Statement by Hungary on the Council Conclusions on inclusive, learner-centred practices in early childhood education and care and school education

According to the Charter of Fundamental Rights of the European Union everyone has the right to education and to have access to vocational and continuing training. Hungary is committed to the fulfilment and promotion of this right as well as ensuring equal treatment and participation for everyone, especially children.

Bearing in mind that family law falls essentially within the exclusive competence of the Member States, Hungary interprets the term 'all families' in the Council Conclusions on inclusive, learner-centred practices in early childhood education and care and school education, in accordance with the Fundamental Law of Hungary and its national legislation.
