Mandate for negotiations with the European Parliament

The Committee agreed on a mandate for negotiations with the European Parliament.

Statement by Austria

"As Austria has stated in the deliberations for the Council Position on the Digital Green Certificate (DGC), it is important that bilateral agreements on the mutual recognition of DGC among Member States are possible also in case the regulation on the DGC will not fully enter into force before the summer of 2021.

The use of a trust framework digital infrastructure (gateway), which is foreseen in the draft regulation will be important as to avoid administrative burden due to the need for creating an interim trust framework digital infrastructure (gateway)."

Statement by the Republic of Bulgaria

"The Republic of Bulgaria supports the continuation of the functioning of the European Globalisation Adjustment Fund as a flexible forward looking instrument providing assistance to displaced workers. That is why Bulgaria supported the general approach on the file and was constructive towards finalisation of the negotiations.

However, it should be noted that in 2018, the Bulgarian Constitutional Court adopted a decision stating that the Council of Europe's Convention on Preventing and Combatting Violence against Women and Domestic Violence ("Istanbul Convention") promotes legal concepts related to the notion of gender that are incompatible with main principles of the Bulgarian Constitution.

In line with the above mentioned Decision of the Constitutional Court, the Republic of Bulgaria declares that the country cannot accept either the concept of gender or the gender-based approach of the Council of Europe's Convention or any other document that intends to differentiate between "sex" as a biological (women and men) category and "gender" as a social construct.

Therefore, the country cannot support the Regulation of the European Parliament and the Council on the European Globalisation Adjustment Fund that includes the notion of *gender identity*.

The Republic of Bulgaria also understands the reporting on common indicators in Annex II of the European Globalisation Adjustment Fund Regulation by using a category of "non-binary", as not obligatory. The Republic of Bulgaria does not intend to gather and report relevant data as such a category does not exist in its national legislation. According to its domestic legislative framework, the Republic of Bulgaria gathers disaggregated data by sex (male and female).

However, the position of the Republic of Bulgaria regarding the Regulation does not undermine in any way our support for the substance of the Fund and its objectives."

Statement by Hungary

"Equality between women and men is enshrined in the Treaties of the European Union as a fundamental right. Hungary ensures equality between women and men within the framework of its national legal system, in accordance with internationally binding human rights instruments and within the framework of fundamental values and principles of the European Union. For these reasons, Hungary will interpret expressions comprising the term "gender" within the Regulation as referring to or in the (narrow) context of the equality between women and men, in accordance with Article 8 of the TFEU. Furthermore, Hungary is convinced that concerning the application of the common output and result indicators, this legislative document is not the appropriate place to define the content of "gender". Therefore, Hungary believes that footnote 34 in Annex II should be applicable and refer to the term "gender" and the parenthesis as a whole, and not only one of the subcategories listed there. Bearing in mind the fact, that determining the content of the term "gender" falls under the exclusive competence of the Member States, footnote 34 of the proposal should be understood as referring to the term "gender" and not to the term "non-binary"."

Statement by Poland

"Equality between women and men is enshrined in the treaties of the European Union as a fundamental right. Poland ensures equality between women and men within the framework of the Polish national legal system in accordance with international human rights treaties and within the framework of the fundamental values and principles of the European Union. For these reasons, in expressions containing the term 'gender' Poland will interpret it in terms of equality between women and men in accordance with Article 8 TFEU."

Statement by the Commission

"In the Inter-institutional Agreement between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap for the introduction of new own resources, Points 30 to 33 require the Commission to make available an integrated and interoperable information and monitoring system including a single data-mining and risk-scoring tool to access and analyse the required data with a view to a generalised application by Member States. In addition, the three institutions agreed to sincerely cooperate, in the course of the legislative procedure relating to the relevant basic acts, to ensure the follow up to the European Council conclusions of July 2020 regarding this element.

The Commission considers that the agreement reached by the co-legislators under Article 23(1a) on the obligatory use of a single data-mining tool and the collection and analysis of data on the beneficial owners of the recipients of funding is not sufficient to enhance the protection of the Union budget and NextGenerationEU against fraud and irregularities and to ensure efficient checks on conflicts of interests, irregularities, issues of double funding, and criminal misuse of the funds. Therefore, the approach agreed by the co-legislators in the Regulation European Globalisation Adjustment Fund for displaced workers does not appropriately reflect the desired ambition and spirit of the Inter-institutional Agreement."

Statement by Hungary

"Equality between women and men is enshrined in the Treaties of the European Union as a fundamental right. Hungary ensures equality between women and men within the framework of the Hungarian national legal system in accordance with internationally binding human rights instruments and within the framework of the fundamental values and principles of the European Union. For these reasons, Hungary interprets the concept of 'gender' in the text of the Regulation as a reference to sex."

Statement by Poland

"Equality between women and men is enshrined in the treaties of the European Union as a fundamental right. Poland ensures equality between women and men within the framework of the Polish national legal system in accordance with international human rights treaties and within the framework of the fundamental values and principles of the European Union. For these reasons, in expressions containing the term 'gender' Poland will interpret it in terms of equality between women and men in accordance with Article 8 TFEU."

Statement by the European Commission

"The European Commission takes note of the proposal of the European Parliament to consider "the number of local actors that apply the knowledge, the principles and the approaches learnt through the humanitarian activities in which the volunteer and the experts have participated" when supplementing the Regulation with provisions on the establishment of a monitoring and evaluation framework."

Statement by Bulgaria

"The Republic of Bulgaria supports the aim of the proposal for a *Regulation of the European Parliament and of the Council establishing the Citizens, Equality, Rights and Values Programme* to protect and promote rights and values as enshrined in the EU Treaties and in the EU Charter of Fundamental Rights, including by supporting civil society organisations, in order to sustain open, democratic and inclusive societies.

We acknowledge that combating all forms of violence against women and domestic violence should be supported by the Programme and that promoting prevention, protecting and supporting victims are priorities of the Union which help to fulfil individuals' fundamental rights.

At the same time, we note that the European Union has not acceded to the Council of Europe Convention on preventing and combating violence against women and domestic violence (Istanbul Convention) and this Convention is not part of the EU law. Therefore, any reference to the Istanbul Convention in the Regulation cannot be construed as implying any commitments for the EU and the Member states of the EU to ratify and implement the Convention."

Statement by Hungary

"Hungary has expressed concerns as regards the draft regulations establishing the Rights and Values programme and the Justice programme for the period 2021-2027 several times during the negotiations and cannot support their final texts either.

Concerning the draft regulation establishing the Rights and Values programme for the period 2021–2027 and the draft regulation establishing the Justice programme for the period 2021-2027, Hungary is of the opinion that deficiencies as regards the legal basis (especially concerning the 'Union values' strand, as well as the 'Citizens engagement and participation' strand of the Rights and Values programme), the blurred scope not limited to the field of application of Union law (including references to international treaties not ratified by the Union), the focus on the support of one specific type of eligible entities (civil society organisations), instead of focusing on the substantial projects, as well as the reference to concepts which are not in line with the language of the Treaties would have made a substantial revision of the draft regulations necessary. Hungary is firmly committed to the protection of fundamental rights and European values, including the promotion of civil society and equal treatment.

Hungary maintains that basic requirements of legal certainty, principle of conferral and compliance with the Treaties in general shall be respected in order to prevent the impression that political and ideological views could have an impact, when defining the priorities of EU funding."

Statement by Poland

"Poland maintains its objection to the wording of recital 10 of the regulation which contains an inconsistent and incomplete list of vulnerable groups particularly in risk of discrimination, prioritizing LGBT people over other vulnerable groups exposed to discrimination, e.g. poor people or exposed to discrimination due to political or religious beliefs, e.g. Christians, for whom there have been signs of intolerance or even acts of vandalism in recent times.

The Republic of Poland notes that the conditionality mechanism indicated in recital 30 of the Regulation is currently the subject of complaint submitted by the Republic of Poland to the CJEU as duplicating the procedure under Art. 7 TEU and violating the competence of the European Council established in that article.

For Poland it is unacceptable to provide in the regulation insufficiently specified conditions for the operation of non-governmental organizations, the fulfillment of which enables their financing under the regulation. Lack of clarification on this subject implies the risk of improper spending of EU funds and introduces an unlimited margin of discretion.

Poland opposes the use of the term "gender" in the regulation. That wording is unknown to primary law and ambiguously understood by individual Member States, and at the risk of overinterpretation in the absence of its legal definition in EU law. Poland understands wording "gender equality" as referring to "equality between women and men", in line with art. 2 and art. 3 of the Treaty on European Union. Also Poland understands wording "gender" as referring to "sex" in line with art. 10, art. 19 para 1 and art. 157 para 2 and 4 of the Treaty on the Functioning of the European Union."

Statement by Hungary

"It is an obvious and indisputable fact that in the current pandemic situation, the mass, uncontrolled flow of people carries a serious health risk, and for this reason our Hungary does not support any form of legal migration. In view of this fact, it is irrelevant to distinguish between legal and illegal migration, as in our view both are both harmful and dangerous. Facilitating and encouraging legal migration is nothing more than endangering the safety and health of European citizens. Since the outbreak of the migration crisis in 2015, Hungary has consistently emphasized that the root causes of migration processes must be addressed locally, at their roots. We think it is much more sustainable to focus on helping developing countries, rather than promoting migration, by creating stable and secure conditions, thus ensuring that people can remain in their countries in peace and prosperity, than to leave their countries on dangerous paths, thereby risking their lives."

Statement by Poland

"Equality between women and men is the fundamental right according to the EU treaties. Poland ensures the equality between women and men in the national legal system in line with the international human rights instruments and fundamental EU values and norms. Poland understands "gender equality" as "equality between women and men", in line with art. 2 of TEU, art. 8 of TFEU and the EU Charter of Fundamental Rights. Regarding the reference to the Joint Communication of the European Commission and the High Representative on the third Gender Action Plan, Poland recalls that it has been supported by the Presidency conclusions, backed by 24 Member States. With these clarifications, Poland accepts the Council conclusions on Southern Neighbourhood."

Statement by the Commission

"The Commission considers that the Council Decision should be addressed to the Commission, and therefore considers the changes to Article 2 to be inappropriate.

The expression of the Union position in a body set up by an agreement is an act of external representation of the Union which, in accordance with Article 17(1) TEU, is the institutional prerogative of the Commission.

The Commission reserves all its rights in this regard."
