'I' ITEM NOTE

From: General Secretariat of the Council
To: Permanent Representatives Committee (Part 2)
Subject: Proposal for a Regulation of the European Parliament and of the Council on establishing the Programme for agile and rapid defence innovation (AGILE):
- Mandate for negotiations with the European Parliament

INTRODUCTION

1. On 26 March 2026, the Commission submitted a proposal for a Regulation on establishing the Programme for agile and rapid defence innovation (AGILE)¹. That proposal aims to create a fast, flexible and mission-driven EU instrument to accelerate disruptive defence innovation and rapidly deliver solutions that respond to urgent defence and security needs identified by Member States.
2. The draft Regulation is based on Article 173(3) of the Treaty on the Functioning of the European Union.

¹ Document 7716/26.

3. In the European Parliament, the Committees on Industry, Research and Energy (ITRE) and Security and Defence (SEDE) have joint responsibility for the file. MEPs Ivars IJABS (for ITRE) and Tonino PICULA (for SEDE) were appointed co-rapporteurs on 23 April 2026. The Committee on Budgets (BUDG) decided not to give an opinion.
4. The European Economic and Social Committee delivered its opinion² on 29 April 2026.

WORK IN THE COUNCIL

5. The Defence Industry Working Party (DIWP) examined the proposal on five occasions during the months of March, April and May. On 22 May 2026, the DIWP reached an agreement on the text set out in WK 6050/26 REV2.

CONCLUSION

6. In light of the above, the Permanent Representatives Committee is invited to confirm agreement on the text set out in the annex to this note³ and to grant, on this basis, a mandate for negotiations with the European Parliament.
7. In accordance with the approach to legislative transparency endorsed by Coreper on 14 July 2020⁴, and in full consistency with Regulation (EC) 1049/2001 and the Council's Rules of Procedure, the text of the mandate thus agreed will be made public unless the Permanent Representatives Committee objects.

² Document 8952/26.

³ Changes compared to the Commission proposal are marked in **bold** and deletions in ~~strike through~~.

⁴ Document 9493/20.

2026/0078 (COD)

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
on establishing the Programme for agile and rapid defence innovation (AGILE) and
amending Regulation (EU) 204/795

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 173(3), thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee⁵,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) The return of high-intensity warfare brought about by Russia's unprovoked and unjustified war of aggression against Ukraine constitutes ~~an existential challenge for a~~ **threat to the** Union, which requires a significant and lasting increase in the capacity of Member States to reinforce their defence capabilities and readiness. The ~~long-term deterioration~~ **necessary strengthening** of regional and global security requires an in-depth transformation of the

⁵ OJ C , , p. .

European Defence Technological and Industrial Base (EDTIB) to ensure its ability to deliver innovative defence products, **including technologies**, required by Member States' armed forces in scale and time, in particular in times of war.

- (2) ~~The Member States, in~~ The Heads of State or Government of the Union meeting in Versailles on 11 March 2022, committed to bolster European defence capabilities and to increase their defence expenditure, step up cooperation through joint projects and common procurement of defence capabilities, close shortfalls, boost innovation and strengthen and develop the European defence industry.
- (3) Innovation is critical to achieve and support Europe's defence readiness, particularly in today's era of intensifying threats, systemic competition, and geopolitical rivalries. The proliferation of threats has sparked an international arms race and a global technological competition, with emerging and disruptive technologies in fields such as AI, quantum, robotics, cyber and space, playing a decisive role in maintaining strategic advantage and ensuring credible deterrence. Achieving this requires rapid testing, validation and integration of these technologies into defence capabilities, as well as continuous engagement with the technology and innovation ecosystem.
- (4) ~~The war in~~ **Russia's war of aggression against** Ukraine shows how rapidly defence technologies are evolving. Innovation cycles are becoming faster, which means defence products must adapt rapidly **and continuously**. These changes are also reshaping battlefield dynamics. **Small and medium-sized enterprises ('SMEs')** SMEs, including innovative startups and ~~scale-ups~~ **scale-ups**, often with an ~~important~~ **important** civilian background, play a key role in supporting Ukraine's defence and armed forces. ~~These~~ **Those** new defence actors bring faster innovation, greater flexibility, cost-efficient solutions, and new operational ideas and processes. As a result, they are becoming a ~~major~~ driving force in transforming the EDTIB. **The Joint White Paper of the Commission and of the High Representative of the Union for Foreign Affairs and Security Policy of 19 March 2025 for European Defence – Readiness 2030** highlights the importance of a strong technological innovation ecosystem. This is essential to ensure that Europe's defence industry can keep pace with the rapidly changing nature of modern warfare.

- (5) To provide comprehensive support for the collaborative research and development (R&D) of defence products and technologies, the Union has established the European Defence Fund (EDF). With a budget of EUR 7.3 billion under the 2021-2027 ~~MFF~~ **Multiannual Financial Framework**, the EDF aims to promote the competitiveness, **cooperation**, efficiency and innovation capacity of the EDTIB, as well as reducing fragmentation within the EDTIB. As one of the largest defence R&D programmes in Europe, the EDF supports the collaborative development of the most complex defence systems that no Member State could afford to develop alone. It also supports the development of new European defence supply chains. As part of the EDF, the EU Defence Innovation Scheme (EUDIS) was established in 2022, to provide targeted support to non-traditional defence actors, particularly SMEs and start-ups, and to lower barriers to market entry. The EUDIS involves several initiatives, such as targeted R&D calls, business acceleration and matchmaking services, hackathons, and equity financing, accounting for around 20% of the EDF budget committed each year. These actions have significantly contributed to expanding the EDTIB and fostering defence innovation capacity across the Union. In addition, the EDF BraveTech EU initiative provides further support for defence innovators, offering them gradual access to funding alongside technology testing and iterative development cycles. It focuses on developing solutions based on defence needs identified by Ukraine, giving Ukrainian industry a direct opportunity to collaborate with ~~EU~~ **Union** defence innovators.
- (6) ~~Regulations~~ **Regulation (EU) 2021/695 and of the European Parliament and of the Council⁶ and Regulation (EU) 2024/795– of the European Parliament and of the Council⁷** enable the European Innovation Council (EIC) Accelerator to support dual-use technologies and stimulate investment in defence technologies under the Strategic

⁶ Regulation (EU) 2021/695 of the European Parliament and of the Council of 28 April 2021 establishing Horizon Europe – the Framework Programme for Research and Innovation, laying down its rules for participation and dissemination, and repealing Regulations (EU) No 1290/2013 and (EU) No 1291/2013 (OJ L 170, 12.5.2021, pp. 1–68, ELI: <http://data.europa.eu/eli/reg/2021/695/oj>).

⁷ Regulation (EU) 2024/795 of the European Parliament and of the Council of 29 February 2024 establishing the Strategic Technologies for Europe Platform (STEP), and amending Directive 2003/87/EC and Regulations (EU) 2021/1058, (EU) 2021/1056, (EU) 2021/1057, (EU) No 1303/2013, (EU) No 223/2014, (EU) 2021/1060, (EU) 2021/523, (EU) 2021/695, (EU) 2021/697 and (EU) 2021/241 (OJ L, 2024/795, 29.2.2024, ELI: <http://data.europa.eu/eli/reg/2024/795/oj>).

Technologies for Europe Platform (STEP). In addition, this Regulation allows for EIC direct support to defence technologies in the form of direct equity financing.

- (6a) **Regulation (EU) 2025/2653 of the European Parliament and of the Council⁸ introduced defence technologies as a fourth area of investment under STEP, alongside health, digital, and clean technologies. Regulation (EU) 2024/795 provides for the award of a Sovereignty Seal to projects that comply with the minimum quality requirements set out in the programmes listed in that Regulation. The Sovereignty Seal is to be used as a quality label that offers the possibility of receiving funding under other Union programmes, whether total, cumulative or combined, or from Member States. For projects that comply with minimum quality requirements included in this Regulation to be eligible for a Sovereignty Seal, Regulation (EU) 2024/795 must be amended to include this Regulation on the list of eligible programmes.**
- (7) Regulation (EU) 2025/2653⁹ has also introduced targeted changes to Regulation (EU) 2021/697¹⁰ of the European Parliament and of the Council¹¹, particularly with regards to the actions on disruptive technology for defence. Specifically, those changes provide the possibility to define in the work programme the most appropriate forms of selection and award criteria and procedures for each call for project proposals. In addition, Regulation (EU) [reference of defence readiness omnibus], has introduced further amendments to

⁸ **Regulation (EU) 2025/2653 of the European Parliament and of the Council of 19 December 2025 amending Regulations (EU) 2021/694, (EU) 2021/695, (EU) 2021/697, (EU) 2021/1153 and (EU) 2024/795, as regards incentivising defence-related investment in the EU budget to implement the ReArm Europe Plan (OJ L, 2025/2653, 22.12.2025, ELI: <http://data.europa.eu/eli/reg/2025/2653/oj>).**

⁹ ~~Regulation (EU) 2025/2653 of the European Parliament and of the Council of 19 December 2025 amending Regulations (EU) 2021/694, (EU) 2021/695, (EU) 2021/697, (EU) 2021/1153 and (EU) 2024/795, as regards incentivising defence-related investment in the EU budget to implement the ReArm Europe Plan (OJ L, 2025/2653, 22.12.2025, ELI: <http://data.europa.eu/eli/reg/2025/2653/oj>).~~

¹⁰ ~~Regulation (EU) 2021/697 of the European Parliament and of the Council of 29 April 2021 establishing the European Defence Fund and repealing Regulation (EU) 2018/1092 (OJ L 170, 12.5.2021, pp. 149–177, ELI: <http://data.europa.eu/eli/reg/2021/697/oj>).~~

¹¹ **Regulation (EU) 2021/697 of the European Parliament and of the Council of 29 April 2021 establishing the European Defence Fund and repealing Regulation (EU) 2018/1092 (OJ L 170, 12.5.2021, pp. 149–177, ELI: <http://data.europa.eu/eli/reg/2021/697/oj>).**

Regulation (EU) 2021/697, expanding this possibility to cover all calls launched under the European Defence Fund, particularly those aimed at SMEs.

- (8) In addition to those substantial efforts, a new programme should be established (the ~~AGILE~~ 'Programme') to provide rapid, agile and targeted support to SMEs, ~~including innovative start-ups and scaleups~~ insofar as they meet the requirements of the SME definition, to develop innovative defence solutions. The Programme should focus on supporting the development of emerging and disruptive **defence products and technologies for defence** up to a high technology readiness level, including the adaptation of civil technologies for defence applications, ~~to~~. **The Programme should also** address the most urgent capability development needs of Member States and associated ~~third~~ countries, **taking into consideration the capability priorities identified in the context of the CFSP and the priority capability areas identified at Union-level, as well as NATO standards and other relevant standards**, with a particular focus on low cost defence solutions.
- (9) In order to ensure the efficient implementation of the ~~EU~~ **Union** budget, the ~~AGILE~~ Programme will be fully complementary to existing ~~EU~~ **Union** instruments supporting defence innovation. EUDIS supports non-traditional defence actors within the broader EDF framework, including R&D grants for consortia and other support actions targeting single entities, ~~such as (Business Accelerator, and Matchmaking)~~. **The Hub for EU Defence Innovation (HEDI)**, managed by the European Defence Agency (EDA), fosters cooperation among Member States on defence innovation. **HEDI helps to connect innovation support at Union level to commonly identified capability needs by structuring innovation activities around operational requirements and by linking promising solutions to testing, experimentation, user engagement and potential pathways towards uptake. Through this approach, HEDI contributes to ensuring that defence innovation support is not only responding to emerging technologies, but is also anchored in military relevance and practical uptake perspective.** The EIC is a key EU innovation programme to identify, develop and scale up breakthrough technologies and disruptive innovation. Following the adoption of Regulation (EU) 2025/2653, the EIC STEP Scale Up Scheme will provide direct equity financing to help defence and dual use companies to scale up their innovations. AGILE fills a distinct gap, as it will offer streamlined, direct support to individual SMEs, ~~including innovative startups and scaleups~~, for the development of innovative solutions and its uptake by Member States and industry,

with very short award timelines and a clear link to the capability needs of Member States. It should therefore enable the Union to pilot new approaches to ~~supporting~~**support** defence innovation, while complementing existing ~~EU~~**Union** instruments across various maturity levels, consortium sizes, timeframes and technological domains. The rapid evolution of defence threats requires a shift towards a more flexible approach to enable innovative companies, **in particular** ~~(particularly SMEs, including innovative startups and scaleups)~~ to respond quickly to identified capability challenges. The Programme should therefore prioritise challenge-based innovation activities with rapid iteration cycles, directly linked to Member States' priority operational requirements.

- (10) In particular, the Programme should seek to significantly accelerate the innovation cycles of defence products and technologies with high disruptive potential, ~~expected to~~ **including those not yet available on the market, with a view to ensuring that they are fully exploitable and ready for use by end users,** within ~~the next 1 to 3~~**one to three** years. It should offer innovators the greatest possible flexibility to propose novel solutions, including ~~from~~**when acting as** single legal entities, while allowing for subcontracting of specific tasks or collaboration with other entities during implementation.
- (11) However, the persistent structural challenge for European defence SMEs, ~~including innovative startups and scaleups,~~ is the gap between successful innovation and operational deployment by the armed forces of Member States and associated third countries. To address that gap, the Programme should align with the genuine and prioritised defence needs of Member States and associated third countries. ~~By~~**In** doing so, it should support the uptake of innovation solutions by their armed forces and defence industry, particularly prime contractors and first-tier subcontractors. The Programme should establish a fast-track process to enable the Union to support the testing and deployment of innovative support mechanisms that address the most urgent defence readiness requirements, including in support of ~~European Readiness Flagships~~**the priority capability areas identified at Union level. That support is without prejudice to Member States' competences in the field of defence procurement.**
- (12) To ~~this~~**that** end, the Programme should support activities involving field testing, experimentation and demonstrations, **including by drawing on the ongoing work of the EDA, where appropriate.** These activities should allow entities to validate innovative solutions in realistic operational conditions, generating real-time feedback that can be used

to refine and improve the solutions through an iterative process. The active involvement of Member States is crucial at every stage of this process, from setting up testing requirements to assessing demonstrated capabilities. This will help create credible demand signals and facilitate subsequent procurement decisions. Additionally, the Programme can support the uptake of new technologies and products by aggregating demand, and using innovative procurement mechanisms, such as innovation partnerships. Shared platforms and services can also be developed to address the common operational needs of multiple end users.

- (13) Space-based capabilities have become indispensable enablers of modern defence and security operations, providing critical functions including intelligence, surveillance and reconnaissance, secure communications, positioning, navigation and timing, and early warning. Moreover, the increasing reliance of armed forces on space-based assets, combined with the growing vulnerability of space infrastructure to threats, make the resilience and responsiveness of the European space sector a strategic priority. ~~Space is identified in the White Paper for European Defence — Readiness 2030 as a key strategic enabler within the priority capability areas established by the EU and its Member States, and the Defence Readiness Roadmap proposes a European Space Shield as a potential flagship initiative.~~ The dual-use nature of space technologies and services means that innovation in the space sector has direct and immediate implications for defence capabilities, and that defence-driven demand can accelerate the development and commercialisation of European space technologies. The Programme should therefore support the development of innovative space-based and space-enabled defence capabilities, by including new entrants and non-traditional actors, to enhance the Union's strategic autonomy in space and strengthen the EDTIB. This includes contributing to the development of a future Earth Observation Governmental Service (EOGS) with autonomous, resilient and defence-grade earth observation capabilities. The Programme should also support activities in the space domain to accelerate the uptake of space-based defence capabilities by Member States, and, by the ~~EU~~**Union**, in line with the Space Programme, the Secure Connectivity Programme or as regards the activities of the EU Satellite Centre (SatCen), while ensuring consistency with the relevant Union space-related initiatives.
- (14) **In order** to ensure uniform conditions for ~~implementing~~**the implementation** of this Regulation, implementing powers should be conferred on the Commission for the adoption

which provides for the implementation of the programmes on the basis of a decision adopted under that Agreement. Ukraine should also be able to participate in the Programme as an associated country, in line with the EU-Ukraine association agreement.

- (17) As the ~~AGILE~~ Programme aims to support the innovation capacity of the Union's defence industry, only legal entities ~~which~~**that** are established in the ~~EU~~**Union** or in associated third countries and are not subject to control by non-associated third countries or by non-associated third-country entities should be eligible for support. Additionally, to protect the essential security and defence interests of the Union and its Member States, the infrastructure, facilities, assets and resources of the recipients and subcontractors involved in an action supported by the Programme should be located on the territory of a Member State or of an associated third country for the entire duration of an action, and the recipients should have their executive management structures **located** in the ~~EU~~**Union** or in an associated third country. To safeguard ~~these~~**those** essential security and defence interests, those eligibility criteria should also apply to funding provided through procurement.
- (18) The interim evaluation of the ~~European Defence Fund (EDF)~~**EDF** has shown that the administrative burden and time required to provide guarantees when ~~an EU-established~~**a recipient established in the Union** is controlled by a non-associated third country or **by a non-associated third country** entity are incompatible with the speed and flexibility necessary for effective programme implementation. To address this challenge and **to** facilitate the swift implementation of the Programme, derogations from the principle that recipients must not be controlled by entities established outside the ~~EU~~**or Union or outside the** associated countries should not be permitted. Practice from previous defence industry programmes also indicates that the provision of guarantees results in additional procedural complexity and longer evaluation periods, while removing this exception ~~is~~**would be** unlikely to significantly affect the number of eligible entities.
- (19) To ensure Member States' ~~armed forces~~ can benefit from cutting-edge technologies and innovation, the Programme should be able to provide incentives to attract SMEs, ~~including innovative start-ups and scaleups,~~ established outside the ~~EU~~**Union** or associated third countries ~~but~~**that** have the potential to contribute significantly to the achievement of the Programme's objectives. ~~To this end, the work programme~~ **Any such Union financial**

~~support should be able to identify certain award procedures under which such SMEs may participate in the AGILE programme even if they do not yet meet the eligibility requirements relating to their establishment or the establishment of their executive management structure in the EU conditional upon the SME concerned being controlled by a Member State or an associated third country (inducement intervention). Under this approach, recipients would be granted a temporary and conditional waiver of such eligibility requirements, which they would have to comply with within the timeline specified in the legal commitment to receive Union support. The financial interests of the Union should be duly protected, and payments should only be made once the eligibility requirements have been fulfilled by the end of the waiver period or by an entity established in a Member State or in an associated third country, and upon that SME neither being established nor having its executive management structures located in Russia or in countries supporting Russia's war of aggression against Ukraine, taking into account the current context and, in particular, Russia's unprovoked and unjustified war of aggression against Ukraine.~~

- (19a) **To that end, in a limited number of cases, the work programme should be able to identify certain award procedures under which those SMEs could participate in the Programme even if they do not yet meet the eligibility criteria relating to their establishment or the establishment of their executive management structure in the EU or an associated third country. The mechanism, referred to in this Regulation as 'inducement intervention', consists of granting recipients a temporary and conditional suspension of that eligibility criterion, which they would have to comply with within the timeline specified in the legal commitment to receive Union support. The inducement intervention should remain without prejudice to the Programme's primary objective of supporting SMEs established in the Union or in associated third countries. Furthermore, financial support for the costs of the relocation of the establishment of those SMEs or of their executive management structures to the Union or to an associated third country can be provided. The financial interests of the Union should be duly protected, and payments should only be made once the eligibility criteria have been fulfilled by the end of the period specified in the legal commitment. To preserve the targeted and exceptional nature of that support, the work programme can provide ceilings for inducement interventions and the financial support to the cost of relocation both in terms of overall share of the financial**

envelope and in terms of total Union financial support granted to individual recipients.

- (20) To enable the inducement intervention to achieve its intended purpose, it should be possible to derogate from the eligibility ~~requirements~~**criteria** that recipients be established and have their executive management structure **located** in the ~~EU or Union~~ **or in** an associated third country to receive Union support, provided ~~such~~**that** support specifically aims to facilitate compliance with those eligibility ~~requirements~~**criteria**, including by covering– the costs associated with the relocation of the company or the establishment of its executive management structure ~~within the EU or in the Union~~ **or in** an associated third country.
- (21) Given the need for the actions supported under the ~~AGILE~~ Programme to be implemented within a short timeframe, while minimising the administrative burden on applicants, financing not linked to cost, or simplified cost options, including single lump sums, should be used where the Union support is provided in the form of a grant. Union support should only be provided in the form of reimbursement of actual eligible costs where the objectives of a specific action cannot be achieved in any other way.
- (22) The functioning of the defence industry ~~sector~~ does not follow the conventional rules and business models that govern more traditional markets. Demand comes almost exclusively from national governments, which also control all acquisition of defence-related products and technologies, including exports. Therefore, the defence industry, in particular small and non-traditional defence innovators, does not engage in substantial self-funded innovation projects, and Member States and associated third countries often fully fund all related costs. Furthermore, these actors face persistent barriers in accessing finance, including co-financing, in particular private finance for investments, due to the risks market actors associate with such investments. Therefore, leveraging public investment for the Union defence ~~sector~~**industry** is vital, given the compelling need to boost investment in defence innovation. As these measures would not otherwise be undertaken, it appears justified that Union financial support can cover up to 100 % of the eligible costs for actions eligible under the ~~AGILE~~ Programme.
- (23) To further simplify and accelerate the submission and evaluation process, ~~the~~ Union support should be provided through a dedicated evaluation procedure, involving certain checks after the award decision has been made. Applicants should be invited to submit

proposals together with a short summary.—~~This~~ **That** summary should be evaluated before the— proposals are evaluated in full against the relevant award criteria set out in the work programme.— This approach is intended to reduce the administrative burden on applicants and provide financial certainty as quickly as possible, while accepting a reasonable level of financial or legal risk to the Union, proportionate to the objectives pursued. The financial interest of the Union should be duly protected, and no financing should be provided until the ~~full~~**final** evaluation has been completed.

- (24) ~~For the same purpose~~**To further simplify and accelerate the submission and evaluation process**, it should be possible to derogate from certain obligations under Regulation (EU, Euratom) 2024/2509 **of the European Parliament and of the Council**¹³. **In particular, derogations from its Articles 199, 201 and 203 concerning the content and assessment of grant applications and from its Article 170(1), points (b) and (c), and Article 170(2) concerning procurement procedures should be allowed. These derogations should enable, the selection criteria, and the evaluation procedure.** This would allow the award ~~decision~~**decisions** to be adopted and the grant ~~agreement~~**agreements** to be signed on the basis of a preliminary assessment of eligibility and selection criteria, relying ~~in particular,~~ **where appropriate**, on applicants' **and tenderers'** declarations on honour, including with regard to control requirements, **without requiring supporting documents at that stage. Furthermore, the timelines for notification of the results of the preliminary evaluation and for the adoption of the award decision should be shortened and specified in the work programme, allowing** the Commission ~~should adopt award decision~~**to act** without delay ~~and complete~~. The final evaluation of the relevant criteria **should nevertheless be completed** within four months of the application deadline. The financial interests of the Union should be duly protected, and payments should only be provided once the final evaluation has been completed.
- (25) As an alternative to this accelerated evaluation procedure, and in order for the Union to support innovation solution without initial artificial narrowing or limitation linked to the specific form taken by the Union support, the AGILE Programme should allow for a more flexible and accessible approach to identifying, selecting and supporting innovative

¹³ **Regulation (EU, Euratom) 2024/2509 of the European Parliament and of the Council of 23 September 2024 on the financial rules applicable to the general budget of the Union (OJ L, 2024/2509, 26.9.2024, ELI: <http://data.europa.eu/eli/reg/2024/2509/oj>).**

projects and ideas, including through instrument-neutral award procedures. Under ~~such~~ ~~an~~**that** approach, ideas should be assessed and selected based on their merit in contribution to the objectives of the ~~AGILE~~ Programme. The most appropriate and effective budget implementation instrument under the Programme, whether a grant, procurement or another form of support, should be determined only after selection, based on the specific characteristics, requirements and merits of the individual project.

- (26) To remain attractive to a broader range of potential applicants and to address an existing gap in the defence innovation cycle, it is necessary and proportionate to allow for costs incurred before the grant application is submitted to be eligible for funding, as provided for in Article 196(2) of Regulation (EU, Euratom) 2024/2509. The ~~AGILE~~ Programme focuses on late-stage development activities that bridge the critical gap between commercialisation and procurement, bringing emerging and disruptive **defence** products ~~and technologies for defence~~ closer to market readiness and operational deployment. Innovative companies, in particular SMEs, often initiate and self-fund development work before formal funding opportunities become available. This will enable the Programme to support critical innovation actions that started up to three months before the closing of the call for proposals to receive **EU Union** support and accelerate their completion, ensuring the timely delivery of results addressing the most urgent challenges faced by the armed forces of Member States and associated third countries.
- (27) Directive 2009/81/EC of the European Parliament and of the Council¹⁴ provides for a specific exclusion from the obligations ~~it provides~~ for contracts awarded under certain cooperative programmes based on research and development. Following the adoption of Directive XXX [Omnibus directive 2025/0177 (COD)], ~~the defence and security procurement~~ Directive **2009/81/EC** makes clear that a research and development project managed by **EU Union** institutions or bodies and implemented in accordance with Union rules and funded from the Union budget, constitutes a cooperative programme conducted jointly by at least two Member States and can be continued for the phases after the research and development phase. In this case, contracts awarded under the follow-up programme

¹⁴ Directive 2009/81/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of procedures for the award of certain works contracts, supply contracts and service contracts by contracting authorities or entities in the fields of defence and security, and amending Directives 2004/17/EC and 2004/18/EC.

~~may also~~ **should also be able to** be excluded. This exemption applies, in particular, to contracts awarded within the framework of projects supported by the ~~AGILE~~ Programme.

- (28) To ensure the security of classified information at the required level, it is essential to comply with the minimum standards on industrial security when signing classified funding and financing agreements.– To that end, and in accordance with applicable national laws, the Member States and associated third countries on the territory of which the recipients are established, should establish a security framework - comprising Project Security Instructions and a related Security Classification Guide – in cases where the implementation of the ~~AGILE~~ Programme would involve or generate information that warrant a classification level.
- (29) This Regulation should apply without prejudice to ~~EU~~ **Union** competition rules, in particular Articles 101 to 109 **of the Treaty on the Functioning of the European Union** (TFEU) and the legal acts that give effect to those Articles.
- (30) ~~Given the urgent need to support crucial investments in defence capabilities and particularly in defence innovation in the context of pressing geopolitical challenges it is appropriate to provide for an exception to the eight-week period referred to in Article 4 of Protocol No 1 on the role of national Parliaments in the European Union, annexed to the TEU, to the Treaty on the Functioning of the European Union and to the Treaty establishing the European Atomic Energy Community. On the same basis, this Regulation should enter into force on the day following that of its publication in the Official Journal of the European Union.~~
- (31) It is appropriate to lay down an indicative financial envelope for the ~~AGILE~~ Programme.
- (32) Regulation (EU, Euratom) 2024/2509¹⁵ ~~applies to the Programme. It~~ lays down the rules on the establishment and the implementation of the general budget of the Union, including the rules on grants, prizes, non-financial donations, procurement, indirect management, financial assistance, financial instruments and budgetary guarantees.

¹⁵ ~~Regulation (EU, Euratom) 2024/2509 of the European Parliament and of the Council of 23 September 2024 on the financial rules applicable to the general budget of the Union (OJ L, 2024/2509, 26.9.2024, ELI: <http://data.europa.eu/eli/reg/2024/2509/oj>).~~

- (33) In accordance with Regulation (EU, Euratom) 2024/2509, Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council¹⁶, Council Regulation (EC, Euratom) No 2988/95¹⁷, Council Regulation (Euratom, EC) No 2185/96¹⁸ and Council Regulation (EU) 2017/1939¹⁹, the financial interests of the Union are to be protected through proportionate measures, including the prevention, detection, correction and investigation of irregularities and fraud, the recovery of funds lost, wrongly paid or incorrectly used and, where appropriate, the imposition of administrative penalties.
- (34) In particular, in accordance with Regulations (EU, Euratom) No 883/2013 and (Euratom, EC) No 2185/96, the European Anti-Fraud Office (OLAF) ~~may~~**can** carry out investigations, including on-the-spot checks and inspections, with a view to establishing whether there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union. In accordance with Regulation (EU) 2017/1939, the European Public Prosecutor's Office (EPPO) ~~may~~**can** investigate and prosecute fraud and other illegal activities affecting the financial interests of the Union as provided for in Directive (EU) 2017/1371**of the European Parliament and of the Council**²⁰.
- (35) In accordance with Regulation (EU, Euratom) 2024/2509, any person or entity receiving Union funds is to fully cooperate in the protection of the Union's financial interests, to grant the necessary rights and access to the Commission, OLAF, EPPO and the European

¹⁶ Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18.9.2013, p. 1., ELI: <http://data.europa.eu/eli/reg/2013/883/oj>).

¹⁷ Council Regulation (EC, Euratom) No 2988/95 of 18 December 1995 on the protection of the European Communities financial interests (OJ L 312, 23.12.95, p. 1, ELI: <http://data.europa.eu/eli/reg/1995/2988/oj>).

¹⁸ Council Regulation (Euratom, EC) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspections carried out by the Commission in order to protect the European Communities' financial interests against fraud and other irregularities (OJ L 292, 15.11.96, p. 2, ELI: <http://data.europa.eu/eli/reg/1996/2185/oj>).

¹⁹ Council Regulation (EU) 2017/1939 of 12 October 2017 implementing enhanced cooperation on the establishment of the European Public Prosecutor's Office ('the EPPO') (OJ L 283, 31.10.2017, p. 1, ELI: <http://data.europa.eu/eli/reg/2017/1939/oj>).

²⁰ Directive (EU) 2017/1371 of the European Parliament and of the Council of 5 July 2017 on the fight against fraud to the Union's financial interests by means of criminal law (OJ L 198, 28.7.2017, p. 29, ELI: <http://data.europa.eu/eli/dir/2017/1371/oj>).

Court of Auditors and to ensure that any third parties involved in implementing– Union funds grant equivalent rights.

~~(3035a) Given~~**In view of** the urgent need to support crucial investments in defence capabilities and particularly, **in particular** in defence innovation, in the context of pressing geopolitical challenges, it is **considered** appropriate to ~~provide for an exception to the eight-week period referred to in Article 4 of Protocol No 1 on the role of national Parliaments in the European Union, annexed to the TEU, to the Treaty on the Functioning of the European Union and to the Treaty establishing the European Atomic Energy Community. On the same basis,~~**that** this Regulation should enter into force on the day following that of its publication in the Official Journal of the European Union.

(35b) Given that the Programme is designed to be limited in time and scope, it should be without prejudice to any future Union programme or instrument regarding support to defence industry policy, including with regard to the rules for the association of third countries,

HAVE ADOPTED THIS REGULATION:

Article 1

Subject matter

This Regulation establishes the Programme for agile and rapid defence innovation (~~AGILE~~ the 'Programme') for the period from 1 January 2027 to 31 December 2027, and lays down its objectives and budget, ~~the forms of funding under the Programme and the rules for providing such~~**the provision of that** funding.

Article 2

Definitions

For the purposes of this Regulation, the following definitions apply:

- (1) 'legal entity' means ~~a legal person created and recognised as such under Union, national or international law, including Structures for European Armament Programme (SEAP), established in accordance with Regulation (EU) 2025/2643, which has legal personality and the capacity to act in its own name, exercise rights and be subject to obligations, or an entity which does not have legal personality as referred to in Article 200(2), point (e), of Regulation (EU, Euratom) No 2024/2509;~~

- (a) a legal person created and recognised as such under Union, national or international law, including Structures for European Armament Programme (SEAP), established in accordance with Regulation (EU) 2025/2643 of the European Parliament and of the Council²¹, which has legal personality and the capacity to act in its own name, exercise rights and be subject to obligations; or
- (b) an entity which does not have legal personality as referred to in Article 200(2), point (c), of Regulation (EU, Euratom) No 2024/2509;
- (2) ‘control’ means the ability to exercise decisive influence over a legal entity directly, or indirectly through one or more intermediate legal entities;
- (3) ‘defence product’ means ~~goods~~any defence-related product as referred to in the Annex to Directive 2009/43/EC of the European Parliament and of the Council²², as well as works, supplies and services directly related to those products for any and all elements of their life cycle~~and works that fall within the scope~~ meaning of Article 2, point (c), of Directive 2009/81/EC;
- (4) ‘emerging and disruptive defence product or technology for defence’ means an enhanced or completely new defence product or technology that brings about a radical change, including a paradigm shift in the concept and conduct of defence affairs, including by replacing existing defence technologies or rendering them obsolete, and that is expected to be fully exploitable ~~at~~by the end of the action;
- (4a) ‘executive management structure’ means a body of a legal entity, appointed in accordance with national law, and, where applicable, reporting to the chief executive officer of that entity, which is empowered to establish the legal entity’s strategy, objectives and overall direction, and which oversees and monitors the legal entity’s management decision-making;

²¹ Regulation (EU) 2025/2643 of the European Parliament and of the Council of 16 December 2025 establishing the European Defence Industry Programme and a framework of measures to ensure the timely availability and supply of defence products (‘EDIP Regulation’) (OJ L, 2025/2643, 29.12.2025, ELI: <http://data.europa.eu/eli/reg/2025/2643/oj>).

²² Directive 2009/43/EC of the European Parliament and of the Council of 6 May 2009 simplifying terms and conditions of transfers of defence-related products within the Community (OJ L 146, 10.6.2009, p. 1, ELI: <http://data.europa.eu/eli/dir/2009/43/oj>).

- (4b) **‘results’ means any tangible or intangible effect of a given action, such as data, knowhow or information, whatever its form or nature and whether or not it can be protected, as well as any rights attached to it, including intellectual property rights;**
- (5) **‘small and medium-sized enterprises’ or (‘SMEs’) means small and medium-sized enterprises as defined in Article 2 of the Annex to Commission Recommendation 2003/361/EC;**
- (6) **‘background information’ means any information necessary for, or useful to the implementation of the Programme, generated before or outside the framework of the action and provided to and used for the purposes of the action.**
- (7) ~~‘foreground information’ means data, know-how or information generated in the operation of the Programme, whatever its form or nature.~~
- (7a) **‘non-associated third-country entity’ means:**
- (a) **a legal entity established in a non-associated third country; or**
 - (b) **a legal entity established in the Union or in an associated country, which has its executive management structures located in a non-associated third country.**

Article 3

Objectives

1. ~~The general objective of The Programme is to~~ **shall support the rapid innovation capacity of SMEs, including innovative start-ups and scaleups, with a view to supporting the rapid delivery of emerging and disruptive defence products and technologies for defence with a focus on cost-efficiency, which** address the most recent and fast evolving challenges faced by Member States’ armed forces, in particular those stemming from Russia’s war of aggression against Ukraine, ~~with a focus on cost-efficiency.~~ The Programme shall thereby foster the competitiveness of the European Defence Technological and Industrial Base (EDTIB) and contribute to strengthening the Union’s defence **industrial readiness and the availability of defence products**, while **ultimately contributing to** reducing strategic dependencies on non-associated third countries.

2. **In particular**, the Programme ~~has the following specific objectives~~ **shall aim**:
- (a) to significantly accelerate innovation cycles of emerging and disruptive **defence** products ~~and technologies for defence~~ developed across the Union by SMEs, ~~including start-ups~~, taking into account the urgent needs of Member States and tapping into the innovation potential of the Union's industry as a whole; **and**
 - (b) to support the uptake, by Member States' ~~armed forces, and European~~ **and** defence industrial prime contractors, of emerging and disruptive **defence** products ~~and technologies for defence~~ developed by SMEs, ~~including innovative start-ups and scaleups~~, and their scaling up across Europe, thereby reinforcing the technological edge of Member States' ~~armed forces~~ and enhancing the resilience and security of supply for ~~such~~ defence products and technologies across the ~~EU~~ **Union**.

Article 4

Budget

1. The indicative financial envelope for the implementation of the Programme, between 1 January 2027 and 31 December 2027, shall be EUR 115 000 000 in current prices.
2. Budget commitments for activities extending over more than one financial year may be broken down over several years into annual instalments.
3. Appropriations may be entered in the Union budget beyond 2027 to cover the expenses necessary and to enable the management of actions not completed by the end of the Programme, as well as expenses covering critical operational activities and services.
4. The financial envelope referred to in paragraph 1 of this Article and the amounts of additional resources referred to in Article 5 may also be used for technical and administrative assistance for the implementation of the Programme such as preparatory, monitoring, control, audit and evaluation activities, including the design, set up, testing and certification, operation and maintenance of corporate information technology systems and platforms, ~~and as well as~~ information and communication activities, including corporate communication on the political priorities of the Union, and **for** all other technical and administrative assistance or staff-related expenses incurred by the Commission in managing the Programme.

Article 5

Additional resources

1. Member States, ~~EU~~**Union** institutions, bodies and agencies, third countries, international organisations, international financial institutions, or other third parties, may make additional financial or non-financial contributions available to the Programme, or ~~to~~ any of its specific activities or objectives referred to in Article 3. Additional financial contributions shall constitute external assigned revenue within the meaning of Article 21(2), points (a), (d), or (e) or Article 21(5) of Regulation (EU, Euratom) 2024/2509.
2. Resources allocated to Member States under shared management may, at the request of the Member State concerned, be transferred to the Programme subject to the conditions set out in the relevant provisions of Regulation (EU) 2021/1060 **of the European Parliament and of the Council**²³. The Commission shall implement those resources directly in accordance with Article 62(1), first subparagraph, point (a), of Regulation (EU, Euratom) 2024/2509 or indirectly in accordance with **Article 62(1), first subparagraph**, point (c) of that ~~subparagraph~~**Regulation**. Those resources shall be used for the benefit of the Member State concerned. Where the Commission has not entered into a legal commitment under direct or indirect management for additional amounts thus made available to the Instrument, the corresponding uncommitted amounts may, at the request of the Member State concerned, be transferred back to the source programmes, in accordance with the conditions set out in Regulation (EU) 2021/1060.

Article 6

Alternative, combined and cumulative funding

1. The Programme shall be implemented in synergy with other Union programmes. An action that has received a Union contribution from another programme may also receive a contribution under the Programme **provided that those contributions do not cover the**

²³ **Regulation (EU) 2021/1060 of the European Parliament and of the Council of 24 June 2021 laying down common provisions on the European Regional Development Fund, the European Social Fund Plus, the Cohesion Fund, the Just Transition Fund and the European Maritime, Fisheries and Aquaculture Fund and financial rules for those and for the Asylum, Migration and Integration Fund, the Internal Security Fund and the Instrument for Financial Support for Border Management and Visa Policy (OJ L 231, 30.6.2021, p. 159, ELI: <http://data.europa.eu/eli/reg/2021/1060/oj>).**

same costs. The rules of the relevant Union programme shall apply to the corresponding contribution, or a single set of rules **of any of the contributing Union programmes** may be applied to all contributions, and a single legal commitment may be concluded. If the Union contribution is based on eligible costs, the cumulative support from the Union budget shall not exceed the total eligible costs of the action and may be calculated on a pro-rata basis in accordance with the documents setting out the conditions for support.

2. Award procedures under the Programme may be jointly conducted under direct or indirect management with Member States, ~~EU~~**Union** institutions, bodies and agencies, third countries, international organisations, international financial institutions, or other third parties, provided the financial interests of the Union are protected. ~~Such~~**Those** procedures shall be subject to a single set of rules and lead to the conclusion of ~~a single legal commitments~~**commitment**. For that purpose, the partners to the joint award procedure may make resources available to the Programme in accordance with Article 5 of this Regulation, ~~or~~. The partners may **also** be entrusted with the implementation of the award procedure, where applicable in accordance with Article 62(1), point (c), of Regulation (EU, Euratom) 2024/2509. For the purposes of Article 153(3) of Regulation (EU, Euratom) 2024/2509, ~~in~~**for** joint award procedures the evaluation committee may be partially composed ~~by~~**of** members that are representatives of the partners in that procedure.

Article 7

Third countries associated ~~t~~with the Programme

1. The Programme **or specific actions under Article 10** may be opened to the participation of the following third countries through full or partial association ~~t~~**with** the Programme, in accordance with the objectives laid down in Article 3 and in accordance with the relevant international agreements or any decisions adopted under those agreements ~~and~~ applicable to:
 - (a) members of the European Free Trade Association, who are members of the European Economic Area;
 - (b) Ukraine, in accordance with the conditions laid down in the EU-Ukraine Association Agreement.

2. The association agreements for participation in the ~~Programmes~~**Programme** with the countries referred to in ~~Article 7(1)~~**paragraph 1** shall:
- (a) ensure a fair balance as regards the contributions and benefits of the third country participating in the Programme;
 - (b) lay down the conditions ~~effor~~ for participation in the Programme, including the calculation of financial contributions, consisting of an operational contribution and a participation fee, ~~to a~~ **to the** Programme and its general administrative costs;
 - (c) not confer on the third country any decision-making power in the Programme;
 - (d) guarantee the rights of the Union to ensure sound financial management and to protect its financial interests; **and**
 - (e) ~~where relevant,~~ ensure the protection of **the** security and public order interests of the Union.
3. For the purposes of **paragraph 2**, point (d), the associated third country shall grant the necessary rights and access required under Regulations (EU, Euratom) 2024/2509 and (EU, Euratom) No 883/2013, ~~and~~ guarantee that enforcement decisions imposing a pecuniary obligation on the basis of Article 299 TFEU, ~~as well as~~ **and** judgements and orders of the Court of Justice of the European Union, are enforceable and ensure that its competent authorities cooperate with the European Public Prosecutor's Office (EPPO) in the investigations and prosecutions of criminal offences affecting the Union's financial interests in accordance with applicable international agreements or other applicable rules.

Article 8

Implementation and forms of Union funding

1. The Programme shall be implemented in accordance with Regulation (EU, Euratom) 2024/2509, under direct management or under indirect management with entities referred to in Article 62(1), point (c), of that Regulation.
2. ~~Union funding may be provided in any form~~ In accordance with Regulation (EU, Euratom) 2024/2509, **Union funding may be provided in any form.**

3. In accordance with point (a) of Article 196(2) of Regulation (EU, Euratom) 2024/2509, financial contributions may, where relevant and necessary for the implementation of an action, cover actions started and costs incurred prior to the date of the submission of the proposal for those actions, provided that those actions did not start more than three months before the closing of the call for proposals and have not been completed before the signature of the grant agreement.
4. Where Union funding is provided in the form of a grant, ~~funding it shall be provided as~~ **take the form of** financing not linked to costs or simplified cost options, in accordance with Regulation (EU, Euratom) 2024/2509. ~~Funding may be provided in the form of Actual eligible cost reimbursement~~ **may be reimbursed** only where the objectives of an action cannot **otherwise** be achieved ~~otherwise~~.
5. In accordance with Article 153(3) of Regulation (EU, Euratom) 2024/2509, the evaluation committee may be ~~composed partially or fully of independent~~ **assisted by** external experts **holding a valid personal security clearance, if required by the work programme. By way of derogation from Article 242 of the Regulation (EU, Euratom) 2024/2509, the list of independent experts shall not be made public.**

Article 9

Eligibility

1. Eligibility criteria shall be set ~~to support achievement of the objectives laid down in Article 3;~~ in accordance with Regulation (EU, Euratom) 2024/2509 **to support the achievement of the objectives laid down in Article 3** and shall apply to all award procedures under the Programme.
2. In award procedures ~~under direct and indirect management, one or more of~~ the following legal entities may be eligible to receive Union funding:
 - (a) entities established in a Member State;
 - (b) entities established in an associated third country;
 - (c) international organisations;
 - (d) **SEAPs.**

3. For actions supported under the Programme as listed in Article 10, with the exception of actions referred to in **Article 10(1)**, point (d) ~~of Article 10 (1)~~, recipients of Union funding shall be SMEs, ~~including innovative startups and scaleups, and shall comply with the eligibility requirements set out in this Article.~~
4. ~~Except for~~ **With the exception of** actions referred to in **Article 10(1)**, point (c) ~~of Article 10 (1)~~, recipients of **Union funding** shall be established in the ~~EU~~**Union** or in an associated third country, **and** have their executive management structures **located** in the ~~EU or Union or in~~ an associated third country.
5. Recipients shall not be subject to control by a non-associated third country or by a non-associated third-country entity.
6. The infrastructure, facilities, assets and resources of the recipients of Union funding which are used for the purposes of the funded action shall be located on the territory of a Member State or of an associated third country for the entire duration of the action.
7. Where recipients of Union funding involved in an action have no readily available alternatives or relevant infrastructure, facilities, assets and resources in the Union or in an associated third country, they may use their infrastructure, facilities, assets or resources which are located or held outside the territory of the Member States or of the associated third countries, provided that this use does not contravene the security and defence interests of the ~~EU~~**Union** and its Member States, including respect for the principle of good neighbourly relations, and is consistent with the objectives set out in Article 3. The costs related to activities using such infrastructure, facilities, assets or resources shall not be eligible for support from the Programme.
8. Legal entities may be deemed to fulfil the eligibility conditions referred to in this paragraph where they have fulfilled equivalent conditions under ~~Regulations~~**Regulation** (EU) 2018/1092 **of the European Parliament and of the Council**²⁴, **Regulation** (EU)

²⁴ Regulation (EU) 2018/1092 of the European Parliament and of the Council of 18 July 2018 establishing the European Defence Industrial Development Programme aiming at supporting the competitiveness and innovation capacity of the Union's defence industry (OJ L 200, 7.8.2018, p. 30, ELI: <http://data.europa.eu/eli/reg/2018/1092/oj>).

2021/697²⁵, **Regulation (EU) 2023/1525**, or ~~(EU) 2023/2418~~ of the European Parliament and of the Council²⁶, or **Regulation (EU) 2023/2418 of the European Parliament and of the Council**²⁷ or under **Council Regulation (EU) 2025/1106**²⁸ and, provided that no subsequent changes call into question the fulfilment of those conditions.

9. ~~In award procedures~~, The following actions shall not be eligible for funding:
- (a) ~~actions or parts thereof, that are already fully financed from other public or private sources, except contributions from the Union in the context of synergy actions referred to in Article 6;~~
 - (b) actions for the development of products and technologies the use, development or production of which is prohibited by applicable international law;
 - (ba) actions related to lethal autonomous systems that operate outside a responsible chain of human command and control or that cannot be used in compliance with international humanitarian law;**
 - (bb) actions related to cluster munitions;**
 - (bc) actions or parts of actions that are already fully financed from other public or private sources.**

²⁵ ~~Regulation (EU) 2021/697 of the European Parliament and of the Council of 29 April 2021 establishing the European Defence Fund and repealing Regulation (EU) 2018/1092 (OJ L 170, 12.5.2021, p. 149, ELI: <http://data.europa.eu/eli/reg/2021/697/oj>).~~

²⁶ Regulation (EU) 2023/1525 of the European Parliament and of the Council of 20 July 2023 on supporting ammunition production (ASAP) (OJ L 185, 24.7.2023, p. 7, ELI: <http://data.europa.eu/eli/reg/2023/1525/oj>).

²⁷ Regulation (EU) 2023/2418 of the European Parliament and of the Council of 18 October 2023 on establishing an instrument for the reinforcement of the European defence industry through common procurement (EDIRPA) (OJ L, 2023/2418, 26.10.2023, ELI: <http://data.europa.eu/eli/reg/2023/2418/oj>).

²⁸ Council Regulation (EU) 2025/1106 of 27 May 2025 establishing the Security Action for Europe (SAFE) through the Reinforcement of the European Defence Industry Instrument, OJ L, 2025/1106, 28.5.2025, ELI: <http://data.europa.eu/eli/reg/2025/1106/oj>

AGILE Eligible actions

1. Actions eligible for funding under the Programme shall implement the objectives set out in Article 3 ~~of this Regulation~~ and may take one **or more** of the following forms, ~~or a combination thereof~~:
 - (a) support for the fast development of emerging and disruptive **defence products and technologies for defence**, including where ~~it is~~ **those products are** based on integration and adaptation of civilian technologies with dual use potential for defence purposes;
 - (b) support for the market uptake of emerging and disruptive **defence products and technologies for defence**, including through dedicated and iterative field testing and demonstrations and ~~including~~ through support to aggregation of demand;
 - (c) support for **the relocation of** the establishment of an entity or of its executive management structure ~~in the EU or into the Union or to~~ an associated third country for the effective implementation of actions ~~underreferred to in~~ **points (a) and (b), where an entity was previously established or its executive management structure was located in a non-associated third country**;
 - (d) supporting ~~action~~ **actions** necessary for the effective implementation of actions ~~underreferred to in~~ **points (a) and (b)**, including but not limited to qualification, certification, access to infrastructure, access to innovative manufacturing capacities and processes, skills development, procurement of studies and ecosystem building and strengthening activities.
2. The Programme may provide support for actions covering the swift upgrade of existing products and technologies provided that the use of pre-existing information, intellectual property, **rights** or other rights necessary ~~to carry~~ **for carrying** out the action are not subject to a restriction by a non-associated third country ~~or a non-associated third country entity~~, directly, or indirectly through one or more intermediary legal entities, **to a restriction by a non-associated third country or by a non-associated third-country entity**, which would prevent the effective implementation of the action.

3. Recipients of the Programme shall benefit, where possible and appropriate, from fast-track access to ~~EU~~**Union** testing and experimentation facilities and to the EUDIS Business Accelerator.

Article 11

Award criteria

1. Where relevant and appropriate, depending on the nature of the award procedure, and in accordance with Regulation (EU, Euratom) 2024/2509, ~~the~~ award criteria shall be set out in the work programmes referred to in Article 16 and shall take into account the following principles:
- (a) ~~disruptiveness~~**the potential for disruption in the defence domain, assessed in light of the extent to which a proposed solution departs from current technological baselines;**
 - (b) the quality of the proposal and ~~the~~ ability to implement the action;
 - (c) the impact in the defence domain, considering the needs of Member States and associated third countries, including with regard to cost-efficiency, speed of delivery, and readiness for operational use.
2. The work programme referred to in Article 16 shall lay down additional details concerning the application of the award criteria ~~laid down~~**referred to** in paragraph 1, taking into ~~consideration~~**account** the objectives of the call for proposals, ~~as well as~~ **and** the selection and evaluation ~~procedure~~**procedures**.

Article 12

Selection and award procedure

1. In order to ensure that actions listed in Article 10 can be effectively implemented without undue delay, the work programme may identify award procedures, under direct or indirect management, that ~~benefit from~~ **are subject to** an accelerated and simplified award procedure.
2. By way of derogation from Articles 199, 201 and 203 of Regulation (EU, Euratom) 2024/2509 regarding grants, and Article 170(1), points (b) and (c), and ~~(2)~~**Article 170(2)**

of that Regulation regarding procurement, **the work programme may provide that**, for award procedures identified ~~in the work programme therein~~, the following conditions ~~may~~ apply:

- (a) limitation of the requirements for the award decision and signature of legal commitments to a preliminary evaluation of award and exclusion criteria; the award decision may be taken based solely on a self-declaration of applicants and tenderers on selection and eligibility criteria, especially regarding control, without request for corresponding supporting documents during the preliminary evaluation-; the Commission shall finalise the final evaluation without undue delay.
 - (b) notification of the results of the preliminary evaluation to the applicants and tenderers shall be completed within a period specified in the work programme; the award decision shall be taken within a period specified in the work programme.
3. Where the final evaluation referred to in paragraph 2, point (a), concludes that the recipient does not meet all the eligibility and selection criteria, the legal commitment shall be terminated. **Payments shall only be made once the final evaluation has been completed.**
4. The work programme may set up targeted two-stage bottom-up award procedures in accordance with the following rules:
- (a) during the first stage, a call for expression of interest may be launched without specifying– the kind of activities or the instrument of budget implementation to be used, to enable applicants and tenderers to submit project proposals or offers for goods, works or services that might contribute to the objectives of this Regulation, as set out in the work programme referred to in Article 16.
 - (aa) proposals and offers shall be evaluated and ranked based on common award criteria, set out in the work programme, such as their comparative contribution to the objectives-; the evaluation committee shall determine the most appropriate instrument of budget implementation under direct or indirect management, ~~as well as~~ **and** propose the maximum amount and form of the Union contribution-;
 - (b) during the second stage, within the available budget, successfully evaluated projects or offers shall be invited to adjust and complete their proposal or offer in accordance with the conclusions of the evaluation committee.

The award procedure shall otherwise proceed in accordance with the rules as set out in Regulation (EU, Euratom) 2024/2509 applicable to the respective instrument of budget implementation.

- 4a. **The Commission shall award the funding under the Programme by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 17(3).**

Article 13

Inducement intervention

1. By way of derogation from Article 9 of this Regulation, the work programme may specify that an award procedure takes the form of an inducement intervention ~~to allow~~ **allowing** for a temporary and conditional ~~waiver~~ **suspension** of compliance with the eligibility ~~requirements relating~~ **criteria relating** to the place of establishment **of legal entities participating in the Programme** or the **location of their** executive management.
2. Compliance with the eligibility criteria that have been temporarily ~~waived~~ **suspended** in accordance with paragraph 1 ~~of this article~~ shall be ~~achieved~~ **complied with** and evaluated within a timeframe specified in the legal commitment **within the meaning of Article 2, point 39, of the Regulation (EU, Euratom) 2024/2509**. The Union support shall be provided once all the ~~requirements~~ **eligibility criteria** have been met.
3. If the eligibility criteria ~~that have been temporarily waived~~ **suspended** in accordance with paragraph 1 ~~of this article~~ are not ~~complied with~~ **complied with** within the ~~specific~~ timeframe specified in the legal commitment **referred to in paragraph 2**, the action shall be ~~considered~~ **deemed** ineligible and any Union funding shall be fully recovered.
4. For the purpose of this Article, no pre-financing shall be paid.

Article 14

Funding rates

Without prejudice to Article 193 of Regulation (EU, Euratom) 2024/2509, the Programme may finance up to 100 % of the eligible costs.

Ownership of results

1. The results of actions supported by the Programme shall not be subject, **directly or indirectly through one or more intermediate legal entities**, to any control or restriction by non-associated third countries or by non-associated third-country entities, ~~directly, or indirectly through one or more intermediate legal entities,~~ including in terms of **with regard to** technology transfer.
2. This Regulation shall not affect the Member States' discretion as regards their policy on the export of military technology and equipment.
3. Technology transfers shall be carried out in full compliance with the provisions set out in Directive 2009/43/EC **of the European Parliament and of the Council**²⁹ ~~on simplifying terms and conditions of transfers of defence-related products within the Community and, where relevant, in Regulation (EU) 2021/821 setting up a Union regime for control of exports, brokering, technical assistance, transit and transfer of dual-use items.~~
4. Without prejudice to paragraph 2 ~~of this article~~, any transfer of ownership or granting of exclusive licences to a non-associated third country or to a non-associated third-country entity for results generated through the Programme, which takes place within ~~3~~**three** years after the final payment of the action, shall be subject to prior notification ~~and approval by~~**to** the Commission ~~and approval by~~ the relevant Member State or associated third country authorities under conditions ensuring the protection of the ~~Union's~~**Union's** security and defence interests **of the Union and its Member States**. Where such a transfer of ownership contravenes the security and defence interests of the ~~EU~~**Union** and its Member States or the objectives set out in Article 3, the support provided from the Programme shall be reimbursed.

²⁹ **Regulation (EU) 2021/821 of the European Parliament and of the Council of 20 May 2021 setting up a Union regime for the control of exports, brokering, technical assistance, transit and transfer of dual-use items (OJ L 206, 11.6.2021, p. 1 ELI: <http://data.europa.eu/eli/reg/2021/821/oj>).**

5. Where Union support is provided in the form of the public procurement of a study, ~~results shall be owned by the EU and~~ all Member States or associated third countries shall have the right, free of charge, to a non-exclusive licence for the use of the study upon written request.
6. Where Union support is provided in the form of a grant, ~~EU~~ **Union** institutions, bodies, offices or agencies as well as granting authorities shall enjoy upon request royalty-free access rights to results, without impacting the ownership of results, ~~including IPRs or~~ **intellectual property rights** on background information, for the only purpose of developing, implementing and monitoring existing Union policies or programmes in the fields of its competence. **Such access rights shall be limited to non-commercial and non-competitive use and the right to grant.**

Article 16

Work Programme

1. The Programme shall be implemented by a work programme as referred to in Article 110(2) of Regulation (EU, Euratom) 2024/2509.
2. The work programme shall set out in detail the categories of actions **and the topics** to be supported by the Programme. Those categories shall be in line with the objectives ~~referred to~~ **set out** in Article 3.
3. With the exception of the award procedure defined in Article 12~~(5)~~**(4)**, the work programme shall, **where appropriate**, contain functional requirements ~~where appropriate and shall~~ **and** specify the form of Union funding under Article 8, ~~while not preventing~~ **without restricting** competition ~~among the~~ **across** calls for proposals.
4. The Commission shall adopt the work programme by means of an implementing act. ~~This~~ **That** implementing act shall be adopted in accordance with the ~~advisory~~ **examination** procedure referred to in Article 17(3).

Article 17

Committee Procedure

1. The Commission shall be assisted by a committee. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.
2. The European Defence Agency (EDA) shall be invited to **attend the meetings of the committee as an observer and to provide its views and expertise in the work of the committee** ~~as an observer~~. The European External Action Service shall also be invited to assist in the work of the committee, **whenever its expertise and views are useful for the work of the committee**.
3. Where reference is made to this paragraph, Article 45 of Regulation (EU) No 182/2011 shall apply.
4. **Where the committee delivers no opinion, the Commission shall not adopt the draft implementing act and Article 5(4), third subparagraph, of Regulation (EU) No 182/2011 shall apply.**

Article 18

Relationship with Directive 2009/81/EC

~~The~~ A procurement contract ~~of~~ **awarded by a Member State concerning any for a defence product resulting from an action supported under the Programme, or from a project that has received a Sovereignty seal in accordance with Article 18a and subsequent funding by a Member State in accordance with Article 6**, shall be ~~considered as~~ **deemed to be** a contract awarded in the framework of a cooperative programme based on research and development ~~as referred to in~~ **within the meaning of Article 13, point (c), of Directive 2009/81/EC [following the adoption of Omnibus directive 2025/0177 (COD)]**.

Article 18a

Amendment to Regulation (EU) 2024/795

1. In Article 4 of Regulation (EU) 2024/795, paragraph 1 is replaced by the following:

‘1. The Commission shall award a Sovereignty Seal to any project contributing to any of the STEP objectives, provided that the project has been assessed and complies with minimum quality requirements, in particular eligibility, exclusion and award criteria, provided for in a call for proposals under Regulation (EU) 2021/522 of the European Parliament and of the Council³⁰, Regulation (EU) 2021/694 of the European Parliament and of the Council², Regulation (EU) 2021/695, Regulation (EU) 2021/697, Commission Delegated Regulation (EU) 2019/856³¹, or under Regulation (EU) .../... [AGILE Regulation].’

Article 19

Application of the rules on classified information

1. Within the scope of this Regulation:

- (a) Member States and associated third countries on whose territory recipients are established shall assess the sensitive nature of the background and foreground information handled during the implementation of the funded actions;
- (b) ~~If such~~**where that** information ~~bears~~**is subject to** a national classification level, the Member States and associated third countries referred to in point (a) shall establish ~~thean~~ adequate security framework, in accordance with **their** national laws and regulations;

³⁰ Regulation (EU) 2021/522 of the European Parliament and of the Council of 24 March 2021 establishing a Programme for the Union’s action in the field of health (‘EU4Health Programme’) for the period 2021-2027, and repealing Regulation (EU) No 282/2014 (OJ L 107, 26.3.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/522/oj>).

³¹ Commission Delegated Regulation (EU) 2019/856 of 26 February 2019 supplementing Directive 2003/87/EC of the European Parliament and of the Council with regard to the operation of the Innovation Fund (OJ L 140, 28.5.2019, p. 6, ELI: http://data.europa.eu/eli/reg_del/2019/856/oj).

- (c) each Member State shall ensure ~~that it offers a degree~~ **a level** of protection of EU classified information equivalent to that provided ~~by for in~~ the security rules ~~of the Council~~ set out in **Council** Decision [2013/488/EU];
- (d) the Commission shall protect classified information received in relation to the Programme in accordance with the security rules set out in **Commission** Decision (EU, Euratom) 2015/444³².
2. The Commission shall make available an accredited secured exchange system in order to facilitate the exchange of classified and sensitive information between the Commission and the Member States and associated third countries and, where appropriate, with ~~the~~ applicants and ~~the~~ recipients. That system shall take into account Member States' national security regulations.

Article 20

Audits

Audits on the use of the Union contribution carried out by persons or entities, including by persons or entities other than those mandated by the ~~EU~~ **Union** institutions, bodies, offices or agencies, shall form the basis of the overall assurance pursuant to Article 127 of Regulation (EU, Euratom) 2024/2509. The European Court of Auditors shall examine the accounts of all revenue and expenditure of the Union in accordance with Article 287 TFEU.

Article 21

Information, communication and publicity

1. Recipients of Union funding shall acknowledge the origin of the funds and ensure the visibility of that funding, including when promoting the actions and their results, by providing coherent, effective and proportionate targeted information to multiple audiences, including the media and the public.

³² **Commission Decision (EU, Euratom) 2015/444 of 13 March 2015 on the security rules for protecting EU classified information (OJ L 72, p. 53, ELI: <http://data.europa.eu/eli/dec/2015/444/oj>).**

2. The Commission shall implement information and communication actions relating to this Regulation, to actions taken ~~pursuant to this Regulation~~ **under it**, and to the results ~~obtained~~ **achieved**.
3. Financial resources allocated to the Programme may contribute to the organisation of dissemination activities, match-making events and awareness-raising activities, including ~~to open~~ **activities aimed at opening** supply chains to foster the cross-border participation of SMEs.

Article 22

Entry into force and application

This Regulation shall enter into force on the day following that of its publication in the ~~Official Journal of the European Union~~ **Official Journal of the European Union**.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
