Statement by Hungary Hungary recognises and promotes equality between men and women in accordance with the Fundamental Law of Hungary and the primary law, principles and values of the European Union, as well as commitments and principles stemming from international law. Equality between women and men is enshrined in the Treaties of the European Union as a fundamental value. In line with these and its national legislation, Hungary interprets the term ‘gender’ as a reference to ‘sex’ in the Concept Note for an Assistance Measure under the European Peace Facility to support military actors and navies of coastal states involved in maritime security operations in the Gulf of Guinea.
