	CLEAN Commission Proposal	VS.EC EP Mandate	VS.EC Council Mandate	VS.EC Draft Agreement
15a		<i><u>(4a) There is an increasing need for regular, systematic and harmonised collection of socio-economic data for statistical purposes in the fisheries and aquaculture sectors, in order to support robust evidence-based policymaking, effective monitoring, and comprehensive evaluation, and to enable a genuine assessment of the situation in the fisheries and aquaculture sector.</u></i>		
Recital 4b				
15b		<i><u>(4b) This Regulation should improve data collection and improve coordination among the various administrative sources responsible for carrying out statistical work. It should also ensure that any new data requirements are strictly necessary and proportionate, and do not impose undue administrative burden or indirect costs, particularly on workers or operators, such as small-scale fishers and aquaculture producers, or local communities, especially in the outermost regions.</u></i>		

	CLEAN Commission Proposal	VS.EC EP Mandate	VS.EC Council Mandate	VS.EC Draft Agreement
Recital 4c				
15c		<u><i>(4c) Fisheries and aquaculture statistics should also enable the assessment of interactions between fisheries and aquaculture activities and marine ecosystems. Integrating environmental parameters into this Regulation will support the knowledge on the implementation of the ecosystem-based approach and improve coherence between the CFP legal framework and Union environmental legislation, including Directive 2008/56/EC establishing a framework for community action in the field of marine environmental policy.</i></u>

Aquaculture production excluding hatcheries and nurseries The data shall cover the weight and monetary value of the aquaculture production for consumption <u>or for various segments of bioeconomy</u> .	Aquaculture products excluding eggs <u>and algae</u> The data shall cover the weight and value of aquatic organisms, by species, at first sale, reported in live weight equivalent of unprocessed production, split by environment and production method. The data shall exclude aquaculture eggs.	Annual	Calendar year	<u>Applicable</u>	Applicable	Applicable
	Aquaculture eggs <u>(roe)</u> The data shall cover the weight and value of aquaculture eggs <u>for human consumption</u> , by species, at first sale, reported in fresh weight equivalent of			<u>Applicable</u>		Applicable

the unprocessed production, split by environment.					
<u>Algae aquaculture</u> The data shall cover the weight of aquatic organisms, by species, at harvesting, reported in dry weight equivalent of unprocessed production, split by environment and production method.	<u>Annual</u>	<u>Calendar year</u>		<u>Applicable</u>	<u>Applicable</u>
<u>Aquafeed aquaculture</u> The data shall cover aquafeed used in aquaculture, including, where available, information on volumes.	<u>Annual</u>	<u>Calendar year</u>			<u>Applicable</u>

Flows in aquaculture The data shall cover the aquaculture flows not for consumption.	Capture-based aquaculture The data shall cover the weight and value of catches from the wild, by species, for on-growing in aquaculture establishments.	Annual	Calendar year		
	Products from hatcheries and nurseries The data shall cover the production of hatcheries and nurseries, by species, in number produced and sold for on-growing or produced with the intention to be released to the wild, split by destination of use and stage in the life cycle. The data shall cover the monetary value of the production from hatcheries and nurseries, by species, at first sale,				

	for on-growing, split by destination of use and stage in the life cycle.				
Aquaculture establishments The data shall cover the structure of aquaculture establishments.	Establishments The data shall cover the number and measurements of aquaculture establishments, split according to Table 11 in Commission Delegated Decision (EU) 2021/1167 <sup>1</sup> .	Every second year	Calendar year		<p><b>Applicable</b></p> <p>1. Commission Delegated Decision (EU) 2021/1167 of 27 April 2021 establishing the multiannual Union programme for the collection and management of biological, environmental, technical and socioeconomic data in the fisheries and aquaculture sectors from 2022 C/2021/2797 (OJ L 253, 16.7.2021, p. 51–90).</p>
