Subject:	Proposal for a Regulation of the European Parliament and of the Council introducing a screening of third country nationals at the external borders and amending Regulations (EC) No 767/2008, (EU) 2017/2226, (EU) 2018/1240 and (EU) 2019/817 – Letter to the Chair of the European Parliament Committee on Civil Liberties, Justice and Home Affairs (LIBE)

Following the Permanent Representatives Committee meeting of 8 February 2024 which confirmed the final compromise text with a view to agreement, delegations are informed that the Presidency sent the attached letter, together with its Annex, to the Chair of the European Parliament Committee on Civil Liberties, Justice and Home Affairs (LIBE).

Brussels, 8 February 2024

Mr Juan Fernando LÓPEZ AGUILAR
Chair of the Committee on Civil Liberties, Justice and Home Affairs
European Parliament
Rue Wiertz 60

Subject: Proposal for a Regulation of the European Parliament and of the Council introducing a screening of third country nationals at the external borders and amending Regulations (EC) No 767/2008, (EU) 2017/2226, (EU) 2018/1240 and (EU) 2019/817

Dear Mr LÓPEZ AGUILAR,

Following the informal negotiations on this proposal between the representatives of the three institutions, today the Permanent Representatives Committee agreed with the final compromise text.

I am therefore now in a position to inform you that, should the European Parliament adopt its position at first reading, in accordance with Article 294(3) TFEU, in the exact form of the text set out in the Annex to this letter (subject to revision by the lawyer-linguists of the two institutions), the Council, in accordance with Article 294(4) TFEU, will approve the European Parliament's position and the act shall be adopted in the wording which corresponds to the position of the European Parliament.

On behalf of the Council, I also wish to thank you for your close cooperation which should enable us to reach agreement on this file at first reading.

Yours sincerely,

Willem van de Voorde
Chairman of the
Permanent Representatives Committee

Proposal for a Regulation of the European Parliament and of the Council introducing a screening of third country nationals at the external borders and amending Regulations (EC) No 767/2008, (EU) 2017/2226, (EU) 2018/1240 and (EU) 2019/817

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular points (b) and (d) of Article 77(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) The Schengen area was created to achieve an area without internal borders in which the free movement of persons is ensured, as set out in Article 3(2) of the Treaty on European Union (TEU). The good functioning of this area relies on mutual trust between the Member States and efficient management of the external border.
- (2) The rules governing border control of persons crossing the external borders of the Member States of the Union are laid down in Regulation (EU) 2016/399 of the European Parliament and of the Council (Schengen Borders Code)¹ as adopted under Article 77(2)(b) of the Treaty on the Functioning of the European Union (TFEU). **Despite the applied border surveillance measures, Member States could be faced with unauthorised border crossings by third country nationals avoiding border checks.** To further develop the Union's policy with a view to carrying out checks on persons and efficiently monitoring the crossing of external borders referred to in the first paragraph of Article 77 TFEU, additional measures should address situations where third-country nationals are apprehended in connection with an unauthorised crossing of the external borders, where third-country nationals are disembarked following search and rescue operations, where third-country nationals make an application for international protection at a border crossing point without fulfilling entry conditions. The present regulation complements and specifies Regulation (EU) 2016/399 with regard to those three sets of situations.

- (3) It is essential to ensure that in those three sets of situations, the third country nationals are screened, in order to facilitate a proper identification and to allow for them being referred efficiently to the appropriate procedures which, depending on the circumstances, might be the procedure for international protection or procedures respecting Directive 2008/115/EC of the European Parliament and of the Council (the “Return Directive”). The screening should seamlessly complement the checks carried out at the external border or compensate for the fact that those checks have not taken place when crossing the external border. ~~Where applicable, the checks carried out in the context of the screening may also form part of the checks to be performed in the context of ensuing procedures.~~
- (4) Border control is in the interest not only of the Member States at whose external borders it is carried out but of all Member States which have abolished internal border control. Border control should help to reduce **illegal** migration, to combat smuggling and trafficking of human beings and to prevent any threat to the Member States’ internal security, public policy, public health and international relations. When carrying out border control, Member States should act in compliance with relevant Union and international law, including the Geneva Convention Relating to the Status of Refugees of 28 July 1951, as amended by the New York Protocol of 31 January 1967 ("the Geneva Convention"), obligations related to international protection, in particular the principle of non-refoulement, and fundamental rights. As such, measures taken at the external borders are important elements of a comprehensive approach to migration, allowing to address the challenge of mixed flows of irregular migrants and persons in need of international protection.
- (5) In accordance with Article 2 of Regulation (EU) 2016/399, border control consists of border checks carried out at the border crossing points and border surveillance, which is carried out between the border crossing points, in order to prevent third-country nationals from **border crossing not authorised under Article 5 of Regulation (EU) 2016/399 and thereby or** circumventing border checks. In accordance with Article 13 of Regulation (EU) 2016/399 a person who has crossed a border in an unauthorised manner and who has no right to stay on the territory of the Member State concerned shall be apprehended and made subject to procedures respecting Directive 2008/115/EC. In accordance with Article 3 of Regulation (EU) 2016/399, border control should be carried out without prejudice to the rights of refugees and persons requesting international protection, in particular as regards non-refoulement.

- (6) Border guards are often faced with third-country nationals who are requesting international protection without travel documents, both following apprehension during border surveillance and during checks at the border crossing points. Moreover, at some border sections the border guards are faced with large numbers of arrivals at the same time. In such circumstances, it is particularly difficult and important to ensure that all relevant databases are consulted and to determine the appropriate procedure as quickly as possible.
- (7) In particular, the screening should contribute to ensuring that the third-country nationals concerned are referred to the appropriate procedures at the earliest stage possible and that the procedures are continued without interruption and delay. At the same time, the screening should help to ~~contribute to~~ counter the practice whereby some applicants for international protection abscond after having been authorised to enter the territory of a Member State based on their request for international protection, in order to pursue such requests in another Member State or not at all.
- (8) With regard to those persons who apply for international protection, the screening should be followed by an examination of the need for international protection. It should allow to collect and share with the authorities competent for that examination any information that is relevant for the latter to identify the appropriate procedure for the examination of the application without prejudging the type of procedure, thus speeding up that examination. The screening should also contribute to identifying vulnerable persons so that any special needs are fully taken into account in the determination of and the pursuit of the applicable procedure.
- (9) The obligations on Member States stemming from this Regulation should be without prejudice to Regulation (EU) No XX/XXX [Asylum and Migration Management Regulation].

- (10) This Regulation should apply to third-country nationals and stateless persons regardless of whether they have made an application for international protection or not who are apprehended in connection with the unauthorised crossings of the external border of a Member State by land, sea or air, except third country nationals for whom the Member State is not required to take the biometric data pursuant to [Article 13(1) and (3) of the Eurodac Regulation] for reasons other than their age, **as well as to those third-country nationals who have been disembarked following search and rescue operations, and do not fulfil the entry conditions set out in Article 6 of Regulation (EU) 2016/399 [Schengen Borders Code]. For the latter category of persons, the application of this Regulation should be without prejudice to the obligations of Member States according to international law regarding search and rescue operations. This Regulation should also apply to those who seek international protection at the border crossing points or in transit zones without fulfilling the entry conditions or where third-country nationals, after having been authorized to enter pursuant to Article 6(5)(c) of Regulation 2016/399, make an application for international protection.**
- (11) The screening should be conducted at any adequate and appropriate location designated by each Member State generally situated at or in proximity to the external border or, alternatively, in other locations within the territory, taking into account geography and existing infrastructures, ensuring that screening can be carried out without delay.
- (12) Third country nationals subject to screening should remain available to the screening authorities during the screening. The Member States should lay down in their national law provisions to ensure **the presence of those third-country nationals** during the screening in order to prevent absconding. When it proves necessary and on the basis of an individual assessment of each case, Member States may detain a person subject to the screening if other less coercive alternative measures, cannot be applied effectively.

- (13) Wherever it becomes clear during the screening that a third-country national subject to it fulfils the conditions of Article 6 of Regulation (EU) 2016/399, the screening should end and the third-country national concerned should be authorised to enter the territory, without prejudice to the application of penalties as referred to in Article 5(3) of that regulation.
- (14) In view of the purpose of the derogation referred to in Article 6(5) of Regulation (EU) 2016/399, persons whose entry has been authorised by a Member State under that provision in an individual decision should not be submitted to the screening despite the fact that they do not fulfil all entry conditions, **unless they make an application for international protection.**
- (15) All persons subject to the screening should be submitted to checks, in order to identify or verify their identity and to verify whether they might pose a threat to internal security or public health. In the case of persons making an application for international protection at border crossing points, the identity and security checks carried out in the context of border checks should be taken into account to avoid duplication.
- (16) On completion of the screening, the third-country nationals concerned should be either referred to the authorities competent for registering the application for international protection , or be made subject to procedures respecting Directive 2008/115/EC (return directive), as appropriate. The relevant information obtained during the screening should be provided to the competent authorities to support the further assessment of each individual case, in full respect of fundamental rights. The procedures established by Directive 2008/115/EC should start applying only after the screening has ended. Article 27 of the Asylum Procedures Regulation should apply only after the screening has ended. This should be without prejudice to the fact that the persons applying for international protection at the moment of apprehension, in the course of border control at the border crossing point or during the screening, should be considered applicants for international protection and Regulation (EU) xxxx/xxxx [Asylum Procedure Regulation] and Directive (EU) xxxx/xxxx [Reception Conditions Directive] should apply to them. **Where necessary, the checks set forth under this Regulation should continue within the ensuing procedure by the respective competent authorities.**

- (16a) Persons applying for international protection to whom Member States may not apply or may no longer apply a border procedure in accordance with Article 41e of Regulation (EU) xxxx/202x [Asylum Procedure Regulation], should, as a rule, be authorised to enter the territory.
- (17) The screening could also be followed by relocation under the mechanism for solidarity established by Regulation (EU) XXX/XXX [Asylum and Migration Management] or another existing solidarity mechanism.
- (18) In accordance with Article 12 of Regulation (EU) 2016/399, the fulfilment of entry conditions and the authorisation of entry are expressed in an entry stamp in a travel document. The absence of such entry stamp or the absence of a travel document may therefore be considered as an indication that the holder does not fulfil the entry conditions. With the start of the operation of the Entry/Exit System leading to substitution of the stamps with an entry in the electronic system, that presumption will become more reliable. Member States should therefore apply the screening to third-country nationals who are already within the territory and who are unable to prove that they fulfilled the conditions of entry into the territory of the Member States. The screening of such third-country nationals is necessary in order to compensate for the fact that they presumably managed to evade entry checks upon arrival in the Schengen area and therefore could have not been either refused entry or referred to the appropriate procedure following screening. Applying the screening could also help in ascertaining, through the consultation of the databases referred to in this Regulation, that the persons concerned do not pose a threat to internal security. By the end of the screening within the territory, the third-country nationals concerned should be subject to a return procedure or, where they apply for international protection, to the appropriate asylum procedure. Submitting the same third-country national to repeated screenings should be avoided to the utmost extent possible.

- (18a) Member States may refrain from applying the screening in accordance with Article 5 if a third-country national staying illegally on their territory is sent back, immediately after apprehension, to another Member State under bilateral agreements or arrangements or under a specific cooperation framework. In this case, the Member State to which the third-country national concerned has been sent back should apply the screening without delay.**
- (18b) This Regulation is without prejudice to provisions of national law covering the identification of third-country nationals suspected of staying in a Member State illegally in order to research, within a brief but reasonable time, the information enabling a determination of the illegality or legality of the stay.**
- (18c) Without prejudice to the rules on border control applicable at the internal borders of the Member States where a decision to lift such controls has not been taken yet, screening of third country nationals apprehended in connection with unauthorised crossing of such internal borders where the controls have not yet been lifted should follow the rules established by this Regulation for screening within the territory and not the rules established for screening at the external borders.**
- (19) The screening in accordance with Article 3 should be completed as soon as possible, and should not exceed seven days. The screening in accordance with Article 5 should be completed as soon as possible, and should not exceed three days. Member States should not be prevented from completing the screening in shorter periods, provided that the checks provided for in this Regulation are carried out.
- (20) The screening is a part of the European integrated border management. The Instrument for Financial Support for Border Management and Visa Policy, which is part of the Integrated Border Management Fund, as established by the Regulation (EU) 2021/1148 of the European Parliament and of the Council in particular may be mobilised to provide support to Member States' actions falling under this Regulation, in line with the rules governing the use of this Instrument and without prejudice to other priorities underpinned by it.

- (21) In order to achieve the objectives of the screening, **a stronger framework for** close cooperation should be ensured between the competent national authorities referred to in Article 16 of Regulation 2016/399, those responsible for asylum procedures and reception of applicants, **those responsible for the protection of public health**, as well as those responsible for carrying out return procedures respecting Directive 2008/115. Child protection authorities should also be closely involved in the screening wherever necessary to ensure that the best interests of the child are duly taken into account throughout the screening. Member States should be allowed to avail themselves of the support of the relevant agencies, in particular the European Border and Coast Guard Agency and the [European Union Agency for Asylum], within the limits of their mandates. Member States should involve national authorities in charge of detecting and identifying victims of trafficking wherever the screening reveals facts relevant for trafficking in line with Directive 2011/36/EU of the European Parliament and of the Council.
- (21a)** During the screening procedure, the best interests of the child should always be a primary consideration in accordance with Article 24(2) of the Charter of Fundamental Rights of the European Union (the ‘Charter’). Child protection authorities should, wherever necessary, be closely involved in the screening to ensure that the best interests of the child are duly taken into account throughout the screening. A representative should be appointed to represent and assist the unaccompanied minor during the screening or, where a representative has not been designated, a person trained to safeguard the best interests of the minor and his or her general wellbeing. Where applicable, this representative should be the same as the representative to be appointed in accordance with Article 27 of Directive (EU) XXX/XXX [Reception Conditions Directive]. The trained person should be the person designated to provisionally act as a representative under Directive (EU) xxx/xxx [Reception Conditions Directive] where that person has been designated.
- (22) When applying this Regulation, the Member States should ensure the respect for human dignity and should not discriminate against persons on grounds of sex, racial, colour, ethnic or social origin, genetic features, language, religion or belief, political or any other opinions, membership of a national minority, disability, age or sexual orientation.

(23) In order to ensure compliance with EU and international law, including the Charter of Fundamental Rights, during the screening, each Member State should provide for a monitoring mechanism and put in place adequate safeguards for the independence thereof such as respecting the Paris Principles, the Venice Principles, the United Nations General Assembly Resolution of 28 December 2020 on the role of the Ombudsman, and the Optional Protocol to the Convention against Torture and other Cruel, Inhuman or Degrading Treatment or Punishment ~~and by involving National Ombudspersons and national human rights institutions, including National Preventive Mechanisms.~~ **For this purpose, Member States may resort to already existing national fundamental rights monitoring mechanisms in accordance with the requirements set out in this Regulation.** The monitoring mechanism should cover in particular the respect for fundamental rights in relation to the screening, as well as the respect for the applicable EU and national rules regarding detention and compliance with the principle of non-refoulement as referred to in Article 3(b) of Regulation (EU) 2016/399. The Fundamental Rights Agency should establish general guidance as to the establishment and the independent functioning of such monitoring mechanism. Member States should furthermore be allowed to request the support of the Fundamental Rights Agency for developing their national monitoring mechanism. Member States should also be allowed to seek advice from the Fundamental Rights Agency with regard to establishing the methodology for this monitoring mechanism and with regard to appropriate training measures. Member States should also be allowed to invite relevant and competent national, international and non-governmental organisations and bodies to participate in the monitoring. The independent monitoring mechanism should be without prejudice to the monitoring of fundamental rights provided by the European Border and Coast Guard Agency's fundamental rights monitors provided for in Regulation (EU) 2019/1896, the monitoring mechanism for the purpose of monitoring the operational and technical application of the Common European Asylum System (CEAS) as set out in Article 14 of Regulation (EU) 2021/2303 of the European Parliament and of the Council ~~4b~~[EU Asylum Agency Regulation], the Schengen Evaluation and Monitoring Mechanism provided for in Council Regulation (EU) 2022/922 of the European Parliament and of the Council ^{1c} and monitoring carried out by existing national or international monitoring bodies. The Member States should investigate allegations of the breach of the fundamental rights during the screening, including by ensuring that complaints are dealt with expeditiously and in an appropriate way.

- (23a) **Member States should equip the independent monitoring mechanism with appropriate financial means.**
- (23b) **The mere existence of judicial remedies in individual cases or national systems that supervise the efficiency of the screening is not sufficient to comply with the requirements of Article 7.**
- (24) The screening authorities responsible for the screening should fill in a **screening form**. The form should be transmitted **by any appropriate means, including digital tools** to the authorities registering applications for international protection or to the authorities competent for return **procedures** depending **to** whom the **person** is referred. **This Regulation should be without prejudice to actions undertaken in line with national law with a view to establish the identity of the person concerned or to assess possible threats to internal security.**
- (24a) The information in the screening form should be recorded in such a way that it is amenable to administrative and judicial review during any ensuing asylum or return procedure. The person subject to the screening should have the possibility to indicate to the screening authorities that the information contained in the form is incorrect. Any such indication should be recorded in the screening form without delaying the completion of the screening.
- (24b) Information contained in the form should be made available either in paper or electronic format to the person concerned, with the exception of the information related to the consultation of relevant databases for security checks. **In the case of minors, the information contained in the form should be provided to the adult or adults responsible for the child. In the case of unaccompanied minors, the information contained in the form should be provided to the representative of the child or the person trained to safeguard the best interests of the minor and his or her general well-being.**
- (24c) **The processing of data during the screening procedure should always be carried out in accordance with the applicable EU data protection law, in particular Regulation (EU) 2016/679 of the European Parliament and of the Council^{1a} [GDPR].**

- (25) The biometric data taken during the screening should, together with the data referred to in Articles [10, 12, 13, 14 and 14a] of the Eurodac Regulation be transmitted to Eurodac by the competent authorities in accordance with the deadlines provided for in that Regulation. ~~Those data will be deleted in accordance with the timelines set out in that Regulation.~~²²
- (26) Third-country nationals submitted to the screening should be subject to a preliminary health check by qualified medical personnel with a view to identifying any needs for health care or isolation on public health grounds. Qualified medical personnel may, based on the medical circumstances concerning the general state of each individual third-country national, decide that no further health check during the screening is necessary. The preliminary health check should be carried out by qualified medical personnel belonging to one of the following categories of the ISCO-08 classification: 221 Medical Doctors, 2221 Nursing Professionals, 2240 Paramedical Practitioners.
- (26a)** A preliminary vulnerability check should be carried out ~~on all persons submitted to the screening~~ with a view to identifying persons with indications of being vulnerable, ~~who are in a vulnerable situation~~, of being victims of torture or other inhuman or degrading treatment, of being stateless ~~persons or at risk of becoming stateless persons~~, or who may have special reception or procedural needs within the meaning of Article 27 of Directive (EU) xxxx/xxxx [Reception Conditions Directive] and Article 21 of Regulation (EU) xxxx/xxxx [Asylum Procedure Regulation]. This is without prejudice to further assessment in ensuing procedures following the completion of screening.
- (27) During the screening, all persons concerned should be guaranteed a standard of living complying with the Charter of Fundamental Rights of the European Union and have access to emergency health care and essential treatment of illnesses. Particular attention should be paid to individuals with vulnerabilities, such as pregnant women, elderly persons, single parent families, persons with an immediately identifiable physical or mental disability, persons visibly having suffered psychological or physical trauma and unaccompanied minors. In particular, in case of a minor, information should be provided in a child-friendly and age appropriate manner. All the authorities involved in the performance of the tasks related to the screening should **report any situation of vulnerabilities observed or reported to them**, respect human dignity, privacy, and refrain from any discriminating actions or behaviour.

- (28) Since third-country nationals subject to the screening may not have the necessary identity and travel documents required for the legal crossing of the external border, an identification **or verification** procedure should be carried out as part of the screening.
- (29) The Common Identity Repository (“CIR”) was established by Regulation (EU) 2019/817 of the European Parliament and of the Council (Interoperability Regulation)¹ to facilitate and assist in the correct identification of persons registered in the Entry/Exit System (“EES”), the Visa Information System (“VIS”), the European Travel Information and Authorisation System (“ETIAS”), Eurodac and in the European Criminal Records Information System for third country nationals (“ECRIS-TCN”), including of unknown persons who are unable to identify themselves. For that purpose, the CIR contains only the identity, travel document and biometric data recorded in EES, VIS, ETIAS, Eurodac and ECRIS-TCN, logically separated. Only the personal data strictly necessary to perform an accurate identity check is stored in the CIR. The personal data recorded in the CIR are automatically deleted where the data are deleted from the underlying systems. Consultation of the CIR enables a reliable and exhaustive identification or verification of identity of persons, by making it possible to consult all identity data present in the EES, VIS, ETIAS, Eurodac and ECRIS-TCN in one go, in a fast and reliable manner, while ensuring a ~~maximum~~ **the** protection of the data and avoiding unnecessary processing or duplication of data.
- (30) In order to establish the identity or to verify the identity of the persons subject to the screening, a verification should be initiated in the CIR in the presence of the person during the screening. During that verification, the biometric data of the person should be checked against the data contained in the CIR. Where the biometric data of a person cannot be used or if a query with that data fails or returns no hit, the query could be carried out with identity data of the person in combination with travel document data, where such data are available or with data or information provided by or obtained from the third-country national concerned. In accordance with the principles of necessity and proportionality, and where the query indicates that data on that person are stored in the CIR, Member State authorities should have access to the CIR to consult the identity data, travel document data and biometric data of that person, without the CIR providing any indication as to which EU information system the data belong to.

- (31) Since the use of the CIR for identification purposes has been limited by Regulation (EU) 2019/817 and Regulation (EU) 2019/818 to facilitating and assisting in the correct identification of persons registered in the EES, VIS, ETIAS, Eurodac and ECRIS-TCN in situations of police checks within the territory of the Member States, those Regulations needs to be amended to provide for the additional purpose of using the CIR to identify or verifying the identity persons during the screening established by this Regulation. In the case of Regulation (EU) No 2019/818, this amendment should for reasons of variable geometry take place through a different regulation than the present one.
- (32) Given that many persons submitted to the screening may not have any travel documents, the authorities conducting the screening should have access to any other relevant documents held by the persons concerned in cases where the biometric data of such persons are not usable or yield no result in the CIR. The authorities should also be allowed to use data from those documents, other than biometric data, to carry out checks against the relevant databases.
- (33) The identification or verification of identity of persons during border checks at the border crossing point and any consultation of the databases in the context of border surveillance or police checks in the external border area or within the territory by the authorities who referred the person concerned to the screening should be considered as part of the screening and should not be repeated, unless there are special circumstances justifying such repetition. **The taking of biometric data for the purpose of both verification of identity or identification and of the registration in accordance with the requirements of Regulation (EU) xxxx/xxxx [Eurodac Regulation], should take place once as part of the screening.**
- (34) In order to ensure uniform conditions for the implementation of Articles 11(5) and 12(5) of this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council¹. For the adoption of relevant implementing acts, the examination procedure should be used.
- (35) The screening should also assess whether the entry of the third-country nationals into the Union might pose a threat to internal security.

- (36) As the screening concerns **third-country nationals** present at the external border without fulfilling entry conditions, disembarked after a search and rescue operation, and to third country nationals illegally staying within the territory of Member States, the security checks as part of the screening should be at least of a similar level as the checks performed in respect of third country nationals who apply beforehand for an authorisation to enter the Union for a short stay, whether they are under a visa obligation or not.
- (37) For third-country nationals who are on the basis of their nationality exempt from the visa requirement under Regulation (EU) 2018/1806 of the European Parliament and the Council¹, Regulation (EU) 2018/1240 of the European Parliament and of the Council² (ETIAS Regulation) provides that they have to apply for a travel authorisation to come to the EU for short stay. Before receiving that travel authorisation, the persons concerned are submitted to security checks of the personal data they submit against a number of EU databases – the Visa Information System (VIS), the Schengen Information System (SIS), the Entry/Exit System (EES), the European Travel Information and Authorisation System (ETIAS), the Europol data processed for the purpose referred to in Article 18(2)(a) of Regulation (EU) 2016/794³, – ECRIS-TCN⁴ – as well as Interpol’s Stolen and Lost Travel Document database (SLTD) and Travel Documents Associated with Notices database (Interpol TDAWN).
- (38) As to third-country nationals who are subject to the visa requirement under Regulation (EU) 2018/1806, they are submitted to security checks against the same databases as visa-free third country nationals, pursuant to Regulation (EU) 810/2009 and Regulation (EU) 767/2008 before a visa is issued.
- (39) It follows from the reasoning developed in recital (36) that as regards persons subject to the screening, automated verifications for security purposes should be carried out against the same systems as is provided for applicants for a visa or for a travel authorisation under the European Travel Information and Authorisation System: the VIS, EES, ETIAS, including the ETIAS watchlist, SIS, ECRIS-TCN, Europol, Interpol’s SLTD and TDAWN. Persons submitted to the screening should also be checked against ECRIS-TCN as regards persons convicted in relation to terrorist offences and other forms of serious criminal offences, Europol data referred to in the preceding recital 38, the Interpol’s Lost and Stolen Travel Documents database and Travel Documents Associated with Notices databases (TDAWN). Relevant national databases may also be consulted.

- (40) **The consultation of the relevant databases for security purposes** should be conducted in a manner that ensures that only data necessary for carrying out the security checks is retrieved from those databases. With regard to persons who have **made an application for** international protection at a border crossing point or in transit zones, the consultation of databases for the security check as part of the screening should focus on the databases that were not consulted during the border checks at the external border, thus avoiding repeated consultations.
- (41) Where justified for **its** purpose the screening could also include verification of objects in the possession of third-country nationals, in accordance with national law. Any measures applied in the context of a security check should be proportionate and should respect the human dignity of the persons subject to the screening. The authorities involved should ensure that the fundamental rights of the individuals concerned are respected, including the right to protection of personal data and freedom of expression.
- (42) Since access to EES, ETIAS, VIS and ECRIS-TCN is necessary for the screening authorities in order to establish whether the person might pose a threat to the internal security, Regulation (EC) No 767/2008 **of the European Parliament and of the Council**^{1a}, Regulation (EU) 2017/2226 **of the European Parliament and of the Council**^{1b}, Regulation (EU) 2018/1240 **of the European Parliament and of the Council**^{1c} and Regulation (EU) 2019/816 **of the European Parliament and of the Council**^{1d}, respectively, should be amended to provide for this access right which is currently not provided by those Regulations. In the case of Regulation (EU) No 2019/816, this amendment should for reasons of variable geometry take place through a different regulation than the present one.
- (43) The European search portal (ESP) established by Regulation (EU) 2019/817 should be used to carry out the searches against the CIR for identification or the verification of identity.
- (43a)** The European search portal (ESP) established by Regulation (EU) 2019/817 may be used to carry out the searches against the EES, ETIAS, VIS and ECRIS-TCN, **Europol data and Interpol databases**, for the purpose of security checks, as applicable.

- (44) **The consultation of European databases for the purpose of verification of identity or identification and security checks can be justified for** the effective implementation of the screening and for achieving the same objective for which each of those databases has been established, that is to say, the effective management of the Union's external borders in the context of European integrated border management.
- (44a) **In case of a hit pursuant to Article 10 or Article 11, the screening authority should verify that data recorded in EU information systems or Europol correspond to the data triggering a hit.**
- (44aa) **Relevant national databases can also be checked in this context in accordance with national legislation.**
- (44b) **For the purposes of complying with the obligation to perform identity and security checks during the screening, Member States who do not yet apply some provisions of Schengen acquis in full and do not therefore have access to all Union systems and databases are responsible for the identity and security checks by carrying out searches only in those Union systems and databases to which they have access.**
- (45) Since the objectives of this Regulation, namely **to strengthen the control of persons and to provide for the verification of identity or for the identification of all third-country nationals subject to the screening and for the consultation of the relevant databases in order to verify whether the persons might pose a threat to internal security** and contribute to their referral to the appropriate procedures, cannot be achieved by the Member States acting alone, it is necessary to establish common rules at Union level. Thus, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.

- (46) In accordance with Articles 1 and 2 of the Protocol No 22 on the position of Denmark, as annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application. Given that this Regulation builds upon the Schengen acquis, Denmark shall, in accordance with Article 4 of that Protocol, decide within a period of six months after the Council has decided on this Regulation whether it will implement it in its national law.
- (47) This Regulation constitutes a development of the provisions of the Schengen acquis, in which Ireland does not take part, in accordance with Council Decision 2002/192/EC¹; Ireland is therefore not taking part in the adoption of this Regulation and is not bound by it or subject to its application.
- (48) As regards Iceland and Norway, this Regulation constitutes a development of the provisions of the Schengen acquis within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the latter's association with the implementation, application and development of the Schengen acquis, which fall within the area referred to in Article 1, point A of Council Decision 1999/437/EC¹.
- (49) As regards Switzerland, this Regulation constitutes a development of the provisions of the Schengen acquis within the meaning of the Agreement between the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen acquis which fall within the area referred to in Article 1, point A of Decision 1999/437/EC read in conjunction with Article 3 of Council Decision 2008/146/EC¹.

- (50) As regards Liechtenstein, this Regulation constitutes a development of the provisions of the Schengen acquis within the meaning of the Protocol between the European Union, the European Community, the Swiss Confederation and the Principality of Liechtenstein on the accession of the Principality of Liechtenstein to the Agreement between the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen acquis which fall within the area referred to in Article 1, point A of Decision 1999/437/EC read in conjunction with Article 3 of Council Decision 2011/350/EU¹.
- (51) As regards Cyprus, ~~Bulgaria, Romania and Croatia~~, this Regulation constitutes an act building upon, or otherwise related to, the Schengen acquis within the meaning of Article 3(1) of the 2003 Act of Accession.
- (51a) As regards Cyprus, Council Regulation (EC) No 866/2004 of 29 April 2004 on a regime under Article 2 of Protocol 10 to the Act of Accession provides for specific rules that apply to the line between the areas of the Republic of Cyprus in which the Government of the Republic of Cyprus exercises effective control and those areas in which the Government of the Republic of Cyprus does not exercise effective control. Under this Regulation, although the line does not constitute an external border, checks are to be carried out on all persons crossing the line through an authorized or unauthorized crossing point with the aim to combat illegal immigration of third-country nationals and to detect and prevent any security risk. It follows that screening under Article 3 may also apply to third-country nationals who are apprehended in connection with an unauthorized crossing of the line and to those who have made an application for international protection at the authorized crossing points.**
- (51b) Denmark, Norway, Iceland, Switzerland, and Liechtenstein are not bound by the Reception Conditions Directive 2024/XXX/EU. In these States the reception conditions for applicants for international protection are regulated by relevant national legislations based on the application of the Geneva Convention Relating to the Status of Refugees of 28 July 1951, as supplemented by the New York Protocol of 31 January 1967. As regards those States the references made in this Regulation to the Reception Conditions Directive 2024/XXX/EU should be understood as references to corresponding provisions in national law.**

HAVE ADOPTED THIS REGULATION:

Article 1

Subject matter and scope

This Regulation establishes ~~the~~ screening **of third-country nationals** at the external borders of the Member States ~~of all third-country nationals who~~ **who, without fulfilling entry conditions**, have crossed the external border in an unauthorised manner, ~~of those who have applied for international protection during border checks without fulfilling entry conditions, as well as those, or have been disembarked after a search and rescue operation~~ **and of third-country nationals illegally staying within the territory of the Member States where there is no indication that those third-country nationals have been subject to controls at external borders**, before they are referred to the appropriate procedure.

~~The purpose of the screening shall be the strengthening of the control of persons who are about to enter the Schengen area and their referral to the appropriate procedures.~~

~~The objective~~~~The object~~ of the screening shall be **to strengthen the control of persons, to identify** ~~the identification~~ of all third-country nationals subject to it and ~~the verification~~ **to verify** against ~~the~~ relevant databases ~~that~~ **whether** the persons subject to it ~~do not~~ **might** pose a threat to internal security. The screening shall also entail **preliminary health checks, where appropriate, and vulnerability checks** to identify ~~persons vulnerable and persons, persons~~ **persons** in the need of health care ~~as well as the ones posing~~ **and persons that possibly pose** a threat to public health. Those checks shall contribute to referring such persons to the appropriate procedure.

This Regulation also provides for an independent mechanism in each Member State to monitor compliance with Union and international law, including the Charter, during the screening.

Article 1a

Fundamental rights

When applying this Regulation, Member States shall act in full compliance with relevant Union law, including the Charter, with relevant international law, including the Convention Relating to the Status of Refugees done at Geneva on 28 July 1951 ('the Geneva Convention'), and with the obligations related to access to international protection, in particular the principle of non-refoulement, and fundamental rights.

Screening at the external border

1. **The screening provided for in this Regulation shall apply to all ~~third-country~~third country nationals, regardless of whether they have made an application for international protection, who:**
 - (a) are apprehended in connection with an unauthorised crossing of the external border of a Member State by land, sea or air, except ~~third-country~~third-country nationals for whom the Member State is not required to take the biometric data pursuant to Article 14(1) and (3) of Regulation (EU) 603/2013 for reasons other than their age, or
 - (b) are disembarked in the territory of a Member State following a search and rescue operation-

~~The screening shall apply to those persons regardless of whether they have applied for international protection~~**and do not fulfil the entry conditions set out in Article 6 of Regulation (EU) 2016/399.**
2. The screening **provided for in this Regulation** shall ~~also~~ apply to all third-country nationals who ~~apply~~**have made an application** for international protection at external border crossing points or in transit zones and who do not fulfil the entry conditions set out in Article 6 of Regulation (EU) 2016/399.

3. ~~The screening is without prejudice to the application of~~ **Third country nationals who have been authorised to enter pursuant to Article 6(5) of Regulation 2016/399 shall not be subject to screening. However, third country nationals who are authorised to enter pursuant to Article 6(5)(c) of that Regulation (EU) 2016/399, except the situation and who make an application for international protection shall be subject to screening.**

Where it becomes apparent during the screening that the third-country national concerned fulfils the entry conditions set out in the beneficiary of an individual decision issued by the Member State based on Article 6(5)(c) of that ~~6~~ of Regulation is seeking international protection (EU) 2016/399 [Schengen Borders Code], the screening shall end.

Article 3a

Relation with other legal instruments

1. **For third-country nationals subject to the screening who have made an application for international protection a) the registration of the application for international protection in accordance with the Regulation (EU) xxxx/202x [Asylum Procedure Regulation] is determined by Article 27 of that Regulation b) the application of the common standards for the reception of applicants for international protection of the Reception Conditions Directive [Directive 2013/33/EU of the European Parliament and of the Council, laying down standards for the reception of applicants for international protection (recast)] is determined by Article 3 of that Directive.**
2. **Without prejudice to Article 6(6e), Directive 2008/115/EC (Return Directive) or national provisions respecting Directive 2008/115/EC shall only apply after the screening has ended, except for the screening referred to in Article 5, where they shall apply in parallel with the screening referred to in that Article.**

Article 4

Authorisation to enter the territory of a Member State

1. During the screening, the persons referred to in Article 3, paragraphs 1 and 2, shall not be authorised to enter the territory of a Member State. **Member States shall lay down in their national law provisions to ensure that persons referred to in Article 3, paragraphs 1 and 2 shall remain at the disposal of the competent authorities in the locations as referred to in Article 6, for the duration of the screening to prevent any risk of absconding, potential resulting threats to internal security or public health risks.**
2. ~~Where it becomes apparent during the screening that the third-country national concerned fulfils the entry conditions set out in Article 6 of Regulation (EU) 2016/399, the screening shall be discontinued and~~ **Screening may be discontinued when the third country national leaves the territory of the Member States, for the country of origin, residence or another third country to which the third-country national concerned shall be authorised to enter the territory, without prejudice to the application of penalties as referred to in Article 5(3) of that Regulation voluntarily decides to return and where he or she is accepted.**

Article 5

Screening within the territory

1. Member States shall apply the screening to third-country nationals ~~found~~ **illegally staying** within their territory ~~where there is no indication that~~ **only where** they have crossed an external border to enter the territory of the Member States in an ~~authorised~~ **unauthorised** manner **and they have not been already subjected to screening in a Member State. Member States shall lay down in their national law provisions to ensure that those third country nationals remain at the disposal of the competent authorities for the duration of the screening, to prevent any risk of absconding and potential resulting threats to internal security.**

2. **Member States may refrain from applying the screening in accordance with paragraph 1 if a third-country national staying illegally on their territory is sent back, immediately after apprehension, to another Member State under bilateral agreements or arrangements or under a specific cooperation framework. In this case, the Member State to which the third-country national concerned has been sent back shall apply the screening.**

Article 6

Requirements concerning the screening

1. In the cases-referred to in Article 3, the screening shall be conducted at **any adequate and appropriate locations designated by each Member State, generally** situated at or in proximity to the external borders **or, alternatively, in other locations within the territory.**
2. In the cases referred to in Article 5, the screening shall be conducted at any **adequate and appropriate location designated by each Member State** within the territory of a Member State.
3. In the cases referred to in Article 3, the screening shall be carried out without delay and shall in any case be completed within ~~57~~ days from the apprehension in the external border area, the disembarkation in the territory of the Member State concerned or the presentation at the border crossing point. **With regard to persons referred to in Article 3(1)(a) to whom Article 14(1) and (3) of Regulation (EU) xxxx/xxxx [Eurodac Regulation] apply, where those persons remain physically at the external border for more than 72 hours, the screening shall apply to them thereafter and the period for the screening shall be reduced to four**~~In exceptional circumstances, where a disproportionate number of third-country nationals needs to be subject to the screening at the same time, making it impossible in practice to conclude the screening within that time limit, the period of 5 days may be extended by a maximum of an additional 5 days.~~

~~With regard to persons referred to in Article 3(1)(a) to whom Article 14 (1) and (3) of Regulation (EU) 603/2013 apply, where they remain physically at the external border for more than 72 hours, the period for the screening shall be reduced to two days.~~

- ~~4. Member States shall notify the Commission without delay about the exceptional circumstances referred to in paragraph 3. They shall also inform the Commission as soon as the reasons for extending the screening period have ceased to exist.~~
5. The screening referred to in Article 5 shall be carried out without delay and in any case shall be completed within 3 days from apprehension.
6. The screening shall comprise the following ~~mandatory~~ elements:
 - (a) ~~a preliminary health and vulnerability check as referred to in~~ **accordance with Article 9;**
 - (aa) a preliminary vulnerability check as referred to in Article 9;**
 - (b) **identification or verification of identity** as referred to in Article 10;
 - (c) ~~registration of biometric data in the appropriate databases as referred to in Article 14(6)~~ **accordance with [Articles 10, 13 and 14a of Regulation (EU) xxxx/xxxx [Eurodac Regulation]]**, to the extent it has not occurred yet;
 - (d) **a security check** as referred to in Article 11;
 - (e) ~~the filling out of a de-briefing~~ **screening** form as referred to in Article 13;
 - (f) **referral to the appropriate procedure** as referred to in Article 14.
- 6a. Organisations and persons providing advice and counselling shall have effective access to third-country nationals during the screening. Member States may impose limits to such access where, by virtue of national law, they are objectively necessary for the security, public order or administrative management of a border crossing point or of a screening facility, provided that access is not severely restricted or rendered impossible.**

- 6b. **The relevant rules on detention set out in Directive 2008/115/EC (Return Directive) shall apply during screening in respect of third-country nationals who have not made an application for international protection.**
- 6c. **Member States shall ensure that all persons subject to the screening are accorded a standard of living which guarantees their subsistence, protects their physical and mental health, and respects their rights under the Charter.**
7. **Member States shall designate competent the screening authorities and shall ensure that the staff of those authorities who will carry out the screening have the appropriate knowledge and have received the necessary training in accordance with Article 16 of Regulation (EU) 2016/399 [SBC].**

~~Member States~~ They shall deploy appropriate staff and sufficient resources to carry out the screening in an efficient way.

Member States shall ~~designate~~ ensure that qualified medical staff ~~to~~ personnel carries out the preliminary health check provided for in Article 9 and that specialised personnel of the screening authorities trained for that purpose carry out the health preliminary vulnerability check provided for in Article 9. National child protection authorities and national anti-trafficking rapporteurs authorities in charge of detecting and identifying victims of trafficking or equivalent mechanisms shall also be involved, where appropriate.

Member States shall also ensure that only the screening authorities responsible for the identification or verification of identity and the security check have access to the databases foreseen in Article 10 and Article 11 of this Regulation.

The ~~competent~~ screening authorities may be assisted or supported in the performance of the screening by experts or liaison officers and teams deployed by the European Border and Coast Guard Agency and the [European Union Agency for Asylum] within the limits of their mandates **provided that such experts have the relevant training as set out in the first two subparagraphs.**

Article 6a

Obligations of third country nationals submitted to screening

1. **During the screening, third country nationals subject to screening shall remain available to the screening authorities.**
2. **Third-country nationals shall: a) indicate their name, date of birth, gender and nationality and provide related documents and information, where available, that can prove this data; b) provide biometric data as referred to in Regulation (EU) XXX/XXX [EURODAC III Regulation)].**

Article 7

Monitoring of fundamental rights

1. Member States shall adopt relevant provisions to investigate allegations of non-respect for fundamental rights in relation to the screening.

Member States shall ensure, where appropriate, referral for the initiation of civil or criminal justice proceedings in cases of failure to respect or to enforce fundamental rights in accordance with national law.

2. Each Member State shall ~~establish~~**provide for** an independent **mechanism in accordance with the requirements set out in this article, which shall:** - monitor compliance with EU and international law, including the Charter of Fundamental Rights, in particular as regards access to the asylum procedure, the principle of non-refoulement, the best interest of the child and the relevant rules, including relevant provisions in national law, on detention of the person concerned, during the screening ; and
- ensure that substantiated allegations of non-respect for fundamental rights in all relevant activities in relation to the screening, are dealt with effectively and without undue delay, to trigger such investigations where necessary and to monitor the progress of such investigations.

The independent monitoring mechanism shall cover all activities undertaken by the Member States in implementing this Regulation.

- ~~- to ensure compliance with EU and international law, including the Charter of Fundamental Rights, during the screening;~~
- ~~- where applicable, to ensure compliance with national rules on detention of the person concerned, in particular concerning the grounds and the duration of the detention;~~
- ~~- to ensure that allegations of non-respect for fundamental rights in relation to the screening, including in relation to access to the asylum procedure and non-compliance with the principle of non-refoulement, are dealt with effectively and without undue delay~~

~~**The independent monitoring mechanism shall have the power to issue annual recommendations to Member States.**~~

Member States shall put in place adequate safeguards to guarantee the independence of the mechanism. **National Ombudspersons and national human rights institutions, including National Preventive Mechanisms, shall participate in the operation of the mechanism and may be appointed to act as independent monitors. The independent monitoring mechanism may also involve relevant international and non-governmental organisations and public bodies independent from the authorities carrying out the screening.**

The mechanism shall establish and maintain close links with the national data protection authorities and the European Data Protection Supervisor. Insofar as one or more of those institutions or organisations are not directly involved in the mechanism, the bodies responsible for the monitoring mechanism shall establish and maintain close links with them.

The independent monitoring mechanism provided for by this Article shall carry out its tasks on the basis of spot checks and random and unannounced checks.

Member States shall provide the mechanism with access to all relevant locations, including reception and detention facilities, individuals and documents, insofar as such access is necessary to allow the mechanism to fulfil the obligations set out in this Article. Access to relevant locations or classified information shall be granted only to monitors having received the appropriate security clearance issued by a competent authority in accordance with national law.

~~The Fundamental Rights Agency~~**FRA** shall issue general guidance for Member States on the ~~setting up of such~~**establishment of a monitoring** mechanism and its independent functioning. ~~Furthermore,~~ Member States may request the ~~Fundamental Rights Agency~~**FRA** to support them in developing their national monitoring mechanism, including the safeguards for independence of such mechanisms, as well as the monitoring methodology and appropriate training schemes.

~~Member States may invite relevant national, international and non-governmental organisations and bodies to participate in the monitoring.~~

The Commission shall take into account the findings of the independent monitoring mechanisms in the assessment of the effective application and implementation of the Charter according to Article 15(1) and Annex III of Regulation (EU) 2021/1060 of the European Parliament and of the Council [Common Provisions Regulation].

- 2a. The mechanism referred to above shall be without prejudice to the monitoring mechanism for the purpose of monitoring the operational and technical application of the CEAS as set out in Article 14 of Regulation (EU) 2021/2303 [EU Asylum Agency Regulation] and to the role of the fundamental rights monitors in monitoring respect for fundamental rights in all activities of the European Border and Coast Guard Agency as set out in Article 80 of Regulation (EU) 2019/1896 [European Border and Coast Guard Regulation].**
- 2b. Member States shall equip the independent monitoring mechanism with appropriate financial means.**

Article 8

Provision of information

1. **Member States shall ensure that** third-country nationals subject to the screening ~~shall be succinctly~~ **are** informed about ~~the purpose and the modalities of the screening:~~
 - (a) ~~the steps and~~ **purpose, duration, modalities and elements** of the screening as well as possible outcomes of the ~~–~~ screening;
 - (aa) **the right to apply for international protection and the applicable rules on making an application for international protection, where appropriate in the circumstances specified in Article 30 of Regulation (EU) xxxx/202x [Asylum Procedure Regulation], and, for those having made an application for international protection, the obligations and the consequences of non-compliance laid down in Articles 9 and 10 of Regulation (EU) No XXX/XXX Asylum and Migration Management Regulation];**
 - (b) the rights and obligations ~~of third-country of~~ **third-country** nationals during the screening, including the obligation on them **referred to in Article 6a and the possibility to contact and be contacted by the organisations and persons referred to in Article 6(6a) of this Regulation;** ~~to remain in the designated facilities during the screening.~~
 - (ba) **the rights conferred on the data subject by the applicable [EU] data protection law, in particular Regulation (EU) 2016/679 [GDPR].**
2. ~~During the screening, they~~ **Member States shall also ensure, where, as appropriate, receive information on that third-country nationals subject to the screening are informed about:**

- (a) the applicable rules on the conditions of entry for third-country nationals in accordance with Regulation (No) 2016/399 [Schengen ~~Border~~**Borders** Code], as well as on other conditions of entry, stay and residence of the Member State concerned, to the extent this information has not been given already;
- (b) ~~where they have applied, or there are indications that they wish to apply, for international protection, information on the obligation to apply for international protection in the Member State of first entry or legal stay set out in Article [9(1) and (2)] of Regulation (EU) No XXX/XXX [ex-Dublin Regulation], the consequences of non-compliance set out in Article [10(1)] of that Regulation, and the information set out in Article 11 of that Regulation as well as on the procedures that follow the making of an application for international protection;~~
- (c) the obligation for ~~illegally staying third-country nationals~~ to return in accordance with Directive ~~XXXXX~~ **[(EU) 2008/115/EC (Return Directive)] and the possibilities to enrol in a programme providing logistical, financial and other material or in-kind assistance for the purpose of supporting voluntary departure;**
- (d) ~~the possibilities to enrol in a programme providing logistical, financial and other material or in-kind assistance for the purpose of supporting voluntary departure;~~
- (e) the conditions of participation in relocation in accordance with Article XX of Regulation (EU) No XXX/XXX [~~ex-Dublin Regulation~~]**AMMR] or another existing solidarity mechanism;**
- (f) ~~the information referred to in Article 13 of the Regulation (EU) 2016/679[†] [GDPR].~~

[†] ~~Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation), OJ L 119, 4.5.2016~~

3. The information provided during the screening shall be given in a language which the third-country national understands or is reasonably supposed to understand. The information shall be ~~given~~**provided** in writing ~~and, in exceptional circumstances, physically or electronically, and~~, where necessary, orally using interpretation services. **In the case of minors, the information** ~~It shall be provided in an appropriate~~ **child-friendly manner taking into account the age and the gender of the person and with the involvement of the representative or person referred to in Article 9a, paragraph 3. The responsible authorities may make the necessary arrangements for cultural mediation services to be available to facilitate access to the procedure for international protection.**
4. Member States may authorise relevant and competent national, international and non-governmental organisations and bodies to provide third country nationals with information under this article during the screening according to the provisions established by national law.

Article 9

Preliminary health checks and vulnerabilities

1. Third-country nationals submitted to the screening referred to in Article 3 **and Article 5** shall be subject to a preliminary **health check by qualified medical examination personnel** with a view to identifying any needs for ~~immediate~~**health** care or isolation on public health grounds, ~~unless~~. **Qualified medical personnel may**, based on the **medical** circumstances concerning the general state of ~~the~~**each** individual third-country ~~nationals concerned and the grounds for directing them~~**national, decide that no further health check during the screening is necessary. Third-country nationals subject to the screening, the relevant competent authorities are satisfied that no preliminary medical screening is necessary. In that case, they shall inform those persons accordingly** **referred to in Article 3 and Article 5 shall have access to emergency health care and essential treatment of illness.**

- 1a. Without prejudice to the obligations on Member States laid down in Article 23 of Regulation (EU) xxxx/xxxx [Asylum Procedure Regulation], for those third-country nationals having made applications for international protection, the health check referred to in the first subparagraph of this Article may form part of the medical examination laid down in Article 23 of Regulation (EU) xxxx/xxxx [Asylum Procedure Regulation].
2. ~~Where relevant, if~~ **Third-country nationals submitted to the screening referred to in Article 3 and Article 5 shall be checked whether persons referred to in paragraph 1 are in a vulnerable situation, victimssubject to a preliminary vulnerability check by specialised personnel of the screening authorities trained for that purpose with a view to identifying any indication that a third-country national may be a stateless person or any indication of vulnerability, of being a victim of torture or have special reception or procedural other inhuman or degrading treatment, or having special needs within the meaning of Directive XXX/XXX [Return Directive], Article 20 of the [recast] 25 of Directive (EU) xxxx/xxxx [Reception Conditions Directive], and Article 21 of Regulation (EU) xxxx/xxxx [Asylum Procedure Regulation.] For the purpose of the vulnerability check, the screening authorities may be assisted by non-governmental organizations and, where relevant, by medical personnel [as referred to in Article 6(7)].**
3. Where there are indications of vulnerabilities or special reception or procedural needs, the third-country national concerned shall receive timely and adequate support in view of their physical and mental health **in adequate facilities**. In the case of minors, support shall be given **in a child-friendly manner** by personnel trained and qualified to deal with minors, and in cooperation with child protection authorities.
4. ~~Where it is deemed necessary based on the circumstances, third-country nationals submitted to the screening referred to in Article 5 shall be subject to a preliminary medical examination, notably to identify any medical condition requiring immediate care, special assistance or isolation.~~

- 4a. Without prejudice to the assessment of special reception needs required under Directive XXXX/XXX [Reception Conditions Directive], the assessment of special procedural needs required under Regulation XXXX/XXX [Asylum Procedures Regulation], and the vulnerability check required under Directive XXX/XXX [Return Directive], the preliminary vulnerability assessment referred to in the second and third paragraphs of this Article may form part of the vulnerability and special procedural assessments laid down in those legislative acts.

Article 9a

Guarantees for minors

1. During the screening, the best interests of the child shall always be a primary consideration in accordance with Article 24(2) of the Charter.
2. During screening, the minor shall be accompanied by, where present, an adult family member.
3. Member States shall, as soon as possible, take measures to ensure that a representative or, where a representative has not been designated, a person trained to safeguard the best interests of the minor and his or her general wellbeing accompanies and assists the unaccompanied minor during the screening in a child-friendly manner and in a language he or she can understand. The trained person shall be the person designated to provisionally act as a representative under Directive (EU) xxx/xxx [Reception Conditions Directive] where that person has been designated.

4. **The trained person in charge of accompanying and assisting an unaccompanied minor in accordance with paragraph 3 shall not be an official responsible for any elements of the screening, shall act independently and shall not receive orders either from officials responsible for the screening or from the screening authorities. Such persons shall perform their duties in accordance with the principle of the best interests of the child and shall have the necessary expertise to that end. In order to ensure the well-being and social development of the minor, the trained person shall be changed only when necessary.**
