NOTE

Subject: MONTHLY SUMMARY OF COUNCIL ACTS - OCTOBER 2022

This document lists the acts¹ adopted by the Council in October 2022.²³

It provides information on the adoption of legislative and non-legislative acts, including:

- the date of adoption,
- the relevant Council session,
- the number of the document adopted,
- the Official Journal reference,
- reference to the minutes of the Council session when the act was adopted.

¹ For easy reference, the "short titles" as mentioned in the Council's agendas are also indicated (see in italics).

² With the exception of certain acts of limited scope such as procedural decisions, appointments, specific budgetary decisions, etc. unless adopted by written procedure.

³ In the case of legislative acts adopted in the ordinary legislative procedure, there may be a difference between the date of the Council's meeting where the legislative act is adopted and the actual date of the act in question, since legislative acts adopted in the ordinary legislative procedure are only considered to have been adopted after signature by both the President of the Council and the President of the European Parliament and the Secretaries-General of the two institutions.

This document is also available on the Council's website at:

[Monthly summaries of Council acts \(acts\) - Consilium](#)

Documents listed in the summary may be obtained from the public register of Council documents at: [Documents and publications - Consilium](#).

If not directly available, a request for access to documents can be submitted at:

<https://www.consilium.europa.eu/en/documents-publications/public-register/request-document-form/>

It should be noted that this document is exclusively for information purposes - only Council minutes are authentic. These are available on the Council's website at: [Council Minutes - Consilium](#)

<p><i>Council Regulation on an emergency intervention to address high energy prices</i></p> <p>Council Regulation (EU) 2022/1854 of 6 October 2022 on an emergency intervention to address high energy prices</p> <p>OJ L 261I, 7.10.2022, p. 1–21</p>	12521/22
<p>Statement by the Republic of Estonia</p> <p>Estonia expresses its concern about the ongoing energy crisis and is convinced that Member States should do their utmost to mitigate the impact of high energy prices to consumers and businesses.</p> <p>Estonia recognises the objectives of the Council Regulation on an emergency intervention to address high energy prices and, in the spirit of unity between Member States, agrees to the Council Regulation.</p> <p>In relation to Article 14 on implementing the mandatory temporary solidarity contribution, Estonia interprets Article 14(2) in a way that Estonia's already existing domestic resource tax system for users of energetic mineral resources, which contains a clear link between the global oil commodity prices and the rate that the companies are entitled to pay for the usage rights of the resource, is an equivalent measure to the solidarity contribution and is already fulfilling similar objectives.</p> <p>In relation to future tax matters, Estonia continues to insist on the proper legal basis (Article 115 of the Treaty on the Functioning of the European Union) and the requirement of unanimity it prescribes.</p>	CM 4715/22

<p>Joint Statement by the Republic of Estonia and the Republic of Latvia</p> <p>In relation to the distribution of surplus revenues, Estonia and Latvia interpret Article 10(1) that requires to ensure that surplus revenues are employed in support of final electricity customers in the following way:</p> <p>Estonia and Latvia will ensure that all surplus revenues resulting from the application of the cap are employed by investing them in accelerating additional renewable energy production. Inframarginal revenues will be accounted for and reported but not collected. In our specific circumstances, the revenues that could be obtained from the implementation of the cap on market revenues would be insignificant. We conclude that the consumers of Estonia and Latvia will benefit from the accounted inframarginal revenues the most if companies commit to directly investing the surplus profits in additional renewable energy production.</p>	CM 4715/22
<p>Statement by Poland</p> <p>Poland considers that the extraordinary measures taken by the EU in the field of energy should be in line with the principle of energy solidarity. At the same time, however, those measures should be founded on Treaty provisions appropriate to their nature. The Republic of Poland takes the view that, during the negotiations in the Council of the EU on the draft <i>Council Regulation on an emergency intervention to address high energy prices</i>, the European Commission failed to provide sufficient justification for its conclusion that its proposed new measures, and in particular the ‘solidarity levy’, did not constitute measures of a fiscal nature. The Republic of Poland considers that, when voting on measures which are primarily of a fiscal nature, within the meaning of Article 194(3) TFEU, the Council of the EU must, pursuant to that provision, act in accordance with a special legislative procedure, unanimously and after consulting the European Parliament, and not by means of qualified majority voting. In view of the persistent concerns about the nature of the measure proposed by the Commission, the Republic of Poland considers that the legal basis for this Regulation should therefore be Article 194(3) TFEU.</p> <p>The Republic of Poland also takes the view that the adoption of this Regulation in no way undermines Member States’ competence to introduce and maintain at national level measures identical or equivalent to those agreed by the Council of the EU in the Regulation, and that such measures taken in accordance with Article 8 and Article 13 should be considered to comply with the requirements of that Regulation.</p>	CM 4715/22
<p>Joint Statement by Croatia and Slovenia</p> <p>Republic of Croatia and Republic of Slovenia reiterate their positions that the possibility of support should be extended to all market participants. Given that the impact of high prices affects a much larger number of market participants than only small and medium-sized companies, the possibility of regulated prices should be made available for all consumers and companies.</p>	CM 4715/22

Statement by Hungary The Hungarian delegation expresses its reservation on the choice of the legal basis of this Regulation, as article 122 of the TFEU cannot be the sole legal basis for the solidarity contribution, which includes provisions of a fiscal nature, that should be discussed and adopted accordingly with unanimity. <i>Council Regulation fixing for 2023 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Baltic Sea, and amending Regulation (EU) 2022/109 as regards certain fishing opportunities in other waters</i> Council Regulation (EU) 2022/2090 of 27 October 2022 fixing the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Baltic Sea for 2023 and amending Regulation (EU) 2022/109 as regards certain fishing opportunities in other waters OJ L 281, 31.10.2022, p. 1–15	13076/22
Joint Statement by Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden on the application of Article 15(9) in the Basic Regulation for eastern Baltic cod and western Baltic cod in 2023 Given that the biomasses of the stocks of eastern Baltic cod and western Baltic cod are below Blim, and in order to ensure the recovery of the stock in accordance with Regulation (EU) 2016/1139, Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden undertake not to make use of inter-annual flexibility under Article 15(9) of Regulation (EU) No 1380/2013 with regard to these stocks in 2023. This undertaking is a response to the current exceptional circumstances for the eastern Baltic cod and western Baltic cod stocks.	13927/22
Joint Statement by Denmark, Finland, Germany, Poland and Sweden on the application of Article 15(9) in the Basic Regulation for western Baltic herring in 2023 Given that the biomass of the stock of western Baltic herring is below Blim, and in order to ensure the recovery of the stock in accordance with Regulation (EU) 2016/1139, Denmark, Finland, Germany, Poland and Sweden undertake not to make use of inter-annual flexibility under Article 15(9) of Regulation (EU) No 1380/2013 with regard to this stock in 2023. This undertaking is a response to the current exceptional circumstances for the western Baltic herring stock.	13927/22

<p>Joint Statement by Denmark, Estonia, Germany, Latvia, Lithuania and Poland on the application of Article 15(9) in the Basic Regulation for main basin salmon in 2023</p> <p>Given that south to latitude 59°30'N almost all wild salmon river stocks are well below Rlim, and in order to ensure the recovery of the stocks in accordance with Regulation (EU) 2016/1139, Denmark, Estonia, Germany, Latvia, Lithuania and Poland undertake not to make use of inter-annual flexibility under Article 15(9) of Regulation (EU) No 1380/2013 with regard to these stocks in 2023. This commitment is a response to the current exceptional circumstances for the wild salmon river stocks south to latitude 59°30'N.</p>	13927/22
<p>Joint Statement by the Commission, Finland, Latvia, Lithuania, Poland and Sweden on Central Baltic and Gulf of Bothnia herring</p> <p>The Commission, Finland, Latvia, Lithuania, Poland and Sweden are concerned about the size and age structure of central Baltic Sea herring and Gulf of Bothnia herring. The Commission will request ICES to: (i) conduct scientific analyses of the size and age structure of those stocks, and of the reasons for the observed reduced number of larger-sized herring, and (ii) identify possible measures to address this issue.</p>	13927/22
<p>Joint Statement by the Commission, Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden on recreational salmon fisheries in the Main Basin</p> <p>Since 2021 ICES advises that there should be no commercial or recreational fishing of wild salmon in mixed sea fisheries in the main basin. Therefore, the fishing opportunities in the south to latitude 59°30'N have been limited to unavoidable by-catches and recreational fisheries in this area has been limited to a bag limit of one adipose fin-clipped salmon per fisher per day. The Commission will request ICES to examine ways of improving the available data, notably on different types of recreational fisheries, the level of catches associated with those fisheries and their impact on the river stocks of salmon, as well as their corresponding post-release mortality. The Commission, and Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden will, based on that analysis by ICES, examine existing measures on recreational fisheries.</p>	13927/22
<p>Joint Statement by Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden on control in pelagic fisheries</p> <p>ICES states in its stock advice for the 2023 fisheries for sprat and for central herring that there is evidence of misreporting of sprat as central herring but that the effects have not been quantified nor included in the annual stock assessment. To avoid misreporting, Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden underline the importance of ensuring the effective control of the mixed fisheries of sprat and herring, including correct reporting per species. These Member States commit to improve, where necessary, the control mechanisms to avoid misreporting, ensuring they are appropriate and comprehensive.</p>	13927/22

<p>Joint Statement by the Commission, and Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden on exchanges of eastern and western Baltic cod quota</p> <p>In a spirit of solidarity, a Member State not needing its entire by-catch quota for eastern or western Baltic cod will seek to agree on quota exchanges with a Member State that can demonstrate it will be confronted with a choke effect due to its limited eastern or western Baltic cod quota.</p> <p>The Commission and the Member States in the Baltic Sea will assess the adequacy of these exchanges before the fixing of the fishing opportunities for 2024.</p>	13927/22
<p>Joint Statement by Denmark, Estonia, Germany, Lithuania and Poland on transfers of Main Basin salmon quota</p> <p>In a spirit of solidarity and recognising the conservation efforts made by Finland and Sweden, which have led to healthy stocks in their waters, a Member State which cannot use its entire quota for Main Basin salmon will consider a voluntary transfer of the unused or unusable part of that quota to Finland and/or Sweden.</p>	13927/22
<p>Joint Statement by the Commission and Germany on the option of support for the temporary cessation of fishing activities by the European Maritime and Fisheries Fund (EMFF) or the European Maritime, Fisheries and Aquaculture Fund (EMFAF)</p> <p>1. Article 5(3), point (a) of Regulation (EU) 2016/1139 of the European Parliament and of the Council of 6 July 2016 establishing a multiannual plan for the stocks of cod, herring and sprat in the Baltic Sea and the fisheries exploiting those stocks allows the Member States to adopt emergency measures in accordance with Article 13 of Regulation (EU) No 1380/2013 of the European Parliament and of the Council of 11 December 2013 on the Common Fisheries Policy.</p> <p>2. Given the assessment of the International Council for the Exploration of the Sea (ICES) on cod and herring in subdivisions 22-24 Germany therefore deems it necessary to adopt emergency measures in accordance with Article 13(1) of Regulation 1380/2013. The emergency measures in subdivisions 22-24 for German fishing vessels consist in introducing an additional closure of 30 days for the protection of cod along the fishing rules established in Article 7(3) of the Regulation fixing for 2023 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Baltic Sea during which the exemption contained in Article 7 (4)(b) shall not apply, and limiting the herring fishery by additional 30 days during which the exemption for certain small-scale coastal fisheries from the prohibition to target western herring is interrupted.</p> <p>3. The Commission and Germany agree that this emergency measure under Article 33(1)(a) of Regulation (EU) No 508 /2014 of the European Parliament and of the Council of 15 May 2014 on the European Maritime and Fisheries Fund or Article 21(2)(c) of Regulation (EU) 2021/1139 of the European Parliament and the Council of 7 July 2021 establishing the European Maritime, Fisheries and Aquaculture Fund and amending Regulation (EU) 2017/1004 is eligible for funding from the EMFF or the EMFAF respectively, in accordance with the conditions therein.</p>	13927/22
