**Statement by Romania**

Romania understands the intention of the European Commission to preserve the efficacy of the European citizens' initiative instrument during this pandemic and to provide reassurance and legal clarity to the organizers of initiatives with the collection, verification or examination still ongoing.

Romania considers that in this difficult situation there is a need to have a clear and sound policy applying to the European Citizens' Initiative, in order to preserve their important character of participative democracy and ensuring that the voice of European citizens can be heard.

Romania will not oppose, in the spirit of compromise, the proposal of the European Commission, but considers that some of the provisions do not provide legal certainty and equal treatment for the ECI. Romania considers that the most problematic is the application of the provisions that extend the collection period, which is unclear and could lead to discrimination between ECIs, especially in the case of those which finalized their collection period between 11 March and 11 September. Since the legal text provides the same extension for the collection of signatures without adapting it on a case by case basis, depending on the time elapsed in each case, such an approach will result in an unequal treatment between these ECI.

Romania's position is that, even in exceptional circumstances, a legal act needs to be legally sound and ensure fair and equal treatment to all that are impacted by it.
