Subject:	Proposal for a Directive of the European Parliament and of the Council amending Directive 2006/43/EC on statutory audits of annual accounts and consolidated accounts Proposal for a Regulation of the European Parliament and of the Council on specific requirements regarding statutory audit of public-interest entities - Preparation for the third informal trilogue

I. INTRODUCTION

1. On 7 December 2011, in the aftermath of the global financial crisis and in the general context of financial market reform, the Commission submitted two proposals covering on the one hand a revision of the Audit Directive (doc. 16971/11) and on the other hand a Regulation on specific requirements regarding statutory audit of public-interest entities (doc. 16972/11).

2. The Audit reform has been thoroughly discussed by the Council and its preparatory bodies under the Danish, Cyprus, Irish and Lithuanian Presidencies.
3. On 4 October 2013, the Permanent Representatives Committee provided a mandate to the Presidency to start negotiations with the European Parliament (doc. 14647/13).
4. The first and second informal trilogues were held on 22 October and 18 November 2013 and focused on the main outstanding issues of the Audit package. In addition, a number of technical meetings took place with a view to achieving rapid progress on this file.
5. The Presidency provided oral debriefings on the outcome of the first and second trilogues on 23 October and 20 November 2013.
6. On the basis of the outcome of the trilogues and technical meetings, the Presidency has prepared a compromise text to be discussed by Coreper on 27 November 2013 in view of a revised mandate for the negotiations at the third trilogue on 5 December 2013. Delegations will find the Presidency compromise suggestions on Articles 22, 23, 33, 70 and 70 of the Regulation in Annex I and on the Directive in the fourth column of the table in the Annex II. Changes compared to the Coreper mandate of 4 October 2013 are marked.
7. The Presidency intends to revert to Coreper at one of its forthcoming meetings with a compromise text on the remaining provisions in order to complete the package.

II. OUTSTANDING ISSUES

1. Mandatory rotation of auditors and audit firms of Public Interest Entities (Articles 33 and 72)

As regards mandatory rotation, the Parliament advocated a simpler system with no differentiation between systemic and non-systemic entities and a compromise solution which represents a real middle ground between the Council's and the Parliament's positions.

On that basis, the Presidency proposes the following compromise:

- a maximum period of the audit engagement of 10 years with a possible extension of another 10 years, so 20 years in total in case of both tendering and joint audit for all PIEs;
- a transitional period of 5 years (Article 72).

2. Restriction on the provision of related financial audit services and Prohibition of non-audit services (Articles 9, 10 and 10a)

As regards the black list, the Parliament asked to better circumscribe tax compliance and corporate financial services agreeing to the principle that the objective is to avoid conflicts of interest and self-review. The possibility of introducing a Member State option to exempt some services from the prohibition if they are immaterial and safeguards are applied was also explored. For the sake of compromise the, Parliament showed some openness to a strengthened cap.

On these articles the Presidency will come back to the Coreper in due time.

3. Cooperation of national audit oversight bodies

Although the cooperation framework was not discussed in detail at the first and second trilogues, the Presidency emphasised that the Council regards the cooperation framework as part of a package and remains firm on its position as regards CEAOB.

Other issues

1. Audit report

During the trilogue the Presidency followed the principle-based approach that provisions applicable to all audits should be in Directive and the provisions, which would be applicable only to PIEs, should be kept in Regulation. The Parliament insisted to follow the agreement reached during the negotiations for the Accounting Directive (2013/43/EU) and to delete or reformulate some points in the Articles 22, 23 of Regulation and 28 of the Directive.

As a compromise, the Presidency proposes to delete or reformulate a limited number of those points.

2. Sanctions

The Parliament accepted the principle followed by the Council to provide more detailed rules on sanctions, but asked to delete the minimum amount of the maximum for administrative pecuniary sanctions.

As this minimum amount in the Coreper mandate is only of indicative nature given the Member State option to provide a lower or higher amount, the Presidency proposes to accept the deletion and to include a recital (text to be presented in due time).

3. Delegated/implementing acts

The Presidency exposed the reasons for the choice of each delegated/implementing act in the Coreper mandate, but this issue remains to be decided at a later stage.

As a possible compromise, with regard to Article 26 of Directive, the Presidency would like to propose to amend the provision on the adoption of ISAs by way of delegated acts as regards non-essential elements of the Audit package (excluding Article 28 and Chapter IV of the Directive and Articles 9, 10, 22 and 33 of the Regulation).

III. CONCLUSION

The Permanent Representatives Committee is invited to discuss the Presidency compromise text set out in ANNEX I and II with a view to providing a revised mandate to the Presidency for the negotiations at the third informal trilogue with the European Parliament on the Audit proposals.

It shall be proportionate in view of the scale and the dimension of the activity of the statutory auditor or audit firm.

For the purposes of this Article, the audit firm shall include other firms that the audit firm has acquired or that have merged with it.
