<b>CHAPTER VIII</b> <b>APPLICATION EQUIPMENT</b>		
<i>Article 33</i> <b>Electronic register of application equipment in professional use</b>	Electronic register of <b>revision obligated</b> application equipment in professional use	
1. Each competent authority designated by a Member State pursuant to Article 30 shall establish and maintain a central electronic register to record:  (a) information entered by third parties pursuant to Article 20(2), point (b)(i), and Article 29;  (b) records of inspections and certificates as set	1. Each competent authority designated by a Member State pursuant to Article 30 shall establish and maintain a central electronic register to record:  (a) <del>information entered by third parties pursuant to Article 20(2), point (b)(i), and Article 29;</del>  (b) <del>records of inspections and certificates as set</del>	In our opinion, the creation of the electronic system included in the proposal in this form would be an amazing amount of administration for both the authority and the inspection stations, which would make these inspections slower and more expensive, and thus would also be a burden for the farmers in the long run. Instead of the test notes in point b, we

<p>out in Article 31(6) and (7)(b);</p> <p>(c) other information as set out in paragraph 2 on application equipment in professional use in its Member State that has not been exempted from inspection under Article 32(3).</p>	<p>out in Article 31(6) and (7)(b);</p> <p><del>(c) other information as set out in paragraph 2 on application equipment in professional use in its Member State that has not been exempted from inspection under Article 32(3).</del></p>	<p>recommend only indicating the test result.</p> <p>The test notes are not relevant for the registration of the machine.</p>
<p>2. The competent authorities referred to in Article 30 shall, at the time of inspection, record the following information:</p> <p>(a) the name of the body carrying out the inspections;</p> <p>(b) the unique ID of the application equipment, if available;</p> <p>(c) the date of manufacture, if available;</p> <p>(d) the name and address of the current owner;</p> <p>(e) where there has been a transfer of ownership, the date of each transfer and the name and address of previous owners within the last five years;</p> <p>(f) the tank size;</p> <p>(g) the width of the horizontal spray boom, if applicable;</p>	<p>2. The competent authorities referred to in Article 30 shall, at the time of inspection, record the following information:</p> <p>(a) the name of the body carrying out the inspections;</p> <p>(b) the unique ID of the application equipment, if available;</p> <p>(c) the date of manufacture, if available;</p> <p>(d) the name and address of the current owner;</p> <p><del>(e) where there has been a transfer of ownership, the date of each transfer and the name and address of previous owners within the last five years;</del></p> <p><del>(f) the tank size;</del></p> <p><del>(g) the width of the horizontal spray boom, if applicable;</del></p>	<p>In our opinion points a)b)c)d)h)j)k) are enough in terms of maintaining the security level. We recommend deleting points e)f)g)i)l) to reducing the administrative burden.</p>

<p>(h) the nozzle type(s) present on the application equipment at the time of inspection;</p> <p>(i) in the case of boom sprayers, whether section and/or nozzle control through geospatial localisation technology is present or absent on the application equipment;</p> <p>(j) for equipment older than three years, the date of each inspection carried out in accordance with Article 31;</p> <p>(k) whether the application equipment passed or failed each inspection carried out under Article 31;</p> <p>(l) the reasons for any failed inspection.</p>	<p>(h) the nozzle type(s) present on the application equipment at the time of inspection;</p> <p><del>(i) in the case of boom sprayers, whether section and/or nozzle control through geospatial localisation technology is present or absent on the application equipment;</del></p> <p>(j) for equipment older than three years, the date of each inspection carried out in accordance with Article 31;</p> <p>(k) whether the application equipment passed or failed each inspection carried out under Article 31;</p> <p><del>(l) the reasons for any failed inspection.</del></p>	
<p>3. Where application equipment does not bear a unique ID as referred to in paragraph 2, point (b), the competent authorities referred to in Article 30 shall supply a unique ID.</p>		<p>We consider paragraph (3) indispensable for inspections.</p>

1. By ... <i>[OP: please insert the date = four years after the date of application of this Regulation]</i> , the Commission shall carry out an evaluation of this Regulation based on the following:  (a) the trends in progress and other quantitative data provided in annual progress and implementation reports in accordance with Article 10(2);  (b) the analysis of the annual trends and data	1. By ... <i>[OP: please insert the date = four years after the date of application of this Regulation]</i> , the Commission shall carry out an evaluation of this Regulation based on the following:  (a) the trends in progress and other quantitative data provided in <del>in annual</del> progress and implementation reports in accordance with Article 10(2);  (b) the analysis of the <del>annual</del> trends and data	We consider the 2 years planned for the evaluation obligation prescribed for the Commission to be too short. For the sake of more well-founded conclusions, we suggest to give a longer period of time.  In our opinion the planned annual reporting obligation is also surplus and has no added value. We also do not support the obligation to report annually on national action plans. These

In addition, it would not contribute to the reduction of environmental burdens.</p> <p>Progress trends can only be tracked properly in long term periods and the examination of the results of a single year can create misleading conclusions.</p>
<p>2. The Commission shall present a report on the main findings to the European Parliament, the Council, the European Economic and Social Committee, and the Committee of the Regions.</p>
