OUTCOME OF PROCEEDINGS

From: General Secretariat of the Council
To: Delegations

Subject: Twenty-Sixth Annual Report according to Article 8(2) of Council Common Position 2008/944/CFSP defining common rules governing the control of exports of military technology and equipment

Delegations will find attached the Twenty-Sixth Annual Report according to Article 8(2) of Council Common Position 2008/944/CFSP defining common rules governing control of exports of military technology and equipment, as adopted by the Council at its 4070th meeting, held on 16 December 2024.

**Twenty-Sixth Annual Report according to Article 8(2) of Council Common Position
2008/944/CFSP defining common rules governing the control of exports of military technology
and equipment**

([Year]/C [reference])

INTRODUCTION

This report covers data from 2023 on (i) granted and denied licences from EU Member States and (ii) exports of conventional arms from EU Member States. It also covers activities related to the implementation of Council Common Position 2008/944/CFSP^{1,2}, and contains non-exhaustive information on intra-EU transfers of defence-related products that are governed by Directive 2009/43/EC of the European Parliament and of the Council³.

The report is compiled by the European External Action Service (EEAS), based on data provided by EU Member States. The Sub-Working Party on Conventional Arms Exports (COARM) of the Council Working Party on Non-Proliferation and Arms Exports supports a permanent dialogue among Member States on the coherent application of the common rules governing control of arms exports.

The following third countries have officially aligned themselves with the criteria and principles of Common Position 2008/944/CFSP: Albania, Bosnia and Herzegovina, Canada, North Macedonia, Georgia, Iceland, Montenegro and Norway. An information exchange system between the EU and Norway has been in place since 2012.

¹ Legally binding for EU Member States.

² Council Common Position 2008/944/CFSP of 8 December 2008 defining common rules governing control of exports of military technology and equipment (OJ L 335, 13.12.2008, p. 99) amended by Council Decision (CFSP) 2019/1560 of 16 September 2019 (OJ L 239, 17.9.2019, p. 16).

³ Directive 2009/43/EC of the European Parliament and of the Council of 6 May 2009 simplifying terms and conditions of transfers of defence-related products within the Community (OJ L 146, 10.6.2009, p. 1).

In addition to this report, data on EU Member States' arms exports can also be also consulted online⁴. The online system contains information on the value, destination and type of arms export licences from all EU Member States, as well as on actual exports from those EU Member States which report such data. It offers various graphic representations and tools to compose a wide variety of analytical compilations to all those interested in the value, military equipment and destination of European arms exports. While the online system allows users to consult data in a more user-friendly manner, the report in the EU Official Journal remains the main source of information.

I. IMPLEMENTATION OF COMMON POSITION 2008/944/CFSP ('Common Position')

1. Political Dialogue meetings

Political Dialogue meetings on arms export control issues were held by the EEAS in 2023 with Canada, Norway, and the United States. The political dialogues provided a forum for fruitful discussions on matters of mutual interest, such as export policies to specific destinations, compliance and control issues, and the Arms Trade Treaty. In addition, the United States also attended a COARM meeting to discuss arms export control issues with the EU Member States.

2. Dialogue with stakeholders: European Parliament, civil society and industry

The EEAS answered parliamentary questions submitted by members of the European Parliament on arms exports issues, as well as attended events at the European Parliament related to European arms exports.⁵

In accordance with past practice, COARM meetings with external entities, including UN offices (UNODC), non-governmental organisations (such as ICRC, Saferworld) and companies (Conflict Armament Research) were organised regularly.

⁴ <https://webgate.ec.europa.eu/eeasqap/sense/app/75fd8e6e-68ac-42dd-a078-f616633118bb/sheet/74299ecd-7a90-4b89-a509-92c9b96b86ba/state/analysis>

⁵ An example of such an event was a public hearing "The War in Ukraine: Implications for Arms Export Policies at the EU Level" held by the Subcommittee on Security and Defence (SEDE) on 29 November 2022. Recording available at: https://multimedia.europarl.europa.eu/en/webstreaming/subcommittee-on-security-and-defence_20221129-1500-COMMITTEE-SEDE.

The COARM-NGO forum took place on 4 July 2023, organised by Saferworld and co-hosted by the EEAS. COARM also invited representatives from the European defence industry (ASD) to its meetings, and had debates with the participation of think tanks working on topics related to the arms trade (EU Non-Proliferation and Disarmament Consortium).

3. Outreach

Article 11 of the Common Position calls on Member States to ‘use their best endeavours to encourage other States which export military technology or equipment to apply the criteria of the Common Position.’ The promotion of effective national arms export controls and the principles and criteria of the Common Position in selected third countries took place through the implementation of Council Decision (CFSP) 2020/1464⁶ (amended by Council Decision (CFSP) 2022/848⁷), and Council Decision (CFSP) 2023/2539⁸ implemented by the German Federal Office for Economic Affairs and Export Control (BAFA) – commonly referred to as COARM Outreach Phase V and VI, respectively.

EU outreach efforts directed at third countries also continued on universalisation and implementation of the Arms Trade Treaty, with activities carried out by BAFA and Expertise France under Council Decision (CFSP) 2021/2309⁹ (ATT Outreach Phase III), and by the Arms Trade Treaty Secretariat under Council Decision (CFSP) 2021/649¹⁰ (amended by Council Decision (CFSP) 2023/161¹¹), and Council Decision (CFSP) 2023/2296¹². Further details can be found below and in Annex D.

4. Review of Common Position 2008/944/CFSP (‘Common Position’)

In 2023, COARM continued its work on the implementation of the deliverables included in the Council Conclusions¹³ regarding the 2019 review of the Common Position.

⁶ Council Decision (CFSP) 2020/1464 of 12 October 2020 on the promotion of effective arms export controls (OJ L 335, 13.10.2020, p. 3).

⁷ Council Decision (CFSP) 2022/848 of 30 May 2022 amending Decision (CFSP) 2020/1464 on the promotion of effective arms export controls (OJ L 148, 31.05.2022, p. 50).

⁸ Council Decision (CFSP) 2023/2539 of 13 November 2023 supporting a project on the promotion of effective arms export controls (OJ L, 14.11.2023).

⁹ Council Decision (CFSP) 2021/2309 of 22 December 2021 on Union outreach activities in support of the implementation of the Arms Trade Treaty (OJ L 461, 27.12.2021, p. 78).

¹⁰ Council Decision (CFSP) 2021/649 of 16 April 2021 on Union support for activities of the ATT Secretariat in support of the implementation of the Arms Trade Treaty (OJ L 133, 20.4.2021, p. 59).

¹¹ Council Decision (CFSP) 2023/161 of 23 January 2023 amending Decision (CFSP) 2021/649 on Union support for activities of the ATT Secretariat in support of the implementation of the Arms Trade Treaty (OJ L 22, 24.01.2023, p. 28).

¹² Council Decision (CFSP) 2023/2296 of 23 October 2023 on Union support for activities of the Arms Trade Treaty Secretariat in support of the implementation of the Arms Trade Treaty (OJ L, 24.10.2023).

¹³ <https://www.consilium.europa.eu/media/40660/st12195-en19.pdf>

Since spring 2022, the EEAS has been managing an internal database with country pages containing relevant information on potential and current destinations of European exports of military equipment. The database is only accessible to licensing officers from EU Member States and to the EEAS. It aims to contribute to further convergence in the application of the Common Position by Member States.

In autumn 2022, Member States agreed on an internal good practice paper containing elements for developing a national system on reporting actual exports.

In paragraph 14 of its Conclusions, the Council tasks COARM to reassess the implementation of the Common Position in five years' time (2024). In 2022 the review process started, and continued throughout 2023 with three focus groups of Member State representatives being set up. Participation by Member States in these groups was voluntary. The groups dealt with: (i) jointly produced military equipment (ii) further harmonisation and (iii) enforcement. In 2023, the EU NPD Consortium provided three supporting research papers and organised a seminar for Member States and researchers. An exchange of views with representatives of European defence industry (ASD) was also held at COARM. The review, comprising of updates to the Common Position and User's Guide, as well as of possibly other deliverables, including EU Council Conclusions, is expected to be concluded by the end of 2024.

5. Denial notifications and consultations

The Common Position foresees the notification of licence denials. It also foresees a consultation process when a Member State is reviewing a licence application for a transaction that is essentially identical to one denied before by another Member State. This is done via the COARM Online System. The system already demonstrated that it supports transparency between Member States in relation to specific countries of final destination and end users.

The number of notified denials - per destination and per military list category - is included in row (d) of the tables in Annex A.I. The number of consultations issued and received by each Member State, as well as the number of consultations per destination can be found in Annexes B.I and B.II.

Defence companies in Member States are generally aware of the restrictions on arms export policies, and will usually refrain from applying for a licence if they know it is likely to be denied. A low number of denials therefore does not indicate how restrictive or not the export policy is with regard to specific destinations. On the other hand, arms embargoes imposed by the EU¹⁴ are general prohibitions to grant licences with regard to those destinations.

6. User's Guide

The User's Guide is a key instrument bringing together agreed guidance for the implementation of the operative provisions of the Common Position and the interpretation of its criteria. It is referred to in Article 13 of the Common Position. It was developed by COARM and is updated periodically: the last update was done as part of the review of the Common Position (2019). It is not a legally binding act, but it is endorsed by the Council. The Council welcomed the amendment of the User's Guide in its Conclusions of 16 September 2019¹⁵.

The User's Guide is intended for use primarily by export licensing officials (licensing officers and other officials in relevant government departments and agencies), thus substantially contributing in a pragmatic way to the convergence of Member States' arms export control policies and procedures. With a view to supporting the operationalisation of the criteria of the Common Position, the Guide presents best practices that have been developed by COARM, building on national best practices and taking into account input from other relevant stakeholders, including civil society. Their purpose is to achieve greater consistency among Member States in the application of the criteria of the Common Position. This is achieved, for example, through the identification of factors that need to be considered when assessing export licence applications. The decision-making process is informed by the expertise of these officials on matters covering regional, legal, judicial, technical, development, as well as security and military-related issues.

The Guide is a public document available on the website of the European External Action Service¹⁶. Its publication aims to foster transparency and understanding of motives and factors underlying actual or potential licencing decisions by Member States, even though the decisions itself might not be subject to external scrutiny.

Updating the User's Guide is part of the review process of Common Position 2008/944.

7. Common Military List of the European Union

The EU Common Military List (CML) includes the military items that Member States shall require export licences for, in line with article 12 of the Common Position. It is identical to the list of defence-related products annexed to Directive 2009/43/EC.¹⁷ The EU CML takes into account the changes in the Wassenaar Arrangement's Munitions List agreed at the Plenary meetings of the Arrangement. The latest EU CML in use in the period covered by this report was published in the Official Journal of the European Union of 28 February 2023,¹⁸ following changes agreed at the Wassenaar Arrangement Plenary meeting on 30 November - 1 December 2022.¹⁹

8. Arms brokering

In accordance with Article 5 of Council Common Position 2003/468/CFSP²⁰, Member States have put in place separate arrangements for the exchange of information on granted and denied brokering licences. Furthermore, those Member States who require brokers to obtain a written authorisation to act as brokers and/or have established a register of arms brokers, have put in place separate arrangements for the exchange of relevant information on registered brokers. Information on brokering licences can be found in Annex A.III.

Detailed information on national implementation of Common Position 2003/468/CFSP can be found in Annex C.

II. ARMS TRADE TREATY (ATT)

1. Involvement in the ATT: Conference of States Parties

As with previous Conferences of States Parties (CSP), the EU and its Member States played an active part in the entire preparatory cycle and the Ninth Conference of States Parties (21-25 August 2023) which put an emphasis on the **role of industry** in responsible international transfers of conventional arms, as a priority theme of the South Korean Presidency.

¹⁷ The current list of defence-related products was adopted by the Commission Delegated Directive (EU) 2023/277 of 5 October 2022 (OJ L 42, 10.2.2023, p. 1–39). To align the Annex of Directive 2009/43/EC with the updated Common Military List of 20 February 2023, a Delegated Directive reflecting the updates will be published by the end of 2023.

¹⁸ OJ C 72, 28.2.2023, p. 2

¹⁹ For details, see: <https://www.wassenaar.org/>

²⁰ Council Common Position 2003/468/CFSP of 23 June 2003 on the control of arms brokering (OJ L 156, 25.6.2003, p. 79).

The Conference decided that each CSP President, in cooperation with the ATT Secretariat, is encouraged to include industry in outreach activities, and States Parties, the ATT Secretariat and other interested parties are encouraged to engage industry and share industry-relevant information on the ATT and developments. The Conference also welcomed the UN Guiding Principles on Business and Human Rights (UNGP) and encouraged States Parties and other stakeholders to continue discussions on how the UNGP, Human Rights and international humanitarian law instruments apply in the context of the Arms Trade Treaty, as appropriate.

States Parties were also encouraged, *inter alia*:

- together with all interested stakeholders where appropriate, to continue and deepen discussions on the role of industry in responsible international transfers of conventional arms and share their experiences and practices of effective measures including existing processes, guidance and related materials, and written guidance materials relating to national efforts to ensure industry awareness and compliance with national transfer control systems;
- to take necessary steps to ensure that industry and private sector entities operating under their national jurisdiction conduct their business consistent with the object and purpose of the Treaty;
- to develop, as a living document to be reviewed and updated regularly, as appropriate, a list of possible reference documents pertaining to responsible business conduct with respect to international trade in conventional arms to be considered by States Parties, for ensuring industry compliance with national control systems to implement the ATT and conduct responsible international transfers of conventional arms.

States Parties adopted elements (Chapter on prohibitions) of the Voluntary Guide to implement Art. 6 and 7, and a Voluntary Guide on Art. 9 (transit and trans-shipment).

Diversion was reconfirmed as an important topic to feature prominently in the ATT discussions and exchanges of best practices and information. The Diversion Information Exchange Forum (DIEF) met for the first time and discussed concrete cases. The Conference endorsed the document entitled “Post-delivery cooperation: operational steps for the introduction and implementation of post-shipment control” as an Annex to the document with Possible Measures to Prevent and Address Diversion and as living document of a voluntary nature.

The Conference again expressed its concerns about downward trend in annual reporting rate and urged States Parties that are not fully compliant with their reporting obligations to submit their reports or, in case of difficulty to do so, to make use of the available assistance mechanisms in order to achieve full compliance.

The Conference agreed on a clear plan for the following cycle to be presided over by Romania, with its declared Presidency focus on the role of inter-agency cooperation. A reviewed Programme of Work was adopted on a trial basis for one year, reducing in-person informal preparatory meetings and the sessions of Working Groups.

The EU kept high profile and visibility throughout the Conference, delivering 7 EU statements on all topics, stressing its strong support for the ATT and calling on all States to refrain from arms transfers to Russia. The EU's significant role in the Treaty was broadly recognised. In addition, the EU co-sponsored 4 side-events, including the one promoting the ATT needs and resources matching database and the ATT Outreach Project. For the first time the EU has also partnered with civil society organisations to draw attention to arms flows to military armed forces of Myanmar, and on challenges to the effective ATT implementation.²¹

2. EU ATT Implementation Support Programme under Council Decision (CFSP) 2021/2309

Further to its entry into force in 2014 and with so far²² 115 States Parties, the ATT continues to face challenges in terms of its universalisation and its effective implementation by States Parties.

To contribute to addressing these challenges, the EU adopted an implementation support programme for third countries²³. This programme is implemented by both the German Federal Office for Economic Affairs and Export Control (BAFA) and Expertise France. It provides for assistance to third countries, on their request, in strengthening their arms transfer systems in line with the requirements of the Treaty. Details of the activities can be found in Annex D.

²¹ Details are available at the ATT CSP9 webpage: <https://thearmstradetreaty.org/csp-9.html>

²² July 2024.

²³ Council Decision (CFSP) 2021/2309 of 22 December 2021 on Union outreach activities in support of the implementation of the Arms Trade Treaty (OJ L 461, 27.12.2021, p. 78).

3. Support to the ATT Secretariat

With the adoption of Decision (CFSP) 2021/649²⁴ (amended by Council Decision (CFSP) 2023/161²⁵), and Council Decision (CFSP) 2023/2296²⁶ the Council agreed to support the Arms Trade Treaty Secretariat in its activities that focus on the implementation of the Arms Trade Treaty. This decision falls in line with the general EU policy objective to strengthen the multilateral framework, including in the field of arms export control. Details of the activities can be found in Annex D.

III. PRIORITY GUIDELINES FOR COARM FOR THE NEAR FUTURE

In 2024, COARM will, inter alia, and in addition to its standing tasks:

- engage in coordination of support to Ukraine on preventing diversion of small arms and light weapons: regular exchanges between EU Member States and institutions through an informal platform in the margins of COARM; possible use of a CFSP toolbox, including new Council Decisions to be adopted in 2024 and beyond, for targeted EU support and coordination of external stakeholders' assistance for Ukraine;
- continue the Review of Common Position 2008/944/CFSP of 8 December 2008 defining common rules governing control of exports of military technology and equipment: to be completed by autumn 2024, with the adoption by the Council of an updated Common Position and its User's Guide, as well as Council Conclusions;
- when appropriate, engage in defence and strengthening of multilateral export control regimes.

COARM will continue to actively reach out to other relevant groups in order to connect to adjacent fields of work, including the Working Party on Dual-Use Goods and the Customs Union Working Party. Links between COARM and national licensing and enforcement officers dealing with arms export control are being strengthened.

²⁴ Council Decision (CFSP) 2021/649 of 16 April 2021 on Union support for activities of the ATT Secretariat in support of the implementation of the Arms Trade Treaty (OJ L 133, 20.4.2021, p. 59).

²⁵ Council Decision (CFSP) 2023/161 of 23 January 2023 amending Decision (CFSP) 2021/649 on Union support for activities of the ATT Secretariat in support of the implementation of the Arms Trade Treaty (OJ L 22, 24.01.2023, p. 28).

²⁶ Council Decision (CFSP) 2023/2296 of 23 October 2023 on Union support for activities of the Arms Trade Treaty Secretariat in support of the implementation of the Arms Trade Treaty (OJ L, 24.10.2023).

IV. EUROPEAN PEACE FACILITY ASSISTANCE MEASURES

With the European Peace Facility (EPF), established in 2021, the EU has advanced into a new era in security and defence, enhancing the EU's role as a security actor in the face of increasing global challenges. The Facility, which was initially created with a financial envelope of EUR 5.69 billion over the 2021 – 2027 period, has grown into a key instrument that has allowed the EU to better support Common Security and Defence Policy (CSDP) military missions and operations and to help our partners worldwide strengthen their military and defence capacities. It is now worth EUR 17 billion, supporting more than 20 partners. It continues to function as a global instrument with a view to preventing conflicts, preserving peace and strengthening international security and stability, and promoting international human rights law and international humanitarian law.

In 2023, in addition to financing military support to Ukraine, the Council has authorised EPF support to a number of African countries (Benin, Cameroon, Democratic Republic of the Congo, Ghana, Mauritania, Mozambique, Rwanda, Somalia), as well as some of the EU's Eastern and Southern neighbours (Georgia, the Republic of Moldova, Jordan, Lebanon) and Western Balkan partners (Bosnia and Herzegovina, North Macedonia, Balkan Medical Task Force). Furthermore, the EPF has financed the military components of a number of African-led peace support operations: the AU Transition Mission in Somalia (ATMIS), G5 Sahel Joint Force (G5SJF), the Multi-National Joint Task Force against Boko Haram (MNJTF) and the Southern African Development Community Mission in Mozambique (SAMIM).

Overall, 21 High Representative's (HR) proposals for assistance measures (AMs) and amending Council Decisions concerning existing AMs were adopted in 2023, including the three-track ammunition initiative to support Ukraine, approval of lethal support to Somalia and Niger (suspended), rapid delivery of Irini-seized vehicles to Ghana, and expansion of EPF AMs to the Gulf of Guinea more broadly. The Political and Security Committee (PSC) approved three actions under the AM taking the form of a general programme for support to the African Union for the period 2022-2024. Furthermore, the EPF financed for the first time an EU LIVE exercise.

Following the first top-up of EUR 2 billion adopted on 13 March 2023, the Council adopted a decision on 26 June 2023 to increase the overall financial ceiling of the EPF by EUR 3.5 billion (in 2018 prices).

The AMs and actions have been developed and implemented based on the EU Integrated Approach. This includes needs assessments, conflict sensitivity assessments, and political fragility country analysis.

BRIEF DESCRIPTIONS OF EU COMMON MILITARY LIST CATEGORIES²⁷

- ML1** Smooth-bore weapons with a calibre of less than 20 mm, other arms and automatic weapons with a calibre of 12,7 mm (calibre 0,50 inches) or less and accessories, and specially designed components therefor
- ML2** Smooth-bore weapons with a calibre of 20 mm or more, other weapons or armament with a calibre greater than 12,7 mm (calibre 0,50 inches), projectors specially designed or modified for military use and accessories, and specially designed components therefor
- ML3** Ammunition and fuze setting devices, and specially designed components therefor
- ML4** Bombs, torpedoes, rockets, missiles, other explosive devices and charges and related equipment and accessories, and specially designed components therefor
- ML5** Fire control, surveillance and warning equipment, and related systems, test and alignment and countermeasure equipment, specially designed for military use, and specially designed components and accessories therefor
- ML6** Ground vehicles and components
- ML7** Chemical agents, "biological agents", "riot control agents", radioactive materials, related equipment, components and materials
- ML8** "Energetic materials", and related substances
- ML9** Vessels of war (surface or underwater), special naval equipment, accessories, components and other surface vessels
- ML10** "Aircraft", "lighter-than-air vehicles", "Unmanned Aerial Vehicles" ("UAVs"), aero-engines and "aircraft" equipment, related equipment, and components, specially designed or modified for military use

²⁷ The full description of the categories as adopted by the Council in 2023 (OJ C 72, 28.2.2023) can be found on: <https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A52023XG0228%2801%29&qid=1677594029492>

- ML11** Electronic equipment, "spacecraft" and components, not specified elsewhere on the EU Common Military List
- ML12** High velocity kinetic energy weapon systems and related equipment, and specially designed components therefor
- ML13** Armoured or protective equipment, constructions and components
- ML14** 'Specialised equipment for military training' or for simulating military scenarios, simulators specially designed for training in the use of any firearm or weapon specified by ML1 or ML2, and specially designed components and accessories therefor
- ML15** Imaging or countermeasure equipment, specially designed for military use, and specially designed components and accessories therefor
- ML16** Forgings, castings and other unfinished products, specially designed for items specified by ML1 to ML4, ML6, ML9, ML10, ML12 or ML19
- ML17** Miscellaneous equipment, materials and "libraries", and specially designed components therefor
- ML18** 'Production' equipment, environmental tests facilities and components
- ML19** Directed Energy Weapon (DEW) systems, related or countermeasure equipment and test models, and specially designed components therefor
- ML20** Cryogenic and "superconductive" equipment, and specially designed components and accessories therefor
- ML21** "Software"
- ML22** "Technology"

ANNEX

Tables:

- A.I EXPORTS AND LICENCE REFUSALS PER DESTINATION, PER REGION AND WORLDWIDE
- A.II EXPORTS TO UNITED NATIONS-MANDATED OR OTHER INTERNATIONAL MISSIONS
- A.III BROKERING LICENCES (GRANTED AND REFUSED)
- B. CONSULTATIONS ON DENIED LICENCES (TOTAL NUMBER)
- C. NATIONAL IMPLEMENTATION OF COMMON POSITION 2008/944/CFSP (DEFINING COMMON RULES FOR THE CONTROL OF EXPORTS OF MILITARY TECHNOLOGY AND EQUIPMENT) AND COMMON POSITION 2003/468/CFSP (CONTROL OF ARMS BROKERING)
- D. EU OUTREACH ACTIVITIES
- E. NATIONAL REPORTS ON ARMS EXPORTS – INTERNET ADDRESSES
- F. EUROPEAN PEACE FACILITY - ASSISTANCE MEASURES

TABLE A.I

The numbers in Table A.I are broken down per Member State, and per EU Common Military List category where (a) = number of licences issued; (b) = value of licences issued in euros; (c) = value of arms exports in euros (if available)²⁸; (d) = number of denials (discrepancies may appear between breakdowns and totals due to denials concerning more than one ML category or denials for items other than those appearing in the ML²⁹); and (e) = the number of the criterion of Common Position 2008/944 invoked to support the refusal (the approximate number of times each criterion is invoked is indicated between brackets).

Statistics are compiled differently by each Member State: no uniform standard is used. Consequently, owing to current procedures regarding arms export reporting or data protection legislation, not all countries have been able to submit the same information³⁰.

²⁸ To make the table more readable, nil values and/or the mention 'not available' are omitted, and empty rows and columns are deleted.

²⁹ In some instances, in accordance with the Common Position, denials issued for items which do not appear on the Common Military List (for example for license applications for transactions of dual-use items where intended military end-use has been identified) are included in the total.

³⁰

Austria: with regard to items covered by the EU Common Military List, the Austrian law distinguishes between 'war material' (as stipulated in the Austrian War Material Act and Regulation) and 'equipment on the Common Military List not listed as war material' covered by the Austrian Foreign Trade Act. As to the value of actual exports by Military List Category (row c), figures may be inaccurate in particular as such data regarding equipment of the Common Military List not listed as war material is available to the competent authorities only after expiration or full utilisation of the individual export licence. Since some licences granted cover goods of more than one ML category per destination, these licences are counted multiple times, one for every ML category (row a). The total number of licenses quoted in this report therefore exceeds the actual number of licenses granted.

Belgium: the data that Belgium provides for this report is the aggregation of the data of its three regions (the Flemish, Walloon and Brussels-Capital Region) and of its federal government (which is competent for exports by the Belgian armed forces and the Belgian police). Because of differences in data collection and data processing between the competent authorities, Belgium is currently not able to provide data on actual exports (row c).

Czechia: rows a) and b) do not include General transfer licences and Global transfer licences pursuant to the Defence Transfer Directive (2009/43/EC), which could cover goods of more than only one ML Category and allow exports to more than only one Member State. In addition to that, some other licences issued cover goods of more than only one ML Category and their value is the total value of all covered goods. Due to this fact, these types of licences are not included in row b). The sums in rows c) are based on information provided by exporters and also contain actual exports made in 2023 based on licences issued in previous years.

Denmark: with regards to the value listed in row b) it should be noted, that values listed in row b) 'Value of export licences granted' relates to licences issued according to national legislation, i.e. to third countries. Some licences issued cover goods of more than one ML Category. When reporting in row a), each time a licence concerns a ML category, it is counted as one single licence, so the sums in row a) and column 'Total per destination' do not always reflect the actual numbers of licences granted, but a slightly higher number. The Danish currency (DKK) or other currencies are where relevant converted to EUR using the common exchange rate.

Estonia: licences covering more than one ML category and/or destination are reported under 'multiple destinations' (country). Goods which Estonia is judging to be military goods (national listing), but which are not on the EU Common Military List are reported in category ML 22 'Technology' (as CML category which is the most closely linked). The total number of licences quoted in this report therefore differs from the actual number of licences issued. Data does not include temporary transfers (exhibitions) and items on the EU CML provided to Ukraine and reported under the EPF assistance measures (AM).

Finland: licences covering more than one ML category and/or destination are counted one for every ML category per destination country. Therefore, the total number of licences presented in this report exceeds the actual number of licences issued. Data on licences issued also includes export licences to UN-Mandated or Other International Missions.

France: France requires its defence companies to obtain a licence from the early stages of market prospection. The licence should indicate the potential of the transaction. Any operation, starting from the negotiation stage, requires obtaining a licence: transmission of documentation, demonstrations, participation in calls for tenders, etc.

Germany: some licences issued cover goods of more than one ML Category (e.g. one licence for the export of rifles and their ammunition). In reporting in table A.I., each time a licence concerns an ML category, it is counted as one single licence, so the sums in rows a) and column 'Total per destination' do not always reflect the actual numbers of licences granted, but a slightly higher figure (i.e. the number of times a ML category has been affected by a licence for that destination). Germany is not in a position to report the value of actual exports of military goods other than war weapons as no reliable data on this matter is available. In particular, it is not possible to rely on data regarding write-offs from licences that customs authorities gather, because the national or EU lists of military goods and the nomenclature of the Harmonized System used by custom authorities are not congruent. Further, in accordance with rules of the Union Customs Code, there is no reporting requirement for transfers of goods to other EU Member States. This data would therefore lead to an incomplete and unreliable reporting on actual exports of military goods.

Hungary: data provided includes figures of general, global and individual export licences. Transfers of military equipment to Hungarian forces deployed in various missions (table A.II) are not considered regular foreign trade transactions.

Ireland: values in row b) relate to individual export licences issued. Values in row c) relate to actual exports reported by exporters with global licences issued under the ICT directive. As the value of global licences is not always visible ('unlimited value') figures will occur only in row c) and not b). Global licences contain multiple destinations and multiple ML categories, with exports to each destination and category counted as a single licence. Values listed in row a) therefore do not reflect the actual number of licences issued but a slightly higher figure.

Latvia: data provided includes figures of individual, global and general export licences. Data might include also export licences for goods after repair and maintenance. Latvia is not providing data on actual exports because it is not possible for customs authorities to gather precise report on actual exports in a reasonable manner, especially on global transfer licences.

Lithuania: data provided includes figures of individual, global and general export licences, data also include actual exports. Licences covering more than one ML category and/or destination are counted one for every ML category per destination country. Therefore, the total number of licences presented in this report exceeds the actual number of licences issued.

The Netherlands: as values of global licenses cannot always be attributed to individual countries, the value of those global licenses has been added to the total value of 'multiple destinations'. The figures on actual exports are based on information provided by the exporters in 2023 and may reflect exports based on a license issued in a previous year. Although much care has been given to the collection of the data on actual exports, the actual exports figures for 2023 may be higher than the values quoted in this report. Some licences cover goods of more than one ML category. Each time a licence concerns an ML category, it is counted as one single licence. Therefore the sum in row 'Number of Export Licenses' does not always reflect the actual number of licences granted, but a slightly higher figure.

Poland: license values provided in row b) refer to individual licenses, global licenses issued in a given year for a period of up to 3 years, and national general licenses. The actual values of transfers, provided in the row c), are related to the individual, global and national general licences. Data from rows a), b) and c) do not include temporary transfers.

Portugal: data provided includes figures of export transactions (definitive and temporary) covered by general, global and individual export licences. Some licences cover goods of more than one ML category and destination, so each time a licence concerns an ML category or destination, it is counted as one single licence, so the sum in row 'Number of Export Licenses' does not always reflect the actual number of licences granted, but a slightly higher figure. As the value of General and Global licences is not always visible ('unlimited value') figures will occur only in row c) and not b). Additionally, in some cases of donated material and intangible material (software and technology) where product value

The User's Guide stipulates that the value of actual exports shall be provided if available. Belgium, Cyprus, Denmark, Germany, Greece and Ireland do not provide the value of actual exports; no aggregation is therefore reported at the EU level.

With regard to the use of global and general licences notably applied to intra-EU transfers pursuant to Directive 2009/43/EC, it is important to note that the actual value of arms transfers and exports under global and general licences is generally reported by EU Member States. This is however dependant on the Member States' ability to report on actual values as described above and to possible additional national specificities as explained in footnote 30.

Data are reported in euro, converted from national currency in case a Member State does not have the euro as national currency. Bear in mind possible exchange rate fluctuations between data collection and consultation of the data.

It is important to bear in mind that exports to destinations subject to EU arms embargoes comply with the terms, conditions and possible exceptions set out in the decisions imposing such embargoes. The full list and details of embargoes are available at <https://www.sanctionsmap.eu>.

Exports to UN mandated or other international missions are reported on in Table A.II.

was not available a value of 1 was attributed to record the export. Data provided does not include figures of export transactions of civilian firearms (for personal protection, hunting, sporting).

Romania: data provided includes figures of general, global and individual export licences. Global and general licences cannot always be attributed to an individual military list category ML or an individual country. Therefore, the figures on number of licences issued (row a) could be slightly higher. Also, on grounds of national security interests, information on certain sensitive exports was not included in the 2023 report.

Slovakia: data provided includes some licences, which cover more than one ML category. Therefore values in row a) are thoroughly recorded, but values in row b) and row c) can have slightly different values. Exhibitions and presentations: Austria, Belgium, Czechia, Finland, France, Germany, Hungary, Indonesia, Israel, Malaysia, Norway, Poland, Romania, Saudi Arabia, Sweden, United Arab Emirates, United Kingdom, United States of America. Remark related to Ukraine: due to national security interests export to Ukraine and Israel will be reported later. On grounds of national security interests, information on certain sensitive exports was not included in the 2023 report.

Slovenia: data provided includes figures of one general, (ML6), 4 global (ML1, ML3, ML16 and ML18) and individual export licences. The value of some licences was 0, because weapons and military equipment/defence-related products were exported for the purpose of testing and evaluation, or warranty claim. In some cases, the export (transfer) within the EU area was carried out without an issued permit in accordance with applicable legislation. The report also covers the realization of permits issued in previous years with validity in 2023.

Spain: data provided includes figures of general, global and individual export licences as well as global project export licences. Values in rows a) b) include values on temporary and definitive licences. Values in row c) include only values on definitive licences.

Sweden: the SEK to EUR conversion reflects the average exchange rate for 2023 of 11,48 Swedish krona per Euro. Licences covering more than one ML category and/or destination have been counted multiple times, one for every ML category per country of destination. The total number of licences quoted in this report therefore exceeds the actual number of licences issued. Two of the licences included in the statistics are subject to confidentiality in accordance with Swedish national legislation. For these licenses, with a total value of EUR 1 018 478 739, information regarding country of final destination has been excluded.

TABLE A.II

Exports to United Nations-Mandated or Other International Missions in 2023³¹

Destination Country: Afghanistan		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
Finland	International Organization for Migration (IOM)	Tactical vests and helmets (ML13)
Destination Country: Armenia		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	EU Delegation	Cross-country vehicles with special protection and spare parts
Destination Country: Austria		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	United Nations Office	Sub-machine guns
Destination Country: Bosnia and Herzegovina		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
Greece	European Union Force (EUFOR) ALTHEA	Pistol M1911A1 0,45'' (7 items), Rifle M16M4, Cartridges (0,45mm and 5,56mm'), Magazines
Hungary	European Union Force (EUFOR)	BDU, body armour, bulletproof vests, kevlar helmets, shackles, pistols, rifles, ammunition, impact resistant shields, body protectors, rubber sticks, night vision goggles
Destination Country: Burkina Faso		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
Finland	International Organization for Migration (IOM)	Tactical vests and helmets (ML13)
Germany	EU Delegation	Cross-country vehicles with special protection and spare parts

³¹ Austria, Belgium, Bulgaria, Croatia, Cyprus, Czechia, Denmark, Estonia, Ireland, Latvia, Lithuania, Luxembourg, Netherlands, Poland, Romania, Slovakia, Slovenia, Spain, and Sweden submitted a nil report.

Destination Country: **Burundi**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Malta	European Delegation to Burundi	13000 Ammunition Fiocchi cal .223 REM FMJ 55 gr. (250 boxes of 50 rounds each) 7350 Ammunition Fiocchi cal. 9x19mm FMJ 115 gr. (147 boxes of 50 rounds each), 13000 ammunition (260 boxes of 50 rounds each) Fiocchi cal .223 REM FMJ 55 gr., 7350 Ammunition Fiocchi cal. 9x19mm FMJ 115 gr. (147 boxes of 50 rounds each)

Destination Country: **Central African Republic**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	EU Delegation	Cross-country vehicle with special protection and spare parts
	United Nations Children's Fund (UNICEF)	Cross-country vehicle with special protection
	United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic (MINUSCA)	Optical weapon-sights, sound suppressors and spare parts for pistols
Portugal	European Union Training Mission in Central African Republic (EUTM RCA)	Handguns, sub-machine guns, assault rifles and components (ML1), ammunition (ML3), ground vehicles and components (ML6), anti-riot equipment (ML7), equipment and communication systems (ML11)
	United Nations Multidimensional Integrated Strabilization Mission in the Central African Republic (MINUSCA)	

Destination Country: **Chad**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Hungary	Bilateral Treaty	Medical equipment

Destination Country: **Congo (Democratic Republic of)**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
France	United Nations Organization Stabilization Mission in the Democratic Republic of the Congo	T100EE Firewall attachment kit, kit to fix the engine Trident T100EE ALT, shut off valve kit, 120mF

	(MONUSCO)	capacitor hole Ø20 bracket assy
Germany	EU Delegation	Cross-country vehicle with special protection and spare parts

Destination Country: **Ethiopia**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	EU Delegation	Cross-country vehicle with special protection and spare parts

Destination Country: **Iraq**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	United Nations Assistance Mission in Iraq (UNAMI)	Body armour vests and spare parts for rifles
	United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/ISIL (UNITAD)	Body armour vests, detachable cartridge magazines, optical weapon-sights, rifles, sub-machine guns and spare parts for rifles, sub-machine guns
Greece	NATO Mission in Iraq (NMI)	Pistol M1911A1 0,45'', Rifle with Bayonet M16A2, Cartridges (0,45mm and 5,56mm), Magazines.
Hungary	NATO Mission in Iraq	Radio sets, pistols, night vision devices, bulletproof vests, ceramic plates, BDU, rifles

Destination Country: **Italy**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	United Nations Global Service Center (UNGSC)	Cross-country vehicles with special protection

Destination Country: **Ivory Coast**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	EU Delegation	Cross-country vehicle with special protection and spare parts

Destination Country: **Kosovo**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Greece	NATO Kosovo Force (KFOR) 2023, Second Multi National Operational	Machine Gun 0,50'' (4 items), machine Gun Barrels 0,50'' (8 items),

	Reserve Forces Battalion (2nd MN ORF BN)	vehicle HUMMER (4 items), radio TRC 9200 (2 items), SEM 190-8 (2 items), night vision goggles (4 items), cartridges 0,50'' (8.400 items)
	NATO Kosovo Force (KFOR) 2023, Operational Reserve Forces (ORF)	Pistol M1911A1 0,45'' (26 items), rifle 5,56mm (121 items), grenade launcher M203 (9 items), machine gun MINIMI (18 items), machine gun 7,62mm (7 items), flare launcher (7 items), vehicle MERCEDES 240-290GD (15 items), vehicle HUMMER (2 items)
Hungary	Kosovo Force (KFOR)	Kevlar helmets, bulletproof vests, combat vest kit, gasmask sets, rifles, pistols, BDU, ammunition, crypto unit, shields, night vision goggles, aiming lasers, rifle scopes, red dot sights, magazines, APCs

Destination Country: **Lebanon**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	International Monetary Fund (IMF)	Cross-country vehicles with special protection and spare parts
	United Nations Economic and Social Commission for Western Asia (UNESCWA)	Spare parts for sub-machine guns
	United Nations Interim Force in Lebanon (UNIFIL)	Spare parts for cross-country vehicles with special protection
	United Nations Truce Supervision Organization (UNTSO)	Laser protection equipment and spare parts for cross-country vehicles with special protection
Hungary	United Nations Interim Force In Lebanon (UNIFIL)	BDU, kevlar helmets, rifles, pistols, bulletproof vests, ceramic plates

Destination Country: **Libya**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	EU Delegation	Cross-country vehicles with special protection and spare parts
	United Nations Support Mission in Libya (UNSMIL)	Ballistic helmets, optical weapon-sights, pistols and spare parts for rifles

Malta	Malta Embassy / AFM at Malta Mission in Tripoli	3,000 rounds (5.56x45 live)1,000 rounds (9x19 live)3,000 rounds (5.56 x 45 linked live), 8 Plate Carriers16 Ballistic Plates, 2 x PVS 21 Night Vision goggles4 x NVS 7 – NVGs, Day and Night Flares, 7 x Sig MCX Rifles in 5.56 Configuration complete with ATPIAL, Optical Sights andFlashlight8 x Glock 17 Pistols complete with light and laser, 48 x 5.56 Magazine24 x Glock Magazine, 10 x Helmet with storbe light10 x body armour, 1,000 rounds 5.56 x 45 live500 rounds 9 x 19 live, Sig MCX Rifles in 5.56 Configuration complete with ATPIAL, Optical Sights and Flashlight, Glock 17 Pistols complete with light and laser
-------	---	---

Destination Country: **Lithuania**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Portugal	NATO Enhanced Air Policing NATO Assurance Measures	Handguns, sub-machine guns, assault rifles and components (ML1), grenade launchers (ML2), ammunition (ML3), several aircrafts and equipment (ML10), equipment and communication systems (ML11), protection equipment (ML13), image and countermeasures equipment (ML15), training equipment (ML17)

Destination Country: **Mali**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Hungary	European Union Training Mission in Mali (EUTM Mali)	Rifles, ACOG optics, bulletproof vests, ceramic plates, ammunition, magazines, BDU
Portugal	European Union Training Mission in Mali (EUTM Mali)	Handguns, sub-machine guns, assault rifles and components (ML1)

Destination Country: **Mozambique**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Finland	International Organization for Migration (IOM)	Tactical vests and helmets (ML13)
Germany	EU Delegation	Cross-country vehicle with special protection and spare parts
Portugal	European Union Training Mission in	Several aircrafts and equipment

	Mozambique (EUTM Mozambique)	(ML10)
Destination Country: Netherlands		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	United Nations High Commissioner for Refugees (UNHCR)	Cross-country vehicle with special protection
Destination Country: Niger		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
France	European Union civilian crisis management mission (EUCAP Sahel)	NORO-PN-1701010 - Support bracket for night vision on ballistic helmets
Portugal	EU Military Partnership Mission in Niger	Several aircrafts and equipment (ML10)
Destination Country: Mali		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
France	European Union civilian crisis management mission in Mali – EUCAP Sahel	OXF1 plaster exercise grenades, 7.62X51 ammunition on tape, red smoke grenades, yellow smoke grenades, white smoke grenades, OXF1 plaster exercise grenades, manual protection device for sting-ball grenade
Destination Country: Poland		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
Portugal	NATO Assurance Measures	Handguns, sub-machine guns, assault rifles and components (ML1), large ammunition (ML4), surveillance equipment (ML5), equipment and communication systems (ML11), protection equipment (ML13), image and countermeasures equipment (ML15), training equipment (ML17)
Destination Country: Romania		
Exporting Member State	United Nations-mandated or other international missions	Description of goods
Portugal	tailored Forward Presence (tFP)	Handguns, sub-machine guns, assault rifles and components (ML 1), grenade launchers (ML2), ammunition (ML3), large

		ammunition (ML4), ground vehicles and components (ML6), anti-riot equipment (ML7), several aircrafts and equipment (ML10), equipment and communication systems (ML11), protection equipment (ML13)

INFORMATION ON EU OUTREACH ACTIVITIES

1. Council Decision (CFSP) 2020/1464, amended by Council Decision (CFSP) 2022/848 on Union outreach activities in support of the implementation of the EU Outreach Project on the Promotion of Effective Arms Export Controls

‘COARM Outreach Project V’ – implemented by: BAFA

I. INDIVIDUAL ASSISTANCE WORKSHOPS

Kyrgyzstan

Online/hybrid, 12-13 July 2023

A workshop was organised for Kyrgyzstan in hybrid setup. Eighteen representatives from Kyrgyzstan’s relevant authorities participated in this activity.

This workshop was designed as a follow-up workshop to the study visit to Armenia (13-15 February 2023) for Kyrgyzstan. The objective of this activity was to provide participants with practical insights into the export control systems and customs procedures of an EU Member State, including the intersection between licensing–customs, technical assessment in export controls, outreach to industry and cooperation between industry and the administration.

Montenegro

In-person (Podgorica), 15-16 November 2023 – jointly organised by BAFA and Expertise France

A joint arms and dual use trade control workshop was organised for Montenegro in Podgorica, Montenegro. Twelve representatives from Montenegro’s relevant authorities participated in this activity. In addition, two observers from the United States Export Control and related Border Security Programme (EXBS) attended the event.

This workshop was jointly organised by BAFA and Expertise France in the framework of EU COARM OP V and the EU P2P Project no. 64. The event addressed the effective implementation of controls on transit and transshipment as well as approaches of (related) interagency cooperation.

II. CROSS REGIONAL WORKSHOPS

For Eastern Europe, Caucasus and Central Asia

In-person (Yerevan, Armenia), 16-17 February 2023

A cross regional workshop was organised for Eastern European, Caucasian and Central Asian Partner countries in Yerevan, Armenia. Thirty-five representatives from the relevant authorities of Armenia, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Mongolia and Uzbekistan participated in this activity. The workshop was organised in cooperation with the OSCE, which sponsored the participation of three additional participants from the Kyrgyz Republic.

The two-day workshop covered topics such as the role of technical expertise in the application of the EU Common Military List and decision-making criteria, as well as risk assessment and risk management techniques in the field of export controls. These topics were accompanied by comprehensive case studies. A spotlight was also put on intergovernmental cooperation and included prevention techniques against illicit trade.

For North African Mediterranean Region, Southern Neighbourhood Countries of the European Neighbourhood Policy as well as South Eastern Europe

In-person (Algiers, Algeria), 13-14 June 2023

A cross regional workshop was organised for North African, Mediterranean and Southern Neighbourhood Countries of the European Neighbourhood Policy and South Eastern Europe in Algiers, Algeria. Twenty-nine participants from the competent authorities from Algeria, Albania, Bosnia and Herzegovina, Egypt, Jordan, Lebanon and Tunisia attended the event. In addition, five representatives from AFRIPOL, the African Centre for the Study and Research on Terrorism (ACSRT), took part in the event.

This was the first cross-regional workshop bringing together representatives from North Africa, the Middle East and South Eastern Europe. Following the pandemic period, during which activities and progress in many countries slowed, the aim of the workshop was to re-address the key pillars of an effective arms export control system, foster regional exchange and to get an overview of the applied practices and approaches within the partner countries.

III. STUDY VISITS

Study Visit to Armenia for Kazakhstan and Kyrgyzstan

In-person (Yerevan, Armenia), 13-15 February 2023

A study visit was organised for Kazakhstan and Kyrgyzstan in Yerevan, Armenia. Twelve representatives from Kazakhstan's and Kyrgyzstan's relevant authorities participated in this activity. Two representatives from the OSCE participated as observers. The OSCE also sponsored three additional participants.

The study visit aimed at providing the participants with an overview of the applied arms export control procedures in Armenia. Special attention was paid to the role of technical assessments as Kazakhstan and Kyrgyzstan specifically asked for support in the frame of the COARM project regarding ways to optimize the incorporation and use of technical expertise into their export control administration processes.

Study Visit to Romania for Azerbaijan, Moldova and North Macedonia

In-person (Bucharest, Romania), 28 February - 2 March 2023

A Study Visit was organised for Azerbaijan, Moldova and North Macedonia in Bucharest, Romania. Six representatives from the participating country's relevant authorities participated in this activity.

This study visit was intended to provide the participants with a detailed and practical overview of the applied arms export control procedures in Romania and give them the opportunity to discuss and exchange their national perspectives and approaches. The event covered different items from a licencing and customs perspective. Two on-site visits to customs at Otopeni Airport and a Romanian company that produces and exports military goods, complemented the discussions.

Study Visit to Georgia for Armenia and Bosnia and Herzegovina

In-person (Tbilisi, Georgia), 10-11 July 2023

A study visit was organised for Armenia and Bosnia and Herzegovina to Tbilisi, Georgia. Eight representatives from Armenia's and Bosnia and Herzegovina's relevant authorities participated in this activity.

Experts from the COARM partner countries who had participated in the train-the-trainer course were responsible for leading this peer-to-peer study visit.

This event focused on items' identification and classification against the national control list, the Georgian arms export control system, inter-agency cooperation in the licencing phase, customs procedures in export control of military goods and particular cases in licensing.

Study Visit to Latvia for Bosnia and Herzegovina, Kosovo, Kyrgyzstan, Tajikistan and Turkmenistan

In-person (Riga, Latvia), 12-14 September 2023

A study visit was organised for Bosnia and Herzegovina, Kosovo, Kyrgyzstan, Tajikistan and Turkmenistan to Riga, Latvia. Twelve representatives from the partner countries' relevant authorities participated in this activity.

The focus of the study visit was on the importance of a robust legal framework, the licensing procedure as a whole and, more specifically, technical assessment within the licensing procedure, as well as outreach to industry. The program of the study visit was complemented by an on-site visit to a Latvian drone manufacturer to discuss the obligations and responsibilities of the company in the field of export controls.

Study Visit for Ukraine to Germany

In-person (Eschborn, Germany), 25-26 October 2023

A study visit was organised for Ukraine to Eschborn, Germany. Nine representatives from Ukraine's relevant authorities participated in this activity.

This was the first in person event with Ukraine after the pandemic and the outbreak of the war. It focused on the importance of inter-agency cooperation, customs clearance procedures as well as end-use verification in the licensing process. Furthermore, the operative provisions and requirements for the EU member states' arms export control systems set by Common Position 2008/944 were discussed.

Study Visit to Romania for Mongolia

In-person (Bucharest, Romania), 30 October – 1 November 2023

A study visit was organised for Mongolia to Bucharest, Romania. Nine representatives from relevant Mongolian authorities participated in this activity.

For this first ever study visit for Mongolia, a two-fold objective was pursued: firstly, participants were introduced to the key elements of an export control system, including control list (EU Common Military List), scope of control (export, import, transit, transshipment, brokering), licensing process, assessment criteria, the role of inter-agency cooperation. Secondly, an overview of the ATT operative provisions and their implementation into Romanian export controls legislation was provided.

IV. INSTITUTIONAL CAPACITY-BUILDING AND ADVANCED-LEVEL AWARENESS-RAISING EVENTS

Advanced-level support Bosnia and Herzegovina/Cross-project train-the-trainer seminar

Online and in-person (Eschborn, Germany), May 2023

A cross project train-the-trainer seminar was organised in Eschborn, Germany and online. Two representatives from Bosnia and Herzegovina's relevant authorities participated in this activity as part of the COARM Project. This train-the-trainer seminar was organised as a "cross-project" activity. This means the participants came from three partner countries working with the implementing agency in different projects.

The train-the-trainer program is focused on didactics and knowledge transfer regarding strategic trade control topics. The activity focused on the process of knowledge transfer and on skills and competencies necessary for a trainer to launch, manage and direct a knowledge transfer process.

V. CONFERENCE FOR PARTNER COUNTRIES WITH ADVANCED EXPORT CONTROL SYSTEMS

Conference for advanced-level partner countries

In-person (Wiesbaden, Germany), 09 February 2023

A conference for advanced-level partner countries was organised for Albania, Serbia and Georgia in Wiesbaden, Germany.

Four representatives from participating countries' relevant authorities joined this activity, including all participants of the first train-the-trainer seminar. The event was organised back-to-back with the seventh global Wiesbaden Conference.

Discussions focussed particularly on the intangible transfer of technology (ITT), due diligence requirements and emerging technologies. In addition, the conference allowed representatives to exchange views regarding newest developments related to the arms trade and to discuss how recent changes and improvements in arms trade controls can be implemented as part of their own national export control system.

VI. ASSESSMENT EVENTS

Final Assessment Event

Hybrid (Brussels, Belgium and online), 27-28 November 2023

The final assessment event of the EU COARM Outreach Project V was organised in Brussels, Belgium, as a hybrid event. Fifty representatives from fifteen partner countries, EU institutions, EU member states and EU experts participated either in-person or online.

The final assessment event served to assess and consolidate the outcomes, advancements, and challenges encountered throughout project phase V, but also aimed at a more general lookback. Additionally, the final conference sought to foster dialogue among participants from both the European Union and partner countries to discuss the future COARM VI follow-up project.

2. Council Decision (CFSP) 2021/2309 on Union outreach activities in support of the implementation of the Arms Trade Treaty (ATT)

I. NATIONAL ACTIVITIES

Benin

Awareness raising workshop for Parliamentarians on the ATT and its incorporation in national legislation

Hybrid workshop (Cotonou), 19 September 2023 – Expertise France

Benin adopted a law on arms and ammunition in 2020. Drafted in 2010, it was adopted by the Parliament after very long delays.

It does not reflect provisions from the ATT. Changing Benin’s legislation in relation to small arms is therefore a priority for Benin’s authorities. This is a condition for the proper implementation of the Treaty. Benin’s authorities are considering two options: amending the existing Law or adopting a new one.

Organised in collaboration with Benin’s National Commission on the fight against the Proliferation of Light Weapons (below the “National Commission”), the workshop aimed at boosting the process of incorporation of ATT provisions into Benin’s legislation. Following legislative elections of January 2023, new Parliamentarians entered the National Assembly and the composition of its Commission on Defense and Security was renewed (NB: Benin is a unicameral system with no Senate). This workshop aimed at raising awareness of members of the new Commission. Representatives of other entities involved in the legislative process on arms related issues were also invited – Ministry of Foreign Affairs, Defense, Justice, Interior, Armed forces etc.

In proposing such an activity, Benin’s National Commission aimed at taking into account lessons from the experience of the above-mentioned law which was adopted only after very long delays. Such delay was largely due to lack of understanding of the subject matter among members of the National Assembly.

Members of Parliament expressed their satisfaction vis-à-vis the information provided and their readiness to take prompt action to adapt Benin’s legislative framework. They called for continued support by international partners to help them advance towards this objective. Participants also underlined the need for stronger awareness rising among the public regarding existing and future legislation on arms.

Diverging views were expressed among participants as to whether a new law was needed or amending the existing one was sufficient. The National Commission and Ministry of Foreign Affairs expressed their intention to rapidly invite all relevant stakeholders to a coordination meeting to decide on the way forward.

Botswana

Online Assessment Event

Online, 6-7 September 2023 - BAFA

An online assessment event was organised for Botswana. Eighteen representatives from Botswana’s relevant authorities participated in this activity.

The online assessment event constituted the inaugural activity for Botswana under EU ATT OP-III after the country joined the project as a partner country on 25 August 2023.

The event aimed at raising awareness of the requirements of the Arms Trade Treaty, introduce the project to a broader range of stakeholders and begin to map out the road ahead for Botswana on its journey to implement ATT provisions.

1st national assistance workshop

In-person (Gaborone), 2-3 November 2023 - BAFA

A national assistance workshop was organised for Botswana in Gaborone, Botswana. Seventeen representatives from Botswana's relevant authorities participated in this activity.

The workshop sought to raise awareness for key considerations with regards to legal, licencing and enforcement aspects of implementing the ATT provisions and was also designed to further elaborate the needs, interests, and priorities of Botswana, thereby jointly assessing the next steps in cooperation.

Colombia

National Assistance Workshop

In-person (Bogota), 27-29 June 2023 - BAFA

A national assistance workshop was organised for Colombia in Bogota, Colombia. Forty representatives from Colombia's relevant authorities participated in this activity.

This workshop aimed at lending new momentum and practical support to Colombia's goal of ratifying the Arms Trade Treaty. Topics addressed during the event included legislative procedures and institutional structures, secondary legislation and control lists, interagency cooperation and risk assessment.

National Assistance Workshop

In-person (Cartagena), 5-7 December 2023 - BAFA

A national assistance workshop was organised for Colombia in Cartagena, Colombia. Thirty representatives from Colombia's relevant authorities participated in this activity.

Discussions focused on strengthening the interagency cooperation at the federal level and the role of customs in arms trade controls. Outreach to industry was another central theme of the workshop, which included a site visit to a manufacturer and marketer of conventional naval weaponry and technologies for military purposes, COTECNMAR.

Côte d’Ivoire

Raising awareness among civil society on the draft Law on arms and ammunition, and the ATT Hybrid workshop, (Abidjan), 11-12 July 2023 - Expertise France

This activity built on previous support provided by Expertise France to Côte d’Ivoire under Phases II and III of the EU P2P ATT project. Previously, Expertise France provided advice to Côte d’Ivoire to finalise its draft legislation. The workshop aimed at sensitizing civil society actors to both the draft Law and the ATT. Through the strengthening of the expertise of civil society actors, the event aimed at enhancing their capacity to play their advocacy role vis-à-vis national authorities, including all actors involved in the process for the adoption of the draft Law.

23 individuals counting for 20 civil society organisations participated. It included the country’s most important organisations focusing on arms control (i.e., RASALAO Côte d’Ivoire; WANEP Côte d’Ivoire) and others working on related issues such as human rights, gender, reconciliation, or justice (i.e., Amnesty International Côte d’Ivoire, Ligue Ivoirienne des Droits de l’homme, Fondation Serenti, etc).

Guyana

Capacity building workshop on diversion prevention

Hybrid workshop, 19-20 December 2023 – Expertise France

Demand-driven assistance took the form of an activity which was held in hybrid form on 19 and 20 December 2023.

The training provided 20 participants from different ministries and departments with practical knowledge including: tools, practices, techniques, and methods, as well as lessons learned to prevent diversion of arms, ammunition and explosive within and across the borders of Guyana.

Overall, the training has: a) improved participants' technical competence to regulate the trade and transfer of conventional arms to prevent diversion; b) provided participants with the necessary tools and analysis methods to identify diversion risks, prevent diversion, and counter diversion; c) enhanced participants' knowledge of illicit arms trafficking dynamics in the country and the CARICOM region.

The workshop was approached through thematic presentations and exchanges of experiences and expertise between national and international experts, centred on the following: a) a review of different approaches to prevent diversion along the entire arms transfer chain (pre-transfer, during transfer and post-transfer); b) comparison of techniques and presentation of good practices and methods to prevent arms diversion, including 'operational' perspectives; c) the interlinkages between the ATT and the CARICOM model law to address illicit arms trafficking and diversion of arms. Discussions also addressed diversion in the context of specific national and regional challenges.

Kazakhstan

National Assistance Workshop

Online, 29-30 June 2023- BAFA

An online national assistance workshop was organised for Kazakhstan. Six representatives from Kazakhstan's relevant authorities participated in this activity.

This was the second event for Kazakhstan under the ATT OP-III framework and designed to resume cooperation with the partner country after the pandemic. According to Kazakhstan's wishes, the workshop aimed at introducing the country to the topics of interagency cooperation and outreach to industry, and to identify topics of discussion for future cooperation in the framework of the project.

3rd National Assistance Workshop

In-Person (Astana, Kazakhstan), 20-21 September 2023 – BAFA

A national assistance workshop was organised for Kazakhstan in Astana, Kazakhstan. Twenty representatives from Kazakhstan's relevant authorities participated in this activity.

This two-day workshop deepened the discussions about matters of interagency cooperation and outreach to industry, and identified topics of discussion for the next workshop within the framework of the project.

Liberia

Awareness Raising to Liberia's National Commission on Arms (LiNCA)

Remote Assistance, June-August 2023 - Expertise France

Consistently with Liberia's 2023 Workplan 'Promoting Effective Implementation of the Arms Trade Treaty' and with exchanges held between Liberia's National Commission on Arms (LiNCA) and Expertise France in February 2023, Expertise France in the framework of the third phase of the EU ATT OP partnered with LiNCA to support Liberia in providing public education and civic awareness on relevance of ATT implementation in the country.

In line with Liberia's 2023 Workplan Output n. 2.1 and relevant objectives, this was done through an ad-hoc activity following the full inclusion of Liberia in the Programme in March 2023. The activity focused on the development of simplified versions of the Liberia Firearms and Ammunition Control Act (FACA) of 2022 and the Arms Trade Treaty (ATT). It was undertaken between June and August 2023.

Capacity building workshop to promote effective implementation of the ATT in Liberia: Preventing Diversion

Hybrid workshop (Monrovia), 28-29 September 2023 – Expertise France

In an effort to promote effective national implementation of the ATT, the government of Liberia has amended the Firearms and Ammunition Control Act of 2015 to domesticate the ATT, integrating relevant ATT provisions on trade and transfer of arms and ammunitions, while employing the ECOWAS ATT Model Law as a guiding instrument. This milestone achievement made Liberia the first among 113 State Parties to domesticate the ATT. In addition, the Government of Liberia enacted into law the Act to Repeal the Act establishing Liberia National Commission on Small Arms (LiNCSA) of 2012 to create the Liberia National Commission on Arms (LiNCA) as the national competent authority to supervise the implementation of the ATT in Liberia.

The training workshop provided participants with practical knowledge including: tools, techniques, and methods, as well as lessons learned to prevent diversion of arms, ammunition and explosive within and across the border of Liberia. The workshop also enhanced the understanding of participants on key provisions of the ATT on trade, transfer and transshipment of conventional arms to promote the effective implementation of the ATT. At the end of training, beneficiaries were certified to train additional state security and other actors in diversion prevention methods. More specifically, the training:

- Improved participants' technical competence to regulate the trade and transfer of conventional arms to prevent diversion.
- Enhanced participants' understanding of existing national laws on arms control and the ATT.
- Provided participants with the necessary skills to facilitate the training of a large group of relevant national ATT implementers.
- Provided participants with the necessary tools and analysis methods to identify diversion risks, prevent diversion, and counter diversion.

Madagascar

Political awareness of high-ranking political authorities

In-person meetings (Antananarivo), 28-30 June 2023 – Expertise France

This first activity with Madagascar under the third phase of the EUP2PATT programme built on the support previously provided by Expertise France during the second phase of the programme. The aim was to inform national authorities about the provisions of the Treaty and the practical arrangements for applying it at national level, to create the best possible conditions for resuming the process of revising the law on the general regime for arms and arms transfers. The activity included briefings for senior national political authorities, discussions on facilitating the authorities' support for the resumption of the process and possible ways of implementing the Treaty.

After the end of the activity, a verbal communication was adopted in July 2023 by the Council of Ministers, enabling the technical committee responsible for finalising the draft bill to be relaunched.

Under the authority of the Prime Minister, the Secretary General of the Government has pledged that the bill currently being prepared will be presented to Parliament in 2024.

Sierra Leone

Workshop “Towards the development and use of a National Control List (NCL) in Sierra Leone”

Hybrid Event (Freetown and remote), 29-30 May 2023 – Expertise France

This first activity with Sierra Leone under Phase III of the European Union’s Arms Trade Treaty Outreach Programme (EU ATT OPIII) was organised following exchanges between the Sierra Leone National Commission on Small Arms (SLeNCSA) and Expertise France. Sierra Leone was welcomed as a partner in the Programme on 31 March 2023.

This activity helped to prepare and plan the internal drafting process of the Sierra Leone NCL, which could take several months pending internal discussions related to leadership and coordination on the drafting of the list. Once a draft list has been developed by the Sierra Leone experts, the Programme will put in place remote legal/legislative support to finalise the text and will also provide further ad-hoc support as needed.

Ad-hoc assistance on the process towards the development of a National Control List (NCL)

Remote assistance, November-December 2023 – Expertise France

Following the workshop “Towards the development and use of a National Control List (NCL) in Sierra Leone” of 29-30 May 2023 SLeCAA requested further support from Expertise France to support the process towards the establishment of the NCL and corresponding internal consultations.

This activity supported SLeCAA and other competent authorities in the development of specific procedures and institutional arrangements for the development of the NCL. The activity consisted of three major components: technical advisory in relation to the approach to consultations including advisory on and mapping of participating ministries, department, agencies, and other relevant stakeholders; development of guidance for the national Coordinator to guide internal discussions and consultations alongside the Commission (list of draft items for discussion) and consideration; advisory on good practices and concrete models of NCLs developed by other countries in West Africa and elsewhere.

Expertise France in consultation with Sierra Leone authorities contracted an International Consultant from its well-established pool of experts, who previously participated in the workshop on the process towards the development of the National Control List and who provided technical advisory drafting the above documents in collaboration with the key Expert.

Union of the Comoros

Political and technical awareness-raising

In-person workshop (Moroni), 03-04 July 2023 – Expertise France

The ATT Focal Point in Comoros and Expertise France proposed an initial activity to support the efforts of the national authorities to fully implement the ATT. The aim was to raise awareness among national political authorities of the ATT as a guarantee of regional and international security, and to inform them about the provisions of the Treaty and to initiate consultation on the modalities for its ratification.

This first activity took the form of a two-day workshop. It included information sessions for national political authorities on international arms transfers, the history, spirit and letter of the provisions of the ATT, its institutional operation, and the importance of the transparency mechanisms that underpin the instrument. The workshop also provided an opportunity to place the instrument in a regional context. It started a process that will be followed closely in 2024.

Zambia

Online National Assistance Workshop

Online, 25 – 27 April 2023- BAFA

An online national assistance workshop was organised for Zambia. Twenty representatives from Zambia's relevant authorities participated in this activity.

The workshop focused on Zambia's draft national conventional arms control bill. A participating expert analysed the draft bill in advance to identify any gaps and/or areas needing further attention.

In addition to addressing some remaining issues around the bill, the workshop aimed at raising awareness among the different agencies of important ATT stipulations covered by this draft law and to discuss possible further steps to implement this law if it is passed.

National Assistance Workshop

In-person (Lusaka), 6-7 November 2023 - BAFA

A national assistance workshop was organised for Zambia in Lusaka, Zambia. Nineteen representatives from Zambia's relevant authorities participated in this activity.

Discussions focused particularly on the process of licencing, with the aim of strengthening stakeholders' understanding of the licencing process in light of Zambia's upcoming work to draft secondary legislation and procedural guidance to implement the national conventional arms control bill.

II. REGIONAL ACTIVITIES

Africa

Regional Workshop for Southern Africa

In person, (Livingstone, Zambia) 6-7 June 2023 – BAFA

A regional workshop was organised for Botswana, Eswatini, Lesotho, Malawi, Mozambique, Namibia, Tanzania and Zambia in Livingstone, Zambia. Fifty-nine representatives from relevant authorities participated in this activity. In the spirit of donor coordination, the United States was present with three representatives, two from the Bureau of Industry and Security (BIS) and one from Export Control and Related Border Security Assistance (EXBS).

This two-day event was the first regional event for Southern Africa in the EU ATT OP-III framework. It aimed at raising awareness in the region of the importance of the ATT, support its universalisation, and further inform countries about available assistance projects and resources supporting the implementation of the obligations under the ATT.

Benin

Regional workshop and meetings - Delegations from Cameroon and Madagascar visit Benin

In person (Cotonou), 13-17 November 2023 – Expertise France

This activity was a continuation of the support provided to Cameroon and Madagascar during the second and third phase of the EU P2P ATT project. For Cameroon, the last workshops organised in 2022 contributed to the development of a National Control List (NCL) and national reporting capacities. With regard to Madagascar, a programme of meetings and a workshop at the end of June 2023 in Antananarivo led to the relaunch of the process aimed at adopting a law on the general arms regime in the country.

Cameroon and Madagascar expressed a desire to take part in a study visit to learn about existing practices in other countries with regard to the implementation of the ATT. In particular, these two countries are planning to set up a National Commission against the Proliferation of Small Arms and Light Weapons (SALW) and would like to learn from the experience of a country that has already established such a body.

Benin, for its part, has undertaken numerous actions and initiatives as part of the implementation of the ATT, in particular the establishment of an LNC. Benin has effective and operational national mechanisms for combating the proliferation of SALW, including a National Commission.

The study visit to Benin by delegations from Cameroon and Madagascar enabled Benin to share its experience, particularly in the following areas:

- development of the LNC;
- establishment and operation of the National Commission to combat the proliferation of SALW, with a focus on three levels:
 - Strategic: normative/legislative basis of the Commission, entities participating in it and to which it is accountable, etc.
 - Administrative: involvement and relationship with relevant bodies;
 - Operational: concrete activities carried out by the Commission and the relevant bodies, particularly in the area of export (and import) controls.

The study visit took place in Cotonou over two days. It included a meeting with representatives of the National Commission to Combat the Proliferation of SALW and other relevant bodies, including the Ministry of Foreign Affairs, the Ministry of Justice, the Ministry of the Interior, the Armed Forces, the National Directorate of Materiel and Customs.

Mexico

Regional conference against the diversion of trade of small arms and light weapons and their illicit trafficking: the role and usefulness of the ATT

In-person (Mexico City), 1-2 June 2023 – Expertise France

Taking as a departing point that multilateralism and international cooperation constitute the ideal platform to better prevent and counter these challenges, and building on the outcomes of the online seminar “Generating synergies and regional strategies against the diversion of trade of small arms and light weapons and their illicit trafficking”,

which was held on 19 and 20 January 2022, the “regional conference against the diversion of trade of small arms and light weapons and their illicit trafficking: The role and usefulness of the ATT” aimed at fostering exchanges between experts and diplomats on best practices for preventing the diversion of trade of small arms and light weapons and their illicit trafficking in the region in the context of Article 11 of the ATT, as well as to identify areas for common action.

In this regard, the conference, which was organised in the premises of the Mexican ministry of foreign affairs:

- promoted the cooperation, networking and exchange of information among importing, transit, trans-shipment and exporting States Parties in order to mitigate the risk of diversion of the transfer of small arms and light weapons;
- encouraged the sharing of information on diversion and illicit activities, including corruption, international trafficking routes, illicit brokers, sources of illicit supply, methods of concealment, common points of dispatch, or destinations used by organized groups engaged in diversion;
- shared good practices implemented by participating countries in preventing and addressing risks of diversion of small arms and light weapons in accordance with the ATT and with the aim of strengthening international cooperation.

17 countries from Latin America participated (including Mexico), which brought together 38 foreign participants during two days: Argentina, Belize, Chile, Colombia, Costa Rica, El Salvador, Guatemala, Guyana, Honduras, Jamaica, Mexico, Panama, Paraguay, Peru, Republica Dominicana, Saint Kitts and Nevis, Santa Lucia (joined by representatives from France, Germany, the UN, and the EU).

In conclusion, the partners decided to follow up this regional conference with the joint preparation of a policy paper designed to summarise in a few pages the main measures taken by the countries taking part in the conference to combat the diversion and illicit trafficking of firearms. 8 States participating to the regional conference responded to the questions put by the partners, providing the substance of a document that was formatted, published, and widely distributed at the 9th Conference of States Parties (CSP) to the ATT, from 21 to 25 August 2023.

Togo

Regional Workshop on National Control Lists

Hybrid Event (Lome and remote), 31 January 2023 – Expertise France

Expertise France participated at the regional workshop organised by ECOWAS in Lome for all ECOWAS member countries, on the theme of the development of national control lists under the ATT, the implementation of the Treaty and its universalisation.

III. STUDY VISITS

Study visit for Chile to BAFA

In-person (Eschborn, Germany) 14-16 March 2023 - BAFA

A study visit was organised for Chile in Eschborn, Germany. Six representatives from Chile's relevant authorities participated in this activity.

The study visit focused on reviewing different licensing methods and approaches. Therefore, tools of licensing, including procedures, documentation and certification, information sharing and data collection and interagency cooperation were discussed. Participating EU experts presented the German and Spanish licensing system, explaining specific laws, regulations, and tools used to license and regulate the export of military equipment.

Study visit for Thailand to London, UK, and Heathrow Airport

In-person (London, United Kingdom) 21-23 March 2023 - BAFA

A study visit was organised for Thailand to London Heathrow Airport, United Kingdom. Eight representatives from relevant Thai authorities participated in this activity.

The focus of this activity was to sensitize participants regarding the role of customs procedures in enforcing arms trade controls. The participants received an overview of best practices for effective export control from different UK agencies, including the UK Border Force, His Majesty's Revenue and Customs (HMRC) and the Export Control Joint Unit.

IV. OTHER ACTIVITIES

Side event at the ninth Conference of the States Parties to the ATT (CSP 9)

In-person (Geneva, Switzerland) 23 August 2023 - Expertise France / BAFA

A side event at the ninth Conference of the States Parties to the ATT (CSP 9) was organised in Geneva, Switzerland. Forty representatives from relevant authorities, different countries' missions to the UN in Geneva and several NGOs participated in this activity.

The CSP side event was intended to demonstrate how the European Union's support programme for ATT implementation is set up to pool technical resources and provide beneficiary countries with a toolbox of implementation know-how. It was also intended to raise awareness about the EU's ATT implementation support activities, in particular for countries that may subsequently seek assistance, inform about recently implemented activities and discuss expertise sharing on the implementation of the ATT. The event also provided two partner countries - Benin and Colombia - with the opportunity to present their experiences as partner countries in the project. The session gave the floor to Mr. Álvaro Alejandro Gómez OCAMPO, Minister Plenipotentiary, Permanent Mission of Colombia to the United Nations Office and other International Organisations in Geneva, and Mr. André Hounsou FINAGNON, Directorate of International Organisations, Ministry of Foreign Affairs, Benin.

The session was followed by a question-and-answer session of approximately 30 minutes.

Side Event in the margins of the Meeting of the UN General Assembly First Committee

In person (New York) 23 October 2023, Expertise France/BAFA

A side event in the margins of the UN General Assembly First Committee Meeting was organised in New York, USA. Twenty-Seven representatives from relevant authorities, different countries' missions to the UN and several NGOs participated in the event.

The event coincided with the ten-year anniversary of the EU ATT Outreach Project's inauguration in 2013. Therefore, the purpose of the event was to take stock of the project activities over the past decade, presenting trends, developments, data, and learnings for the future, while also inviting remarks and questions from interested attending country/organisation representatives. Two representatives from Zambia and Benin had the opportunity to share their experiences as partner countries: Mr. Dominic Matala, Ministry of Defence, Zambia, and Colonel Gabin Chahounka, Permanent Secretary, National Commission to Fight the Proliferation of Small Arms CNLCPAL, Benin.

Production of a motion design devoted to the EU support to the ATT

Expertise France

The specific communication effort which was launched during the first part of the year was pursued with the production of an animated video ('motion design') promoting the ATT and the European Union action in support of the Treaty, in English, French, and Spanish versions, intended for very wide distribution throughout the third phase of the programme.

The video motion design was achieved in spring 2023. It was introduced for the first time at the regional conference of Mexico on 1st June 2023. It was also introduced at the CSP9 ATT in Geneva in August 2023 and at the UNGA First Committee meeting in October 2023 (English version).

Production of a dedicated policy paper to the fight against illicit trafficking of SALW

Expertise France

Latin America and the Caribbean is a region which is specifically affected by the diversion and illicit trafficking of small arms and light weapons (SALW). These arms feed internal violence and organised crime in many countries of the region where 70% of homicides are caused by firearms.

Taking as a departing point that multilateralism and international cooperation constitute the ideal platform to better prevent and counter these challenges, and building on the outcomes of the online seminar “Generating synergies and regional strategies against the diversion of trade of small arms and light weapons and their illicit trafficking” which was held on 19 and 20 January 2022, the Mexican MFA and the EUP2P ATT Outreach Programme organized on 1 & 2 June 2023 in Mexico City a “Regional conference against the diversion of trade of SALW and their illicit trafficking: The role and usefulness of the ATT”. Bringing together around 20 States of the region, this meeting aimed at fostering exchanges between experts and diplomats on best practices for preventing the diversion of trade of SALW and their illicit trafficking in the region in the context of Article 11 of the ATT, as well as to identify areas for common action.

Based on this regional conference, this policy paper was prepared to be circulated during the ATT CSP9 in Geneva in order to share good practices implemented by participating countries to the conference in preventing and addressing risks of diversion in accordance with the ATT and with the aim of strengthening international cooperation.

Two questions were put to several countries in the region, which were kind enough to respond.

1. What are the main measures taken and challenges encountered by your country in countering the diversion and subsequent illegal trafficking of SALW?
2. How is your country working in cooperation with other countries in the region to countering diversion and illicit trafficking of SALW?

Their answers provided the content of a document which was published and circulated (around 70 copies) during the ATT CSP 9, in Geneva in August 2023.

3. Council Decision (CFSP) 2021/649 on Union support for activities of the ATT Secretariat in support of the implementation of the Arms Trade Treaty

Implemented by: ATT Secretariat

Council Decision 2021/649 was adopted to support the effective implementation and universalisation of the Arms Trade Treaty (ATT). Thus, in partnership with the ATT Secretariat, the Union provided the necessary resources for activities to support States Parties to the ATT in strengthening their arms transfer control systems for the effective implementation of the ATT and to strengthen the institutional set-up of the ATT Secretariat as the principal body to assist States Parties to the ATT in implementing the ATT. The text below relates to activities undertaken from January to October 2023 when the project concluded. On 23 October 2023, the Council adopted Decision (CFSP) 2023/2296 on Union support for activities of the Arms Trade Treaty Secretariat in support of the implementation of the Arms Trade Treaty.

Project 1: support for capacity building of ATT National Points of Contact

The overall objective of Project 1 was to build the capacity of States Parties' National Points of Contact (NPC), including increasing their knowledge of ATT obligations and raising their awareness with respect to ATT process developments.

Following the development of the [Guidance Document for National Points of Contact \(NPCs\)](#) in 2022, to provide guidance on the role and possible tasks of NPCs, two briefing sessions were conducted remotely in February and May 2023 to coincide with the ATT Working Groups and CSP9 Informal Preparatory meetings. In the February 2023 briefing session, 184 participants from 35 States joined online whereas in the May 2023 briefing session, 166 participants from 44 States joined online. An additional 80 viewers watched the recording published on the ATT website on demand.

Furthermore in 2023, the ATT Secretariat conducted several focused call-in outreach to NPCs according to their regional and linguistic categorisation. During the outreach calls, the available resources on the NPC webpage (including the *NPC Guidance Document*) were highlighted, as well as the process for states to access the ATT internal support mechanisms i.e. the Sponsorship Programme and the Voluntary Trust Fund. NPCs were also able to raise ATT implementation and universalization issues, in an informal way, directly with the Head of the Secretariat. Through this project, NPCs were also able to brief the ATT Secretariat on national and regional circumstances which are impacting the implementation of the Treaty, as well as how best they could bring to bear their experience to ATT formal meetings.

Project 2: Expert Roster (Train the Trainers)

The overall objective of this Project was to build the capacity of national and regional ATT experts to provide advice and training on ATT implementation at the national and regional levels in order to reduce the reliance on international consultants and organisations, improve the quality of training and implementation assistance, and to contribute to better tailoring capacity-building efforts.

For the reporting period and following the development of the ATT training programme and training materials (i.e. Manual and Guide) in 2022, the ATT Secretariat conducted the following additional four (4) regional training workshops:

1. For Caribbean states: Trinidad & Tobago (Port of Spain) in February 2023 conducted in English.
2. For West African States: Cote d'Ivoire (Abidjan) in April 2023 conducted in French.
3. For Southern African States: Lesotho (Maseru) in July 2023 conducted in English.
4. For Southern and Central American States: Mexico (Mexico City), in September 2023 conducted in Spanish.

The regional training workshops mentioned above has helped increase the number of national and regional experts to deliver quality training and implementation assistance to States at national and regional levels.

Project 3: Support for a matching and needs resources database

This project aimed at establishing a formal mechanism within the ATT framework to facilitate the matching of offers and requests for assistance concerning the ATT implementation. This mechanism will give effect to international assistance amongst states and complement the foreseen ATT discussions in the ATT Working Groups focusing on practical Treaty implementation.

In 2023, the project undertook a mapping exercise, identifying existing needs matching mechanisms within the disarmament space, as well as those being utilised in the humanitarian, development and peace spheres. The project conducted further analysis of the information gathered, provided a critical view of the availability and suitability of matching mechanisms, best practices and key issues for consideration to inform the setting up of the databases.

A prototype of the database was demonstrated and launched by the ATT Secretariat during a side event at CSP9, in August 2023, with the participation of Ms. Marketa Homolkova, Head of Political Section for Disarmament and Non-proliferation, EU Delegation to the UN and other international organisations in Geneva. The development of the database has since been completed and went live on 17 October 2023.

The ATT Secretariat is currently engaging States Parties and Signatory States regarding the utility of the database and encouraging them to make available information to be published on the database to facilitate international assistance for ATT implementation.

TABLE F.

European Peace Facility - Assistance Measures

Overview of EPF assistance measures adopted until 31 December 2023

1. Assistance measures taking the form of a general programme for support to the African Union

On 22 July 2021, the Council adopted Decision (EU) 2021/1210 on an assistance measure (AM) taking the form of a general programme for support to the African Union (AM/GP-AU 2021) in the second half of 2021, with a financial reference amount of EUR 130 million. On the basis of recommendations from the HR, the Political and Security Committee (PSC) approved four actions under this AM in 2021.

On 21 April 2022, the Council adopted Decision (CFSP) 2022/667 on an AM taking the form of a general programme for support to the African Union for the period 2022 – 2024 (AM/GP-AU 2022-2024), with a financial reference amount of EUR 600 million. On the basis of recommendations from the HR, the PSC approved three actions under this AM in 2022, and additional three actions in 2023, including to increase appropriations for the third support package to the Somali National Army.

1.1. Support to the AU Mission in Somalia/ AU Transition Mission in Somalia (AMISOM/ATMIS)

On 21 July 2021, the PSC approved an action in support of the military component of AMISOM for the period 1 July-31 December 2021 amounting to EUR 65 million under the AM/GP-AU 2021.

On 6 July 2022, the PSC approved an action in support of the military component of AMISOM/ATMIS for the period 1 January-31 December 2022 amounting to EUR 120 million under the AM/GP-AU 2022-2024.

On 2 March 2023, the PSC approved an action in support of the military component of ATMIS for the period of 1 January to 31 December 2023 amounting to EUR 85 million under the AM/GP-AU 2022-2024.

These actions aim at enabling the military component of ATMIS to fulfil its mandate, with a focus on the gradual transfer of security responsibilities to the Somali Security Forces (SSF), in line with United Nations Security Council Resolutions (UNSCR) 2568 (2021), 2628 (2022), 2670 (2022) and the Somali Transition Plan.

On 27 June 2023, the UNSC adopted UNSCR 2687 (2023) and called on the Federal Government of Somalia to continue working with the AU, UN, EU and bilateral partners to expedite the development of its sovereign capabilities necessary to gradually take over security responsibilities from ATMIS, and to enable greater Somali ownership and responsibility in preparation for the exit of ATMIS and scaling-back of the United Nations Support Office in Somalia (UNSOS). Furthermore, on 15 November 2023, the UNSC through UNSCR 2710 (2023) further extended its authorisation of ATMIS until 30 June 2024.

Type of support: troop allowances, mission subsistence allowances for high-ranking officers, and death and disability compensation.

1.2. Support to the Somali National Army (SNA)

On 17 November 2021, the PSC approved an action in support of the SNA for the period 1 January 2022 – 30 June 2023 amounting to EUR 20 million under the AM/GP-AU 2021.

On 2 March 2023, the PSC approved a second action in support of the SNA amounting to EUR 25 million under the AM/GP-AU 2022-2024. A EUR 4 million top-up to this package of support was agreed by the PSC on 10 October 2023.

Both actions aim at further building the capacities of the SNA and contributing to the gradual handover of security responsibilities from AMISOM/ATMIS to the SSF, in line with UNSCR 2568 (2021), 2628 (2022), 2670 (2022), 2687 (2023), 2710 (2023) and the Somali Transition Plan.

Type of support: rehabilitation works at the training facility, the payment of the training centre's running costs, personal equipment for trainees, other non-lethal equipment.

Furthermore, on 27 November 2023, the Council adopted Decision (CFSP) 2023/2680 on an AM to support the SNA with military equipment designed to deliver lethal force, with a financial reference amount of EUR 1 million.

The objective of the AM is to strengthen the capacity of the SNA to be trained at the General Dhagabadan Training Centre used by the EU Training Mission Somalia (EUTM Somalia), with a view to restore safety and security in the country, and protect the civilian population. Through this measure, the EU will provide ammunition that will be used solely for training the SNA personnel in conjunction with the EUTM Somalia.

Type of support: ammunition.

1.3. Support to the Multi-National Joint Task Force (MNJTF) against Boko Haram

On 16 December 2021, the PSC approved an action in support of the MNJTF against Boko Haram for the period 1 January-30 June 2022 amounting to EUR 10 million under the AM/GP-AU 2021.

On 29 March 2022, the PSC approved an action in support of the MNJTF against Boko Haram for the period 1 July-31 December 2022 amounting to EUR 10 million under the GP-AU 2022-2024.

On 18 January 2023, the PSC agreed to provide additional EUR 80 million under the AM/GP-AU 2022-2024 over a two year-period (2023/2024) to support the MNJTF.

The objective of these actions is to enhance the operational effectiveness of the MNJTF with the aim to create a safe and secure environment in the areas affected by the activities of BH and other terrorist groups.

As a result of the coup in Niger in July 2023, the AU Peace and Security Council decided to suspend the participation of Niger in all activities of the AU and its organs and institutions until the effective restoration of constitutional order in the country. Consequently, all MNJTF operations in Niger's Diffa region have been suspended as well.

Type of support: financial support to cover personnel and operational/logistical costs, including ground and air transportation, communication equipment and medical services, Intelligence, Surveillance and Reconnaissance, nautical, aerial and ground mobility.

1.4. Support to the G5 Sahel Joint Force (G5SJF)

On 15 December 2021, the PSC approved an action in support of the G5SJF under the AM/GP-AU 2021 amounting to EUR 35 million for the period 1 January 2022-30 June 2024.

The approved action aims at enhancing two main lines of effort: i) contribute to strengthening the resilience of the G5SJF; ii) contribute to increasing capacities to ensure maintenance of equipment with a view to ensuring its sustainability.

On 30 April 2022, the PSC decided to temporarily and reversibly suspend the EPF support to the Malian battalions of the G5SJF. Furthermore, as a result of the coup in Niger in July 2023 and due to the volatile political climate in Burkina Faso, EPF support to the Nigerien and Burkinabe battalions of the G5SJF has also been suspended.

Type of support: technical devices, infrastructure works, maintenance capacities.

1.5. Support to the SADC Mission in Mozambique (SAMIM)

On 8 September 2022, the PSC approved an action in support of the Southern African Development Community (SADC) Mission in Mozambique (SAMIM) amounting to EUR 15 million under the AM/GP-AU 2022-2024.

This strand of EPF support is complementary to the ongoing EPF assistance to the Mozambican Armed Forces and EPF support to the deployment of the Rwanda Defence Force in Mozambique (see below).

By providing this support, the EU joins Mozambican and international efforts to restore peace, safety and security in the North of Mozambique, protect the civilian population, and allow for the return of internally displaced persons, accountable law enforcement, state structures and services to the area.

By 31 December 2023, discussions at the level of SADC Headquarters on a possible phased withdrawal of the force from Mozambique were ongoing.

Type of support: camp fortifications and storage containers, medical equipment, mobility assets, as well as technological devices.

2. Assistance measures benefiting individual African countries

2.1. Mozambique

Following the establishment of EUTM Mozambique, the Council approved an urgent measure of EUR 4 million on 30 July 2021 (on the basis of Concept Note 10547/1/21 REV 1 EU-R), and on 19 November 2021 adopted Decision (CFSP) 2021/2032 establishing an AM of EUR 40 million to support five military units trained by the EUTM. On 21 April 2022, the Council adopted Decision (CFSP) 2022/668 to increase the reference amount of the AM by EUR 45 million to address the needs of all eleven units to be trained. Total support to Mozambique under this AM and the urgent measure now equals EUR 89 million.

This support will allow the aforementioned units to develop the necessary and sustainable capacities to restore safety and security in Mozambique's northern Cabo Delgado province. It consists of the provision of integrated packages of equipment and supplies in conjunction with EU training mission. The aim is to ensure that the training is as efficient and effective as possible, enabling EUTM-trained troops to be fully operational and self-sufficient upon deployment.

The AM benefiting military units trained by EUTM Mozambique is complemented by support to SAMIM (see above) and support to the deployment of the Rwanda Defence Force in Mozambique (see below).

Type of support: personal and collective equipment, ground mobility assets, technical devices and a field hospital.

2.2. Rwanda

On 1 December 2022, the Council adopted Council Decision (CFSP) 2022/2354 on an AM to support the deployment of the Rwanda Defence Force in Mozambique with a financial reference amount of EUR 20 million.

The objective of the AM is to support part of the extra-costs generated by continued deployment of units of the Rwanda Defence Force in Mozambique's northern province of Cabo Delgado in order to extend, protect and sustain the territorial and tactical gains they have made so far. This should ensure the security and the protection of the civilian population in Mozambique's northern provinces and facilitate the return of law enforcement agencies and of other accountable state structures that deliver services for the benefit of the population. This deployment started in July 2021 at the request of Mozambican authorities, in response to the ongoing fight against terrorism.

This AM complements EPF support to SAMIM and EPF support to military units trained by EUTM Mozambique (see above).

Type of support: personal and collective equipment, financial support to cover costs related to the strategic airlift.

2.3. Niger

On 18 July 2022, the Council adopted Decision (CFSP) 2022/1236 on an AM to support the Nigerien Armed Forces, with a financial reference amount of EUR 25 million.

On 7 March 2023, the Council adopted Decision (CFSP) 2023/509 for an AM to support the Nigerien Armed Forces in conjunction with the EU Military Partnership Mission in Niger (EUMPM) Niger, with a financial reference amount of EUR 40 million.

On 10 June 2023, the Council adopted Decision (CFSP) 2023/1136 on an AM to support the Nigerien Armed Forces with military equipment designed to deliver lethal force, with a financial reference amount of EUR 4.7 million. On the same day, the Council adopted Decision (CFSP) 2023/1137 on an AM to finance additional activities that complement the provision of military equipment to the Nigerien Armed Forces, with a financial reference amount of EUR 0.3 million.

The broad objective of these AMs was to strengthen the capabilities and resilience of the Nigerien Armed Forces to defend the territorial integrity and sovereignty of Niger and to better protect the civilian population including against the mounting terrorist threat.

Following the coup in Niger in July 2023, the HR decided to provisionally suspend these AMs.

Type of support: No equipment or infrastructure have been delivered to Niger under these AMs.

2.4. Mauritania

On 1 December 2022, the Council adopted Decision (CFSP) 2022/2355 on an AM to support the armed forces of the Islamic Republic of Mauritania, with a financial reference amount of EUR 12 million.

The AM has two key objectives: improving the military capacities of two pre-identified battalions of the Mauritanian Armed Forces to better respond to the security threats Mauritania and the region are facing, and improving the in situ medical capacities of these forces on the border with Mali,

Western Sahara and with Algeria to better respond to the security threats Mauritania and the region are facing.

Type of support: light boats, personal protective equipment, and medical equipment.

2.5. Mali

On 2 December 2021, the Council adopted Decision (EU) 2021/2137 on an AM to support the Armed Forces of the Republic of Mali amounting to EUR 24 million.

Following the changes of the political landscape, on 30 May 2023, the PSC suspended this measure before its implementation started.

Type of support: No equipment or infrastructure have been delivered to Niger under these AMs.

2.6. Ghana

On 10 July 2023, the Council adopted Decision (CFSP) 2023/1440 on an AM to support the Ghana Armed Forces, with a financial reference amount of EUR 8.25 million.

The measure will strengthen the operational capabilities of the military units deployed in the northern part of the country to fight armed groups, counteract and reduce their opportunities to commit terrorist attacks. The mobility component builds on the transfer of 105 militarised vehicles seized by the Operation EUNAVFOR MED IRINI on board of the merchant vessel Victory RoRo on 18 July 2022 in violation of the United Nations' arms embargo on Libya.

Type of support: militarised vehicles, imagery, engineering, and explosive ordnance disposal equipment.

2.7. The Democratic Republic of the Congo

On 20 July 2023, the Council adopted Decision (CFSP) 2023/1518 on an AM to support the Armed Forces of the Democratic Republic of the Congo (DRC), with a financial reference amount of EUR 20 million.

Through this AM, the EU will support the 31st Rapid Reaction Brigade of the Armed Forces of the Democratic Republic of the Congo (FARDC). This 31st Rapid Reaction Brigade is active in Eastern DRC and the EU support will strengthen the capabilities and resilience of the FARDC in a region

marked by the presence of more than one hundred armed groups. The AM will also support the rehabilitation of the brigade's headquarters.

Type of support: individual equipment, such as commando kits, first aid kits and clothing, and collective equipment, such as counter-IED kits, vehicles and radios.

2.8. Benin

On 25 September 2023, the Council adopted Decision (CFSP) 2023/2062 on an AM to support the Beninese Armed Forces, with a financial reference amount of EUR 11.75 million.

The objective of the AM is to enhance the capabilities of the Beninese Armed Forces with a view to protect the territorial integrity and sovereignty of Benin and its population, against internal and external aggressions, in a context of spill-over from Islamist militant groups from the Sahel, and to contribute to peace and stability within the region. The measure will, in particular, focus on supporting the Operation Mirador deployed in the northern parts of Benin since 2022.

Type of support: Intelligence, Surveillance and Reconnaissance aircraft and Unmanned Air Systems, including spare parts and maintenance training.

2.9. Military actors and navies of coastal states involved in maritime security operations in the Gulf of Guinea

On 27 November 2023, the Council adopted Decision (CFSP) 2023/2682 on an AM to support military actors and navies of coastal states involved in maritime security operations in the Gulf of Guinea, with a financial reference amount of EUR 21 million.

The AM will support the Yaoundé Architecture and strengthen the capacities of Ghana and Cameroon to patrol the high seas. The AM seeks to complement the EU-initiated Coordinated Maritime Presence in the Gulf of Guinea.

Type of support: Intelligence, Surveillance and Reconnaissance services to the Yaoundé Architecture, and non-lethal equipment to the navies of Ghana and Cameroon, such as rigid hull inflatable boats, intervention speed boats, engines, light naval rotary unmanned air vehicles, marine generators for ships and scuba diving equipment.

2. Assistance measures benefiting partners in the Eastern Neighbourhood

3.1. Ukraine

a)

On 2 December 2021, the Council adopted Decision (EU) 2021/2135 on an AM to support the Ukrainian Armed Forces (UAF), with a financial reference amount of EUR 31 million.

The objective of the AM is to build up the capabilities of the UAF in the i) medical, ii) engineering (including demining equipment), and iii) mobility/logistic branches, as well as iv) cyber defence.

Type of support: field hospitals, medical equipment, demining and engineering equipment, ground mobility, logistical assets and cyber-defence.

b)

In response to Russia's unprovoked and unjustified military aggression of Ukraine and following the Ukrainian request of 25 February 2022 for urgent assistance, on 28 February 2022, the Council adopted Decision (CFSP) 2022/338 on an AM for the supply to the UAF of military equipment, and platforms, designed to deliver lethal force, and Decision (CFSP) 2022/339 on an AM to support the UAF. The initial value of the two AMs was EUR 500 million in total.

Since February 2022, the EU has adopted further six support packages for the delivery of defensive military equipment to support the UAF: on 23 March 2022, 13 April 2022, 23 May 2022, 21 July 2022, 17 October 2022 and 2 February 2023 for a total amount of EUR 3.6 billion³³. On 8 May 2023, the HR proposed the eighth support package worth additional EUR 500 million. The Council's decision was still pending as of 31 December 2023. Reimbursement payments are distributed over the years 2022 until 2027.

Both measures have an objective to contribute to strengthening capabilities and resilience of the UAF to defend the territorial integrity and sovereignty of Ukraine and protect the civilian population.

Type of support delivered: ammunition, military equipment, and platforms designed to deliver lethal force for defensive purposes, non-military equipment and supplies, such as personal protective equipment, first aid kits, and fuel.

³³ Adjusted figure including additional contributions from constructively abstaining Member States.

c)

On 14 November 2022 and on 2 February 2023, the Council adopted Decisions (CFSP) 2022/2245 and 2023/231 to support the UAF trained by the EU Military Assistance Mission in support of Ukraine (EUMAM Ukraine) with lethal and non-lethal assistance, with a combined financial reference amount of EUR 61 million.

On 28 November 2023, the Council adopted two amending Decisions to increase financial reference amounts for both assistance measures by EUR 194 million totalling EUR 255 million in order to continue large-scale training of UAF personnel.

The objective of the two AMs is to complement the training efforts led by EUMAM Ukraine and finance the provision by Member States of ammunition, and other eligible military equipment to meet the operational requirements of EUMAM Ukraine, as well as services, including transportation, custody, maintenance and repair of the items made available by Member States for training conducted under EUMAM Ukraine.

Type of support delivered: ammunition, military equipment, and platforms, designed to deliver lethal force to meet the operational requirements of EUMAM Ukraine; transportation, custody and maintenance and repair of the military equipment provided for the training purposes.

d)

On 20 March 2023, the Foreign Affairs and Defence Ministers agreed to a three-track approach with a view to speeding up delivery and joint procurement, aiming at one million rounds of artillery ammunition for Ukraine in a joint effort within the following 12 months. On 23 March 2023, the European Council welcomed this initiative.

For track 1, on 13 April 2023, the Council adopted Decision (CFSP) 2023/810 amending Decision 2022/238 to reimburse ammunition and missiles from stocks or from reprioritisation of existing orders, delivered to Ukraine during the period of 9 February 2023 to 31 May 2023.

For track 2, on 5 May 2023, the Council adopted Decision (CFSP) 2023/927 on an AM to support the UAF through the provision of ammunition, with a reference amount of EUR 1 billion. The measure finances joint procurement of 155mm ammunition and missiles from economic operators established and having their production in the EU or Norway (with their supply chains possibly including operators established or having their production outside the EU and Norway). Joint procurement is being conducted through the European Defence Agency (EDA) fast-track joint procurement scheme for 155mm ammunition and complementary Member States-led collaborative projects.

3.2. Moldova

On 2 December 2021, the Council adopted Decision (EU) 2021/2136 on an AM to support the Armed Forces of the Republic of Moldova, with a financial reference amount of EUR 7 million.

On 30 June 2022, the Council adopted Decision (EU) 2022/1093 on an AM to support the Armed Forces of the Republic of Moldova, with a financial reference amount of EUR 40 million.

On 4 May 2023, the Council adopted Decision (EU) 2023/921 on an AM to support the Armed Forces of the Republic of Moldova, with a financial reference amount of EUR 40 million.

The overall objective of the three AMs is to contribute to strengthening the Moldovan Armed Forces' (MAF) capacities to enhance national security, stability and resilience in the defence sector. The AMs will allow the MAF to enhance operational effectiveness, accelerate compliance with EU standards and interoperability, and thereby better protect civilians in crises and emergencies. They will also strengthen the beneficiary's capacities with regard to its participation in military CSDP missions and operations as well as in other multinational operations.

Type of support: medical equipment and explosive ordnance disposal equipment, air surveillance, logistics, mobility and transportation, command and control, and cyber defence equipment.

3.3. Georgia

On 2 December 2021, the Council adopted Decision (EU) 2021/2134 on an AM to support the Georgian Defence Forces, with a financial reference amount of EUR 12.75 million.

On 1 December 2022, the Council adopted Decision (CFSP) 2022/2352 on an AM to support the Georgian Defence Forces, with a financial reference amount of EUR 20 million.

On 4 May 2023, the Council adopted Decision (CFSP) 2023/920 on an AM to support the Georgian Defence Forces (GDF), with a financial reference amount of EUR 30 million.

The overall objective of the three AMs is to contribute to strengthening GDF capacities to enhance national security, stability and resilience in the defence sector, in line with the EU's policy on Georgia. The AMs will allow the GDF to enhance operational effectiveness, accelerate compliance with EU standards and interoperability, and thereby better protect civilians in crises and emergencies. It will also strengthen the beneficiary's capacities with regard to its participation in military CSDP missions and operations as well as in other multinational operations.

Type of support: medical and engineering equipment, logistics services, ground mobility and cyber defence equipment.

4. Assistance measures benefiting partners in the Western Balkans

4.1. Bosnia and Herzegovina (AFBiH)

On 4 November 2021, the Council adopted Decision (EU) 2021/1923 on an AM to support capacity building for the Armed Forces of Bosnia and Herzegovina (AFBiH) with a financial reference amount of EUR 10 million.

On 1 December 2022, the Council adopted Decision (EU) 2022/2353 on an AM to support capacity building for the Tactical Support Brigade of the AFBiH, with a financial reference amount of EUR 10 million.

The objective of the 2021 AM is to enhance and upgrade the capabilities of the Demining Battalion of the AFBiH. The objective of the 2022 AM is to strengthen the capacities of the AFBiH by enhancing and upgrading the equipment of its tactical support brigade, improve the security and deployment conditions of the AFBiH as well as upgrade a limited number of operational capabilities, specifically in Chemical, Biological, Radiological and Nuclear (CBRN) as well as defensive and early warning capabilities.

Type of support: demining equipment, transport and medical vehicles, metal detectors, field equipment, key tools for military engineering, and CBRN materiel.

4.2. Balkan Medical Task Force (BMTF)

On 9 June 2022, the Council adopted Decision (CFSP) 2022/906 on an AM to support capacity building of the BMTF, with a financial reference amount of EUR 6 million.

The objective of the AM is to enhance the capacities of the medical units of the armed forces of eligible BMTF Participating Nations, namely Albania, Bosnia and Herzegovina, Montenegro, North Macedonia and Serbia by procuring the necessary equipment and materiel in order to strengthen the military medical capabilities of the region with a positive side-effect on civilian relief efforts.

Type of support: mobility assets, components for field hospitals at ‘role 2’ standards, laboratory equipment and supplies, and IT and communication equipment.

4.3. The Republic of North Macedonia

On 16 March 2023, the Council adopted Decision (CFSP) 2023/599 on an AM to strengthen the capacities of the Army of the Republic of North Macedonia (ARMK), with a financial reference amount of EUR 10 million.

The objective of the AM is to enhance the capacities of ARMK by enhancing and upgrading the equipment of its light infantry battalion group with the ultimate aim to enable them to contribute to military CSDP missions and operations.

Type of support: logistics, medical equipment, communication and information systems, intelligence capacities, CBRN, engineering and training equipment.

5. Assistance measure benefiting a partner in the Southern Neighbourhood

5.1. Lebanon

On 1 December 2022, the Council adopted Decision (CFSP) 2022/2356 on an AM to support the Lebanese Armed Forces (LAF), with a financial reference amount of EUR 6 million.

The objective of the AM is to enhance the capabilities and the resilience of the LAF to ensure the national security and stability of Lebanon, through the enhancement of their military medical capacities, and the provision of equipment for the LAF’s operational personnel.

Type of support: healthcare equipment to support military medical services, and individual equipment.

5.2. Jordan

On 20 February 2023, the Council adopted Decision (CFSP) 2023/384 on an AM to support the Jordanian Armed Forces (JAF), with a financial reference amount of EUR 7 million.

The objective of the AM is to enhance the capacities of the JAF to ensure the national security and stability of Jordan through the enhancement of its military medical services, engineer brigades and operational units in charge of securing its borders, and thereby better protect civilians in crises and emergencies.

Type of support: field hospital (Role 1), including medevac capacities, engineering equipment, Unmanned Air Systems and Counter Unmanned Air Vehicles.

6. EPF Tables – Provision of Military Equipment in 2023 through EPF AMs

6.1. Deliveries per Beneficiary Country

(a) = number of assistance measures or actions under the AM/GP-AU

(b) = value of goods delivered in euros

Beneficiary country: MOLDOVA

		ML4	ML13	Total
Italy	a	1		
	b	248 400		248 400
Lithuania	a	1	1	
	b	112 187	26 343	138 530
United Kingdom	a		1	
	b		165 633	165 633
Total per ML		360587	191 976	552 563

Beneficiary country: MOZAMBIQUE

		ML5	ML13	Total
France	a	1	1	
	b	766 700	1 043 415	1 810 115
United States of America	a		1	
	b		1 355 000	1 355 000
Total per ML		766 700	2 398 415	3 165 115

6.2. Deliveries of Military Listed Equipment to International and Regional Organisations in 2023

Beneficiary organisation: nil

Destination Country	Exporting State	Description of goods
