Anti money laundering

Statement by Hungary

"Money laundering and terrorist financing is a global challenge, and thus requires the wide-ranging cooperation of all stakeholders. In this light Hungary welcome the AML/CFT package presented by the Commission in May 2020, in response to conclusions of the Ecofin Council in December 2020. The Commission's proposal has several important elements which would strengthen the international role of EU in combating money laundering and terrorist financing.

In particular, thanks to the new methodology on selecting third countries that could present increased money laundering and/or terrorist financing risks to the EU, it would be possible to further enhance the capacities and efficiency of the potentially risky third countries in a cooperative manner, as a result of the consultations and action plans foreseen in the methodology."
