1. AMENDMENTS IN RELATION TO WCPFC

EXPLANATORY NOTE

At its 2024 annual meeting, the Western and Central Pacific Fisheries Commission (WCPFC) adopted measures for stocks in the WCPFC Convention area. It is proposed to implement those measures in EU law.

AMENDMENTS TO THE RECITALS

Recital (35) is replaced by the following:

“

(35) At its 2024 annual meeting, the Western and Central Pacific Fisheries Commission (WCPFC) maintained for 2025 the measures adopted for 2024. Those measures should be implemented in Union law.

”

AMENDMENTS TO THE ARTICLES

In Chapter III, Section 9, the square brackets are deleted.

AMENDMENTS TO THE ANNEXES

Annex IG is replaced by the following:

“

”

2. AMENDMENTS REGARDING ICCAT

EXPLANATORY NOTE

In the Commission proposal for a Council Regulation fixing the fishing opportunities for certain fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters ('the Commission proposal'), as updated through the fifth Commission services non-paper of 27 November 2024[1], it was proposed to limit the bluefin tuna (*Thunnus thynnus*) farming capacity of Member States to 2018 levels (in Table A under Annex VI, point 6).

At its 2023 annual meeting, the International Commission for the Conservation of Atlantic Tunas (ICCAT) adopted Recommendation 23-06, which amended ICCAT Recommendation 22-08 by deleting the requirement to limit the bluefin tuna farming capacity registered in the ICCAT record of farms authorised and declared to ICCAT in 2018[2]. Such an amendment was implemented in EU law by Article 15(3) of Regulation (EU) 2023/2053 establishing a multiannual management plan for bluefin tuna in the eastern Atlantic and the Mediterranean[3].

On 19 June 2024, Commission Delegated Regulation (EU) 2024/2925[4] deleted Article 15(3) of Regulation (EU) 2023/2053. That deletion entered into force on 27 November 2024. Therefore, it is proposed to remove the limitation of farming capacity of Member States to 2018 levels in Table A under Annex VI, point 6. The removal of such limitation does not affect Member States' obligations under Articles 15(2) and (5) of Regulation (EU) 2023/2053.

It is also proposed to maintain the provision on the number of authorised farms by merging it into Table B under Annex VI, point 6, which sets out a maximum input capacity of wild-caught bluefin tuna. Pending the approval of the Union fishing, farming and capacity management plan by ICCAT, in accordance with the applicable ICCAT recommendations and Union rules, it is proposed to set the number of authorised farms for 2025 at the same level as for 2024.

AMENDMENTS TO THE ARTICLES

In Article 25, the following paragraph (5a) is inserted:

4 Commission Delegated Regulation (EU) 2024/2925 of 19 June 2024 amending Regulation (EU) 2023/2053 of the European Parliament and of the Council as regards the management of bluefin tuna in the eastern Atlantic and in the Mediterranean (OJ L, 2024/2925, 26.11.2024, ELI: http://data.europa.eu/eli/reg_del/2024/2925/oj).

“

5a. The number of authorised farms to operate for bluefin tuna and the maximum input capacity of wild-caught bluefin in the eastern Atlantic and Mediterranean shall be limited as set out in point 6 of Annex VI.

”

AMENDMENTS TO THE ANNEX

In Annex VI, point 6 is replaced by the following:

“

6. Maximum number of authorised farms and maximum input of wild-caught bluefin tuna that each Member State may allocate to its farms in the Eastern Atlantic and Mediterranean

Table A

Maximum number of authorised farms and input of wild-caught bluefin tuna (in tonnes) [1]

Croatia	4	2 947
Italy	13	3 764
Cyprus	3	2 195
Malta	6	8 786
Portugal	2	350
[1] The numbers in this table will be adapted following the approval of the Union fishing, farming and capacity management plan by ICCAT, in accordance with the applicable ICCAT recommendations and Union rules.		

”

3. CORRECTIONS REGARDING FISHING OPPORTUNITIES IN THE NORTH-EAST ATLANTIC

EXPLANATORY NOTE

In the Commission proposal, as updated through Commission services non-papers on 6 December, the following should be corrected:

- The Norwegian quota for WHB/1X14 (Annex IA, Part B, Table 58) still appears as 'to be established' and levels of access to waters in footnotes (3) and (5) are those of last year. The Union and Member States quotas should also be updated to reflect the final transfer to Norway. Those errors should be corrected.
- The TAC table for POK/2C3A4 (Annex IA, Part B, Table 89) includes a correct EU quota (factors in the transfer of 1 500 tonnes to Norway for 2025) but incorrect Member States quotas. That error should be corrected.
- The EU quota in the TAC table for COD/07D. (Annex IA, Part B, Table 28) should be 1 158 instead of 1 159 tonnes. FR quota should be adapted accordingly, from 973 to 972 tonnes. That error should be corrected.
- The EU quota for HAD/2AC4. (Annex IA, Part B, Table 40) should be 11 686 instead of 11 685, while the UK quota should be 62 128 instead of 62 129 tonnes. That error should be corrected.
- The inter-annual flexibility of quotas is excluded for HER/03A. (Annex IA, Part B, Table 10). The inter-annual flexibility should apply. That error should be corrected.
- The inter-annual flexibility of quotas applies for WHG/03A., W/P/4N-S62, HKE/04-N., I/F/04-N. and OTH/04-N. (Annex IA, Part B, Tables 46, 51, 123 and 125). The inter-annual flexibility should not apply. Those errors should be corrected.
- ANF/04-N. (Annex IA, Part B, Table 35) appears as precautionary TAC, while it is an analytical TAC. References to Regulation (EC) No 847/96 should be updated accordingly. That error should be correct.
- The Danish quota for HAD/03A. (Annex IA, Part B, Table 39) should be 4 747 tonnes instead of 4 748 tonnes. That error should be corrected.
- The TAC table for LEM/07D (Annex IA, Part B, Table 62) includes erroneous quota for Belgium, France and the Netherlands. Those errors should be corrected.
- The TAC table for RNG/5B67- (Annex IA, Part F, Table 4) erroneously does not include a footnote. This footnote should apply to the EU and UK quotas. That error should be corrected.
- The TAC table for RNG/8X14- (Annex IA, Part F, Table 5) erroneously does not include a footnote. This footnote should apply to the EU and UK quotas. That error should be corrected.
- The Dutch quota for NEP/2AC4-C. (Annex IA, Part B, Table 73) should be 424 tonnes instead of 425 tonnes. That error should be corrected.

- The TAC table for LEZ/07. (Annex, IA, Part B, table 32) includes an erroneous EU quota. That error should be corrected.
- The TAC table for GHL/2A-C46 (Annex IA, Part B, table 102) includes erroneous quotas. That error should be corrected.
- The TAC table for LEZ/07. (Annex IA, Part B, table 32) includes an erroneous EU quota. That error should be corrected.
- The TAC table for SOL/07A. (Annex IA, Part B, table 108) includes an erroneous quota for France. That error should be corrected.
- The TAC tables SPR/7DE and SPR/2AC-4C (Annex IA, Part B, tables 114 and 115) include erroneous quotas. That error should be corrected.
- The TAC table for NOP/2A3A4. (Annex IA, Part B, Table 117) should be updated to include fishing opportunities for the period from November 2024 to October 2025 (as agreed in bilateral consultations with the UK on 17 October 2024), and fishing opportunities for the period from November 2025 to October 2026 (provisionally set a 0, pending issuance of the scientific advice by ICES and consultations with the UK on fishing opportunities for that period).
- The TAC table for HER/6AS7BC (Annex IA, Part B, table 17) includes values marked as 'pm'. That error should be corrected.
- The TAC table for LEM/03A-C (Annex IA, Part B, table 61) includes values as 'pm'. That error should be corrected.
- The TAC table for PRA/N1GRN (Annex IB, Table 14) includes erroneous quotas. These errors should be corrected.

AMENDMENTS TO THE ANNEXES

In Annex IA, Part B, tables 10, 17, 28, 32, 35, 39, 40, 46, 51, 54, 58, 61, 62, 73, 89, 102, 108, 117, 123 and 125 are replaced by the following:
