³ ~~OJ C, ...~~

- (1) The agricultural sector, in particular farmers, face a range of challenges. The Covid-19 pandemic and Russia's ongoing war of aggression against Ukraine have led to an unprecedented increase of energy-related agricultural input costs and a prolonged period of high inflation, affecting farmers' costs and food prices. In parallel, farmers continue to undertake efforts to make their production more environmentally sustainable. Many consumers, dealing with an increased cost of living, have also directed their consumption patterns towards less expensive food products. This has further destabilised the distribution of value added along the food supply chain and has increased the degree of uncertainty in which farmers operate, fuelling protests and mistrust. It is thus appropriate to adopt measures to tackle those challenges and restore the trust of the actors in the food supply chain.
- (2) Various operators within the agricultural and food supply chain, active at different stages of production, processing, marketing, distribution, and retail, have developed schemes and labels to promote commercial modalities ensuring the fair allocation of value added to farmers and the creation and maintenance of short supply chains. Establishing minimum requirements for the use of optional terms describing those commercial modalities is necessary to increase the transparency and reliability of the use of those terms in the food supply chain, complementing existing food labelling rules, in particular Regulation (EU) No 1169/2011 of the European Parliament and of the Council⁴.

⁴ Regulation (EU) No 1169/2011 of the European Parliament and of the Council of 25 October 2011 on the provision of food information to consumers, amending Regulations (EC) No 1924/2006 and (EC) No 1925/2006 of the European Parliament and of the Council, and repealing Commission Directive 87/250/EEC, Council Directive 90/496/EEC, Commission Directive 1999/10/EC, Directive 2000/13/EC of the European Parliament and of the Council, Commission Directives 2002/67/EC and 2008/5/EC and Commission Regulation (EC) No 608/2004 (OJ L 304, 22.11.2011, p. 18, ELI: <http://data.europa.eu/eli/reg/2011/1169/oj>).

- (3) In the interest of increased trust and fairness along the food supply chain, the terms ‘fair’, ‘equitable’, **and terms having an-~~or~~ equivalent terms meaning**, should be used only to designate commercial modalities that ensure stability and transparency in commercial relations between farmers and purchasers and pricing considered equitable by participating farmers, and that support and contribute to the United Nations Sustainable Development Goals, including in a manner that is consistent with Annex I of Directive (EU) 2024/1760 of the European Parliament and of the Council⁵.
- (4) The term ‘short supply chain’ should be used only to designate commercial modalities where a direct connection exists between farmers and consumers that allows to directly exchange **information** on the production process and the product. **However, this should not prevent, in specific cases, the use of the term "short supply chain" where, one, including by means of distance communication and/or via an intermediary who ensures such exchange at the moment of sale is present in the chain, provided that the direct connection between the farmer and the consumer is maintained.** Alternatively, this term may also be used where a close connection between farmers and consumers within their geographic proximity exists, including in cross-border contexts. This will incentivise consumers to pay prices that fairly remunerate farmers for what they produce, strengthen and contribute to the development of rural areas, improve transparency regarding the origin and production methods of the products.

⁵ Directive (EU) 2024/1760 of the European Parliament and of the Council of 13 June 2024 on corporate sustainability due diligence and amending Directive (EU) 2019/1937 and Regulation (EU) 2023/2859, (OJ L, 2024/1760, 5.7.2024, ELI: <http://data.europa.eu/eli/dir/2024/1760/oj>).

- (5) In light of market conditions, evolving consumer expectations, advances both in marketing standards and in relevant international standards, implementing powers should be conferred on the Commission to ensure uniform conditions for the use of the optional terms designating commercial modalities related to the fair allocation of value added to farmers and the creation and maintenance of short supply chains. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council⁶.
- (6) For those same reasons, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of additional optional terms that are equivalent to the terms ‘fair’ or ‘equitable’.
- (7) While Member States may retain or introduce national provisions stipulating supplementary requirements for the use of optional terms for commercial modalities, those provisions should not hinder, limit, or obstruct the use of these terms for products legally produced or marketed in another Member State.
- (8) The use of written contracts plays a crucial role in the accountability of operators, raising awareness about the importance of market signals, adapting supply to demand, improving price transmission within the supply chain, enhancing transparency and preventing and addressing unfair trading practices. The rules on contractual relations in the milk and milk products sector should therefore be extended to cover products other than raw milk, while ensuring alignment with the rules on contractual relations applicable to other agricultural sectors.

⁶ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by the Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13, ELI: <http://data.europa.eu/eli/reg/2011/182/oj>).

- (9) In order to increase flexibility for Member States and simplify the procedure for the recognition of producer organisations, thereby reducing transaction costs and improving efficiency, the rules on producer organisations should allow for their recognition following, *instead of one request for each specific sector as currently required*, a single request covering multiple sectors ~~and~~ products, *provided that the producer organisation fulfils the conditions which are applicable to each specific sector for which it seeks recognition*. Moreover, to enhance collaboration between organic product producers, the establishment and recognition of producer organisations by organic product producers should be explicitly provided for. The criteria for the recognition of producer organisations and their statutes should also provide that producer organisations are established at the initiative of farmers *producing agricultural products of the soil, irrespective of whether the production methods use soil, for example in greenhouses, or of stockfarming*, and are controlled in accordance with rules that enable *these* farmer members to scrutinise democratically their organisation and decisions. **Member States should be also allowed to decide that such democratic scrutiny may be carried out not only directly by the farmers, but also via their associations, including those in the form of cooperatives, on the condition that those associations are controlled by farmers.** This should not preclude other producers that are not farmers *producing agricultural products of the soil or stockfarming, such as first-stage processors or*, ~~and~~ non-producers from joining producer organisations.
- (10) To promote further sustainable development, which is a core principle of the Treaty and a priority objective for the policies of the Union, and to ensure transparency, stability and fairness in commercial relations between farmers and purchasers throughout the supply chain, Member States should be able to recognise producer organisations that pursue specific aims with optional terms for commercial modalities, such as ‘fair’, ‘equitable’ or *terms having an equivalent terms meaning*, and ‘short supply chain’.

(11) To ensure a fair standard of living for farmers, enhance their bargaining position vis-à-vis processors and other actors in the supply chain and provide for a fairer distribution of added value along the supply chain, the possibility of negotiating contract terms on behalf of their members should be extended to non-recognised producer organisations, including cooperatives, for some or all of their production. To ensure equal treatment with members of recognised producer organisations, this possibility should be subject to appropriate limits. In particular, non-recognised producer organisations benefiting from that possibility should comply with the recognition criteria set at Union level and engage in the activities set out in Regulation (EU) No 1308/2013 of the European Parliament and of the Council⁷, including concentrating supply and placing their members' products on the market.

(12) To strengthen the negotiating position of recognised producer organisations and to ensure the viable development of agricultural production, recognised associations of producer organisations should be allowed to negotiate contract terms on behalf of their members, including price, for some or all of their members' production, ***also if only the producer organisations who are members of the association of producer organisations are genuinely exercising an economic activity, but not the association of producer organisations itself***. This possibility should be allowed, subject to the safeguard that the organisations which are members of those associations are not also members of another association of producer organisations and the volume of ~~products~~***the product*** covered by the activities of the association does not exceed 33% of the total national production of ~~any given~~***that product in the Member State concerned***. In order to maintain effective competition on the market, recognised associations of producer organisations should also not be allowed to negotiate contract terms where those associations include non-recognised producer organisations.

⁷ Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 (OJ L 347, 20.12.2013, p. 671, ELI: <http://data.europa.eu/eli/reg/2013/1308/oj>).

- (13) To prevent purchasers from undermining the bargaining position of producer organisations, appropriate safeguards should be established for contacts between purchasers and members of those producer organisations. While purchasers may contact members of producer organisations, those contacts should not undermine the objectives of the producer organisations, ~~or including~~ the concentration of supply and placing of products on the market.
- (14) Interbranch organisations play an important role in facilitating dialogue between actors in the supply chain, and in promoting best practices, market transparency, stability and fairness in commercial relations between farmers and purchasers throughout the supply chain. It is therefore appropriate to include the promotion of initiatives for the inclusion of optional terms for commercial modalities, such as ‘fair’, ‘equitable’ or ***terms having an equivalent terms meaning***, and ‘short supply chain’ in the list of objectives that a recognised interbranch organisation may pursue.
- (15) Certain Member States have decided that all deliveries of agricultural products in their territory are to be covered by written contracts between the parties. Where the Member States do not make use of this possibility, farmers, producer organisations or associations of producer organisations can request the use of written contracts. However, due to the weaker bargaining position of farmers and the fear of commercial retaliation by purchasers, it can be difficult for farmers and their associations to make such a request. To increase trust, transparency, and efficiency within the supply chain ~~and to enable all,~~ farmers, ***who work at the very beginning of the agricultural food chain and their associations***, producer organisations and associations of producer organisations ~~to should~~ benefit from the use of written contracts. ***Written contracts should therefore be required when deliveries of agricultural products in the Union by a farmer are made by farmers who have produced these products of the soil, irrespective of whether the production methods use soil, for example in greenhouses, or of stockfarming on their holdings and when they process these primary agricultural products. Deliveries of such products made by farmers' associations, a producer organisation or an association of producer organisations or associations of producer organisations to a processor, distributor or retailer, that process or market such products for the farmers, should also be covered by a written contract.***

- (16) To better take into account the signals of the market and to improve price transmission, Member States should be able to require the use of written contracts for the delivery of agricultural products *also by or to* ~~by producers other than farmers, by producer organisations or associations of producer organisations~~ **operators of the food chain**, and to require that purchasers make use of written offers for contracts for the delivery of agricultural products. ~~In the interests of simplicity and reduction of transaction costs, this Regulation should lay down certain exceptions to the required use of written contracts or written offers for contracts and allow Member States to exempt certain deliveries from the required use of written contracts or written offers, while leaving farmers and their associations the possibility of requesting the use of written contracts or written offers when there is no such obligation.~~
- (16a) *In the interests of simplicity and reduction of transaction costs, this Regulation should lay down certain exceptions to the required use of written contracts or written offers for contracts and allow Member States to exempt certain deliveries from the required use of written contracts or written offers, while leaving farmers and their associations the possibility of requesting the use of written contracts or written offers when there is no such obligation. To preserve the role of cooperatives and producer organisations in promoting collective approaches and maximising added value for their members, thereby strengthening the position of farmers in the supply chain, a written contract should not be required for the deliveries by members to the cooperative or producer organisation provided that the statutes of the cooperative or producer organisation ensure that the objectives of predictability and transparency and price transmission are met.*

- (16b)** *To provide Member States with the option to take into account national or regional practices, the Regulation should allow Member States to exempt products subject to seasonal supply, demand fluctuations or perishability as well as products that are subject to specific traditional or customary selling practices. **In addition, Member States should be allowed to exclude certain products from the obligation to have written contracts, following consultation of relevant representatives of farmers or of relevant interbranch organisations, provided that the effects of predictability, transparency and price transmission are achieved by other means for the products concerned or that the obligation to have written contracts or written offers would not be appropriate or proportionate as regards these products for other justified reasons.***
- (17) The required use of written contracts for the delivery of agricultural products and the basic conditions for their use should be laid down at Union level, while ensuring that the right of the parties to negotiate all elements of their contracts is not restricted beyond what is strictly necessary. *Nevertheless, Member States should not be prevented to adopt measures to combat unfair trading practices in the agricultural and food supply chain as long as such measures are appropriate and proportionate for securing attainment of the objective pursued and are compatible with Directive (EU) 2019/633, including its Article 9.*
- (18) To encourage parties to reach an amicable settlement in case of disputes over the conclusion or review of a written contract, Member States ~~should~~ **may provide** ~~establish~~ **ensure** *that mediation mechanisms are available for them in such cases.* Member States should inform the Commission about the mediation mechanisms in place in their territory ~~or the establishment of those mechanisms~~, and the Commission may facilitate exchanges of best practices about those mechanisms.
- (19) To facilitate the functioning of price transmission mechanisms, where the final price payable for the delivery of agricultural products is calculated by combining various factors set out in the contract, those factors should include objective indicators, indices or methods of calculation that are easily understandable by the parties. To avoid that farmers are forced to sell systematically below their production costs, the indicators, indices and methods of calculation of the final price should reflect changes in market conditions and *changes in relevant elements of* production costs of the agricultural products delivered.

- (20) Considering the vulnerable negotiating position of farmers and their organisations, recent instances of significant volatility in agricultural input costs and market prices, and the need for a more efficient price transmission within the supply chain, contracts with a duration of more than ~~6~~**12** months should include a revision clause that may be triggered by the farmers and their organisations. Such a clause should permit farmers to request after the 6 months at any moment a revision of the elements of the contract and permit them to end the contract in case no agreement on a revision is reached, without interfering with the right of the parties to negotiate other possibilities for the revision of the contract.
- (21) To enhance contractual transparency and contribute to fairer trading practices, Member States should be able to require the registration of written contracts for the delivery of agricultural products.
- (22) Certain vertical and horizontal cooperation initiatives concerning agricultural and food products, which aim to apply requirements that are more stringent than the mandatory requirements, can have positive effects on the objective of the common agricultural policy to ensure a fair standard of living for the agricultural community and on the objective of sustainable development of the Union. Therefore, under specific circumstances, such initiatives should not be subject to the application of Article 101(1) of the Treaty on the Functioning of the European Union.
- (23) In periods of severe market imbalance, specific categories of collective actions by private operators can contribute to stabilise the sectors concerned. With a view to ensuring that private operators have the necessary resources to implement these actions, the Commission should be able to make available Union resources from the agricultural reserve to support these actions. Member States should also be able to allocate additional national resources.
- (24) To enable sugar beet growers to benefit from enhanced contractual clarity and to ensure a harmonised contractual framework while taking account of the specificity of the sugar beet sector, purchase terms in contracts for the delivery of sugar beet should be aligned with the conditions for the use of written contracts in other agricultural sectors.
- (25) Regulation (EU) No 1308/2013 should therefore be amended accordingly.

- (26) To strengthen the position of farmers in the food supply chain, several provisions of Regulation (EU) 2021/2115 of the European Parliament and of the Council⁸ should be amended as regards the types of intervention in certain sectors. These amendments aim to support farmers to become or remain members of producer organisations or associations of producer organisations recognised under Regulation (EU) No 1308/2013, in light of the positive role these organisations and associations play in strengthening the bargaining power of producers. Moreover, to ensure a more efficient and targeted support of producer organisations through the CAP Strategic Plans, the possibility of an increase of the Union financial assistance to operational programmes in certain sectors should be provided for.
- (27) The value of production of fruit and vegetables marketed by producer organisations compared to the total value of the fruit and vegetable production remains in certain Member States far below the Union average. Among the financial incentives available, Member States can already provide national financial assistance as provided for in Article 53 of Regulation (EU) 2021/2115 to producer organisations located in certain regions where the degree of organisation is significantly below the Union average. With a view to enhancing competitiveness, strengthening farmers' positions in the value chain and setting up new producer organisations, a financial incentive consisting in an increase of 10 % of the Union financial assistance should be granted to producer organisations in Member States, in which the degree of organisation of producers is below 10 % for 3 consecutive years preceding the implementation of the relevant operational programme.

⁸ Regulation (EU) 2021/2115 of the European Parliament and of the Council of 2 December 2021 establishing rules on support for strategic plans to be drawn up by Member States under the common agricultural policy (CAP Strategic Plans) and financed by the European Agricultural Guarantee Fund (EAGF) and by the European Agricultural Fund for Rural Development (EAFRD) and repealing Regulations (EU) No 1305/2013 and (EU) No 1307/2013, (OJ L 435, 6.12.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/2115/oj>).

- (28) With a view to facilitating the generational renewal in the farming sector and encouraging entrance of new producer members in producer organisations in the fruit and vegetables sector and in other sectors as referred to in Article 42, point (f), of Regulation (EU) 2021/2115, a particular incentive should be granted to young farmers and new farmers who join a producer organisation recognised under Regulation (EU) No 1308/2013. Consequently, a possible increase of ~~40~~**20** % of the Union financial assistance for expenditure related to investments made at the premises of a young farmer or a new producer who ***for first time*** joins a recognised producer organisation ~~for the first time~~ should be made available.
- (29) Given the recurrence of adverse climatic events, natural disasters, plant diseases or pest infestations in recent years, it has proven useful for producer organisations and associations of producer organisations to be able to redirect funds, including Union financial assistance within the operational fund, to interventions required to address the consequences of those events. It is therefore necessary to provide for the possibility of increasing the Union financial assistance laid down in Article 52(1) of Regulation (EU) 2021/2115 from 50% to 70% of the actual expenditure incurred, under certain conditions. ***This possibility should be applicable, mutatis mutandis, also for other sectors.***
- (30) In order to support the setting-up of types of intervention in the other sectors referred to in Article 42, point (f), of Regulation (EU) 2021/2115, Member States should be allowed, as of 2025, further flexibility to adjust the allocation of funds to these sectors by using up to 6 % of their allocations for direct payment.
- (31) Regulation (EU) 2021/2115 should therefore be amended accordingly,
- (32) With a view to ensuring that Union resources from the agricultural reserve can be made available to the Member States in order to support collective actions by private operators in periods of severe market imbalance, the possibility to use the agricultural reserve should be extended to the support of collective actions when the Commission decides that competition rules do not apply to those actions.

- (33) Article 16 of Regulation (EU) 2021/2116 of the European Parliament and of the Council⁹ should therefore be amended accordingly.
- (34) In order to give the market operators the necessary time to adapt and to allow the Commission to assess existing national schemes and practices, the application of the rules relating to the reservation of the optional terms ‘fair’, ‘equitable’ and ~~the~~ **terms having an equivalent terms meaning**, and the term ‘short supply chains’, should be deferred by 2 years after the entry into force of this Regulation. Additionally, in order for operators to adapt their contractual relations to the new rules on written contracts, the application of those rules should be deferred by ~~18 months~~ **2 years** after its entry into force.

HAVE ADOPTED THIS REGULATION:

Article 1

Amendments to Regulation (EU) No 1308/2013

Regulation (EU) No 1308/2013 is amended as follows:

- (1) In Part II, Title II, Chapter I, Section 1, the following subsection is inserted after Subsection 3:

‘Subsection 3a

Use of optional terms for products in all sectors listed in Article 1(2)

⁹ Regulation (EU) 2021/2116 of the European Parliament and of the Council of 2 December 2021 on the financing, management and monitoring of the common agricultural policy and repealing Regulation (EU) No 1306/2013, (OJ L 435, 6.12.2021, p. 187, ELI: <http://data.europa.eu/eli/reg/2021/2116/oj>).

Optional terms for commercial modalities

1. The terms ‘fair’, ‘equitable’ or terms *having an equivalent meaning to those* to these terms may be used ~~only~~, alone or in combination with other terms, on the labelling, in the presentation, on advertising material or on commercial documents of a product of the sectors listed in Article 1(2) that is placed on the market, ~~provided that these~~ *only if those* terms are used to inform purchasers about existing modalities for the organisation of production, distribution, or placing on the market, which ~~contribute~~ *aim to ensure* at least to:
 - (a) stability and transparency in the relations of farmers with purchasers along the supply chain,
 - (b) a price considered equitable by participating farmers for their products, and
 - (c) *the implementation of* collective initiatives pursuing one or several of the United Nations Sustainable Development Goals.
2. The term ‘short supply chain’ may be used ~~only~~, alone or in combination with other terms, on the labelling, in the presentation, on advertising material or on commercial documents of a product of the sectors listed in Article 1(2) that is placed on the market, ~~provided that~~ *only if* the term is used to inform purchasers about existing modalities for the organisation of production, distribution, or placing on the market, which ~~provide for~~ *ensure*:
 - (a) a direct connection between the farmer and the final consumer of the product, *if appropriate with one intermediary provided that the final consumer can easily identify the holding, where the raw material has been produced*; or
 - (b) a close connection ~~and geographical proximity~~ between the farmer and the final consumer of the product, *with a limited number of intermediaries, and geographical proximity between the farmer, the intermediaries and the final consumer of the product.*

3. The Commission may adopt implementing acts to specify further the conditions referred to in paragraph 1, points (a), (b) and (c), and in paragraph 2, points (a) and (b), taking into account any relevant international standard, **and, as regards geographical proximity, geographical and demographical specificities of the Member States.**

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 229(2).

4. The Commission is empowered to adopt delegated acts in accordance with Article 227, amending paragraph 1 to add terms that are equivalent to the terms 'fair' or 'equitable', when such equivalent terms are used on the market to inform purchasers about the commercial modalities referred to in paragraph 1.
5. Member States may adopt or maintain national rules laying down conditions additional to those referred to in paragraph 1, points (a), (b) and (c) and in paragraph 2, points (a) and (b), for the use of the terms referred to in paragraphs 1 and 2 respectively. Such rules shall not prohibit, restrict or impede the use of the terms referred to in paragraphs 1 and 2 for products that are legally produced or marketed in another Member State under the terms referred to in paragraphs 1 and 2.
6. This Article shall be without prejudice to the rules laid down in Regulation (EU) No 1169/2011.'

(2) Article 148 is replaced by the following:

'Article 148

Contractual relations in the milk and milk products sector

1. Every delivery in the Union of milk and milk products by a farmer, ***including a farmers' association, or*** a producer organisation or an association of producer organisations, to a processor, collector, distributor or retailer shall be covered by a written contract between the parties.

The obligation of the first subparagraph only concerns:

- (a) farmers which produce raw milk on their holding or process the raw milk produced on their holding into milk and milk products;*
- (b) farmers' associations, producer organisations or associations of producer organisations which process or market products as referred to in point (a).*

Such contract shall fulfil the conditions laid down in paragraphs 4 and 8.

For the purposes of this Article, a "collector" means an undertaking that transports raw milk from a farmer or another collector to a processor of raw milk or another collector, where the ownership of the raw milk is transferred in each case.

2. Member States may also decide that:

- a) the delivery of milk and milk products by ~~a producer other than a farmer, a producer organisation or an association of producer organisations to a processor, collector, distributor or retailer~~ **or to operators that are not covered by paragraph 1** shall be covered by a written contract;
- b) the first purchasers of milk and milk products shall make a written offer for a contract for the delivery of milk and milk products by the farmer, **including a farmers' association, or** a producer organisation or an association of producer organisations.

Such a contract or offer for a contract shall fulfil the conditions laid down in paragraphs 4 and 8.

3. Member States ~~shall establish a~~ **may provide that** mediation mechanism to ~~cover~~ **mechanisms are available in** cases in which ~~there is no mutual~~ **no** agreement **has been reached with a view to negotiating a mutually acceptable** ~~to conclude a~~ contract referred to in paragraphs 1 and 2 or ~~to revise~~ **revision of** such a contract.

Member States shall inform the Commission of the mediation mechanisms ~~established~~ **available** in their territory.

4. The contract or the offer for a contract referred to in paragraphs 1 and 2 shall:

- (a) be made in advance of the delivery,
- (b) be made in writing, and
- (c) include, in particular, the following elements:
 - (i) the price payable for the delivery, which shall:
 - be static and set out in the contract; or
 - be calculated by combining various factors set out in the contract, which shall include objective indicators, indices or methods of calculation of the final price, that are easily accessible and comprehensible and that reflect changes in market conditions and ***changes in relevant elements of*** production costs, the quantities delivered and the quality or composition of the milk and milk products delivered. To that effect, Member States may determine indicators, in accordance with objective criteria based on studies carried out on production and the food supply chain. The parties to the contracts shall be free to refer to these indicators or any other indicators;
 - (ii) the volume of raw milk or the quality and quantity of milk or milk products to be delivered, and the timing of such deliveries;
 - (iii) the duration of the contract, which may include a definite duration or an indefinite duration with a termination clause. In the case of a contract with a minimum duration longer than ~~six~~**twelve** months, the contract shall include a revision clause that may be triggered by the farmer, ***including a farmers' association, or*** a producer organisation or an association of producer organisations;
 - (iv) details regarding payment periods and procedures;

- (v) arrangements for collecting or delivering milk or milk products; and
 - (vi) rules applicable in the event of force majeure.
5. By way of derogation from paragraphs 1 and 2, a written contract or a written offer for a contract shall not be required in the following cases:
- (a) the milk or the milk products concerned are delivered by a member of a producer organisation or cooperative to the producer organisation or cooperative of which it is a member provided that the statutes of that producer organisation or cooperative or the rules and decisions provided for in, or derived from, these statutes ~~contain provisions having~~ **have** similar effects ~~to~~ **in terms of predictability, transparency and price transmission, as** the provisions set out in paragraph 4;
 - ~~(b) the first purchaser of milk or milk products is a micro or small-sized enterprise within the meaning of Recommendation 2003/361/EC¹;~~
 - ~~(c) the delivery and the payment for the milk or milk products take place simultaneously;~~
 - (d) the delivery is made for free or in the context of the disposal of milk or milk products which are no longer fit for sale.
6. Member States may decide that a written contract or a written offer shall not be required in one or more of the following cases:
- ~~(-a) the first purchaser of milk or milk products is a micro or small-sized enterprise within the meaning of Recommendation 2003/361/EC¹;~~
 - (a) the **contract concerns a** delivery ~~concerns~~ **or deliveries of milk or milk** products of a value ~~equal to or below~~ **up to** a threshold to be determined by the Member State, which shall not exceed EUR ~~10 000~~ **20 000**;
 - ~~(aa) the conclusion of the contract and the payment for the milk or milk products take place at the time of delivery;~~

- (b) the delivery concerns milk or milk products that are subject to seasonal supply or demand fluctuations or perishability;
- (c) the delivery concerns milk or milk products that are subject to traditional or customary selling practices.

(ca) the delivery concerns milk or milk products for which the Member State considers, following consultation of relevant representatives of farmers or of interbranch organisations recognised in accordance with Article 163(1), that the effects of predictability, transparency and price transmission pursued by the provisions set out in paragraphs 1 and 4 have been achieved for the products concerned or that the obligation to have written contracts or written offers would not be appropriate or proportionate as regards these products for other justified reasons.

7. Where pursuant to paragraph 5, ~~points (b), (c) and~~ **point** (d), or paragraph 6, a written contract or a written offer for a contract is not required, a farmer, ***including a farmers' association, or*** a producer organisation, or an association of producer organisations may require that a delivery of milk or milk products be the subject of a written contract or of a written offer for a contract.
