| Subject:        | Implementation of the provisions on information exchange of the "Prüm Decisions"<br>- overview of documents and procedures<br>- overview of declarations<br>- state of play of implementation of automated data exchange |

#### 1. Introduction and content of the document

In accordance with Article 18(2) of Decision 2008/616/JHA, this document is prepared and kept up to date by the **General Secretariat of the Council (GSC)**, and sets out exclusively factual information provided by the Member States through declarations or notifications made pursuant to the "Prüm Decisions".

The provisions of the "Prüm Decisions"<sup>1</sup> relating to information exchange concern:

- supply of information relating to major events and in order to prevent terrorist offences;

---

<sup>1</sup> Council Decision 2008/615/JHA and 2008/616/JHA, OJ L 210 of 6.8.2008, p. 1 and 12.

- automated searching of DNA profiles, dactyloscopic data and vehicle registration data (VRD);
- data protection.

Member States had to comply with the first and last categories of provisions by 26 August 2009 and with the automated searching provisions by 26 August 2011 at the latest. Next to the technical implementation, Member States have to fulfil a number of formal requirements. The current document aims to provide:

- a brief overview of the formalities to be complied with, the related documents and procedures;
- an overview of the declarations made by Member States pursuant to the relevant provisions of the Prüm Decisions;
- the state of play of implementation of the automated data exchange of DNA, fingerprint and vehicle registration data (VRD). Member States are invited to regularly check the information on the state of play at national level set out in the annex to this document to ensure a reliable overview of the implementation process.

## **2. Documents and procedures**

### **2.1 Declarations / notifications**

Declarations and notifications to be provided by Member States concern:

#### **➤ National Contact Points (NCP):**

- for the automated searching of DNA profiles (Article 6(1) of Decision 2008/615/JHA)
- for the automated searching of dactyloscopic data (Article 11(1) of Decision 2008/615/JHA)
- for the automated searching of VRD (Article 12(2) of Decision 2008/615/JHA)
- for exchange of information on major events (Article 15 of Decision 2008/615/JHA)
- for exchange of information to prevent terrorist offences (Article 16(3) of Decision 2008/615/JHA)
- of the national data protection authorities (Article 19 of Decision 2008/616/JHA).

This information should be provided to the GSC **by mail** ([prum@consilium.europa.eu](mailto:prum@consilium.europa.eu)). Annex 1 indicates which Member States have already provided this information:

- The NCP details are set out in the addendum to the Manual on Law Enforcement Information Exchange, which is regularly updated by the GSC.
- The contact details of the national data protection authorities are set out in annex 2 bis.

➤ **List of national DNA analysis files**

Pursuant to Article 2(3) of Decision 2008/615/JHA, each Member State must inform the GSC of the national DNA analysis files to which Articles 2 and 6 apply and the conditions for automated searching as referred to in Article 3(1).

The information must be sent to the GSC **by an official letter of the Permanent Representation**.

Annex 1 below indicates which Member States have submitted this declaration and in which official Council documents these are issued. As these are public documents, they can be obtained from the Council website.

Furthermore, annex 3 bis below sets out a comparative overview of DNA analysis files to which Member States give each other access for the investigation of criminal offences.

➤ **Maximum search capacities for dactyloscopic data**

Pursuant to Article 13 of Decision 2008/616/JHA, each Member State must inform the GSC **by mail** ([prum@consilium.europa.eu](mailto:prum@consilium.europa.eu)) of the maximum search capacities per day for dactyloscopic data of identified persons and for dactyloscopic data of persons not yet identified.

The tables in annex 4 ter below compile this information and set out the mutually agreed search capacities. The sum at the end of each vertical column indicates the maximum search capacity for each Member State.

### ➤ **Readiness to apply**

Pursuant to Article 36(2) of Decision 2008/615/JHA, Member States shall notify to the GSC and the Commission the legal implementation of the "Prüm Decisions" and their readiness to apply the Decision immediately in its relations with Member States which have given the same notification.

This notification must be sent to the GSC **by an official letter of the Permanent Representation**.

Annex 1 below indicates which Member States have submitted this declaration and in which official Council documents these are issued. As these are public documents, they can be obtained from the Council website.

### ➤ **Data protection requirements**

Prior to any processing of personal data and to evaluating the implementation of chapter 2 provisions, Member States have to guarantee the level of data protection and comply with all standards and procedures required by Chapter 6 of Council Decision 2008/615/JHA.

To this end, they have to fill in the questionnaire set out in 6661/1/09 REV 1 ADD 1 REV 1 CRIMORG 25 ENFOPOL 39 and send it to [prum@consilium.europa.eu](mailto:prum@consilium.europa.eu).

Annex 2 below indicates which Member States have replied to the data protection questionnaire and in which official Council documents these are issued.

## **2.2 Implementation of the automated data exchanges**

Member States should regularly report on the national state of play of the implementation (legal and technical) of the automated data exchanges.

To that end, they should update the tables set out in annex 3 regarding DNA, annex 4 regarding fingerprints and annex 5 regarding VRD by mail to [prum@consilium.europa.eu](mailto:prum@consilium.europa.eu).

Member States shall make sure that they implement the technical specifications as set out in Decision 2008/616/JHA (OJ L OJ L 210 of 6.8.2008, p. 12), notably by:

- ensuring that the relevant national databases are made available,
- using TESTA II as the network for the data exchange,
- for the VRD exchange, using a version of the Eucaris software.

Member States that are already operational should act as “supporting partners” to Member States that are not yet operational with a view to:

- organising the technical support,
- helping the respective MS to meet the technical requirements,
- carrying out the pilot run,
- providing at least one expert to lead and/or participate in evaluation visits.

The choice of a supporting partner is done on the basis of bilateral contacts. Member States requiring the contact details from relevant experts in the other Member States can consult the General Secretariat of the Council.

For VRD, in case of technical problems, IT management, etc., contact with Eucaris can be made via [secretariat@eucaris.net](mailto:secretariat@eucaris.net).

### 2.3 Evaluation procedure

Before a Member State can start the operational automated searching of any of the categories, it should pass an evaluation procedure<sup>2</sup>, the details of which are set out in 6661/2/09 REV 2 CRIMORG 25 ENFOPOL 39<sup>3</sup> as amended by 10149/10 JAI 463 CRIMORG 103 ENFOPOL 145 ENFOCUSTOM 43.

Detailed descriptions of the evaluation procedures are set out for:

- DNA data in 11899/2/10 REV 2 DAPIX 8 CRIMORG 141 ENFOPOL 203 + COR 1
- dactyloscopic data in 11898/2/10 REV 2 DAPIX 7 CRIMORG 140 ENFOPOL 202 + COR 1
- VRD in 6661/1/09 REV 1 ADD 5 REV 2.

In summary, the procedure consists of a questionnaire, a pilot run and an evaluation visit.

The data protection questionnaire should be filled in before any evaluation procedure starts (cf. annex 2).

The evaluation procedure is started when the Member State fills in the questionnaire related to the data category for which it wishes to start the implementation and sends this to the GSC ([prum@consilium.europa.eu](mailto:prum@consilium.europa.eu)).

The questionnaires are set out in the following documents:

- DNA: 6661/1/09 REV 1 ADD 2 REV 2
- dactyloscopic data: 6661/09 ADD 3 REV 1
- VRD: 6661/1/09 REV 1 ADD 4 REV 1

---

<sup>2</sup> Article 20 of Council Decision 2008/616/JHA.

<sup>3</sup> This evaluation procedure applies as from 13 October 2009 to any Member State wishing to start a data exchange pursuant to the Prüm Decisions (cf. 13919/1/09 REV 1 CRIMORG 136 ENFOPOL 233) without prejudice to Article 25(3) of Council Decision 2008/615/JHA. Until then, Member States implemented the Prüm exchange of DNA, dactyloscopic and VRD pursuant to the Prüm Treaty. The latest decision in this regard ("7th Decision of the Committee of Ministers") is of 9 October 2009.

Annexes 3 to 5 reflect which Member States have replied to which **questionnaires** and in which official Council documents these replies are issued.

By the start of the evaluation, all the relevant declarations and notifications must also have been sent (cf. point 2.1 and annex 1 of current document).

The **pilot run** and **evaluation visit** must be organised in close cooperation with the supporting Member State and the lead expert. Information thereon must be sent regularly to the GSC ([prum@consilium.europa.eu](mailto:prum@consilium.europa.eu)) with a view to updating annexes 3 to 5 to the current document so that a general planning and overview can be kept.

Once the pilot run and evaluation visit have been done, the **evaluation report** shall be submitted to the Council so that the Council, after having consulted the European Parliament, can adopt the Implementing Decision that the Member State concerned can start the operational data exchange. This will be indicated in the annexes 3 to 5, including the reference to the relevant Council document(s) and to the Official Journal in which the Decision is published.

### **3. Obligations for operational Member States**

As soon as Member States become operational, they should participate in the work as supporting partner for non-operational Member States. In this context, they should send the name of (an) expert(s) who can participate in the evaluation visits to the General Secretariat of the Council ([prum@consilium.europa.eu](mailto:prum@consilium.europa.eu)).

Member States shall compile statistics on the results of the automated data exchange in accordance with the agreed models for DNA (14103/1/11 REV 1 JAI 619 DAPIX 114 CRIMORG 145 ENFOPOL 300 for DNA database statistics and 14383/12 DAPIX 118 for DNA match statistics), dactyloscopic data (16891/11 JAI 830 DAPIX 147 CRIMORG 202 ENFOPOL 400) and VRD (13837/10 JAI 755 DAPIX 18 CRIMORG 159 ENFOPOL 251 ENFOCUSTOM 77). Member States shall forward the statistics and further information on the administrative, technical and financial implementation ([prum@consilium.europa.eu](mailto:prum@consilium.europa.eu)).

#### **4. Prüm Agreements with Norway and Iceland, Switzerland, Liechtenstein**

The Council Decisions<sup>4</sup> on the signing of the 'Prüm Agreements' between the EU, on the one hand, and Iceland and Norway, Switzerland, and Liechtenstein, on the other hand, provide as well for a provisional application the Agreements. In accordance with Article 8(3) of the Agreement, Article 5(1) and (2) apply on a provisional basis as from the time of the signature of the Agreement. They refer to amendments regarding the 'Prüm Decisions' and, in the case of Switzerland and Liechtenstein, the 'Forensic Framework Decision'. Where it is necessary to amend such provisions, the European Union shall inform these States at the earliest possible occasion and collect any comments they may have.

Furthermore, the contracting parties declared at the occasion of the signature of the Agreements, that in order to facilitate the setting up of bilateral connections for online access to DNA, FP and VRD databases, these States can contact at any time *a.o.* the Presidency of the Council to obtain information, clarification or any other support. Experts of these States may be invited to attend meetings where Member States' experts discuss within the Council technical aspects which are directly relevant to the proper application and development of the 'Prüm Decisions'.

As to getting online access to the above databases, the evaluation procedure applies the same way to these States as it applies to the Member States.

#### **5. Accreditation of forensic service providers carrying out laboratory activities**

Pursuant to Article 7(4) of Decision 2008/616/JHA, Member States shall take the necessary measures to guarantee the integrity of DNA profiles made available or sent for comparison to other Member States and to ensure that these measures comply with international standards, such as EN ISO/IEC 17025. In accordance with the 'Forensic Decision'<sup>5</sup>, forensic service providers carrying out laboratory activities are to be accredited by a national accreditation body as complying with EN ISO/IEC 17025. The extent to which Member States have implemented the 'Forensic Decision' is indicated in Annex 3 and 4 respectively.

<sup>41</sup> Registered vehicles export and vehicles crossing Latvia in transit

<sup>42</sup> No vehicle data, only owner (vehicle trader). Number plates now valid only in Lithuania.

<sup>43</sup> The same licence plates are used for transit/transfer purposes.

<sup>44</sup> Hungarian Defence Forces

<sup>45</sup> Vehicles of diplomatic missions, international organisations, their members and family members having exemptions based on International contracts

<sup>46</sup> The above mentioned organisations' administrative, technical and assistant attendants and their family, having no Hungarian citizenship

<sup>47</sup> Vehicles of foreign owners operated permanently in Hungary

<sup>48</sup> Vehicles of the Police and vehicles of the Hungarian Customs and Finance Guard and the bodies of the law enforcement

<sup>49</sup> Vehicle registered as regular plates, but license plate colour is different from regular (yellow plate, black characters)

<sup>50</sup> Vehicle registered as museum objects

<sup>51</sup> Including vehicles for special transport (huge dimensions, extremely heavy cargo, etc.). Vehicle dimensions exceed legal limits, but vehicle is (by exception) allowed on the public road). Including high speed e-bikes, i.e. two wheeled vehicles with electric pedal, offering support up to 45 km/h

<sup>52</sup> For NATO vehicles, issued on the NATO base in Brunssum

<sup>53</sup> Are registered as regular plates, however, license plate colour is different from regular (blue plate, black characters).

<sup>54</sup> Are registered as regular plates, with a specific syntax, e.g. plate number starts with 'DE'

<sup>55</sup> Applicable to company cars. As soon as a vehicle is approved for use on the public road, a preliminary license plate can be issued which grants permission to drive the vehicle immediately, before official registration. The vehicle holder is registered through the official registration process.

<sup>56</sup> AT seems to be declaring the different plates that it has in general, not the ones for which it will make VRD available in the framework of 2008/615/JHA

<sup>57</sup> including foreign trailers that are towed by an Austrian vehicle

<sup>58</sup> Vehicle traders and repairers

<sup>59</sup> 1) Registrations of limited duration (transfer in foreign countries); 2) vehicle transfers

<sup>60</sup> Temporary registrations (registrations limited to a maximum of one year for individuals who have no permanent residence in Austria or companies that are not registered in Austria), they are equivalent to the "customs plates" issued in other countries.

<sup>61</sup> Only tractors

<sup>62</sup> Taxis have the same registration as any cars

<sup>63</sup> Those vehicles have a license plate and they are registered with the same structure as regular registration vehicles.

<sup>64</sup> The vehicles which belong to the Public Security Police have a license plate and they are registered with the same structure as regular registration vehicles.

<sup>65</sup> Those vehicles have a license plate and they are registered with the same structure as regular registration vehicles.

<sup>66</sup> Those vehicles have a license plate and they are registered with the same structure as regular registration vehicles.

<sup>67</sup> Microcars and mopeds are not being registered

<sup>68</sup> Finland will make available all kind of license plates/vehicle types that are found in Finnish vehicle register, e.g. regular, diplomatic, export, transit/transfer mark and temporary plates. A part of military vehicles don't exist in Finnish vehicle register and they are not available in Prüm VRD inquiries. In addition, please note that Vehicle Administration don't have data concerning Åland vehicle register. Åland have its own vehicle register

<sup>69</sup> Including police and historical vehicles.

<sup>70</sup> These vehicles with both an ordinary registration number and a personal number

<sup>71</sup> These vehicles with both an ordinary registration number and a diplomatic number

<sup>72</sup> Could be available for EUCARIS if it becomes necessary in the future

<sup>73</sup> 1) For export of new vehicles: valid period is 12 month and export out of Sweden at latest in 3 months

2) For export of used vehicles: valid period is 1 month

3) For import for permanent registration in Sweden: valid period is 3 months

4) For import of test vehicles which the manufacturer will use temporarily and for a chosen test period in Sweden: valid period is 3, 6, 9 or 12 months.
