REGULATION (EU) NO .../2013

OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of

**laying down the trade arrangements applicable to certain goods resulting from the processing
of agricultural products**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(2) and Article 207(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national Parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

Acting in accordance with the ordinary legislative procedure²,

Whereas:

- (1) Council Regulation (EC) No 1216/2009 of 30 November 2009 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products³ and Council Regulation (EC) No 614/2009 of 7 July 2009 on the common system of trade for ovalbumin and lactalbumin⁴ need to be adapted as a consequence of the entry into force of the Lisbon Treaty, in particular as regards its introduction of a distinction between powers for the Commission to adopt delegated acts and powers for it to adopt implementing acts. Further adaptations are needed to improve the clarity and transparency of the existing texts.

³ OJ L 328, 15.12.2009 p. 10.

⁴ OJ L 181, 14.7.2009, p. 8.

- (2) Until now the main instrument of the common agricultural policy provided for in the Treaty has been Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation)¹.
- (3) In the framework of the reform of the common agricultural policy Regulation (EU) No 1234/2007 is to be replaced, with effect from 1 January 2014, by Regulation (EU) No .../... of the European Parliament and of the Council [COM (2011) 626 final]². Regulations (EC) No 1216/2009 and (EC) No 614/2009 should be adapted to take account of that Regulation in order to maintain the coherence of the trade arrangements with third countries for agricultural products on the one hand and for goods resulting from the processing of agricultural products on the other hand.

¹ OJ L 299, 16.11.2007, p. 1.

² OJ C [...], [...], p. [...].

- (4) Certain agricultural products are used for manufacturing both processed agricultural products and goods not listed in Annex I to the Treaty. It is necessary to take measures both under the common agricultural policy and under the common commercial policy in order to take account of the impact which trade in such products and goods has on the achievement of the objectives of Article 39 of the Treaty and of the effects which measures adopted to implement Article 43 of the Treaty have on the economic position of those products and goods, given the differences between the costs of procuring agricultural products in the Union and on the world market.
- (5) In the Union, a distinction is drawn between agricultural products listed in Annex I to the Treaty and processed agricultural products not listed in that Annex in order to take account of the different situations of agriculture and the food industry in the Union. The same distinction may not be drawn in certain third countries with which the Union concludes agreements. Provision should therefore be made for extending the general rules applicable to processed agricultural products not listed in Annex I to the Treaty to certain agricultural products listed in that Annex where an international agreement provides for the assimilation of those two types of products.

- (5a) Where reference is made in this Regulation to international agreements concluded or provisionally applied by the Union in accordance with the Treaty, it is Article 218 of the Treaty which is being referred to in this regard.*
- (6) In order to prevent or counteract adverse effects which imports of certain processed agricultural products could have on the Union market and on the efficiency of the common agricultural policy, it should be possible to subject imports of such products to payment of an additional duty if certain conditions are fulfilled.
- (7) Ovalbumin and lactalbumin are processed agricultural products which are not included in Annex I to the Treaty. For reasons of harmonisation and simplification, the common system of trade for ovalbumin and lactalbumin laid down in Regulation (EC) No 614/2009 should be integrated in the trade arrangements applicable to certain goods resulting from the processing of agricultural products. In view of the fact that to a large extent, eggs can be substituted by ovalbumin and, to a certain extent, by lactalbumin, the trade arrangements for ovalbumin and lactalbumin should correspond to those established for eggs.

- (8) It is necessary to lay down the main rules governing the trade arrangements applicable, ***without prejudice to specific provisions concerning preferential trade arrangements under Regulation (EU) No 978/2012 applying a scheme of generalised tariff preferences as well as other autonomous trade arrangements of the Union***, to processed agricultural products and non-Annex I goods resulting from the processing of agricultural products. It is also necessary to provide for the fixing of reduced import duties and tariff quotas and the granting of export refunds in accordance with those main rules. Those rules and provisions should take account of the constraints on import duties and export subsidies arising from the undertakings accepted by the Union under the WTO agreements and bilateral agreements.
- (9) Due to the close links between the market for ovalbumin and lactalbumin and the market for eggs, it should be possible to require the presentation of an import license for imports of ovalbumin and lactalbumin and suspend the inward processing arrangements for ovalbumin and lactalbumin where the Union market for those products or the market for eggs is disturbed or is liable to be disturbed by inward processing arrangements of ovalbumin and lactalbumin. It should be made possible to make the issue of import licences for ovalbumin and lactalbumin and the release for ***their*** free circulation **■** covered by a licence subject to requirements as to ***their*** **■** origin, **■** provenance **■**, ***authenticity and quality characteristics***.

- (10) In order to take into account the evolution of trade and market developments, the needs of the markets for ovalbumin and lactalbumin or the market for eggs and the results of the monitoring of the imports of ovalbumin and lactalbumin, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of making the import of ovalbumin and lactalbumin for release for free circulation subject to the presentation of an import licence, **rules on** the rights and obligations **deriving** from that import licence and its legal effects, **rules on** the issue of **an** import **licences** and the release **into** free circulation to be subject to the presentation of a document issued by a third country or an entity certifying *inter alia* the origin, the authenticity and the quality characteristics of the products, **■** rules on **the** transfer of the import licences **or restrictions on that transmissibility**, **■** where the presentation of an import licence is not required and the cases where the lodging of the security **guaranteeing that the products are imported within the period of validity of the licence is or** is not required **■** .
- (11) Certain processed agricultural products not listed in Annex I to the Treaty are obtained using agricultural products subject to the common agricultural policy. The duties applied to imports of those processed agricultural products should counterbalance the difference between the world market prices and the prices on the Union market for the agricultural products used in their production while ensuring the competitiveness of the processing industry concerned.

- (12) Under certain *international* agreements reductions *or phasing out* of import duties for processed agricultural products ■ are granted on the agricultural component, *the additional duties on sugar and flour and the ad valorem duty* within the framework of the commercial policy of the Union. Those reductions *could* be established by reference to the agricultural components applicable to non-preferential trade.
- (13) The agricultural component of the import duty should counterbalance the difference between prices for the agricultural products used in the production of the processed agricultural products in question on the world market and on the Union market. Therefore, it is necessary to maintain a close link between the calculation of the agricultural component of the import duty applicable to processed agricultural products and that applicable to agricultural products imported in the unaltered state.

- (14) In order to implement the international agreements providing for the reduction or phasing out of import duties on processed agricultural products on the basis of specific agricultural products used or considered to have been used in the manufacturing of the processed agricultural products, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of ***the establishment of*** a list of ***those*** agricultural products ***which are to be*** considered to have been used ***in the manufacture of the processed agricultural products, the establishment of*** the equivalent quantities and the rules for the conversion of **■** other agricultural products ***to equivalent quantities of the specific agricultural products*** considered to have been used **■** , the elements necessary for the calculation of the reduced agricultural component and the reduced additional duties and **■** the methods of that calculation, **■** and **■** the negligible amounts for which the reduced agricultural components and additional duties on sugar and flour shall be fixed at zero.
- (15) Import tariff concessions may be granted for unlimited quantities of the goods concerned or may be granted for limited quantities falling under a tariff quota. Where, under certain ***international*** agreements, tariff concessions are granted within tariff quotas, the quotas should be opened and managed by the Commission. For practical reasons, it is essential that the management of the non-agricultural part of the import duties of the goods for which tariff preferences have been agreed are subject to the same rules as the management of the agricultural component.

- (16) Due to the close links between the market for ovalbumin and lactalbumin and the market for eggs, tariff quotas for ovalbumin and lactalbumin should be opened and managed in the same way as those for eggs under Regulation (EU) No .../... [COM(2011) 626 final]. Where necessary, the method of management should take account of the supply needs of the Union market and of the need to preserve its equilibrium and should be based on methods used in the past, taking into account the rights arising under the WTO agreements.
- (17) In order to ensure equitable market access for operators and equal treatment of operators, take account of the supply requirements of the Union market and preserve the equilibrium of that market, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission **concerning** the conditions which must be fulfilled in order to submit an application within **the** tariff quota and **rules on the** transfer of rights within **the** tariff quota, **making** the participation in **the** tariff quota ■ subject to ■ the lodging of a security and ■ **specificities,**■ requirements or restrictions applicable to **the** tariff quotas.

(17a) In order to ensure that exported products may benefit from a special treatment on importation into a third country under certain conditions, pursuant to international agreements concluded by the Union in accordance with the Treaty, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of rules requiring the competent authorities of the Member States to issue, on request and after appropriate checks, a document certifying that the conditions are met for products that, if exported, may benefit from a special treatment on importation into a third country if certain conditions are respected.

(18) It is possible that the demand of the processing industries for agricultural raw materials cannot be covered completely by Union raw materials under competitive conditions. Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code¹ admits such goods under the inward processing arrangements subject to fulfilment of the economic conditions defined by Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code². ***Regulation 2913/1992 is to be replaced by Regulation 952/2013, but only with effect from 1 June 2016. It is therefore appropriate to make reference to Regulation 2913/1992 in this Regulation, also considering that in the future, references to Regulation 2913/1992 should be considered as references to Regulation 952/2013.*** Under clearly defined circumstances, economic conditions should be considered to be fulfilled for the admission of certain quantities of agricultural products under the inward processing arrangements. Those quantities should be determined on the basis of a supply balance. Fair access to the quantities available, equal treatment of operators and clarity should be assured by a system of inward processing certificates issued by Member States.

¹ OJ L 302, 19.10.1992 p.1.

² OJ L 253, 11.10.1993, p. 1.

- (19) In order to ensure the prudent and efficient management of the inward processing arrangements, taking account of the situation on the Union market for the commodities concerned and of the needs and practices of the processing industries, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of ■ a list of *those* agricultural products for which inward processing certificates may be issued, ■ the rights derived from the inward processing certificates and its legal effects, provisions relating to the transfer of ■ rights between operators and ■ the rules necessary for the reliability and the efficiency of the inward processing certificate system *as regards the authenticity of the certificate, its transfer or restrictions on its transmissibility*.
- (20) Arrangements should be made for granting export refunds, within the limit set by the Union's WTO commitments, on certain agricultural products used in the manufacturing of goods not listed in Annex I to the Treaty in order not to penalise producers of those goods for the prices at which they are obliged to procure their supplies as a result of the common agricultural policy. Those refunds should only cover the difference between the price of an agricultural product on the Union market and on the world market. Those arrangements should therefore be established as part of the trade arrangements for certain goods resulting from the processing of agricultural products.

- (21) The list of non-Annex I goods qualifying for refunds should be established taking account of the impact of the difference between the prices of the agricultural products used in their production on the Union market and on the world market and the need to counterbalance this difference in whole or in part in order to facilitate the exportation of the agricultural products used in the non-Annex I goods concerned.
- (22) It is necessary to ensure that no export refund is granted for imported non-Annex I goods released for free circulation which are re-exported, exported after processing or incorporated in other non-Annex I goods. As regards imported cereals, rice, milk and milk products or eggs released for free circulation it is necessary to ensure that no refund is granted where the goods are exported after processing or incorporated in non-Annex I goods.
- (23) The export refund rates for agricultural products exported in the form of non-Annex I goods should be fixed in accordance with the same rules and modalities and in accordance with the same procedure as the export refund rates for agricultural products exported in the unaltered state pursuant to Regulation (EU) No .../... [COM(2011) 626 final] and Regulation (EC) No .../... of the Council [COM(2011) 629 final].

- (24) Given the close relationship between non-Annex I goods and the agricultural products which are used in the manufacturing of those non-Annex I goods, on the one hand, and the differences between those goods and products on the other hand, it is necessary to provide for the application of the horizontal rules *on* export refunds laid down in and adopted pursuant to Regulation (EU) No .../... [COM(2011) 626 final], to non-Annex I goods.
- (25) In order to take account of the specific manufacturing processes and trading requirements of non-Annex I goods incorporating certain agricultural products, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of establishing the rules *concerning rules on* the characteristics of the non-Annex I goods to be exported and the agricultural products used for their manufacture, rules on the *determination* of the export refunds for certain agricultural products exported after processing into non-Annex I goods, rules on the proof of the composition of the exported non-Annex I goods, rules *requiring* a declaration of the use of certain imported agricultural products, rules on the assimilation of agricultural products to basic products and on the determination of the reference quantity of each of the basic products, and the application of horizontal *rules* on export refunds for agricultural products to non-Annex I goods.

- (26) Compliance with the export limits arising from international agreements concluded *or provisionally applied* by the Union in accordance with ■ the Treaty should be ensured through the issuing of refund certificates for the reference periods laid down in the agreements taking into account the annual amount provided for in respect of small exporters.
- (27) Export refunds should be granted up to the total amount available, depending on the particular situation of trade in non-Annex I goods. The system of refund certificates should facilitate the efficient management of the amounts of refunds.
- (28) Provision should be made for refund certificates issued by Member States to be valid throughout the Union and for their issuance to be subject to the lodging of a security guaranteeing that the operator will apply for refunds. Rules should be laid down for refunds under the advance fixing system to be granted for all the applicable refund rates and for the lodging and release of securities.

- (29) In order to monitor the expenditure on export refunds and the implementation of the refund certificate system, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission **concerning rules on** the rights and obligations **deriving** from **the** refund certificates, **■** rules **on** their transfer **or restrictions on that transmissibility**, **■** the cases **and situations** where the presentation of a refund certificate or the lodging of a security is not required and **on the** tolerance in the event of non-respect of the obligation to apply for refunds **■** .
- (30) When taking account of the impact of targeted measures relating to export refunds consideration should be given to enterprises processing agricultural products in general and the situation of small and medium-sized enterprises in particular. In view of the specific needs of small exporters, a global amount should be allocated to them for each budget year, and they should be exempted from the requirement to submit refund certificates under the export refund arrangements.

- (31) Where pursuant to Regulation (EU) No .../... [COM(2011) 626 final] measures with regard to export of an agricultural product are adopted and the export of non-Annex I goods with a high content of the agricultural product is likely to hinder the achievement of the objective of those measures, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of providing for equivalent measures to be taken with regard to exports of those non-Annex I goods ***while respecting any obligations resulting from international agreements.***
- (32) Under certain ***international*** agreements, the Union may limit import duties and amounts payable in respect of exports in order to counterbalance, in whole or in part, differences in the price of agricultural products used in the production of the processed agricultural products or the non-Annex I goods in question. For those processed agricultural products and non-Annex I goods, it is necessary to establish that those amounts are to be determined jointly as a part of the overall duty and are to counterbalance the differences between the prices of the agricultural products that have to be taken into account on the market of the country or the region concerned and the Union market.
- (33) As the composition of processed agricultural products and non-Annex I goods may be relevant for the right application of the trade arrangements laid down in this Regulation, it should be possible to establish their composition using qualitative and quantitative analyses.

- (34) In order to implement international agreements concluded by the Union and ensure clarity and coherence with amendments to Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff¹, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of amending certain parts of this Regulation and its Annexes for those purposes.
- (35) Provision should be made for Member States to provide the Commission and each other with the information necessary for the implementation of the trade arrangements for processed agricultural products and non-Annex I goods.
- (36) In order to ensure *the integrity of information systems and the authenticity and legibility of documents and associated data transmitted*, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of defining the nature and type of the information to be *notified, the categories of data to be processed, maximum retention periods and the purpose of processing*, the *access* rights ■ to the information *or* information systems and the conditions ■ of publication of this information.

- (36a) Union legislation concerning the protection of individuals with regard to the processing of personal data and on the free movement of such data, in particular Directive 95/46/EC of the European Parliament and of the Council and Regulation (EC) No 45/2001 of the European Parliament and of the Council is applicable.***
- (37) In order to avoid unnecessary administrative burdens for operators and national authorities the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of setting a threshold below which amounts are not to be levied or granted in respect of import duties, additional import duties, reduced import duties, export refunds and amounts to be levied or payable when offsetting a jointly established price.
- (37a) Given the close relationship between non-Annex I goods and the agricultural products which are used in the manufacturing of those non-Annex I goods, it is necessary to provide for the application mutatis mutandis of horizontal rules on securities, checks, verification, scrutiny and penalties laid down in and adopted on the basis of Regulation (EU) No .../... of the European Parliament and of the Council [COM(2011) 628 final]¹ to non-Annex I goods.***

(38) In order to ensure uniform conditions for the implementation of this Regulation as regards imports and inward processing arrangements, implementing powers should be conferred on the Commission in respect of measures determining the processed agricultural products to which additional import duties should apply in order to prevent or counteract adverse effects on the Union market, measures for the application of those additional import duties as regards time limits for proving the import price, *the submission of* documentary evidence, **■** and determining *the level of* the additional import duties, measures fixing the representative prices and trigger volumes for the purposes of applying additional import duties **■**, measures *on the format and the content of the import licence for ovalbumin and lactalbumin*, on the submission of applications *and* the issuing and use of those import licenses, on their period of validity, on the *procedures for and the* amount of security to be *lodged* in respect of those licences, on the proof that the requirements for the use of those licences have been fulfilled, *on the level of tolerance as regards the respect of the obligation to import*, on the *issue* of replacement

- (39) In order to ensure uniform conditions for the implementation of this Regulation as regards exports and certain general provisions, implementing powers should be conferred on the Commission in respect of measures on the application of refund rates, on the calculation of the export refunds, on the assimilation of certain products to basic products and the determination of the reference quantity of basic products, on the *application for, the issue of and the* management of certificates for the export of certain non-Annex I goods to certain destinations when provided for in an international agreement concluded *or provisionally applied* by the Union in accordance with the Treaty and on the treatment of disappearances of products and quantity losses during the manufacturing process and the treatment of by-products, measures defining the procedures on declaration and proof of the composition of the exported non-Annex I goods necessary for the implementation of the export refund system, *rules on the simplified proof of arrival at destination in the case of differentiated refunds*, measures on the application of horizontal provisions *on* export refunds for non-Annex I goods,

- (40) Those implementing powers, except for the ones concerning measures to fix the representative prices and trigger volumes for the purposes of applying additional import duties and the level of those duties in accordance with the Union's international commitments, measures limiting the quantities for which ■ inward processing certificates and refund certificates may be issued, rejecting quantities applied for in respect of those ■ certificates and suspending the lodging of applications for those ■ certificates, *provisions to manage the process* guaranteeing that the quantities available within the tariff quota are not exceeded and ■ to reallocate unused quantities of the tariff quota, should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers¹.
- (41) The examination procedure should be used for the adoption of the acts implementing this Regulation given that those acts relate to the common agricultural policy as referred to in point (ii) of Article 2(2)(b) of Regulation (EU) No 182/2011.

¹ OJ L 55, 28.2.2011, p. 13.

- (42) The Commission should adopt immediately applicable implementing acts where, in duly justified cases relating to safeguard measures against imports of processed agricultural products into the Union or to a disturbance or a potential disturbance of the Union market requiring the suspension of the use of processing or inward processing arrangements for ovalbumin and lactalbumin, imperative grounds of urgency so require.
- (43) It is of particular importance that the Commission carry out appropriate consultations during its preparatory work prior to adopting delegated acts, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.
- (44) In accordance with the principle of proportionality it is necessary and appropriate for the achievement of the basic objective of this Regulation to lay down the trade arrangements applicable to certain goods resulting from the processing of agricultural products. This Regulation does not go beyond what is necessary in order to achieve the objectives pursued, in accordance with Article 5(4) of the Treaty on European Union.

(44a) In order to maintain the statu-quo, the proposal should contain the following annexes:

- ***a list with processed agricultural products, which replaces Annex II to Regulation (EC) No 1216/2009;***
- ***a list with non-Annex I goods, which replaces Annex II to Regulation (EC) No 578/2010 and also replaces Annex XX to Regulation (EC) No 1234/2007;***
- ***a list with the basic products used for the manufacture of non-Annex I goods, which replaces Annex I to Regulation (EC) No 578/2010;***
- ***a list with processed agricultural products on which additional import duties may be levied which replaces Annex III to Regulation (EC) No 1216/2009;***
- ***a list with agricultural products used for the manufacture of processed agricultural products, which replaces Annex I to Regulation (EC) No 1216/2009.***

- (45) Regulations (EC) No 1216/2009 and (EC) No 614/2009 should be repealed accordingly.
- (46) *Considering that, prior to the entry into force of this Regulation, the necessary coherence has been ensured through the transitional provision in Article 163(1) (ga) of the Regulation No .../... [COM (2011) 626 final], this Regulation should start to apply as early as possible following the adoption of the CAP reform package Regulations, while fully respecting the interest of legal certainty and economic operators' legitimate expectations.*

HAVE ADOPTED THIS REGULATION:

Article 34

Other measures with regard to exports

1. Where pursuant to Regulation (EU) No .../... [COM(2011) 626 final] measures with regard to export of an agricultural product listed in Annex III are adopted in the form of levies or charges, and the export of non-Annex I goods with a high content of that agricultural product is likely to hinder the achievement of the objective of those measures, the Commission shall be empowered to adopt delegated acts in accordance with Article 40 *concerning provisionson* equivalent measures with regard to those non-Annex I goods, *while respecting any obligations resulting from international agreements concluded in accordance with the Treaty and provided that any other measures available under [COM(2011) 626 final] appear insufficient.*

 - (a) fix the applicable duty referred to in paragraph 1 and the related amounts payable on exports to the country or region concerned by the agreement;
