COMMISSION STAFF WORKING DOCUMENT

Annexes to the

COMMUNICATION FROM THE COMMISSION TO THE COUNCIL

**on enhancing the status of the European Atomic Energy Community at the
International Atomic Energy Agency**

{COM(2006) 121 final}

1. ANNEX 1

Main elements of the letter to be sent by the Commissioner for Energy to the Director General of the IAEA proposing consultations with a view to enhancing the status of the Community at the IAEA:

- The European Atomic Energy Community (hereinafter, “the Community”) has participated in the IAEA as an observer since 1975.
- The Community has competence to adopt measures in the nuclear field as laid down in the Euratom Treaty. This competence has already been exercised through the adoption of a number of instruments in areas where the IAEA has carried out or is currently carrying out work. As a result, the Community is increasingly concerned with the work of the IAEA.
- Experience has indicated so far that the Community regularly encounters difficulties in participating in those activities that relate to its competencies and responsibilities. The same situation affects the Agency given the legal difficulties that derive from the fact that certain Member States competences have been transferred to the Community. This has in turn raised the issue of the status of the Community at the IAEA.
- Under current rules, the IAEA limits the status of a regional integration organisation to that of observer. Consultations should start with a view to identifying an enhanced status of the Community in the IAEA as well as the changes both to the IAEA Statute and other internal rules that are necessary to allow the Community to be granted such enhanced status.
- Once agreement is found on the form of Community participation and the changes needed to the IAEA Statute and internal rules, a formal request will be submitted to the Agency to introduce those changes.

2. ANNEX 2

The relevant provisions of the IAEA Statute

ARTICLE IV: **Membership**

- (a) The initial members of the Agency shall be those States Members of the United Nations or of any of the specialized agencies which shall have signed this Statute within ninety days after it is opened for signature and shall have deposited an instrument of ratification.
- (b) Other members of the Agency shall be those States, whether or not Members of the United Nations or of any of the specialized agencies, which deposit an instrument of acceptance of this Statute after their membership has been approved by the General Conference upon the recommendation of the Board of Governors. In recommending and approving a State for membership, the Board of Governors and the General Conference shall determine that the State is able and willing to carry out the obligations of membership in the Agency, giving due consideration to its ability and willingness to act in accordance with the purposes and principles of the Charter of the United Nations.
- (c) The Agency is based on the principle of the sovereign equality of all its members, and all members, in order to ensure to all of them the rights and benefits resulting from membership, shall fulfil in good faith the obligation assumed by them in accordance with this Statute.

ARTICLE XVI: **Relationship with other organizations**

- (a) The Board of Governors, with the approval of the General Conference, is authorized to enter into an agreement or agreements establishing an appropriate relationship between the Agency and the United Nations and any other organizations the work of which is related to that of the Agency.
- (b) The agreement or agreements establishing the relationship of the Agency and the United Nations shall provide for:
 - (1) Submission by the Agency of reports as provided for in sub-paragraphs B- 4 and B- 5 of article III; Consideration by the Agency of resolutions relating to it adopted by the General Assembly or any of the Councils of the United Nations and the submission of reports, when requested, to the appropriate organ of the United Nations on the action taken by the Agency or by its members in accordance with this statute as a result of such consideration.

- (a) Amendments to this Statute may be proposed by any member. Certified copies of the text of any amendment proposed shall be prepared by the Director General and communicated by him to all members at least ninety days in advance of its consideration by the General Conference.

- (b) At the fifth annual session of the General Conference following the coming into force of this Statute, the question of a general review of the provisions of this Statute shall be placed on the agenda of that session. On approval by a majority of the members present and voting, the review will take place at the following General Conference. Thereafter, proposals on the question of a general review of this Statute may be submitted for decision by the General Conference under the same procedure.
- (c) Amendments shall come into force for all members when:
 - (1) Approved by the General Conference by a two-thirds majority of those present and voting after consideration of observations submitted by the Board of Governors on each proposed amendment, and
 - (2) Accepted by two-thirds of all the members in accordance with their respective constitutional processes. Acceptance by a member shall be effected by the deposit of an instrument of acceptance with the depositary Government referred to in paragraph C of article XXI.
- (d) At any time after five years from the date when this Statute shall take effect in accordance with paragraph E of article XXI or whenever a member is unwilling to accept an amendment to this Statute, it may withdraw from the Agency by notice in writing to that effect given to the depositary Government referred to in paragraph C of article XXI, which shall promptly inform the Board of Governors and all members.
- (e) Withdrawal by a member from the Agency shall not affect its contractual obligations entered into pursuant to article XI or its budgetary obligations for the year in which it withdraws.

ARTICLE XXI: Signature, acceptance, and entry into force

- (a) This Statute shall be open for signature on 26 October 1956 by all States Members of the United Nations or of any of the specialized agencies and shall remain open for signature by those States for a period of ninety days.
- (b) The signatory States shall become parties to this Statute by deposit of an instrument of ratification.
- (c) Instruments of ratification by signatory States and instruments of acceptance by States whose membership has been approved under paragraph B of article IV of this Statute shall be deposited with the Government of the United States of America, hereby designated as depositary Government.
- (d) Ratification or acceptance of this Statute shall be effected by States in accordance with their respective constitutional processes.
- (e) This Statute, apart from the Annex, shall come into force when eighteen States have deposited instruments of ratification in accordance with paragraph B of this article, provided that such eighteen States shall include at least three of the following States: Canada, France, the Union of Soviet Socialist Republics, the United Kingdom of Great Britain and Northern Ireland, and the United States of America. Instruments of

ratification and instruments of acceptance deposited thereafter shall take effect on the date of their receipt.

- (f) The depositary Government shall promptly inform all States signatory to this Statute of the date of each deposit of ratification and the date of entry into force of the Statute. The depositary Government shall promptly inform all signatories and members of the dates on which States subsequently become parties thereto.
- (g) The Annex to this Statute shall come into force on the first day this Statute is open for signature.

3. ANNEX 3

THE INTERNATIONAL ATOMIC ENERGY AGENCY (IAEA)

General information:

The IAEA is an independent intergovernmental, science and technology-based organisation established in 1957. It is the member of the UN family of specialised agencies and organisations that serves as the global focal point for nuclear cooperation.

The Agency works with its Member States and partners worldwide to promote safe, secure and peaceful nuclear technologies.

The IAEA Secretariat is headquartered at the Vienna International Centre in Vienna, Austria.

The IAEA has 138 Member States (November 2004).

There are three main pillars of IAEA work:

The IAEA assists its Member States in planning for and using nuclear science and technology for various peaceful purposes and facilitates the transfer of such technology and knowledge in a sustainable manner to developing Member States.

The IAEA develops nuclear safety standards and promotes the achievement and maintenance of high levels of safety in applications of nuclear energy, as well as the protection of human health and the environment against ionising radiation.

The IAEA verifies, through its inspection system, that States comply with their commitments under the Non-Proliferation Treaty and other non-proliferation agreements to use nuclear material and facilities only for peaceful purposes.

IAEA policymaking bodies:

1. General Conference

The General Conference is the highest policymaking body of the IAEA. It is composed of representatives of all the Member States of the Agency.

The General Conference meets annually, typically in September, to consider and approve the Agency's programme and budget and to decide on other matters brought before it by the Board of Governors, the Director General, or Member States. It approves any application for membership.

The IAEA convenes a Scientific Forum in conjunction with its General Conference. Forum sessions bring together international experts to examine selected topics influencing nuclear developments and the IAEA's work.

2. The Board of Governors

The Board of Governors is composed of 35 Members, of which 13 are designated by the Board and 22 are elected by the General Conference. The Board of Governors generally meets five times per year, in March and June, twice in September (before and after the General Conference) and in December.

At its meetings, the Board examines and makes recommendations to the General Conference on the IAEA's accounts, programme, and budget and considers applications for membership. It also approves safeguards agreements and the publication of the IAEA's safety standards and has the responsibility for appointing the Director General of the IAEA with the approval of the General Conference.

Member States represented on the IAEA Board for 2003-2004 are Argentina, Australia, Brazil, Belgium, Canada, China, Cuba, Czech Republic, Denmark, Egypt, France, Germany, Hungary, India, Italy, Japan, Republic of Korea, Malaysia, Mexico, Netherlands, New Zealand, Nigeria, Pakistan, Panama, Peru, Poland, Russian Federation, Saudi Arabia, South Africa, Spain, Sudan, Tunisia, United Kingdom of Great Britain and Northern Ireland, United States of America, and Vietnam.

The Chair of the Board of Governors for 2004-2005 is the Ambassador and Permanent Representative from Canada, Ms Ingrid Hall. She succeeded the Governor from Spain, Mr. Antonio Núñez García-Saúco. Elected as Vice-Chairpersons for 2004-05 were Mr Parvez Butt, the Governor from Pakistan, and Mr Jerzy Niewodniczanski, the Governor from Poland.

The IAEA has the following main departments:

- Department of technical cooperation
- Department of nuclear energy
- Department of nuclear safety and security
- Department of management
- Department of nuclear sciences and applications
- Department of safeguards

The Department of nuclear safety and security provides the secretariat for the Commission on Safety Standards and support to the four Committees on Safety Standards:

- Nuclear Safety Standards Committee (NUSSC)
- Radiation Safety Standards Committee (RASSC)
- Transport Safety Standards Committee (TRANSSC)
- Waste Safety Standards Committee (WASSC)
