Reintroduction of temporary controls at the Norwegian internal borders

In order to combat further spread of the Covid-19 virus infections, Norway reintroduced internal border controls at all international borders (land, sea and air) on the 16th of March 2020, pursuant to article 28 of Regulation 2016/399 on the rules governing the movements of persons across borders (Schengen Borders Code). Furthermore, restrictions for travel into Norway for certain groups of Schengen/EEA-citizens were applied.

In my letter of 14th of April 2020, I expressed the view of the Norwegian authorities that it would be reasonable to assume that several of the measures adopted to contain and combat the infections would have to be kept in place over time.

The current situation, with new and more contagious strings of the virus has made it necessary to invoke exceptional measures to mitigate the situation. Therefore, I have decided to prolong the temporary border controls at all Norwegian borders (land, sea and air), 30 days from the 12th of Mars 08.00, pursuant to the Schengen Borders Code article 25 paragraph 3 and article 27.

The reintroduction of internal border controls is an exceptional measure of last resort. As such, the carrying out of these controls to limit the further spread of Covid-19 will be limited to what is considered strictly necessary to prevent the threats posed by this pandemic.

Office address: Gullhaug Torg 4A Telephone: +47 22 24 51 00
Postal address: PO Box 8005 Dep, N-0030 Oslo, Norway
Org. no.: 972 417 831

From 31th of December 2020, Norway has reduced the number of border crossing points on the Norwegian internal border. These limitations will also be in effect for the duration of the internal border controls. The open border crossing points are indicated in the attached list.

Yours sincerely
