7. EBA shall, **within twelve months from the date of entry into force of this Directive,** develop **guidelines further** specifying the information to be contained in the recovery plan referred to in paragraph 4.

8. **The management of the institution referred to in paragraph 1 shall approve the recovery plan before submitting it to the competent authority.**

*Article 6*  
*Assessment of recovery plans*

1. Member States shall require institutions **that are required to draw up recovery plans under Article 5(1) and Article 7(1) to submit those recovery plans to the competent authority for review. Member States shall require institutions to demonstrate to the satisfaction of the competent authority that those plans meet the criteria of paragraph 2.**
  
2. The competent authority shall, in consultation with the competent authorities of the Member States where significant branches are located **insofar as is relevant to that branch,** review those plans and assess the extent to which each plan satisfies the requirements set out in Article 5 and the following criteria:
  - (a) the implementation of the arrangements proposed in the plan is reasonably likely to **maintain or** restore the viability and financial position of the institution **or of the group,** taking into account the preparatory measures that the institution has taken or has planned to take;
  
  - (b) the plan **and** specific options **within the plan are** reasonably likely to be implemented effectively in situations of financial stress and without causing any significant adverse effect on the financial system, including in the event that other institutions implemented recovery plans within the same time period.

- 2a. The competent authority shall provide the recovery plan to the resolution authority. The resolution authority may examine the recovery plan with a view to identifying any actions in the recovery plan which may adversely impact the resolvability of the entity and make recommendations to the competent authority on these matters.
3. Where the competent **authority assesses** that there are **material** deficiencies in the recovery plan, or potential impediments to its implementation, it shall notify the institution **or the parent undertaking of the group** of its assessment and require the institution to submit, within three months, a revised plan demonstrating how those deficiencies or impediments have been addressed. Where the competent authority does not consider that the deficiencies and impediments have been adequately addressed by the revised plan, it may direct the institution to make specific changes to the plan.
4. If the institution fails to submit a revised recovery plan, or if the competent authority determines that the revised recovery plan does not adequately remedy the deficiencies or potential impediments identified in its original assessment, and it is not possible to adequately remedy the deficiencies or impediments through a direction to make specific changes to the plan, the competent authority shall provide the institution with an opportunity to identify changes it can make to its business in order to address the deficiencies in or impediments to the implementation of the recovery plan.

If the competent authority assesses that the actions proposed by the institution would not adequately address the deficiencies or impediments, the competent authority may direct the institution to take **any** measures it considers necessary and proportionate, taking into account the seriousness of the deficiencies and impediments and **the** effect of the measures on the institution's business.

The competent authority may direct the institution to:

- (a) reduce the risk profile of the institution;
- (b) enable timely recapitalisation measures;
- (c) make changes to the funding strategy so as to improve the resilience of the core business lines and critical functions;
- (d) make changes to the governance structure of the institution;
- (e) take any of the measures specified in Article 136 of Directive 2006/48/EC-

**The above list of measures does not preclude Member States from authorising competent authorities to take additional measures under national law.**

4a. When the competent authority requires an institution to take measures according to paragraph 4, its decision on the measures shall:

- (a) be reasoned; and
- (b) indicate how it complies with the principle of proportionality.

**The decision shall be notified in writing to the institution and subject to a right of appeal.**

5. EBA shall, within twelve months from the date of entry into force of this Directive, develop guidelines specifying the criteria that the competent authority must follow for the purposes of the assessment provided for in paragraph 2 of this Article.

## *Article 7*

### *Group recovery plans*

1. Member States shall ensure that parent undertakings or institutions that are subject to consolidated supervision pursuant to Articles 125 and 126 of Directive 2006/48/EC draw up and submit to the consolidating supervisor a group recovery plan. Group recovery plans shall consist of a recovery plan for the whole group, including for the companies referred to in points (c) and (d) of Article 1, drawn up **and updated** in accordance with Article 5. 1a.  
**Where a host competent authority considers that a subsidiary is a domestically significant institution it may request that a recovery plan pursuant to Article 5 is prepared** for that subsidiary as part of the group recovery planning exercise. The recovery plan for the subsidiary shall be included within the group recovery plan and shall **not** be inconsistent with the group recovery plan.

2. The consolidating supervisor shall transmit the group recovery plans to the relevant competent authorities referred to in Article 131a of Directive 2006/48/EC, to the competent authorities of the Member States where significant branches are located **and to the group level resolution authority**.
3. The group recovery plan shall aim to achieve the stabilisation of the group as a whole, or any institution of the group, when it is in a situation of stress so as to address or remove the causes of the distress and restore the financial **position** of the group or the institution in question, at the same time taking into account the financial **position** of other entities of the group.

The group recovery plan shall include arrangements to ensure the coordination and consistency of measures to be taken at the level of the parent undertaking or relevant institution subject to consolidated supervision referred to in paragraph 1, and at the level of the companies referred to in points (c) and (d) of Article 1 as well as measures to be taken at the level of **subsidiaries and significant branches**.

4. The group recovery plan shall include elements **specified** in Article 5. It shall also include, where applicable, arrangements for possible intra-group financial support adopted in accordance with any agreement for **intra** group financial support that has been concluded in accordance with **Chapter III**.
5. The consolidating supervisor shall ensure that the parent undertaking or the institution subject to consolidated supervision referred to in paragraph 1 provides a range of recovery options setting out actions to address those scenarios provided for in Article 5(5).

For each of the scenarios, the group recovery plan shall identify whether there are obstacles to the implementation of recovery measures within the group, and whether there are substantial practical or legal impediments to the prompt transfer of own funds or the repayment of liabilities or assets within the group.

6. The management of the parent undertaking or institution subject to consolidated supervision referred to in paragraph 1 shall approve the group recovery plan before submitting it to the consolidating supervisor. Member States shall require the parent undertaking or institution subject to consolidated supervision referred to in paragraph 1 to demonstrate that the group recovery plan meets the criteria set out in Articles 6(2) and 7.

## Article 8

### Assessment of group recovery plans

1. The consolidating supervisor shall review the group recovery plan, including the recovery plans for **domestically significant institutions** that are part of the group, and assess the extent to which it satisfies the requirements and criteria set out in Articles 6 and 7. That assessment shall be made in accordance with the procedure established in Article 6 and the provisions of this Article.

The consolidating supervisor shall carry out the review and assessment of the group recovery plan, including the recovery plan for **domestically significant institutions** that are part of the group, **after** consultation with the competent authorities referred to in Article 131a of Directive 2006/48/EC, **and with the competent authorities of significant branches insofar as is relevant to the significant branch.**

Where the group does not include any institutions which **the host competent authority considers to be are domestically significant institutions,** the consolidating supervisor shall make the decision on the review and assessment of the aspects of the group recovery plan. **The consolidating supervisor may require the parent undertaking or an institution subject to consolidated supervision to take any measures** required in accordance with Article 6(4) or 6(4a) **or it may require the parent undertaking to ensure such measures are taken by the subsidiary.**

In other cases, the review and assessment in accordance with Article 6(2) of this Directive of the group recovery plan and, if necessary, the **requirement** to take measures in accordance with Article 6(4) or 6(4a) of this Directive shall take the form of joint decisions by the group level competent authority and the competent authorities of any subsidiaries **for which the host competent authority has requested a recovery plan in accordance with Article 7(1)(a).**

2. The competent authorities shall endeavour to reach the joint decision within a period of four months from the date of the transmission by the consolidating supervisor of the group recovery plan according to Article 7(2).

In the absence of a joint decision between the competent authorities, within four months, the consolidating supervisor shall make its own decision on the review and assessment of the group recovery plan or on any measures **the parent undertaking is required to take or the parent undertaking requires the subsidiary to take** in accordance with Article 6(4) or (4a). The **consolidating supervisor shall make its** decision **having considered** the views and reservations of the other competent authorities expressed during the four-month period. The consolidating supervisor shall notify the decision to the parent undertaking of the institution subject to consolidated supervision and to the other competent authorities.

The decision of the consolidating supervisor shall take account of the relevance of the supervisory activity to be planned or coordinated by the competent authorities concerned, and of the potential impact on the stability of the financial system in the Member States concerned.

EBA may assist the competent authorities in reaching an agreement in accordance with Article 19(1) second subparagraph of Regulation No (EC) 1093/2010.

3. Any competent authority of **domestically significant** institution that disagrees with the assessment of the group recovery plan or any action that the parent undertaking or institution would be required to take as a result of that assessment in accordance with Article 6(2) and (4) of this Directive, may refer the matter to EBA in accordance with Article 19 of Regulation (EU) No 1093/2010. The matter may not be referred to EBA after the end of the four-month period or after a joint decision has been reached.
4. EBA shall take its decision within one month, and the four-month period referred to in paragraph 3 will be treated as the conciliation period within the meaning of Regulation (EU) No 1093/2010.
5. If any competent authority of a **domestically significant** institution has referred the matter to EBA in accordance with paragraph 3, the consolidating supervisor shall defer its decision and await any decision that EBA may take. The subsequent decision of the consolidating supervisor shall comply with the decision of EBA.

**Article 8a**  
**Recovery Plan Indicators**

1. For the purpose of Articles 5 to 8, competent authorities shall ensure that each recovery plan includes a framework of indicators established by the institution which identifies the points at which appropriate actions referred to in the plan may be taken. The indicators may be of a qualitative or quantitative nature relating to the institution's financial position and shall be capable of being monitored easily. Competent authorities shall ensure that institutions put in place appropriate arrangements for the regular monitoring of the indicators.

Notwithstanding the first subparagraph, an institution may:

(a) take action under its recovery plan where the relevant indicator has not been met, but where the management of the institution considers it appropriate due to the circumstances; or

(b) refrain from taking such action where the management of the institution does not consider it appropriate due to the circumstances of the situation.

**A decision to take an action referred to in the recovery plan or a decision to refrain from taking such an action must be notified to the competent authority without delay.**

2. EBA shall, within twelve months from the date of entry into force of this Directive, develop guidelines specifying the qualitative and quantitative indicators as referred to in paragraph 1.

**SECTION 3**

The resolution authority may decide to set different time limits for different types of financial contracts as identified in Article 2(87). This provision shall not affect the information gathering powers of the competent authority, if different from the resolution authority.**

5. **The resolution authority may draw up and maintain a single resolution plan in respect of two or more institutions belonging to an institutional protection scheme under Art 80(8) of Directive 2006/48/EC if the resolution planning requirements for these institutions have been waived under Art 4(1a). EBA shall submit those draft implementing technical standards to the Commission within twelve months from the date of entry into force of this Directive.

Power is conferred on the Commission to adopt the implementing technical standards referred to in the first subparagraph in accordance with Article 15 of Regulation (EU) No 1093/2010.

*Article 11*

## *Article 12*

### *Requirement and procedure for group resolution plans*

1. Parent undertakings and institutions that are subject to consolidated supervision pursuant to Articles 125 and 126 of Directive 2006/48/EC shall submit the information required in accordance with Article 10 of this Directive to the group level resolution authority. That information shall concern the parent undertaking or institution subject to consolidated supervision pursuant to Articles 125 and 126 of Directive 2006/48/EC and each of the group entities. Institutions subject to consolidated supervisions pursuant to Articles 125 and 126 of Directive 2006/48/EC shall also provide the information required pursuant to Article 10 of this Directive concerning the companies referred to in points (c) and (d) of Article 1.

The group level resolution authority shall transmit information provided in accordance with this paragraph to EBA, to the resolution authorities of the subsidiary institutions, to the resolution authorities of the jurisdictions in which significant branches are located, to the relevant competent authorities referred to in Articles 130 and 131a of Directive 2006/48/EC and to the resolution authorities of the Member States where the companies referred to in points (c) and (d) of Article 1 are established. The information provided by the group level resolution authority to the resolution authorities and competent authorities of subsidiaries, resolution authorities of the jurisdiction in which any significant branches are located, and to the relevant competent authorities referred to in Articles 130 and 131a of Directive 2006/48/EC, shall include at a minimum all information that is relevant to the subsidiary or significant branch. The information provided to EBA shall include all information that is relevant to the role of the EBA in the group resolution planning process. In the case of information relating to third country subsidiaries, the group resolution authority shall not be obliged to transmit this information without the consent of the relevant third country supervisory authority or resolution authority.

2. Member States shall ensure that group level resolution authorities, acting jointly with the resolution authorities referred to in the second subparagraph of paragraph 1, in resolution colleges and in consultation with the relevant competent authorities, draw up and maintain group resolution plans. Group level resolution authorities may, at their discretion, and subject to them meeting the confidentiality requirements laid down in Article 89, involve in the drawing up and maintenance of group resolution plans third country resolution authorities of jurisdictions in which the group has established subsidiaries or financial holding companies or significant branches as referred to in Article 42a of Directive 2006/48/EC.

2a.

3. Without prejudice to Article 4(1a), Member States shall ensure that group resolution plans are reviewed and where appropriate updated at least annually, and after any change to the legal or organisational structure, to the business or to the financial position of the group including any group entity, that could have a material effect on or require a change to the plan.
4. The **adoption of the** group resolution plan shall take the form of a joint decision of:
- (a) the group level resolution authority; and
  - (b) other resolution authorities, where:
    - (i) a subsidiary or subsidiaries that are located in that resolution authority's Member State hold more than [0.5%] of the covered deposits in that Member State; or

These resolution authorities shall make a joint decision within a period of four months from the date of the transmission by the group level resolution authority of the information referred to in the second subparagraph of paragraph 1.

In the absence of such a joint decision between the resolution authorities within four months, **each** resolution authority shall make **its** own decision on the resolution plan of each institution under its jurisdiction. Each of the **individual** decisions shall be set out in a document containing the fully reasoned decision and shall take into account the views and reservations of the other **competent authorities and resolution** authorities expressed during the four-month period, and the impact of the decision on financial stability in other Member States. Each resolution authority shall notify its decision to the other members of the resolution college.

EBA may on its own initiative assist the resolution authorities in reaching an agreement through non-binding mediation.

- 4a. Where a joint decision under paragraph 4 is not possible, a resolution authority covered by points (a) or (b) of paragraph 4 may refer the matter to EBA for non-binding mediation. The matter may not be referred to EBA after the end of the four-month period or after a joint decision has been reached. EBA shall make a recommendation within one month, and the four-month period shall be treated as the conciliation period within the meaning of that Regulation.

Where, after a recommendation by EBA, a resolution authority covered by points (a) or (b) of paragraph 4 does not agree to a joint decision on the group resolution plan, it shall set out in detail the reasons for the disagreement with EBA's recommendation and notify the other members of the resolution college of these reasons.

**Where a joint decision of all the authorities referred to in points (a) and (b) of paragraph 4 is not possible, a resolution authority which disagrees with the EBA's recommendation may make its own decision on the resolution plans for entities in its jurisdiction. The other resolution authorities referred to in points (a) and (b) of paragraph 4 may reach a joint decision on a group resolution plan covering group entities under their jurisdiction.**

5. Where a joint decision is reached in accordance with paragraph 4, a host resolution authority that is not covered by points (a) or (b) of paragraph 4 that disagrees with any element of the group resolution plan **that directly impacts an entity under its jurisdiction** may refer the matter to EBA within one month in accordance with Article 19(1) first subparagraph of Regulation (EU) No 1093/2010.
6. In such cases, EBA shall take a decision within one month, and the four-month period shall be treated as the conciliation period within the meaning of that Regulation. The subsequent joint decision of the resolution authorities referred to in points (a) or (b) of paragraph 4 shall comply with the decision of EBA.
7. Where any of the resolution authorities concerned has referred the matter to EBA in accordance with paragraphs 5 or 6a, resolution authorities shall defer their decisions and await any decision that EBA may take.

## CHAPTER II

### ASSESSMENT OF RESOLVABILITY AND PREVENTATIVE POWERS

#### *Article 13*

#### *Assessment of resolvability for institutions*

1. Member States shall ensure that the resolution authority, **after** consultation with the competent authority and the resolution authorities of the jurisdictions in which **significant branches are located**, assesses the extent to which an institution is resolvable without the assumption of extraordinary public financial support besides the use of the financing arrangements established in accordance with Article 91. An institution shall be deemed resolvable if it is feasible and credible for the resolution authority to either liquidate it under normal insolvency proceedings or to resolve it by applying the different resolution tools and powers to the institution without giving rise to significant adverse consequences for financial systems, including circumstances of broader financial instability or system wide events, of the Member State in which the institution is situated, or other Member States, or the Union, and with a view to ensure the continuity of critical functions carried out by the institution.
2. For the purposes of the assessment of resolvability referred to in paragraph 1, the resolution authority shall, as a minimum, examine the matters specified in Section C of the Annex.
  - 2a. The resolvability assessment under this Article shall be made by the resolution authority at the same time as the drawing up and updating of the resolution plan in accordance with Article 9.

3. EBA, in close cooperation with the ESRB, shall develop draft regulatory technical standards to further specify the minimum list of the matters to be examined for the assessment of the resolvability of institutions and groups provided for in paragraph 2 and in Article 13a.

EBA shall submit those draft regulatory technical standards to the Commission within twelve months from the date of entry into force of this Directive.

4. Power is conferred on the Commission to adopt the draft regulatory technical standards referred to in the first subparagraph in accordance with the procedure laid down in Articles 10 to 14 of Regulation (EU) No 1093/2010.

**Article 13a**

**Assessment of resolvability for groups**

1. Member States shall ensure that resolution authorities, **after** consultation with competent authorities, assess the extent to which groups are resolvable without the assumption of extraordinary public financial support besides the use of the financing arrangements established in accordance with Article 91. A group shall be deemed resolvable if it is feasible and credible for the resolution authorities to either liquidate group entities under normal insolvency proceedings or to resolve group entities by applying the different resolution tools and powers to the group or group entities without giving rise to significant adverse consequences for the financial systems, including circumstances of broader financial instability or system wide events, of the Member States in which the group entities are situated, or other Member States or the Union and with a view to ensure the continuity of critical functions carried out by the group entities, either because they can be easily separated in a timely manner or by other means.

The assessment of group resolvability shall be considered by the resolution colleges referred to in Article 80 **and carried out in accordance with Article 15.**

2. For the purposes of the assessment of resolvability referred to in paragraph 1, resolution authorities shall, as a minimum, examine the matters specified in Section C of the Annex.
3. The resolvability assessment under this Article shall be made at the same time as drawing up and updating of the group resolution plans in accordance with Article 11. The assessment shall be made under the decision making process specified in Article 12.

*Article 14*

*Powers to address or remove impediments to resolvability*

1. Member States shall ensure that when, pursuant to an assessment of resolvability for an institution carried out in accordance with Article 13 **and 13a**, a resolution authority **after consultation with the competent authority** determines that there are potential substantive impediments to the resolvability of that institution, the resolution authority shall notify in writing that determination to the institution concerned, to the competent authority and to the resolution authorities of the jurisdictions in which significant branches are located.
  
2. Within four months of the date of receipt of a notification made in accordance with paragraph 1, the institution shall propose to the resolution authority measures to address or remove the impediments identified in the notification. The resolution authority, **after consultation with the competent authority**, shall assess whether those measures effectively address or remove the impediments in question.

3. Where the resolution authority assesses that the measures proposed by an institution in accordance with paragraph 2 do not effectively reduce or remove the impediments in question, it shall, **either directly or indirectly through** the competent authority, **require the institution to take** alternative measures that may achieve that objective, and notify in writing those measures to the institution. **These measures must be necessary and proportionate to reduce or remove the impediments to resolvability in question, taking into account the threat to financial stability of those impediments to resolvability and the effect of the measures on the business of the institution.**
4. For the purposes of paragraph 3, **Member States shall ensure that** resolution authorities **have the power to take any of the following measures:**
- (a) **require** the institution to draw up service agreements (whether intra-group or with third parties) to cover the provision of critical functions;
  - (b) **require** the institution to limit its maximum individual and aggregate exposures;
  - (c) **impose** specific or regular information requirements relevant for resolution purposes;
  - (d) **require** the institution to divest specific assets;
  - (e) **require** the institution to limit or cease specific existing or proposed activities;
  - (f) restrict or prevent the development of new or existing business lines or sale of new or existing products;

- (g) **require** changes to legal or operational structures of the institution **or any group entity, either directly or indirectly under its control,** so as to reduce complexity in order to ensure that critical functions may be legally and operationally separated from other functions through the application of the resolution tools;
  - (h) **require** an institution or a parent undertaking to set up a parent financial holding company in a Member State or a Union parent financial holding company;
  - (i) **require** an institution, a parent undertaking, or a company referred to in points (c) **or** (d) of Article 1 to issue the debt instruments or loans referred to in Article 39 (2);
  - (ia) require an institution, a parent undertaking or a company referred to in points (c) or (d) of Article 1 to attempt to renegotiate any eligible liability, additional Tier 1 instrument or Tier 2 instrument it has issued, with a view to ensuring that any decision of the resolution authority to write down or convert that liability or instrument would be effected under the law of the jurisdiction governing that liability or instrument; and**
  - (j) where an institution is the subsidiary of a mixed-activity holding company, **require** that the mixed-activity holding company set up a separate financial holding company to control the institution, if this is necessary in order to facilitate the resolution of the institution and to avoid the application of the resolution tools and powers specified in Title IV having an adverse effect on the non-financial part of the group.
6. A notification made pursuant to paragraph 1 or 3 shall meet the following requirements:
- (a) it shall be supported by reasons for the assessment or determination in question;
  - (b) it shall indicate how that assessment or determination complies with the requirement for proportionate application set out in paragraph 4;

(c) it shall be subject to a right of appeal.

7. Before identifying any measure referred to in paragraph 3, the resolution authority, after consultation with the competent authority and, if appropriate, the designated national macroprudential authority, shall duly consider the potential effect of those measures on the stability of the financial system in other Member States.
8. EBA shall, within twelve months from the date of entry into force of this Directive, develop guidelines specifying **further details on** the measures provided for in paragraph 4 and the circumstances in which each measure may be applied.

## *Article 15*

Where the sale of business tool, the bridge institution tool or the asset separation tool is applied to an institution, that institution shall be considered to be the subject of bankruptcy proceedings or analogous insolvency proceedings for the purposes of Article 5(1) of Directive 2001/23/EC.-

## CHAPTER II

### VALUATION

#### *Article 30*

#### *Valuation*

1. When taking resolution action or exercising the power to write down or convert capital instruments and in particular, for the purposes of Articles 31, 32, 34, 36, 41, 42, [51] and [52], resolution authorities shall ensure that a fair and realistic valuation of the assets and liabilities of the institution is carried out by a person independent from any public authority, including the resolution authority, and the institution. Subject to paragraph 6, where all the requirements laid down in this Article 30 are respected, the valuation shall be considered as definitive.
- 1a. Where an independent valuation according to paragraph 1 is not possible, resolution authorities may carry out a provisional valuation of the assets and liabilities of the institution, in accordance with the provisions of paragraph 5.
2. Without prejudice to the Union State aid framework, where applicable, the valuation required by paragraph 1 shall be based on prudent assumptions, including as to rates of default and severity of losses, and its objective shall be to assess the value of the assets and liabilities of the institution that is failing or is likely to fail so that any losses that could be derived are recognised at the moment the resolution tools are exercised.

The valuation shall not assume the provision of extraordinary public support to the institution, regardless of whether it is actually provided. Furthermore, the valuation shall take account of the estimated costs of resolution.

3. The valuation shall be supplemented by the following information as appearing in the accounting books and records of the institution:
- (a) an updated balance sheet and a report on the financial **position** of the institution;
  - (b) an analysis and an estimate of the value of the assets;
  - (c) the list of outstanding liabilities shown in the books and records of the institution, with an indication of the respective credits and priority level under the applicable insolvency law;
  - (d) the list of assets held by the institution for account of third parties who have ownership rights on those assets.
4. The valuation shall indicate the subdivision of the creditors in classes in accordance with their priority level under the applicable insolvency law and an estimate of the treatment that each class could be expected to receive in winding up proceedings.

5. Where either it is not possible to comply with the requirements in paragraphs 3 and 4, or where paragraph 1(a) applies, a provisional valuation shall be carried out. The provisional valuation shall comply with the requirements in paragraph 2 **and in so far as possible in the circumstances with the requirements of paragraphs 1, 3 and 4.**

A valuation that does not comply with all the requirements laid down in this Article shall be considered as provisional until an independent person has carried out a valuation that is fully compliant with all the requirements set out in this Article. That definitive valuation **shall be carried out as soon as practicable and** may be carried out separately or together with the valuation referred to in Article 66.

5a. The provisional valuation referred to in paragraph 5 shall include a buffer for **additional losses, with appropriate justification.**

5b. Notwithstanding paragraph 1, a provisional valuation conducted in accordance with paragraphs 5 and 5a shall be a valid basis for resolution authorities to take resolution actions **or to exercise the write down or conversion power of capital instruments.**

6. The valuation shall be an integral part of the decision to apply a resolution tool or exercise a resolution power, **or the decision to exercise the write down or conversion power of capital instruments.** The valuation shall not be subject to separate judicial review but only to judicial review together with the decision in accordance with the provisions of Article 78.7. EBA shall, within **eighteen** months from the date of entry into force of this Directive, develop guidelines to specify the following criteria for the purposes of paragraphs 1 and 2 of this Article, and for the purposes of Article 66:

- (a) the circumstances in which a person is independent from both the resolution authority and the institution;
- (c) the methodology for assessing the value of the assets and liabilities of the institution that is failing or likely fail so that any losses that could be derived are recognised at the moment the resolution tools are exercised;
- (d) the methodology for calculating and including a buffer for **additional** losses in the provisional valuation.

**CHAPTER III**  
**RESOLUTION TOOLS**

**SECTION I**  
**GENERAL PRINCIPLES**

*Article 31*

*General principles of resolution tools*

1. Member States shall ensure that resolution authorities have the necessary powers to apply the resolution tools to an institution, a financial institution or a company referred to in points (c) **or** (d) of Article 1 that meets the applicable conditions for resolution.

1a. Where a resolution authority decides to apply a resolution tool to an institution, and that resolution action would result in losses being borne by creditors or their claims being converted, the resolution authority shall exercise the power to write down and convert capital instruments in accordance with Article 51 immediately before or together with the application of the resolution tool.

2. The resolution tools referred to in paragraph 1 are the following:
  - (a) the sale of business tool;
  - (b) the bridge institution tool;
  - (c) the asset separation tool;
  - (d) the bail-in tool.

3. Subject to paragraph 4, resolution authorities may apply the resolution tools either singly or in any combination.
4. Resolution authorities may apply the asset separation tool only together with another resolution tool.
5. When the resolution tools referred to in points (a) or (b) -of paragraph 2\_ are used to transfer **only part of the** assets, rights or liabilities of the institution under resolution, the residual institution from which the assets, rights or liabilities have been transferred shall be wound up under normal insolvency proceedings. **This shall be done as soon as practicable,** having regard to any need for that institution to provide services or support pursuant to Article 58 in order to enable the **recipient** to carry on the activities or services acquired by virtue of that transfer, **and any other reason that the continuation of the residual institution is necessary to achieve the resolution objectives or comply with the principles set out in Article 29.**
6. Member States shall ensure that rules under national insolvency law relating to the voidability or unenforceability of legal acts detrimental to creditors do not apply to transfers of assets, rights or liabilities from an institution under resolution to another entity by virtue of the application of a resolution tool or exercise of a resolution power.
7. Member States shall not be prevented from conferring upon resolution authorities additional tools and powers exercisable where an institution meets the conditions for resolution, provided that, when applied to a cross border group, those additional powers do not pose obstacles to effective group resolution and that they are consistent with the resolution objectives and the general principles governing resolution set out in Articles 26 and 29.

**SECTION 2**  
**THE SALE OF BUSINESS TOOL**

*Article 32*  
*The sale of business tool*

1. Member States shall ensure that resolution authorities have the power to transfer to a purchaser that is not a bridge institution;
  - (a) shares or other instruments of ownership issued by an institution under resolution;
  - (b)** all or any assets, rights or liabilities of an institution under resolution;

The transfer referred to in the first subparagraph shall take place without obtaining the consent of the shareholders of the institution under resolution or any third party other than the purchaser and without complying with any procedural requirements under company or securities law other than those included in Article 33.

2. A transfer made pursuant to paragraph 1 shall be made on commercial terms, having regard to the circumstances, and in accordance with Union State aid rules.
- 3.
4. Resolution authorities shall take all reasonable steps to obtain commercial terms for the transfer in accordance with paragraph 2 of this Article that are in conformity with the valuation conducted under Article 30, having regard to the circumstances of the case.

**4a. Any consideration paid by the purchaser shall benefit:**

- (a) the owner of the shares or instruments of ownership, where the sale of business has been effected by transferring shares or instruments of ownership issued by the institution under resolution from the holders of those shares or instruments to the purchaser;**
- (b) the institution under resolution, where the sale of business has been effected by transferring some or all of the assets or liabilities of the institution under resolution to the purchaser.**

- 5. When applying the sale of business tool the resolution **authority** may exercise the transfer power more than once in order to make supplemental transfers of shares or other instruments of ownership **issued by an institution under resolution** or, as the case may be, assets, rights or liabilities of the institution under resolution.
- 6. Following an application of the sale of business tool, resolution authorities may, with the consent of the purchaser, exercise the transfer powers in respect of assets, rights or liabilities transferred to the purchaser in order to transfer the assets, rights or liabilities back to the institution under resolution, **or the shares or other instruments of ownership back to their original owner, and the institution under resolution or original owner shall be obliged to take back any such assets, rights or liabilities, or shares or other instruments of ownership**

7. A purchaser must have the appropriate authorisation to carry on the business it acquires when the transfer is made pursuant to paragraph 1. Member states shall ensure that authorisation can be granted, in conjunction with the transfer, in a timely manner.
8. By way of derogation from Articles [19, 19a, 19b, 20 and **the requirement to give an initial notice in Article 21** of Directive 2006/48/EC and Article 10(3) of Directive 2004/39/EC,] where a transfer of shares or other instruments of ownership by virtue of an application of the sale of business tool would result in the acquisition or increase of a qualifying holding **in an institution** of a kind referred to in Article [19(1) of Directive 2006/48/EC and Article 10(3), 10(4), **the requirement to give an initial notice in 10(5), 10(6) 10a and 10b** of Directive 2004/39/EC], **the competent authority of that institution** shall carry out the assessment required under those Articles in a timely manner that does not delay the application of the sale of business tool and prevent the resolution action from achieving the relevant resolution objectives.
9. Transfers made by virtue of the sale of business tool shall be subject to the safeguards specified in Chapter VI.
10. For the purposes of exercising the rights to provide services or to establish itself in another Member State in accordance with Directive 2006/48/EC or Directive 2004/39/EC, the purchaser shall be considered to be a continuation of the institution under resolution, and may continue to exercise any such right that was exercised by the institution under resolution in respect of the assets, rights or liabilities transferred, including the rights of membership and access to payment, clearing and settlement systems, stock exchanges, investor compensation schemes and deposit guarantee schemes.

In particular, access may not be denied for the reason that the purchaser does not possess a rating from a credit rating agency, or this rating is not commensurate to the rating levels required to be granted access to the above systems.

In particular, where the purchaser does not meet the membership or participation criteria for a relevant payment, clearing or settlement system, stock exchange or deposit guarantee scheme, the rights referred to in the first subparagraph shall be exercised for such period of time as may be specified by the resolution authority.

11. Without prejudice to Chapter VI of Title IV, shareholders or creditors of the institution under resolution and other third parties whose assets, rights or liabilities are not transferred shall not have any rights over or in relation to the assets, rights or liabilities transferred.

### *Article 33*

#### *Sale of business tool: procedural requirements*

1. Subject to paragraph 3, when applying the sale of business tool to an institution a resolution authority shall market, or make arrangements for the marketing of that institution or those of its assets, rights or liabilities that the authority intends to transfer. Pools of rights, assets, and liabilities may be marketed separately.
2. Without prejudice to the Union State aid framework, where applicable, the marketing referred to in paragraph 1 shall be carried out in accordance with the following criteria:
  - (a) it shall be as transparent as possible, having regard to the circumstances and in particular the need to maintain financial stability;
  - (b) it shall not arbitrarily favour or discriminate between potential purchasers;
  - (c) it shall be free from any conflict of interest;

- (d) it shall not confer any unfair advantage on a potential purchaser;
- (e) it shall take account of the need to effect a rapid resolution action **while also taking into account the resolution objectives**;
- (f) it shall aim at maximising, as far as possible, the sale price for the shares or other instruments of ownership and assets and liabilities involved while also taking into account the resolution objectives.

The principles set out in this paragraph shall not prevent the resolution authority from soliciting particular potential purchasers.

Any public disclosure of the marketing of the institution that would otherwise be required in accordance with Article 6(1) of Directive 2003/6/EC may be delayed in accordance with Article 6(2) of this Directive 2003/6/EC.

3. The resolution authority may apply the sale of business tool without complying with the requirement to market as set out in paragraph 1 and with the criteria for marketing as set out in paragraph 2 when they determine that compliance with those requirements would be likely to undermine one or more of the resolution objectives and in particular if the following conditions are met:
  - (a) it considers that there is a material threat to financial stability arising from or aggravated by the failure or potential failure of the institution under resolution; and
  - (b) it considers that compliance with those requirements would be likely to undermine the effectiveness of the sale of business tool in addressing that threat or achieving the resolution objective specified in point (b) of Article 26(2).

4.

**SECTION 3**  
**THE BRIDGE INSTITUTION TOOL**

*Article 34*  
*Bridge institution tool*

1. In order to give effect to the bridge institution tool and having regard to the need to maintain critical functions in the bridge institution, Member States shall ensure that resolution authorities have the power to transfer to a bridge institution;
- (a) shares or other instruments of ownership issued by **one or more** institutions under resolution;
- (b) all or any assets, rights or liabilities of **one or more** institutions under resolution;

The transfer referred to in the first subparagraph may take place without obtaining the consent of the shareholders of the institutions under resolution or any third party other than the bridge institution, and without complying with any procedural requirements under company or securities law.

2. The bridge institution shall be a legal entity that meets all of the following requirements:
- (i) it is wholly or partially owned by one or more public authorities which may include the resolution authority or the resolution financing arrangement;
  - (ii) **it is controlled by one or more public authorities;**
  - (iii) it is created for the purpose of receiving and holding some or all **of the shares or other instruments of ownership issued by an institution under resolution or some or all** of the assets, rights and liabilities of **one or more** institutions under resolution with a view to **continuing** some or all of **their** functions, services and activities.

\_\_\_\_\_ The application of the bail-in tool for the purpose specified in point (b) of Article 37(2) shall not interfere with the ability of the resolution authority to control the bridge institution.

3. When applying the bridge institution tool, **the** resolution authority shall ensure that the total value of liabilities transferred to the bridge institution does not exceed the total value of the rights and assets transferred from the institution under resolution or provided by other sources.

**3a. Any consideration paid by the bridge institution shall benefit:**

- (a) **the owner of the shares or instruments of ownership, where the transfer to the bridge institution has been effected by transferring shares or instruments of ownership issued by the institution under resolution from the holders of those shares or instruments to the purchaser;**

**(b) the institution under resolution, where the transfer to the bridge institution has been effected by transferring some or all of the assets or liabilities of the institution under resolution to the purchaser.**

4. When applying the bridge institution tool **the** resolution authority may **exercise the transfer power more than once in order to make supplemental transfers of shares or other instruments of ownership issued by an institution under resolution or, as the case may be, assets, rights or liabilities of the institution under resolution.**
  
5. **Following an application of** the bridge institution tool, the resolution **authority** may:
  - (a)
  
  - (b) transfer rights, assets or liabilities back from the bridge institution to the institution under resolution, **or the shares or other instruments of ownership back to their original owner, and the institution under resolution or original owner shall be obliged to take back any such assets, rights or liabilities, or shares or other instruments of ownership,** provided that the conditions specified in paragraph 6 are met;
  
  - (c) transfer **shares or other instruments of ownership, or** assets, **rights** or liabilities from the bridge institution to a third party.
  
6. Resolution authorities **may** transfer **shares or other instruments of ownership or** assets, **rights** or liabilities back from the bridge institution in one of the following circumstances:
  - (a) the possibility that the specific rights, assets or liabilities might be transferred back is stated expressly in the **order** by which the transfer referred to in point (a) of paragraph 5 was made.

- (b) the specific rights, assets or liabilities do not in fact fall within the classes of, or meet the conditions for transfer of, rights, assets or liabilities specified in the **order** by which the transfer referred to in point (a) of paragraph 5 was made.

Such a transfer may be made within any time period and shall comply with any other conditions stated in that **order** for the relevant purpose.

7. Transfers between the institution under resolution, or the original owners of shares or other instruments of ownership on the one hand, and the bridge institution on the other hand shall be subject to the safeguards specified in Chapter VI.
8. For the purposes of exercising the rights to provide services or to establish itself in another Member State in accordance with Directive 2006/48/EC or Directive 2004/39/EC, a bridge institution shall be considered to be a continuation of the institution under resolution, and may continue to exercise any such right that was exercised by the institution under resolution in respect of the assets, rights or liabilities transferred, including the rights of membership and access to payment, clearing and settlement systems, stock exchanges, investor compensation schemes and deposit guarantee schemes.

In particular, access may not be denied for the reason that the bridge institution does not possess a rating from a credit rating agency, or this rating is not commensurate to the rating levels required to be granted access to the above systems.

Where the bridge institution does not meet the membership or participation criteria for a relevant payment, clearing or settlement system, stock exchange, investor compensation scheme or deposit guarantee scheme, the rights referred to in the first subparagraph shall be exercised for such period of time as may be specified by the resolution authority.

9. Shareholders\_or creditors of the institution under resolution and other third parties whose property, rights or liabilities are not transferred to the bridge institution shall not have any rights over or in relation to the bridge institution or its property.

*Article 35*

*Operation of a bridge institution*

1. Member States shall ensure that the operation of a bridge institution respects the following provisions:
- (a) the contents of the bridge institution's constitutional documents are **approved** by the resolution authority;
  - (b) the resolution authority appoints **or approves** the bridge institution's management, approves the relevant **remuneration** and determines the appropriate responsibilities;
  - (ba) the resolution authority approves the strategy and risk profile of the bridge institution;
  - (c) the bridge institution is authorised in accordance with Directive 2006/48/EC or Directive 2004/39/EC, as applicable, and has the necessary authorisation under applicable national law to carry on the activities or services that it acquires by virtue of a transfer made pursuant to Article 56 of this Directive;
  - (d) the bridge institution complies with the requirements of, and shall be subject to supervision in accordance with, Directives 2006/48/EC, 2006/49/EC and 2004/39/EC, as applicable.

Notwithstanding the provisions referred to in points (c) and (d), the bridge institution may be established and authorised without complying **with the provisions of Directives 2006/48/EC or 2004/39/EC** at the beginning of its operation. To this end, the resolution authority shall submit a relevant request to the competent authority. If the competent authority decides to grant such authorisation, it shall indicate the period for which the bridge institution is waived from complying with the requirements. In any event, the operation of the bridge institution shall be in accordance with the Union State aid framework.

2. Subject to any restrictions imposed in accordance with Union or national competition rules, the management shall operate the bridge institution with a view to maintaining access to critical functions and selling the institution, its assets, rights or liabilities, to one or more private sector purchasers when conditions are appropriate and within the period specified in paragraph 5.
3. The resolution authority shall terminate the operation of a bridge institution as soon as possible in any of the following cases, whichever occurs first:
  - (a) the bridge institution merges with another institution;
  - (b) the bridge institution ceases to meet the requirements of Article 34(2);
  - (c) the sale of all or substantially all of the bridge institution's assets, rights or liabilities to a third party ;
  - (d) the expiry of the period specified in paragraph 5 or, where applicable, paragraph 6;
  - (da) the bridge institution's assets are completely wound down and its liabilities are completely discharged.

4. Member States shall ensure, in cases when the resolution authority seeks to sell the bridge institution or its assets, rights or liabilities, that the bridge institution or the relevant assets or liabilities are marketed openly and transparently, and that the sale does not **arbitrarily** favour or discriminate between potential purchasers.

Any such sale, shall be made on commercial terms, having regard to the circumstances and in accordance with the Union State Aid framework.

5. If none of the outcomes referred to in points (a), (b), (c) **or (da)** of paragraph 3 applies, the resolution authority shall terminate the operation of a bridge institution as soon as possible, at the latest at the end of a two year period following the date on which the last transfer from an institution under resolution pursuant to the bridge institution tool was made.

6. The resolution authority may extend the period referred to in paragraph 5 for one or more additional one-year periods where:

- (a) such extension is likely to achieve one of the outcomes referred to in points (a), (b), (c) **or (da)** of paragraph 3; or
- (b) such extension is necessary to ensure the continuity of essential banking or financial services.

- 6a. Any decision of the resolution authority to extend the period referred to in paragraph 5 shall be reasoned and shall contain a detailed assessment of the situation, including of the market conditions and outlook, that justifies the extension.

7. Where the operations of a bridge institution are terminated in the circumstances referred to in points **(c)** and (d) of paragraph 3, the bridge institution shall be wound up **under normal insolvency proceedings**.

Any proceeds generated as a result of the termination of the operation of the bridge institution shall benefit the **shareholders of the bridge institution**.

8. Where a bridge institution is used for the purpose of transferring assets and liabilities of more than one institution under resolution the obligation referred to in paragraph 7 shall refer to the assets and liabilities transferred from each of the institutions and not to the bridge institution itself.

- 8a. Member States may limit the liability of a bridge institution and its management in accordance with national law for acts and omissions in the discharge of their duties.**

**SECTION 4**  
**THE ASSET SEPARATION TOOL**

*Article 36*  
*Asset separation tool*

1. In order to give effect to the asset separation tool, Member States shall ensure that resolution authorities have the power to transfer assets, rights or liabilities of an institution under resolution **or a bridge institution** to one or more asset management vehicles.
  
2. For the purposes of the asset separation tool, an asset management vehicle shall be a legal entity that meets all of the following requirements:
  - (i) it is wholly or partially owned by one or more public authorities, which may include the resolution authority or the resolution financing arrangement;
  - (ii) **it is controlled by one or more public authorities**;
  
  - (iii) **it has been** created for the purpose of receiving some or all of the assets, rights and liabilities of **one or more** institutions under resolution **or a bridge institution**.
  
3. The resolution authority shall appoint asset managers to manage the assets transferred to the asset management vehicle with a view to maximising their value through eventual sale or **orderly wind down**.

4. Resolution authorities may exercise the power specified in paragraph 1 to transfer assets if:
- (i)** the situation of the particular market for those assets is of such a nature that the liquidation of those assets under normal insolvency proceedings could have an adverse effect on one or more financial markets;
  - (ii)** to ensure **the proper** functioning of the **institution under resolution** or bridge institution;  
**or**
  - (iii)** to maximise liquidation proceeds.
5. When applying the asset separation tool, resolution authorities shall determine the consideration for which assets are transferred to the asset management vehicle in accordance with the principles established in Article 30 and in accordance with the Union State aid framework. This provision does not prevent the consideration having nominal or negative value.

**5a. Any consideration paid by the asset management vehicle shall benefit the institution under resolution. Consideration may be paid in the form of debt issued by the asset management vehicle.**

6. Resolution authorities may transfer assets, rights or liabilities from the institution under resolution to one or more asset management vehicles on more than one occasion and transfer assets, rights or liabilities back from one or more asset management vehicles to the institution under resolution provided that the conditions specified in paragraph 7 are met.
- The institution under resolution shall be obliged to take back any such assets, rights or liabilities.**
7. Resolution authorities shall only transfer rights, assets or liabilities back from the asset management vehicle to the institution under resolution in one of the following circumstances:

- (a) the possibility that the specific rights, assets or liabilities might be transferred back is stated expressly in the **order** by which the transfer referred to in paragraph 6 was made;
- (b) the specific rights, assets or liabilities do not in fact fall within the classes of, or meet the conditions for transfer of, rights, assets or liabilities specified in the **order** by which the transfer referred to in paragraph 6 was made.

In either of the cases referred in points (a) and (b), the transfer back may be made within any time period, and shall comply with any other conditions, stated in that **order** for the relevant purpose.

- 8. Transfers between the institution under resolution and the asset management vehicle shall be subject to the safeguards for partial property transfers specified in Chapter VI of this Directive.
- 9. **Without prejudice to Chapter VI of Title IV**, shareholders and creditors of the institution under resolution and other third parties whose property, rights or liabilities are not transferred to the asset management vehicle shall not have any rights over or in relation to the asset management vehicle or its property.
- 10. **Member States may limit the liability of an asset management vehicle and its management in accordance with national law for acts and omissions in the discharge of their duties.**

10a. Any net proceeds generated as a result of the termination of the operation of the asset management vehicle shall benefit the shareholders of the asset management vehicle.

**CHAPTER IV**  
**WRITE DOWN OF CAPITAL INSTRUMENTS**

*Article 51*

*Requirement to write down or convert capital instruments*

0. The power to write down or convert capital instruments may be exercised either:
- (a) singly; or
  - (b) **together** with a resolution action, where the conditions for resolution **specified in Article 27** are also met.

**0a Member States shall ensure that the resolution authorities have the power to write down or convert relevant capital instruments into shares or other instruments of ownership of the institution.**

- 
1. Member States shall require that resolution authorities exercise the write down or conversion power, in accordance with the provisions of [Article 52] and without delay, in relation to relevant capital instruments issued by an institution when one or more of the following circumstances apply:
- (a)
  - (b) the appropriate authority determines that unless that power is exercised in relation to the relevant capital instruments, the institution will no longer be viable;

(ba) the relevant capital instruments, issued by a subsidiary of a group subject to consolidated supervision, are recognised for the purposes of meeting the own fund requirements on a consolidated basis, and the appropriate authority of the Member State of the consolidating supervisor makes a determination that unless the write down or conversion power is exercised in relation to those instruments, the consolidated group will no longer be viable;

(c) a decision has been made in a Member State to provide extraordinary public support to the institution or parent undertaking and the appropriate authority makes a determination that without the provision of such support the institution would no longer be viable.

1a. For the purposes of paragraph 1, an institution or consolidated group shall be deemed to be no longer viable only if both of the following conditions are met:

(a) the institution or consolidated group is failing or likely to fail;

(b) having regard to timing and other relevant circumstances, there is no reasonable prospect that any action, including alternative private sector or supervisory action (including early intervention measures), other than the write down or conversion of capital instruments, either singly or in combination with resolution action, would prevent the failure of the institution or consolidated group within a reasonable timeframe.

1b. For the purposes of point (a) of paragraph 1a, an institution shall be deemed to be failing or likely to fail where one or more of the circumstances set out in Article 27(2) occur.

**1c. For the purposes of point (a) of paragraph 1ab, a consolidated group shall be deemed to be failing or likely to fail where the consolidated group is in breach or there are objective elements to support a determination that the consolidated group will be in breach, in the near future, of the requirements for continuing authorisation in a way that would justify the withdrawal of the authorisation by the competent authority including but not limited to because the institution has incurred or is likely to incur losses that will deplete all or substantially all of its own funds**

**1d. Relevant capital instruments of a subsidiary shall not be written down or converted pursuant to point (ba) of paragraph 1 where a write down of capital instruments at the level of the parent undertaking would be sufficient to restore the viability of the group.**

2. Where an appropriate authority makes a determination referred to in paragraph 1, it shall immediately notify the resolution authority responsible for the institution in question, if different.
3. Before making a determination referred to in point (ba) of paragraph 1 of this article in relation to a subsidiary that issues relevant capital instruments that are recognised for the purposes of meeting the own fund requirements on a consolidated basis, the appropriate authority shall comply with the notification and consultation requirements set out in Article 55.
- 4a. Before exercising the power to write down capital instruments, resolution authorities shall ensure that a valuation of the assets and liabilities of the institution is carried out in accordance with Article 30. This valuation will form the basis of the calculation of the write down to be applied to the relevant capital instruments in order to absorb losses and the level of conversion to be applied to relevant capital instruments in order to recapitalise the institution.

*Article 52*

*Provisions governing the write down or conversion of capital instruments*

1. When complying with the requirement set out in Article 51, resolution authorities shall exercise the write down or conversion power in accordance with the priority of claims under normal insolvency proceedings, in a way that produces the following results:
  - (a) Common Equity Tier 1 reduces first in proportion to the losses and up to its capacity. The resolution authority takes in respect of holders of Common Equity Tier 1 instruments one or both of the actions specified in [Article 42(1)];
  - (b) the principal amount of relevant capital instruments is written down or converted into Common Equity Tier 1 instruments or both, to the extent required and up to the capacity of the relevant capital instruments;

When the principal amount of a relevant capital instrument is written down:

- (i) the reduction of that principal amount shall be permanent;
- (ii) no liability to the holder of the relevant capital instrument shall remain under or in connection with that amount of the instrument which has been written down, except for any liability already accrued, and any liability for damages that may arise as a result of judicial review of the legality of the exercise of the write-down power.

2. In order to effect a conversion of relevant capital instruments under paragraph 1(b), resolution authorities may require institutions to issue Common Equity Tier 1 instruments to the holders of the relevant capital instruments. Relevant capital instruments may only be converted where the following conditions are met:
- (a) those Common Equity Tier 1 instruments are issued by the institution referred to in paragraph 1 or by a parent undertaking of the institution;
  - (b) those Common Equity Tier 1 instruments are issued prior to any issuance of shares or instruments of ownership by that institution for the purposes of provision of own funds by the State or a government entity;
  - (c) those Common Equity Tier 1 instruments are awarded and transferred without delay following the exercise of the conversion power;
  - (d) the conversion rate that determines the number of Common Equity Tier 1 instruments that are provided in respect of each relevant capital instrument complies with the principles set out in Article 45.
3. For the purposes of the provision of Common Equity Tier 1 instruments in accordance with paragraph 2, resolution authorities may require institutions to maintain at all times the necessary prior authorisation to issue the relevant number of Common Equity Tier 1 instruments.
- 4.
- 5.

## *Article 54*

### *Authorities responsible for determination*

1. Member States shall ensure that the authorities responsible for making the determinations referred to in Article 51(1) are those set out in this Article.
  - 1a. Each Member State shall designate in national law the appropriate authority which shall be responsible for making determinations pursuant to Article 51. The appropriate authority may be either the competent authority or the resolution authority.
2. 3. If the group level resolution authority, after consultation with other members of the resolution college, assesses that the resolution action or other measures notified in accordance with point (b) of paragraph 1, would not make it likely that the conditions set out in Article 27 or Article 28 would be satisfied in relation to a group entity in another Member State, the resolution authority responsible for that institution may take the resolution action or other measures that it notified in accordance with point (b) of paragraph 1.
4. (ii) the financing plan proposes that the resolution financing arrangement or deposit guarantee scheme of that resolution authority's Member State would contribute to the financing of the group resolution action;

**(iii) the group resolution scheme would require that resolution authority to take resolution action or insolvency measures in relation to an entity established in its jurisdiction; or**

(iv) that resolution authority has made a notification in accordance with paragraph 1.

6. If any resolution authority covered by point (b) of paragraph 5a disagrees with the group resolution scheme proposed by the group level resolution authority or considers that it needs to take independent resolution actions or measures other than those proposed in the scheme in relation to an institution or group entity for reasons of financial stability, it may refer within 12 hours the matter to EBA for non-binding mediation. The matter may not be referred to EBA after the end of the 12 hour period or after a joint decision has been reached.

EBA shall make a recommendation within 12 hours of a referral. This 12 hour period may be extended with the consent all of the resolution authorities covered by points (a) and (b) of paragraph 5a.

7a. Where, after a recommendation by EBA, a resolution authority covered by points (a) or (b) of paragraph 5a does not agree to a joint decision on the group resolution plan, it shall set out in detail the reasons for the disagreement with EBA's recommendation and notify the other members of the resolution college of these reasons.

**Where a joint decision of all the authorities referred to in points (a) and (b) of paragraph 5a is not possible, a resolution authority which disagrees with the EBA's recommendation may make its own decision on the action to be taken in relation to the entities in its jurisdiction. The other resolution authorities referred to in points (a) and (b) of paragraph 5a may reach a joint decision on a group resolution scheme covering group entities under their jurisdiction.**

8. Where a group level resolution authority decides, or is notified pursuant to Article 74(3), that a Union parent undertaking for which it is responsible meets the conditions referred to in Article 27 or Article 28 it shall notify the information referred to in points (a) and (b) of paragraph 1 of this article to resolution authorities that are members of the resolution college of the group in question. The resolution actions for the purposes of point (b) of paragraph 1 of this Article may include **the implementation of** a group resolution scheme drawn up in accordance with paragraph 5 of this Article.

8a. Where the action proposed by the group resolution authority under paragraph 8 does not include a group resolution scheme, the group resolution authority shall take its decision after consultation with the members of the resolution college.

8b. Where the action proposed by the group resolution authority under paragraph 8 includes a group resolution scheme, the group resolution scheme shall take the form of a joint decision of the resolution authorities covered in points (a) and (b) of paragraph 5(a).

11. Resolution authorities that take any resolution action in relation to any group entity shall inform the members of the resolution college regularly and fully about those actions or measures and their on-going progress.
