|                 |                                                                                                                                                                                                                    |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| From:           | General Secretariat of the Council                                                                                                                                                                                 |
| To:             | Delegations                                                                                                                                                                                                        |
| No. prev. doc.: | ST 5350/1/20 REV 1 PECHE 22 CODEC 33 CADREFIN 7                                                                                                                                                                    |
| Subject:        | Proposal for a Regulation of the European Parliament and of the Council on the European Maritime and Fisheries Fund and repealing Regulation (EU) N° 508/2014 of the European Parliament and of the Council (EMFF) |

Delegations will find attached written comments by the Hungarian delegation on the above-mentioned document.

**Hungarian comments on the EMFF (doc. 5350/1/20 REV 1)**

We welcome the changes made in **row 89 (Article 4, first paragraph, point(1))**.

We think that it is much more important to emphasize „*aquatic*” biological resources instead of „*marine*” than to mention „*restoration*” in the title of the priority. In our opinion the word „*aquatic*” covers freshwater aquaculture as well that should be strongly highlighted here.

**Row 337c – Article 37(2c)**

We do not support any additional administrative burdens. We think that once a year reporting would be sufficient as in the current programming period.
