- Presidency revised consolidated text

Following the Special Committee on Agriculture on 10 December 2012, delegations will find attached in the Annex a consolidated version of the draft Regulation prepared by the Presidency.

To the extent that the amendments have been discussed by the Council preparatory bodies, the Presidency has noted a broad support from delegations. Outstanding issues are presented between square brackets.

Delegations' attention is drawn to the fact that recitals will be further amended at a later stage to reflect the position of the Council.

Amendments brought to the Commission proposal appear in **bold underlined** font. Deletions appear in ~~striketrough~~ font.

On data protection the Presidency, in consultation with the Council Legal service, has adjusted Article 112a by deleting the word "solely" to accommodate delegations.

DRAFT
REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
on the financing, management and monitoring of the common agricultural policy

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(2) thereof,

Having regard to the proposal from the European Commission¹,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee²,

~~Having consulted the European Data Protection Supervisor³,~~

Acting in accordance with the ordinary legislative procedure,

[Whereas:

(1) The Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions on "The CAP towards 2020: Meeting the food, natural resources and territorial challenges of the future"⁴ set out potential challenges, objectives and orientations for the Common Agricultural Policy (CAP) after 2013. In the light of the debate on that Communication, the CAP should be reformed with effect from 1 January 2014. That reform should cover all the main instruments of the CAP, including Council Regulation (EC) No 1290/2005 of 21 June 2005 on the financing of the common agricultural policy⁵ as amended by Regulation of the European Parliament and Council [COM(2010)...(*Lisbon alignment*)]⁶. Experience drawn from the implementation of that Regulation shows that certain elements of the financing and monitoring mechanism need to be adjusted. In view of the scope of the reform, it is appropriate to repeal Regulation (EC) No 1290/2005 and to replace it with a new text. The reform should also, as far as possible, harmonise, streamline and simplify provisions.

(2) ~~Since the objectives of this Regulation cannot be achieved sufficiently by Member States given the links between it and the other instruments of the CAP, the limits on the financial resources of the Member States in an enlarged Union, and can therefore be better achieved at Union level through the multiannual guarantee of Union finance and by concentrating on its priorities, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5(3) of the Treaty on European Union. In accordance with the principle of proportionality as set out in Article 5(4) of that Treaty, this Regulation does not go beyond what is necessary in order to achieve that objective.~~

⁶ OJ L , , p.

(3) In order to supplement or amend certain non-essential elements of this Regulation, the power to adopt delegated acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of ~~the accreditation of the paying agencies and coordinating bodies, the content of the Farm Advisory System,~~ the measures to be financed by Union budget under public intervention and the valuation of the operations in connection with public intervention, ~~the reductions and suspension of the reimbursements to the Member States,~~ derogations from the ineligibility of payments made by the paying agencies to the beneficiaries before the earliest possible date of payment, the compensation between expenditure and revenues under the Funds, ~~the recovery of debts, the penalties applied to beneficiaries in case of non-compliance with the eligibility conditions,~~ in respect of rules on securities, on the functioning of the integrated administration and control system, of the measures excluded from the scrutiny of transactions, modifying the sum of the receipts or payments below which the commercial document of undertakings should normally not be scrutinised under this Regulation, ~~the penalties applied under cross-compliance,~~ control requirements in the wine sector, the rules on maintenance of permanent grassland, the rules on the operative event and the exchange rate to be used by the Member States not using the euro and ~~in respect of the content of the common evaluation framework of the measures adopted under the CAP transitional measures.~~ It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing-up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council.

- (4) The CAP consists of a series of measures, some of which relate to rural development. It is important that financing be provided for those measures in order to contribute to the achievement of the objectives of the CAP. Since the measures have certain elements in common but do also differ in a number of respects, their financing should be combined in the same set of provisions which allows for different treatment where necessary. Regulation (EC) No 1290/2005 created two European agricultural funds, namely the European Agricultural Guarantee Fund (~~hereinafter~~ 'EAGF'), and the European Agricultural Fund for Rural Development (~~hereinafter~~ 'EAFRD'). Those two Funds should be maintained.

(5) Regulation (EU) No [FR]/xxx of the European Parliament and of the Council of [...] on the financial rules applicable to the annual budget of the Union⁷ and the provisions adopted pursuant to it should apply to the measures set out in this Regulation. In particular the Regulation lays down provisions related to the shared management with Member States based on the principles of sound financial management, transparency and non-discrimination, as well as provisions on the function of accredited bodies, the budgetary principles, provisions which should be respected in the framework of this Regulation.

(5a) This Regulation should provide, where appropriate, for exemptions in cases of force majeure and exceptional circumstances. The concept of force majeure in the sphere of agricultural regulations should be interpreted in light of the case law of the Court of Justice⁸.

(6) The Union budget should finance CAP expenditure, including that on rural development, through both Funds either directly or in the context of shared management with the Member States. The types of measures that can be financed using those Funds should be specified.

⁷ OJ L , P..

⁸ **See e.g. Case C-210/00, paragraph 79 or Case T-220/04, paragraph 175.**

- (7) Provision should be made for the accreditation of paying agencies by Member States, for the establishment of procedures for obtaining the requisite management declarations of assurance, and the certification of management and monitoring systems, as well as the certification of annual accounts by independent bodies. Moreover, in order to ensure the transparency of national checks, in particular as regards authorisation, validation and payment procedures, to reduce the administrative and audit burden for the Commission services as well as for the Member States where accreditation of each individual paying agency is required, the number of authorities and bodies to which those responsibilities are delegated should be restricted taking account of the constitutional arrangements of each Member State.

- (8) Where a Member State accredits more than one paying agency, it is important that it designates a single coordinating body to ensure consistency in the management of the funds, to provide liaison between the Commission and the various accredited paying agencies and to ensure that the information requested by the Commission concerning the operations of several paying agencies is made rapidly available. The coordinating body should also ~~be responsible for ensuring that~~ **take and coordinate** remedial action ~~is taken~~ and **keep that** the Commission ~~is kept~~ informed of the follow-up and it should ensure homogeneous application of common rules and standards.
- (9) Only paying agencies accredited by the Member States offer reasonable assurance that the necessary checks have been carried out before granting Union aid to beneficiaries. It should therefore be explicitly laid down that only expenditure effected by accredited paying agencies can be reimbursed from the Union budget.
- (10) In order to help beneficiaries to become more aware of the relationship between agricultural practices and management of farms on the one hand, and standards relating to the environment, climate change, good agricultural condition of land, food safety, public health, animal health, plant health and animal welfare on the other, it is necessary that Member States establish a comprehensive farm advisory system offering advice to beneficiaries. That farm advisory system should in any way not affect the obligation and responsibility of beneficiaries to respect those standards. Also a clear separation between advice and checks should be ensured by the Member States.

- (11) The farm advisory system should cover at least the requirements and standards forming the scope of cross compliance. That system should also cover the requirements to be respected in relation to the agricultural practices beneficial for the climate and the environment for direct payments, as well as the maintenance of the agricultural area under Regulation (EU) No DP/xxx of the European Parliament and of the Council of xxx establishing rules for direct payment to farmers under support schemes within the framework of the common agricultural policy⁹. That system should finally cover certain elements related to climate change mitigation and adaptation, biodiversity, protection of water, animal and plant disease notification and innovation as well as the sustainable development of the economical activity of the small farms.
- (12) Entry into the farm advisory system should be on a voluntary basis for beneficiaries. All beneficiaries, even if not receiving support under the CAP, should be allowed to participate in the system. However priority criteria may be set by the Member States. Due to the nature of the system, it is appropriate for the information obtained in the course of the advisory activity to be treated as confidential, except in case of serious infringements of Union or national law. In order to ensure the efficiency of the system, advisors should be suitably qualified and regularly trained.
- (13) The financial resources required to cover the expenditure effected by the accredited paying agencies in respect of the EAGF, are to be made available to the Member States by the Commission in the form of reimbursements against the booking of the expenditure effected by those agencies. Until such reimbursements, in the form of monthly payments, have been paid, financial resources are to be mobilised by the Member States in accordance with the needs of their accredited paying agencies. The personnel costs and the administrative costs of the Member States and the beneficiaries involved in the execution of the CAP should be borne by themselves.

⁹ OJ L , , p..

- (14) The use of the agro-meteorological system and the acquisition and improvement of satellite images should provide the Commission with the means to manage the agricultural markets and to facilitate the monitoring of agricultural expenditure.
- (15) In the context of respecting budget discipline, it is necessary to define the annual ceiling for the expenditure financed by the EAGF by taking into account the maximum amounts laid down for that Fund under the multiannual financial framework provided for in the Council Regulation (EU) No xxx/xxx of [...] laying down the multiannual financial framework for the years 2014-2020¹⁰ [MFF].
- (16) Budget discipline also requires that the annual ceiling for expenditure financed by the EAGF to be respected under all circumstances and at all stages of the budget procedure and the execution of the budget. This requires that the national ceiling for the direct payments per Member State set out in Regulation (EU) No xxx/xxx[DP] be regarded as a financial ceiling for such direct payments for the Member State concerned and that the reimbursement of those payments remain within this financial ceiling. Furthermore, budget discipline requires that all acts proposed by the Commission or adopted by the legislator or by the Commission under the CAP and financed by the EAGF comply with the annual ceiling for the expenditure financed by that Fund.

¹⁰ OJ L , , p. .

- (17) With a view to ensuring that the amounts for the financing of the CAP comply with the annual ceilings, the financial mechanism referred to in Council Regulation (EC) No 73/2009 of 19 January 2009 establishing common rules for direct support schemes for farmers under the common agricultural policy and establishing certain support schemes for farmers, amending Regulations (EC) No 1290/2005, (EC) No 247/2006, (EC) No 378/2007 and repealing Regulation (EC) No 1782/2003¹¹ whereby the level of direct support is adjusted, should be maintained. In the same context, it is necessary to authorise the Commission to set those adjustments where the Council do not fix them before 30 June of the calendar year in respect of which they apply.
- (18) The measures taken to determine the financial contribution from the EAGF and the EAFRD in respect of the calculation of financial ceilings do not affect the powers of the budgetary authority designated by the Treaty. Those measures should therefore be based on the reference amounts fixed in accordance with the Interinstitutional Agreement of [...] between the European Parliament, the Council and the Commission on cooperation in budgetary matters and on sound financial management¹² and Regulation (EU) No xxx/xxx [MFF].

¹¹ OJ L 30, 31.1.2009, p. 16

¹² OJ L , , p. .

- (19) Budget discipline also demands a continuous examination of the medium-term budget situation. The Commission, when submitting the draft budget for a given year, should therefore present its forecasts and analyses to the European Parliament and the Council and propose, if necessary, appropriate measures to the legislator. Furthermore, the Commission should make full use of its management powers at all times to ensure compliance with the annual ceiling and, if necessary, propose appropriate measures to the European Parliament and to the Council or to the Council to redress the budget situation. If, at the end of a budget year, the annual ceiling cannot be complied with as a result of the reimbursements requested by the Member States, the Commission should be able to take measures allowing provisional distribution of the available budget among the Member States in proportion to their requests for reimbursement not yet paid, as well as compliance with the ceiling fixed for the year concerned. Payments for that year should be charged to the following budget year and the total amount of Union financing per Member State should be definitively established, as should compensation between Member States in order to comply with the established amount.
- (20) When implementing the budget, the Commission should operate a monthly early-warning and monitoring system for agricultural expenditure, so that, if there is a risk of the annual ceiling being exceeded, the Commission may at the earliest opportunity take the appropriate measures under the management powers at its disposal and propose other measures if those measures appear to be insufficient. A periodic report by the Commission to the European Parliament and the Council should compare the evolution of the expenditure effected in relation to the profiles so far and give an assessment of the foreseeable implementation for the remainder of the budget year.

- (21) The exchange rate used by the Commission in drawing up the budget documents should, while making allowances for the time lag between drafting and submission reflect the most recent information available.
- (22) Regulation (EU) No CR/xxx of the European Parliament and of the Council of [...] laying down common provisions common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund covered by the Common Strategic Framework and laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund and repealing Regulation (EC) No 1083/2006¹³ provides rules applying to the financial support from the Funds covered by that Regulation, including the EAFRD. Those provisions also include certain rules on the eligibility of expenditure, on financial management as well as the management and control systems. As regards the financial management of the EAFRD, for sake of legal clarity and coherence between the agricultural Funds, reference should be made to the relevant provisions on the budget commitments, payment deadlines and decommitment of Regulation (EU) No CR/xxx.
- (23) The rural development programmes are financed from the Union budget on the basis of commitments in annual instalments. Member States should be able to draw on the Union funds provided for as soon as they begin the programmes. A suitably restricted prefinancing system ensuring a steady flow of funds so that payments to beneficiaries under the programmes are made at the appropriate time is therefore needed.

¹³ OJ L, , p. .

- (24) Prefinancing apart, a distinction should be drawn between payments by the Commission to the accredited paying agencies. Interim payments and payment of balances, and rules on their payment should be set. The automatic decommitment rule should help speed up execution of programmes and contribute to sound financial management.
- (25) Union aid should be paid to beneficiaries in good time so that they may use it efficiently. A failure by the Member States to comply with the payment deadlines laid down in Union legislation could create serious difficulties for the beneficiaries and could jeopardise the Union's yearly budgeting. Therefore, expenditure made without respecting deadlines for payments should be excluded from Union financing. In order to respect the principle of proportionality, the Commission should be able to provide for exceptions to this general rule. This principle, laid down in Regulation (EC) No 1290/2005 should be maintained and apply to both the EAGF and the EAFRD. ~~**If Member States pay late, they should add interests on the principal amount at their own cost to compensate the beneficiaries. Such a provision could create an incentive to Member States to better respect payment deadlines, and could give more assurance to beneficiaries to be paid in time, or at least to be compensated in case of late payment.**~~

(26) Regulation (EC) No 1290/2005 provides for reductions and suspensions of monthly or interim payments for the EAGF and the EAFRD. Despite the rather broad wording of those provisions, it is noticed that in practice those provisions are used essentially to reduce payments for non-respect of payment deadlines, ceilings and similar "accounting issues" which can readily be detected in the declarations of expenditure. Those provisions also allow reductions and suspensions in case of serious and persistent deficiencies in national control systems, but including rather restrictive substantive conditions for doing so and providing for a special, two-step procedure to be followed. The budgetary authority has repeatedly asked the Commission to suspend payments to non-compliant Member States. Against this background, it is necessary to clarify the system provided for in Regulation (EC) No 1290/2005 and to merge the rules on reductions and suspensions for both the EAGF and the EAFRD into one single Article. The system of reductions for "accounting issues" should be maintained with a clearer wording in line with the existing administrative practice. The possibility for reducing or suspending payments in case of significant and persistent deficiencies in national control systems should be extended by including negligence in the recovery of irregular payments, while maintaining the two-step procedure for such reductions or suspensions.

- (27) Sectoral agricultural legislation requires Member States to send information on the numbers of checks carried out and their outcome within specified deadlines. Those control statistics are used to determine the level of error at Member State level and, more generally, for the purposes of checking the management of the EAGF and the EAFRD. They are an important source for the Commission to satisfy itself as to the correct management of funds and are an essential element for the annual declaration of assurance. ~~Given the vital nature of this statistical information and in order to ensure that Member States respect their obligation to send it in time, it is necessary to provide a deterrent to late provision of the data required in a manner proportionate to the extent of the data deficit. Therefore, provisions should be put in place whereby the Commission can suspend part of the monthly or interim payments for which the relevant statistical information has not been sent in time.~~
- (28) In order to allow reuse of EAGF and EAFRD funds, rules are needed on the assignment of specific sums. The list contained in Regulation (EC) No 1290/2005 should be completed with the sums relating to late payments and to the clearance of accounts as regards expenditure under the EAGF. Also Council Regulation (EEC) No 352/78 of 20 February 1978 on the crediting of securities, deposits and guarantees furnished under the common agricultural policy and subsequently forfeited¹⁴ laid down rules on the destinations of the sums resulting from forfeited securities. Those provisions should be harmonised and merged with the existing provisions on assigned revenue. Regulation (EEC) No 352/78 should therefore be repealed.

¹⁴ OJ L 50, 22.2.1978, p. 1.

- (29) Council Regulation (EC) No 814/2000 of 17 April 2000 on information measures relating to the common agricultural policy¹⁵ and its implementing rules define the information measures relating to the CAP which may be financed under point (c) of Article 5 of Regulation (EC) No 1290/2005. Regulation (EC) No 814/2000 contains a list of those measures and their objectives and fixes the rules of their financing and the implementation of the corresponding projects. Since the adoption of that Regulation, rules have been adopted by Regulation (EU) No xxx/xxx[FR] as regards grants and procurement. Those rules should apply also to the information measures under the CAP. For reasons of simplification and coherence, Regulation (EC) No 814/2000 should be repealed while maintaining the specific provisions relating to the objectives and types of measures to be financed. Those measures should also take into account the need to ensure more efficiency in communication to the public at large and stronger synergies between the communication activities undertaken at the initiative of the Commission and to ensure that the Union's political priorities are communicated effectively. Therefore they should also cover information measures relevant to CAP in the framework of the corporate communication as referred to in the Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions: A Budget for Europe 2020 - Part II: Policy fiches¹⁶.
- (30) The financing of measures and operations under the CAP will in part involve shared management. To ensure that Union funds are soundly managed, the Commission should perform checks on the management of the Funds by the Member State authorities responsible for making payments. It is appropriate to define the nature of the checks to be made by the Commission, to specify the terms of its responsibilities for implementing the budget and to clarify the Member States' cooperation obligations.

¹⁵ OJ L 100, 20.04.2000, p. 7.

¹⁶ COM(2011) 500 final, p. 7.

- (31) In order to allow the Commission to fulfil its obligation to check the existence and proper functioning of management and inspection systems for Union expenditure in the Member States, provision should be made, irrespective of the inspection carried out by Member States themselves, for checks by persons delegated by the Commission who should be able to request assistance from the Member States in their work.
- (32) Information technology needs to be used as fully as possible for producing the information to be sent to the Commission. When carrying out checks, the Commission should have full and immediate access to expenditure information recorded both in paper form and in electronic files.
- (33) In order to establish the financial relationship between the accredited paying agencies and the Union budget, the Commission should clear the accounts of these paying agencies annually. The clearance of accounts decision should cover the completeness, accuracy and veracity of the accounts but not the conformity of the expenditure with Union legislation.
- (34) The Commission, which is responsible for the ~~proper application of Union law under Article 17 of the Treaty on European Union~~, implementation of the budget in cooperation with Member States in accordance with Article 317 of the Treaty, should decide, by means of implementing acts, whether the expenditure incurred by the Member States complies with Union legislation. Member States should be given the right to justify their decisions to make payments and should have recourse to conciliation where there is no common agreement between them and the Commission. In order to give Member States legal and financial assurances as to expenditure effected in the past, a maximum period should be set for the Commission to decide which financial consequences should follow from non-compliance. The conformity clearance procedure should be, as regards EAFRD, in line with the provisions on the financial corrections by the Commission as laid down in Part 2 of Regulation (EU) No CR/xxx.

- (35) As regards the EAGF, sums recovered should be paid back to that Fund where the expenditure is not in conformity with Union legislation and no entitlement existed. **In order to allow sufficient time for carrying out all the necessary administrative proceedings, including internal controls, Member States should request recovery from the beneficiary within 24 months after a control report or similar document, stating that an irregularity has taken place, has been approved and, where applicable, received by the paying agency or body responsible for the recovery.** Provision should be made for a system of financial responsibility for irregularities in the absence of total recovery. In this respect a procedure should be established permitting the Commission to safeguard the interests of the Union budget by deciding on **a partial** the charging to the Member State concerned of the sums lost as a result of irregularities and not recovered within reasonable deadlines. The rules should apply to all sums not yet recovered by the time of the entry into force of this Regulation. In certain cases of negligence on the part of the Member State, it is also justified to charge the full sum to the Member State concerned. **However, subject to Member States complying with obligations under their internal procedures, the financial burden should be divided fairly between the Union and the Member State.** Same rules should apply to the EAFRD, keeping however the specificity that sums recovered or cancelled following irregularities should remain available to the approved rural development programmes of the Member State concerned as those sums have been allocated to that Member State. Provisions on the reporting obligation for Member States should be set also.
- (36) The recovery procedures used by the Member States may have the effect of delaying recovery for a number of years, with no guarantee that the outcome will actually be successful. The cost of implementing those procedures may also be out of proportion to the amounts which are or may be collected. Consequently, Member States should be permitted to halt recovery procedures in certain cases.

- (37) In order to protect the financial interests of the Union budget, measures should be taken by Member States to satisfy themselves that transactions financed by the EAGF and the EAFRD are actually carried out and are executed correctly. Member States should also prevent, detect and deal effectively with any irregularities or non-compliance with obligations committed by beneficiaries. To this end, Council Regulation (EC, Euratom) No 2988/95 of 18 December 1995 on the protection of the European Communities financial interests¹⁷ should apply. **In cases of infringement of the sectoral agricultural legislation, where detailed rules on administrative penalties have not been laid down by Union legislative and non-legislative acts, Member States should impose national penalties which should be effective, dissuasive and proportionate.**
- (38) Provisions relating to general principles on checks, withdrawals, reductions or exclusions from payments and to the imposition of penalties are contained in various sectoral agricultural regulations. Those rules should be gathered in the same legal framework at a horizontal level. They should cover the obligations of the Member States as regards administrative and on-the-spot checks, the rules on the recovery, reduction and exclusions of aid. Rules on checks of obligations not necessarily linked to the payment of an aid should be laid down as well.
- (39) Various provisions of the sectoral agricultural legislation require that a security be lodged to ensure the payment of a sum due if an obligation is not met. To all those provisions a single horizontal rule should apply so as to strengthen the framework for securities.

¹⁷ OJ L 312, 23.12.1995, p.1.

- (40) Member State should operate an integrated administration and control system for certain payments provided for in Regulation (EU) No xxx/xxx [DP] and in Regulation (EU) No RD/xxx of the European Parliament and of the Council of Xxx on support for rural development by the European Agricultural Fund for Rural Development (EAFRD)¹⁸. In order to improve the effectiveness and monitoring of Union support, Member States should be authorised to make use of that integrated system also for other Union support schemes.
- (41) The main elements of that integrated system and, in particular, the provisions concerning a computerised database, an identification system for agricultural parcels, aid applications or payment claims and a system for the identification and recording of payment entitlements should be maintained.
- (42) Payments provided for in Union support schemes covered by the integrated system should be made by the competent national authorities to beneficiaries in full, subject to any reductions provided for in this Regulation, and within prescribed periods. In order to render the management of direct payments more flexible, Member States should be allowed to pay payments covered by the integrated system in up to two instalments per year.

¹⁸ OJ L , , p. .

- (43) Scrutiny of the commercial documents of undertakings receiving or making payments can be a very effective means of surveillance of transactions forming part of the system of financing by the EAGF. The provisions on the scrutiny of the commercial documents are laid down in Council Regulation (EC) No 485/2008 of 26 May 2008 on scrutiny by Member States of transactions forming part of the system of financing by the European Agricultural Guarantee Fund¹⁹. That scrutiny supplements other checks already carried out by the Member States. Furthermore, national provisions relating to scrutiny which are more extensive than those provided for in that Regulation are not affected by it.
- (44) Under Regulation (EC) No 485/2008, Member States are to take the measures necessary to ensure effective protection of the financial interests of the Union budget, and particularly in order to check the genuineness and compliance of operations financed by the EAGF. In the interests of clarity and rationality, the relevant provisions should be integrated into the same act. Regulation (EC) No 485/2008 should therefore be repealed.
- (45) The documents used as a basis for such scrutiny should be determined in such a way as to enable a full scrutiny to be carried out. The undertakings to be scrutinised should be selected on the basis of the nature of the transactions carried out on their responsibility and the breakdown per sector of the undertakings receiving or making payments according to their financial importance in the system of financing by the EAGF.

¹⁹ OJ L 143, 3.6.2008, p. 1.

- (46) The powers of the officials responsible for scrutiny and the obligations on undertakings to make commercial documents available to such officials for a specified period and to supply such information as may be requested by them should be defined. Provision should be made allowing commercial documents to be seized in certain cases.
- (47) Having regard to the international structure of agricultural trade and in the interest of the functioning of the internal market, it is necessary to organise cooperation among the Member States. It is also necessary to set up a centralised documentation system at Union level concerning undertakings receiving or making payments established in third countries.
- (48) While it is the responsibility of the Member States to adopt their scrutiny programmes, it is necessary that those programmes be communicated to the Commission so that it can assume its supervisory and coordinating role, in order to ensure that the programmes are adopted on the basis of appropriate criteria and to guarantee that the scrutiny is concentrated on sectors or undertakings where the risk of fraud is high.

- (49) It is essential that each Member State has a special department responsible for monitoring the scrutiny of commercial documents provided for in this Regulation or for coordinating that scrutiny. Those special departments should be organised independently of the departments carrying out scrutiny prior to payment. Information collected during that scrutiny should be protected by professional secrecy.
- (50) Council Regulation (EC) No 1782/2003 of 29 September 2003 establishing common rules for direct support schemes under the common agricultural policy and establishing certain support schemes for farmers and amending Regulations (EEC) No 2019/93, (EC) No 1452/2001, (EC) No 1453/2001, (EC) No 1454/2001, (EC) 1868/94, (EC) No 1251/1999, (EC) No 1254/1999, (EC) No 1673/2000, (EEC) No 2358/71 and (EC) No 2529/2001²⁰, which was replaced by Regulation (EC) No 73/2009, established the principle that the full payment to beneficiaries of some supports under the CAP should be linked to compliance with rules relating to land management, agricultural production and agricultural activity. That principle was subsequently reflected in Council Regulation (EC) No 1698/2005 of 20 September 2005 on support for rural development by the European Agricultural Fund for Rural Development (EAFRD)²¹ and Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation)²². Under this so-called 'cross compliance' system Member States are to impose penalties in the form of reduction or exclusion of support received under the CAP in whole or in part.

²⁰ OJ L 270, 21.10.2003, p. 1.

²¹ OJ L 277, 21.10.2005, p. 1.

²² OJ L 299, 16.11.2007, p. 1.

- (51) The cross compliance system incorporates in the CAP basic standards for the environment, climate change, good agricultural and environmental condition of land, public health, animal health, plant health and animal welfare. This link aims at contributing to the development of a sustainable agriculture through a better awareness of beneficiaries of the need to respect those basic standards. It aims also at contributing to make the CAP more compatible with the expectation of the society through a better consistency of that policy with the environment, public health, animal health, plant health and animal welfare policies.
- (52) The cross compliance system forms an integral part of the CAP and should therefore be maintained. However, its scope, which consists so far in separate lists of statutory management requirements and standards of good agricultural and environmental condition of land should be streamlined so that its consistency is ensured and made more visible. For this purpose the requirements and standards should be organised in a single list and grouped by areas and issues. Experience has also shown that a number of the requirements within the scope of cross compliance are not sufficiently relevant to farming activity or the area of the holding or concern national authorities rather than beneficiaries. It is therefore appropriate to adjust this scope in this respect. Provision should furthermore be made for the maintenance of permanent grassland in 2014 and 2015.
- (53) Statutory management requirements need to be fully implemented by Member States in order to become operational at farm level and ensure the necessary equal treatment between farmers.

- (54) As regards Directive 2000/60/EC of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy²³ the provisions will only be operational under cross compliance when all Member States will have fully implemented them in particular with clear obligations for farmers. According to the Directive the requirements at farm level will be applied at the latest by 1 January 2013.
- (55) As regards Directive 2009/128/EC of the European Parliament and of the Council of 21 October 2009 establishing a framework for Community action to achieve the sustainable use of pesticides²⁴ the provisions will only be operational under cross compliance when all Member States will have fully implemented them in particular with clear obligations for farmers. According to the Directive the requirements at farm level will be progressively applied following a time schedule and in particular the general principles of integrated pest management will be applied at the latest by 1 January 2014.
- (56) According to Article 22 of Directive 2000/60/EC, Council Directive 80/68/EEC of 17 December 1979 on the protection of groundwater against pollution caused by certain dangerous substances²⁵ shall be repealed on 23 December 2013. In order to maintain the rules under cross compliance related to protection of groundwater, it is appropriate, while awaiting the inclusion of Directive 2000/60/EC in cross compliance, to adjust the scope of cross-compliance and to define a standard of good agricultural and environmental condition encompassing the requirements of Articles 4 and 5 of the Directive 80/68/EEC.

²³ OJ L 327, 22.12.2000, p. 1.

²⁴ OJ L 309, 24.11.2009, p. 71.

²⁵ OJ L 20, 26.1.1980, p. 43.

(57) The cross compliance system implies certain administrative constraints for both beneficiaries and national administrations since record keeping must be ensured, checks must be carried out and penalties have to be applied where necessary. Those penalties should be proportionate, effective and dissuasive. Such penalties should be without prejudice to other penalties laid down under other provisions of Union or national law. For the sake of consistency, it is appropriate to merge the relevant Union provisions into one single legal instrument. For farmers participating in the small farmers scheme referred to in Title V of Regulation (EU) No xxx/xxx[DP], the efforts to be made under the cross compliance system may be considered as exceeding the benefit of keeping those farmers under that system. For reasons of simplification, those farmers should therefore be exempted from cross compliance and in particular from its control system and from the risk of cross compliance penalties. However, that exemption should be without prejudice to the obligation to respect the applicable provisions of the sectoral legislation and to the possibility to be checked and to be imposed penalties under that legislation.

- (58) Regulation (EC) No 1782/2003 established a framework of standards of good agricultural and environmental condition of the land within which Member States are to adopt national standards taking account of the specific characteristics of the areas concerned, including soil and climatic conditions and existing farming systems (land use, crop rotation, farming practices) and farm structures. Those standards of good agricultural and environmental condition of the land aim at contributing to prevent soil erosion, maintain soil organic matter and soil structure, ensure a minimum level of maintenance, avoid the deterioration of habitats and protect and manage water. The wider scope of the cross compliance system as laid down in this Regulation should therefore include a framework within which Member States should adopt national standards of good agricultural and environmental condition. The Union framework should also include rules to better address water, soil, carbon stock, biodiversity and landscape issues as well as minimum level of maintenance of the land.
- (59) Beneficiaries should know clearly what they have to comply with in relation to the rules on cross compliance. For that purpose, all requirements and standards forming part of those rules should be communicated by Member States in an exhaustive, understandable and explanatory way, including, where possible, by electronic means.

- (60) An effective implementation of cross compliance requires verification at beneficiaries' level that obligations are respected. Where a Member State decides to make use of the option not to apply a reduction or exclusion where the amount concerned is less than EUR 100, the competent control authority should, for a sample of beneficiaries in the following year, verify that the findings of the non-compliance concerned have been remedied.
- (61) To ensure harmonious cooperation between the Commission and the Member States regarding the financing of CAP expenditure and, more particularly, to allow the Commission to monitor the financial management by the Member States and clear the accounts of the accredited paying agencies, certain information has to be communicated by the Member States or to be kept available to the Commission.
- (62) For the purposes of compiling the data to be sent to the Commission, and to allow the Commission to have full immediate access to expenditure data in both paper and electronic form, suitable rules on the presentation and transmission of data, including rules on time limits, need to be laid down.
- (63) As personal data or business secrets might be involved in the application of the national control systems and the conformity clearance, the Member States and the Commission should guarantee the confidentiality of the information received in that context.
- (64) In the interests of sound financial management of the Union budget and impartiality of treatment at both Member State and beneficiary level, rules on the use of the euro should be laid down.

- (65) The rate of exchange of the euro into national currency may vary in the course of the period during which an operation is carried out. Therefore the rate applicable to the amounts concerned should be determined taking into account the event through which the economic objective of the operation is achieved. The rate of exchange applied should be that of the date on which this event occurs. It is necessary to specify this operative event or to waive its application, observing certain criteria and in particular the rapidity with which currency movements are passed on. Those rules are laid down in Council Regulation (EC) No 2799/98 of 15 December 1998 establishing agrimonetary arrangements for the euro²⁶ and they complete similar provisions of Regulation (EC) No 1290/2005. In the interests of clarity and rationality the relevant provisions should be integrated into the same act. Regulation (EC) No 2799/98 should therefore be repealed.
- (66) Special rules should be laid down for dealing with exceptional monetary situations arising either within the Union or on the world market and requiring immediate action to ensure that the arrangements established under the CAP operate effectively.

²⁶ OJ L 349, 24.12.1998, p. 1.

- (67) Member States not having adopted the euro should have the option of making payments for expenditure resulting from the CAP legislation in euro rather than in national currency. Specific rules are needed to ensure that this option does not lead to any unjustified advantage for parties making or receiving payment.
- (68) Each measure under the CAP should be subject to monitoring and evaluation in order to improve its quality and demonstrate its achievements. In this context a list of indicators should be determined and the impact of the CAP policy assessed by the Commission in relation to policy objectives. The Commission should set up, **taking into account the need to avoid any undue administrative burden**, a framework for a common monitoring and evaluation ensuring among others that relevant data, including information from Member States is available on a timely manner. In so doing it should take into account the data needs and synergies between potential data sources. Moreover, the Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions: A Budget for Europe 2020 - Part II stated that the climate related expenditure in the overall Union budget should increase to at least 20%, with contribution from different policies. The Commission should therefore be able to assess the impact of the Union's support in the framework of the CAP to climate objectives.

(69) Union legislation concerning the protection of individuals with regard to the processing of personal data and on the free movement of such data, in particular Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data²⁷ and Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data²⁸ are applicable.

²⁷ OJ L 281, 23.11.1995, p. 31.

²⁸ OJ L 8, 12.1.2001, p. 1.

(70) ~~In its judgment in Joined Cases C-92/09 and 93/09²⁹ the Court of Justice of the European Union declared the relevant provisions in Regulation (EC) No 1290/2005 concerning the obligation of Member States to publish information on natural persons benefiting from the European agricultural funds invalid. Since it is in the interest of natural persons that their personal data are protected, and with a view to reconciling the different objectives underlying the obligation to publish information on the beneficiaries of funds, as provided for in Commission Regulation (EC) No 259/2008 laying down detailed rules for the application of Council Regulation (EC) No 1290/2005 as regards the publication of information on the beneficiaries of funds deriving from the European Agricultural Guarantee Fund (EAGF) and the European Agricultural Fund for Rural Development (EAFRD)³⁰, that Regulation was amended in order to lay down explicitly that this obligation does not apply to natural persons. The adoption by the European Parliament and the Council of new rules taking account of the objections expressed by the Court should be preceded by in-depth analysis and assessment in order to find the most appropriate way to reconcile the right to protection of personal data of the beneficiaries with the need for transparency. Pending that analysis and assessment, the current provisions on the publication of information on beneficiaries of the European agricultural funds should be maintained. In its judgment of 9 November 2010 in Joined Cases C-92/09 and 93/09* the Court of Justice of the European Union declared invalid point (8b) of Article 42 and Article 44a of Regulation (EC) No 1290/2005 and Commission Regulation (EC) No 259/2008 of 18 March 2008 laying down detailed rules for the application of Council Regulation (EC) No 1290/2005 as regards the publication of information on the beneficiaries of funds deriving from the European Agricultural Guarantee~~

Fund (EAGF) and the European Agricultural Fund for Rural Development (EAFRD)**
in so far as, with regard to natural persons benefiting from the European
agricultural funds, those provisions impose an obligation to publish personal data
relating to each beneficiary without drawing a distinction based on relevant
criteria such as the periods during which those persons have received such aid,
the frequency of such aid or the nature and amount thereof.

(70a) Following that judgment and pending the adoption of new rules taking account of
the objections expressed by the Court, Regulation (EC) No 259/2008 was
amended by Commission Implementing Regulation (EU) No 410/2011* in**
order to lay down explicitly that the obligation to publish the information on the
beneficiaries does not apply to natural persons.

(70b) In September 2011, the Commission organised a consultation of stakeholders
gathering representatives of professional agricultural or trade organisations,
representatives of the food industry and workers, as well as of the civil society
and Union institutions. In that framework different possible options have been
put forward in relation to the publication of data of natural persons benefiting
from Union agricultural funds and the respect of proportionality while making
public the concerned information. The stakeholders conference discussed the
potential need of the publication of the name of the natural persons in order to
respond to the objective of a better protection of the Union's financial interests,
to enhance transparency and to highlight the achievements of beneficiaries in
providing public goods while ensuring that it does not go beyond what is
necessary for achieving these legitimate aims.

(70c) In its judgment, the Court did not contest the legitimacy of the objective of reinforcing public control of the use of the money from the EAGF and the EAFRD. This objective should be analysed in the light of the new financial management and control framework to be applied as from 1 January 2014. In the context of this framework, the controls by the national administrations cannot be exhaustive and, in particular, for almost all schemes only a limited part of the population can be checked on-the-spot. An increase of the minimum control rates beyond the levels currently applied would, in the present context, put additional financial and administrative burden on the national administrations and would not be cost-effective. Moreover, the new framework provides that, under certain conditions, Member States may reduce the number of on-the-spot checks. Against this background, the publication of the name of the beneficiaries of the agricultural funds reinforces the public control of the use of those funds and, therefore, is a useful addition to the existing management and control framework that is necessary to ensure an adequate level of protection of the Union's financial interest. The national authorities, while applying the new rules simplifying the administrative process of the implementation of Union funds and reducing the administrative costs, should be enabled to rely on the public control, notably through its preventive and deterrent effect against fraud and any misuse of the public funds, by discouraging individual beneficiaries from irregular behaviour.

(70d) The objective of the public control of the use of the money from the EAGF and the EAFRD pursued with the publication of beneficiaries may be achieved only by ensuring a certain degree of information to be delivered to the knowledge of the public. That information should cover data on the identity of the beneficiary, the amount awarded and under which of the funds, the purpose and the nature of the measure concerned. The publication of that information should be made in such a way as to cause less interference with the beneficiaries' right to respect for their private life in general and to protection of their personal data in particular, rights recognised by Articles 7 and 8 of the Charter of Fundamental Rights of the European Union.

(70e) Publishing details about the measure entitling the farmer to receive aid, the nature and the purpose of the aid would provide concrete knowledge to the public on the subsidised activity and the purpose for which the subsidy was granted. This would contribute to the preventive and deterrent effect of the public control in the protection of the financial interest.

(70f) In order to observe a balance between the pursued objective of the public control of the use of the money from the EAGF and the EAFRD on the one hand and the beneficiaries' right to respect for their private life in general and to protection of their personal data on the other hand, the importance of the aid should be taken into account. Following the extensive analysis and the consultation with the stakeholders it appeared that in order to reinforce the effectiveness of such publication and to limit the interference with the beneficiaries' rights, a threshold should be set up as regards the amount of aid received below which the name of the beneficiary should not be published.

(70g) The threshold should reflect and be based on the level of the support schemes set up within the framework of the CAP. As the structures of the Member States' agricultural economies vary considerably and may differ significantly from the average Union farm structure, the application of different minimum thresholds that reflect the particular situation of the Member States should be allowed. Regulation xxx/xxx [DP] sets out a simple and specific scheme for small farms. Article 49 of that Regulation lays down criteria for calculating the amount of aid. For reasons of consistency, those criteria should also be used for fixing specific thresholds per Member State for the publication of the name of a beneficiary. Except for the name, below that specific threshold the publication should contain all the relevant information in order to allow the taxpayers to have an accurate image of the CAP.

(70h) In addition, making this information accessible to the public enhances transparency regarding the use of Union funds in the CAP, thus contributing to the visibility and better understanding of that policy. It enables citizens to participate more closely in the decision-making process and guarantees that the administration enjoys greater legitimacy and is more effective and more accountable to the citizen. It would also help local people to witness concrete examples of the provision of "public goods" by farming and underpin the legitimacy of state support for the agricultural sector. Furthermore, the personal accountability of the farmers for use of the public funds received will be reinforced.

(70i) Given the overriding weight of the pursued objective of the public control of the use of the money from the EAGF and the EAFRD, it is justified with regard to the principle of proportionality and the requirement of the protection of personal data to provide for the general publication of the relevant information as it does not go beyond what is necessary in a democratic society and for the protection of the Union's financial interest.

(70j) To comply with the data protection requirements, beneficiaries of the Funds should be informed of the publication of their data and that the data may be processed by auditing and investigating bodies of the Union and the Member States for the purpose of safeguarding the Union's financial interests before the publication takes place. Furthermore, the beneficiaries should be informed about their rights under Directive 95/46/EC and the procedures applicable for exercising these rights.

(70k) As a consequence, following an in-depth analysis and assessment of the most appropriate way to observe the right to protection of personal data of the beneficiaries, new rules on the publication of information on all the beneficiaries of agricultural Funds should be laid down.

(71) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission. ~~Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers³¹.~~

³¹ OJ L 55, 28.2.2011, p. 13.

(71a) The implementing powers relating to [...] ³² should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers ³³.

(72) The advisory procedure should be used for the adoption of certain implementing acts. With regard to the implementing acts involving the calculations of amounts by the Commission the advisory procedure enables the Commission to fully assume its responsibility of managing the budget and aims at increased efficiency, predictability and rapidity, taking into account the time limits and the budgetary procedures. With regard to the implementing acts within the framework of the payments made to the Member States and the operation of the clearance of accounts procedure, the advisory procedure enables the Commission to fully assume its responsibility of managing the budget and verifying the annual accounts of the national paying agencies with a view to accepting such accounts or, in the case of expenditure not effected in compliance with Union rules, to excluding such expenditure from Union financing. In other cases, the examination procedure should be used for the adoption of implementing acts.

(73) ~~The Commission should further be empowered to carry out certain administrative or management tasks, in particular concerning the setting of the net balance available for EAGF expenditure. To those empowerments Regulation (EU) No 182/2011 should not apply.~~ **The Commission should be empowered to adopt implementing acts concerning the setting of the net balance available for EAGF expenditure and making supplementary payments or deductions in the context of the procedure for monthly payments without applying Regulation (EU) No 182/2011.**

³² **To be completed once the list of such implementing acts is agreed.**

³³ OJ L 55, 28.2.2011, p. 13.

- (74) The transition from the provisions of the Regulations repealed by this Regulation to those in this Regulation could give rise to practical and specific difficulties. In order to deal with those possible difficulties, provision should be made for the Commission to adopt the necessary and duly justified measures.
- (75) As the programming period for the rural development programmes financed on the basis of this Regulation runs from 1 January 2014, this Regulation should be applicable as from that date. However, certain provisions related in particular to the financial management of the funds should apply as from an earlier date corresponding to the beginning of the financial year.

(76) The European Data Protection Supervisor was consulted and adopted an opinion³⁴.

³⁴ **Opinion of 14 December 2011, OJ C 35, 9.2.2012, p. 1. Recital to be adjusted to clarify the continued possibility to process data for other aid schemes.**

(77) Since the objectives of this Regulation cannot be achieved sufficiently by Member States given the links between it and the other instruments of the CAP, the limits on the financial resources of the Member States in an enlarged Union, and can therefore be better achieved at Union level through the multiannual guarantee of Union finance and by concentrating on its priorities, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5(3) of the Treaty on European Union. In accordance with the principle of proportionality as set out in Article 5(4) of that Treaty, this Regulation does not go beyond what is necessary in order to achieve that objective.]

Paying agencies and other bodies

Article 7

Accreditation and withdrawal of accreditation of paying agencies and coordinating bodies

1. Paying agencies shall be ~~dedicated~~ departments or bodies of the Member States responsible for the management and control of expenditure referred to in Article 4(1) and Article 5.

With the exception of payment, the execution of those tasks may be delegated.

2. Member States shall accredit as paying agencies departments or bodies which **have an administrative organisation and a system of internal control which provide sufficient guarantees that payments are legal and regular and properly accounted for. To this end, paying agencies shall comply with minimum conditions for the accreditation with regard to internal environment, control activities, information and communication and monitoring fulfil the accreditation criteria to be** laid down by the Commission pursuant to Article 8(a).

Each Member State shall, taking into account its constitutional provisions, restrict the number of its accredited paying agencies to **the minimum necessary to ensure that expenditure referred to in Article 4 and Article 5 is effected under sound administrative and accounting conditions** ~~one per Member State or one per region, where applicable. However, where paying agencies are established at regional level, Member States shall, in addition, accredit a paying agency at national level for aid schemes which, by their nature, have to be managed at national level.~~

3. By ~~{15 February}~~ of the year following the financial year concerned, the person in charge of the accredited paying agency shall draw up:
- (a) the annual accounts for the expenditure made in the execution of the tasks entrusted to their accredited paying agencies, accompanied by the requisite information for their clearance in accordance with Article 53;

In order to respond to changes in the agricultural legislation and to ensure the efficiency of the system of ex-post controls established by this Chapter, the Commission shall be empowered to adopt delegated acts in accordance with Article 111 establishing a list of measures which, due to their design and control requirements, are unsuited for additional ex-post controls by way of scrutiny of commercial documents and, therefore, shall not be subject to such scrutiny under this Chapter.**
3. For the purposes of this Chapter the following definitions shall apply:
 - (a) ‘commercial documents’ means all books, registers, vouchers and supporting documents, accounts, production and quality records, and correspondence relating to the undertaking’s business activity, as well as commercial data, in whatever form they may take, including electronically stored data, in so far as these documents or data relate directly or indirectly to the transactions referred to in paragraph 1;

By way of derogation, where the person to whom the act or omission is directly attributable has submitted an aid application or a payment claim in the calendar year concerned or the years concerned, the **administrative** penalty shall be applied on the basis of the total amounts of the payments referred to in Article 92 granted or to be granted to that person.

For the purpose of this paragraph, ‘transfer’ shall mean any type of transaction whereby the agricultural land ceases to be at the disposal of the transferor.

Where a Member State decides to make use of the option provided for in the first subparagraph, the competent authority shall, for a sample of beneficiaries, take in the following year the actions necessary to verify that the beneficiary has remedied the findings of non-compliance concerned. The finding and the obligation to take remedial action shall be notified to the beneficiary.

2. In the case of non compliance due to negligence, the percentage of reduction shall not exceed 5 % and, in the case of repeated non-compliance, 15 %.

In duly justified cases Member States may decide that no reduction shall be applied where, given its severity, extent and duration, a case of non-compliance is to be considered as minor. However, cases of non-compliance which constitute a direct risk to public or animal health shall not be considered as minor. The finding and the obligation to take remedial action shall be notified to the beneficiary.

3. In the case of **serious intentional** non-compliance, the percentage of reduction shall, in principle, not be less than 20 % and, **in accordance with the principle of proportionality**, may go as far as total exclusion from one or several aid schemes and apply for one or more calendar years.

Use of the euro

Article 105

General principles

1. The amounts given in the Commission decisions adopting rural development programmes, the amounts of commitments and payments by the Commission and the amounts of expenditure attested or certified and amounts in declarations of expenditure by the Member States shall be expressed and paid in euro.
2. The prices and amounts fixed in the sectoral agricultural legislation shall be expressed in euro.

They shall be granted or collected in euro in the Member States which have adopted the euro and in the national currency in the Member States which have not.

Article 106

Exchange rate and operative event

1. The prices and amounts referred to in Article 105(2) shall be converted in the Member States which have not adopted the euro into the national currency by means of an exchange rate.

2. The operative event for the exchange rate shall be:
 - (a) the completion of customs import or export formalities in the case of amounts collected or granted in trade with third countries;
 - (b) the event whereby the economic objective of the operation is attained in all other cases.

3. Where a direct payment as provided for in Regulation (EU) No DP/xxx is made to a beneficiary in a currency other than the euro, Member States shall convert the amount of aid expressed in euro into the national currency on the basis of the most recent exchange rate set by the European Central Bank prior to 1 October of the year for which the aid is granted.

4. As regards EAGF, when drawing up their declarations of expenditure, Member States which have not adopted the euro shall apply the same exchange rate as that which they used to make payments to beneficiaries or receive revenue, in accordance with the provisions of this Chapter.

5. In order to specify the operative event referred to in paragraph 2 or to fix it for reasons peculiar to the market organisation or the amount in question, the Commission shall be empowered to adopt delegated acts in accordance with Article 111 containing rules on those operative events and the exchange rate to be used. The specific operative event shall be determined taking account of the following criteria:

 - (b) similarity of the operative events for analogous operations carried out under the market organisation;
 - (c) coherence in the operative events for the various prices and amounts relating to the market organisation.
 - (d) practicability and effectiveness of checks on the application of suitable exchange rates.
6. In order to avoid the application by the Member States which have not adopted the euro of different exchange rates in accounts of revenue received or aid paid to beneficiaries in a currency other than the euro, on the one hand, and in the establishment of the declaration of expenditure drawn up by the paying agency, on the other, the Commission shall be empowered to adopt delegated acts in accordance with Article 111 containing rules on the exchange rate applicable when declarations of expenditure are drawn up and public storage operations recorded in the accounts of the paying agency.

Article 107

Safeguard measures and derogations

1. The Commission may, by means of implementing acts, adopt measures in order to safeguard the application of Union legislation if exceptional monetary practices related to national currency are likely to jeopardise it. Article 108

Use of the euro by non-euro Member States

1. If a Member State which has not adopted the euro decides to pay the expenditure resulting from sectoral agricultural legislation in euro rather than in its national currency, the Member State shall take measures to ensure that the use of the euro does not provide a systematic advantage compared with the use of national currency.
2. The Member State shall notify the Commission of the measures planned before they come into effect. The measures may not take effect until the Commission has notified its agreement thereto.
