NOTA¹

delle: delegazioni francese, tedesca, italiana e del Regno Unito e della Commissione europea

Oggetto: Iniziativa del G7 sulla standardizzazione e semplificazione delle procedure doganali

Introduzione

Nelle riunioni del 9 e 16 marzo 1999 il Gruppo ha accolto positivamente, sostenendola, l'iniziativa del G7 sulla standardizzazione e semplificazione delle procedure doganali e ha preso atto dei risultati dei negoziati condotti finora.

Obiettivo

Le delegazioni francese, tedesca, italiana e del Regno Unito e la Commissione europea invitano il **Gruppo "Problemi economici" (Unione doganale)** ad approvare i progressi fin qui compiuti a livello del G7 (vedi allegati 1, 2 e 3).

¹ Gli allegati sono trasmessi soltanto in inglese.

Introduzione

L'**allegato 1** (colonna IM) contiene l'elenco massimo dei dati che possono essere richiesti per merci "ordinarie" importate per l'immissione in consumo. Una parte di esso (**allegato 1**, colonna CR) contiene i dati che sono considerati necessari per decidere se le merci possano essere immesse in consumo con una procedura semplificata in due fasi.

Nell'**allegato 2** sono indicati gli elementi di informazione che devono essere inseriti in una dichiarazione sommaria per l'importazione.

Al fine di facilitare la valutazione di tali serie di dati (allegati 1 e 2), **nell'allegato 3** sono riportati tutti gli elementi di informazione che possono/devono essere richiesti attualmente (sia nel documento amministrativo unico, sia nella dichiarazione del valore in dogana DV 1) all'importazione per l'immissione in consumo secondo la normativa doganale attualmente vigente nella Comunità (procedura normale) ma che non sono contenuti nelle serie di dati di importazione del G7. La legenda relativa agli elenchi è riportata nell'**allegato 4**.

Prospettive

Il Gruppo tecnico del G7 intende **sviluppare i messaggi normalizzati** utilizzando gli standard EDIFACT delle Nazioni Unite sulla base dei dati di cui agli allegati 1 e 2. Questo lavoro sarà proseguito in via prioritaria e inizierà nella riunione del Gruppo tecnico del 17-21 maggio 1999. Proseguono le discussioni sulle serie di dati relativi alle esportazioni nonché sulle serie di dati relativi alle procedure di transito. Il Gruppo di lavoro del Consiglio sarà tenuto informato in modo esauriente degli ulteriori progressi compiuti.

Schema di lavoro

I risultati ottenuti a livello del G7 si basano sulle seguenti considerazioni:

1. Le serie di dati saranno utilizzate esclusivamente nel contesto di una nuova categoria di **procedure semplificate** che potranno essere utilizzate con **l'autorizzazione** delle competenti autorità.

2. Queste procedure si applicano soltanto a **merci "ordinarie"**, concetto che non è stato ancora completamente definito. Sono state finora generalmente considerate ordinarie le merci per le quali non sono richieste particolari informazioni (quali ad esempio talune merci oggetto di divieti e restrizioni), non sussistono rischi particolari di frode e non sono soggette a tipi speciali di sorveglianza (per esempio per motivi di politica commerciale).
3. L'obiettivo che si intende raggiungere è la compilazione di serie di dati per **dichiarazioni in dogana normalizzate** che le amministrazioni elaboreranno **elettronicamente**.
4. Scopo dell'operazione è che gli operatori trasmettano i dati alle amministrazioni **una sola volta**. Ad esempio l'amministrazione potrebbe ricorrere all'elaborazione elettronica dei dati per utilizzare i dati che sono stati forniti in una dichiarazione sommaria in dogana per sdoganare le merci ai fini dell'immissione in consumo.
5. Ciascuna serie di dati (vedi allegati 1 e 2) sarà trasposta in un **messaggio normalizzato elettronico** utilizzato da tutti gli Stati del G7.
6. Ciascuno Stato membro del G7 deciderà se e fino a che punto sia possibile **ridurre ulteriormente** i dati che devono essere indicati attualmente. Le serie di dati convenute rappresentano un elenco massimo; una quantità minore di dati è sempre consentita.
7. **Un'analisi del rischio** più approfondita, con il supporto del computer, corredata e/o integrata da un **controllo** rapido e selettivo, deve essere utilizzata per ridurre il volume dei dati che devono normalmente essere trasmessi dalle imprese ai fini delle dichiarazioni in dogana.
8. Quando sono effettuati i controlli (a caso o quando si sospettino irregolarità) le amministrazioni possono **in qualsiasi momento** richiedere **ulteriori particolari** (anche al di là delle serie massime di dati).
9. **Le altre procedure doganali**, comprese quelle semplificate, restano valide e possono **continuare ad essere applicate**.

Sec Code	Name	Definition	C	IM	Comments
	(UNTDE (UNTTED),... D)		R		
data elements					
a	1496 Goods item number	Serial [sequential] number differentiating each separate goods item entry of a consignment as contained in one document/declaration	C	C	SAD32
a	6048 Net net weight	Weight (mass) of the goods themselves without any packing	C	C	SAD38
a	6102 Supplementary quantity [Tariff quantity]	Number of units of measurement of the goods as required by customs to be expressed for tariff, statistical or fiscal purposes. This element may include a weight (mass), if different to that already specified elsewhere			
a	6292 Gross weight	Weight (mass) of goods including packing but excluding the carrier's equipment	C	C	SAD35
a	6411 Measure unit qualifier	Indication of the unit of measurement in which weight (mass), capacity, length, area, volume or other quantity is expressed	C	C	SAD47/2 p/o
a	7002 Description of goods	Plain language description of the nature of goods sufficient to identify them at the level required for banking, Customs, statistical or transport purposes, avoiding unnecessary detail (Generic term)[goods declaration]			
a	7065 Type of packages identification	Description of the form in which goods are presented, identification	C	C	SAD31 p/o
a	7102 Shipping marks	Marks and numbers identifying individual packages	C	C	SAD31 p/o
a	7124 UNDG Number [Dangerous Goods Code]	Unique serial number assigned within the United Nations to substances and articles contained in a list of the dangerous goods most commonly carried	C	C	SAD44 p/o
a	7224 Number of packages	Number of [packages per commodity code packed in such a way that they cannot be divided without first undoing the packing, where the goods are unpacked, enter the number of such goods covered by the Goods declaration, or the word bulk, as the...sgd33			
a	7282 Tariff code number (Customs)	Code number of the goods in accordance with the tariff nomenclature system of classification in use where the Customs declaration is made	C	C	SAD33/1-2

a	7370	Total number of packages	Total number of packages of the entire [declaration]/consignment	C	C	SAD06
a	9805	Additional tariff code numbers	Tariff line item beyond 10 digits	C	C	SAD33/1-5
b	1168	[deferred] payment reference	Reference or indication of the [deferred] payment/guarantee reference] of duty /tax [e.g. under a transit procedure]	C	C	SAD48/52 p/o
b	4391	Duty/tax payment method, coded	Method by which a duty or tax is paid to the relevant administration, coded	C	C	SAD47/6
b	5153	Duty/tax/fee type, coded	Type of duty or tax or fee applicable to commodities or of tax applicable to services, coded	C	C	SAD47/1
b	5278	Duty/tax/fee rate	Rate of duty or tax or fee applicable to commodities or of tax applicable to services	O	C	SAD47/3
b	5286	Duty/tax/fee assessment basis	Value or quantity on which a duty or tax will be assessed	C	C	SAD47/2 p/o
b	9213	Type of duty regime, coded	A statement of the full/preferential regime according to which duty is assessed, coded	C	C	SAD36
b	9807	Duty/tax/fee assessed	Amount of duty/tax/fee (includes all types of charges and duties) due [and amount of reduction (if applicable)] -assessed per duty/tax/fee type by item and/or declaration			
c	1001	Document/message name, coded	Document/message identifier expressed in code	C	C	SAD01/1-2-3
c	1004	Document/message number	Reference number assigned to the document/message by the issuer	C	C	SAD07
c	1426	Goods declaration number (Customs)	Number, assigned or accepted by Customs, to identify a goods declaration	C	C	SADA p/o
c	2007	Document date, coded	Date when the document is issued and-when appropriate-signed or otherwise authenticated (generic term), coded	C	C	SAD54 p/o
c	2037	Goods declaration acceptance date (Customs), coded	Date on which a goods declaration is accepted by Customs in accordance with Customs legislation [or intended date of goods declaration (in case of pre-filing)], coded			
c	4423	Nature of transaction, coded	An indication for Customs of the type of contract under which goods are supplied, coded	C	C	SAD24
c	4426	Authentication	Proof that a document has been signed or otherwise authenticated, indicating-when appropriate-the status of the party signing or authenticating it	C	C	SAD50 p/o SAD54 p/o SAD D p/o
c	9033	Previous customs procedure, coded	Customs procedure, if any, which has been applied to the goods prior to the application of a different Customs procedure, coded

f	8130	Container status	Indication whether containers and other similar unit load devices are empty or carry one or more consignments	C	
f	8250	Identification of means of transport at departure/arrival	Identification of the means of transport used at the time of presentation of the consignment to a Customs office in the context of a goods declaration	C	SAD18 td p/o
f	8260	Equipment identification number	Marks (letters and/or numbers) which identify equipment e.g. unit load device	C	SAD31 p/o
f	8262	Container identifier qualifier	Code indicating whether a container is marked (letters and/or numbers) in accordance with ISO 6346 or some other system, to enable the correct validation routine to be operated	C	SAD31 p/o
f	8270	Identification of active means of transport crossing the border [of the customs territory]	Identification of the active means of transport used in crossing the border [of the customs territory] of the country of dispatch/export or the country of final destination	C	SAD21 td p/o

f	8453	Nationality of [arriving] means of transport, coded	Name of the country in which a means of transport is registered, coded	C	SAD18 nat
f	9308	Seal number	The number of a custom seal or another seal affixed to the containers or other transport unit	C	SAD31 SAD D p/o
f	9874	Nationality of means of transport crossing the border of customs territory, coded	Name of the country in which a means of transport crossing the border of customs territory is registered, coded	C	SAD21 nat
f	9943	Transponder Number	The number of a transponder for a radio identification of the means of transport	O	
f	9945	Mode/type of means of transport crossing the border of customs territory, coded	Means and method of transport used for the carriage of the goods, coded	C	SAD25 SAD21 id p/o
g	5032	Customs value	Value declared for Customs purposes of those goods in a consignment which are subject to the same Customs procedure, an have the same tariff/statistical heading, country and duty regime	O	SAD47/2 p/o

BOX References in the SAD	DATA ELEMENTS	COMMENTS	UNTDE D Nr
3	Forms	This is a data element which is not relevant in a computerised environment.	
4	Loading list	This is a data element which is not relevant in a computerised environment.	9801
5	Nr of items	This element can be derived automatically by the computer system.	9802
9	Person responsible for financial settlement	This element is not mentioned in the dataset; It is considered for abolition in the context of the SAD reform.	
10	Country of last consignment	This element is not mentioned as such in the dataset but can be deducted from the data in box 29; The Commission proposed to abolish it in the context of the SAD reform.	3331
11	Trading country	This element is not mentioned in the dataset; The Commission proposed to abolish it in the context of the SAD reform.	

12	Value details	This element is not mentioned in the dataset; Its use varies considerably on the SAD; It may contain the reference to the authorisation linked with the application of Article 179,3 of Reg 2454/93. (Waiver of the use of the DV1 in case of continued traffic in goods between same seller and buyer under the same conditions).	
13	PAC	This element is not mentioned in the dataset; The SAD committee is considering the collection of this information in another box of the SAD (Box 33) .	
15	Country consigned whence	This element exists in coded form (under UNTDED Nr 3221); The removal of non-coded references for countries is consistent with the reform of the SAD.	3220
16	Country of origin	This element is not mentioned as such in the dataset but exists in coded form (under UNTDED Nr 3239); The removal of non-coded references for countries is consistent with the reform of the SAD.	
17	Country of destination	The content of this element can be found elsewhere in the dataset in a coded form (as part of UNTDED Nr 9853 (destination of goods)); The removal of non-coded references for countries is consistent with the reform of the SAD.	3216

19	Container	In a computer environment, this element can be derived by the system from SAD box 31 (UNTDDED Nr 8260 (Equipment identification number)).	4140
20/3	Delivery terms - Others (Places situated outside the Community)	This element is not mentioned in the dataset; it is currently under scrutiny in the context of the SAD reform exercise. It can be argued that it constitutes a repetition of the data already collected in the 2nd subdivision of box 20 (Incoterm place, under UNTDED Nr 3019), which completes UNTDED Nr 4111 (1st subdivision of box 20).	
23	Exchange rate	This element is still under discussion; It is also under scrutiny in the framework of the SAD reform exercise. In a computer environment, it can be argued that this element can be generated automatically by the system that can store the exchange rates centrally.	5402
28	Financial and banking data	This element is not mentioned in the dataset; The Commission proposed to abolish this element in the context of the SAD reform. Discussions in the SAD committee have already shown that this box does no longer contain the data which it was originally designed to accommodate.	
31 (Part of)	Part of box 31 where particulars are required by specific legislations (VAT, excise ...)	This element is not mentioned as such in the dataset. However, the substance of the mentions concerned is likely to be largely coded in box 33, 5th subdivision of the SAD (National tariff additional codes), present in the dataset under UNTDED Nr 9805 (Additional tariff code numbers).	

39	Quotas	This element is not mentioned as such in the dataset; The Commission proposed to abolish it in the context of the SAD reform because it can generally be derived from other data elements of the declaration.	
44	Additional information	The only mention in that respect in the dataset refers to the United Nations dangerous goods code; However, it is likely that most of the cases where that information would be required would feature non-ordinary goods, which fall outside the scope of the G7 exercise.	
45	Adjustment	This valuation data element is not mentioned in the dataset because it is deemed to be obtainable via subsequent audits. However, this issue is still under discussion.	
54	Place of issue	This element is not included per se in the dataset because, in an electronic environment, this information can be automatically generated by the system, as part of the message. However, this issue is still under discussion.	3410
54	Name of declarant or of his representative	This element is not specifically included in the dataset because, in an electronic environment, this information can be automatically generated by the system, as part of the message.	

BOX references in the DV1	DATA ELEMENT	COMMENTS	UNTTED Nr
5	Number and date of contract	This element could be obtained via subsequent controls/audits	
6	Number and date of any previous Customs decision concerning boxes 7 to 9 (relationship, restrictions, royalties ...)	This element is available in customs records	
7b	Price influence	This element will be included in a later version of the datasets and would suffice to initiate audit controls, if necessary.	9893 9941
7c	Comparative value test	This optional element on the DV1 can currently be provided by the trader but merely indicates that he wants to file additional information to customs.	
8a	Existence of restrictions	This element could be obtained via subsequent controls/audits	
8b	Existence of a condition that would affect value	This element could be obtained via subsequent controls/audits	

8	Nature of the conditions or restrictions	This element could be obtained via subsequent controls/audits	
9a	Royalties and license fees	This element will be included in a later version of the datasets and would suffice to initiate audit controls, if necessary.	9894
9b	Proceeds	This element will be included in a later version of the datasets and would suffice to initiate audit controls, if necessary.	9896
9	Specification of conditions to royalties and proceeds	This element would have to be obtained via subsequent audits/controls on the basis of the information collected in boxes 9a and 9b of the DV1	
10a	Number of continuation sheets	This is a data element which is not relevant in a computerised environment.	
10b	Place and date of establishment, and signature	This element is not included per se in the dataset because, in an electronic environment, this information can be automatically generated by the system, as part of the message.	3410
11b	Indirect payments	This element could be obtained via subsequent controls/audits	
12	Total DV1 A section	This element is merely an addition of other elements.	

13a	Commissions	This element will be included in a later version of the datasets and would suffice to initiate audit controls, if necessary.	9897
13b	Brokerage	This element could be obtained via subsequent controls/audits	
13c	Containers and packing	This element could be obtained via subsequent controls/audits	
14	Assists	This element will be included in a later version of the datasets and would suffice to initiate audit controls, if necessary.	9895
15	Royalties and license fees	The dataset contains an indicator (9894) of this element which should suffice to initiate audit controls, if necessary.	
16	Proceeds of subsequent resale, disposal or use	The dataset contains an indicator (9896) of this element which should suffice to initiate audit controls, if necessary.	
18	Total DV1 B section	This element is merely an addition of other elements.	
19	Costs of transport after arrival at place of introduction	This element could be obtained via subsequent controls/audits	

20	Charges for construction, erection, assembly, ... (Post import)	This element could be obtained via subsequent controls/audits	
21	Other charges	This element could be obtained via subsequent controls/audits	
22	Customs duties and taxes payable in the Community by reason of importation or sale	This element could be obtained via subsequent controls/audits	
23	Total DV1 C section	This element is merely an addition of other elements.	

G7 data base legend

Legend for all documents „G7 data base ...“.

All Excel-documents are written in Excel Version 7.0.

The understructure of the G7 data base is the United Nations Trade Data Elements Directory 1993. Adjustments to younger versions of the UNTDED are not intended.

- Sec - section of data elements
- a - commodity/shipment identifiers
- b - duty/tax calculation
- c - general
- d - country/place/location
- e - persons parties
- f - transport information
- g - value/commercial transaction information

G7 data base X.X:

- C - core data element in use
- O - optional data element in use
- ? - use of this data element is still to be discussed (former „bracketed“)

Code - Code for used data elements, usually UNTDED

Name - Name of used data elements, usually UNTDED
(Amendments bracketed „ [] “)

Definition - Definition of used data element, usually UNTDED
(Amendments bracketed „ [] “, eventually original UNTDED underlined, underlined passages not valid any more)

- CRI - cargo report import
- CR - cargo release import
- IM - import
- TR - transit
- CRE - cargo report export
- EX - export

- UK - United Kingdom
- F - France
- I - Italy
- G - Germany
- C - Canada
- J - Japan
- US - United States of America

Comments in G7 data base X.X:

- # Definition required from the named country(ies)
- SAD Single Administrative Document
- Q to be discussed because of questions of the named country(ies)
- coded refers to a coded version
- uncoded refers to an uncoded version
- AP refers to an Action Point
