## DOCUMENT DE LUCRU AL COMISIEI

### Al treilea raport de activitate privind strategia de simplificare a cadrului legislativ

#### 1. INTRODUCERE

În ultima jumătate de secol, UE a elaborat un corpus legislativ amplu (acquis-ul) pentru a răspunde necesităților cetățenilor, întreprinderilor și autorităților publice. Acesta a oferit noi drepturi pentru cetățeni, a deschis piețele pentru întreprinderi, a susținut interesele publice și, astfel, a încurajat creșterea economică și bunăstarea. Însă legislația poate implica și costuri. Provocarea este de a găsi un echilibru just și care să se mențină în timp și în circumstanțe diferite.

La începutul mandatului său, Comisia actuală și-a luat angajamentul ferm de a revizui acquis-ul, asigurând relevanța, eficiența și proporționalitatea legislației în vigoare<sup>1</sup>. Alături de programul partener privind reducerea sarcinilor administrative, strategia de simplificare a cadrului legislativ<sup>2</sup> a stabilit un program ambițios de actualizare, modernizare și simplificare a cadrului legislativ al UE. Patru ani mai târziu, pot fi evidențiate rezultate importante. Inițial o serie de acțiuni dispersate, simplificarea a evoluat, devenind inerentă oricărei revizii de politică și acoperind toate domeniile de politică. Examinarea acquis-ului, ale cărei rezultate sunt publicate împreună cu prezentul raport, ilustrează clar această evoluție.

Al treilea raport de activitate privind strategia de simplificare a cadrului legislativ completează a treia revizuire strategică privind o mai bună legiferare în Uniunea Europeană<sup>3</sup> și documentul de lucru al Comisiei privind reducerea sarcinii administrative. Acesta revizuieste terenul vast acoperit de la lansarea strategiei, subliniază exemplele de succes și indică domeniile pentru acțiuni de simplificare viitoare.

#### 2. SITUAȚIA ACTUALĂ

Utilizând o gamă largă de mecanisme de consultare, Comisia colectează și analizează continuu sugestiile din partea cetățenilor, a părților interesate și a statelor membre pentru a face ca legislația comunitară să devină mai clară, mai simplă și mai eficientă.

Pe baza acestor informații, Comisia a redactat un „program continuu de simplificare”, începând cu 100 de inițiative de simplificare pentru perioada 2005-2008. Programul utilizează toate instrumentele identificate în cadrul strategiei de simplificare. Acestea includ tehnici legislative, în special abrogarea, codificarea și reformarea, precum și alte modalități de modernizare a acquis-ului, cum ar fi utilizarea la scară mai largă a soluțiilor informatice.

Din 2007, programul de simplificare a fost integrat în Programul legislativ și de lucru al Comisiei. În fiecare an, a fost extins prin noi inițiative, acoperind în prezent toate domeniile de politică. Programul conține în prezent 185 de inițiative, iar circa 132 dintre acestea au fost

deja adoptate de către Comisie, cu o rată de realizare de circa 80 % atât pentru 2007, cât și pentru 2008. Acest fapt arată hotărârea Comisiei de a depăși toate obstacolele și de a oferi la timp beneficiile acestei acțiuni prioritare. Peste o sută dintre aceste inițiative adoptate și-au încheiat, în prezent, ciclul legislativ și au devenit acte legislative, în urma publicării lor în *Jurnalul Oficial*.

Comisia a propus deja circa 800 de acte juridice spre modificare sau abrogare în cadrul programului de simplificare 2005-2009. Odată cu adoptarea acestora, acquis-ul va fi redus cu circa 600 de acte juridice sau circa 6 500 de pagini din *Jurnalul Oficial*. Dar simplificarea merge mai departe. Ea a devenit inerentă tuturor revizuirilor de politici. În paralel, Comisia a continuat, de asemenea, codificarea acquis-ului, în scopul de a-l face să devină mai compact și mai lizibil, asigurând, în același timp, certitudinea juridică. Comisia a finalizat deja codificarea a 229 de acte. 142 dintre acestea au fost deja adoptate de către colegislator, înlocuind 729 de acte precedente, echivalentul a 1 300 de pagini din *Jurnalul Oficial*.

În total, inițiativele Comisiei începând cu octombrie 2005 vor reduce acquis-ul cu aproape 10 % - circa 1 300 de acte juridice și 7 800 de pagini din *Jurnalul Oficial*.

### 3. REZULTATE

Până în prezent, circa 75 din cele 132 de inițiative de simplificare menționate anterior și-au finalizat procesul legislativ – 36 în cadrul Comisiei, sub forma unor acte autonome (anexa 4), și 39 în cadrul adunării legislative (anexa 5).

Beneficiile acestora și ale altor măsuri de simplificare devin din ce în ce mai evidente pentru întreprinderi, cetățeni și autoritățile publice. Următoarele secțiuni prezintă o serie de exemple, ilustrând diferite abordări complementare ale simplificării.

#### 3.1. Un cadru legislativ mai clar organizat

Legislația se materializează în timp, pe măsură ce elemente noi se adaugă la baza juridică. Pentru a se asigura că aceste elemente sunt compatibile și formează un cadru coerent, Comisia revizuieste continuu legislația existentă, căutând soluții legislative mai eficiente.

- Noul **Regulament general de exceptare pe categorii de ajutoare** permite statelor membre să aprobe o serie de măsuri de ajutor fără a le notifica în prealabil Comisiei, permițând tratarea mai rapidă a dosarelor. Regulamentul, care are scopul de a promova crearea de locuri de muncă și competitivitatea, are ca obiect ajutorul pentru IMM-uri, cercetare, inovare, dezvoltare regională, formare, ocuparea forței de muncă și capitalul de risc. De exemplu, societățile ar putea beneficia de ajutor pentru cercetarea fundamentală (până la 100 %), cercetarea industrială (până la 50/70 %) și pentru dezvoltarea experimentală (25/45 %). De asemenea, regulamentul armonizează și consolidează cinci acte juridice în cadrul unui text unic;
- Noile norme privind controalele **plăților directe către fermieri** oferă un cadru mai simplu și mai eficient pentru selecția eșantionului de control, programarea controalelor și pentru metodele de verificare la fața locului<sup>4</sup>;

---

<sup>4</sup> Informații suplimentare privind inițiativele de simplificare din sectorul agricol vor fi prezentate într-un raport de activitate al Comisiei în primăvara anului 2009.

- Noul regulament cu privire la **statisticile structurale de întreprindere** reduce numărul cerințelor privind informațiile și prevede o colectare a datelor anuală în locul colectării efectuate de mai multe ori pe an. În același timp, a fost introdusă o nouă clasificare statistică a activităților economice în Comunitatea Europeană. Se preconizează că aceasta va determina o reducere netă cu 17,5 % a datelor care trebuie raportate;
- În cadrul strategiilor tematice privind **poluarea aerului și prevenirea și reciclarea deșeurilor**, legislația cadru în aceste domenii a fost optimizată, clarificată și simplificată. Noua directivă privind calitatea aerului înconjurător reunește cinci directive separate, iar noua **directivă-cadru privind deșeurile** integrează directivele în trecut separate privind deșeurile periculoase și deșeurile de ulei;
- Noua **directivă-cadru privind apa** oferă un cadru politic coerent pentru planificare, executare și raportare în scopul de a proteja și de a restabili puritatea apei în Europa și reduce numărul de directive din domeniul apei de la 18 la 10.
- O nouă directivă privind **securitatea și sănătatea la locul de muncă** simplifică și optimizează rapoartele din partea statelor membre asupra punerii în practică a directivei-cadru și a directivelor sale individuale. În viitor, statelor membre li se va cere să prezinte numai un raport o dată la cinci ani.

### 3.2. Metode de lucru îmbunătățite și proceduri simplificate

Comisia promovează în mod activ utilizarea sporită a informaticii ca modalitate de îmbunătățire a metodelor de lucru.

- Noul **Vocabular comun privind achizițiile publice** (o descriere standard de produse la nivelul UE) facilitează identificarea oportunităților în domeniul achizițiilor publice în întreaga UE, indiferent de limba țării în care se desfășoară achiziția. Formularele utilizate de autoritățile publice pentru a publica anunțuri în *Jurnalul Oficial al UE* au fost standardizate și informatizate, reducându-se timpul de publicare de la 12 la 5 zile. Ambele ameliorări vor contribui la creșterea transparenței pe piețele achizițiilor publice. În fiecare zi, oportunități de afaceri în sectorul public în valoare de peste 1 miliard EUR sunt publicate pe site-ul UE TED – *Tenders Electronic Daily* (Licitații electronice zilnice);
- **Simplificarea Codului vamal comunitar** include modernizarea legislației vamale comunitare și crearea unui mediu informatizat pentru autoritățile vamale și pentru comercianți. Înregistrarea electronică a declarațiilor vamale și a documentelor de însoțire va deveni o regulă. Comercianții autorizați vor putea să declare mărfurile on-line și să-și plătească taxele vamale în statul membru în care își au sediul, indiferent dacă mărfurile au fost aduse în interiorul sau trimise în afara teritoriului vamal UE, sau de locul în care aceste mărfuri vor fi consumate. Atunci când sistemul integrat va fi pe deplin funcțional, acesta ar trebui să aducă beneficii pentru comercianți estimate la 2,5 miliarde EUR pe an;
- Modificarea articolului 55 din **regulamentul general privind politica de coeziune** a simplificat normele în cazul proiectelor care generează venituri mici. Dispoziția privind proporționalitatea în monitorizarea operațiunilor mici (atunci când costul total este mai mic de 200 000 EUR) a fost înlocuită cu o derogare de la aplicarea articolului menționat în cazul operațiunilor cofinanțate prin Fondul social european și prin Fondul european de dezvoltare regională sau prin Fondul de coeziune pentru un cost total mai mic de 1 000 000 EUR.

### 3.3. O piață internă funcțională

Piața internă a fost și rămâne o forță motrice a simplificării la nivelul UE, permițând ca un număr mare de acte legislative naționale să fie concentrate într-un act legislativ unic.

- **Normele comune pentru operarea serviciilor aeriene** în Comunitate revizuiesc așa-numitul „al treilea pachet” privind liberalizarea transportului aerian. Se estimează că ele vor contribui la creșterea libertății de alegere a consumatorului, la scăderea costurilor și la creșterea concurenței. Introducerea unor cerințe mai stricte și a unei supravegheri mai eficiente a companiilor aeriene nou înființate va reduce, de asemenea, riscul de faliment și consecințele negative pentru pasageri. Costul anual mediu al falimentelor pentru pasageri, inclusiv costurile de repatriere și pierderea rezervărilor anticipate, este estimat la 15,6 milioane EUR. O reducere cu 50 % a numărului de falimente în rândul transportatorilor aerieni având un maximum de doi ani de funcționare ar determina o economie a costurilor pentru consumatori de circa 2,4 milioane EUR pe an;
- Directiva revizuită privind **interoperabilitatea sistemului feroviar** în Comunitate modernizează normele de certificare a vehiculelor. Costurile de certificare economisite de întreprinderile și fabricanții din sectorul feroviar în cursul următorilor 15 ani au fost estimate la 200-280 milioane EUR;
- Noul regulament privind **conținuturile maxime aplicabile reziduurilor (CMR)** de pesticide din alimente și hrana pentru animale înlocuiește circa 500 000 de CMR-uri naționale cu 100 000 de CMR-uri UE și constituie un ajutor pentru operatori, care nu mai trebuie să prezinte mai multe cereri în state membre diferite;
- **„Pachetul TVA”** introduce norme noi pentru servicii, conform cărora serviciile către întreprinderi (*business-to-business*) se taxează în statul membru al clientului. Acesta ar trebui să constituie un stimulent pentru întreprinderi să furnizeze servicii la nivel comunitar. Pachetul include, de asemenea, un mini ghișeu unic pentru serviciile de telecomunicații, de radiodifuziune și televiziune și de comerț electronic către întreprinderi cu sediul în UE și o nouă procedură pentru solicitarea rambursării TVA-ului de către întreprinderile cu sediul în afara statului membru în care a fost plătit TVA-ul;
- În domeniul **dreptului societăților comerciale**, directiva privind fuziunile și divizările adoptată prin procedura accelerată în 2007 optimizează fuziunile transfrontaliere, determinând astfel economisirea a 17 milioane EUR de către societățile pe acțiuni.

### 4. ALTE REZULTATE PRECONIZATE: PROPUNERI ÎN CURS DE ADOPTARE ȘI ASPECTE INTERINSTITUȚIONALE

Numărul măsurilor de simplificare adoptate de Consiliu și de Parlamentul European a crescut de la 16 în ianuarie 2008 la 39 în ianuarie 2009. Cu toate acestea, 50 de propuneri de simplificare sunt încă în curs de adoptare la nivelul Consiliului și al Parlamentului European (anexa 3). Este important ca instituțiile să avanseze în examinarea acestor propuneri, astfel încât întreprinderile, cetățenii și administrațiile publice să beneficieze de și mai multe avantaje.

- Noua directivă UE privind fondurile de investiții, cunoscută ca **„OPCVM”** (organisme de plasament colectiv în valori mobiliare) va asigura accesul consumatorilor la plasamente gestionate de profesioniști în condiții avantajoase; va permite ca responsabilii OPCVM să

dezvolte activitățile lor transfrontaliere, determinând consolidarea depozitelor și economii de scară; va permite ca investitorii să beneficieze de o ofertă mai variată de fonduri de investiții, la prețuri mai scăzute; va proteja investitorii individuali asigurându-se că aceștia primesc informații clare, ușor de înțeles și relevante atunci când investesc în OPCVM. Directiva va înlocui 10 directive existente cu un text unic;

- Au fost prezentate mai multe propuneri importante în domeniul **dreptului societăților comerciale**, în scopul de a simplifica exercitarea activităților economice în UE și de a realiza economii importante. Printre aceste măsuri se află propunerea de Regulament al Consiliului privind statutul societății private europene; propunerea de a reduce cerințele referitoare la traducere și la publicare de către societăți, care ar determina economisirea unei cifre estimate de 600 milioane EUR; o altă propunere privind cerințele de raportare și documentare în cazul **fuziunilor și divizărilor**;
- Noul **regulament privind produsele cosmetice** va înlocui peste 3 500 de pagini de texte juridice. Propunerea reduce costurile suportate de către societăți cu cel puțin 50 %, menținând, în același timp, un nivel înalt al standardelor de siguranță. Sunt clarificate procedurile de evaluare a siguranței produselor și sunt simplificate normele privind notificarea produselor cosmetice noi. Aceste inițiative vor avea un efect semnificativ, dat fiind că piața europeană a produselor cosmetice valorează aproximativ 65 de miliarde EUR și creează, direct și indirect, peste 350 000 de locuri de muncă;
- Revizuirea **regulamentelor privind „variațiile”** în domeniul farmaceutic va armoniza criteriile de evaluare a variațiilor și termenele pentru revizuire și aprobare. Datele arată că o întreprindere tipică de medicamente generice trebuie să gestioneze, în fiecare an, 1 500 de modificări privind medicamentele, în timp ce o întreprindere mai mare trebuie să gestioneze peste 12 000 de astfel de modificări. Propunerea va mări competitivitatea întreprinderilor reducând problemele de logistică, cum ar fi necesitatea de a stoca versiuni diferite ale aceluiași produs pentru piețe naționale diferite. Cadrul simplificat va ajuta întreprinderile, în special IMM-urile, să-și extindă activitățile pe alte piețe UE;
- Noua propunere de „**pachet privind siguranța automobilelor**” va constitui o simplificare a cadrului legislativ existent prin abrogarea a 150 de directive privind omologarea vehiculelor; va introduce dotarea obligatorie a autoturismelor cu dispozitive de siguranță și cu sisteme de monitorizare a presiunii în pneuri, îmbunătățind astfel considerabil siguranța vehiculelor și reducând emisiile de CO<sub>2</sub>;
- Directiva privind **drepturile consumatorilor** va contribui la ameliorarea funcționării pieței interne a activităților de la întreprindere la client (*business-to-consumer*) reducând reticențele întreprinderilor față de comerțul transfrontalier. Ea va determina reducerea fragmentării și simplificarea cadrului legislativ existent prin abrogarea a patru directive. Directiva va consolida cadrul legislativ, în timp ce o serie de clauze contractuale pentru consumatori vor reduce substanțial costurile;
- Pachetul de propuneri privind **eficiența energetică** urmărește să realizeze economii de energie în domenii-cheie, de exemplu prin consolidarea legislației privind eficiența energetică a clădirilor și a produselor consumatoare de energie. Sumele anuale medii rezultate din economiile de energie se pot ridica ușor la peste 1 000 EUR pe gospodărie;
- În domeniul **statisticilor privind comerțul intracomunitar de bunuri (Intrastat)**, pragurile de raportare cerute de legislația europeană vor scuti un total estimat de 370 000

de societăți de la obligația de raportare. Aceasta reprezintă o reducere a populației observate cu circa 52 % în cursul a șase ani (de la 720 000 în 2004 la 350 000 în 2010);

- Propunerea privind **introducerea pe piață și utilizarea hranei pentru animale** va spori inovarea și competitivitatea în cadrul societăților din sectorul respectiv. Noul regulament va abroga șapte directive, reducând numărul paginilor de la peste 100 la numai 30. De asemenea, procedura excesiv de costisitoare de autorizare prealabilă introducerii pe piață pentru anumite produse (bioproteinele) va fi eliminată (întrucât nu este proporțională cu riscul). Pentru a ilustra însemnătatea acestui fapt în ceea ce privește reducerea costurilor, costurile totale ale unei autorizații pentru o bioproteină nouă suportate de sectorul respectiv sunt estimate la 481 000 EUR;
- Propunerea de reformare a directivei privind **prevenirea și controlul integrat al poluării (PCIP)** va reuni șapte directive privind emisiile industriale într-un singur instrument legislativ. Vor fi eliminate părțile perimate ale directivelor existente, se vor simplifica cerințele pentru acordarea autorizațiilor, se va reduce numărul de notificări din partea operatorilor și se va optimiza raportarea de către statele membre. Propunerea va determina economii semnificative ale costurilor administrative, care se vor ridica la o sumă estimată la 32 de milioane EUR pe an și, de asemenea, economii și mai importante în ceea ce privește sarcina administrativă la nivelul statelor membre (național sau regional), în valoare de 150-300 milioane EUR pe an;
- „**Pachetul GSM**” vizează deschiderea spectrului de frecvențe de 900 și de 1 800 MHz (benzile GSM) în vederea unor utilizări mai inovative. Pachetul respectiv va elimina normele restrictive care nu mai reflectă evoluția tehnologică și care constituie un obstacol în calea utilizării la scară largă a serviciilor mobile în bandă largă;
- „Bilanțul de sănătate” al Politicii agricole comune va oferi o simplificare a **sistemului de plăți unice**. În special, acesta implică trecerea de la menținerea a două sisteme paralele de ajutoare cuplate și decuplate la creșterea ajutoarelor decuplate. Se estimează că decuplarea va determina o reducere a sarcinii administrative de 0,63 milioane EUR numai în ceea ce îi privește pe fermierii din Regatul Unit. Simplificarea elimină, de asemenea, cerința de scoatere din circuitul agricol a 10 % din terenuri. Fermierii pot utiliza tot terenul de care dispun fără a mai fi necesar să îndeplinească procedurile aferente, iar statele membre nu mai trebuie să monitorizeze măsura respectivă. Ca ilustrare a beneficiilor, se estimează că se va obține o reducere a costurilor administrative în valoare de 4,4 milioane EUR numai în ceea ce privește fermierii din Regatul Unit<sup>5</sup>;
- Toate dispozițiile relative la controlul **activităților de pescuit** vor fi incluse în același cadru legislativ, cu un accent deosebit asupra utilizării extinse a tehnologiilor moderne și a legăturilor cu bazele de date;
- Reforma **pachetului în domeniul telecomunicațiilor** va determina o reducere netă a costurilor administrative ale sectorului prin reducerea numărului de piețe relevante care pot face obiectul reglementării *ex ante* în domeniul concurenței, simplificarea procedurilor de analiză a pieței, instituirea unui organism de reglementare european și prin reformarea gestionării spectrului de frecvențe radio. Infrastructurile și serviciile de comunicații

<sup>5</sup> Broșura editată de Guvernul Regatului Unit: „25 de idei pentru simplificarea legislației UE” (*25 ideas for simplifying EU law*), 2008.

electronice stau la baza economiei în întregul său, iar îmbunătățirile din acest sector vor avea un impact pozitiv și asupra restului UE;

- Propunerea de a ameliora punerea în aplicare a **programelor din cadrul politicii regionale** urmărește să faciliteze gestionarea financiară și să accelereze punerea la dispoziție a resurselor financiare comunitare necesare atât pentru programele, cât și pentru proiectele operaționale. În special, Comisia a propus rambursarea costurilor suplimentare ale proiectelor pe baza sumei forfetare, precum și posibilitatea ca UE să ramburseze în totalitate autorităților publice avansurile sub forma ajutoarelor de stat către beneficiari. Aceste modificări vor fi utile mai ales pentru IMM-uri; ;
- Modernizarea coordonării **sistemelor naționale de securitate socială** va facilita libera circulație a lucrătorilor și a familiilor acestora pe teritoriul UE. Ea va determina, de asemenea, beneficii pentru cei 173 de milioane de titulari ai cardului european de asigurări sociale de sănătate, care pot avea acces la îngrijiri medicale în timpul unei șederi temporare într-un stat membru în aceleași condiții ca cetățenii statului respectiv.

Numărul propunerilor în curs de adoptare de către Consiliu și Parlamentul European este în creștere. Prin urmare, este esențial să se examineze modalitățile de a accelera adoptarea acestora și să se depună toate eforturile pentru a se ajunge la un acord, dacă este posibil, în prima lectură din cadrul procedurii de codecizie. Comisia salută intenția Parlamentului European de a stabili structuri specifice care să încurajeze simplificarea, conform raportului domnului Medina Ortega, recent adoptat.

Parlamentul European a confirmat că dorește ca reformarea să fie folosită de Comisie ca tehnică legislativă ordinară, chiar și atunci când se propune „revizuirea” textului actual. Cu toate acestea, este important ca Parlamentul European și Consiliul să se alinieze la principiile și la spiritul acțiunii de simplificare menținând propunerile adoptate cât mai simple cu putință și accelerând procesul decizional, astfel încât întreprinderile, cetățenii și administrațiile publice să beneficieze de avantajele simplificării.

## 5. CODIFICAREA

Comisia simplifică, dar și codifică legislația, combinând, în cadrul aceluiași text, dispozițiile legale de bază cu toate modificările ulterioare. Astfel, actele juridice devin mai clare și se reduc dimensiunile acquis-ului comunitar.

Până în prezent, Comisia a finalizat un total de 229 de acte de codificare. Dintre acestea, 142 de acte au fost codificate, adoptate și publicate în *Jurnalul Oficial* (102 acte ale Comisiei și 40 de acte ale Parlamentului European și ale Consiliului). Cele 142 de acte codificate înlocuiesc 729 de acte precedente, echivalentul a 1 300 de pagini din *Jurnalul Oficial*.

87 de acte sunt încă în curs de adoptare la nivelul Consiliului și al Parlamentului European.

Majoritatea traducerilor restante spre noile limbi ale legislației destinate codificării au fost eliminate. Celelalte propuneri din cadrul programului de codificare, revizuit în 2006, vor fi prezentate în 2009 împreună cu un raport care va detalia realizările programului în ansamblul său. 21 de documente legislative noi au fost selecționate în vederea codificării în cursul anului 2009 (anexa 6).

## 6. URMĂTOARELE ETAPE

### 6.1. Inițiative în curs de elaborare în 2009

Comisia a inclus 33 de inițiative de simplificare în Programul său legislativ și de lucru pentru 2009<sup>6</sup> (anexa 7).

De exemplu:

- Revizuirea Directivei 2000/35/CE privind **combaterea întârzierii efectuării plăților în cazul tranzacțiilor comerciale**, care va descuraja întârzierile autorităților publice și întreprinderilor în ceea ce privește plata furnizorilor și îi va încuraja pe creditorii să solicite despăgubiri pentru plățile întârziate. Inițiativa respectivă face parte din *Un „Small Business Act” pentru Europa* și din *Planul european de redresare economică*;
- Simplificarea legislației CE privind **tractoarele agricole sau forestiere** prin înlocuirea a 24 de directive cu un regulament;
- Modificarea și modernizarea Regulamentului (CE) nr. 44/2001 pentru a adapta regulamentul respectiv la noile instrumente internaționale și pentru a asigura **recunoașterea și punerea în aplicare a deciziilor judecătorești în materie civilă și comercială**, prin eliminarea etapelor intermediare pe care cetățenii trebuie să le parcurgă (*exequatur*) pentru ca o decizie judecătorească să fie recunoscută și pusă în aplicare în străinătate;
- Reforma **organizării comune a pieței în sectorul produselor pescărești și de acvacultură**, care se concentrează asupra activităților durabile de pescuit și de comercializare. Ea include adaptarea la evoluția pieței, creșterea coerenței cu alte elemente ale Politicii comune în domeniul pescuitului, precum și cu politicile comunitare conexe (comerț, sănătate și protecția consumatorului, mediu) și va promova utilizarea extinsă a instrumentelor informatice.

În plus, Comisia continuă să colaboreze cu statele membre pentru a identifica alte modalități de simplificare a reglementărilor privind politica de coeziune și de reducere a sarcinii administrative pentru beneficiari.

### 6.2. Examinarea acquis-ului și activități de simplificare viitoare

Așa cum a anunțat în A doua revizuire strategică pentru o mai bună legiferare în Uniunea Europeană, Comisia a efectuat o examinare aprofundată a acquis-ului.

Ca prim pas, s-a efectuat o revizuire sistematică a acquis-ului pentru a identifica cele mai importante instrumente de reglementare. În urma acestei revizuii au fost selectate 3 600 de acte. Aceste acte au fost examinate în mod mai aprofundat, pentru a se evalua dacă ele sunt actuale sau dacă există posibilități de simplificare.

Seria completă a rezultatelor în funcție de domeniul de politică va fi publicată pe site-ul referitor la simplificare din cadrul portalului Europa<sup>7</sup>, în scopul de a oferi o perspectivă clară asupra eforturilor de simplificare întreprinse de Comisie până în prezent.

---

<sup>6</sup> Programul legislativ și de lucru al Comisiei pentru 2009: Să acționăm acum pentru o Europă mai bună – COM(2008) 712.

Constatările examinării arată măsura în care:

- simplificarea a fost deja realizată;
- simplificarea este programată pentru anul 2009;
- există posibilități de simplificare în cursul mandatului următoarei Comisii; sau
- nu este programată o simplificare, și anume textul este clar, actual și proporțional cu obiectivele sale politice. În unele dintre aceste cazuri, o modificare a legislației ar putea aduce beneficii, dar acestea ar fi depășite de costurile și sarcinile suportate de întreprinderi și de administrațiile publice, în special pentru transpunere.

Constatările indică faptul că s-au realizat progrese semnificative. Circa două treimi dintre acte, care privesc mai ales agricultura, piața internă, transportul, întreprinderile, sănătatea și mediul, au făcut obiectul simplificării în cadrul programului continuu de simplificare, al programului de codificare sau al altor inițiative ale Comisiei sau sunt incluse în prezent în propunerile de simplificare pentru anul 2009 (anexa 2).

De asemenea, această revizuire pregătește terenul pentru alte activități de simplificare. Prin examinarea actelor existente în contextul lor sectorial, Comisia evoluează în direcția unei abordări integrate a simplificării. Inițiativele de simplificare viitoare ar putea include un total de 81 de alte acțiuni (anexa 1).

De exemplu:

- Alinierea a 15 directive de armonizare la decizia care instituie un **cadru comun pentru comercializarea produselor**. Decizia menționată prezintă într-o formă standardizată elemente utilizate în mod curent în cadrul legislației de armonizare tehnică și care ar trebui introduse în documentele legislative viitoare. Obiectivul este acela de a mări consecvența cadrului legislativ și de a stabili o „cultură” comună a legiferării. Astfel, va fi ameliorată calitatea legislației și vor fi reduse sarcinile administrative;
- Simplificarea normelor de aplicare din cadrul **Politicii agricole comune**, în urma adoptării „Bilanțului de sănătate” în ceea ce privește mecanismul de gestionare a intervențiilor;
- Revizuirea legislației privind **amenințările la adresa sănătății** (bolile contagioase și amenințările chimice, biologice și radionucleare) și **sănătatea, bunăstarea și hrana animalelor**;
- Reducerea suplimentară a sarcinilor din domeniul **statistic** cu ajutorul programului **MEETS** (Programul pentru modernizarea statisticilor europene referitoare la întreprinderi și comerț). Acesta va îmbunătăți metodele de colectare a datelor în statele membre prin utilizarea mai extinsă a datelor administrative și contabile și prin intermediul unor sisteme de eșantionare optimizate, precum și prin utilizarea mai eficientă și mai intensă a surselor disponibile.

## 7. OBSERVAȚII FINALE

De la lansarea strategiei de simplificare a cadrului legislativ, în 2005, simplificarea a fost integrată în activitatea Comisiei. Prin intermediul unei serii de activități coordonate, Comisia a construit un cadru de acțiune politică și practică, aducând astfel beneficii concrete pentru cetățeni, întreprinderi și administrațiile publice. În cadrul unui efort de a face ca legislația să devină mai clară și mai ușor de înțeles, s-a propus eliminarea din codul de legi comunitar a circa 1 300 de acte, reprezentând un procent de 10 % din acquis.

Simplificarea constituie un proces continuu. Imaginea de ansamblu oferită de examinarea acquis-ului pregătește terenul pentru activitatea viitoare. Un program care a început cu un număr limitat de inițiative dispersate acoperă în prezent toate domeniile de politici și evoluează spre o abordare din ce în ce mai sectorială. Aceasta implică examinarea întregului corpus al legislației care afectează o anumită politică pentru a identifica suprapunerile, lacunele, inconsecvențele și sarcinile excesive aferente reglementării. Obiectivul este acela de a evalua eficacitatea generală a cadrului legislativ pentru fiecare sector în parte.

Pentru ca programul de simplificare să avanseze, Comisia va avea nevoie de sprijin politic din partea celorlalte instituții UE și a statelor membre. Parlamentul European și Consiliul sunt invitate să facă tot posibilul pentru a adopta cât mai rapid cu putință propunerile în curs și pentru a păstra dispozițiile lor de simplificare pe parcursul procesului decizional. Statele membre sunt încurajate să continue propriile lor programe de simplificare și să aplice legislația UE în spiritul simplificării, fără a adăuga măsuri inutile.

În fiecare, zi, cetățenii și întreprinderile din Europa se confruntă cu o combinație a legislațiilor comunitară, națională și regională. Numai un efort coordonat de simplificare la toate aceste niveluri poate garanta că acest cadru legislativ își îndeplinește scopul în cel mai bun mod cu putință – garantând creșterea și bunăstarea și, în același timp, menținând costurile la minimum necesar.

### Results of the screening of the acquis

#### Scope for simplification activities during the next Commission

|    | Policy area   | Title of legal instruments  | Scope and potential objectives of simplification   |
|----|---|---|--|
| 1. | <b>Health and safety at work</b>  | Commission Directive 91/322/EEC of 29 May 1991 on establishing indicative limit values by implementing Council Directive 80/1107/EEC on the protection of workers from the risks related to exposure to chemical, physical and biological agents at work  | Following adoption of a new Commission Directive establishing a third list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC, the intention is to review the scientific values contained in Directive 91/322/EEC and examine the possibility of its review in the future.   |
| 2. | <b>Labour Law / European Cooperative society / European Company Statute / Information and consultation of employees</b> | <p>Council Directive 2003/72/EC of 22 July 2003 supplementing the Statute for a European Cooperative Society with regard to the involvement of employees</p> <p>Council Directive 2001/86/EC of 8 October 2001 supplementing the Statute for a European company with regard to the involvement of employees</p> | <p>Taking into account the views of Member States, the Commission has decided to examine possible simplification of the provisions on information and consultation of employees once the full evaluation report on Regulation (EC) No 1435/2003 (European Cooperative Society Statute) has been completed in 2011.</p> <p>Taking into account the views of Member States, the Commission has decided to examine the possible simplification of provisions on information and consultation of employees once the full evaluation report on Regulation (EC) No 2157/2001 (European Company Statute) has been completed (foreseen for</p> |

|    |  |   | 2010).  |
| 3. | <b>Internal market for products / Common framework for the marketing of products</b> | Directive 93/15/EC on the market and supervision of explosives for civil uses, Directive 90/384/EC relating to non-automatic weighting instruments, Directive 73/23/EC to electrical equipment designed for use within certain voltage limits, Directive 2004/108/EC relating to electromagnetic compatibility, Directive 94/9/EC concerning equipment and protective systems intended for use in potentially explosive atmospheres and Directive 2007/23/EC on the placing on the market of pyrotechnic articles | Alignment of the existing harmonised acquis with the Decision setting out a common framework for the marketing of products <sup>8</sup> |
| 4. | <b>Internal market for products</b>  | Directive 97/68/EC on the emissions of gaseous and particulates pollutants of non road machinery  | Review and alignment with the new legal framework for the marketing of products   |
| 5. | <b>Internal market for products</b>  | Directive 95/16/EC on lifts   | Review and alignment with the new legal framework for the marketing of products   |
| 6. | <b>Internal market for products</b>  | Directive 2000/14/EC on noise emission in the environment by equipment for use outdoors   | Review and alignment with the new legal framework for the marketing of products   |
| 7. | <b>Internal market for products</b>  | Directive 89/686/EC on personal protective equipment  | Review and alignment with the new legal framework for the marketing of products   |
| 8. | <b>Internal market for products</b>  | Directive 90/396/EC relating to appliances burning gaseous fuels  | Review and alignment with the new legal framework for the marketing of products   |
| 9. | <b>Internal market for products</b>  | Directive 2000/9/EC relating to cableway installations designed to carry persons  | Review and alignment with the new legal framework for the marketing of products   |

<sup>8</sup> Decision No 768/2008/EC of the European Parliament and of the Council on a common framework for the marketing of products has established a new horizontal framework (revision of the new approach), which will enhance consistency and coherence across a broad range of technical regulations adopted over the last 30 years.

| 10. | <b>Internal market for products</b>                      | Directive 94/25/EC on recreational craft  | Review and alignment with the new legal framework for the marketing of products  |
| 11. | <b>Internal market for products</b>                      | Directive 1999/5/EC on Telecommunications   | Review and alignment with the new legal framework for the marketing of products  |
| 12. | <b>Nature protection / Trade of wild fauna and flora</b> | Council Regulation (EC) No 338/97 of 9 December 1996 on the protection of species of wild fauna and flora by regulating trade therein<br>+ 12 amendments<br><br>Commission Regulation (EC) No 865/2006 of 4 May 2006 laying down detailed rules concerning the implementation of Council Regulation (EC) No 338/97 on the protection of species of wild fauna and flora by regulating trade therein | While the stakeholder consultation and a study concluded that the Regulation was generally effective, a number of areas have been identified where the Implementing Regulation (Regulation (EC) No. 865/2006) could be simplified, and clearer and more transparent guidance provided on the interpretation and implementation of the Regulations. A full revision of Commission Regulation (EC) No. 865/2006 will be prepared in 2009 |
| 13. | <b>Waste</b>   | Decision 2000/532/EC establishing a list of wastes<br><br>+ 3 amendments  | Waste legislation will be simplified further. In particular, the Commission is currently reviewing the waste list and may come forward with a proposal for revision in 2009  |
| 14. | <b>Specific waste streams</b>                            | European Parliament and Council Directive 94/62/EC on packaging and packaging waste<br><br>+ 6 Commission implementing Decisions (on the identification system for packaging materials, on formats relating to the database system, on derogation and on national measures in 3 Member States)<br><br>+ 3 amendments  | Scope to simplify further is under review. This Directive will be part of a full screening ("review") of the EU recycling Directives during the next Commission. Preparatory studies are under way. Expected results include clearer definitions in line with the revised Waste Framework Directive. Results are not expected before 2012  |

| 15. |   | Council Directive 96/59/EC on the disposal of polychlorinated biphenyls and polychlorinated terphenyls (PCB/PCT)   | Scope to simplify further is under review. The implementation of the deadline for decontamination and/or disposal of PCB containing equipment will have to be evaluated ("reviewed") in 2011. If results are positive, a further simplification could be envisaged as from 2011  |
| 16. |   | Directive 2000/53/EC of the European Parliament and of the Council on end-of life vehicles<br><br>+ 4 Commission implementing Decisions (on questionnaires, certificates of destruction, exemptions and the Dutch scheme)<br><br>+ 6 amendments  | Scope to simplify further is under review. The ELV Directive will be part of an overall screening (to examine the possibility of revision) of the recycling directives during the next Commission. Preparatory studies are under way. Expected results include clearer definitions in line with the new Waste Framework Directive). Results are not expected before 2012 |
| 17. | <b>Water protection and management / River basin management</b> | Directive 2000/60/EC of the European Parliament and of the Council establishing a framework for Community action in the field of water policy<br><br>+ 2 amendments (notably Decision No 2455/2001/EC establishing the list of priority substances in the field of water policy)<br><br>+ Commission Decision 2005/646/EC (intercalibration network)<br><br>Directive 2007/60/EC of the European Parliament and of the Council on the assessment and management of flood risks | Possible scope to simplify further by codifying the Water Framework Directive 2000/60/EC, Floods Directive 2007/60/EC, Directive on environmental quality standards 2008/105/EC and of Directive 2006/118/EC into one legal instrument.  |

|-----|--------------------------------|---|---|
| 18. |                                | Directive 2007/60/EC of the European Parliament and of the Council on the assessment and management of flood risks  | Possible scope for further simplification through codification of the Floods Directive 2007/60/EC, the Water Framework Directive 2000/60/EC, Directive 2008/105/EC on environmental quality standards and Directive 2006/118/EC   |
| 19. | <b>Groundwater</b>             | Directive 2006/118/EC of the European Parliament and of the Council on the protection of groundwater against pollution and deterioration  | Possible scope to simplify further by codifying the Water Framework Directive 2000/60/EC, Floods Directive 2007/60/EC, Directive on environmental quality standards 2008/105/EC and of Directive 2006/118/EC into one legal instrument.   |
| 20. | <b>Drinking water</b>          | Council Directive 98/83/EC on the quality of water intended for human consumption<br><br>+ comitology Regulation (EC) No 1882/2003<br><br>+ transitional measures for new Member States   | The potential to simplify further is under review, both with legislative and non-legislative measures. The revision process began in 2008 and is expected to finish in 2009.  |
| 21. | <b>Air quality / Standards</b> | Directive 2004/107/EC of the European Parliament and of the Council of 15 December 2004 relating to arsenic, cadmium, mercury, nickel and polycyclic aromatic hydrocarbons in ambient air | There is scope to simplify further. The Directive was due for transposition in 2007. It is envisaged to include this Directive in the general review of Directive 2008/50/EC in 2013 with the objective of merging those two Directives. This merger would ensure that all ambient air quality objectives are contained in one legal instrument. No reporting obligations for business under current Directive, only for Member States. |
| 22. | <b>Air quality / Standards</b> | Directive 98/70/EC on the quality of petrol and diesel fuels and amending Directive 93/12/EC  | Codification could be considered once the amending legislative proposal COM(2007) 18 becomes law  |

|     | <b>Policy area</b>  | <b>Title of legal instruments</b>  | <b>Scope and potential objectives of simplification</b>   |
|-----|---|--|---|
| 23. | <b>Air quality / Standards</b>  | Directive 1999/32/EC on the sulphur content of certain liquid fuels  | Codification could be considered as part of the review of the directive currently underway (proposal expected in 2010).   |
| 24. | <b>VOC / Storage of petrol</b>  | Directive 94/63/EC of the European Parliament and of the Council on the control of volatile organic compound (VOC) emissions resulting from the storage of petrol and its distribution from terminals to service stations  | Consultants have been instructed to assess potential to simplify technical provisions in light of previous stakeholder views and new information that may be available. Report expected spring 2009. No reporting obligations for business in current directive only for MSs. |
| 25. | <b>Climate change / Monitoring and reporting on green house gases</b> | Decision No 280/2004/EC of the European Parliament and of the Council concerning a mechanism for monitoring Community greenhouse gas emissions and for implementing the Kyoto Protocol<br><br>+ Commission Decision 2005/166/EC laying down rules implementing Decision No 280/2004/EC | Further simplification is under review, depending on agreement on climate and energy package, and international agreement in Copenhagen.  |
| 26. | <b>Industrial emissions / Paints</b>                                  | Directive 2004/42/CE of the European Parliament and of the Council on the limitation of emissions of volatile organic compounds due to the use of organic solvents in certain paints and varnishes and vehicle refinishing products  | Review of the directive is ongoing with a proposal expected in 2010. There is scope to improve the clarity and implementation of the Directive following the review and consultation with stakeholders and impact assessment.   |
| 27. | <b>Asbestos</b>   | Council Directive 87/217/EEC on the prevention and reduction of environmental pollution by asbestos  | Simplification is envisaged for 2010.<br><br>The Directive 87/217/EEC could be simplified by amending or repealing it, depending on the results of an impact assessment to be carried out in 2009.  |

|     | <b>Policy area</b>                                 | <b>Title of legal instruments</b>  | <b>Scope and potential objectives of simplification</b>  |
|-----|--|--|--|
| 28. | <b>Civil protection and industrial accidents</b>   | Council Directive 96/82/EC on the control of major-accident hazards involving dangerous substances<br><br>+ 2 amendments<br><br>1 Commission implementing decision | Review of directive underway with view to proposals at end 2009/early 2010. Possible simplification will be considered as part of review.  |
| 29. | <b>Chemicals and Biocides / Laboratory animals</b> | Council Directive 86/609/EEC regarding the protection of animals used for experimental and other scientific purposes<br><br>+ 1 amendment (Directive 2003/65/EC)   | There is scope to simplify further: The Commission is currently discussing the revision of the Directive.<br><br>The main objective of the revision is to create a level playing field for researchers and industry. In line with the Animal Welfare Protocol annexed to the EC Treaty, the proposal aims to increase the level of welfare and protection of animals used in experiments. By promoting the use of test methods alternative to animal testing, the Directive will result in costs savings for the EU industry, as the in vitro and computer based tests are less expensive than those using animals. It will also strive to simplify the regulatory environment and ensure the competitiveness of EU research and industry. |
| 30. | <b>Horizontal Instruments / Impact Assessment</b>  | Council Directive 85/337/EEC on the assessment of the effects of certain public and private projects on the environment<br><br>+ 2 amendments                      | Scope to simplify further is under review: The Commission is preparing the report on the application and effectiveness of the EIA Directive and how it has been implemented by the Member States. The directive could be simplified by clarifying certain provisions following the accession of the new Member States, probably by recasting the legislation   |

| 33. | <b>Short term statistics</b>                   | Council Regulation (EC) No 1165/98 of 19 May 1998 concerning short-term statistics  | In this area, a cost and burden measurement was undertaken in the framework of providing a Report to the European Parliament and the Council in August 2008. The same measurement will be repeated for the next Report to Council and European Parliament due in three years and this will be an opportunity to obtain information on the reduction of burdens over time. STS are also covered by the MEETS (Modernisation of European Enterprise and Trade Statistics) exercise |
| 34. | <b>European System of Accounts</b>             | Council Regulation (EC) No 2223/96 of 25 June 1996 on the European system of national and regional accounts in the Community<br><br>Regulation (EC) No 1221/2002 of the European Parliament and of the Council of 10 June 2002 on quarterly non-financial accounts for general government | All regulations related to the European System of Accounts will be incorporated in the new regulation on ESA. The possibilities to simplify will be studied when preparing this new regulation. The provisional planning for the regulation foresees adoption by the EP and the Council in 2011/2012   |
| 35. | <b>Economy and finance statistics / Prices</b> | Council Regulation (EC) No 2494/95 of 23 October 1995 concerning harmonized indices of consumer prices  | Discussions ongoing within the Commission to decide how to simplify the regulation. This work can only be completed once the Commission has adopted all the implementing measures planned (adoption foreseen: 2nd half of 2009).   |
| 36. | <b>Transport statistics / Road</b>             | Council Regulation (EC) No 1172/98 of 25 May 1998 on statistical returns in respect of the carriage of goods by road  | ESTAT plans to simplify the requirements of Commission Regulation (EC) No 642/2004 for data collected in accordance with Regulation (EC) No 1172/98, for example, by redefining variables and thresholds.  |
| 37. | <b>Transport statistics / Sea</b>              | Council Directive 95/64/EC of 8 December 1995 on statistical return in respect of carriage of goods and passengers by sea   | This directive will be simplified and codified.  |

| 38. | <b>Information society / electronic signatures</b> | Revision of the regulatory framework for e-signature/e-identification following an action plan seeking EU-wide solutions in cross-border use of online public services;<br><br>Directive 1999/93/EC of the European Parliament and of the Council of 13 December 1999 on a Community framework for electronic signatures  | The Commission adopted an eSignature / eIdentification Action Plan in November 2008. The Action Plan seeks an EU-wide solution to cross-border use of online public services. A progress report on the Action Plan will be submitted to the Council in 2010. On the basis of this Report, the Commission will assess whether further horizontal and/or sectoral initiatives are needed.  |
| 39. | <b>Police and criminal justice cooperation</b>     | Third pillar instruments notably framework Decisions of the Schengen acquis in the field of police and criminal justice cooperation   | Revision or repeal of a number of third pillar instruments notably framework Decisions on the entry into force of the Lisbon Treaty in the Justice, Freedom and security acquis (shift to the 1st pillar). This concerns the Schengen acquis in the field of police and criminal justice cooperation. The full acquis will be revised to improve transparency and to establish which articles continue to apply and which have been replaced |
| 40. | <b>Asylum / Minimum standards Refugee status</b>   | Council directive 2005/85/EC on minimum standards on procedures in Member states for granting and withdrawing refugee status and Council Directive 2004/83/EC on minimum standards for the qualification and status of third country nationals or stateless persons as refugees or as persons who otherwise need international protection and the content of the protection granted | The Commission will put forward a proposal amending this Directive in spring 2009. | 42. | <b>Immigration / Admission third-country nationals</b> | Simplification of Council Directive 2005/71/EC on a specific procedures for admitting third-country nationals for scientific research and Council Directive 2004/114/EC on the conditions of admission of third-country nationals for the purposes of studies, pupil exchange, unremunerated training or voluntary services | In 2009/2010, the Commission will have to put forward a first application report which may lead to proposals to amend these Directives. Room for simplification of the present text could be found in this context                              |
| 43. | <b>Immigration / Residence</b>                         | Revision of Council Directive 2003/109/EC on status of third-country nationals who are long term residents  | In 2011, the Commission will put forward a first application report which may lead to proposals amending this Directive. Room for simplification of the present text could be found in this context   |
| 44. | <b>Immigration / Family reunification</b>              | Council Directive 2003/86/EC on the right to family reunification   | Following its first application report of October 2008, the Commission will put forward a Green Paper on family reunification in March 2009. Room for simplification of the present text of Directive 2003/86/EC could be found in this context |
| 45. | <b>Information Network</b>                             | Council Decision 2005/267/EC establishing a secure web-based information and coordination network for MS's migration management services  | Review of the functionality of the ICONet will take place in the context of the planned FRONTEX evaluation in 2009-2010   |
| 46. | <b>Expulsion</b>                                       | Enhancement of Council Directive 2001/40/EC on the mutual recognition of decision on the expulsion of third country nationals   | In the light of the first evaluation of the adopted Return Directive in 2014, the issue of mutual recognition of return decisions and the weaknesses of Directive 2001/40/EC will be reconsidered.  |
| 47. | <b>Smuggling</b>                                       | Revision of Council directive 2004/81/EC on the residence permit issued to third-country national who are victim of trafficking in human beings   | In 2009, the Commission will put forward a first application report which may lead to proposals amending this Directive. Room for simplification of the present text could be found in this context   |

The full acquis will be revised to create transparency and establish which articles continue to apply and which have to be replaced  |
| 49. | <b>Organised crime</b>                                     | 2000/642/JHA Council decision on arrangements for cooperation between financial intelligence units of the Member States in respect of exchanging information   | On December 2007 the Commission issued a report on the implementation of this Decision. The report shows good legal compliance by MS but underlines a lack of legal clarity on how data protection rules may affect the exchange of information between MS Financial Intelligence Units and highlights the need for possible complementary measures. These aspects are now being discussed with the MS. This may lead to a complete revision of the decision |
| 50. | <b>Organised crime / Drugs</b>                             | Simplification of Decision 2004/757/JHA laying down minimum provisions on the constituent elements of criminal acts and penalties in the field of illicit drug trafficking   | The Decision calls for the Commission to submit a Report to the Council and the Parliament by 12 May 2009 to assess measures taken by MS to comply with the Decision. Possibilities of simplification can also be assessed at the same occasion  |
| 51. | <b>Judicial cooperation / Data protection</b>              | Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data  | An on-going study will identify whether the Directive should be modified to take into account technological progress and the globalisation of data movement. Furthermore, the entry into force of the Treaty of Lisbon would provide additional possibilities, such as a single instrument, in respect of shaping the future of data protection  |

| 76. | <b>Trans-European Transport Networks</b><br><b>"TEN-T"</b> | Decision No 1692/96/EC of the European Parliament and of the Council of 23 July 1996 on Community guidelines for the development of the trans-European transport network, as amended by Decisions 1346/2001/EC, 884/2004/EC and Regulation (EC) No 1791/2006/EC   | Review envisaged, pending the outcome of a Green Paper discussion to be launched early 2009. It is, among other things, envisaged to simplify Member State's reporting requirements.  |
| 77. | <b>Intermodal transport</b>                                | Regulation (EC) No 1692/2006 of the European Parliament and of the Council of 24 October 2006 establishing the second Marco Polo programme for the granting of Community financial assistance to improve the environmental performance of the freight transport system (Marco Polo II) and repealing Regulation (EC) No 1382/2003   | Simplification measures will be proposed (December 2008) in the context of a mid-term revision of the Regulation. Eligibility thresholds are lowered, applications can be presented by single undertakings, conditions for financing of infrastructure are simplified, project duration is allowed to be extended and administrative procedures streamlined.  |
| 78. | <b>Energy / Oil</b>  | 1999/280/EC: Council Decision of 22 April 1999 regarding a Community procedure for information and consultation on crude oil supply costs and the consumer prices of petroleum products and implementing measure (1999/566/EC: Commission Decision of 26 July 1999 regarding a Community procedure for information and consultation on crude oil supply costs and the consumer prices of petroleum products)<br><br>Council Regulation (EC) No 2964/95 of 20 December 1995 introducing registration for crude oil imports and deliveries in the Community | As from end 2008, a new data transmission system is used by national authorities to communicate data to the Commission. The Market Observatory for energy carried out in 2008 a user survey to better understand the needs and to identify possible improvements of the oil bulletin. An additional survey on national data collection methods including administrative cost involved is ongoing with a view to exchange best practice. Possible modifications of the EC instrument may be envisaged thereafter (2010). |
| 79. | Electricity and Gas  | 2003/796/EC: Commission Decision of 11 November 2003 on establishing the European Regulators Group for Electricity and Gas  | Likely to be repealed following the creation of an agency for the co-operation of regulators proposed   |

### Annex 7: Simplification Rolling programme 2009

(Extract from the Commission Legislative and Work Programme 2009 - COM (2008)712)

|    | Title of action  | Type of simplification action | Description of scope and objectives  |
|----|--|-------------------------------|--|
| 1. | Commission Regulation on physical checks on exported agricultural products subject to refunds  | Revision                      | Following the 2007 Communication on the "Health Check" in the Common Agricultural Policy (CAP), the legislative proposals will provide options aiming at making the Single Payment Scheme more effective, adapting the market support instruments and addressing the new challenges facing the sector. The "Health Check" is not a fundamental reform, rather it essentially aims to ensure that the CAP functions effectively and to simplify it where possible. This initiative arises from the review clauses regarding the Single Payment Scheme and certain agricultural markets that were included in 2003/04 CAP reforms. |
| 2. | Commission Communication establishing formal recognition that a certain number of acts of Community law in the field of agriculture have become obsolete | Repeal                        | The objective of the proposal is to declare obsolete Commission legal acts that are of no practical relevance or broader interest, thus contributing to the objectives of updating and simplifying the Community acquis. Their removal will clarify the "essential" acquis of acts that are active and generally applicable.   |
| 3. | Commission Regulation on intervention on the market in skimmed milk powder   | Revision                      | The purpose of the initiative is to amend the implementing rules due to the abolition of private storage aid for skimmed milk powder (SMP) as well as to implement newly introduced rules on the standardisation of protein content in SMP. Technical clarifications and simplification (e.g. concerning the security provisions) are being introduced.  |

|    | <b>Title of action</b>  | <b>Type of simplification action</b> | <b>Description of scope and objectives</b>   |
|----|---|--------------------------------------|--|
| 4. | Revision of Commission Regulation 1973/2004 implementing the Health Check as regards the support schemes provided for in Titles IV ('other aid schemes') and IVa of that Regulation | Recast                               | Council Regulation 1782/2003 is scheduled for replacement by a new Direct Payments Regulation in 2008. The objective of the recast is to do away with obsolete provisions linked to aid schemes to be abolished or decoupled pending the outcome of the Health Check.  |
| 5. | Revision of Commission Regulation 796/2004 implementing the Health Check as regards cross-compliance, modulation and the integrated administration and control system (IACS)        | Recast                               | Council Regulation 1782/2003 is scheduled for replacement by a new Direct Payments Regulation in 2008. The objective of the recast is to establish common rules for direct support schemes under the common agricultural policy and certain support schemes for farmers.   |
| 6. | Revision of Commission Regulation 795/2004 implementing the Health Check as regards the single payment scheme   | Recast                               | Council Regulation 1782/2003 is scheduled for replacement by a new Direct Payments Regulation in 2008. The objective of the recast of Regulation 795/2004 is <i>to do away with obsolete provisions linked to the setting up of the single payment scheme introduced by the 2003 CAP reform or temporary rules linked to subsequent integration of sectors into the single payment scheme.</i> |
| 7. | Commission Regulation establishing common rules concerning buying-in under public intervention  | Recast/Revision                      | The initiative is a consequence of the Health Check proposals. The project concerns simplification and harmonisation in a horizontal legal act of the detailed rules for intervention, in particular for cereals, dairy products and meat.   |
| 8. | Council Regulation repealing a number of obsolete agricultural acts   | Repeal                               | The objective of the Regulation is to repeal Council legal acts that are obsolete and of no practical relevance or broader interest, thus contributing to the objectives of updating and simplifying the Community acquis. Their removal will clarify the "essential"  |

|     | <b>Title of action</b>  | <b>Type of simplification action</b> | <b>Description of scope and objectives</b>   |
|-----|---|--------------------------------------|--|
|     |   |                                      | acquis of acts that are active and generally applicable.   |
| 9.  | Notice on the enforcement of State aid law by national courts | Revision                             | Review of the 1995 Notice on cooperation between national courts and the Commission in the State aid field. The new Notice will support and assist national courts faced with illegal aid, by setting out the applicable Community Case-law and decision-making practice. It will also update and reinforce the support mechanisms offered to national courts. By rationalising and improving existing guidance, the Notice will simplify the tasks of national courts in State aid enforcement.   |
| 10. | Best Practices Code in State Aid                              | Revision                             | The Best Practices Code aims at establishing good practices on both the Commission's and Member States' sides with a view to increasing the efficiency, transparency and predictability of State aid procedures. Efficiency could be improved, for instance, by means of improved pre-notification contacts, incentives for more complete notifications by Member States, more standardised information exchange with Member States, as well as streamlined internal procedures. Predictability would be increased by means of quicker decision making. And Member States would obtain more transparency as regards procedural steps and foreseen deadlines. |
| 11. | Notice on a simplified procedure in State aid                 | Revision                             | The design of a simplified procedure in State aid aims at ensuring the quick adoption of decisions in straightforward notified aid cases including cases adopted on the basis of the standard assessment section of horizontal state aid instruments, as well as   |

|     | <b>Title of action</b>  | <b>Type of simplification action</b> | <b>Description of scope and objectives</b>   |
|-----|---|--------------------------------------|--|
|     |   |                                      | cases merely confirming precedents. The Notice should contribute to improving the efficiency of state aid procedures by simplifying the procedure for these types of cases.  |
| 12. | Community initiative on work-related musculoskeletal disorders  | Recast                               | Follow-up of the second phase of consultation of the social partners. The objective of this initiative is to integrate into a single legislative instrument the provisions on the protection of the health and safety of workers from the risks of musculo-skeletal disorders at work. These provisions are currently fragmented over different directives, namely Council Directive 90/269/EEC and Council Directive 90/270/EEC. A single legislative instrument would be more comprehensive, clearer and easier to apply. It will benefit employers in terms of legal clarity and workers in terms of providing better protection against the risks of musculo-skeletal disorders.   |
| 13. | Revision of Directive 2000/35 of the European Parliament and Council on combating late payment in commercial transactions | Revision                             | Several key provisions of the current Directive are unclear or difficult to implement, thereby creating various hurdles for businesses to claim their rights in case of late payment. The overall objective is to discourage debtors from paying late and to provide creditors with measures that enable them to fully exercise all their rights when paid late. The simplification would entail a clarification of the calculation of the applicable interest rate, a better description of the nature and extent of “retention of title”, a new definition of the types of commercial transactions covered by the Directive and a clearer definition of “relevant recovery costs” to include internal administrative costs linked to late payment. |

| 14. | Regulation relating to the type-approval of agricultural and forestry vehicles     | Recast                               | The proposal will simplify EC legislation on agricultural and forestry tractors by replacing existing legislation (including the present Framework Directive and the separate Directives) by one main Regulation. The proposal will repeal 24 Directives. It will introduce improved requirements for tractor brakes as well.  |
| 15. | Amendment to Annex IV to Regulation 2003/2003 on fertilizers                       | Revision                             | The objective is to ensure that CEN Standards can be considered as official methods of analysis to be used as references for official controls. Their updated versions delivered by CEN will no longer be included in the legal act but will exist in the form of separate standards to which Community law will refer - the detailed descriptions of test methods currently contained in the Annex will be deleted. |
| 16. | Directive or Regulation concerning medical devices                                 | Recast                               | The objective is to simplify and strengthen the rules in order to ensure a high level of health protection while at the same time ensuring the smooth functioning of the internal market.  |
| 17. | Regulation on type approval of Two- or Three- Wheel motor vehicles                 | Recast                               | The proposal will simplify EC legislation on 2 and 3-wheel motor vehicles by replacing existing legislation (including the present Framework Directive and the separate Directives) into one main Regulation. The proposal will repeal 14 Directives. It will introduce modern emissions legislation, ABS and automatic emergency braking for two- and three-wheelers.   |
| 18. | Proposal of a Legal Instrument to underpin development of the Shared Environmental | Revision                             | The simplification objectives cover:<br><br>- modernising and streamlining environmental reporting, to   |

In agreement with the ESS (Statistical Programme Committee), the population (focus on international operations and heavy vehicles) and sample (precision measures to be adapted to data needs) of road freight vehicles subject to reporting may be decreased. |
| 20. | Amendment to Regulation 44/2001 concerning jurisdiction, recognition and enforcement of judgments in civil and commercial matters | Revision                             | The objective is to ensure free circulation of all judgments in the EU by the abolition of <i>exequatur</i> and to adapt the provisions of the Regulation to the new international instruments in the area concerned. It will also abolish intermediary steps which citizens have to go through in order to have a judicial decision recognised and enforced abroad.   |

| 21. | Council Regulation on the reform of the common organisation of the markets in fishery and aquaculture products  | Revision                             | The common market organisation (CMO) was created to achieve the objectives laid down in Article 33 of the Treaty in the fishery sector, in particular to provide market stability and to guarantee a fair income for producers. More recent objectives focus on sustainability-supportive fishing and marketing activities. In place since 1971, the common market organisation has undergone many changes over time, and a reshaped CMO has been in operation since 1 January 2001. The effectiveness and efficiency of this policy is currently being evaluated. The proposal aims at taking account of market developments, changes in fishing activities and the shortcomings detected in the implementation of the provisions currently in force. |
| 22. | Commission implementation rules on the reformed control and enforcement framework   | Revision                             | The new rules will modernize and simplify procedures for national administrations and stakeholders and will facilitate better enforcement. Administrative burden and constraints for the sector and public administrations are to be alleviated, with an increased use of IT tools to reduce reporting obligations. All aspects related to control and monitoring of fisheries activities (declaration of catches, tolerance margins, landing declarations, transport, localisation of the fleet, etc.) will be simplified. Also new elements to address the challenges of Illegal, Unreported and Unregulated (IUU) fishing will be included.   |
| 23. | Commission Communication on formal recognition of obsolescence and four proposals repealing obsolete legal instruments in the field of the Common Fisheries | Repeal                               | Screening of the body of Community law relating to the Common Fisheries Policy (CFP) within the context of the "2006-2008 Action Plan for simplifying and improving the CFP" revealed that a number of Acts of Community law have exhausted their  |

To repeal acts still in force, the same enabling power should be used as that for the initial act. Where the legal basis for the act no longer exists, the Commission will publish a formal recognition of obsolescence through a Communication.   |
| 24. | Recast of Decisions relating to checks on insurance against civil liability in respect of the use of motor vehicles | Recast                               | <i>Over the past few years, the Commission has adopted a number of Decisions (2003/542/EC, 2004/332/EC, 2005/849/EC, and 2007/482/EC) on the abolition of insurance checks in respect of the countries acceding to the EU. The Recast aims at simplifying and clarifying the regime of these Decisions adopted under Article 2 of Directive 72/166/EC on motor insurance.</i>   |
| 25. | Recast of the Prospectus Directive  | Recast                               | Areas where legislative changes are required to improve and simplify the application of the directive will be identified in order to reduce the administrative burden on issuers, without lowering the standard of investors' protection. Among them, the deletion of information requirements that duplicate the transparency directive (Article 10), the extension of the scope of the exemption for employees share schemes (Art. 4.1. e), and the clarification of the responsibilities in case of retail cascade (art. 3.2). |
| 26. | Recast of the Market Abuse Directive  | Recast                               | In line with the Commission's Better Regulation approach, a review of the MAD (Market Abuse Directive) regime in the EU is taking place. Focus is on areas where improvements could be achieved in terms of: (i) rationalising/reducing administrative burdens concerning for example the disclosure duties on company executives, and the duty to draw up and maintain   |

| 28. | Implementing Measures for the Rapid Alert System for Food and Feed (RASFF) | Revision                             | The objective of the implementing measures is the uniform operation of the RASFF by all the members of the network by: defining the scope of the system; setting up contact points; defining the role of the Commission; elaboration and transmission of relevant notification; assessment and follow-up of a notification; defining rules for exchanging RASFF information with third countries; setting up confidentiality requirements.  |

| 30. | Recast of Directive 1999/36/EC on Transportable Pressure Equipment Directive (TPED)  | Recast                               | <p>Certain clauses have become obsolete and certain issues are currently dealt with in the international agreements on the transport of dangerous goods. Need to eliminate contradictions stemming from these international agreements taking into account transitional agreements at intergovernmental organisations level (UN for road transport, OTIF for rail). Repeal of 4 Directives on Pressure Vessels (76/767/EEC, 84/525/EEC, 84/526/EEC and 84/527/EEC) and integration of the still relevant provisions into the revision of Directive 1999/36/EC.</p> <p>It is also necessary to bring the existing directive into line with the "New Approach" rules on the free movement of goods which is in the final stages of formal adoption, <i>in line with the new legislative framework for the marketing of products</i>.</p> |
| 31. | Recast of First Railway Package legislation: simplification and modernisation of the legislative framework for access to the rail transport market | Recast                               | <p>In order to simplify the legislation, the three Directives will be merged and restructured while eliminating cross-references across the legal acts. This will lead to improved readability and hence enable better and harmonised implementation in MSs thus potentially reducing administrative burdens. Furthermore, other legal provisions, in particular institutional arrangements, such as strengthening of the powers of regulatory bodies and a strengthened cooperation of rail infrastructure managers for international services, will be enhanced to promote the emergence of a genuine internal market and to eliminate barriers to the provisions of international rail transport services. Overall by enhancing the legal and institutional framework the Commission hopes to see market access cost of railway</p> |

| 32. | Marine Equipment Directive   | Recast                               | Directive 96/98/EC has been technically amended three times since its adoption and a further two technical amendments are currently under preparation (respectively concerning the committee procedure and the technical annexes). Furthermore, the <i>new legislative framework for the marketing of products</i> will have a direct impact on a number of basic elements (notified bodies, market surveillance, and safeguard clause). Lastly, the current system of periodical technical updates is in need of an in-depth revision in order to keep pace with the legislative production of the International Maritime Organisation. It is intended to recast or to repeal the existing Directive and replace it with a new one. |
| 33. | Recast of the Community regulatory framework regarding transport of radioactive material | Recast                               | At Community level there are currently more than 30 directives, regulations and recommendations governing the transport of radioactive material. There are also non-binding international rules. Inconsistent transposition of these rules means that there is an unnecessary degree of complexity causing practical problems on the ground in Member States, including increased costs and delays. Simplification of rules and procedures would reduce this and an initial estimate puts the potential at a reduction of 50% in the labour costs and 30% in the costs to operators.   |
