# **1. Cumulative data for the current programming period (3 May 2021 – 31 December 2024)**

The data in Charts 1 to 8 and Tables 1 to 4 relate to applications submitted by Member States between 3 May 2021<sup>1</sup> and 31 December 2024 under Regulation (EU) 2021/691 of the European Parliament and of the Council of 28 April 2021 on the European Globalisation Adjustment Fund for Displaced Workers and repealing Regulation (EU) No 1309/2013 (2021-2027 EGF).

Between 2021 and 2024, the Commission received 18 applications: 6 concerned companies in crisis, 5 were trade-related and 7 were due to a variety of reasons<sup>2</sup>. More specifically, 12 applications related to layoffs in a company<sup>3</sup>, 4 to layoffs in the same sector and region<sup>4</sup>, 1 to layoffs in a region<sup>5</sup>, and 1 to layoffs in a small labour market<sup>6</sup>. The total EGF amount requested was EUR 60 188 105 and the envisaged number of beneficiaries 10 825<sup>7</sup>.

<sup>1</sup> Date on which Regulation (EU) 2021/691 entered into force.

<sup>2</sup> 5 applications related to COVID-19, 1 to a company takeover, and 1 to sector overcapacity and changes in customers trends.

<sup>3</sup> Criterion in Article 4(2)(a): displacements in an enterprise including its suppliers and downstream producers.

<sup>4</sup> Criterion in Article 4(2)(b): displacements in enterprises of the same sector that are located in the same region.

<sup>5</sup> Criterion in Article 4(2)(c): displacements in enterprises located in the same region.

<sup>6</sup> Criterion in Article 4(3).

<sup>7</sup> Number of envisaged beneficiaries as estimated by the Member States at the application stage.

\* Three applications relating to more than one sector were counted more than once.

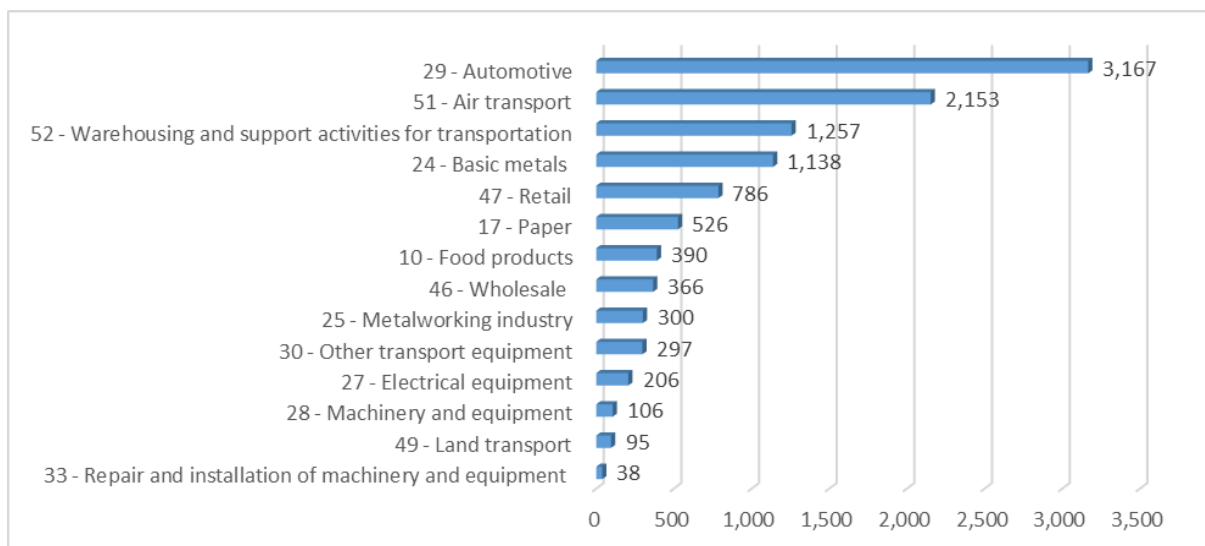

**Total number of applications: 18**

**Total number of sectors: 14**

Between 2021 and 2024, the Commission received 18 EGF applications from 7 Member States proposing to support 10 825 workers in 14 different sectors. The automotive sector and warehousing and support activities in the transport sector accounted for the highest number of applications (3 applications each).

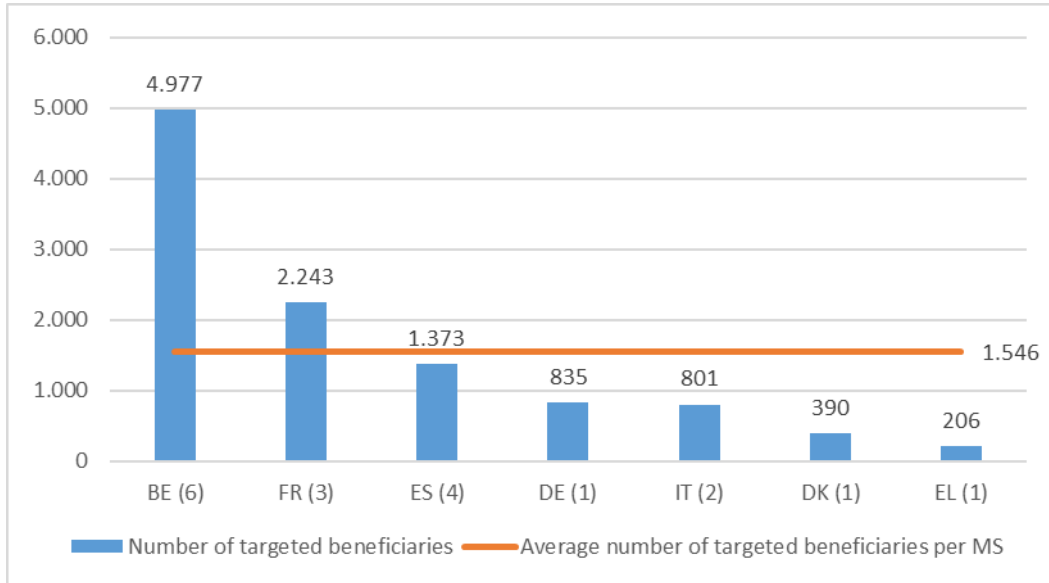

The highest number of targeted beneficiaries was in the automotive sector (3 167 / 3 applications), followed by air transport (2 152 / 2 applications). In two sectors, warehousing and support activities for transportation (3 applications) and basic metals (2 applications) there were more than 1 000 targeted beneficiaries. The three sectors with the lowest number of targeted beneficiaries (up to 100) were linked to applications combining different sectors.

Applications submitted between 2021 and 2024 proposed supporting a total of 10 825 beneficiaries. Belgium applied for support for the highest number of workers (4 977 / 5 applications), followed by France (2 243 / 3 applications) and Spain (1 373 / 4 applications). In terms of the average number of targeted beneficiaries per application, Germany and Belgium proposed supporting the largest number of workers (around 830 each), followed by France (748).

Between 2021 and 2024, seven Member States requested a total of EUR 60 188 105 in EGF funds. France requested the highest amount (EUR 23 465 071 / 3 applications), followed by Belgium (EUR 18 302 692 / 6 applications) and Spain (EUR 6 689 626 / 4 applications). Table 1 sets out the details of the applications per year and per Member State.

Each Member States requested EUR 5 560 per targeted beneficiary on average. France requested the highest average amount per targeted beneficiary (EUR 10 461), followed by Greece (EUR 7 261) and Italy (EUR 6 702).

Final reports are due about three years after the date of application. By the end of 2024, only six final reports had been submitted for applications received in the first half of 2021.

The average reintegration rate (46%) is 5 percentage points lower than the average rate for cases in 2007-2020 (51% for 164 cases, see Table 8). However, this figure needs to be viewed with caution as it is based on limited data.

\* In principle, the labour market status of beneficiaries reflects their situation at the end of the implementation period.

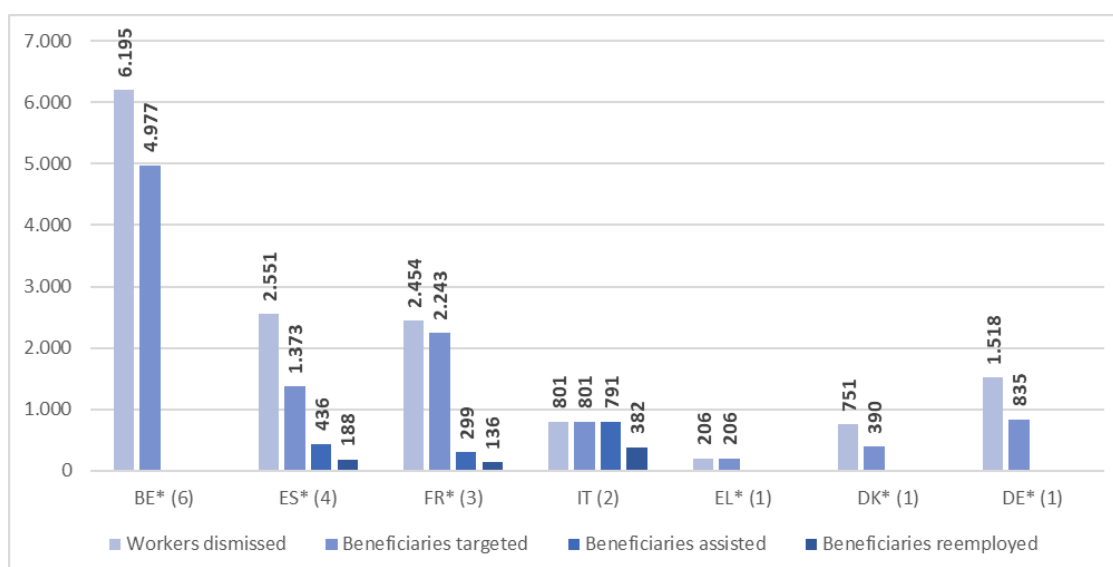

\*\* Inactive means that people are no longer on the labour market for various personal reasons, e.g. retirement or death.

The number of cases by Member State is given in brackets.

\* By the end of 2024, only six final reports had been submitted for applications received in the first half of 2021. Member States marked with an asterisk still have pending EGF cases; the total number of workers receiving support is therefore not currently known or not yet final.

## 2. Cumulative 2007-2020 data

Between 2007 and 2020, the Commission received 165 applications, of which 85 were crisis-related and 80 trade-related. Broken down by funding criterium, 47% were related to enterprises, 39% concerned cases in the same region and sector, and 14% were due to exceptional circumstances. The number of applications received per year varied significantly (from zero to 27, with an average of around 12), reflecting economic upheavals such as the economic and financial crisis or the pandemic.

From 2007 to 2013, the EGF was mobilised 112 times for a total amount of EUR 478.6 million (EUR 4.7 million per case on average) to offer support to 105 030 workers (938 persons per case on average).

By comparison, from 2014 to 2020 there were 53 mobilisations for a total amount of EUR 168.7 million (EUR 3.2 million per case) to support 56 807 workers (1 072 persons per case). This represents about half of the mobilisations of 2007-2013, when there was a significant increase in the number of applications due to the impact of the economic and financial crisis. On the other hand, the average number of targeted beneficiaries per case was 14% higher than in 2007-2013.

Although the EGF supported workers from 49 economic sectors in 2007-2013, 3 sectors accounted for half of the 105 030 workers concerned: the automotive industry<sup>8</sup> (22 903), electronics<sup>9</sup> (18 148) and textiles<sup>10</sup> (11 504). In 2014-2020, half of those offered support belonged to 5 sectors: the automotive industry, which remained the sector with the largest number of targeted beneficiaries (10 299), retail<sup>11</sup> (6 536), road transport<sup>12</sup> (4 645), machinery<sup>13</sup> (4 003) and electronics (3 115).

**Average EGF amount requested per targeted beneficiary: EUR 4 000**

Applications submitted between 2007 and 2020 concerned displaced workers in 48 sectors. The automotive industry is the sector with the highest number of workers offered support (33 202 workers, 23 applications), followed by computers and electronics (21 263 workers, 17 cases), machinery and equipment (11 657, 15 cases) and textiles (11 504, 11 cases). One in three workers offered EGF support belonged to one of these four sectors.

**Chart 12: Number of targeted beneficiaries per sector (NACE Rev. 2), 2007-2020**

\* In four multi-sector cases<sup>15</sup> the number of targeted beneficiaries per sector was estimated based on the number of dismissed workers.

Four sectors (77, 91, 92 and 93) are not included in the chart because the number of workers dismissed from these sectors was unknown at the application stage<sup>16</sup>.

<sup>15</sup> EGF/2016/003 EE/ Petroleum and chemicals, EGF/2020/001 ES/ Galicia shipbuilding ancillary sectors, EGF/2020/005 EE/ Estonia tourism, EGF/2020/005 BE/ Swissport.

<sup>16</sup> EGF/2020/005 EE/ Estonia tourism.

**Total number of targeted beneficiaries across 48 sectors: 161 837**
