COVER NOTE

From:	Secretary-General of the European Commission, signed by Ms Martine DEPREZ, Director
date of receipt:	31 March 2026
To:	Ms Thérèse BLANCHET, Secretary-General of the Council of the European Union

No. Cion doc.:	SWD(2026) 95 final
Subject:	COMMISSION STAFF WORKING DOCUMENT Accompanying the document REPORT FROM THE COMMISSION TO THE EUROPEAN PARLIAMENT AND THE COUNCIL on the implementation of Article 29 of Regulation (EU) 2018/848 of the European Parliament and of the Council on organic production and labelling of organic products, on the presence of products and substances not authorised pursuant to the first subparagraph of Article 9(3) of said Regulation (EU) 2018/848 for use in organic production and on the assessment of the national rules referred to in paragraph 5 of Article 29

Delegations will find attached document SWD(2026) 95 final.

COMMISSION STAFF WORKING DOCUMENT
Accompanying the document

**REPORT FROM THE COMMISSION TO THE EUROPEAN PARLIAMENT AND
THE COUNCIL**

on the implementation of Article 29 of Regulation (EU) 2018/848 of the European Parliament and of the Council on organic production and labelling of organic products, on the presence of products and substances not authorised pursuant to the first subparagraph of Article 9(3) of said Regulation (EU) 2018/848 for use in organic production and on the assessment of the national rules referred to in paragraph 5 of Article 29

{COM(2026) 142 final}

Contents

Analysis per substance	2
1. Fosetyl-Al.....	3
2. Glyphosate	6
3. Cypermethrin.....	8
4. Imidacloprid	11
5. Boscalid	13
6. Tebuconazole.....	15
7. Folpet (sum).....	18
8. Pirimiphos-methyl.....	20
9. Azoxystrobin	22
10. Fluopyram	24
11. Lambda-cyhalothrin.....	26
12. Acetamiprid.....	28
13. Chloromequat	30
14. Pendimethalin	32
15. Spirotetramat	34
16. Cyprodinil.....	36
17. Chloridazon.....	38
18. Pyriproxyfen.....	40
19. Fludioxonil.....	42
20. Difenoconazole	44
21. Deltamethrin	46
Conclusions	49

Analysis per substance

In accordance with Article 29(6) of Regulation (EU) 2018/848, Member States have an obligation to make information available to the other Member States and the Commission on any measures they have taken for the purpose of formulating best practices and on any further measures to avoid the presence of products and substances non authorised for use in organic production. Article 29(9) of Regulation (EU) 2018/848 requires the Member States to transmit electronically, through the computer system made available by the Commission, relevant information about cases involving contamination with non authorised products or substances for use in organic production

Member States must use the Organic Farming Information System (OFIS) and the template set out in the Annex to Commission Implementing Regulation (EU) 2023/1195¹ to make available to the other Member States and the Commission the documented results of official investigations conducted in accordance with Article 29(1), point (a), of Regulation (EU) 2018/848 and any measures that the competent authorities have taken for the purpose of formulating best practices and further measures to avoid the presence of products and substances not authorized for use in organic production, pursuant to Article 9(3), first subparagraph, of that Regulation.

Until the drafting of the current report, the Commission received 27 responses from Member States in both years 2022 and 2023. For the year 2024, the Commission received 25 responses from Member States until the deadline to send the data of the previous year in accordance with Article 29(9) of Regulation (EU) 2018/848, namely 31 March 2025. It was therefore not possible to take into account the missing 2 responses that arrived after the 31 March 2025. The two responses that arrived after the 31 March 2025 were hence not taken into account for this report. One Member State response from the year 2022 could not be used for this report because the response was not submitted according to the above-mentioned template.

For the purpose of this report, the Commission decided to focus on the 21 substances notified in the OFIS of 2021 and 2022 as most frequently occurring in organic products, that were analysed in detail in the 'EFSA Technical Report on findings of non authorised substances in food and feed certified as organic'² in order to provide more information on the way that the official investigations have been performed in accordance with Article 29 of Regulation (EU) 2018/848 upon detection of these selected 21 substances. It is possible that these substances were detected together with other products or substances non authorized for use in organic production, but only the 21 selected substances have been considered for the purpose of this analysis.

¹. Commission Implementing Regulation (EU) 2023/1195 of 20 June 2023 laying down rules for the details and the format of the information to be made available by Member States on the results of official investigations concerning cases of contamination with products or substances not authorised for use in organic production (OJ L 158, 21.6.2023, p. 65, ELI: http://data.europa.eu/eli/reg_impl/2023/1195/oj).

². [Findings of not authorised substances in food and feed certified as organic - - 2025 - EFSA Supporting Publications - Wiley Online Library](#)

1. Fosetyl-Al

a) Categories of products where substance has been detected the most

Fosetyl-AL	Number of cases	Concentration ranges (mg/kg)	Median (mg/kg)	Above MRL	Below MRL	With n/a
Edible fruit and nuts; peel of citrus fruit or melons	361	0.005 - 54.200	0.088	3	266	92
Beverages, spirits and vinegar	207	0.008 - 2436.000	0.138		152	55
Preparations of vegetables, fruit, nuts or other parts of plants	206	0.005 - 45.350	0.099	7	67	132
Edible vegetables and certain roots and tubers	79	0.005 - 59.000	0.043	3	65	11
Cereals	51	0.011 - 4.200	0.087	22	29	0
Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder	38	0.020 - 50.000	0.190	2	26	10
Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage	25	0.008 - 54.700	0.300		9	16
Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes	13	0.024 - 0.082	0.032		13	
Coffee, tea, maté and spices	12	0.018 - 52.000	0.155		12	
Live animals	10	0.010 - 29.521	0.100	1	7	2
Miscellaneous edible preparations	10	0.019 - 1.630	0.206	2	8	
Products of the milling industry; malt; starches; inulin; wheat gluten	7	0.011 - 8.760	0.053		7	
Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates	4	0.024 - 0.296	0.150		4	
Soil	2	0.200	0.200			2
Cocoa and cocoa preparations	2	0.138	0.138		2	
Sugars and sugar confectionery	2	0.029 - 0.033	0.031		2	
Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included	1	0.013	0.013		1	
Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn	1	0.021	0.021		1	
Total	1031			40	671	320

b) Stage of the supply chain where the substance was detected the most

Stage of the supply chain where the substance was detected	Number of occurrences	%
Production	507	42.7
Preparation	351	29.5
Distribution	184	15.5
Storing	74	6.2
Placing on the market	40	3.4
Import	22	1.9
