NOTE

From:	General Secretariat of the Council
To:	Delegations
No. Cion doc.:	ST 6765/21 + ADD 1
Subject:	Updates to Commission proposal COM(2021)111 for a Council Regulation amending Regulation (EU) 2021/92 as regards certain fishing opportunities for 2021 in Union and non-Union waters - Commission non-paper

Delegations will find attached a Commission non-paper containing updates to the above-mentioned proposal.

COMMISSION SERVICES NON PAPER

15 March 2021

*This document serves as a basis for discussion at the Working Party on Internal and External Fisheries Policy.
It cannot in any circumstances be regarded as the official position of the Commission.
It is intended solely for those to whom it is addressed.*

**Updates to Commission proposal COM(2021)111 for a Council Regulation amending
Regulation (EU) 2021/92 as regards certain fishing opportunities for 2021 in Union and
non-Union waters**

Contents

1. AMENDMENTS TO THE ENACTING TERMS	2
PART A: AMENDMENTS TO PART 2 OF THE ANNEX TO REGULATION (EU) 2021/91	6
PART B: AMENDMENTS TO ANNEX IA OF REGULATION (EU) No 2021/92 .	9
PART C: AMENDMENTS TO ANNEX IB OF REGULATION (EU) No 2021/92	44
PART D: AMENDMENTS TO ANNEX II OF REGULATION (EU) No 2021/92.	47

1. AMENDMENTS TO THE ENACTING TERMS

- The following recitals are inserted:

“The Trade and Cooperation Agreement between the European Union and the European Atomic Energy Community, of the one part, and the United Kingdom of Great Britain and Northern Ireland, of the other part (hereafter ‘the Agreement’)¹ provisionally entered into force on 1 January 2021.”

“Council Regulation (EU) 2021/92 of 28 January 2021 fixing for 2021 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters² fixes for 2021 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in Union waters and, for Union vessels, in certain non-Union waters. Council Regulation (EU) 2021/91³ establishes, for the years 2021 and 2022, the fishing opportunities for Union fishing vessels for certain deep-sea fish stocks. The fishing opportunities shared with certain third countries are provisional and in quantitative terms limited to a three months roll-over based on the 2020 TAC Regulation and in a very limited number of cases, a different methodology was used for stocks that are predominantly fished in the beginning of the year or where scientific advice required severe reductions of fishing opportunities.”

“In accordance with Article FISH.7(2) of the Agreement, these provisional TACs aim to ensure the continuation of sustainable EU fishing activities until the consultations between the Union and the United Kingdom pursuant to Article Fish.6 of the Agreement are concluded and implemented in the EU legal order.”

“The consultations between the Union and the United Kingdom, and between the Union and Norway are ongoing and might not to be finalised before 31 March 2021. Therefore, Regulations (EU) 2021/91 and (EU) 2021/92 need to be amended by establishing provisional unilateral Union TACs to create legal certainty for the Union operators and to ensure the continuation of sustainable fishing activities until consultations between the Union and the United Kingdom are concluded in compliance with the Union legal framework and the Agreement.”

“The level of the provisional fishing opportunities for stocks shared with the United Kingdom are a fraction of the TAC levels presented as the EU position in the ongoing consultations with the United Kingdom, in particular based on Articles 4, 5(3) and 8 of the multiannual plan for stocks fished in the Western Waters and adjacent waters, and for fisheries exploiting those stocks (hereafter ‘Western Waters MAP’)⁴ and the multiannual plan for demersal stocks

¹ OJ L 444, 31.12.2020, p. 14.

² OJ L 31 of 29.1.2021, p. 31.

³ Council Regulation (EU) 2021/91 of 28 January 2021 fixing, for the years 2021 and 2022, the fishing opportunities for Union fishing vessels for certain deep-sea fish stocks (OJ L 31, 29.1.2021, p. 20–30).

⁴ Regulation (EU) 2019/472 of the European Parliament and of the Council of 19 March 2019 establishing a multiannual plan for stocks fished in the Western Waters and adjacent waters, and for fisheries exploiting those stocks, amending Regulations (EU) 2016/1139 and (EU) 2018/973, and repealing Council Regulations (EC) No 811/2004, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007 and (EC) No 1300/2008, OJ L 83, 25.3.2019, p. 1–17.

in the North Sea and the fisheries exploiting those stocks (hereafter ‘North Sea MAP’)⁵, and on Article FISH.7 of the Agreement.”

“Taking into account the biological status of the stocks, the quota uptake, as well as other conditions stipulated in existing Union legislation, it is considered that pursuant to Article FISH.7(7) of the Agreement, the provisional TACs and quotas do not exceed the Union shares agreed under the Agreement, as set out in ANNEX FISH.1 and ANNEX FISH.2 of the Agreement. The provisional TACs are based on the level advised by ICES for the year 2021 and, for deep-sea stocks, also for 2022. This approach is based on Article FISH.7(2) of the Agreement providing that if a stock listed in Annex FISH.1 or Annex FISH.2A and B remains without an agreed TAC, each Party is to set a provisional TAC corresponding to the level advised by the International Council for the Exploration of the Sea (ICES), applying from 1 January.”

“The level of the provisional fishing opportunities shared with Norway is set at a fraction of the TAC levels presented as the EU position in the ongoing consultations with Norway, and where relevant the United Kingdom. It is in compliance with Articles 4, 5(3) and 8 of the Western Waters MAP and the North Sea MAP, as well as on the 1980 Agreement on fisheries between the European Economic Community and the Kingdom of Norway⁶ and correspond to the relevant Union shares set out in Annexes FISH to the Agreement and are based on the ICES advice for 2021.”

“The TACs are taking into account seasonality of fishing activities for certain stocks and are considered to be sufficient for the EU vessels in principle at least until 31 July 2021, which is one month after the date at which guidelines need to be agreed with the United Kingdom pursuant to Article FISH.7(5) of the Agreement for special stocks: stocks where the ICES advice is for a zero TAC; stocks caught in a mixed fishery, if that stock or another stock in the same fishery is vulnerable; or other stocks which the Parties consider require special treatment. Taking into account the absence of, and without prejudice to these guidelines that are to be adopted at the latest by 1 July 2021 by the Specialised Committee on Fisheries, the TACs are considered to be in line with Article FISH.7 of the Agreement, since the applicable EU legal framework is complied with and the provisional TACs are based on the level advised by ICES taking into account especially the stocks where the ICES advice is for a zero TAC or where stocks are caught in a mixed fishery, or the stocks require special treatment.”

“These fishing opportunities should in no circumstances prejudice the establishment of the fishing opportunities in accordance with the outcome of the consultations with the United Kingdom and with Norway, the guidelines on special stocks to be agreed with the UK pursuant to Article FISH.7(5) of the Agreement and with the EU legal framework.”

“The Council should, in full respect of the United Nations Convention on the Law of the Sea (UNCLOS) extend the application of the provisional fishing opportunities in EU, international waters and relevant third country waters until 31 July 2021.”

“As a general approach, they should be based on the ICES advice for 2021, when available and correspond to the Union share agreed under the Agreement.”

“This Regulation should enter into force the day after publication in view of the urgency to continue sustainable fishing activities on 1st April 2021.”

⁵ Regulation (EU) 2018/973 of the European Parliament and of the Council of 4 July 2018 establishing a multiannual plan for demersal stocks in the North Sea and the fisheries exploiting those stocks, specifying details of the implementation of the landing obligation in the North Sea and repealing Council Regulations (EC) No 676/2007 and (EC) No 1342/2008, OJ L 179, 16.7.2018, p. 1–13.

⁶ OJ L 226, 29.8.1980, p. 48–50.

The following Articles are inserted:

“Article xx
Amendments to Regulation (EU) No 2021/91

In Article 8(1), ‘31 March 2021’ is replaced by ‘31 July 2021’.

In Article 8(1), the last sentence is replaced by ‘Those provisional fishing opportunities shall be without prejudice to setting definitive fishing opportunities for 2021 and 2022, based on the best available scientific advice, and in accordance with the outcomes of international negotiations and/or consultations, the guidelines on special stocks to be agreed with the United Kingdom, the applicable provisions of Regulation (EU) No 1380/2013 and relevant multiannual plans’.

Part 2 of the Annex to Regulation (EU) 2021/91 is amended in accordance with Part A of the Annex to this Regulation.

“Article yy
Amendments to Regulation (EU) No 2021/92

In Article 7(1), ‘31 March 2021’ is replaced by ‘31 July 2021’.

In Article 7(1), the last sentence is replaced by ‘Those provisional fishing opportunities shall be without prejudice to setting definitive fishing opportunities for 2021 and 2022, based on the best available scientific advice, and in accordance with the outcomes of international negotiations and/or consultations, the guidelines on special stocks to be agreed with the United Kingdom, the applicable provisions of Regulation (EU) No 1380/2013 and relevant multiannual plans’.

In Article 9(2), ‘31 March 2021’ is replaced by ‘31 July 2021’.

In Article 9(3), ‘31 March 2021’ is replaced by ‘31 July 2021’.

Annex IA is amended in accordance with Part B of Annex to this Regulation

Annex IB is amended in accordance with Part C of Annex to this Regulation

Chapter III of Annex II is amended in accordance with Part D of Annex to this Regulation”

(1)	Picked dogfish shall not be targeted in the areas covered by this TAC. When accidentally caught in fisheries where picked dogfish is not subject to the landing obligation, specimens shall not be harmed and shall be released immediately, as required by Articles 13 and 48 of this Regulation. By derogation from Article 14, a vessel engaged in the by-catch avoidance programme that has been positively assessed by the STECF may land not more than 2 tonnes per month of picked dogfish that is dead at the moment when the fishing gear is hauled on board. Member States participating in the by-catch avoidance programme shall ensure that the total annual landings of picked dogfish on the basis of this derogation do not exceed the above amounts. They shall communicate the list of participating vessels to the Commission before allowing any landings. Member States shall exchange information about avoidance areas.

PART D: AMENDMENTS TO CHAPTER III OF ANNEX II OF REGULATION (EU) No 2021/92

Chapter III

Number of days present within the area allocated to Union fishing vessels

5. MAXIMUM NUMBER OF DAYS

From 1 January to 31 July 2021, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area carrying on board any regulated gear is set out in Table I.

Table I
Maximum number of days a vessel may be present within the area
by category of regulated gear from 1 January to 31 July 2021

Regulated gear	Maximum number of days	
Beam trawls of mesh size ≥ 80 mm	Belgium	103
	France	110
Static nets with mesh size ≤ 220 mm	Belgium	103
	France	111
