Madrid, May 12th, 2020

On March 17th, Spain reintroduced controls at its internal land borders in order to support the measures taken inside its territory by the state of alarm to limit the spreading of COVID-19. These controls have been successively prolonged, the last time until May 23rd.

However, in the de-escalation process initiated by Spain, the lifting of some restrictions could create a pull effect on movements from other Member States, especially in order to travel to second residences in our country. Therefore, it is now considered necessary to reintroduce controls also at internal air and sea borders, similarly to what other fourteen and nine Member States and Schengen Associated Countries respectively have done. This measure is considered proportionate regarding the internal situation, where residents in Spain are still not allowed to travel between provinces, and regarding the restrictions in force throughout the Schengen Area.

Articles 25 and 27 of the Schengen Borders Code are resorted to, as in the last prolongation of controls at the internal land borders. We have not been able to communicate the reintroduction four weeks in advance, since the situation and the resulting measures are re-evaluated at shorter periods.

The categories of persons allowed to cross the internal air and sea borders are:

- Spanish citizens.
- Residents in Spain.
- Frontier workers.
- Healthcare and elderly care professionals going to their work.

- Those able to prove with documents being subject to force majeure or state of necessity.
- Staff of diplomatic missions, consular offices or international organizations seated in Spain, accredited as such and travelling in the scope of their official mission.
- Transport of goods, including maritime and air crews, only if an onward journey is guaranteed.
- Entries for work reasons will be allowed if documentary evidence can be provided.

Therefore, in accordance with articles 25 and 27 of the Schengen Borders Code, I have issued the Order INT/XXX/2020 of the Minister of Interior of May 12th temporarily reintroducing controls at the internal air and sea borders due to COVID-19. Duration comprises from 00:00, May 15th until 00:00, May 24th.

Please rest assured that the scope and duration of the internal border checks will be limited to what is strictly necessary and that we will continue to carefully monitor and assess the evolution of the situation, as well as the impact and proportionality of measures taken.

Yours sincerely,

Fernando Grande-Marlaska Gómez
