Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

on cooperation among enforcement authorities responsible for the enforcement of Directive (EU) 2019/633 on unfair trading practices in business-to-business relationships in the agricultural and food supply chain

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

Acting in accordance with the ordinary legislative procedure,

Whereas:

¹ OJ C [...], [...], p. [...].

- (1) *Within the agricultural and food supply chain, significant imbalances in bargaining power between suppliers and buyers of agricultural and food products are likely to lead to unfair trading practices.* Directive (EU) 2019/633 of the European Parliament and of the Council³ introduced a minimum Union standard of protection against unfair trading practices to reduce the occurrence of *such* practices which **█** have a negative impact on the living standards of the agricultural community.
- (1a) *The report from the Commission on Implementing the prohibition of unfair trading practices to strengthen the position of farmers and operators in the agricultural and food supply chain - State of play of 23 April 2024 highlighted the persistence of imbalances within the agri-food chain, which increases the need for new measures to step up protection for suppliers and ensure sufficient bargaining power to all operators.*
- (2) Directive (EU) 2019/633 requires Member States to designate enforcement authorities that ensure the effective enforcement of the prohibitions laid down in that Directive. That Directive also requires the Commission and those enforcement authorities to cooperate closely to ensure a common approach with respect to the application of the rules set out in that Directive. In particular, the enforcement authorities should *aim to prevent or stop unfair trading practices that have a cross-border dimension and that are performed on their respective territories. They should do so by providing* each other with mutual assistance, including by sharing information and assisting in investigations that have a cross-border dimension. *While the scope and the possibilities for cooperation under that Directive remain fully available to the enforcement authorities of the Member States, it is opportune to address some difficulties and increase the effectiveness of the cooperation mechanism.*

³ Directive (EU) 2019/633 of the European Parliament and of the Council of 17 April 2019 on unfair trading practices in business-to-business relationships in the agricultural and food supply chain (OJ L 111, 25.4.2019, p. 59, ELI: <http://data.europa.eu/eli/dir/2019/633/oj>).

- (3) Due to the principle of territoriality, enforcement authorities may face difficulties gathering information, finding an infringement and imposing and enforcing fines and other equally effective penalties where a buyer is established in another Member State, *for example when operators of the food supply chain or their alliances have a cross-border purchasing strategy*. Such difficulties affect the system of enforcement established by Directive (EU) 2019/633, which depends on cooperation between enforcement authorities, and may lead to an uneven enforcement of unfair trading practices, undermining the protection for suppliers of agricultural and food products intended by that Directive. It is therefore appropriate to establish *certain, uniform* rules strengthening cooperation between enforcement authorities in cross-border cases. *Strengthening that cooperation leads to a more effective protection against unfair trading practices with cross-border dimension and contributes to strengthening farmers' position in the supply chain and thus ensuring a fair standard of living for the agricultural community*.
- (4) Given that Directive (EU) 2019/633 allows Member States to maintain or introduce stricter national rules against unfair trading practices, it should be clarified that this Regulation does not cover those rules. However, the ■ Member States *should be able* to decide that their enforcement authorities ■ make use of the *possibilities* established under the *voluntary cooperation* mechanism set out by this Regulation in relation to such rules. *This possibility can be important in particular when the stricter national rules are categorised in some Member States as overriding mandatory provisions that aim to guarantee the stable and sustainable supply of food products to consumers*. In those cases, the enforcement authorities should ■ have the right to refuse to comply with such a request.
- (5) To ensure the effective application of their obligations under this Regulation, enforcement authorities should be provided with the necessary resources and expertise.

- (6) Enforcement authorities should have the power to provide one another with and use in evidence in accordance with their national law any matter of fact or of law, including confidential information. Information exchanged shall only be used in evidence for the purpose of applying ***this Regulation to enforce*** the rules established by Directive (EU) 2019/633 and in respect of the subject-matter for which it was collected by the ***requested*** authority. ***The confidentiality of the information should be guaranteed with due regard to the legitimate interests of a natural person or legal person concerned. Requests of complainants for protection of information based on Article 5 (3) of Directive (EU) 2019/633 should be taken into account and protection should also be ensured in cross border enforcement.***
- (7) ***With the aim to help stopping unfair trading practices that have a cross-border dimension,*** enforcement authorities should be empowered in their own territory to ***conduct investigative measures*** on behalf of and for the account of other enforcement authorities. ***Such investigative measures should be carried out in accordance with the powers referred to in Article 6(1), points (a), (b) and (c) of Directive (EU) 2019/633 and in accordance with the national law of the requested enforcement authority.***
- (7a) ***Cooperation between the enforcement authorities concerning the enforcement of final decisions imposing fines or other equally effective penalties and interim measures adopted in accordance with Article 6(1), first subparagraph, point (e) of Directive (EU) 2019/633 is very important in order to achieve an effective protection against unfair trading practices with cross-border dimension. For this purpose it is necessary that the requested enforcement authority is vested with a power to enforce a final decision adopted by the applicant enforcement authority when the collection of the fines or the implementation of the equally effective penalty or interim measure by the applicant enforcement authority is unsuccessful. In case where the collection of fines or the implementation of equally effective penalties or interim measures in the Member State of the requested enforcement authority is carried out by another authority, the requested enforcement authority should have the power to initiate the collection of the fine or the implementation of the equally effective penalty or interim measures before that competent national authority.***

- (7b) *In order to increase the efficiency and effectiveness of this Regulation, to secure smooth cooperation between enforcement authorities and to avoid excessive costs for the requested enforcement authorities, rules on covering the costs of measures taken pursuant to this Regulation should be laid down.*
- (8) Enforcement authorities should inform one another of an unfair trading practice with a cross-border dimension that has occurred or is occurring in their territory.
- (9) Enforcement authorities should be empowered in their own territory and in accordance with their national law to enforce, or initiate proceedings for the enforcement of, final decisions imposing fines or other equally effective penalties, *or interim measures* on behalf of and for the account of other enforcement authorities, provided that those other enforcement authorities have *ascertained that* the fines or other equally effective penalties, *or interim measures cannot* be enforced ■ in the Member States of those other enforcement authorities.
- (10) Enforcement authorities should be able to *cooperate with* other enforcement authorities by issuing requests for *mutual assistance*. These requests should specify what information *or measure* is considered necessary in each case to conduct investigations of unfair trading practices. *To enable the requested enforcement authority to ascertain its role, the request should include all necessary information about the alleged unfair trading practice.*
- (11) Enforcement authorities should not be entitled to refuse to comply with a request for information or to refuse to participate in enforcement measures unless it is likely that *other* enforcement actions, administrative decisions *or judicial proceedings* taken at national level outside the mutual assistance mechanism would ensure cessation of the unfair trading practice with a cross-border dimension. *Refusal should also be possible in case the request falls outside the scope of the Regulation or is in contradiction with the national law of the requested enforcement authority.* Moreover, enforcement authorities should give reasons for such a refusal.

(12) Lack of procedural arrangements on the language regime may pose obstacles to the smooth cooperation between enforcement authorities. For this reason, rules allowing the enforcement authorities to agree on the language to be used in all notifications, requests and communications between them, as well as rules in case of disagreement among them, should be laid down.

(14) Where a widespread unfair trading practice with a cross-border dimension, involving *buyers and suppliers from* at least three Member States may be taking place, the enforcement authorities concerned by that practice should be able to issue alerts *through a dedicated system*, engage in coordinated actions, and designate a coordinator to coordinate the cooperation among the relevant authorities in whose territories the practice may be taking place. To establish which enforcement authorities are concerned by a widespread unfair trading practice with a cross-border dimension, all relevant aspects should be considered, in particular the place where the buyer is established and the location of the suppliers that may be affected by the unfair trading practice. The detection of widespread unfair trading practices with a cross-border dimension should be supported by exchanging information between enforcement authorities when there is a reasonable suspicion of such unfair trading practices with a cross-border dimension. The coordinator should exercise its competence within a framework of close cooperation with the other enforcement authorities concerned. Likewise, all enforcement authorities concerned should actively engage in the investigation at an early stage, and issue alerts to the Commission and to the enforcement authorities concerned by a widespread unfair trading practice with a cross-border dimension and share the necessary information available to them about such practices.

(15) Procedures for the coordination of investigation and enforcement measures relating to widespread unfair trading practices with a cross-border dimension should be laid down. Coordinated actions against widespread unfair trading practices with a cross-border dimension should ensure that enforcement authorities are able to choose the most appropriate and efficient tools to stop those practices.

- (16) It is necessary to list the cases where a concerned enforcement authority may decide to refuse to participate in a coordinated action. In particular, lack of available resources on the part of an enforcement authority concerned by that unfair trading practice with a cross-border dimension should not be considered to justify refusing to participate in a coordinated action.
- (17) With a view to ensuring that the enforcement authorities concerned by the coordinated action have all the tools necessary to communicate, cooperate, and coordinate, this Regulation should lay down rules on language arrangements.
- (17a) Since Directive (EU) 2019/633 also protects suppliers in the Union against unfair trading practices by buyers established outside the Union, as well as suppliers established outside the Union when they sell agricultural and food products into the Union, this Regulation should also provide rules for the cooperation of enforcement authorities of Member States with each other as regards unfair trading practices involving buyers and suppliers established outside the Union and which are prohibited by Directive (EU) 2019/633.***
- (17b) Directive (EU) 2019/633 also protects suppliers in the Union against unfair trading practices by buyers established outside the Union. It is therefore appropriate to lay down rules enabling enforcement authorities to conduct investigations more effectively in such cases. To that end, an enforcement authority should be able to request that a buyer designates a point of contact within the Union to be the primary point of contact for the enforcement authority and facilitate the investigation. Enforcement authorities should also inform each other and the Commission in cases where a buyer does not comply with such a request.***

- (17c) *With a view to ensuring uniform conditions for the implementation of the measures laid down in this Regulation, implementing powers should be conferred on the Commission to develop standard forms for requests for mutual assistance. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council⁴.*
- (17d) *The Commission should have an overview of the application of the rules under this Regulation in the Member States. In addition, the Commission should be able to assess the effectiveness of this Regulation. To that end, the enforcement authorities of the Member States should include in their annual reports to the Commission activities falling within the scope of this Regulation. In the interest of an effective implementation of the rules to strengthen the position of operators in the agri-food supply chain that are exposed to unfair trading practices, the report on the application of the rules under this Regulation should be used in the review process of Directive (EU) 2019/633.*
- (17e) *To facilitate effective enforcement, the Commission should provide and manage a platform that allows the swift exchange of information or requests among the enforcement authorities and, where appropriate, with the Commission.*
- (18) This Regulation respects fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union and present in the constitutional traditions of the Member States. Accordingly, this Regulation should be interpreted and applied in accordance with those rights and principles.
- (19) Criminal investigations and judicial proceedings in Member States should not be affected by the application of this Regulation. *Likewise, Council Decision 2008/976/JHA, Framework Decision 2005/214/JHA and Directive 2014/41/EU should have precedence over this Regulation if the unfair trading practice concerned falls under their scope.*

⁴ *Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13, ELI: <http://data.europa.eu/eli/reg/2011/182/oj>).*

- (20) Since the objective of this Regulation, namely *to strengthen the* cooperation between the enforcement authorities responsible for the enforcement of the prohibition of unfair trading practices under Directive (EU) 2019/633 *in cross border cases*, cannot be sufficiently achieved by the Member States because they cannot ensure cooperation and coordination by acting alone, but can rather, by reason of its territorial and personal scope, be better achieved at the Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.
- (21) In order to give the enforcement authorities the time needed to be able to implement the rules laid down in this Regulation, its application should be deferred by *18 months* after its entry into force,

HAVE ADOPTED THIS REGULATION:

CHAPTER I

INTRODUCTORY PROVISIONS

Article 1

Subject matter

With a view to combating practices that grossly deviate from good commercial conduct, that are contrary to good faith and fair dealing and that are unilaterally imposed by one trading partner on another, this Regulation lays down certain rules under which the enforcement authorities, having been designated by their Member States as responsible for the enforcement of the prohibition of unfair trading practices in business-to-business relationships in the agricultural and food supply chain under Directive (EU) 2019/633, cooperate and coordinate actions with each other, *in order to ensure the effectiveness of that Directive*.

Article 2

Scope

Chapter IIIa

Article 12a

Requests for information in relation to national rules

1. ***Member States may decide that enforcement authorities can make use of the possibilities referred to in Article 5 in relation to periods set on the basis of Article 3(1), point (b), third sentence or national rules maintained or adopted on the basis of Article 9(1) of Directive (EU) 2019/633.***
2. ***When an applicant enforcement authority makes use of this possibility, the requested enforcement authority may provide only partial information or refuse to provide information. The requested enforcement authority shall indicate the reasons for the partial reply or for the refusal. In this case Article 10 shall not apply.***

Article 12b

1. ***When a Member State has set periods on the basis of Article 3(1), point (b), third sentence or maintained or adopted national rules on the basis of Article 9(1) of Directive (EU) 2019/633, that provide for the same threshold for the operators or the same type of unfair trading practices as the periods set by another Member State on the basis of Article 3(1), point (b), third sentence or as the national rules of another Member State maintained or adopted on the basis of Article 9(1) of Directive (EU) 2019/633, their enforcement authorities may agree to make use of the possibilities referred to in Article 6(1) in relation to one or more unfair trading practices under those national rules.***
2. ***When an applicant enforcement authority makes use of this possibility the requested enforcement authority may refuse to conduct investigative measures, without indicating the reasons for the refusal. In this case, Article 10 shall not apply.***

Article 12c
Procedure for request

When an applicant enforcement authority makes use of the possibility provided in Article 12a and 12b, it shall send a request to the requested enforcement authority which:

- (a) states this Regulation as legal basis;*
- (b) indicates the national law laying down the prohibition of the unfair trading practice concerned that goes beyond Directive (EU) 2019/633, and if that national law is based on Article 3(1), point (b), third sentence or Article 9(1) of Directive (EU) 2019/633;*
