   - 2 euro coin – a geographical map of the Republic of Croatia with the Croatian checkerboard in the background;
   - 1 euro coin – a marten with the Croatian checkerboard in the background;
   - 50, 20 and 10 cents – Nikola Tesla with the Croatian checkerboard in the background;

2. In accordance with Article 10(4) of the Council Regulation, any Member State whose currency is the euro could, in a reasoned opinion addressed to the Council and to the Commission, raise an objection to the draft design proposed by the issuing Member State if that draft design was likely to create adverse reactions among its citizens. In accordance with Article 10(5) of the Council Regulation, where the Commission considered that the draft design did not respect the technical requirements set out by the Council Regulation, it had to submit a negative assessment to the Council.

3. No reasoned opinion or negative assessment had been submitted to the Council by 27 January 2022, which was the time limit set in accordance with Article 10(4) and (5) of the Council Regulation.

4. Therefore, pursuant to Article 10(6) of the Council Regulation, the decision approving the above-mentioned design is deemed to be adopted by the Council on 28 January 2022.[2]

5. It is recalled that, in accordance with Article 10(8) of the Council Regulation, all relevant information on new national circulation coin designs shall be published by the Commission in the *Official Journal of the European Union*.
