NOTE

From:	General Secretariat of the Council
To:	Permanent Representatives Committee
Subject:	Proposal for a DIRECTIVE OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL amending Directive (EU) 2018/2001 of the European Parliament and of the Council, Regulation (EU) 2018/1999 of the European Parliament and of the Council and Directive 98/70/EC of the European Parliament and of the Council as regards the promotion of energy from renewable sources, and repealing Council Directive (EU) 2015/652 - Preparation for the trilogue

1. Under the Czech Presidency three trilogues were held on the proposed revision of the Renewable Energy Directive. All institutions concurred that this legislative initiative represents a key element of the EU Green Deal framework and of the ongoing efforts to diversify the EU's energy mix in the current geopolitical context.
2. The trilogue held so far allowed to find several balanced compromises between co-legislators on a number of important provisions. Important elements of this Directive remain however to be negotiated, in particular as regards transport, bioenergy, permitting as well as on the overall renewable energy target for 2030.

3. Against this background, the Swedish Presidency has swiftly resumed the negotiations on this file by holding intense exchanges with the European Parliament and the European Commission in the context of four Interinstitutional Technical Meetings (ITM) in the course of January.
4. On the basis of those exchanges, at the Energy Working Party meeting of 26 January 2023, the delegations were invited to indicate their positions and flexibilities on the Presidency's assessment and compromise suggestions regarding the provisions on transport as contained in document WK 876 2023.
5. In addition, as regards the bioenergy related provisions, the Presidency circulated an additional position paper as contained in the document WK 1223 2023. Proposed positions and flexibilities will be presented and discussed at the Energy Working Party meeting of 31 January 2023.
6. In view of preparing for the fourth informal trilogue of 7 February 2023, the basis for the discussion will be the four-column table contained in the Annex to this note. Against this background, the Presidency's proposes to:
- accept or partially accept European Parliament's amendments or Commission's text which are aligned or not incompatible with the Council general approach, namely lines: 228 (Article 25, partial); 236- 243; 246-249; 251-253; 255 (Article 27, partial); 269 (Article 28); 297; 298; 299 (Article 29a, partial); 301- 308; 309- 312; 314- 320 (Article 30, partial); 321 (Article 31); 323-332f (Article 31a); 486-595 (Annex III); 615; 618; 620; 621 (Annex V, partial); 632 (Annex VII); 633-637 (Annex IX); 638-652; (Annexes I, II, IV and V to Directive 98/70/EC).

- put forward compromise suggestions and try to achieve a preliminary agreement in accordance with the flexibilities illustrated in the documents WK 876 2023 and WK 1223 2023 as well as previous Council mandates as regards: i) Article 2.22a and related obligations across the Directive (Primary woody biomass); ii) Article 29 (Sustainability and greenhouse gas emissions saving); iii) Article 3(3) (Support to energy from biomass); iv) Article 29b (Sustainability criteria for hydropower plants); v) Articles 25 and 26 as well as related provisions across the Directive (Greenhouse gas intensity reduction in the transport sector from the use of renewable energy); vi) Articles 7, 25 and 27 (provisions related to the Maritime sector); and vii) Article 9 (Joint projects between Member States).
- maintain the Council general approach on all other provisions not addressed in this Annex or in documents WK 876 2023 and WK 1223 2023.

FOURTH COLUMN *explanations*

The **fourth column** contains Presidency compromise suggestions.

In that column, ***bold italics*** text indicates new text as it was proposed either by the EP or the Council.

Text in ~~*strikethrough italics*~~ indicates compromise text that is proposed to be deleted.

Where paragraphs are put in [square brackets], these indicate wordings where further discussion is necessary.

Columns marked in **green** indicate provisions where the Presidency proposes to accept the text, including possible amendments, or parts thereof, proposed by the EP.

Columns marked in **yellow** or **red**, indicate provisions addressed with the EP where the Presidency sees further exchanges as needed, including, where appropriate, at political level.

Columns marked in white indicate provisions where discussion has started and technical dialogue is still ongoing.

Proposal for a DIRECTIVE OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL amending Directive (EU) 2018/2001 of the European Parliament and of the Council, Regulation (EU) 2018/1999 of the European Parliament and of the Council and Directive 98/70/EC of the European Parliament and of the Council as regards the promotion of energy from renewable sources, and repealing Council Directive (EU) 2015/652
