DELOVNI DOKUMENT KOMISIJE

Drugo poročilo o napredku strategije za poenostavitev zakonodajnega okolja

1. UVOD

Strategija za poenostavitev zakonodajnega okolja, zasnovana oktobra 2005¹, določa tekoči program ukrepov za poenostavitev, ki jih je treba sprejeti med letoma 2005 in 2008, da bi se izboljšali kakovost in konkurenčnost pravnega reda Skupnosti in hkrati ohranili njegovi glavni cilji na posameznih političnih področjih.

To drugo poročilo o napredku, ki dopolnjuje sporočilo „*Drugi strateški pregled boljše pravne ureditve v Evropski uniji*“², opisuje v kakovostnem in količinskem smislu že dosežene rezultate, pot, ki je še pred zakonodajalcem EU, in si prizadeva dati nov zagon strategiji za poenostavitev, ki je bistveni element splošne politike boljše pravne ureditve in strategije za rast in delovna mesta Evropske unije.

To poročilo tudi kaže, da Komisija učinkovito izpolnjuje svoje obveznosti v okviru tekočega programa.

Državljeni in podjetja so že opazili otipljive rezultate in jih bodo še več, ko bodo sprejete številne pobude, ki še čakajo na obravnavo zakonodajalca. Prizadevanja so osredotočena na projekte, ki prinašajo znatne koristi interesnim skupinami, kot so mala in srednje velika podjetja (MSP) ali posamezni podjetniki, ki se morajo še prevečkrat spopadati z nesorazmernimi zakonskimi zahtevami.

Komisija bo dokončala popoln pregled pravnega reda Skupnosti s preverjanjem, ali so veljavni instrumenti še potrebni, ali je uporabljen pravilen zakonodajni slog, in ali so vse naložene obveznosti kolikor je mogoče neobremenjujoče in združljive z želenimi rezultati politike. Ta proces bo tudi opredelil nove pobude, ki bodo vključene v posodobljeni tekoči program za poenostavitev, ki bo predstavljen v začetku leta 2009. Za zagotovitev resničnih rezultatov se mora ta zagon nadaljevati še v naslednjem zakonodajnem obdobju.

Kadar koli se bo pokazala rešitev za poenostavitev življenja podjetjem, ne da bi to vplivalo na temeljne cilje politike ali povzročalo druge znatne spremembe zakonodajnega okvira, bo Komisija uporabila tako imenovani mehanizem takojšnjega ukrepanja³ za doseg zastavljenega cilja, ki je zmanjšanje upravnega bremena v EU za 25 %⁴ do leta 2012. Večji projekt, ki ga bo začela Komisija za „ugotavljanje in oceno“ upravnega bremena na prednostnih področjih, bo dal zagon tudi programu za poenostavitev.

2. STANJE TEKOČEGA PROGRAMA ZA POENOSTAVITEV

2.1. Pregled

Strategija za poenostavitev iz oktobra 2005 je opredelila začetni sklop približno 100 pobud za tekoči program za obdobje od leta 2005 do 2008. Novembra 2006⁵ je bilo dodanih 43 novih

¹ Sporočilo Komisije COM(2005) 535.

pobud in v oktobru 2007⁶ še 16, s čimer se je obseg izvajanja poenostavitve razširil na vsa področja politik in podaljšal časovni razpored do leta 2009. Program uporablja zakonodajne tehnike, kot so razveljavitev, kodifikacija in preoblikovanje⁷.

Tekoči program se izvaja v okviru predvidenega časovnega razporeda. Do sedaj je Komisija sprejela več kot polovico posodobljenega programa 2005–2009.

Komisija je realizirala 80 % pobud, ki so bile predvidene za sprejetje v letu 2007.

Do sedaj je Komisija sprejela 91 predlogov, od katerih jih je 24 tako imenovanih samostojnih aktov, sprejetih po postopku komitologije, 16 jih je sprejel zakonodajalec, 44 jih je še vedno v obravnavi zakonodajalca, v sedmih primerih pa gre bodisi za revizije, kadar zakonodajni ukrep ni bil potreben, bodisi združene pobude.

V celoti je Komisija od oktobra 2005 predložila za razveljavitev, spremembo ali nadomestitev že približno 400 pravnih aktov. To pomeni, da bo približno 300 pravnih aktov, kar je približno 5 000 strani Uradnega lista, izbranih iz registra predpisov Skupnosti. Poleg tega je Komisija od začetka svojega delovanja sprejela ukrepe za odpravo ali pa predlagala, da se iz pravnega reda Skupnosti odpravi približno 2 500 zastarelih aktov.

2.2. Že sprejeta zakonodaja

Izvajanje strategije za poenostavitev zakonodajnega okolja je podjetjem in državljanom že prineslo dejanske koristi.

2.2.1. Akti, ki jih je sprejela Komisija

Do sedaj je bilo 24 pobud za poenostavitev sprejetih kot samostojni akti Komisije po postopku komitologije (Priloga 4). Na primer:

- v letu 2005 je Komisija sprejela uredbo o določitvi znižanih pristojbin in uvedbi sistema upravne pomoči za mala in srednje velika podjetja, ki registrirajo **farmacevtske izdelke**. To malim in srednje velikim podjetjem zagotavlja 90-odstotno znižanje pristojbin za znanstvena mnenja, znižanje pristojbin za mala in srednje velika podjetja pri vlogah za dovoljenje za promet in za pridobitev pomoči na področju predpisov. Te možnosti so že razširjene na mala in srednje velika podjetja, ki delujejo na tem področju;
- pravila glede **dokazila o uvozu** v tretje države (v zvezi z **diferenciranimi izvoznimi nadomestili** za nekatere kmetijske proizvode) so bila spremenjena, da izvoznikom, ki zaprosijo za nadomestila, omogočajo uporabo računalniških podatkov o sledenju in določanju položaja kontejnerskih ladij namesto običajnih carinskih dokumentov (ki jih je v nekaterih državah težko pridobiti);
- Komisija je že sprejela priporočilo glede **trgov elektronskih komunikacij**, ki se osredotoča na zakonsko ureditev na veleprodajni ravni, in je zmanjšala od 18 na 7 število trgov, ki so lahko predmet predhodnega urejanja. Ocenjeno je, da so upravni stroški znižani za približno 25–30 % za operaterje fiksne omrežja in za približno 30–40 % za nacionalne regulativne organe (NRO). Poenostavljeni postopki pregleda trga bodo tudi omogočili dodatne prihranke NRO.

⁶ Zakonodajni in delovni program Komisije za leto 2008, COM(2007) 640.

⁷ Metodologija Komisije za poenostavitev in opredelitve s tem povezanih zakonodajnih tehnik so podrobno navedene v Sporočilu 2005.

2.2.2. *Ukrepi, ki jih sprejme zakonodajalec*

Večji del programa je glede sprejetja odvisen od zakonodajalca, običajno v okviru postopka soodločanja. Do sedaj je bilo sprejetih 16 pobud za poenostavitev v tekočem programu 2005–2009 (Priloga 5), na primer:

- Na področju kmetijstva je zakonodajalec sprejel preoblikovanje 21 skupnih ureditev trgov v enotni sistem, da se racionalizira in poenostavi skupna kmetijska politika v skupno korist kmetov, uprav in družb iz kmetijskega sektorja. Ustanovitev enotne skupne ureditve trgov bo zmanjšala obseg zakonodaje v kmetijskem sektorju, izboljšala njeno preglednost, in omogočila lažji dostop do politike. To vključuje razveljavitev skoraj 50 aktov Sveta in nadomestitev več kot 650 zakonskih členov v veljavnih uredbah s približno 200, ki omogočajo veliko enostavnejše splošno zakonodajno okolje, ne da bi pri tem spreminjali temeljne politike.
- Direktiva o pravnih sredstvih na področju **javnega naročanja**. Leta 2003 je bila vrednost tega sektorja ocenjena na 1 500 milijard EUR, kar je 16,3 % BDP EU15. Nova direktiva izboljšuje nacionalne postopke pregleda, ki jih lahko podjetja uporabijo, kadar menijo, da je javni organ nepravilno oddal naročilo. Direktiva zlasti uvaja obvezno obdobje mirovanja med objavo odločitve o oddaji naročila in podpisom pogodbe o javnem naročilu, da imajo ponudniki na voljo dovolj časa za preučitev odločitve in oceno, ali je primerno sprožiti revizijski postopek. Direktiva vsebuje dodatna pravila za zagotovitev njene učinkovitosti. Uvedba teh novih pravic in mehanizmov za zavržene ponudnike v vseh 27 državah članicah je odločilna za zagotovitev, da je naročilo na koncu oddano družbi, ki je dala najboljšo ponudbo, in za ustvarjanje zaupanja podjetij in javnosti v pravičnost postopkov javnega naročanja. Ukrepi za poenostavitev vključujejo razveljavitev veljavnih pravnih mehanizmov in potrdil, za katera podjetja niso nikoli pokazala dejanskega zanimanja in so sedaj neuporabljena.
- Direktiva o **plačilnih storitvah** prispeva k ustvarjanju „enotnega plačilnega območja“ v EU, ki bi gospodarstvu EU tako lahko prihranilo do 28 milijard EUR na leto. Cilj tega predloga je, da postanejo čezmejna plačila, ki se jih opravi s kreditno, debetno plačilno kartico ali z elektronskim bančnim nakazilom, neposredno bremenitvijo ali katerim koli drugim plačilnim instrumentom, prav tako preprosta, poceni in varna kot „nacionalna“ plačila v posamezni državi članici. Direktiva zagotavlja pravičen in odprt dostop do plačilnih trgov ter krepi in standardizira varstvo potrošnikov. Poenostavitev prinaša koristi zaradi uskladitev zahtev za dostop na trg, premagovanja razdrobitve, nastale zaradi različnih nacionalnih pravil in pravil EU o zahtevah po informacijah, in zaradi uskladitve temeljnih pravic in obveznosti uporabnikov in ponudnikov za boljšo varnost in učinkovitost. Bolj učinkovit in konkurenčen plačilni trg pomeni tudi, da Evropejci plačajo manj za osnovne bančne storitve, katerih povprečni letni strošek po EU znaša od 34 EUR pa do 252 EUR.
- Razveljavitev večine zahtev na področju **predpakiranja** je ukinila nacionalna pravila in pravila Skupnosti za približno 70 potrošniških izdelkov. Podjetja so sedaj lahko bolj prožna pri odzivanju na potrebe potrošnikov.
- Na **carinskem področju** je zakonodajalec sprejel Odločbo o e-carini, katere namen je ustvariti evropski elektronski sistem za izmenjavo podatkov med javnimi organi in podjetji. Racionalizirani carinski postopki z uporabo avtomatiziranih in med seboj povezanih carinskih sistemov bodo povečali mednarodno trgovino. Ko bo integrirani

sistem v celoti deloval, bo podjetjem prihranil 2,5 milijarde EUR letno, kar je veliko več kot odplačevanje naložbe 40–50 milijonov EUR letno, ki so jih vložile Komisija in države članice. Sprejetje posodobljenega carinskega zakonika, ki bo revidiral carinsko zakonodajo Skupnosti, je predvideno za leto 2008.

2.3. Predlogi, ki čakajo na obravnavo zakonodajalca

Približno 44 predlogov za poenostavitev trenutno čaka na obravnavo zakonodajalca. Vključujejo številne pomembne predloge, katerih sprejetje bo prispevalo k poenostavitvi zakonodajnega okolja, kot so:

- Temeljna revizija zavarovalnega prava EU (**Solventnost II**) bo izboljšala varstvo zavarovanca po vsej EU z enotnejšimi zahtevami glede solventnosti zavarovalnic ob upoštevanju obsega tveganja. Solventnost II bo spodbudila boljše obvladovanje tveganja, boljšo cenovno politiko in okrepljen nadzor, kar bo povečalo zaupanje potrošnikov. Povečala bo tudi konkurenco (zlasti za panoge masovne prodaje na drobno, kot sta avtomobilsko in stanovanjsko zavarovanje), kar bo vplivalo na zniževanje cen nekaterih zavarovanj, spodbudila bo inovativnosti produktov in izboljšala mednarodno konkurenčnost evropskih zavarovalcev. Končno bo zakonodajno okolje bolj pregledno in bolj prijazno do uporabnika z eno direktivo, ki bo nadomestila sedanji skupek pravil, vsebovan v 14 različnih direktivah;
- **Kodeks poslovanja računalniških sistemov rezervacij** je bil oblikovan za trg, ki se je znatno razvil s prodajo letalskih družb in povečanjem rezervacij prek interneta, sedaj pa je zrel za uvedbo več konkurence. Komisija predlaga, da bi dali bolj proste roke silam trga pri spopadanju s stroški rezervacij, ki jih morajo plačevati letalske družbe in potniki, in so višje, kot je treba. Povečana konkurenca bo izboljšala kakovost ponujenih storitev in zmanjšala distribucijske stroške v sektorju letalskih prevozov: stroški rezervacij za posamezen del potovanja bodo predvidoma od 0,7 EUR do 0,9 EUR nižji, tako se bo strošek v celoti znižal za 190–240 milijonov EUR letno.
- Cilj spremembe pravil, ki urejajo **elektronska komunikacijska omrežja in storitve**, je zagotoviti učinkovito konkurenco, spodbujanje naložb, utrditev notranjega trga in okrepitev interesov potrošnikov. Precejšnje zmanjšanje obsega zakonodaje se priporoča tam, kjer je jasen trend konkurence. Z neodvisno študijo o razmerju med stroški in koristmi predlaganega organa za trg evropskih elektronskih komunikacij, je bilo ocenjeno, da bodo možne gospodarske koristi 10 do 30 krat presegle svoje operativne stroške (to je 250–800 milijonov EUR), zaradi zmanjšane zakonodajne negotovosti in hitrejšega reševanja zadev. Za ponudnike storitev, odvisne od radijskega spektra, revizija uvaja več prožnosti, zmanjšuje stroške poslovanja in odpravlja ovire za nove ponudnike pri vstopu. Rezultat tega bo večja izbira za potrošnike in nižje cene teh storitev.
- Nova direktiva o **notranjem prevozu nevarnega blaga** bo uvedla tri načine kopenskega prevoza (cestni, železniški in celinske plovne poti) v enem samem zakonodajnem aktu. Predlog vsebuje enotne določbe za vse tri (kadar je mogoče) in razveljavi zastarele določbe. Razveljavljeni bosta zlasti dve direktivi o svetovalcih na področju varnosti glede nevarnega blaga in štiri odločbe o nacionalnih odstopanjih. Rezultat tega bo do uporabnika prijazno, pregledno besedilo, ki bo zmanjšalo obseg pravnega reda Skupnosti za približno 2 000 strani.
- Revizija direktive o **igračah** bo posodobila varnostne zahteve in preprečila srednje in kratkoročne škodljive učinke na otroke, hkrati pa bo izboljšala delovanje notranjih trgov za igrače. Glavni cilj revizije je posodobitev varnostnih zahtev za igrače glede njihovih

kemičnih, fizičnih in mehaničnih lastnosti. Za zagotovitev, da so na trgu EU na voljo samo varne igrače, bodo upoštevana zadnja znanstvena spoznanja. Poleg tega bo v državah članicah izboljšan način izvajanja direktive, obveze držav članic glede ustreznega in učinkovitega izvajanja nadzora trga pa bodo še večje.

2.4. Pobude Komisije v pripravi (2008–2009)

Prizadevanja Komisije se bodo v naslednjih dveh letih okrepila. Posodobljeni program 2008–2009 (Priloga 1) sestavlja 45 pobud za leto 2008 in 9 pobud za leto 2009. Prihodnje pobude za poenostavitve:

- **Revizija zakonodaje na področju prava družb, pravnega reda Skupnosti na področju računovodstva in revizije** bo odpravila ali zmanjšala vrsto upravnih zahtev, ki se sedaj štejejo za zastarele, odvečne ali podvojene. Odpravila bo nekatere zahteve po informacijah iz direktiv o gospodarskih družbah, poenostavila zahteve glede razkritja za gospodarske družbe in omogočila državam članicam, da še nadalje zmanjšajo zahteve v zvezi s poročanjem in revizijo za mala in srednje velika podjetja.
- **Revizija uredbe o splošni skupinski izjemi (GBER)** bo v enem dokumentu zbrala vse določbe o državni pomoči, izvzete od obveznosti priglasitve in tako zmanjšala upravno breme upravičencem, državam članicam in Komisiji. Nova uredba o splošni skupinski izjemi bo zajemala področja, ki jih že vsebujejo skupinske izjeme v zvezi z usposabljanjem, zaposlovanjem ter malimi in srednje velikimi podjetji, ter tudi nova področja, kot so okolje, rizični kapital in regionalna pomoč. Zelo bo izboljšala tudi dostop malih in srednje velikih podjetij do programov državne pomoči, na primer „dodatek za MSP“ bo poleg običajne veljavne osnovne pomoči za naložbe in zaposlovanje usklajen in zvišan s 15 % na 20 % za mala podjetja in s 7,5 % na 10 % za srednje velika podjetja.
- **Revizija sistema Intrastat** bo zmanjšala breme, naloženo podjetjem s sistemom zbiranja statističnih podatkov Skupnosti v zvezi s trgovinsko menjavo med državami članicami. Komisija bo v kratkem predlagala nadaljnjo poenostavitev sistema po običajnih metodah z zmanjšanjem števila postavk nomenklature carinske tarife in povečanjem pragov za izvzetje velikega števila podjetij. Ocenjeno je, da do 190 000 podjetij lahko izvzetih iz obveznosti sporočanja statističnih podatkov. Hkrati bo Komisija preučila druge dolgoročne možnosti vključno z možnim prehodom na enosmerni sistem poročanja⁸
- Prihodnja uredba o **naprednih varnostnih ukrepih in pnevmatikah** bo nadomestila približno 50 različnih direktiv z eno samo uredbo. To bo bistveno olajšalo breme državam članicam, ki jim ne bo treba več prenašati pravil ES na tem področju. Poleg tega bodo direktna sklicevanja na uredbe Gospodarske komisije Združenih narodov za Evropo (UNECE) občutno pospešila usklajevanje zakonodaje EU s pravili UNECE, kar bo industriji omogočilo, da se bo hitreje prilagajala tehnološkemu razvoju na mednarodni ravni.
- Revizija direktive o **odpadni električni in elektronski opreми (WEEE)** in direktiva o omejitvi uporabe nekaterih nevarnih snovi v električni in elektronski opreми (RoHS) bo pojasnila koncepte, olajšala njihovo izvajanje in uveljavljanje, zmanjšala upravne stroške za proizvajalce, poleg tega pa izvajalcem zagotovila bolj pregledno področje delovanja.
- Predlog okvirne direktive o **pravicah potrošnikov** bo zagotovil skupne opredelitve in uredil glavne pogodbene pravice potrošnikov in pravna sredstva. Zakonodajni okvir, ki bo

⁸ Statistike sistema Intrastat se trenutno pridobivajo z uporabo sistema, v katerega vsaka država poroča o uvoznih in izvoznih tokovih. O vsakem toku se tako poroča dvakrat.

enostavnejši in jasnejši za podjetja in za potrošnike, bo prispeval k delovanju notranjega trga in ustvarjanju zaupanja potrošnikov.

- Posodobitev in prenovitev nadzornega sistema **skupne ribiške politike** (SRP) bosta zmanjšali ovire za sektor in povečali uporabo orodij informacijske tehnologije za zmanjšanje obveznosti poročanja.

Pobude za poenostavitev, ki so zlasti pomembne za mala in srednje velika podjetja, bodo poudarjene tudi v „*Zakonu o malem gospodarstvu za Evropo*“, ki je predviden v letu 2008.

2.5. Poenostavitev po zaključitvi tekočega programa

Poenostavitev se ne konča s ciljnim programi, kot je tekoči program za poenostavitev, program za zmanjšanje upravnih bremen in program za kodifikacijo. Ista nujna zahteva po enostavnosti mora postati splošno veljavna za vse zakonodajne predloge in tudi za vse operativne postopke. Na primer:

- Na področju raziskav – ključnem elementu lizbonske strategije – so bili predlagani konkretni ukrepi⁹ za poenostavitev **7. okvirnega programa za raziskave, tehnološki razvoj in predstavitvene dejavnosti**. Upravna in finančna pravila so bila ustrezno spremenjena, upravljanje okvirnega programa in posameznih raziskovalnih projektov pa je bilo racionalizirano.
- Komisija je predlagala poenostavitev strukture programa **Erasmus Mundus** v njegovi drugi fazi (2009–13). Ukrepanje Skupnosti na področju visokega šolstva v povezavi s tretjimi državami bo postalo bolj usklajeno z racionalizacijo številnih sedanjih programov, katerih upravljanje urejajo različna pravila, čeprav v bistvu zajemajo ista področja. S tem bo ustvarjena enotna vstopna točka za interesne skupine, vključene v akademsko sodelovanje s tretjimi državami in mednarodna mobilnost.
- Komisija je posodobila štiri različna obvestila o različnih vprašanjih pravne pristojnosti in jih nadomestila z enim **prečiščenim obvestilom o pravni pristojnosti** v skladu z Uredbo ES o združitvah. To je takoj poenostavilo upravno prakso in usmerjanje.
- Uvedba „**elektronskega ribolovnega dnevnika**“ v ribištvu je zagotovila v celoti elektronski proces poročanja ribiških podatkov za ribiče in nacionalne uprave.
- Nove uredbe za obdobje 2007–2013 o kohezijski politiki so zmanjšale število skladov in korakov pri načrtovanju programov ter poenostavile finančno poslovanje in s tem povečale prožnost za lokalne organe, ki upravljajo programe na terenu. Pravila, ki urejajo Kohezijski sklad in strukturni sklad, so bila usklajena, tako da lokalni organi in upravičenci uporabljajo samo en sklop pravil za oba sklada. V istem duhu je ena uredba o izvajanju strukturnih skladov nadomestila 10 izvedbenih uredb.

Nadalje je dokončna vzpostavitev notranjega trga najprimernejši način za izboljšanje poslovnega okolja. Odprava ovir med državami članicami je povečala BDP EU za 223 milijard EUR ali 2,2 % v desetih letih po dokončni vzpostavitvi enotnega trga leta 1993. To ustreza 1 450 EUR dodatnega dohodka na gospodinjstvo. Poleg tega se je zaposlovanje povečalo za 1,4 %, kar pomeni 2,75 milijona delovnih mest. Enotni sklop pravil EU pomeni, da podjetjem ne bo treba več iskati in si razlagati 27 različnih sklopov nacionalnih pravil, prilagajati svoje izdelke ali storitve tem pravilom in potem še dokazati skladnost z njimi. Na primer:

⁹ SEC(2005) 431 Delovni dokument Komisije: poenostavitev v 7. okvirnem programu COM(2005) 119.

- Komisija je nedavno predlagala spremembo **homologacij vozil** EU z uvedbo usklajenih pravil za vozila na vodikov pogon, ki omogočajo proizvajalcem, da izkoristijo ekonomijo obsega z večjimi serijami proizvodnje za celoten evropski trg, poleg tega pa potrošnikom EU lahko zagotovijo, da ta inovativna vozila izpolnjujejo visoke varnostne in okoljevarstvene standarde. Prilagajanje sistema homologacij vozil jutrišnjim tehnologijam bo tudi omogočilo, da bo avtomobilska industrija EU z izboljšanjem svoje konkurenčnosti na trgih tretjih držav lahko držala korak s svojimi glavnimi svetovnimi konkurenti.
- Komisija je decembra 2007 predlagala novo direktivo s ciljem odprave ovir za **trgovanje z obrambnimi izdelki znotraj Skupnosti**. Do sedaj je promet takih proizvodov znotraj notranjega trga oviral cel skupek nacionalnih postopkov, ki niso le podjetjem in javnim organom nalagali upravnega bremena, ki je presegal 430 milijonov EUR na leto, ampak tudi povzročali zelo dolge roke, tudi po več mesecev. To breme je nedvomno nesorazmerno s sedanjimi potrebami nadzora, kar je pokazalo dejstvo, da so bile kljub približno 11 500 izdanim dovoljenjem za prenose znotraj Skupnosti letno v obdobju 2004–2006 zavržene samo 3 vloge. Ta predlog bo prispeval k ekonomsko in tehnološko konkurenčnejši evropski obrambni industriji, izboljšanju pogojev za mala in srednje velika podjetja pri vključevanju v razvoj in proizvodnjo oborožitve, omogočil državam članicam, da bodo po nižjih cenah zadovoljile svoje vojaške potrebe v okviru lastnih varnostnih razmer, ter prispeval k povečanju zanesljivosti dobave za javna naročila in industrijskega sodelovanja.

2.6. Instrumenti sporočanja in posvetovanje z interesnimi skupinami

Jasne in pregledne informacije o napredku pri izvajanju programa za poenostavitev so zelo pomembne za zagotavljanje zagona programa. Zato je Komisija vzpostavila spletno stran za poenostavitev¹⁰ za zagotovitev splošnih informacij o strategiji za poenostavitev in da se interesnim skupinam omogoči preverjanje napredka tekočega programa. Poleg tega je v številnih sektorjih (npr. kmetijstvo) posvetovanje s strokovnjaki v sektorju in interesnimi skupinami držav članic organizirano prek sektorskih skupin.

Trdno odločena, da zasidra poenostavitev v praktične izkušnje interesnih skupin, je Komisija jeseni 2007 vzpostavila novo spletno posvetovalno stran, da bi se seznanila s skrbmi in predlogi podjetij glede bremen, ki jim jih nalaga zakonodaja in upravni postopki na splošno. Komisija bo prispevke interesnih skupin čim bolj koristno uporabila. Čeprav so bili prvotno namenjeni za „Akcijski program za zmanjševanje upravnih obremenitev v Evropski uniji“ bodo vsi prispevki, ki obravnavajo širša vprašanja, pomembna za vsebino zakonodaje, upoštevani pri oblikovanju strategije za poenostavitev.

3. KODIFIKACIJSKI PROGRAM

Kodifikacija¹¹ je ključni element prizadevanj Komisije za zmanjšanje obsega pravnega reda Skupnosti in za njegovo boljšo dostopnost.

Program kodifikacije obsega približno 400 kodificiranih aktov, od katerih je večina zakonodajnih predlogov. Uspešno je bilo kodificiranih 87 aktov, ki so bili sprejeti in objavljeni v UL (62 aktov Komisije ter 25 aktov Evropskega parlamenta in Sveta). Teh 87 aktov nadomešča prejšnjih 348 aktov. Poleg tega 65 aktov čaka na obravnavo pred zakonodajalcem, 4 akte pa bo Komisija sprejela v kratkem. Komisija je tako že dokončala 152 kodifikacijskih aktov.

¹⁰ http://ec.europa.eu/enterprise/regulation/better_regulation/simplification/intro.htm

¹¹ Glej opombo 7.

Za dokončno vzpostavitev kodifikacijskega programa do konca leta 2008 (Priloga 2) so bili sprejeti ukrepi za odpravo zaostankov prevodov v nove jezike EU besedil, ki so v fazi kodificiranja. Zakonodajalec sprejema kodificirane akte v skladu s pravili, določenimi v medinstitucionalnem sporazumu o pospešenem delovnem postopku za uradno kodifikacijo zakonodajnih besedil z dne 20. decembra 1994.

4. MEDINSTITUCIONALNI VIDIKI

4.1. Predlogi, ki čakajo na obravnavo zakonodajalca

Za uspešno poenostavitev so odgovorni vsi tisti, ki so vključeni v postopek odločanja. Zakonodajalec je leta 2007 uspel odpraviti zaostanke predlogov iz programa za poenostavitev za obdobje 2003–2004.

Vendar 44 predlogov iz tekočega programa za obdobje 2005–2009 še vedno čaka na obravnavo pred zakonodajalcem (Priloga 3). Kadar gre za direktive, je treba potem pravila ES prenesti v nacionalno zakonodajo. Zato se lahko zgodi, da bo preteklo še nekaj let, preden bodo državljani in podjetja lahko uživali (in občutili) koristi poenostavitve.

Komisija je zato spodbudila druge institucije, da sprejmejo predloge za poenostavitev z najkrajšimi možnimi roki.

4.2. Poenostavitev in druge institucije

V okviru lizbonske strategije za rast in delovna mesta Svet za konkurenčnost spremlja izvajanje načrta za boljšo pravno ureditev in poročilo o napredku na koncu vsakega predsedovanja, z navedbo med drugim tudi napredka tekočega programa za poenostavitev. Medtem ko Komisija pozdravlja stalen interes Sveta za boljšo pravno ureditev na splošno in zlasti poenostavitev, opaža, da se delovne metode Sveta za preučitev predlogov za poenostavitev še niso bistveno spremenile, kljub zavezi v medinstitucionalnem sporazumu o boljšem oblikovanju zakonodaje.

V svoji resoluciji o strategiji za poenostavitev zakonodajnega okolja¹² je Evropski parlament pozdravil kodifikacijski program Komisije in se strinja, da je treba program z poenostavitvijo spodbuditi in podpreti z ustreznimi nacionalnimi pobudami za poenostavitev. Parlament tudi poziva vse tri institucije, da sklenejo medinstitucionalni sporazum o pospešenem delovnem postopku za ukrepe za poenostavitev. Komisija ceni konstruktivno podporo Parlamenta in že sprejeti ukrep za izvajanje načrta za boljšo pravno ureditev. Komisija zlasti pozdravlja spremembo notranjih postopkov Parlamenta za preverjanje kodifikacije in predlogov za preoblikovanje, ki razjasnjuje razdelitev odgovornosti med odbori in preprečuje, da bi bili kodificirani deli po nepotrebnem spremenjeni glede vsebine.

Komisija zato spodbuja Svet in Parlament, da zagotovita hitri sprejem svojih predlogov za poenostavitev, in da se vsebina poenostavitve med postopkom obdrži.

4.3. Sodelovanje z Evropskim ekonomsko-socialnim odborom in Odborom regij

Komisija je skušala bolje organizirati anketiranje organizirane civilne družbe glede kakovosti pravne ureditve pravnega reda Skupnosti.

Na zahtevo Komisije je Evropski ekonomsko-socialni odbor septembra 2007 izdal svoje mnenje o obsegu poenostavitve zakonodajnega okvira v strojnem sektorju. Ta bi morala zajeti pravila, ki so posebna za sektor, in širšo zakonodajo, ki zadeva stroje, na primer v zvezi z

¹² EP sklicna številka: A6-0271/2007 / P6_TA-PROV(2007)0365

zdravjem, varnostjo in varstvom okolja. Komisija namerava nadaljevati to sodelovanje in je na Odbor že naslovila podobne zahteve, da bi pridobila nadaljnja poročila o drugih ključnih sektorjih, kot so gradbeni sektor in poslovne storitve.

Komisija tudi pozdravlja poročilo o boljši pravni ureditvi, ki ga je oktobra 2007 sprejel Odbor regij¹³.

5. SKLEPI / ZAKLJUČNE OPOMBE

Skrajšanje upravnih postopkov je zdaj trdno zasidrano v političnem načrtu Komisije. Prav tako kakor druge komponente načrta za boljši pravni red, ki ga je pripravil Komisija ob začetku svojega mandata, je strategija za poenostavitev dosegla ustaljeno hitrost, njene koristi pa se že občutijo. Komisija bo končala pregled približno 95 000 strani pravnega reda Skupnosti, da bo določila možna področja, na katera bi se lahko osredotočile dejavnosti poenostavitve, in vključila rezultate v posodobljeni tekoči program za poenostavitev, ki bo predstavljen v začetku leta 2009. Komisija je odločena izpeljati do konca sedanji tekoči program in kolikor je mogoče poenostaviti, oklestiti in posodobiti pravni red Skupnosti. Metoda je bila uporabljena v praksi in je dala dobre rezultate.

Vendar je jasno, da zakonodajnega okvira ne more izboljšati Komisija sama. Bolj kot kdaj koli je bistvenega pomena resnična, usklajena in odločna zaveza na vseh zakonodajnih ravneh za prenos zelenih političnih namer v otipljive rezultate in zagotovitev, da bodo izpolnjena dejanska pričakovanja državljanov in podjetij. Evropski parlament in Svet si na svoji strani delita institucionalno odgovornost, da predloge Komisije privedeta do končne faze sprejetja. Do danes je ne glede na priznana prizadevanja sprejetih manj kot četrtina vseh predlogov za poenostavitev, ki jih je predložila Komisija in jih mora sprejeti zakonodajalec. Očitno je nujno, da se bistvo poenostavitve teh predlogov ohrani med postopkom odločanja.

Nacionalni, regionalni in lokalni organi, katerih naloga je prenesti in izvajati zakonodajo EU, si morajo prizadevati, da na isti način dokončajo delo, opravljeno v Bruslju. Prepogosto pozni prenos ali pa pretiravanje pokvarijo učinek poenostavitve pravil EU. Pričakuje se, da bo do sedaj opravljeno delo za ugotavljanje in ocenitev upravnega bremena na nekaterih področjih politike dalo zanimive rezultate v tem pogledu. V skladu s svojim nedavnim sporočilom „Evropa rezultatov – uporaba prava Skupnosti“ bo Komisija okrepila svoja prizadevanja za preprečevanje kršitev prava ES z izboljšanjem kakovosti pomoči, ki jo nudi državam članicam za olajšanje pravnega prenosa in uporabe direktiv.

Ker se večina zakonodajnega okolja ne oblikuje na ravni Skupnosti, je treba programe za poenostavitev razviti ali pa izboljšati na nacionalni (in po potrebi na regionalni) ravni, da bi se zmanjšale gore papirja, ki nastajajo neodvisno od zakonodaje EU. V prihodnosti bo Komisija dala več poudarka temu vidiku, kadar bo preučevala nacionalne programe za reformo, predložene v okviru programa lizbonske strategije.

ANNEX 1

Simplification Rolling programme (2008-2009)

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
2008¹⁴				
1.	Legislative proposals arising from the Communication on the 'Health Check' in the Common Agricultural Policy	Revision	Following the 2007 Communication on the "Health Check" in the Common Agricultural Policy (CAP), the legislative proposals will provide options aiming at making the Single Payment Scheme more effective, adapting the market support instruments and addressing the new challenges facing the sector. The "Health Check" is not a fundamental reform, rather it essentially aims to ensure that the CAP functions effectively and to simplify it where possible. This initiative arises from the review clauses regarding the Single Payment Scheme and certain agricultural markets that were included in the 2003/04 CAP reforms.	
2.	Commission Regulation on information and promotion actions for agricultural products on the internal market and in third countries	Revision	This initiative has as objective to establish the conditions regarding co-financing of information and promotion programmes for agricultural products in the internal market and in third countries. It will take the form of a consolidation of two existing Commission Regulations ((EC) No 1071/2005 and (EC) No 1346/2005).	X

¹⁴ As adopted in the Commission Legislative and Work Programme of the Commission 2008 - COM(2007) 640.

3.	Private Storage: Commission Regulation laying down common rules for private storage of agricultural products under Common Agricultural Policy	Revision	The aim of the proposal is to replace multiple sectoral rules by horizontal ones and to simplify management mechanisms relating to the private storage of agricultural products. Existing sectoral provisions, which may vary from one sector to another, will be examined with a view to eliminating unnecessary provisions and to harmonising the system of private storage.	
4.	Council Regulation amending Regulation (EC) No 1234/2007 establishing a common organisation of markets (CMO) and on specific provisions for certain agricultural products (single CMO regulation)	Revision, recast and repeal	The single common market organisation (CMO) regulation, scheduled for adoption by Council in October 2007, merges existing CMOs into a single text. It does not modify policy but streamlines and harmonises legislation. Various substantive amendments were made in the meantime to the existing CMOs. This is notably the case in the milk, the sugar and the fruit and vegetables sectors, It is important to incorporate these amendments into the single CMO in order to achieve the aim of having one single simplified legal text which will facilitate the access to the existing legislation and thus create a much higher degree of transparency and legal clarity. The initiative thus concerns the subsequent Commission proposal.	X
5.	Milk Package (two separate initiatives): 1) Commission Regulation laying down certain implementing rules with regard to intervention for butter 2) Commission Regulation laying down certain implementing rules with regard to intervention for skimmed milk powder	Revision	The purpose of the initiative is to simplify the procedures relating to intervention buying of butter, to abolish national butter quality grades, and to abolition private storage aid for cream and skimmed milk powder. Technical clarifications and simplification (e.g. concerning the security provisions) will improve the readability of the text.	X

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
6.	Streamline Controls: Amendment of Commission Regulation (EC) No 796/2004 regarding the detailed rules of cross compliance and the integrated administration and control system	Revision	This proposal stems directly from the Commission report to the Council on the application of the system of cross-compliance (COM(2007) 147). Its amendments will lead to simpler and more effective rules concerning the controls on direct payments to farmers with regard to the selection of the control sample, the timing of these controls, and the specific rules concerning on the spot checks.	X
7.	Starch Production Refunds: Commission Regulation amending Regulation (EEC) No 1722/93 laying down detailed rules for the application of Council Regulation (EEC) No 1766/92 concerning production refunds in the cereals sector	Revision	Objective of this initiative is the simplification of control procedures by increasing the threshold for special control requirements. It will simplify the business environment in which EU starch producers operate by eliminating the unnecessary / disproportionate administrative measures related to the control on modified starches This proposal has been elaborated following the consultation of NGOs/stakeholders.	X
8.	Controls of export refunds: Commission Regulation amending Regulations (EC) No 2090/2002, (EC) No 3122/94 and (EC) No 800/1999 as regards physical and substitution controls in the framework of export refunds on agricultural products	Revision	Modification of Regulation (EC) No 2090/2002 laying down detailed rules for applying Council Regulation (EC) No 386/90 as regards physical checks carried out when agricultural products qualifying for refunds are exported.	X
9.	Fresh fruit and vegetables: proposal for a Commission Regulation laying down the marketing standards for fresh fruit and vegetables and establishing requirements on checks on conformity to these marketing standards	Revision	The objective of the proposal is to merge 34 regulations on marketing standards for fresh fruit and vegetables into one regulation, reduce the list of products covered by marketing standards and rationalise checking operations.	X

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
10.	Common market organisation of wine: amendment of the Council Regulation establishing the single Common Market Organisation Regulation (EC) No 1234/2007 to include the provisions with regard the common market organisation of wine.	Revision	The amendment will include the specific rules concerning the common organisation of the wine market into the general rules concerning the organisation of the common market in agricultural produce. This will clarify and simplify the EU legislation.	X
11.	Commission Regulation on the application of Articles 87 and 88 of the Treaty to regional aid, SME, R&D, environmental aid, employment, training. (General Block Exemption Regulation - final adoption)	Revision	The final objective pursued by the Commission is to group all existing Block Exemption Regulations into one single Regulation for the first time ever. This will bring a qualitative impact in terms of clarity, predictability and transparency of EU rules for business and national and regional authorities. The new GBER will cover areas already covered by block exemptions (training, employment, SME) and new areas (environment, risk capital, regional aid). Texts on research and capital risk were adopted in 2006, but those applicable to the environment will be adopted in 2007. Finalisation of the draft new GBER is scheduled for 2007 and formal adoption by the Commission in 2008.	
12.	Council Directive 2001/23/EC on the approximation of the laws of the Member States relating to the safeguarding of employees' rights in the event of transfers of undertakings, businesses or parts of undertakings or businesses	Revision	Directive 2001/23/EC does not contain any provisions on conflict of laws. As a result, there is a lack of clarity as to how to apply the provisions of the Directive to cross-border transfers. The aim of the proposal - to be made by the Commission following the two phases of consultation of social partners - is therefore to clarify the application of the Directive to cross-border operations. The proposal would increase legal certainty for economic and judicial agents and result in costs savings for undertakings and better protection for workers. <i>Following the results of the first phase of consultations which took</i>	

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
			<i>place in November 2007, it appears that the revision of the Directive is not necessary.</i>	
13.	Community initiative on work-related musculoskeletal disorders	Recast	The objective of this initiative is to integrate into a single legislative instrument the provisions on the protection of the health and safety of workers from the risks of musculo-skeletal disorders at work. These provisions are currently fragmented over different directives, namely Council Directive 90/269/EEC on the minimum health and safety requirements for the manual handling of loads and Council Directive 90/270/EEC on the minimum health and safety requirements for work with display screen equipment. A single legislative instrument would be more comprehensive, clearer and easier to apply. It will benefit employers in terms of legal clarity and workers in terms of providing better protection against the risks of musculo-skeletal disorders.	
14.	Revision of the Pharmaceutical "Variations" Regulations: change to the legal basis, in Directives 2001/83/EC on the Community code relating to medicinal products for human use and 2001/82/EC for veterinary use	Revision	The objective is to simplify the rules concerning post-licensing changes to medicines (so-called 'Variations' Regulations). Administrative management of these rules currently mobilise more than 60% of the human resources and financial costs of companies' regulatory departments. In some cases, this burden may hinder innovation by preventing the introduction of changes that are beneficial to patients and society. The objective of this initiative is to reduce the administrative burden for industry by streamlining the circumstances obliging industry to fill applications for variations of human and	

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
			veterinary medical products. The current legal basis for implementing rules on changes to the marketing authorisation doesn't allow the Commission to set rules for purely national marketing authorisation. This legal basis should be widened to close the gap for harmonisation. This initiative aims at changing the legal basis for Directives: 2001/83/EC on the Community code relating to medicinal products for human use and Directive 2001/82/EC on the Community code relating to medicinal products for veterinary use.	
15.	Revision of the pharmaceutical "Variations" Regulations: simplification and modernisation of Regulation (EC) No 1084/2003 and (EC) No 1085/2003	Revision	The objective is to reduce the administrative burden for industry by simplifying the rules for variations of human and veterinary medicinal products. The Variations regulation are implementing rules adopted by the Commission on changes to the marketing authorisation of pharmaceuticals.	
16.	Regulation on Advanced Safety Features and Tyres	Revision	The proposal will simplify EC legislation in the domain of vehicle safety by replacing existing legislation in the area into one main Regulation. It will include electronic stability control and low rolling resistance tyres. The proposal will repeal some 50 separate Directives and will replace them, where appropriate, with references to UNECE Regulations. The beneficiaries of the simplification aspect of this proposal will primarily be vehicle manufacturers and national approval authorities. Replacing Directives with a Regulation will also ease the administrative burden on the Member States since they would not have to transpose legal acts in the domain of vehicle safety in the future. Furthermore, references to UNECE Regulations will avoid the existing duplication between EU and UNECE law and will thus lead to "better regulation".	

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
17.	Textiles: simplification and replacement by a single regulation	Revision	The replacement of 3 Directives by 1 Regulation will simplify procedures for Member States, companies and the Commission leading to shorter periods for adoption of new fibre names. The standard methods of quantitative analysis of binary and ternary textile fibre mixtures currently included in two of the directives are to be transferred to the standardisation process. This means that consumers and companies could benefit faster from the use of new innovative products. Innovation and technological developments will be thus encouraged. In addition, the legal nature of the legislation (Regulation) will facilitate the application of technical adaptations by the Member States.	
18.	Pressure Vessels and Transportable Pressure Equipment	Repeal	The objective is to repeal 4 Directives on Pressure Vessels (76/767/EEC, 84/525/EEC, 84/526/EEC, 84/527/EEC) and integration of the still relevant provisions into the revision of Directive 99/36/EC (Transportable Pressure Equipment).	
19.	Metrology: extension of the scope of Directive 2004/22/EC on measuring instruments and repeal of 8 "old approach" methodology Directives	Repeal	The objective is to provide for a coherent legal framework for legal metrology. The extension of the scope of the Directive is the legal prerequisite for the repeal of the following "old approach" Directives.	
20.	Eco-management and audit scheme: revision of the Regulation (EC) No 761/2001 of 19 March 2001 allowing voluntary participation by organisations in a Community eco-management and audit scheme (EMAS)	Revision	The revision aims at improving environmental performance of the organisations participating and increasing participation from both industrial and public sector. Legal compliance and environmental performance improvement of the participating organisations will be facilitated by providing access to advice on environmental legal obligations and guidance on the best environmental management practice. Administrative burden will be reduced for large corporations	

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
			by allowing corporate registration and for small organisations by cluster registration. All participating organisations will benefit from reduced procedural requirements, simplified rules for the use of logo and harmonised rules for accreditation, verification and registration. In addition SMEs and small local authorities will benefit from reduced verification and reporting obligations and lower registration fees. Synergies with other environmental management systems will be facilitated. Incentives and regulatory relief for participating organisations by the member states will be encouraged.	
21.	Eco-label award scheme: revision of Regulation (EC) No 1980/2000 of the European Parliament and of the Council of 17 July 2000 on a revised Community eco-label award scheme	Revision	The revision aims at enhancing effectiveness and market impact by increasing the range of eligible product groups and the number of eco-labelled goods and services actually available to the consumer. For this purpose, the procedure of developing and adopting eco-label criteria will be thoroughly changed and simplified. Economic stakeholders will be involved to a greater extent into the process, thereby increasing ownership and self-regulatory aspects of the scheme, whereas the administrative burden put on Member States will be reduced. Once the criteria are adopted, it will be easy for economic operators to apply for the award of the eco-label to their products. Synergies with existing eco-labels at national level will be facilitated and limits will be put on the costs and fees Member States' authorities may charge on the applicant. Furthermore, the criteria should be defined in such a way that they can be easily used for the purpose of green public procurement.	

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
22.	Biocides: revision of the legislation on the placing of biocidal products on the market	Recast	This proposal follows the 2007 Report on the implementation of the Biocides Directive (98/8/EC). The objective is to provide a revised legal framework for regulating the placing on the market of biocidal products. The revision aims to address concerns regarding complexity and the cost, as well as the availability of certain biocidal products, and bring about a significant simplification of the current legislative framework and procedures. The revision of the biocides legislative framework will bring it in line with the EU Chemicals policy (REACH Regulation).	X
23.	WEEE: revision of Directive 2002/96/EC on Waste Electric and Electronic Equipments	Revision	The revision of the Directive 2002/96/EC will examine possibilities to increase the efficiency and effectiveness of the directive in achieving its environmental goals and eliminate any unnecessary costs to business, consumers, NGOs and public authorities arising from implementation of the directive. The revision will concern the targets, scope, treatment requirement and the operation of the producer responsibility provisions.	
24.	RoHS: revision of Directive 2002/95/EC on the limitation of the use of certain hazardous substances in the electric and electronic equipments	Revision	The revision aims at clarifying concepts and facilitate the implementation and enforcement while increasing the environmental benefits. It will enhance legal certainty for all stakeholders and will facilitate implementation by manufacturers by streamlining the mechanism for granting exemptions and enforcement by national authorities through market surveillance and administrative cooperation clauses. It will furthermore provide a more transparent level playing field for manufacturers and simplify procedures through introduction of harmonised compliance checking. Most of these measures will also enhance the internal market effect of the Directive and reduce	

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
			administrative costs for administrations and manufacturers.	
25.	Ozone layer: revision of Regulation (EC) No 2037/2000 on substances that deplete the ozone layer	Recast	As the production and consumption of the substances covered have been reduced or phased out, many provisions of the Regulation, after seven years in force, need to be repealed or updated. Other provisions may benefit from simplification such as clarification of definitions and procedures and interaction with other pieces of legislation. This will reduce the cases of ambiguous interpretation and the risk of infringements and consequent administrative burdens. In particular, most of the administrative cost reduction will result from ending exemption provisions on some uses of ozone depleting substances. The beneficiaries will be the Member States and the Commission. Overall, the cost savings from ending the exemptions is expected to exceed any additional cost associated with new control measures to combat illegal trade of ozone depleting substances.	
26.	SEIS: legislative proposal to follow up the Communication on a Shared Environmental Information System (SEIS)	Revision	Following the 2007 Communication the Commission will adopt legislative proposals underpinning the development of SEIS that could address reporting streamlining and/or coherence of approaches to monitoring and information. This initiative aims to improve the availability, quality and comparability of data, avoid redundancies in reporting requirements to Member States and therefore, the administrative burden, remove obstacles related to information accessibility and enhance the coherence of monitoring systems and	X

			indicators.	
27.	Revision of Regulation (EC) No 638/2004 of the EP and of the Council on Community statistics relating to the trading of goods between Member States	Revision	Simplification of Intrastat with a view to alleviate the statistical reporting of economic operators, in particular SMEs, taking into account the outcome of the ongoing pilot project of administrative costs and a future feasibility study to analyse workability of a collection system limited to one flow.	
28.	Modernisation and recast of the CFP control system under Regulation (EC) No 2847/93	Recast	The main objectives are the review, harmonisation and simplification of existing rules - Regulation (EC) No 2847/93 - in the fisheries control area. The modernisation of the procedures will facilitate a better enforcement by alleviating the burden and constraints for the sector and public administrations and increasing the use of IT tools to reduce reporting obligations (e.g. reducing administrative burdens). It would be also of interest for NGOs which campaign for stringent and effective rules.	

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
29.	Proposal for a Commission Regulation laying down implementing rules for the collection and management of data needed to conduct the CFP	Revision	The proposal is intended to establish implementing rules according to the new framework Council Regulation on data collection, currently under discussion at the Council. The main innovations will include the support for new approaches such as fleet and area based management and the move towards the ecosystem approach as well as the promotion of a more regional approach to data collection. Moreover, new provisions for the access to data are to be included.	X
30.	Revision of the company law, accounting and auditing acquis	Revision	Measures to simplify the company law environment for companies in the context of the "Better Regulation" framework.	
31.	Consolidation of accounting standards and interpretations endorsed for use in the EU	Recast	Commission will prepare a consolidated version of all International Financial Reporting Standards (IFRS) in force as per 31.12.2007. It will enable constituents to refer to only one Regulation as it will contain all endorsed IFRS. In this context any translation errors contained in the current Regulations will be corrected.	
32.	Recasting - Codification Motor insurance Directive	Codification	Codification of the current 6 Directives into one single Motor Insurance Directive in order to have a motor insurance acquis more comprehensible, easier to apply and more effective in achieving its goals.	

	Title of action	Type of simplification action	Description of scope and objectives	Additional initiatives to COM (2005) 535 and COM(2006) 690
33.	Proposal for a Framework Directive on Consumer Contractual Rights	Revision	The overall aim of the revision of the acquis, is to simplify and improve the coherence of the consumer regulatory framework and thus enhance legal certainty both for consumers and business. The legal instrument will be a combination of codification and repeal of parts of existing directives and enactment of new rules. The revision will be based on a mixed approach consisting of the adoption of a horizontal instrument, underpinned whenever required by vertical revisions of existing directives. This framework instrument would systematise and regulate in a uniform fashion common features of the consumer acquis. The instrument would provide common definitions and regulate the main consumer contractual rights and remedies. It would also regulate consistently the contractual aspects of sales which are currently scattered across several Directives.	
34.	Simplify procedures of listing and publishing information in the veterinary and zootechnical fields	Revision	The general objective is to harmonise and simplify, essentially by means of electronic tools, the current procedures for listing, updating and publishing information in the veterinary and zootechnical fields such as lists of approved animal health establishments and breeding organisations in Member States and Third Countries and lists of certain national reference laboratories. 22 Council acts are concerned.	X
35.	Harmonisation of Maximum Residues Levels (MRL) for pesticides	Revision	The main objective of this proposal will concern the transfer and update by comitology of the list of MRLs (Annex II) and temporary MRLs (Annex III) based on European Food Safety Agency (EFSA) assessment and mathematical models/expert calculations. The proposal will be a final step towards harmonisation of divergent national MRLs.	X

			Completion of the replacement of 4 Directives by one Regulation.	
36.	Review of the provisions related to the total feed ban	Revision	A ban on the feeding of mammalian meat and bone meal (MBM) to cattle, sheep and goats was introduced as of July 1994. This partial ban was extended to a total EU wide suspension on the use of processed animal protein in feed for any animals farmed for the production of food on 1 January 2001 with some exceptions like the use of fish meal for non-ruminants. Any presence of prohibited constituents of animal origin in feed is considered as a breach of the feed ban i.e. the zero-tolerance. Following the adoption of the TSE Road map the Commission issued a Commission staff working paper i.e. Work Programme on TSE [SEC(2006) 1527] on future legislative actions in the field of transmissible spongiform encephalopathy. One of the topics concerns a revision of the feed ban provisions. The starting point when revising the current feed ban provisions should be risk-based but at the same time taking into account the control tools in place to evaluate and ensure the proper implementation of this feed ban. 37.	Revision of food safety in EU Switzerland trade in agricultural products - Decision n° 1/2008 of the Joint Veterinary Committee set up by the Agreement between the European Community and the Swiss Confederation on trade in agricultural products amending appendix to Annex 11 to the Agreement - Decision to amend Commission Decision 2001/881/EC on import controls to abolish border inspections posts between EC and Switzerland	Revision	The revision of the safety provisions will consist of: - Completion of the equivalence determination between the Swiss legislation related to food safety and veterinary policies including border veterinary controls and import conditions, updating of the content of the Agreement with regard to legislations adopted since the last Agreement modification. - As Switzerland has accepted to apply the EC acquis in relation to animal health, food safety and hygiene controls, a uniform high level of protection will therefore exist in the EC and Switzerland. This permits the abolition of border controls on trade in animals and animal products between the two.	X
38.	Recast of basic safety standards legislation for the protection against the dangers arising from exposure to ionising radiation	Recast	Recast into a single Council Directive of relevant Euratom acts on radiation protection including a substantial revision of the Basic Safety Standards (BSS) directive. The objective is to bring the BSS directive in line with the forthcoming recommendations of the International Commission on Radiological protection (ICRP), when available. At the same time the legislation in the field of radiation protection has to be simplified.	
39.	Legislative proposal revising Council Directive 2006/67/EC with the aim of strengthening the European emergency oil stocks system	Revision	The current system of emergency oil stocks shows limitations and shortcomings on several accounts. The provisions of the existing legislation will be revised in order to create a system for coping with oil supply disruptions. The new proposal will replace existing Directives and contribute to simplification of EU legislation.

40.	Recasting of Directive 2002/91/EC of 16 December 2002 on the Energy Performance of Buildings	Recast or Revision	The Energy Performance of Buildings Directive makes certificates for the energy performance of buildings mandatory when buildings are constructed, sold or rented out and requires minimum energy performance requirements for new buildings and existing building which undergo major renovation. Furthermore, the Directive requires regular inspections of boilers and air-conditioning systems in order to guarantee their energy efficient operation. An amended Directive could enlarge the scope to more buildings, strengthen and specify some of these requirements and add, for instance, financing aspects. The changes under consideration aim at overcoming multiple barriers that hinder the utilization of the vast potential for energy demand reductions in the buildings sector. The recasting of the Directive is part of package on the Strategic Energy Review and included in the Energy Efficiency Action Plan. The amendments will cover some articles of the Directive and add new ones. The "simplification" will consist of using the "recasting" technique to facilitate reading and comprehension for the implementing authorities and for the many stakeholders affected.	X
41.	Recast of Council Directive 92/75/EEC of 22 September 1992 on the indication by labelling and standard product information of the consumption of energy and other resources by household appliances	Recast	Amend the existing framework Directive to enlarge its scope (beyond domestic appliances) and update for modern communication tools (e.g. internet) to enhance public/consumer awareness on efficient products. The simplification will be obtained by using the recasting technique for consolidating the original Directive with its amendment in one single document.

42.	Proposal to recast the legislation concerning the "first railway package" following the report in 2006 of its implementation, in particular for the requirements concerning the relations between infrastructure managers and railway undertakings	Recast	The first and successive railway packages are legal instruments to achieve the Community's objective to create a European Railway Area through market opening, as well as technical and regulatory market integration. As rail markets transform, an ongoing review of the suitability of the EU legal framework appears appropriate with possible simplification and streamlining. The Commission intends to present a communication accompanied by a proposal for modification/recast of the existing acts, especially Directives 91/440/EEC and 2001/14/EC. The political goal is to enhance the competitiveness of rail transport in Europe and to hence contribute to achieving the objectives of the Lisbon strategy. The recast aims at a simplification of the text of the three Directives of the 1st railway package by merging them into one legal act, a 'railway access code'. By eliminating existing cross-references between the Directives the reading and implementation will be come easier for the implementing authorities and the many stakeholders affected.	
43.	Revision of the Council Directive 94/56/EC establishing the fundamental principles governing the investigation of civil aviation accidents and incidents and of Directive 2003/42/EC on occurrence reporting in civil aviation	Revision or Recast	The older directive needs to be modernised following the establishment of EASA and following the advice of the Group of Experts established by EC Decision 2003/425/EC. In addition the newer directive needs to be built on to create a minimum set of centralised functions, including a database to allow appropriate entities to carry out trend analysis or other studies, and keep track of safety recommendations, while providing information to the general public. Both directives will be replaced by a single piece of legislation. The objective of the simplification is to take advantage of the necessary revision of the Directive 94/56 to adapt it to recent developments by merging it with Directive 2003/42/EC to create a single legislative act as both

			directives deal with the use of feedback information to improve accident prevention.	
44.	Modernise the Marine Equipment Directive 96/98/EC	Recast or Revision	The objective is to modernise and reform the existing system established by Council Directive 96/98/EC on marine equipment. Its main objectives are: 1) to produce a consolidated version of the text following the successive amendments of the Directive 2) to improve the functioning of the Directive's system by addressing the existing shortcomings ; 3) to adapt it to the reform of the New Approach. It is intended to abrogate the existing Directive and replace it with an entirely new one, while recourse to recast is not excluded. At present, the Directive needs periodic amendments in order to keep pace with the safety requirements and technical standards produced by the International Maritime Organisation as well as the international and European standardisation bodies. This produces an inevitable mismatch between the European and international regulatory frameworks, sometimes spanning several years, whose correction will greatly facilitate the work of the sectors concerned and thus favour the competitiveness of the European marine equipment industry. Furthermore, the adaptation of the directive to the new regulatory framework for the free movement of goods (revision of the new

			approach) is expected to improve the readability of this instrument and reduce the administrative burden on the industry. Timing of adoption is conditional on significant progress being achieved by December 2007 in the legislative process as regards the revision of the New Approach.	
45.	Transport of radioactive material	Recast	The objective is to update and simplify the Community regulatory framework for transporting radioactive material There are currently more than 20 Directives, Regulations and Recommendations governing the transport of radioactive material within the EU. Harmonisation will lead to simplification of rules and procedures.

46.	Amendment to Annex IV to Regulation (EC) No 2003/2003 on fertilizers	Revision	It is intended to amend Annex IV of Regulation (EC) No 2003/2003 in order to ensure that CEN Standards can be considered as official methods of analysis to be used as reference for official controls. Their updated version delivered by CEN will no longer be included in the legal act but will exist in the form of separate standards to which the Community law will refer – the detailed description of test methods currently contained in the Annex will be deleted.	
47.	Repeal of 24 Directives on agricultural and forestry tractors	Repeal	The proposal will simplify EC legislation on agricultural and forestry tractors by replacing existing legislation (including the present Framework Directive and the separate Directives) by one main Regulation. It will introduce improved requirements for tractor brakes as well.

48.	Simplification of Directives concerning medical devices, active implantable medical devices, blood and plasma	Recast	The objective is to simplify and strengthen the rules in order to ensure a high level of health protection while at the same time ensuring a smooth functioning of the internal market.	
49.	Repeal of 14 Directives on two and three wheelers	Repeal	The proposal will simplify EC legislation on 2 and 3-wheel motor vehicles by replacing existing legislation (including the present Framework Directive and the separate Directives) by one main Regulation.. It will introduce a) modern emissions legislation b) ABS and c) Automatic emergency braking for 2 and 3-wheelers.	X
50.	Mutual acceptance of personnel licences and harmonisation of technical requirements in civil aviation	Repeal	Repeal of Council Directive 91/670 on mutual acceptance of personnel licences for the exercise of functions in civil aviation and Council Regulation 3922/91 on the harmonisation of technical requirements and administrative procedures in the field of civil aviation.

51.	Recast of Regulation (EC) No 3821/85 on recording equipment in road transport	Recast	Enhancing road safety, fair competition and adequate working conditions for professional drivers. More specifically: - improve the capacity of the system to resist to attempts to tamper with or alter the data on driving time and speed. - reduce administrative costs for undertakings which use the tachograph on their fleets and for control officers carrying out checks. The Regulation were amended 11 times and have to be simplified.	
52.	Proposal for a Council Directive amending Directive 77/388/EEC as regards the VAT treatment of public authorities and the exemptions for certain activities in the public interest	Review	The proposal aims at ensuring a more <u>harmonised</u> and <u>neutral</u> VAT system. Harmonisation: due to certain options and vague definitions, the practical application of the provisions related to public authorities varies widely among Member States creating differences in the VAT treatment of public authorities between Member States. Neutrality: distortions of competition between the public and the private sector and several economic inefficiencies as well as tax avoidance schemes are the main disadvantages of the current rules.
