NOTE

From: General Secretariat of the Council
To: Permanent Representatives Committee

Subject: Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL amending Regulation (EU) 2016/1011 as regards the scope of the rules for benchmarks, the use in the Union of benchmarks provided by administrator located in a third country, and certain reporting requirements
- Mandate for negotiations with the European Parliament

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending Regulation (EU) 2016/1011 as regards the scope of the rules for benchmarks, the use in the Union of benchmarks provided by an administrator located in a third country, and certain reporting requirements

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 114 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Central Bank¹,

Having regard to the opinion of the European Economic and Social Committee²,

Acting in accordance with the ordinary legislative procedure³,

¹ OJ C , , p. .

² OJ C , , p. .

³ OJ C , , p. .

Whereas:

- (1) Reporting requirements play a key role in ensuring proper monitoring and correct enforcement of legislation. However, it is important to streamline those requirements in order to ensure that they fulfil the purpose for which they were intended and to limit the administrative burden.
- (2) Under Regulation (EU) 2016/1011 of the European Parliament and of the Council⁴, all administrators of benchmarks, regardless of the systemic relevance of those benchmarks or of the amount of financial instruments or contracts that use those benchmarks as reference rates or as performance benchmarks, are to comply with several very detailed requirements, including requirements on their organisation, on the governance and conflicts of interest, on oversight functions, on input data, on codes of conduct, on reporting of infringements, and on disclosures related to the methodology and the benchmark statement. Those very detailed requirements have put a disproportionate regulatory burden on administrators of smaller benchmarks in the Union considering the aims of Regulation (EU) 2016/1011, that is to safeguard financial stability and to avoid negative economic consequences that result from the unreliability of benchmarks. It is therefore necessary to reduce that regulatory burden by focusing on those benchmarks with the greatest economic relevance for the Union market, i.e. significant and critical benchmarks, and on those benchmarks that contribute to the promotion of key Union policies, i.e. EU Climate Transition and EU Paris-aligned Benchmarks. For that reason, the scope of application of Titles II, III, IV and VI of Regulation (EU) 2016/1011 should be reduced to those specific benchmarks.

⁴ Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (OJ L 171, 29.6.2016, p. 1).

(3) Under Article 18a of Regulation (EU) 2016/1011, the Commission can exempt certain spot foreign exchange benchmarks from the scope of that Regulation to ensure their continued availability for use in the Union. In view of the need for a revised and narrower focus of Regulation (EU) 2016/1011 on critical benchmarks, significant benchmarks, EU Climate Transition Benchmarks and EU Paris-Aligned Benchmarks, there is no longer a need for the specific exemption regime for spot foreign exchange benchmarks..

(4) Pursuant to Article 19d of Regulation (EU) 2016/1011, administrators of significant benchmarks are required to endeavour to provide an EU Climate Transition Benchmark or an EU Paris-aligned Benchmark by 1 January 2022. As this date has elapsed, it is appropriate to delete this provision.

(5) The criteria for assessing whether a benchmark is a significant benchmark are currently laid down in Article 24 of Regulation (EU) 2016/1011. Benchmarks will be considered to be significant, inter alia where they meet the threshold laid down in Article 24(1), point (a), of that Regulation.

(6) Benchmark administrators are best placed to monitor the use in the Union of the benchmarks they provide. They should therefore notify the competent authority concerned or the European Securities and Markets Authority (ESMA), depending on where that administrator is located, that the aggregate use of one of their benchmarks has exceeded the threshold laid down in Article 24(1), point (a), of Regulation (EU) 2016/1011. To ensure that benchmark administrators have sufficient time to adapt to the requirements that apply to significant benchmarks, they should only be subject to those requirements as from 60 working days after having submitted such a notification. In addition, benchmark administrators should provide the competent authorities concerned or ESMA, upon request, with all information necessary to assess that benchmark's aggregate use in the Union. Where a benchmark administrator omits or refuses to notify that the usage of one of its benchmarks has exceeded the threshold laid down in Article 24(1), point (a), of Regulation (EU) 2016/1011, and where competent authorities have clear and demonstrable grounds to consider that the threshold has been exceeded, the competent authorities concerned or ESMA, as appropriate, should be able to declare that the threshold has been exceeded, having first given the administrator the opportunity to be heard. Such declaration should trigger the same obligations for the benchmark administrator as a notification by the benchmark administrator. This should be without prejudice to the ability of ESMA or competent authorities to impose administrative sanctions on those administrators that fail to notify that one of their benchmarks has exceeded the applicable threshold.

(7) Markets, prices and the regulatory environment evolve over time. To take those evolutions into account, the Commission should be empowered to further specify the methodology to be used by administrators and competent authorities to calculate the total value of financial instruments, financial contracts or investment funds referencing a benchmark.

(8) However, in exceptional cases, there may be benchmarks with an aggregate use below the threshold laid down in Article 24(1), point (a), of Regulation (EU) 2016/1011 which, due to the specific situation in the market of a Member State, are nevertheless of such importance to that Member State that any lack of reliability would be of comparable impact as that of a benchmark the usage of which exceeds that threshold. For that reason, the competent authority of that Member State should be able to designate such a benchmark, where that benchmark is provided by an EU administrator, as significant on the basis of a set of qualitative criteria. For benchmarks provided by a non-EU administrator, it should be ESMA that, on the request of one or more competent authorities, designates such a benchmark as a significant benchmark.

(9) To ensure the consistency and coordination of national designations of benchmarks as significant benchmarks, competent authorities intending to designate a benchmark as significant should consult ESMA. For the same reason, a competent authority of a Member State that intends to designate as significant a benchmark that is provided by an administrator that is located in another Member State should also consult the competent authority of that other Member State. Where competent authorities disagree which among them should designate a benchmark, ESMA should settle that disagreement in accordance with Article 19 of Regulation (EU) No 1095/2010 of the European Parliament and of the Council⁵. The competent authority of the administrator's home Member State may always reach cooperation agreements on delegation of tasks under this Regulation either with the designating competent authority or with ESMA as laid down in Article 37 of Regulation (EU) 2016/1011.

⁵ Regulation (EU) No 1095/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Securities and Markets Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/77/EC (OJ L 331, 15.12.2010, p. 84).

(10) To respect the right to be heard, a competent authority or ESMA should, before designating a benchmark as significant, allow the administrator of that benchmark to provide any useful information relevant to its designation.

(11) For the designation as a significant benchmark to be as transparent as possible, competent authorities or ESMA should issue a designation decision containing the reasons why that benchmark is considered significant. Competent authorities should publish the designation decision on their website and should notify that decision to ESMA. For the same reasons, where ESMA designates a benchmark as significant upon a request of a competent authority, ESMA should publish the designation decision on its website and should notify the requesting competent authority thereof.

(12) EU Climate Transition Benchmarks and EU Paris-aligned Benchmarks are specific categories of benchmarks, defined by their compliance with rules governing their methodology and the disclosures their administrator are to make. For that reason, and to prevent claims that could lead users to think that such benchmarks are compliant with the standards attached to those labels, it is necessary to subject those benchmarks to mandatory registration, authorisation, recognition or endorsement, as appropriate, and to supervision.

(13) The regulatory treatment of commodity benchmarks should be tailored to their specific characteristics. Commodity benchmarks subject to the general rules for financial benchmarks should be treated identically to other financial benchmarks and should be covered by the regulation only if they are significant or critical benchmarks and have not been exempted from the scope of this Regulation. Commodity benchmarks subject to the specific regime in Annex II of the regulation should always be covered by the regulation as the methods of data gathering for and production of the benchmark offer fewer safeguards for its robustness.

(14) To ensure the timely start of the supervision of significant benchmarks, administrators of benchmarks that have become significant either by reaching the applicable quantitative threshold or by designation, should be required to seek, within 60 working days, authorisation or registration or, in the case of benchmarks provided by an administrator located in a third-country, endorsement or recognition.

(15) To mitigate the risks linked to the use of benchmarks that are potentially not safe for use in the Union, and to warn potential users, competent authorities and ESMA should be able to issue a warning under the form of a public notice that the administrator of a significant benchmark does not comply with the applicable requirements, in particular as regards the compliance with the obligation for the benchmark administrator to be authorised, registered, endorsed or recognised, as applicable. Once such a warning has been issued, supervised entities should no longer be able to add new references to such benchmarks or combination of benchmarks. Similarly, to prevent the risks entailed by the use of benchmarks that claim compliance with the EU Climate Transition and EU Paris-aligned labels without being subject to adequate supervision, supervised entities should neither be able to add new references to an EU Climate Transition Benchmark or an EU Paris-aligned Benchmark or combination of such benchmarks in the Union where the administrator of those benchmarks is not included in ESMA's register of administrators and benchmarks.

(16) To avoid potentially excessive market disruptions following the prohibition of the use of a benchmark, competent authorities or ESMA should be able to allow the temporary continued use of such a benchmark. To ensure a sufficient level of transparency and protection vis-à-vis end-investors, users of those benchmarks that are subject to a warning under the form of a public notice should identify a suitable alternative for those benchmarks within 6 months following the publication of that public notice, or otherwise ensure that clients are appropriately informed of the lack of an alternative benchmark.

(17) Under Article 32 of Regulation (EU) 2016/1011, recognition of benchmark administrators located in a third country serves as a temporary means of access to the Union market pending the adoption of an equivalence decision by the Commission. However, given the very limited number of third-country benchmarks covered by equivalence decisions, such recognition should become a permanent means of access to the Union market for such benchmark administrators.

(18) Benchmarks covered by an equivalence decision are considered to be equivalently regulated and supervised to Union benchmarks. The obligation to seek endorsement or recognition should therefore not apply to administrators of significant benchmarks located in a third country that benefit from an equivalence decision.

(19) In the interest of transparency and to ensure legal certainty, competent authorities that designate a benchmark as significant should specify the potential use restrictions that arise where the administrator of such a benchmark fails to be authorised or registered or fails to comply with the endorsement or recognition requirements, as applicable.

(20) To mitigate the risks linked to the use of inadequately supervised significant benchmarks, where the administrator of a benchmark that becomes significant does not seek authorisation, registration, recognition or endorsement within the prescribed time limit, or where the authorisation, registration, recognition or endorsement for such benchmark administrator fails, or where an administrator is withdrawn its authorisation, registration, endorsement or recognition, the competent authority or ESMA, as applicable, should issue a public notice stating that the significant benchmarks provided by that administrator are not suitable for use in the Union.

(21) Benchmark users rely on transparency regarding the regulatory status of benchmarks they use or intend to use. For that reason, ESMA should list in the register of administrators and benchmarks those benchmarks that are subject to the most detailed requirements laid down in Regulation (EU) 2016/1011, either because their use in the Union is above the set threshold for significant benchmarks, because they are designated as significant by a national supervisor or by ESMA, or because they are critical benchmarks. For the same reason, ESMA should also list in that register EU Climate Transition Benchmarks and EU Paris-aligned Benchmarks provided by administrators that are authorised or registered. Finally, ESMA should also list in the register the benchmarks for which a competent authority or ESMA has issued a public notice prohibiting the further use of that benchmark. To further reduce the burden on users, all such information should also be made readily available on the European Single Access Point (ESAP).

(22) Regulation (EU) 2019/2089 has introduced rules as regards the transparency of benchmarks claiming, in their marketing of legal communication, to be taking environmental, social or governance (ESG) criteria into consideration in their design. In order to maintain a high level of transparency surrounding ESG-related claims and an adequate level of protection for users, it is appropriate to require that users of benchmarks making ESG-related claims do not use such benchmarks when those users are not provided with the information referred to in Articles 13(1), point d, and 27(2a) of Regulation (EU) 2016/1011. This should apply to the use of any benchmark claiming to take ESG into account in their design, regardless of whether such benchmark is administered in the EU or in a third-country.

(23) To ensure a seamless transition to the rules introduced under this Regulation administrators previously supervised under this regulation should maintain existing registrations, authorisations, recognitions or endorsements for six months after the entry into application of this amending regulation. This time period intends to give competent authorities or ESMA, the time to decide whether any of the previously supervised administrators shall be designated in accordance with the amending regulation. This time period should also provide existing authorisation or registration holders a sufficient level of legal certainty on whether they will be designated in accordance with the amending regulation. If designated, administrators previously authorised, registered, recognised or endorsed should be allowed to retain their previous status and not have to re-apply. If not designated, existing authorisation, registration, recognition or endorsement holders should have the legal certainty that the designation period has lapsed and that their names can safely be removed from the ESMA register, while supervised entities will be able to continue to use these indices. Non-designation within this six months designation period also implies that a competent national authority is no longer obliged to maintain an existing authorisation, registration, recognition or endorsement. Administrators of significant benchmarks should, in any case, be allowed to retain their status as registered, authorised, recognised or endorsed benchmark administrators. In the same way, administrators of critical benchmarks, of EU Paris-aligned Benchmarks, of EU Climate Transition Benchmarks and of commodity benchmarks subject to Annex II that were authorised, registered, endorsed or recognised on the date of application of this amending Regulation should not be obliged to re-apply for authorisation, registration, recognition, or endorsement.

(24) In order to give competent authorities and ESMA the necessary time to gather information on potential significant benchmarks and to adapt existing infrastructure to the new framework proposed under this amending Regulation, the date of application of this Regulation should be deferred.

(25) Regulation (EU) 2016/1011 should therefore be amended accordingly,

HAVE ADOPTED THIS REGULATION:

Article 1

Amendments to Regulation (EU) 2016/1011

Regulation (EU) 2016/1011 is amended as follows:

(1) Article 2 is amended as follows:

(a) the following paragraph 1a is inserted:

‘1a. Titles II, III, with the exception of Articles 23a-23c, IV and VI apply only in respect of critical benchmarks, significant benchmarks, commodity benchmarks subject to Annex II, EU Climate Transition Benchmarks and EU Paris-aligned Benchmarks.’;

(b) in paragraph 2, point (i) is deleted;

(2) in Article 3, paragraph 1 is amended as follows:

(a) in point (17), sub-point (m) is replaced by the following:

‘(m) an administrator authorised or registered pursuant to Article 34’

(b) point (22a) is deleted;

(c) point (27) is deleted;

- (3) Article 5 is amended as follows:
 - (a) in paragraph 5, second subparagraph, the last sentence is deleted ;
 - (b) paragraph 6 is deleted;
- (4) Article 11 is amended as follows:
 - (a) in paragraph 5, first subparagraph, the last sentence is deleted;
 - (b) paragraph 6 is deleted;
- (5) Article 13 is amended as follows:
 - (a) in paragraph 3, first subparagraph, the last sentence is deleted;
 - (b) paragraph 4 is deleted;
- (6) Article 16 is amended as follows:
 - (a) in paragraph 5, second subparagraph, the last sentence is deleted;
 - (b) paragraph 6 is deleted;
- (7) in Title III, the title of Chapter 2 is replaced by the following:
‘Interest rate benchmarks’;
- (7a) Article 18 is amended as follows: the second subparagraph is replaced by the following:
‘‘Article 25 shall not apply to the provision of, and contribution to, interest rate benchmarks.’

(8) Article 18a is deleted;

(8a) Article 19 is amended as follows: the second subparagraph is replaced by the following:

‘Article 25 shall not apply to the provision of, and contribution to, commodity benchmarks.’

(9) in Article 19a, the following paragraph 4 is added:

‘4. Administrators that are not included in the register referred to in Article 36 shall not :

(a) provide EU Climate Transition Benchmarks or EU Paris-aligned Benchmarks;

(b) indicate or suggest, in the name of the benchmarks they make available for the use in the Union or in the legal or marketing documentation for those benchmarks, that the benchmarks they make available comply with the requirements applicable to the provision of EU Climate Transition Benchmarks or EU Paris-aligned Benchmarks.’;

(10) Article 19d is deleted;

(11) Article 24 is replaced by the following:

‘Article 24

Significant benchmarks

1. A benchmark which is not a critical benchmark shall be significant where either of the following conditions is met:

(a) the benchmark is used directly or indirectly within a combination of benchmarks within the Union as a reference for financial instruments or financial contracts or for measuring the performance of investment funds, that have a total average value of at least EUR 50 billion on the basis of all the range of maturities or tenors of the benchmark, where applicable, over a period of six months;

(b) the benchmark has been designated as significant in accordance with the procedure laid down in paragraphs 3, 4 and 5 or the procedure laid down in paragraph 6.

2. An administrator shall immediately notify the competent authority of the Member State where it is located or, if located in a third country, ESMA, where one or several of that administrator's benchmarks exceed the threshold referred to in paragraph 1, point (a). Following receipt of that notification, the competent authority or ESMA, as appropriate, shall publish a statement on its website stating that that benchmark is significant.

An administrator shall, upon request, provide the competent authority of the Member State where it is located or, if located in a third country, ESMA, with information as regards whether the threshold referred to in paragraph 1, point (a) has been effectively exceeded.

Where a competent authority or, in the case of a third-country administrator, ESMA, has clear and demonstrable grounds to consider that a benchmark exceeds the threshold referred to in paragraph 1, point (a), the competent authority or ESMA may issue a notice stating that fact. Such a notice shall trigger the same obligations for the benchmark administrator as a notification as referred to in the first subparagraph of this paragraph. At least 10 working days before issuing such notice, the competent authority or ESMA shall inform the administrator of the benchmark concerned of its findings, and invite that administrator to submit any observation.

3. A competent authority may, having consulted ESMA in accordance with paragraph 4 and taking into account its advice, designate a benchmark provided by an administrator located in the Union that does not meet the condition laid down in paragraph 1, point (a), as significant where that benchmark fulfils all of the following conditions:

- (a) the benchmark has no, or very few, appropriate market-led substitutes;
- (b) in the event that the benchmark ceases to be provided, or is provided on the basis of input data no longer fully representative of the underlying market or economic reality or on the basis of unreliable input data, there would be significant and adverse impacts on market integrity, financial stability, consumers, the real economy, or the financing of households and businesses in that competent authority's Member State;
- (c) the benchmark has not been designated by a competent authority of another Member State.

Where a competent authority concludes that a benchmark fulfils the criteria set out in the first subparagraph, the competent authority shall prepare a draft decision to designate the benchmark as significant and notify that draft decision to the administrator concerned and to the competent authority of the administrator's home Member State where relevant. The competent authority concerned shall also consult ESMA on the draft decision.

The administrators concerned and the competent authority of the administrator's home Member State shall have 15 working days from the date of notification of the draft decision of the designating competent authority concerned to provide observations and comments in writing. The designating competent authority concerned shall inform ESMA of the observations and comments received and shall duly consider those observations and comments before adopting a final decision.

The designating competent authority shall notify ESMA of its decision, and publish the decision, including the reasons for which it was made and the consequences of this designation, on its website without undue delay. Where a competent authority designates a benchmark contrary to an opinion adopted by ESMA under paragraph 4, it shall immediately publish on its website a notice fully explaining its reasons for doing so’;

4. When consulted by a competent authority on the intended designation of a benchmark as significant in accordance with paragraph 3, first subparagraph, ESMA shall, within 3 months, issue an advice that takes into account the following factors, in light of the specific characteristics of the benchmark concerned:

(a) whether the consulting competent authority has sufficiently substantiated its assessment that the conditions referred to in paragraph 3, first subparagraph are met;

(b) whether, in the event that the benchmark ceases to be provided, or is provided on the basis of input data that are no longer fully representative of the underlying market or economic reality or that are unreliable, there would be significant and adverse impacts on market integrity, financial stability, consumers, the real economy, or the financing of households and businesses in Member States other than the Member State of the consulting competent authority.

For the purposes of point (b), ESMA shall take due account, where relevant, of the information provided by the consulting authority pursuant to the third subparagraph of paragraph 3.

5. Where ESMA finds that a benchmark meets the conditions under paragraph 3, first subparagraph, points (a) to (c), in more than one Member State, it shall inform the competent authorities of the Member States concerned thereof. The competent authorities of the Member States concerned shall agree which among them designates the benchmark concerned as significant benchmark.

Where competent authorities disagree on the matter referred to in the first subparagraph, they shall refer the matter to ESMA, and ESMA shall settle that disagreement in accordance with Article 19 of Regulation (EU) No 1095/2010.

6. ESMA may, upon the request of a competent authority, designate a benchmark provided by an administrator located in a third country that does not meet the threshold laid down in paragraph 1, point (a), as significant where that benchmark fulfils all of the following conditions:

(a) the benchmark has no, or very few, appropriate market-led substitutes;

(b) in the event that the benchmark would cease to be provided, or would be provided on the basis of input data that are no longer fully representative of the underlying market or economic reality or that are unreliable, there would be significant and adverse impacts on market integrity, financial stability, consumers, the real economy, or the financing of households and businesses in one or more Member States.

ESMA shall, prior to the designation decision and as soon as possible, inform the administrator of the benchmark of its intention, and invite that administrator to provide ESMA within 15 working days with a reasoned statement containing any relevant information for the purposes of the assessment related to the designation of the benchmark as significant.

Where applicable, ESMA shall invite, as soon as possible, the competent authority of the jurisdiction where the administrator is located to provide any relevant information for the purposes of the assessment related to the designation of the benchmark.

ESMA shall motivate any designation decision, taking into account whether there is sufficient evidence that the conditions referred to in the first subparagraph of this paragraph are met, in light of the specific characteristics of the benchmark concerned.

ESMA shall publish its reasoned decision on its website and shall notify the requesting competent authority or authorities without undue delay.

7. The Commission shall be empowered to adopt delegated acts in accordance with Article 49 to further specify the calculation method to be used to determine the threshold referred to in paragraph 1, point (a) of this Article in the light of market, price and regulatory developments.’

(12) the following Article 24a is inserted:

‘Article 24a

Requirements for administrators of significant benchmarks

(1) Within 60 working days following the notification referred to in Article 24(2), the administrator of a benchmark satisfying the criterion referred to in paragraph (1), point (a), of that Article, shall seek authorisation or registration with the competent authority of the Member State where it is located. Where that administrator is located in a third country and unless the benchmark concerned is covered by an equivalence decision adopted pursuant to Article 30, that administrator shall, within 60 working days following the notification referred to in Article 24(2), seek either of the following:

- (a) recognition with ESMA pursuant to the procedure set out in Article 32;
- (b) endorsement pursuant to the procedure set out in Article 33.

(2) Within 60 working days following a designation referred to in Article 24(3), the administrator of the benchmark concerned, unless that administrator is already authorised or registered, shall seek authorisation or registration with the competent authority of the Member State where it is located in accordance with Article 34.

(3) Within 60 working days following a designation referred to in Article 24(6), the administrator of the benchmark concerned, unless the benchmark concerned is covered by an equivalence decision adopted pursuant to Article 30, shall seek either of the following:

(a) recognition with ESMA pursuant to the procedure set out in Article 32;

(b) endorsement pursuant to the procedure set out in Article 33.

(4) ESMA or competent authorities shall make use of the supervisory and sanction powers they are entrusted with under this Regulation to ensure that the relevant administrators comply with their obligations.

(5) The competent authority or ESMA shall issue a public notice stating that a significant benchmark provided by an administrator does not comply with this Regulation and that users should refrain from using that benchmark where any of the following conditions is met:

(a) within 60 working days following the notification referred to in Article 24(2) the designation referred to in Article 24(3) or the designation referred to in Article 24(6), the administrator concerned has not initiated procedures to comply with paragraph 2 of this Article;

(b) the authorisation, registration, recognition or endorsement procedures have failed;

(c) ESMA has withdrawn the registration of the administrator in accordance with Article 31;

(d) ESMA has withdrawn or suspended the recognition of the administrator concerned in accordance with Article 32(8);

(e) the endorsement of the administrator concerned has ceased in accordance with Article 33 (6);

(f) the competent authority has withdrawn or suspended the authorisation or registration of the administrator concerned in accordance to Article 35.

Competent authorities shall notify ESMA of all issued public notices without undue delay. ESMA shall publish all issued public notices on its website. ESMA or the competent authority shall remove the public notice without undue delay as soon as the reason for which it was issued is no longer valid.’

(13) in Title III, Chapter 6 is deleted;

(14) Article 29 is amended as follows:

(a) the title is replaced by the following:

‘Use of critical benchmarks, significant benchmarks, commodity benchmarks subject to Annex II, EU Climate Transition Benchmarks and EU Paris-aligned Benchmarks’;

(b) paragraph 1 is replaced by the following:

‘1. A supervised entity shall not add new references to a significant benchmark or a combination of such benchmarks in the Union where that benchmark or combination of benchmarks is the object of a public notice issued by ESMA or a competent authority in accordance with Article 24a(5). A supervised entity shall not add new references to a critical benchmark, a commodity benchmark subject to Annex II, to an EU Climate Transition Benchmark or an EU Paris-aligned Benchmark or combination of such benchmarks in the Union where the administrator of those benchmarks is not included in the register referred to in Article 36.

Supervised entities shall regularly consult the European Single Access Point (ESAP) as referred to in Article 28a], or the ESMA register as referred to in Article 36, to verify the regulatory status of the administrators of critical benchmarks, significant benchmarks, commodity benchmarks subject to Annex II, EU Climate Transition Benchmarks or EU Paris-Aligned Benchmarks they intend to use.

By way of derogation from the first subparagraph, ESMA or the competent authority, as appropriate, may allow the use of a benchmark subject to a public notice issued in accordance with Article 24a(5) for a period of 6 months following the publication of the public notice, renewable once, where necessary to avoid serious market disruption.'

(c) a new paragraph 1b is inserted:

'1b. A supervised entity that uses a benchmark in existing financial contracts or financial instruments that is subject to a public notice under Article 24a(5) shall replace that benchmark with an appropriate alternative within 6 months following the publication of that notice, or issue and publish a statement on its website informing clients of the absence of an appropriate alternative.'

(d) a new paragraph 1c is inserted:

'1c. A supervised entity may use a benchmark claiming, in its legal or marketing documentation, or denomination, to take ESG into account in its methodology, only where its administrator discloses the information referred to in Article 13(1), point d, and in Article 27(2a) of this Regulation. This paragraph shall apply to both EU and non-EU benchmarks.'

(15) Article 32 is amended as follows:

- (a) paragraph 1 is deleted;
- (b) paragraphs 2 and 3 are replaced by the following:

‘2. An administrator of a significant benchmark, of an EU Paris-aligned Benchmark, of an EU Climate Transition Benchmark or of a commodity benchmark subject to Annex II located in a third country that intends to obtain recognition shall comply with this Regulation, with the exception of Article 11(4) and Articles 16, 20, 21 and 23. An administrator located in a third country may fulfil that condition by applying the IOSCO principles for financial benchmarks or the IOSCO principles for PRAs, as applicable, provided that such application is equivalent to compliance with this Regulation, with the exception of Article 11(4), and Articles 16, 20, 21 and 23.

When determining whether the condition referred to in the first subparagraph is fulfilled and assessing the compliance with the IOSCO principles for financial benchmarks or the IOSCO principles for PRAs, as applicable, ESMA may take into account:

- (a) an assessment of the administrator located in a third country by an independent external auditor;
- (b) a certification provided by the competent authority of the third country where that administrator is located.

Where, and to the extent that, a third country administrator is able to demonstrate that a benchmark it provides is a regulated-data benchmark or a commodity benchmark that is not based on submissions by contributors the majority of which are supervised entities, the administrator shall not be obliged to comply with the requirements which, pursuant to Article 17 and Article 19(1), are not applicable to the provision of regulated-data benchmarks and of commodity benchmarks.

3. An administrator located in a third country intending to obtain recognition shall have a legal representative. The legal representative shall be a natural or legal person located in the Union and expressly appointed by that administrator to act on behalf of that administrator with regard to the administrator's obligations under this Regulation. The legal representative shall, together with the administrator, perform the oversight function relating to the provision of benchmarks performed by the administrator under this Regulation and, in that respect, be accountable to ESMA.';

(c) in paragraph 5, the first subparagraph is replaced by the following:

'An administrator located in a third country intending to obtain recognition as referred to in paragraph 2 shall apply for recognition with ESMA. The applicant administrator shall provide all information necessary to satisfy ESMA that it has established, at the time of recognition, all the necessary arrangements to meet the requirements laid down in paragraph 2 with respect to its benchmark or benchmarks that have been designated in accordance with Article 24. Where applicable, the applicant administrator shall indicate the competent authority in the third country responsible for its supervision.

Within 15 working days of receipt of the application, ESMA shall assess whether the application is complete and shall notify the applicant accordingly. Where the application is incomplete, the applicant shall submit the additional information required by ESMA. The time limit referred to in this subparagraph shall apply from the date on which the applicant has provided such additional information.';

(16) Article 34 is amended as follows:

(a) paragraph 1 is replaced by the following:

‘1. A natural or legal person located in the Union that acts or intends to act as an administrator shall apply to the competent authority designated under Article 40 of the Member State in which that person is located in order to receive:

(a) authorisation where it provides or intends to provide indices which are used or intended to be used as critical benchmarks, as significant benchmarks, as commodity benchmarks subject to Annex II, as EU Climate Transition Benchmarks or as EU Paris-aligned Benchmarks;

(b) registration where it is a supervised entity, other than an administrator, that provides or intends to provide indices which are used or intended to be used as significant benchmarks, as EU Climate Transition Benchmarks or EU Paris-aligned Benchmarks, provided that the activity of provision of a benchmark is not prevented by the sectoral discipline applying to the supervised entity and that none of the indices provided would qualify as a critical benchmark.’;

(b) paragraph 3 is replaced by the following:

‘3. The application referred to in paragraph 1 shall be made within 30 working days of any agreement entered into by a supervised entity to use an index provided by the applicant as a reference in a financial instrument or financial contract or to measure the performance of an investment fund, or within the time limits set out in Article 24a(2) and (3), as applicable.’;

(17) in Article 36(1), the following points (e) to (k) are added:

‘(e) the benchmarks subject to a statement published by ESMA or a competent authority pursuant to Article 24(2), and the hyperlinks to such statements;

(f) the benchmarks subject to designations by competent authorities notified to ESMA pursuant to Article 24(4), and the hyperlinks to such designations;

(g) the benchmarks subject to designations by ESMA, and the hyperlinks to such designations;

(h) the benchmarks subject to public notices issued by ESMA and competent authorities pursuant to Article 24a(5), and the hyperlinks to such public notices;

(i) the list of EU Climate Transition Benchmarks and EU Paris-aligned Benchmarks available for use in the Union;

(j) the list of critical benchmarks;

(k) the list of commodity benchmarks subject to Annex II .’;

(18) in Article 41(1), the following points (k) and (l) are added:

‘(k) designate a benchmark as significant pursuant to Article 24(3);

(l) in case of reasonable grounds to suspect a breach of any of the requirements laid down in Chapter 3A of Title III, require that an administrator ceases, for a maximum period of 12 months:

- (i) to provide EU Climate Transition Benchmarks or EU Paris-aligned Benchmarks;
- (ii) to use the terms EU Climate Transition Benchmarks or EU Paris-aligned Benchmarks in the names of benchmarks it makes available for use in the Union, or in the legal or marketing documentation for those benchmarks;
- (iii) to imply compliance with the requirements applicable to the provision of such benchmarks in the name of the benchmarks it makes available for use in the Union, or in the legal or marketing documentation for those benchmarks;’;
- (19) Article 42 is amended as follows:
- (a) in paragraph 1, point (a) is replaced by the following:
- ‘(a) any infringement of Articles 4 to 16, of Articles 19a, 19b, 19c and 21, of Articles 23 to 29 or of Article 34 where those Articles apply; and’;
- (b) paragraph 2 is amended as follows:
- (i) in point (g), point (i) is replaced by the following:
- ‘(i) for infringements of Articles 4 to 10, of Article 11(1), points (a), (b), (c) and (e), of Article 11(2) and (3), of Articles 12 to 16, of Article 21, of Articles 23 to 29 and of Article 34, EUR 500 000 or in the Member States whose official currency is not the euro, the corresponding value in the national currency on 31 December 2023; or’;

(ii) in point (h), point (i) is replaced by the following:

‘(i) for infringements of Articles 4 to 10, of Article 11(1), points (a), (b), (c) and (e), of Article 11(2) and (3), of Articles 12 to 16, of Article 21, of Articles 23 to 29 and of Article 34, either EUR 1 000 000 or, in the Member States whose official currency is not the euro, the corresponding value in the national currency on 31 December 2023, or 10 % of its total annual turnover according to the last available accounts approved by the management body, whichever is the higher; or’;

(20) Article 49 is amended as follows:

(a) paragraphs 2 and 3 are replaced by the following:

‘2. The power to adopt delegated acts referred to in Articles 3(2), 13(2a), 19a(2), 19c(1), 20(6), 24(7), 27(2b), 33(7), 51(6) and 54(3) shall be conferred on the Commission for a period of five years from 30 June 2024. The Commission shall draw up a report in respect of the delegation of power no later than 31 December 2028. The delegation of power shall be tacitly extended for further periods of identical duration, unless the European Parliament or the Council opposes such extension not later than three months before the end of each period.

3. The delegation of power referred to in Articles 3(2), 13(2a), 19a(2), 19c(1), 20(6), 24(7), 27(2b), 30(2a), 30(3a), 33(7), 48i(10), 48l(3), 51(6) and 54(3) may be revoked at any time by the European Parliament or by the Council. A decision to revoke shall put an end to the delegation of power specified in that decision. It shall take effect on the day following the publication of the decision in the Official Journal of the European Union or on a later date specified therein. It shall not affect the validity of any delegated acts already in force.’;

(b) paragraph 6 is replaced by the following:

‘6. A delegated act adopted pursuant to Article 3(2), 13(2a), 19a(2), 19c(1), 20(6), 24(7), 27(2b), 30(2a), 30(3a), 33(7), 48i(10), 48l(3), 51(6) or 54(3) shall enter into force only if no objection has been expressed either by the European Parliament or by the Council within a period of three months of notification of that act to the European Parliament and to the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by three months at the initiative of the European Parliament or of the Council.’

(21) in Article 51, the following paragraph 4c is inserted:

4c. Competent national authorities intending to designate a benchmark provided by an administrator that was included in the ESMA register on [PO please insert the date = date of application of this amending Regulation – 1 day] and ESMA intending to designate a benchmark that was included in the ESMA register or the administrator of which was included in the ESMA register on [PO please insert the date = date of application of this amending Regulation – 1 day] shall do so within six months after [PO please insert the date = date of application of this amending Regulation].

Benchmark administrators that were authorised, registered, endorsed or recognised on [PO please insert the date = date of application of this amending Regulation] shall retain this status for six months after entry into application of this amending regulation or until the completion of the designation process initiated during such 6-month period, whichever is later. Where one or more of their benchmarks are designated within that period, the designated administrators shall not be obliged to re-apply for authorisation registration, recognition, or endorsement pursuant to Article 24a(1), (2), or (3), as applicable.

Administrators of significant benchmarks that were authorised, registered, endorsed or recognised on [PO please insert the date = date of application of this amending Regulation] shall not be obliged to re-apply for authorisation registration, recognition, or endorsement pursuant to Article 24a(1) where one or more of their benchmarks are significant pursuant to Art. 24(1)(a).’

Article 2

Entry into force and application

This Regulation shall enter into force on the twentieth day following that of its publication in the Official Journal of the European Union.

It shall apply from 1 January 2026

This Regulation shall be binding in its entirety and directly applicable in all Member States.
