Subject: Free Trade Agreement between the European Union and New Zealand

FUTURE MEASURES

Headnotes

1. The schedules of New Zealand and the Union set out, under Article 10.10 (Non-conforming measures) or Article 10.18 (Non-conforming measures), the entries made by New Zealand and the Union with respect to existing, or more restrictive or new measures that do not conform with obligations imposed by:

- (a) Article 10.5 (Market access) or 10.14 (Market access);
- (b) Article 10.6 (National treatment) or 10.16 (National treatment);
- (c) Article 10.7 (Most-favoured-nation treatment) or 10.17 (Most-favoured-nation treatment);
- (d) Article 10.8 (Senior management and boards of directors);
- (e) Article 10.9 (Performance requirements); or
- (f) Article 10.15 (Local presence).

2. The reservations of a Party are without prejudice to the rights and obligations of the Parties under GATS.

3. Each entry sets out the following elements:

- (a) "sector" refers to the general sector in which the entry is made;
- (b) "sub-sector" refers to the specific sector in which the entry is made;
- (c) "industry classification" refers, where applicable, to the activity covered by the entry according to the CPC, ISIC Rev. 3.1, or as otherwise expressly described in that entry;
- (d) "obligations concerned" specifies the obligation referred to in paragraph 1 for which an entry is made;
- (e) "description" sets out the scope of the sector, sub-sector or activities covered by the entry; and
- (f) "existing measures" identifies, for transparency purposes, existing measures that apply to the sector, sub-sector or activities covered by the entry.

4. In the interpretation of an entry, all elements of the entry shall be considered. Where an inconsistency arises in relation to the interpretation of an entry, the "description" element of the entry shall prevail.

5. For the purposes of the schedules of New Zealand and the Union:
- (a) "ISIC Rev. 3.1" means the International Standard Industrial Classification of All Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M No. 4, ISIC Rev. 3.1, 2002; and
 - (b) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).
6. For the purposes of the schedules of New Zealand and the Union, an entry for a requirement to have a local presence in the territory of the Union or New Zealand is made against Article 10.15 (Local presence), and not against Article 10.14 (Market access) or 10.16 (National treatment). Furthermore, such a requirement is not made as a reservation against Article 10.6 (National treatment).

7. An entry made at the level of the Union applies to a measure of the Union, to a measure of a Member State at the central level or to a measure of a government within a Member State, unless the entry excludes a Member State. An entry for a Member State applies to a measure of a government at the central, regional or local level within that Member State. For the purposes of the entries of Belgium, the central level of government covers the federal government and the governments of the regions and the communities as each of them holds equipollent legislative powers. For the purposes of the entries of the Union and the Member States, a regional level of government in Finland means the Åland Islands. An entry made at the level of New Zealand applies to a measure of the central government or a local government.

8. The list of entries in this Annex does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a limitation within the meaning of Article 10.5 (Market access), 10.6 (National treatment), 10.14 (Market access), Article 10.15 (Local presence) or 10.16 (National treatment). Such measures may include the need to obtain a licence, to satisfy a universal service obligation, to have a recognised qualification in a regulated sector, to pass a specific examination, including a language examination, to fulfil a membership requirement of a particular profession, such as membership of a professional organisation, to have a local agent for service, or to maintain a local address, or any other non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply.

9. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to persons of New Zealand the treatment granted in a Member State, in the application of the TFEU, or any measure adopted pursuant to TFEU, including its implementation in the Member States, to:

- (a) natural persons or residents of another Member State; or
- (b) juridical persons constituted or organised under the law of another Member State or of the Union and having their registered office, central administration or principal place of business in the Union.

10. Treatment granted to juridical persons established by investors of a Party in accordance with the law of the other Party (including, in the case of the Union, the law of a Member State) and having their registered office, central administration or principal place of business within that other Party, is without prejudice to any condition or obligation, consistent with Section B (Investment liberalisation) of Chapter 10 (Trade in services and investment), which may have been imposed on such juridical person when it was established in that other Party, and which shall continue to apply.

11. The schedules of New Zealand and the Union apply only to the territories of New Zealand and the Union in accordance with Article 1.4 (Territorial application) and are only relevant in the context of trade relations between the Union, the Member States and New Zealand. They do not affect the rights and obligations of the Member States under Union law.

12. For greater certainty, non-discriminatory measures do not constitute a limitation within the meaning of Article 10.5 (Market access) or Article 10.14 (Market access) for any measure:

- (a) requiring the separation of the ownership of infrastructure from the ownership of the goods or services provided through that infrastructure to ensure fair competition, for example in the fields of energy, transportation and telecommunications;
- (b) restricting the concentration of ownership to ensure fair competition;
- (c) seeking to ensure the conservation and protection of natural resources and the environment, including a limitation on the availability, number and scope of concessions granted, and the imposition of a moratorium or ban;
- (d) limiting the number of authorisations granted because of technical or physical constraints, for example telecommunications spectra and frequencies; or
- (e) requiring that a certain percentage of the shareholders, owners, partners, or directors of an enterprise be qualified or practice a certain profession such as lawyers or accountants.

13. With respect to computer services, any of the following services shall be considered as computer and related services, regardless of whether they are delivered via a network, including the internet:

- (a) consulting, adaptation, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance or management of or for computers or computer systems;
- (b) computer programmes defined as the sets of instructions required to make computers work and communicate (in and of themselves), as well as consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programmes;
- (c) data processing, data storage, data hosting or database services;
- (d) maintenance and repair services for office machinery and equipment, including computers; and
- (e) training services for staff of clients, related to computer programmes, computers or computer systems, and not elsewhere classified.

For greater certainty, services enabled by computer and related services, other than those listed in points (a) to (e), shall not be regarded as computer and related services in themselves.

14. With respect to financial services, unlike foreign subsidiaries, branches established directly in a Member State by a non-Union financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at Union level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the Union. Therefore, such branches receive an authorisation to operate in the territory of a Member State under conditions equivalent to those applied to domestic financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements, and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Member State concerned of the assets representing the technical reserves and at least one third of the solvency margin.

15. With respect to Article 10.5 (Market access), juridical persons supplying financial services and constituted under the law of New Zealand or the law of the Union or of at least one of the Member States, are subject to non-discriminatory limitations on legal form.¹

¹ For example, partnerships and sole proprietorships are generally not acceptable legal forms for financial institutions in New Zealand and the Union. This headnote is not in itself intended to affect, or otherwise limit, a choice by a financial institution of the other Party between branches or subsidiaries.

Description:

The Union reserves the right to adopt or maintain any measure with respect to the following:

(a) Establishment

With respect to Investment liberalisation – Market access:

The EU: Services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators.

Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights with respect to such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical. This reservation does not apply to telecommunications and to computer and related services.

With respect to Investment liberalisation – Market access, National treatment and Cross-border trade in services – Market access, National treatment:

In FI: Restrictions on the right for natural persons, who do not enjoy regional citizenship in Åland, and for juridical persons, to acquire and hold real property on the Åland Islands without obtaining permission from the competent authorities of the Åland Islands.

Restrictions on the right of establishment and right to carry out economic activities by natural persons, who do not enjoy regional citizenship in Åland, or by any enterprise, without obtaining permission from the competent authorities of the Åland Islands.

With respect to Investment liberalisation – Market access, National treatment, Performance requirements, Senior management and boards of directors:

FR: As set out in the description element as indicated above.

With respect to Investment liberalisation – National treatment, Senior management and boards of directors:

In FR: Limiting foreign participation in newly privatised companies to a variable amount, determined by the government of France on a case-by-case basis, of the equity offered to the public. For establishing in certain commercial, industrial or artisanal activities, a specific authorisation is required if the managing director is not a holder of a permanent residence permit.

This reservation does not apply to mining and quarrying, which are subject to a separate reservation in the schedule of the Union in Annex 10-A (Existing measures).

In IT: The Government may exercise certain special powers in enterprises operating in the areas of defence and national security, and in certain activities of strategic importance in the areas of energy, transport and communications. This applies to all juridical persons carrying out activities considered of strategic importance in the areas of defence and national security, not only to privatised companies.

- (a) impose specific conditions on the purchase of shares;
- (b) veto the adoption of resolutions relating to special operations such as transfers, mergers, splitting up and changes of activity; or

- (c) reject the acquisition of shares, where the buyer seeks to hold a level of participation in the capital that is likely to prejudice the interests of defence and national security.

Any resolution, act or transaction (such as transfers, mergers, splitting up, change of activity or termination) relating to strategic assets in the areas of energy, transport and communications shall be notified by the concerned company to the Prime Minister's office. In particular, acquisitions by any person outside the Union that give this person control over the company shall be notified.

The Prime Minister may exercise the following special powers to:

- (a) veto any resolution, act or transaction that constitutes an exceptional threat of serious injury to the public interest in the security and operation of networks and supplies;
- (b) impose specific conditions in order to guarantee the public interest; or

CONTRACTUAL SERVICE SUPPLIERS AND INDEPENDENT PROFESSIONALS

1. Each Party shall allow the supply of services in its territory by contractual service suppliers or independent professionals of the other Party through the presence of natural persons, in accordance with Article 10.23 (Contractual service suppliers and independent professionals), for the sectors listed in this Annex and subject to the relevant limitations.
2. The list below is composed of the following elements:
 - (a) the first column indicates the sector or sub-sector for which the category of contractual service suppliers and independent professionals is liberalised; and
 - (b) the second column describes the applicable limitations.

3. In addition to the list of commitments in this Annex, each Party may adopt or maintain a measure relating to qualification requirements, qualification procedures, technical standards, licensing requirements or licensing procedures that does not constitute a limitation within the meaning of Article 10.23 (Contractual service suppliers and independent professionals). Such a measure may include the need to obtain a licence, obtain recognition of qualifications in a regulated sector, pass a specific examination such as a language examination, fulfil a membership requirement of a particular profession such as membership in a professional organisation, or any other non-discriminatory requirement that certain activities may not be carried out in protected zones or areas. While not listed in this Annex, such measures continue to apply.
4. The Parties do not undertake any commitment for contractual service suppliers and independent professionals in sectors which are not listed.
5. For the purposes of identifying individual sectors and sub-sectors, "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).
6. In sectors where economic needs tests are applied, the main criteria for those tests will be the assessment of:
 - (a) for New Zealand, the relevant market situation in New Zealand; and

- (b) for the Union, the relevant market situation in the Member State or the region where the service is to be provided, including with respect to the number of, and the impact on, service suppliers who are already supplying a service when the assessment is made.

7. The schedules of New Zealand and the Union in paragraphs 14 and 15 apply only to the territories of New Zealand and the Union in accordance with Article 1.4 (Territorial application) and are only relevant in the context of trade relations between the Union, the Member States and New Zealand. They do not affect the rights and obligations of the Member States under Union law.

8. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to persons of New Zealand the treatment granted in a Member State, in the application of the TFEU, or of any measure adopted pursuant to TFEU, including its implementation in the Member States, to:

- (a) natural persons or residents of another Member State; or
- (b) juridical persons constituted or organised under the law of another Member State or of the Union and having their registered office, central administration or principal place of business in the Union.

9. Commitments for contractual service suppliers and independent professionals do not apply in cases where the intent or effect of their temporary presence is to interfere with, or otherwise affect the outcome of, any labour or management dispute or negotiation.

10. All other requirements of the laws and regulations of the Union and the Member States regarding entry, stay, work and social security measures shall continue to apply, including regulations concerning period of stay, minimum wages as well as collective wage agreements, even if not listed in this Annex.

MOVEMENT OF NATURAL PERSONS FOR BUSINESS PURPOSES¹

ARTICLE 1

Procedural commitments related to entry and temporary stay

Each Party should ensure that the processing of applications for entry and temporary stay pursuant to their respective commitments in this Agreement follows good administrative practice. To that effect:

- (a) each Party shall ensure that:
 - (i) fees charged by its competent authorities for the processing of applications for entry and temporary stay do not unduly impair or delay trade in goods or services, or establishment or operation, under this Agreement;
 - (ii) completed applications for the grant of entry and temporary stay are processed as expeditiously as possible;

¹ The definitions provided in Article 10.3 (Definitions) and Article 10.20(3) (Scope and definitions) apply to this Annex.

- (iii) competent authorities endeavour to provide, without undue delay, information in response to any reasonable request from an applicant concerning the status of an application;
 - (iv) if its competent authorities require additional information from the applicant in order to process an application, they endeavour to notify the applicant without undue delay;
 - (v) its competent authorities notify an applicant of the outcome of their application promptly after a decision has been taken;
 - (vi) if an application is approved, its competent authorities notify the applicant of the period of stay and other relevant terms and conditions;
 - (vii) if an application is denied, its competent authorities, either on request or their own initiative, make available to the applicant information on any available appeal or review procedures; and
 - (viii) it endeavours to accept and process applications in electronic format; and
- (b) subject to a Party's competent authorities' discretion, documents required from applicants for an application for the grant of entry and temporary stay of short-term visitors for business purposes should be commensurate with the purpose for which they are collected.

ARTICLE 2

Additional procedural commitments applying to intra-corporate transferees¹

1. Each Party shall ensure that its competent authorities adopt a decision on the application for entry or temporary stay of an intra-corporate transferee, or a renewal of it, and notify the decision to the applicant in writing, in accordance with the notification procedures under its law, as soon as possible but:
 - (a) in the case of the Union, not later than 90 days after the date on which the complete application was submitted; and
 - (b) in the case of New Zealand:
 - (i) within 15 working days after the receipt of an application completed and submitted in accordance with its law; or
 - (ii) if a decision cannot be made in that time period, provide an indicative timeframe within which the decision will be made.

¹ Paragraphs 1, 2 and 3 of this Article do not apply for the Member States that are not subject to Directive 2014/66/EU of the European Parliament and of the Council of 15 May 2014 on the conditions of entry and residence of third-country nationals in the framework of an intra-corporate transfer (OJ EU L 157, 27.5.2014, p. 1).

2. Each Party shall ensure that, if the information or documentation supplied in support of an application is incomplete, its competent authorities endeavour to notify the applicant within a reasonable period of time of the additional information that is required and set a reasonable deadline for providing it. The period referred to in paragraph 1 shall be suspended until the competent authorities have received the additional information required.
3. The Union shall extend to family members of natural persons of New Zealand, who are intra-corporate transferees to the Union, the right of entry and temporary stay granted to family members of an intra-corporate transferee under Article 19 of Directive 2014/66/EU.
4. New Zealand shall allow the entry and temporary stay of the partner and any dependent children accompanying an intra-corporate transferee of the Union that has been granted entry and temporary stay. The period of temporary stay for that partner and, where relevant, dependent children, shall be the same as that granted to the intra-corporate transferee.
5. For the purposes of paragraph 4, the following definitions apply:
 - (a) "partner" means any spouse or civil partner of an intra-corporate transferee from the Union, including under a marriage, civil union, or equivalent union or partnership, recognised as such in accordance with the law of New Zealand. For greater certainty, this includes any unmarried or same sex partner of the intra-corporate transferee; and

- (b) "dependent children" means children under the age of 20 who are dependent on the intra-corporate transferee and who are recognised as dependent children in accordance with the law of New Zealand where:
- (i) the intra-corporate transferee has the legal right to remove them from their home country; or
 - (ii) both of the children's parents will be granted entry and temporary stay in accordance with this Agreement.

ARTICLE 3

10. Should the sub-list of chairpersons referred to in Article 26.6 (Lists of panellists) not be established at the time a request is made pursuant to Rules 5 to 7, the mediator shall be drawn by lot from the individuals formally proposed by one Party or both of the Parties for that sub-list.

11. A mediator shall not be a national of either Party or employed by either Party, unless the Parties agree otherwise.

12. A mediator shall comply with Annex 26-B (Code of conduct for panellists and mediators).

V. Mediation procedure

13. Within 10 days after the appointment of the mediator, the Party which invoked the mediation procedure shall deliver to the mediator and to the other Party a detailed written description of its concerns, in particular of the operation of the measure at issue and its possible adverse effects on trade or investment. Within 20 days after the delivery of such description, the other Party may deliver written comments on such description. Either Party may include any information that it deems relevant in its description or comments.

14. The mediator shall assist the Parties in a transparent manner in bringing clarity to the measure concerned and its possible adverse effects on trade or investment. In particular, the mediator may organise meetings between the Parties, consult the Parties jointly or individually, seek the assistance of, or consult with, relevant experts and stakeholders and provide any additional support requested by the Parties. The mediator shall consult with the Parties before seeking the assistance of, or consulting with, relevant experts and stakeholders.

15. The mediator may offer advice and propose a solution for the consideration of the Parties. The Parties may accept or reject the proposed solution, or agree on a different solution. The mediator shall not advise or comment on the consistency of the measure at issue with this Agreement.

16. The mediation procedure shall take place in the territory of the Party to which the request was addressed, or by mutual agreement in any other location or by any other means.

17. The Parties shall endeavour to reach a mutually agreed solution within 60 days after the appointment of the mediator. Pending a final agreement, the Parties may consider possible interim solutions, particularly if the measure relates to perishable goods, or seasonal goods or services that rapidly lose their trade value.

18. The solution may be adopted by means of a decision of the Trade Committee. Either Party may make the solution subject to the completion of any necessary internal procedures. Mutually agreed solutions shall be made publicly available. The version disclosed to the public shall not contain any information a Party has designated as confidential.

19. Upon request of either Party, the mediator shall deliver a draft factual report to the Parties, providing:

(a) a brief summary of the measure at issue;

- (b) the procedures followed; and
- (c) if applicable, any mutually agreed solution reached, including possible interim solutions.

The mediator shall allow the Parties 15 days to comment on the draft report. After considering the comments of the Parties received, the mediator shall, within 15 days after the delivery of the Parties' comments, deliver a final factual report to the Parties. The factual report shall not include any interpretation of this Agreement.

20. The procedure shall be terminated:

- (a) by the adoption of a mutually agreed solution by the Parties, on the date of the adoption thereof;
- (b) by mutual agreement of the Parties at any stage of the procedure, on the date of that mutual agreement;
- (c) by a written declaration of the mediator, after consultation with the Parties, that further efforts at mediation would be to no avail, on the date of that declaration; or
- (d) by a written declaration of a Party after exploring mutually agreed solutions under the mediation procedure and after having considered any advice and proposed solutions by the mediator, on the date of that written declaration.

VI. Confidentiality

21. Unless the Parties agree otherwise, all steps of the mediation procedure, including any advice or proposed solution, are confidential. A Party may disclose to the public the fact that a mediation procedure is taking place.

VII. Relationship to dispute settlement procedures

22. The mediation procedure is without prejudice to each Party's rights and obligations under Sections B (Consultations) and C (Panel procedures) of Chapter 26 (Dispute settlement) or under dispute settlement procedures under any other agreement.

23. A Party shall not rely on, or introduce as evidence, in other dispute settlement procedures under this Agreement or any other agreement, nor shall a panel take into consideration:

- (a) positions taken by the other Party in the course of the mediation procedure or information exclusively gathered under Rule 14;

- (b) the fact that the other Party has indicated its willingness to accept a solution to the measure subject to mediation; or
- (c) advice given or proposals made by the mediator.

24. Unless the Parties agree otherwise, a mediator shall not serve as a member of a panel in dispute settlement procedures under this Agreement or under any other international trade agreement to which both Parties are party involving the same matter for which he or she has been a mediator.

 2. In this context and with a view to concluding a comprehensive bilateral agreement establishing a free trade area in accordance with Article XXIV of GATT 1994, New Zealand shall endeavour to start negotiations with countries that:
 - (a) have established a customs union with the Union; and

 3. New Zealand shall endeavour to start negotiations as soon as possible with a view to having a comprehensive bilateral agreement enter into force as quickly as possible after the entry into force of this Agreement.
