Resolution of the Council of the European Union and the representatives of the Governments of the  
Member States meeting within the Council on the revision of the  
EU Youth Strategy Work Plan 2022-2024

THE COUNCIL OF THE EUROPEAN UNION AND THE REPRESENTATIVES OF THE  
GOVERNMENTS OF THE MEMBER STATES MEETING WITHIN THE COUNCIL

RECALLING THAT

1. The Council Resolution on a framework for European cooperation in the youth field: The European Union Youth Strategy 2019-2027, invites the Member States and the European Commission, within their respective fields of competences, to effectively implement the EU Youth Strategy across the EU and in the Member States with specific instruments, including the EU Work Plans for Youth.
2. The EU Youth Strategy follows triennial working periods that spans two presidency trios. The priorities and actions for the respective working periods are presented in the EU Work Plans for Youth. These plans should draw on the guiding principles and priorities of this Strategy, addressing youth issues in other Council configurations and preparatory bodies in relevant policy areas.
3. The EU Work Plan is an instrument that works as a compass and guides Member States, the Commission and all stakeholders towards achieving the objectives of the EU Youth Strategy.
4. The priorities and actions presented in the triennial work programme are to be revised during the first half of 2023 with a view to its approval by the Council and the Member States meeting within the Council by the end of June 2023.

## TAKE NOTE THAT

5. The Council sets these EU Work Plans based on preliminary information received by the trio-presidencies from the following countries: France, Czech Republic and Sweden, as well as Spain, Belgium and Hungary.
6. The Commission can support and complement actions by Member States set out in this Work Plan, in particular by encouraging cooperation, supporting the mobility of young people and youth workers, and encouraging the participation of young people in democratic life. The tools developed to support the implementation of the EU Youth Strategy can be mobilised as appropriate: these include the EU Youth Dialogue, the EU Youth Strategy Platform, the European Youth Portal, the EU Youth Coordinator and mutual learning activities (expert groups, peer learning activities (PLAs) and peer counselling). This is underpinned by regular updates to the Future National Activity Planners, the Youth Wiki, youth indicators, surveys, studies and research. The support is further reinforced through partnerships and cooperation with other international organisations, in particular the Council of Europe, and through programmes in the field of youth (in particular Erasmus+ and the European Solidarity Corps).
7. A particular highlight of this Work Plan is the European Year of Youth 2022 (EYY). Its outcomes and legacy will be maintained, promoted and reinforced since the evaluation of the EYY will be used in order to enhance and strengthen the Plan in the future. It will further stimulate young people to come forward with contributions to shape the Union's development and society at large, including as part of the Conference of the Future of Europe and the New European Bauhaus initiative. It will raise awareness of the opportunities for young people as well as the support provided for them at the EU, national, regional and local levels.
