'I/A' ITEM NOTE

From:	General Secretariat of the Council
To:	Permanent Representatives Committee/Council
Subject:	Draft Directive of the European Parliament and of the Council on combating terrorism and replacing Council Framework Decision 2002/475/JHA and amending Council Decision 2005/671/JHA - Adoption of the legislative act (LA + S) = statement

Joint statement by the Council, the European Parliament and the European Commission

Recent terrorist attacks in Europe have highlighted the need to reinforce efforts to safeguard security while promoting the respect of our common values including the rule of law and respect for human rights. To provide a comprehensive response to the evolving terrorist threat, an enhanced criminalisation framework to combat terrorism need to be complemented by effective measures on prevention of radicalisation leading to terrorism and efficient exchange of information on terrorist offences.

It is in this spirit that the EU institutions and Member States collectively express their commitment - within their respective area of competence - to continue to develop and invest in effective preventive measures, as a part of a comprehensive cross sectoral approach that involves all relevant policies, including in particular in the field of education, social inclusion and integration, and all stakeholders, including civil society organisations, local communities or industry partners.

The Commission will support Member States' efforts in particular by offering financial support to projects aimed at developing tools to tackle radicalisation and through EU wide initiatives and networks, such as the Radicalisation Awareness Network.

The Council of the EU, the European Parliament and the European Commission underline the necessity for an effective and timely exchange of all relevant information for the prevention, detection, investigation or prosecution of terrorist offences between competent authorities in the Union. In this respect, making full use of all the existing Union instruments, channels and agencies to exchange information, as well as a swift implementation of all adopted Union legislation in this field is key.

The three institutions reaffirm the need to assess the functioning of the general EU information exchange framework and to address with tangible actions the possible shortcomings, including in light of the Roadmap to enhance information exchange and information management, including interoperability solutions in the JHA area¹.
