materials and implements used in the production and/or distribution of these goods and the documents relating thereto.

(2a) The inspection of the premises shall be conducted by a person appointed by the Court in accordance with the Rules of Procedure.

(3) At the inspection of the premises the requesting party shall not be present itself but may be represented by an independent professional practitioner whose name has to be specified in the Court's order.

(4) The measures shall be taken, if necessary without the other party having been heard, in particular where any delay is likely to cause irreparable harm to the proprietor of the patent, or where there is a demonstrable risk of evidence being destroyed.

(5) Where measures to preserve evidence are adopted without the other party having been heard, the parties affected shall be given notice, without delay and at the latest immediately after the execution of the measures. A review, including a right to be heard, shall take place upon request of the parties affected with a view to deciding, within a reasonable period after the notification of the measures, whether the measures shall be modified, revoked or confirmed.

(6) The Court shall ensure that the measures to preserve evidence are revoked or otherwise cease to have effect, upon request of the defendant, without prejudice to the damages which may be claimed, if the applicant does not initiate, within a period not exceeding 20 working days or 31 calendar days, whichever is the longer, proceedings leading to a decision on the merits of the case before the Court.

(7) Where the measures to preserve evidence are revoked, or where they lapse due to any act or omission by the applicant, or where it is subsequently found that there has been no infringement or threat of infringement of the patent right, the Court may order the applicant, upon request of the defendant, to provide the defendant appropriate compensation for any injury caused by those measures.

(2) To this end, an indicative list of experts shall be drawn up by the Court in accordance with the Rules of Procedure and kept by the Registrar.

(3) The court experts shall guarantee independence and impartiality.

(4) Expert advice given to the Court shall be made available to the parties who shall have the possibility to comment on the advice given.

Article 37

Provisional and protective measures

(1) The Court may grant injunctions against an alleged infringer or against a third party whose intermediary services are used by the alleged infringer, on a provisional basis, intended to prevent any impending infringement, to forbid the continuation of the alleged infringement or to make such continuation subject to the lodging of guarantees.

(2) The Court shall have the discretion to weigh up the interests of the parties and in particular to take into account the potential harm for either of the parties resulting from the granting or the refusal of the injunction.

(3) The Court may also order the seizure or delivery up of the goods suspected of infringing a patent right so as to prevent their entry into or movement within the channels of commerce. If the injured party demonstrates circumstances likely to endanger the recovery of damages, the Court may order the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of his/her bank accounts and other assets.

(4) The Court may, in respect of the measures referred to in paragraphs 1 and 3, require the applicant to provide any reasonable evidence in order to satisfy itself with a sufficient degree of certainty that the applicant is the right-holder and that the applicant's right is being infringed, or that such infringement is imminent.

(5) Article 35a, paragraphs 4 to 7 shall apply by analogy to the measures referred to in this Article.

Article 37a

Permanent injunctions

(1) Where a decision is taken finding an infringement of a patent, the Court may grant an injunction aimed at prohibiting the continuation of the infringement. The Court may also grant such injunctions against an intermediary whose services are being used by a third party to infringe a patent right.

(2) Where appropriate, such injunction shall be subject to a periodic penalty payment payable to the Court with a view to ensuring compliance.

Article 38

Corrective measures in infringement proceedings

(1) Without prejudice to any damages due to the injured party by reason of the infringement, and without compensation of any sort, the Court may order, at the request of the applicant, that appropriate measures be taken with regard to goods found to be infringing patent rights and, in appropriate cases, with regard to materials and implements principally used in the creation or manufacture of those goods.

(2) Such measures shall include:

- (a) declaration of the fact of infringement;
- (b) recall from the channels of commerce;
- (c) depriving the product from its infringing property;
- (d) definitive removal from the channels of commerce; or
- (e) destruction.

(3) The Court shall order that those measures be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

(4) In considering a request for corrective measures, the need for proportionality between the seriousness of the infringement and the remedies ordered, the willingness of the party concerned to convert the materials into a non-infringing state, as well as the interests of third parties shall be taken into account.

Article 38a

Decision on invalidity of a patent

(1) The Court shall decide on the validity of a patent on the basis of a direct action for revocation or a counterclaim for invalidity.

(3) The Court shall limit the patent by a corresponding amendment of the claims and revoke the patent in part if the grounds for revocation affect the patent only in part.

(4) To the extent that a patent has been revoked it shall be deemed not to have had, from the outset, in the case of a Community patent, the effects specified in Articles 7 and 8 of Council Regulation (EC) No. [...] on the Community patent, and in the case of a European patent, the effects specified in Articles 64 and 67 of the European Patent Convention.

(5) Where the Court, in a final decision, has revoked a patent, either entirely or partly, it shall send a copy of the decision to the European Patent Office and, with respect to a European patent, to the national patent office of any Contracting Party concerned.

Article 39

(1) The Court may, in response to a justified and proportionate request of the plaintiff and in accordance with the Rules of Procedure, order an alleged infringer of the patent to inform the plaintiff of:

- (a) the origin and distribution channels of the infringing goods or processes;
- (b) the quantities produced, manufactured, delivered, received or ordered, as well as the price obtained for the goods in question; and
- (c) the identity of any third person involved in the production or distribution of infringing goods or in the use of an infringing process.

- (2) The injured party shall, to the extent possible, be restored in the position it would have been in if no infringement had taken place. The infringer shall not benefit from the infringement. However, damages shall not be punitive.
- (3) When the Court sets the damages:
- (a) it shall take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer and, in appropriate cases, elements other than economic factors, such as the moral prejudice caused to the injured party by the infringement; or
- (b) as an alternative to (a), it may, in appropriate cases, set the damages as a lump sum on the basis of elements such as at least the amount of the royalties or fees which would have been due if the infringer had requested authorisation to use the patent in question.
- (4) Where the infringer did not knowingly or with reasonable grounds to know engage in infringing activity, the Court may order the recovery of profits or the payment of compensation.

Article 42

Legal costs

- (1) Reasonable and proportionate legal costs and other expenses incurred by the successful party shall, as a general rule, be borne by the unsuccessful party, unless equity requires otherwise.
