Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
on import, export and transit measures for firearms, their essential components and
ammunition, implementing Article 10 of the United Nations' Protocol against the illicit
manufacturing of and trafficking in firearms, their parts and components and ammunition,
supplementing the United Nations Convention against Transnational Organised Crime (UN
Firearms Protocol) (recast)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Articles 33 and 207 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) A number of amendments are to be made to Regulation (EU) No 258/2012 of the European Parliament and of the Council¹ in order to provide common rules for import, export and transit of firearms, their essential components, ammunition, alarm and signal weapons, deactivated firearms, semi-finished firearms, semi-finished essential components and silencers. In the interests of clarity, that Regulation should be recast.

¹ Regulation (EU) No 258/2012 of the European Parliament and of the Council of 14 March 2012 implementing Article 10 of the United Nations' Protocol against the illicit manufacturing of and trafficking in firearms, their parts and components and ammunition, supplementing the United Nations Convention against Transnational Organized Crime (UN Firearms Protocol), and establishing export authorisation, and import and transit measures for firearms, their parts and components and ammunition (OJ L 94, 30.3.2012, p. 1).

- (2) In accordance with Council Decision 2001/748/EC² the Commission signed the United Nations Protocol against the illicit manufacturing of and trafficking in firearms, their parts and components and ammunition, supplementing to the United Nations Convention against transnational organised crime ('UN Firearms Protocol') on behalf of the European Union on 16 January 2002.
- (3) The UN Firearms Protocol, the purpose of which is to promote, facilitate and strengthen cooperation among States Parties in order to prevent, combat and eradicate the illicit manufacturing of and trafficking in firearms, their parts and components and ammunition, entered into force on 3 July 2005.
- (4) In order to implement the UN Firearms Protocol, the Union adopted Regulation (EU) No 258/2012. The UN Firearms Protocol was ratified by the Union by Council Decision 2014/164/EU³.
- (5) The UN Firearms Protocol requires States Parties to put in place or improve administrative procedures or systems to exercise effective control over the manufacturing, marking, import and export of firearms.
- (6) The UN Firearms Protocol, and consequently this Regulation, do not apply to State-to-State transactions or to State transfers in cases where the application of the UN Firearms Protocol would prejudice the right of a State Party to take action in the interest of national security consistent with the Charter of the United Nations.
- (7) This Regulation does not affect the application of Article 346 of the Treaty on the Functioning of the European Union, which refers to essential interests of the security of the Member States connected with the production of or trade in arms, munitions and war material. Nevertheless, in accordance with the case-law of the Court of Justice of the European Union, that provision cannot be construed as conferring on Member States a power to depart from the provisions of the Treaty simply in reliance on those interests. Thus, Member States wishing to avail

² Council Decision 2001/748/EC of 16 October 2001 concerning the signing on behalf of the European Community of the United Nations Protocol on the illicit manufacturing of and trafficking in firearms, their parts, components and ammunition, annexed to the Convention against transnational organised crime (OJ L 280, 24.10.2001, p. 5).

³ Council Decision 2014/164/EU of 11 February 2014 on the conclusion, on behalf of the European Union, of the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention against Transnational Organized Crime (OJ L 89, 25.3.2014, p. 7).

themselves of the derogation allowed under Article 346 of the Treaty, must show that such derogation is necessary in order to protect their essential security interests. This Regulation does not have any impact on Directive 2009/43/EC of the European Parliament and of the Council.⁴

- (8) This Regulation should be consistent with the other relevant provisions on firearms, essential components, ammunition, alarm and signal weapons, deactivated firearms, semi-finished firearms, semi-finished essential components and silencers for military use, security strategies, illicit trafficking in small arms and light weapons and exports of military technology, including Council Common Position 2008/944/CFSP⁵ and Council Decision (CFSP) 2021/38⁶. In this regard, this Regulation should not apply to goods listed in the Common Military List of the European Union when those goods are exported or re-exported from the customs territory of the Union, except in the cases of temporary export or re-export for the purposes of hunting, sport shooting and re-enacting events.
- (8a) This Regulation should not apply to transactions of firearms, their parts and essential components ammunition, alarm and signal weapons, deactivated firearms, semi-finished firearms, semi-finished essential components and silencers that in the framework of contractual relationships or substantiated by end-user certificates, are destined for the armed forces, the police, or the public authorities of the Member States. This exclusion should comprise transactions of such goods for development, testing, production, maintenance or presentation, involving private entities, when the final product is exclusively designed for or delivered for the armed forces, the police or the public authorities of the Member States.
- (9) This Regulation does not affect the application of Directive EU 2021/555⁷ of the European Parliament and of the Council, which addresses transfers of firearms for civilian use within the territory of the Union, while this Regulation only applies to import to the customs territory

⁴ Directive 2009/43/EC of the European Parliament and of the Council of 6 May 2009 simplifying conditions of transfers of defense related products within the Community (OJ L146, 10.6.2009, p.1),

⁵ Council Common Position 2008/944/CFSP of 8 December 2008 defining common rules governing control of exports of military technology and equipment (OJ L 335, 13.12.2008, p. 99).

⁶ Council Decision (CFSP) 2021/38 of 15 January 2021 establishing a common approach on the elements of end-user certificates in the context of the export of small arms and light weapons and their ammunition (OJ L 14, 18.1.2021, p. 4).

of the Union, transit and export from the customs territory of the Union. Therefore, firearms, their essential components, ammunition, alarm and signal weapons and deactivated firearms released into free circulation in the customs territory of the Union are subject to the requirements of Directive (EU) 2021/555. In addition, this Regulation does not regulate the ownership of weapons or any licensing for private persons, dealers or brokers. Directive (EU) 2021/555 establishes the rules on acquisition and possession, which include licenses for private persons, dealers and brokers.

- (10) This Regulation is without prejudice to the Union regime for the control of exports, transfer, brokering and transit of dual-use items established by Regulation (EU) 2021/821 of the European Parliament and of the Council⁸.
- (11) This Regulation is without prejudice to the obligations of the Member States under sanctions' regime adopted by a decision or a common position of the Council or resulting from the obligations imposed by the Common Council Position 2003/468/CFSP⁹ on the control of arms brokering.
- (12) Nothing in this Regulation constrains any powers under and pursuant to Regulation (EU) No 952/2013 of the European Parliament and of the Council¹⁰ and Commission Delegated Regulation (EU) 2015/2446¹¹.
- (13) Multiple definitions from Directive (EU) 2021/555 and from Regulation (EU) No 952/2013 are applicable to this Regulation.
- (14) Due to the nature of the goods covered by this Regulation some customs simplifications, such as an oral declaration, can not be applied.

¹¹ Commission Delegated Regulation (EU) 2015/2446 of 28 July 2015 supplementing Regulation (EU) No 952/2013 of the European Parliament and of the Council as regards detailed rules concerning certain provisions of the Union Customs Code (OJ L 343, 29.12.2015, p. 1).

- (16) When firearms are not properly marked according to Article 8 of the UN Firearms Protocol, Member States should be able to decide to destroy retained firearms at the expense of the importer.
- (17) Firearms, their essential components and ammunition should only be declared for release for free circulation if they are properly marked pursuant to Directive (EU) 2021/555. Pending that marking, importers should place the firearms under another customs procedure, such as customs warehousing, inward processing or free zones, under which they should fulfil the marking requirement, be it in their own premises or in other authorised premises, such as national test-benches or proof-houses, in line with Union customs legislation. However, persons whose business consists of manufacture, trade, exchange, hiring out, repair, modification or conversion of firearms, essential components and ammunition should be allowed to mark firearms, ammunition and essential components, according to Article 4 of Directive (EU) 2021/555, without delay after release into free circulation, since the Directive allows for this and prevents unmarked goods to be placed on the market. However, these persons should comply with the UN Firearms Protocol requirement of Article 8(1) point b, which indicates the need to add import markings to firearms.
- (18) Deactivated firearms should only be declared for release for free circulation or temporary admission in cases of non-established persons so authorised by this Regulation, if they are accompanied by the deactivation certificate and are marked pursuant to Article 5 of Commissions Implementing Regulation (EU) 2015/2403¹². Pending the reception of that certificate or correct marking, importers should place the deactivated firearms under another customs procedure, such as customs warehousing or free zones, under which they should be able to request the competent authorities according to Article 15 of Directive (EU) 2021/555 to verify the deactivation and issue the certificate in accordance with Article 3 of Implementing Regulation (EU) 2015/2403.
- (19) Only alarm and signal weapons complying with the standards of Commission Implementing Directive (EU) 2019/69¹³ should be considered as alarm and signal weapons and not firearms, when granting import or export authorisations and when they are imported and exported.

¹² Commission Implementing Regulation (EU) 2015/2403 of 15 December 2015 establishing common guidelines on deactivation standards and techniques for ensuring that deactivated firearms are rendered irreversibly inoperable (OJ L 333 19.12.2015, p. 62).

¹³ Commission Implementing Directive (EU) 2019/69 of 16 January 2019 laying down technical specifications for alarm and signal weapons under Council Directive 91/477/EEC on control of the acquisition and possession of weapons (OJ L 15, 17.1.2019, p. 22).

Devices, which can be easily converted into firearms should always be classified as firearms in accordance with customs nomenclature and dealt with as firearms by customs authorities and competent authorities. To avoid risks of diversion, it is necessary to ensure the consistency of the practices of national customs authorities in the classification of devices declared as alarm and signal weapons upon import.

- (20) An import authorisation should be necessary for the entry of firearms, their essential components and ammunition into the customs territory of the Union. Due to the high risk of illicit manufacturing of firearms from imported unfinished and unmarked products, only duly licensed dealers and brokers should be authorised to import semi-finished firearms and semi-finished essential components.
- (21) The checks of the criminal record of the applicant for import authorisations should be as stringent as for export authorisations and Member States should obtain the information on criminal records through the system established by Council Framework Decision 2009/315/JHA¹⁴.

Competent authorities should check whether the imported firearms are registered as lost, stolen or otherwise sought for seizure through the Second Generation Schengen Information System (SIS II)¹⁵. Article 47 of Regulation (EU) No 2018/1862 of the European Parliament and of the Council¹⁶ establishes the access of registration services for firearms to SIS II. For the purposes of the implementation of this Regulation, competent authorities should be considered as registration services for firearms.

¹⁴ Council Framework Decision 2009/315/JHA of 26 February 2009 on the organisation and content of the exchange of information extracted from the criminal record between Member States (OJ L 93, 7.4.2009, p. 23).

¹⁵ Council Regulation (EU) 2018/1862 of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of police cooperation and judicial cooperation in criminal matters, amending and repealing Council Decision 2007/533/JHA, and repealing Regulation (EC) No 1986/2006 of the European Parliament and of the Council and Commission Decision 2010/261/EU (OJ L 312, 7.12.2018, p. 56–106).

¹⁶ Regulation (EU) 2018/1862 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of police cooperation and judicial cooperation in criminal matters, amending and repealing Council Decision 2007/533/JHA, and repealing Regulation (EC) No 1986/2006 of the European Parliament and of the Council and Commission Decision 2010/261/EU (OJ L 312, 7.12.2018, p. 56–106).

- (22) A criminal record concerning conduct constituting an offence listed in Article 2(2) of Council Framework Decision 2002/584/JHA¹⁷ should be a reason to prohibit the import of firearms, their essential components and ammunition, alarm and signal weapons, deactivated firearms, semi-finished firearms, semi-finished essential components and silencers.
- (23) Persons not established in the customs territory of the Union may obtain an authorisation to temporarily import and export firearms, their essential components, ammunition, alarm and signal weapons, deactivated firearms, and silencers for the purposes of exhibitions, repairs, hunting, sport shooting or historical re-enacting events. The information related to firearms declared for temporary admission should be clearly spelled out, to enable customs and competent authorities to proceed efficiently with the discharge and limit the risk of firearms remaining illegally on the customs territory of the Union.
- (23a) The measures to meet the requirements of Article 10 of the UN Firearms Protocol should be adapted to provide for simplified procedures for firearms for civilian use. Consequently, some facilitation with regard to authorisation for multiple shipments, transit measures and temporary admission and exports for lawful purposes should be ensured.
- (24) Due to the risks of diversion of firearms, their essential components, ammunition, alarm and signal weapons, deactivated firearms, semi-finished firearms, semi-finished essential components and silencers, originating from a third country entering and passing through the customs territory of the Union placed under a customs transit procedure with the final destination in a third country, customs authorities and competent authorities should expressly authorise such transit on the customs territory of the Union before they take place on the customs territory of the Union.
- (25) In order to promote administrative facilitation, persons in the EU authorised to possess firearms should in specific cases be exempted from import and export authorisations. However, for reasons of security and to facilitate controls, the traceability in these cases should be maintained.
- (25a) In order to improve legal certainty and predictability, the consent of another Member State should be obtained before granting an import authorisation which includes a planned movement through the territory of that other Member State. A similar consent should be

¹⁷ Council Framework Decision 2002/584/JHA of 13 June 2002 on the European arrest warrant and the surrender procedures between Member States (OJ L 190, 18.7.2002, p. 1).

sought when the planned re-entry point of goods temporarily exported is located in the territory of a different Member State.

- (25b) This Regulation should enable Member States to adopt measures in the field of import provided they are adopted in conformity with the Treaty. Such prohibitions or restrictions should not constitute a means of arbitrary discrimination or a disguised restriction on trade. The Commission should be informed if, as a result of unusual developments on the market, a Member State considers that protective measures might be necessary. This Regulation should lay down the conditions under which those measures should be authorised.
- (25c) It is necessary to clarify that a person that wishes to export firearms, essential components, ammunition, deactivated firearms, semi-finished firearms, semi-finished essential components and silencers shall hold an export authorisation. Eligibility to apply for such an authorisation should be limited to exporters allowed to possess, deal or broker those goods in the Member State of establishment.
- (25d) Persons exporting in the course of their business activities should be able to benefit from an export authorisation valid for a maximum of three years, including if it is covered by several successive short-term import authorisations issued by importing non-EU countries. Additional Union general authorisations should be introduced, in order to reduce the administrative burden for authorised economic operators for security and safety except for the most dangerous firearms. Member States can also introduce national general export authorisations where they consider it necessary.
- (26) Before authorising an export, it is important to verify that the importing third country has authorised the corresponding import. Third countries of transit should not have objections to the specific movement. In order to improve legal certainty and predictability, the consent of the third country of transit, should be considered as given, if no objections to the transit have been received within 20 working days. The decision of Member States to require express consent should be transparent for all economic operators. It is the responsibility of the exporter to provide to the competent authorities the documents justifying the above.
- (27) It is necessary to unify the rules on evidence of import in the third country of destination. Therefore, persons exporting should be required to provide to the competent authority, which delivered the export authorisation, proof of the receipt of the dispatched shipment of firearms, essential components, ammunition, alarm and signal weapons, deactivated firearms, semi-

finished firearms, semi-finished essential components and silencers in the third country of import, which should notably be ensured by producing the relevant customs importation documents.

- (28) When granting authorisations, Member States should respect the obligation with regard to sanctions imposed by decisions adopted by the Council or by a decision of the Organisation for Security and Cooperation in Europe (OSCE) or by a binding resolution of the Security Council of the United Nations, in particular as regards arms embargoes. By referring to these international obligations, the Regulation also refers to the national rules adopted to implement these obligations.
- (29) It is necessary to ensure that the conditions of authorisations continue to be met throughout the duration of the authorisation, as it is the case for authorisations to possess or acquire a firearm inside the Union pursuant to Directive (EU) 2021/555.
- (30) To avoid risks of diversion while limiting the administrative burden, it is necessary to investigate suspicious situations in which Member States should request confirmation of receipt by the authorities of the third country of destination.
- (31) It is necessary to clarify the responsibilities of competent authorities with respect to post-shipment checks.
- (35) To enable the risk-based approach for the firearms, their essential components, ammunition, alarm and signal weapons, deactivated firearms, semi-finished firearms, semi-finished essential components and silencers listed in Annex I entering or leaving the Union market, and to ensure that checks are effective and performed in accordance with the requirements of this Regulation, the Commission, competent authorities and customs authorities should cooperate closely and exchange information.
- (36) In order to facilitate the tracing of firearms and efficiently combat illicit trafficking in firearms, their essential components, ammunition, alarm and signal weapons, deactivated firearms, semi-finished firearms, semi-finished essential components and silencers, it is necessary to improve the exchange of information between Member States, in particular through the better use of existing communication channels.
- (37)

- (41) The Schengen Acquis notably includes a Decision of the Executive Committee (SCH/Com-ex (99) 10)¹⁸, pursuant to which Member States are to submit each year by 31 July their national annual data for the preceding year on illegal trade in firearms, on the basis of the joint table for compiling statistics. In addition, in its recommendation of 17 April 2018 on immediate steps to improve security of export, import and transit measures for firearms, their parts and essential components and ammunition, the Commission recommended that Member States should collect detailed statistics of the preceding year about the number of authorisations, refusals, the quantities and values of firearms exports and imports, by origin or destination, and submit these statistics to the Commission¹⁹. This Regulation should enable the Commission to collect those data directly from the electronic systems set up for the purpose of implementing this Regulation. The statistics should be anonymised and designed in such a way that it should not be possible to draw conclusions about specific dealers, even indirectly.
- (38) Personal data are to be processed in accordance with the rules laid down in Regulations (EU) 2016/679 and (EU) 2018/1725 of the European Parliament and of the Council²⁰.
- (39) Consistency should be ensured with regard to record-keeping provisions in force under Union law.
- (40)
- (42) An electronic licencing system should be established to digitalise the procedures set out in this Regulation. It is important that a person entitled to request an authorisation is registered in that system before starting the application procedure.
- (42a) Member States may maintain their existing national authorisation systems. In this case, the electronic licensing system established by this Regulation should be able to interconnect with those. This interconnection should ensure the transferring of the information on the authorisations granted through the national systems to the electronic licensing system.

¹⁸ Decision of the Executive Committee of 28 April 1999 on the illegal trade in firearms (SCH/Com-ex (99) 10) (OJ L 239, 22.9.2000, p. 469).

¹⁹ Commission recommendation (2018) 2197 final of 17.4.2018 on immediate steps to improve security of export, import and transit measures for firearms, their parts and essential components and ammunition.

²⁰ Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295, 21.11.2018, p. 39).

- (42b) The overall enforcement of this Regulation should be facilitated by the interconnection between the electronic licensing system established by this Regulation and the EU Single Window Environment for Customs established by Regulation (EU) 2022/2399 of the European Parliament and of the Council²¹. For this purpose and in accordance with Article 5(6) of Regulation (EU) 2022/2399, the Commission should amend Part A of the Annex to that Regulation. When goods are temporarily imported or exported using an ATA Carnet, set out in Appendix I to Annex A to the Convention relating to temporary admission²², the competent authorities should receive information on the use of the ATA Carnet. Although this information cannot be exchanged automatically insofar as the digital ATA Carnet is not applied by all contracting parties, further automatisation should be explored based on potential interoperability with the electronic system for administration of ATA carnets, the e-ATA-system.
- (43) In order to ensure that this Regulation is properly applied, Member States should take measures giving the competent authorities appropriate powers.
- (44) Compliance with the UN Firearms Protocol also requires that illicit manufacture of or trafficking in firearms, their parts and essential components and ammunition be established as criminal offences, and that measures be taken to enable the confiscation of items so manufactured or trafficked.
- (45) Member States should lay down the rules on penalties applicable to infringements of this Regulation and ensure that they are implemented. Those penalties should be effective, proportionate and dissuasive.
- (46) The whistle-blower-protection regime put in place with Directive (EU) 2019/1937 of the European Parliament and of the Council²³, should also apply to persons who report breaches of rules linked to imports and exports of firearms.
- (47) In order to amend Annex II and III to this Regulation, to maintain the list of firearms, their essential components, ammunition alarm and signal weapons, deactivated firearms, semi-

It is of particular importance that the Commission carries out appropriate consultations during its preparatory work, including at expert level and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making²⁵. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

- (48) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council.²⁶
- (49) The Commission and the Member States should inform each other of the measures taken under this Regulation and of other relevant information at their disposal in connection with this Regulation.

(50) This Regulation should not prevent the Member States from applying their constitutional rules relating to public access to official documents, taking into account Regulation (EC) No 1049/2001 of the European Parliament and of the Council²⁷.
