## 3. Regulation on CAP transitional rules 7032/20 *Partial mandate for negotiations with the European Parliament*

- noted there was a qualified majority of delegations who supported the Presidency suggestions;
- therefore gave the Presidency a partial negotiating mandate on the basis of the Presidency text set out in document 7032/20;
- noted that two delegations (Czech Republic and Lithuania) could not agree to give a partial mandate to open the negotiations on that basis;
- noted the reply from the Commission to a question on Article 6, in relation to new legal commitments (overbooking), confirming that Member States may continue to undertake new legal commitments even after the financial resources of the 2014-2020 programming period have been used up;
- took note of the Commission position; and
- agreed to enter the Council statement on the duration of the transitional period in the summary record of the meeting<sup>1</sup>.

Item based on a Commission proposal

**Statement by the Council on the duration of the transitional period**

In its proposal, the Commission puts forward a transitional period of one year, i.e. until the end of 2021. In order to avoid prejudging the results of the on-going negotiations on the Multiannual Financial Framework for 2021-2027, the Council can basically accept a one-year transitional period for the time being. However, the Council considers that a one year-transition will most likely not be sufficient, given the state of play of both the MFF negotiations and the legislative procedure on the CAP reform. In addition, the complexity of the structure of the future CAP will necessarily require sufficient preparation before the new system can be successfully implemented. Therefore, in the light of further developments, the need to extend the transitional period until the end of 2022 is very likely to emerge. This is important in order to maintain the continuity of the CAP especially for a responsible transition to the New Delivery Model, assuring a higher contribution to environmental and climate protection. The Council notes that the European Parliament seems to share the Council's concerns. The Council will follow developments closely and will revert to this issue for a final decision on it at a later stage.
