No. prev. doc.:	5138/23 REV3 8350/23
Subject:	Amended Proposal for a regulation of the European Parliament and the Council on the implementation of the Single European Sky (Recast) <ul style="list-style-type: none">• Preliminary agreement on Chapter IV

Delegations will find in the Annex the four-column document on Chapter IV of the *Amended Proposal for a regulation on the implementation of the Single European Sky (Recast)*, including the preliminary agreement with the European Parliament.

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
376.	CHAPTER IV - NETWORK MANAGEMENT	CHAPTER IV - NETWORK MANAGEMENT	CHAPTER IV - NETWORK MANAGEMENT	CHAPTER IV - NETWORK MANAGEMENT
377.	Article 26 - Network functions	Article 26 - Network functions	Article 26 - Network functions	Article 26 - Network functions
378.	1. The air traffic management network functions shall ensure the sustainable and efficient use of the airspace and of scarce resources. They shall also ensure that airspace users can operate environmentally optimal trajectories, while allowing maximum access to airspace and air navigation services. Those network functions, enumerated in paragraphs 2 and 3, shall support the achievement of the Union-wide performance targets and shall be based on operational requirements.	1. The air traffic management network functions shall ensure the sustainable and efficient use of the airspace and of scarce resources. They shall also ensure that airspace users can operate climate-optimised flight trajectories , while allowing maximum access to airspace and air navigation services and avoiding congestion . Those network functions, enumerated in paragraphs 2 and 3, shall support the achievement of the Union-wide performance targets including those regarding climate and the environment and shall be based on	1. The air traffic management network functions shall contribute to the sustainable and efficient use of the airspace and of scarce resources. They shall also ensure that airspace users can operate environmentally [...] optimised trajectories and profiles , while allowing [...] fair and reasonable access to airspace and air navigation services and minimizing congestion . Those network functions, enumerated in paragraph 2[...], shall support seamless access to air navigation services by airspace users as well as the achievement of the	378 Provisional agreement: 1. The air traffic management network functions shall lead towards the sustainable and efficient use of the airspace and of scarce resources. They shall also ensure that airspace users can operate environmentally- [...] and climate-optimised flight trajectories and profiles, while allowing [...] fair and reasonable access to airspace and air navigation services and minimizing congestion. Those network functions, enumerated in paragraphs 2 [...], shall support seamless access to air navigation

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
		operational requirements.	[...]performance targets while supporting initiatives at regional and local level and shall be based on operational requirements . They shall be without prejudice to Member States' sovereignty over their airspace and to their responsibilities relating to public order, public security and defence matters.	<p>services by airspace users as well as the achievement of the Union-wide performance targets, referred to in Article 10(2)(a) and shall be based on operational requirements. The implementation of the network functions shall respect the provisions of Article 1, and shall be without prejudice to Member States' sovereignty over their airspace and to their requirements relating to public order, public security and defence matters.</p> <p>+ <i>New Recital:</i> Various climate and environmental elements should also be taken into account when optimising flight trajectories and flight profiles, in order to reduce emissions and air pollutants. A methodology on how to take into account those various elements and their interdependencies</p>

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
				should be developed in particular when designing performance indicators.
379.			<p>1a. Without prejudice in particular to Articles 44 and 46 of Regulation (EU) 2018/1139 and the delegated and implementing acts adopted on the basis thereof, Member States shall retain the complete and exclusive competence for the design and management of their airspace structures and of their route network. In this regard, Member States shall take into account environmental aspects, air traffic demands, seasonality and complexity of air traffic and of performance plans. Before deciding on those aspects, they shall consult airspace users concerned or groups representing such airspace users and military</p>	<p>379</p> <p>Provisional agreement:</p> <p>[...]</p> <p><i>See line 423</i></p>

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
			authorities as appropriate.	
380.	2. The network functions referred to in paragraph 1 include the following:		2. The network functions referred to in paragraph 1 [...] are the following:	380 Provisional agreement: 2. The network functions referred to in paragraph 1 [...] are the following:
381.	(a) the design and management of the European airspace structures;	(a) the design and management of the European airspace structures taking in account, among other targets, those regarding climate and the environment;	(a) [...] design [...] of [...] an airspace structure offering the required level of safety, capacity, flexibility, responsiveness, environmental performance and seamless provision of expeditious air navigation services, with due regard to security and defence needs;	381 Provisional agreement: (a) [...] design and utilisation of [...] airspace structures across the EU with a view to offering the required level of safety, capacity, flexibility, responsiveness, environmental performance, with due regard to security and defence needs and without prejudice to the responsibilities of Member States with regard to routes and airspace structures for the airspace under their responsibility. <i>New definitions:</i>

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
				<p>‘design of airspace structures’ means a process that ensures the development and implementation of advanced navigational capabilities and techniques, improved route networks and associated sectorisation, optimised airspace structures and capacity-enhancing ATM procedures</p> <p>‘utilisation of airspace structures’ means the way that airspace structures are operationally used, which is to be understood as different from airspace management as defined in Article 2 paragraph 12.</p>
382.	(b) air traffic flow management;	(b) air traffic flow management, including, including climate-optimised flight trajectories ;	(b) [...] ATFM;	382 Provisional agreement: (b) [...] ATFM;

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
383.	(c) the coordination of scarce resources within aviation frequency bands used by general air traffic, in particular radio frequencies as well as coordination of radar transponder codes.		(c) the coordination of scarce resources within aviation frequency bands used by general air traffic, in particular radio frequencies as well as coordination of radar transponder codes.	383 Provisional agreement: (c) the coordination of scarce resources within aviation frequency bands used by general air traffic, in particular radio frequencies as well as coordination of radar transponder codes.
384.	3. The network functions referred to in paragraph 1 also include the following:		[...]	384 Provisional agreement: [...]
385.	(a) optimisation of airspace design for the network and facilitation of delegation of air traffic services provision through co-operation with the air traffic service providers and Member State authorities;	(a) optimisation of airspace design and airspace structures for the network and facilitation of delegation of air traffic services provision through co-operation with the air traffic service providers and Member State authorities;	[...]	385 Provisional agreement: (d) [...] facilitation of delegation of air traffic services provision through co-operation with the air traffic service providers and Member State authorities;
386.	(b) management of the delivery of air traffic control capacity in the network as set out in the		(d) delivery of air traffic control capacity in the network in accordance with	386 Provisional agreement: (e) [...] delivery of air traffic

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
	binding Network Operations Plan (NOP);		commitments set out in the NOP;	control capacity in the network [...] in accordance with commitments set out in the NOP, view a view to fulfil network operational performance requirements and local reference values;
387.	(c) function for coordination and support in case of network crisis;		(e) management of network crisis.	387 Provisional agreement: (f) management of network crisis;
388.			(f) ATFM delay attribution;	388 Provisional agreement: (g) ATFM delay attribution;
389.	(d) air traffic flow and capacity management;	(d) air traffic flow and capacity management, in order to fulfil key performance targets;	[...]	389 Provisional agreement: [...]
390.	(e) the management of the planning, monitoring and coordination of implementation activities of the deployment of infrastructure in the European ATM network, in accordance with the European ATM Master Plan, taking into account		(g) [...] planning and implementation activities of the deployment of infrastructure in the European ATM network, in accordance with the European ATM Master Plan .	390 Provisional agreement: (h) the management of the planning, monitoring and coordination of implementation activities of the deployment of infrastructure in the European ATM network, in accordance

	operational needs and associated operational procedures;			with the European ATM Master Plan, taking into account operational needs and associated operational procedures;
391.	(f) the monitoring of the functioning of the European ATM network infrastructure.		[...]	391 Provisional agreement: (i) the monitoring of the functioning of the European ATM network infrastructure.
392.			3. [...] Member States and all relevant operational stakeholders shall execute network functions [...]with the support of the Network Manager which shall execute the tasks specified in Article 27(4).	392 Provisional agreement: 3. Member States and all relevant operational stakeholders shall execute network functions with the contribution of the Network Manager as defined in Article 27 (4) and the implementing act referred to in Article 27 (6a).
393.	4. The functions listed in paragraphs 2 and 3 shall not involve the adoption of binding measures of a general scope or the exercise of		4. The measures taken for the implementation of the functions listed in paragraphs 2 [...] shall be of purely operational or technical nature and shall not	393 Provisional agreement: 4. The functions listed in paragraphs 2 [...] shall not

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
	political discretion. They shall be performed in coordination with military authorities in accordance with agreed procedures concerning the flexible use of airspace.		involve the [...] exercise of political discretion. They shall take into account of the specificities of the Member States and of proposals established at local level. They shall be performed in coordination with civil and military authorities, in particular in accordance with agreed procedures concerning the flexible use of airspace.	involve the adoption of binding measures of a general scope or the exercise of political discretion. They shall be performed in coordination with civil and military authorities, in particular in accordance with agreed procedures concerning the flexible use of airspace. The measures taken for the implementation of the functions listed in paragraph 2 shall be of purely operational or technical nature and shall take into account the specificities of the Member States.
394.	5. The Commission shall be empowered to adopt delegated acts in accordance with Article 36 to amend this Regulation in order to add functions to the ones listed in paragraphs 2 and 3, where necessary for the functioning and performance of the network.	5. The Commission shall be empowered to adopt delegated acts in accordance with Article 36 to amend this Regulation in order to add functions to the ones listed in paragraphs 2 and 3, where necessary for the functioning and performance of the network. Such new functions shall not extend	[...]	394 Provisional agreement: [...]

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
		the existing scope of Union competence and shall be without prejudice to the prerogatives and responsibilities of the Member States.		
394a				394a Provisional agreement: 5. In order to ensure the uniform implementation of and compliance with the provisions referred to in this Article, the Commission shall, with a view to achieving the objectives set out in Article 1, adopt implementing acts, in accordance with the examination procedure referred to in Article 37(3), laying down detailed rules regarding the execution of the network functions, including on crisis management.

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
395.	Article 27 - The Network Manager	Article 27 - The Network Manager	Article 27 - The Network Manager	
396.	1. In order to achieve the objectives referred to in Article 26, the Commission, supported by the Agency where relevant, shall ensure that the Network Manager contributes to the execution of the network functions set out in Article 26, by carrying out the tasks referred to in paragraph 4.	1. In order to achieve the objectives referred to in Article 26, the Commission, supported by the Agency in accordance with Regulation (EU) 2018/1139 , shall ensure that the Network Manager contributes to the execution of the network functions set out in Article 26, by carrying out the tasks referred to in paragraph 4.	1. In order to achieve the objectives referred to in Article 26 (1) , the Commission, supported by the Agency in accordance with Regulation (EU) 2018/1139 , [...] shall ensure that the Network Manager contributes to the execution of the network functions set out in Article 26 (2) , [...] in accordance with this Article. The Commission shall supervise the proper execution of its tasks by the Network Manager.	396 Provisional agreement: 1. In order to achieve the objectives referred to in Article 26 (1), the Commission, supported by the Agency [...] in accordance with Regulation (EU) 2018/1139, shall ensure that the Network Manager contributes to the execution of the network functions set out in Article 26 (2), by carrying out the tasks referred to in paragraph 4. The Commission shall supervise the proper execution of the tasks of the Network Manager.
397.	2. The Commission may appoint an impartial and competent body to carry out the tasks of the Network Manager.	2. The Commission shall appoint an independent , impartial and competent body to carry out the tasks of the Network Manager.	2. The Commission [...] shall , appoint EUROCONTROL or another impartial and competent body to carry out the tasks of the Network	397 Provisional agreement: 2. The Commission [...] shall appoint an independent,

	Commission proposal	EP mandate	Council mandate	Outcome of the Trilogue 10 May
			Manager.	impartial and competent body to carry out the tasks of the Network Manager. + <i>Recital:</i> Commission appointed Eurocontrol, in 2011 and 2019 as Network Manager; in order to ensure business continuity in the performance of the ATM network functions, the mandate could be renewed subject to the conditions laid down in this Regulation.
397.a	To this end, the Commission shall adopt an implementing act in accordance with the examination procedure referred to in Article 37(3).		To this end, the Commission shall adopt an implementing act in accordance with the examination procedure referred to in Article 37(3),	397a Provisional agreement: 2a.
