Subject : Proposal for a Council Regulation establishing measures for the recovery of the stock of European eel

---

Delegations will find attached draft statements suggested by the Polish delegation on the subject mentioned above.

1. "The Commission encourage Member States to make use in their Eel Management Plans of possibilities referred to in Article 37 (a) of Council Regulation 1198/2006, which may contribute to, in particular: transportation of silver eel from inland to waters from which they can escape freely to the Sargasso Sea or partial compensation of recent restocking activities contributing to eel recovery."
  
  2. "The consistency with Council Regulation 2847/93 referred to in Art. 9 shall be evaluated in terms of the efficiency and cost effectiveness of control and catch monitoring measures adapted to the circumstances and legal frameworks already applicable to inland fisheries within Member States."
