For transfers to Europol, the purpose or purposes for such transfer shall be specified in line with the specific purpose or purposes of processing set out in the Europol Regulation. The Contracting Parties may decide by common accord that the personal data transferred may be processed for a supplementary, compatible and specific purpose, which shall be specified at the moment of such common accord and shall fall within the scope of paragraph 1.

ARTICLE 4

General data protection principles

1. Each Contracting Party shall provide for personal data exchanged under this Agreement to be:
 - (a) processed fairly, lawfully, in line with the transparency requirements set out in Article 29(1), and only for the purpose or purposes for which they have been transferred in accordance with Article 3;
 - (b) adequate, relevant and limited to what is necessary in relation to the purpose or purposes for which they are processed;
 - (c) accurate and kept up to date; each Contracting Party shall provide that its competent authorities take every reasonable step to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are rectified or erased without undue delay;
 - (d) kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed;
 - (e) processed in a manner that ensures appropriate security of the personal data.

2. The transferring competent authority, at the moment of transferring personal data, may indicate any restriction on access thereto or the use to be made thereof, in general or specific terms, including as regards its onward transfer, erasure or destruction after a certain period of time, or the further processing of it. Where the need for such restrictions becomes apparent after the information has been provided, the transferring competent authority shall inform the receiving authority accordingly.
3. Each Contracting Party shall ensure that the receiving competent authority complies with any restriction on access or further use of the personal data indicated by the transferring competent authority as described in paragraph 2.
4. Each Contracting Party shall provide that its competent authorities implement appropriate technical and organisational measures in such a way as to be able to demonstrate that the processing will comply with this Agreement and the rights of the data subjects concerned are protected.
5. Each Contracting Party shall ensure that its competent authorities do not transfer personal data which have been obtained in a manifest violation of human rights recognised by the norms of international law binding on the Contracting Parties. Each Contracting Party shall ensure that the personal data received are not used to request, hand down or execute the death penalty or any form of torture or other cruel, inhuman or degrading treatment or punishment.
6. Each Contracting Party shall ensure that a record is kept of all transfers of personal data under this Agreement and of the purpose or purposes for those transfers.

ARTICLE 5

Special categories of personal data and different categories of data subjects

1. The transfer and further processing of personal data in respect of victims of a criminal offence, witnesses or other persons who can provide information concerning criminal offences, or in respect of persons under the age of 18, shall be prohibited unless such transfer is strictly necessary and proportionate in individual cases for preventing or combating a criminal offence.
2. The transfer and further processing of personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, genetic data, biometric data for the purpose of uniquely identifying a natural person, or data concerning health, or data concerning a natural person's sex life or sexual orientation shall be allowed only where strictly necessary and proportionate in individual cases for preventing or combating a criminal offence, and if those data, except biometric data, supplement other personal data.
3. The Contracting Parties shall ensure that the processing of personal data under paragraphs 1 and 2 of this Article is subject to appropriate safeguards guarding against the specific risks involved, including restrictions on access, measures for data security within the meaning of Article 19 and limitations on onward transfers under Article 7.

ARTICLE 6

Automated processing of personal data

Decisions based solely on automated processing of the personal data exchanged, including profiling, which may produce an adverse legal effect on the data subject or significantly affect him or her, shall be prohibited, unless authorised by law for preventing or combating a criminal offence and with appropriate safeguards for the rights and freedoms of the data subject, including at least the right to obtain human intervention.

ARTICLE 7

Onward transfer of the personal data received

1. Brazil shall ensure that its competent authorities transfer personal data received under this Agreement to other authorities of Brazil only if:
 - (a) Europol has given its prior explicit authorisation;
 - (b) the purpose or purposes of the onward transfer is the same as the original purpose or purposes of the transfer by Europol; and
 - (c) the onward transfer is subject to the same conditions and safeguards as those applying to the original transfer.

Without prejudice to Article 4(2), the requirement set out in point (a) of the first subparagraph of this paragraph does not need to be fulfilled when the receiving authority is itself a competent authority of Brazil.

2. The Union shall ensure that Europol transfers personal data received under this Agreement to authorities in the Union other than those listed in Annex III only if:

- (a) Brazil has given its prior explicit authorisation;
- (b) the purpose or purposes of the onward transfer are the same as the original purpose or purposes of the transfer by Brazil; and
- (c) the onward transfer is subject to the same conditions and safeguards as those applying to the original transfer.

Without prejudice to Article 4(2), the requirement set out in point (a) of the first subparagraph of this paragraph does not need to be fulfilled when the receiving authority is one of the bodies or authorities listed in Annex III.

3. Brazil shall ensure that onward transfers of personal data received by its competent authorities under this Agreement to the authorities of a third country or to an international organisation are prohibited, unless the following conditions are fulfilled:

- (a) Europol has given its prior explicit authorisation;

- (b) the purpose or purposes of the onward transfer is the same as the original purpose or purposes of the transfer by Europol; and
- (c) the onward transfer is subject to the same conditions and safeguards as those applying to the original transfer.

4. Europol may only grant its authorisation under paragraph 3, point (a), for an onward transfer to the authority of a third country or to an international organisation if and insofar as an adequacy decision, an international agreement providing appropriate safeguards with respect to the protection of the right to privacy and fundamental rights and freedoms of individuals, a cooperation agreement or any other legal ground for transfers of personal data within the meaning of the Europol Regulation covering the onward transfer is in place.

5. The Union shall ensure that onward transfers of personal data received by Europol under this Agreement to authorities of third countries or an international organisation are prohibited, unless the following conditions are fulfilled:

- (a) Brazil has given its prior explicit authorisation;
- (b) the purpose or purposes of the onward transfer is the same as the original purpose of the transfer by Brazil; and
- (c) the onward transfer is subject to the same conditions and safeguards as those applying to the original transfer.

ARTICLE 8

Right of access

1. The Contracting Parties shall ensure that the data subject has the right, at reasonable intervals, to obtain information on whether personal data relating to him or her are processed under this Agreement, and when that is the case, access to at least the following information:

- (a) confirmation as to whether or not data related to him or her are being processed;

- (f) communication in an intelligible form of the personal data undergoing processing and of any available information as to its sources.

2. In cases where the right of access pursuant to paragraph 1 is exercised, the transferring Contracting Party shall be consulted in writing, on a non-binding basis, before a final decision on the request for access is taken.

3. The Contracting Parties may provide for the provision of information in response to any request under paragraph 1 to be delayed, refused or restricted if and as long as such delay, refusal or restriction constitutes a measure that is necessary and proportionate taking into account the fundamental rights and interests of the data subject, in order to:

- (a) ensure that any criminal investigation and prosecution will not be jeopardised;
- (b) protect the rights and freedoms of third parties; or
- (c) protect national security and public order or prevent crime.

4. The Contracting Parties shall ensure that the competent authority which has received the request informs the data subject in writing of any delay, refusal or restriction of access and of the reasons for such delay, refusal or restriction of access. Those reasons may be omitted if and as long as this would undermine the purpose of the delay, refusal or restriction under paragraph 3. The competent authority shall inform the data subject of the possibility of lodging a complaint with the relevant supervisory authorities and of other available means of administrative and judicial redress provided for in the respective legal frameworks of the Contracting Parties.

ARTICLE 9

Right to rectification, erasure and restriction

1. The Contracting Parties shall ensure that the data subject has the right to have inaccurate personal data transferred under this Agreement rectified by the competent authorities. Taking into account the purpose or purposes of the processing, this includes the right to have incomplete personal data transferred under this Agreement completed.

2. Rectification shall include erasure of personal data that are no longer necessary for the purpose or purposes for which they are processed.
3. The Contracting Parties may provide for the restriction of processing rather than the erasure of personal data if there are reasonable grounds to believe that such erasure could affect the legitimate interests of the data subject.
4. The competent authorities shall inform each other of measures taken pursuant to paragraphs 1, 2 and 3. The receiving competent authority shall rectify, erase or restrict the processing in accordance with the action taken by the transferring competent authority.
5. The Contracting Parties shall provide for the competent authority which has received the request to inform the data subject in writing without undue delay, and in any case within 3 months of receipt of a request in accordance with paragraph 1 or 2, that data concerning the data subject have been rectified, erased or the processing has been restricted.
6. The Contracting Parties shall provide for the competent authority which has received the request to inform the data subject in writing, without undue delay and in any case within 3 months of receipt of a request of any refusal of rectification, erasure or restriction of processing, of the reasons for such a refusal and of the possibility of lodging a complaint with the relevant supervisory authorities and other available means of administrative and judicial redress provided for in the respective legal frameworks of the Contracting Parties.

ARTICLE 10

Notification of a personal data breach to the authorities concerned

1. The Contracting Parties shall ensure that, in the event of a personal data breach affecting personal data transferred under this Agreement, the relevant competent authorities notify each other, as well as their respective supervisory authorities, of that personal data breach without delay and take measures to mitigate its possible adverse effects.
2. The notification shall at least:
 - (a) describe the nature of the personal data breach, including, where possible, the categories and number of data subjects concerned and the categories and number of personal data records concerned;
 - (b) describe the likely consequences of the personal data breach;
 - (c) describe the measures taken or proposed to be taken by the competent authority to address the personal data breach, including the measures taken to mitigate its possible adverse effects.
3. To the extent that it is not possible to provide all the required information at the same time, it may be provided in phases. Outstanding information shall be provided without undue further delay.
4. The Contracting Parties shall ensure that their respective competent authorities document any personal data breaches affecting personal data transferred under this Agreement, including the facts relating to the personal data breach, its effects and the remedial action taken, thereby enabling their respective supervisory authority to verify compliance with applicable legal requirements.

ARTICLE 11

Communication of a personal data breach to the data subject

1. The Contracting Parties shall, where a personal data breach as referred to in Article 10 is likely to severely and adversely affect the rights and freedoms of the data subject, provide for their respective competent authorities to communicate the personal data breach to the data subject without undue delay.
2. The communication to the data subject pursuant to paragraph 1 shall describe, where possible, the nature of the personal data breach, recommend measures to mitigate the possible adverse effects of the personal data breach, and provide the name and contact details of the contact point where more information can be obtained.
3. The communication to the data subject pursuant to paragraph 1 shall not be required if:
 - (a) the personal data concerned by the breach were subject to appropriate technological protection measures that render the data unintelligible to any person who is not authorised to have access to those data;
 - (b) subsequent measures have been taken which ensure that the rights and freedoms of the data subject are no longer likely to be severely affected; or
 - (c) communication to the data subject pursuant to paragraph 1 would involve disproportionate effort, in particular owing to the number of cases involved; in such a case, there shall instead be a public communication or similar measure whereby the data subject is informed in an equally effective manner.

4. The communication to the data subject pursuant to paragraph 1 may be delayed, restricted or omitted where such communication would be likely to:

- (a) obstruct official or legal inquiries, investigations or procedures;
- (b) prejudice the prevention, detection, investigation and prosecution of criminal offences or the execution of criminal penalties, public order or national security;
- (c) affect the rights and freedoms of third parties;

where this constitutes a necessary and proportionate measure with due regard for the legitimate interests of the data subject concerned.

ARTICLE 12

Storage, review, correction and deletion of personal data

1. The Contracting Parties shall provide for appropriate time limits to be established for the storage of personal data received under this Agreement or for a periodic review of the need for the storage of personal data, so that personal data are stored only as long as is necessary for the purpose or purposes for which they are transferred.
2. In any case, the need for continued storage of personal data shall be reviewed no later than 3 years after the personal data have been transferred, and if no justified and documented decision is taken on the continued storage of personal data, personal data shall be erased automatically after 3 years.

3. Where a competent authority has reason to believe that personal data previously transferred by it are incorrect, inaccurate or no longer up to date, or should not have been transferred, it shall inform the receiving competent authority, which shall correct or delete those data, and provide notification thereof to the transferring competent authority.

4. Where a competent authority has reason to believe that personal data previously received are incorrect, inaccurate or no longer up to date, or should not have been transferred, it shall inform the transferring competent authority, which shall provide its position on the matter. Where the transferring competent authority concludes that the personal data are incorrect, inaccurate or no longer up to date, or should not have been transferred, it shall inform the receiving competent authority, which shall correct or delete those data, and provide notification thereof to the transferring competent authority.

ARTICLE 13

Logging and documentation

1. The Contracting Parties shall provide for the keeping of logs or documentation of the collection, alteration, accessing, disclosure (including onward transfers), combination and erasure of personal data.

2. Logs or documentation as referred to in paragraph 1 shall be made available to the relevant supervisory authority upon request for the purpose of verifying the lawfulness of processing, self-monitoring and ensuring proper data integrity and security.

ARTICLE 14

Supervisory authority

1. Each Contracting Party shall ensure that there is a public authority responsible for data protection (supervisory authority) to independently oversee matters affecting the right to privacy of individuals, including the domestic rules relevant under this Agreement, in order to protect the fundamental rights and freedoms of natural persons in relation to the processing of personal data. The Contracting Parties shall notify each other of the authority that each of them designates as the supervisory authority.

The Contracting Parties shall notify each other of the domestic legislation that each of them considers as providing for the rights guaranteed under this Article.
2. The right to effective administrative and judicial redress as referred to in paragraph 1 shall include the right to compensation for any damage caused to the data subject.

CHAPTER III

Data protection principles for non-personal data

1. Each Contracting Party shall provide for non-personal data exchanged under this Agreement to be processed fairly and lawfully, and in a manner that ensures the appropriate security of the non-personal data.

2. The transferring competent authority, at the moment of transferring non-personal data, may indicate any restriction on access thereto or the use to be made thereof, in general or specific terms, including as regards its onward transfer, erasure or destruction after a certain period of time, or the further processing of it. Where the need for such restrictions becomes apparent after the non-personal data have been provided, the transferring competent authority shall inform the receiving authority accordingly.

3. Each Contracting Party shall ensure that the receiving competent authority complies with any restriction on access or further use of the non-personal data indicated by the transferring competent authority as described in paragraph 2.
