List of tariff quotas to be modified in Schedule CLXXV – European Union

The proposed modifications are as follows:

It is proposed to apportion the TRQs between the European Union as composed following the withdrawal of the UK ("EU27") and the United Kingdom based on the trade flows under each TRQ for a representative period (2013-2015). The apportionment has been established according to the respective usage share (%) of the EU27 and the UK which has been applied to the whole scheduled TRQ volume. A consistent approach for all TRQs, including with respect to data and methodology, has been followed. The current concessions and the proposed apportionment for the EU27 are presented below.
