<sup>3</sup> *Position of the European Parliament of ... (not yet published in the Official Journal) and decision of the Council of...*

Whereas:

- (1) Waste management in the Union should be improved, with a view to protecting, preserving and improving the quality of the environment, protecting human health, ensuring prudent and rational utilisation of natural resources and promoting a more circular economy.
- (2) To reduce regulatory burden on small establishments or undertakings, simplification of the permitting and registration requirements for small establishments or undertakings should be introduced.
- (3) Implementation reports prepared by Member States every three years have not proved to be an effective tool for verifying compliance and ensuring correct implementation, and are generating unnecessary administrative burden. It is therefore appropriate to repeal provisions obliging Member States to produce such reports and for compliance monitoring purposes use exclusively the data which Member States report every year to the Commission.
- (4) Data reported by Member States are essential for the Commission to assess compliance with waste legislation across the Member States. The quality, reliability and comparability of data should be improved by introducing a single entry point for all waste data, deleting obsolete reporting requirements, benchmarking national reporting methodologies and introducing a data quality check report.

- (5) Reliable reporting of data concerning waste management is paramount to efficient implementation and to ensuring comparability of data among a level playing field between Member States. Therefore, when preparing the reports on compliance with the targets set out in **■** Directives 2000/53/EC<sup>4</sup>, 2006/66/EC<sup>5</sup> and 2012/19/EC<sup>6</sup> of the European Parliament and of the Council, Member States should be required to use the most recent rules developed by the Commission and the national **■** *competent authorities of the Member States responsible for implementing those Directives*.
- (5a) *The waste hierarchy laid down in Directive 2008/98/EC of the European Parliament and of the Council<sup>7</sup> applies as an order of priority in Union waste prevention and management law. When complying with the objective of this Directive, Member States should take the necessary measures to take the waste hierarchy priorities into account and ensure the practical implementation of those priorities.*
- (5b) *In the context of the Union's commitment to making the transition towards a circular economy, Directives 2000/53/EC, 2006/66/EC and 2012/19/EU should be reviewed and, if necessary, amended, taking account of their implementation and giving consideration, inter alia, to the feasibility of setting targets for specific materials contained in the relevant waste streams. During the review of Directive 2000/53/EC, attention should also be paid to the problem of end-of-life vehicles that are not accounted for, including the shipment of used vehicles suspected of being end-of-life vehicles, and to the application of the Correspondents' Guidelines No 9 on shipments of end-of-life vehicles. During the review of Directive 2006/66/EC, the technical development of new types of batteries that do not use hazardous substances should also be taken into account.*

<sup>5</sup> *Directive 2006/66/EC of the European Parliament and of the Council of 6 September 2006 on batteries and accumulators and waste batteries and accumulators and repealing Directive 91/157/EEC (OJ L 266, 26.9.2006, p. 1).*

<sup>6</sup> *Directive 2012/19/EU of the European Parliament and of the Council of 4 July 2012 on waste electrical and electronic equipment (WEEE) (OJ L 197, 24.7.2012, p. 38).*

<sup>7</sup> *Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives (OJ L 312, 22.11.2008, p. 3).*

**(6a) *In order to amend and supplement Directive 2000/53/EC and to amend Directive 2012/19/EU, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of adapting Annexes I and II to Directive 2000/53/EC and Annexes IV, VII, VIII and IX to Directive 2012/19/EU to technical and scientific progress, in respect of supplementing Directive 2000/53/EC by establishing minimum requirements for the certificate of destruction and by establishing standards for coding vehicle components and materials. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making<sup>8</sup>. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.***

<sup>8</sup> ***Interinstitutional Agreement between the European Parliament, the Council of the European Union and the European Commission of 13 April 2016 on Better Law-Making (OJ L 123, 12.5.2016, p. 1).***

- (6b) In order to ensure uniform conditions for the implementation of Directive 2000/53/EC in respect of the detailed rules necessary to control compliance of Member States with the targets for reuse and recovery of vehicle components and laying down the format for reporting data on such reuse and recovery and of Directive 2012/19/EU in respect of laying down the format for reporting data concerning the implementation of the requirement to collect data on the quantities and categories of EEE placed on the Member States' markets, collected through all routes, prepared for re-use, recycled and recovered within the Member State, and on separately collected WEEE exported, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council<sup>9</sup>.**
- (7) In accordance with the Joint Political Declaration of 28 September 2011 of Member States and the Commission on explanatory documents<sup>10</sup>, Member States have undertaken to accompany, in justified cases, the notification of their transposition measures with one or more documents explaining the relationship between the components of a directive and the corresponding parts of national transposition instruments. With regard to this Directive, the legislator considers the transmission of such documents to be justified.

<sup>10</sup> **OJ C 369, 17.12.2011, p. 14.**

- (8) Since the objectives of this Directive, namely to improve the management of waste in the Union, and thereby *to contribute* to the protection, preservation and improvement of the quality of the environment and to the prudent and rational utilisation of natural resources, cannot be sufficiently achieved by the Member States, but can rather, by reason of the scale or effects of the measures, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Directive does not go beyond what is necessary in order to achieve those objectives.
- (8a) *Directives 2000/53/EC, 2006/66/EC and 2012/19/EU should therefore be amended accordingly.*

HAVE ADOPTED THIS DIRECTIVE:
