EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• Reasons for and objectives of the proposal

In October 2018, the EU formally launched the negotiations process (under Article XXVIII of the General Agreement on Tariffs and Trade (GATT) 1994) with a number of WTO Members in Geneva. The underlying principle of the negotiations is a “joint approach” developed between the EU and the UK back in 2017 on how to “apportion” the quantitative commitments contained in the EU28 WTO schedule for the 143 EU agricultural, fish and industrial WTO tariff rate quotas (TRQs). The basis of this approach is that the existing volume of each TRQ would be fully maintained in the future, but split across two separate customs territories: the EU27 and the UK.

The principle of the applied methodology is based on the trade flows into the EU27 and the UK during a representative reference period (of 3 years from 2013 to 2015) for all WTO TRQs.

The agreed methodology of the apportionment is described in detail in Regulation (EU) 2019/216 of the European Parliament and of the Council. More specifically, Article 2(b) of this Regulation empowers the Commission to amend the apportionment shares taking into account pertinent information that it may receive either in the context of negotiations under Article XXVIII of GATT 1994 or from other sources with an interest in a specific tariff rate quota.

On 15 June 2018, the Council authorised the Commission to launch negotiations under Article XXVIII GATT with the relevant WTO Members with a view to apportioning the Union's WTO concessions on TRQs.

New Zealand has negotiating rights for 21 TRQs and consultation rights for 3 TRQs.

For the majority of the TRQs where New Zealand is concerned, the original EU proposed apportioned volumes were accepted by New Zealand.

Changes have been agreed for the following TRQs.

The EU27 share of a New Zealand's country-specific TRQ on high quality bovine meat will be revised to 1 102 tonnes, taking into account a more recent reference period from 2015 to 2017.

The EU27 share of a New Zealand's country-specific TRQ on sheep meat will be revised to 125 769 tonnes, taking into account a more recent reference period from 2016 to 2018.

The EU27 share of an *erga omnes* TRQ on skimmed milk powder will be reduced to 62 917 tonnes, to avoid non-commercially viable volumes on UK side.

For an *erga omnes* TRQ on frozen beef meat, the *ad-valorem* part of the in-quota duty will be lowered from 20 to 15%.

For a New Zealand's country-specific TRQ on cheddar cheese the product description will be extended to the whole line 0406 90 21.

For a New Zealand's country-specific butter TRQ, the product specifications will be aligned

to the standard definition for butter and the eligibility will be extended to all types of butter falling under the line 0405 10.

The above adjustments are made fully respecting the overall principle of the EU-UK “joint approach” of maintaining the existing overall EU28 TRQ volumes split into two separate customs territories in the future.

The relevant Regulation (EU) 2019/216 of the European Parliament and Council, Commission Implementing Regulation (EU) 2020/761 and Commission Implementing Regulation (EU) 2020/1988 will be amended to reflect these changes.

The Council (Trade Policy Committee) has been regularly consulted on the content and advancement of the negotiations. Negotiations with New Zealand resulted in an Agreement that was initialled on 20 December 2021 in Brussels ("the Agreement").

Consequently, the European Commission proposes to the Council to authorise the signature of the Agreement, subject to its conclusion at a later stage.
