WORKING PAPER

This is a paper intended for a specific community of recipients. Handling and further distribution are under the sole responsibility of community members.

NOTE

From:	General Secretariat of the Council
To:	Working Party on Research
Subject:	Proposal for a DECISION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on the participation of the Union in the European Partnership on Metrology jointly undertaken by several Member States

Delegations will find attached a comparative table setting out the Commission's proposal, the Council's Mandate and the amendments to the proposal adopted by the European Parliament's ITRE Committee on 15 July 2021. In the fourth column, the text represents tentative compromise proposals prepared by the Presidency under its own responsibility, not prejudging in any way the inter-institutional negotiations on this file, which are due to start following the Research Working Party meeting on 20 September.

Explanation of changes to the document in Annex:

In the column related to the position of the ITRE Committee, the changes to the Commission proposal are indicated in ***bold italics*** for additions. Deletions are not marked.

In the column related to the position of the Council (Mandate doc. (9826)/21), the changes to the Commission proposal are indicated in **bold underlined** for additions and ~~strikethrough~~ for deletions.

In the fourth column the proposals for compromises in relation to the Council's Mandate are **bold underlined** for additions and ~~strikethrough~~ for deletions.

	research and innovation, bringing mutual benefits to people and businesses.	innovation programmes and cross-border investment in research and innovation, bringing mutual benefits to people and businesses.		international level, including by joining up research and innovation programmes and cross-border investment in research and innovation, bringing mutual benefits to people and businesses.
12	(4) In line with the objectives of Regulation (EU) XXX, any Member State and any country associated to Horizon Europe should be entitled to participate in the European Partnership on Metrology ('the Metrology Partnership'). In order to ensure complementarity within the European Economic Area and with other neighbouring countries, other third countries should be able to participate in the Metrology Partnership, subject to the conclusion of a relevant international agreement for scientific and technological cooperation with the Union and the agreement of the Participating States.	<i>[no change]</i>	<i>[no change]</i>	
13	(5) Horizon Europe introduces a more strategic, coherent and impact-driven approach to European Partnerships, building on the	<i>[no change]</i>	<i>[no change]</i>	<i>Presidency's compromise proposal: revised text, taking up and adapting EP proposal from row 13a</i>

	lessons learned from the Horizon 2020 interim evaluation. Horizon Europe Regulation intends to make a more effective use of Institutionalised European Partnerships notably by focusing on clear objectives, outcomes and impact that can be achieved by 2030, and by ensuring a clear contribution to the related Union policy priorities and policies. Close collaboration and synergies with other relevant initiatives at Union, national and regional level, in particular with other European Partnerships, will be key in achieving greater impact and ensuring that the results are used.			(5) Horizon Europe introduces a more strategic, coherent and impact-driven approach to European Partnerships, building on the lessons learned from the Horizon 2020 interim evaluation. Horizon Europe Regulation intends to make a more effective use of Institutionalised European Partnerships notably by focusing on clear objectives, outcomes and impact that can be achieved by 2030, and by ensuring a clear contribution to the related Union policy priorities and policies. Close collaboration, <u>complementarity</u> and synergies with other relevant <u>programmes and</u> initiatives at Union, national and regional level, <u>including with the European Research Council and the European Innovation Council but</u> in particular with other European Partnerships, will be key in <u>fostering the innovation pipeline and research in other areas,</u> achieving greater impact and ensuring that the results are used <u>in all relevant areas where technological development is linked with metrology, such as digitalisation, artificial</u>
--	--	--	---	--

				<u>intelligence, energy, smart health, climate, autonomous traffic and circular economy.</u>
13a		<i>(5a) Complementarity and synergy with collaborative research work programmes and with the European Research Council is intended to nurture the bottom-up inspired innovation pipeline. Such complementarity and synergy is intended to create opportunities for research in areas that are not currently addressed, promoting applications in other sectors, both upstream and downstream of the pipeline. The Metrology Partnership should ensure appropriate collaboration with the other European Partnerships and other relevant initiatives given the technological development in areas such as digitalisation and artificial intelligence as well as civil society services from smart health to autonomous traffic and circular economy.</i>		<i>(largely taken up by modifications in row 13; added a reference to EIC next to ERC in the context of innovation pipeline)</i>
14	(6) By Decision No 555/2014/EU of the European Parliament and of the Council ⁷ ,	<i>[no change]</i>	<i>[no change]</i>	

⁷ Decision No 555/2014/EU of the European Parliament and of the Council of 15 May 2014 on the participation of the Union in a European Metrology Programme for Innovation and Research (EMPIR) jointly undertaken by several Member States (OJ L 169, 7.6.2014, p. 2).

	the Union decided to make a financial contribution to the European metrology programme for innovation and research ('EMPIR') matching that of the participating states but not exceeding EUR 300 000 000, for the duration of the 2014-2020 framework programme for research and innovation ('Horizon 2020') established by Regulation (EU) No 1291/2013 of the European Parliament and of the Council⁸. In the mid-term evaluation of EMPIR in July 2017, a new initiative was suggested.			
15	(7) The Union's financial contribution should be subject to formal commitments from the Participating States to financially contribute to the implementation of the Metrology Partnership and to the fulfilment of those commitments. Participating States' contributions should include a contribution to administrative costs, subject to a ceiling of 5% of the budget of the Metrology Partnership.	<i>[no change]</i>	<i>[no change]</i>	

⁸ Regulation (EU) No 1291/2013 of the European Parliament and of the Council of 11 December 2013 establishing Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020) and repealing Decision No 1982/2006/EC (OJ L 347, 20.12.2013, p. 104).

	Participating States should commit to increase, if necessary, their contribution to the Metrology Partnership by establishing a reserve funding capability to ensure that they are able to fund their national entities, national metrology institutes (NMIs) and designated institutes (DIs) participating in the activities of the Metrology Partnership. The joint implementation of the Metrology Partnership requires an implementation structure. The Union's financial contribution should be managed in accordance with the principle of sound financial management and with the relevant rules on indirect management laid down in Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council ⁹ .			
16	(8) The Metrology Partnership should be established. Such a partnership would be more effective	<i>[no change]</i>	<i>[no change]</i>	

⁹ Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

	compared to traditional calls or a co-funded partnership under the work programmes prepared under all the related clusters of pillar 2 of Horizon Europe.			
17	(9) The objective of this Decision is the participation of the Union in the Metrology Partnership in order to support its general objectives. The requirements of metrology are of such a scale and complexity that investments are needed that go beyond the core research budgets of the NMIs and DIs. The excellence required for research and the development of cutting-edge metrology solutions is spread across national borders and hence cannot be attained at national level only. Since the objectives of this Decision cannot be sufficiently achieved by the Member States, but can be better achieved at Union level by integrating national efforts into a consistent European approach, by bringing together compartmentalised national research programmes, by helping design common research and funding strategies across national borders, and by achieving the	(9) The objective of this Decision is the participation of the Union in the Metrology Partnership in order to support its general objectives. ¹² Council Regulation (EU) XXX of ...(OJ ...).

	particular to build and manage future European Metrology Networks and to facilitate adequate financial participation of the Participating States, it should be possible to provide for a limitation of the coordinator role in a proposal to NMIs and DIs of the Participating States, where necessary.	particular to build and manage future European Metrology Networks and to facilitate adequate financial participation of the Participating States, it should be possible to provide for a limitation of the coordinator role in a proposal to NMIs and DIs of the Participating States, where necessary, <i>after consulting the Steering Group.</i>	particular to build and manage future European Metrology Networks and to facilitate adequate financial participation of the Participating States, it should be possible to provide for a limitation of the coordinator role in <u>a indirect actions, from submission of the proposal to the end of the project, to</u> NMIs and DIs of the Participating States, where <u>strictly</u> necessary.	Regulation (EU) No XXX ¹³ [RfP Horizon Europe]. However, due to specific operating needs of the Metrology Partnership, in particular to build and manage future European Metrology Networks and to facilitate adequate financial participation of the Participating States, it should be possible to provide for a limitation of the coordinator role in indirect actions, from submission of the proposal to the end of the project, to NMIs and DIs of the Participating States, where strictly necessary, <u>after consulting the Steering Group.</u>
25	(17) Contributions from Participating States should be ensured through institutional funding from the NMIs and DIs. The wide variety of underlying activities should contribute to the objectives of the Metrology Partnership and be laid out in the annual work plans, with links to operational costs and expenditure. Among others, the contributions should cover the costs of services that directly deliver calibrations and other	<i>[no change]</i>	<i>[no change]</i>	

¹³ Council Regulation (EU) XXX of ...(OJ ...).

	services traceable to the International System of Units. Contributions from Participating States should also include a financial contribution to the administrative costs of the Metrology Partnership.			
26	(18) In order to ensure transparency and accessibility for the programme, calls for proposals by the Metrology Partnership should also be published on the single portal for participants as well as through other Horizon Europe electronic means of dissemination managed by the Commission.	(18) In order to ensure <i>openness and</i> transparency and accessibility for the programme, calls for proposals by the Metrology Partnership should also be published <i>in a user-friendly manner</i> on the single portal for participants as well as through other Horizon Europe electronic means of dissemination managed by the Commission. <i>Calls for proposals should be attractive and accessible to a wide range of research and industry stakeholders, including SMEs. The Metrology Partnership should enhance its dialogue with society, engage in awareness-raising campaigns and promote educational and dissemination activities with the involvement of academic, scientific and knowledge networks, social and economic partners, the media, industry,</i>	[no change]	<i>Presidency's compromise proposal: adapted EP text</i> (18) In order to ensure <u>openness and</u> transparency and accessibility for the programme, calls for proposals by the Metrology Partnership should also be published <u>in a user-friendly manner</u> on the single portal for participants as well as through other Horizon Europe electronic means of dissemination managed by the Commission. <u>In order to engage with stakeholders and society and attract newcomers from a wide range of research and industry stakeholders including SMEs, the partnership should carry out a wide range of outreach activities, including dissemination and exploitation of results, promotional and awareness raising activities,</u>

		<i>SME organisations and other stakeholders.</i>		<u>promotion of the partnership beyond the Union.</u>
27	(19) The functioning of the funding model with regard to the matching principle between Union and non-Union funds should be reassessed at the time of the interim evaluation of the Metrology Partnership in order to ensure the matching principle for Participating States' financial contributions is being respected.	<i>[no change]</i>	<i>[no change]</i>	
28	(20) The financial interests of the Union should be protected through proportionate measures throughout the expenditure cycle, including the prevention, detection and investigation of irregularities, the recovery of funds lost, wrongly paid or incorrectly used and, where appropriate, administrative and financial penalties.	<i>[no change]</i>	<i>[no change]</i>	
29	(21) In order to protect the Union's financial interests, the Commission should have the right to reduce, suspend or terminate the Union's financial contribution if the Metrology Partnership is implemented inadequately, partially or late, or	<i>[no change]</i>	<i>[no change]</i>	

	if the Participating States do not contribute, or contribute partially or late, to the financing of the Metrology Partnership. Those rights should be provided for in the contribution agreement to be concluded between the Union and EURAMET.			
30	(22) For the purpose of simplification, administrative burdens should be reduced for all parties. Double audits and disproportionate documentation and reporting should be avoided. When audits are conducted, the specific characteristics of the national programmes should be taken into account, as appropriate. Audits of recipients of Union funds provided in accordance with this Decision should ensure a reduction in the administrative burden, in accordance with Regulation (EU, Euratom) 2018/1046.	<i>[no change]</i>	<i>[no change]</i>	
31	(23) Upon request from the Commission the European Parliament, the Council or the Court of Auditors, EURAMET and the Participating States should submit any information the Commission needs to include	<i>[no change]</i>	<i>[no change]</i>	

	in the reports on the evaluation of the Metrology Partnership.			
32	(24) The Commission should conduct an interim evaluation not later than 2025, assessing in particular the quality and efficiency of the Metrology Partnership, the progress made towards achieving the objectives set and a final evaluation not later than 2030 and should prepare a report on those evaluations,	(24) The Commission should conduct an interim evaluation not later than 2025, assessing in particular the quality and efficiency of the Metrology Partnership, the progress made towards achieving the objectives set and a final evaluation not later than 2030 and <i>make publicly available</i> a report on those evaluations,.	(24) The Commission should conduct an interim evaluation not later than 2025, assessing in particular the quality and efficiency of the Metrology Partnership, the progress made towards achieving the objectives set and a final evaluation not later than 2030 and should prepare a report on those evaluations. <u>According to Art. 10(2)(c) of Regulation [HE], the Metrology partnership should have a clear life-cycle approach, be limited in time and include conditions for phasing-out Horizon Europe funding. For this purpose, evaluations should assess the relevance and coherence of any possible renewal.</u>	<i>Presidency's compromise proposal: merged text</i> (24) The Commission should conduct an interim evaluation not later than 2025, assessing in particular the quality and efficiency of the Metrology Partnership, the progress made towards achieving the objectives set and a final evaluation not later than 2030 and should prepare <u>and make publicly available</u> a report on those evaluations. 		<i>Partnership to the Committee responsible,</i>		
33	HAVE ADOPTED THIS DECISION:	<i>[no change]</i>	<i>[no change]</i>	
34	Article 1	<i>[no change]</i>	<i>[no change]</i>	
35	Participation in the European Partnership on Metrology	<i>[no change]</i>	<i>[no change]</i>	
36	1. The Union shall participate in the European Partnership on Metrology ('the Metrology Partnership'), an institutionalised partnership as referred to in Article 8(1), point (c), of Regulation (EU) [...] [Horizon Europe], jointly undertaken by Austria, Belgium, [Bosnia and Herzegovina], Bulgaria, Croatia, Czechia, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Lithuania, [Norway], Spain, the Netherlands, Poland, Portugal, Romania, [Serbia], Slovenia, Slovakia, Sweden [Switzerland and Turkey] (the 'Participating States'), in accordance with the conditions laid down in this Decision.	<i>[no change]</i>	1. The Union shall participate in the European Partnership on Metrology ('the Metrology Partnership'), an institutionalised partnership as referred to in Article 8(1), point (c), of Regulation (EU) [...] [Horizon Europe], jointly undertaken by Austria, Belgium, [Bosnia and Herzegovina] , Bulgaria, Croatia, Czechia, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia , Lithuania, [Norway], Spain, the Netherlands, Poland, Portugal, Romania, [Serbia] , Slovenia, Slovakia, and Sweden [Switzerland and Turkey] (the 'Participating States'), in accordance with the conditions laid down in this Decision.	<i>Presidency's compromise proposal: Council text</i>

37	2. Any Member State other than those specified in paragraph 1 and any other country associated to Horizon Europe may participate in the Metrology Partnership, provided it fulfils the condition laid down in Article 4(1), point (c). It shall be regarded as a Participating State for the purposes of this Decision.	2. Any Member State other than those specified in paragraph 1 and any other country associated to Horizon Europe may participate in the Metrology Partnership, provided it fulfils the condition laid down in Article 4(1), point (c) and provided that it ensures the freedom of scientific research . It shall be regarded as a Participating State for the purposes of this Decision.	[no change]	
38	3. Any third country not associated to Horizon Europe may participate in the Metrology Partnership, provided they conclude an international agreement for scientific and technological cooperation with the Union setting out the terms and conditions of its participation in the Metrology Partnership and provided they obtain the approval by the Metrology Partnership Committee referred to in Article 13(3), point (f). If it fulfils those conditions, it shall be regarded as a Participating State for the purposes of this Decision.	3. Any third country not associated to Horizon Europe may participate in the Metrology Partnership, provided they conclude an international agreement for scientific and technological cooperation with the Union setting out the terms and conditions of its participation in the Metrology Partnership, provided that it fulfils the condition laid down in Article 4(1), point (c) and ensures the freedom of scientific research and that they obtain the approval by the Metrology Partnership Committee referred to in Article 13(3), point (f). If it fulfils those conditions, it shall be regarded as a Participating State for the purposes of this Decision.	3. Any third country not associated to Horizon Europe may participate in the Metrology Partnership, provided they conclude an international agreement for scientific and technological cooperation with the Union setting out the terms and conditions of its participation in the Metrology Partnership and, provided they obtain the approval by the Metrology Partnership Committee referred to in point (f) of Article 13(3), point (f) and provided that they fulfil the conditions laid down in point (c) of Article 4(1) . If it fulfils those conditions, it shall be regarded as a Participating State for the purposes of this Decision.	

39	Article 2	<i>[no change]</i>	<i>[no change]</i>	
40	Objectives of the Metrology Partnership	<i>[no change]</i>	<i>[no change]</i>	
41	1. The Metrology Partnership shall contribute to the implementation of Regulation (EU) ... [XXX][Horizon Europe] and in particular Article 3 thereof.	<i>[no change]</i>	<i>[no change]</i>	
42	2. Without prejudice to paragraph 1, the Metrology Partnership shall, through the involvement and commitment of partners in designing and implementing a programme of research and innovation activities, pursue the following general objectives:	<i>[no change]</i>	<i>[no change]</i>	
43	(a) to develop a sustainable coordinated metrology system on a European level;	(a) to develop a sustainable, <i>excellent and</i> coordinated metrology system on a European level <i>to help bridge the investment gap between Europe and its global competitors;</i>	<i>[no change]</i>	<i>Presidency's compromise proposal: adapted EP text</i> (a) to develop a sustainable, <u>excellent and</u> coordinated metrology system on a European level, <u>thereby helping to bridge the investment gap between Europe and its global competitors;</u>

44	(b) to ensure that state-of-the-art metrology capabilities are taken up directly by innovators in their ecosystems;	(b) to ensure that state-of-the-art metrology capabilities are widely taken up by innovators in their ecosystems and beyond ;	[no change]	NB: EP text (b) to ensure that state-of-the-art metrology capabilities are widely taken up by innovators in their ecosystems and beyond ;
45	(c) to increase the impact of metrology on societal challenges in relation to the implementation of policies, standards and regulations to make them fit for purpose.	(c) to increase the impact of metrology on societal challenges in relation to the implementation of digital, economic, industrial and environmental policies, standards and regulations to make them fit for purpose.	[no change]	Presidency's compromise proposal: adapted EP text (c) to increase the impact of metrology on societal challenges in relation to the implementation of policies, standards and regulations, inter alia in the digital, economic, industrial and environmental areas , to make them fit for purpose.
46	3. When implementing the general objectives set out in paragraph 2, the Metrology Partnership shall pursue the following specific objectives:	[no change]	[no change]	
47	(a) to develop by 2030 new research capabilities which are built within the framework of new European Metrology Networks and which perform in terms of calibration and measurement capabilities at least equal to the leading metrology	(a) to contribute to developing by 2030 new research capabilities which are built within the framework of new European Metrology Networks and which perform in terms of calibration and measurement capabilities at least equal to the	[no change]	Presidency's compromise proposal: no change

	institutes outside the Participating States ;	leading metrology institutes outside the Participating States;		
48	(b) to support, by 2030, sales of new innovative products and services through the use and adoption of the new metrology capabilities in key emerging technologies;	(b) to support, by 2030, sales of new innovative products and services through the use and adoption of the new metrology capabilities in key emerging and enabling technologies;	[no change]	NB: EP text (b) to support, by 2030, sales of new innovative products and services through the use and adoption of the new metrology capabilities in key emerging and enabling technologies;
48a		<i>(ba) to contribute to reducing the specific skills gap across the Union, to assist in the building of new knowledge, in the context of lifelong learning and the promotion of skills for human resources, and to accompany the societal transformation, including by enhancing competencies and capability for innovation;</i>		Presidency's compromise proposal: adapted EP text <u>(ba) to contribute to reducing the specific skills gap across the Union and to building of new knowledge and competencies in the context of lifelong learning and for societal transformation, including through enhancing capability for innovation;</u>
49	(c) to contribute fully and effectively, by 2030, to the design and implementation of specific standards and regulations that underpin public policies addressing societal challenges.	(c) to contribute fully and effectively, by 2030, to the design and implementation of specific standards and regulations that underpin public policies addressing societal, economic and environmental challenges;	[no change]	NB: EP text (c) to contribute fully and effectively, by 2030, to the design and implementation of specific standards and regulations that underpin public policies addressing societal, economic and environmental challenges;
49a		<i>(ca) to unleash the potential of metrology among end-users,</i>		NB: EP text

		<i>including SMEs and industrial stakeholders, as an instrument contributing to achieving the Union goals for the digital and green transitions.</i>		<u>(ca) to unleash the potential of metrology among end-users, including SMEs and industrial stakeholders, as an instrument contributing to achieving the Union goals for the twin digital and green transitions.</u>
50	Article 3	<i>[no change]</i>	<i>[no change]</i>	
51	The Union's financial contribution to the Metrology Partnership	<i>[no change]</i>	<i>[no change]</i>	
52	1. The Union's financial contribution to the Metrology Partnership, including the European Free Trade Association appropriations and third country appropriations, shall not exceed the Participating States' contributions to the Metrology Partnership. The Union financial contribution shall be up to EUR 300 million to match the contributions of the Participating States specified in Article 1 (1).	1. The Union's financial contribution to the Metrology Partnership, including the European Free Trade Association appropriations and third country appropriations, shall not exceed the Participating States' contributions to the Metrology Partnership. The Union financial contribution shall be up to EUR 300 million to match the contributions of the Participating States specified in Article 1 (1). <i>The Union's contribution shall be appropriately balanced with contributions from further associated third countries participating in the Metrology Partnership in accordance with Article 16 of Regulation (EU) 2021/695, provided that that</i>	1. The Union's financial contribution to the Metrology Partnership, including the European Free Trade Association appropriations and third country appropriations, shall not exceed the Participating States' contributions to the Metrology Partnership. The Union financial contribution, <u>including EEA appropriations,</u> shall be up to EUR 300 million to match the contributions of the Participating States specified in Article 1-(1). <u>The amount of the Union contribution may be increased with contributions from third countries associated to Horizon Europe, in accordance with Article 16(5) of the Horizon Europe Regulation and</u>	<i>Presidency's compromise proposal: Council text</i>

		<i>amount is at least matched by the contribution of the Participating States.</i>	<u>provided that the total amount by which the Union contribution is increased is at least matched by the contribution of the Participating States specified in Article 1(2).</u>	
53	2. For the calculation of the Union financial contribution, any contributions from the Participating States to administrative costs in excess of 5% of the total combined contributions to the Metrology Partnership shall not be taken into account.	<i>[no change]</i>	<i>[no change]</i>

94	Article 7	[no change]	[no change]	
95	Annual work programme	[no change]	[no change]	
96	1. The Metrology Partnership shall be implemented on the basis of annual work programmes covering activities to be undertaken for the period from 1 January to 31 December of a given year ('reference year').	[no change]	[no change]	
97	2. EURAMET shall adopt the annual work programmes by 31 March of the reference year, after obtaining approval from the	[no change]	2. EURAMET The Metrology Partnership Committee shall adopt the annual work programmes by 31	<i>Presidency's compromise proposal: Council text</i>

	Commission. In adopting the annual work programmes, both EURAMET and the Commission shall act without undue delay. EURAMET shall make the annual work programme publicly available.		March of the reference year, after obtaining approval from the Commission. In adopting the annual work programmes, both EURAMET <u>the Metrology Partnership Committee</u> and the Commission shall act without undue delay. EURAMET <u>The Metrology Partnership Committee</u> shall make the annual work programme publicly available.	
97a			<u>2.a The work programme for 2021 shall cover activities from [day of adoption of the basic act] until 31 December 2021 and shall be adopted by [xxx 2021].</u>	<i>Presidency's compromise proposal: Council text</i>
98	3. Activities referred to in Article 6(1), points (a) and (b), may be launched only in the reference year and only after the adoption of the annual work programme for that year.	<i>[no change]</i>	<i>[no change]</i>	
99	4. Activities may be funded by EURAMET only if they are set out in the annual work programme. The annual work programme shall distinguish between the activities referred to in Article 6(1), point (a), the activities referred to in Article 6(1), point (b), and the	<i>[no change]</i>	<i>[no change]</i>	

	administrative costs of EURAMET. The annual work programme shall include their corresponding expenditure estimates and the budget being allocated to activities funded with the Union's financial contribution referred to in Article 3 and to activities funded by the Participating States without such a Union's financial contribution. The annual work programme shall also include the estimated value of the Participating States' in-kind contributions referred to in Article 5(2), point (b).			
100	5. Amended annual work programmes for a reference year and annual work programmes for subsequent reference years shall take into account the results of previous calls for proposals. They shall endeavour to address insufficient coverage of scientific topics, in particular those initially addressed in activities under Article 6(1), point (b), that could not be adequately funded.	<i>[no change]</i>	<i>[no change]</i>	
101	6. The calls for proposals under the relevant annual work programmes, shall be launched by 31 December 2027. In duly	<i>[no change]</i>	<i>[no change]</i>	

	justified cases, they may be launched by 31 December 2028.			
102	7. EURAMET shall monitor and report annually to the Commission on the implementation of all activities included in the annual work programme.	7. EURAMET shall monitor and report annually to the Commission on the implementation of all activities included in the annual work programme <i>without increasing the administrative burden of the beneficiaries. The annual report shall be made publicly available on EURAMET's website in a timely manner.</i>	<i>[no change]</i>	<i>Presidency's compromise proposal: adapted EP text</i> 7. EURAMET shall monitor and report annually to the Commission on the implementation of all activities included in the annual work programme <u>without increasing the administrative burden of the beneficiaries. A detailed summary of the annual report shall be made publicly available on EURAMET's website in a timely manner.</u>
103	8. Any communication or publication relating to the activities of the Metrology Partnership and performed in cooperation with the Metrology Partnership, whether undertaken by EURAMET, a Participating State or its national funding bodies, or participants to an activity, shall be labelled or co-labelled as being co-funded by the Metrology Partnership under Horizon Europe.	<i>[no change]</i>	<i>[no change]</i>	
104	Article 8	<i>[no change]</i>	<i>[no change]</i>	

105	Rules for participation and dissemination	Rules for participation, open science and dissemination	[no change]	Presidency's compromise proposal: no change
106	1. EURAMET shall be considered a funding body within the meaning of Article 2, point 13 of Regulation [(EU) [XXX] [Horizon Europe Regulation] and shall provide financial support to indirect actions referred to in Article 6(1), point (a), of this Decision in accordance with Articles 6(2), of Regulation (EU) [XXX].	[no change]	[no change]	
107	2. In accordance with the Article 13 (1) of the HE Regulation, in duly justified cases, the annual work programme may provide for a limitation of the coordinator role in indirect actions to NMIs and DIs of the Participating States in order to ensure that the objectives and Participating States' contribution targets are met.	2. <i>All the activities referred to in Article 6(1), point (a), shall be subject to the rules for the participation, open science and dissemination of Horizon Europe, as laid down in Regulation (EU) 2021/695. In addition, in accordance with the Article 13(1) of Regulation (EU) 2021/695, in duly justified cases and after consulting the Steering Group, the annual work programme may provide for a limitation of the coordinator role in indirect actions to NMIs and DIs of the Participating States in order to ensure that the objectives</i>	2. In accordance with the Article 13 (1) of the HE Regulation, in duly justified cases <u>where strictly necessary,</u> the annual work programme may provide for a limitation of the coordinator role in indirect actions, <u>from submission of the proposal to the end of the project,</u> to NMIs and DIs of the Participating States in order to ensure that the objectives and Participating States' contribution targets are met.	Presidency's compromise proposal: merged text 2. <u>Regulation 2021/695 shall apply to the the activities referred to in Article 6(1), point (a), including the rules for the participation, open science and dissemination.</u> In <u>addition, in</u> accordance with the Article 13 (1) of the HE Regulation <u>(EU) 2021/695,</u> where strictly necessary <u>and after consulting the Steering Group,</u> the annual work programme may provide for a limitation of the coordinator role in indirect actions, from submission of the proposal to the

		and Participating States' contribution targets are met.		end of the project, to NMIs and DIs of the Participating States in order to ensure that the objectives and Participating States' contribution targets are met.
108	3. EURAMET shall ensure appropriate interactions with NMIs and DIs in the indirect actions referred to in Article 6(1), point (a), according to the designation by the appropriate national authority. EURAMET shall also encourage and support the participation of other entities in all calls.	3. EURAMET shall ensure appropriate interactions with NMIs and DIs in the indirect actions referred to in Article 6(1), point (a), according to the designation by the appropriate national authority. EURAMET shall also encourage and support the participation of other entities, <i>including SMEs</i> in all calls.	[no change]	NB: EP text 3. EURAMET shall ensure appropriate interactions with NMIs and DIs in the indirect actions referred to in Article 6(1), point (a), according to the designation by the appropriate national authority. EURAMET shall also encourage and support the participation of other entities, <u>including SMEs</u> in all calls.
109	Article 9	[no change]	[no change]	
110	Agreements between the Union and EURAMET	[no change]	[no change]	
111	Provided an equivalent level of protection of the financial interest of the Union is ensured, EURAMET shall be entrusted with the implementation of the Union contribution in accordance with Article 62(3) and Article 154 of Regulation (EU, Euratom) 2018/1046.	[no change]	[no change]	

112	Article 10	<i>[no change]</i>	<i>[no change]</i>	
113	Termination, reduction or suspension of the Union's financial contribution	<i>[no change]</i>	<i>[no change]</i>	
114	1. If the Metrology Partnership fails to meet the conditions under which the Union's financial contribution is entrusted, the Commission may terminate, proportionally reduce or suspend the Union's financial contribution referred to in Article 3.	<i>[no change]</i>	<i>[no change]</i>	
115	2. If the Participating States do not contribute to the financing of the Metrology Partnership, contribute only partially or do not respect the time frames for the contributions referred to in Article 5, the Commission may terminate, proportionally reduce or suspend the Union's financial contribution referred to in Article 3. The Commission's decision shall not hinder the reimbursement of eligible costs already incurred by the Participating States before the decision to terminate, proportionally reduce or suspend the Union's financial	2. If the Participating States do not contribute to the financing of the Metrology Partnership, contribute only partially or do not respect the time frames for the contributions referred to in Article 5, the Commission may terminate, proportionally reduce or, as a last resort , suspend the Union's financial contribution referred to in Article 3. The Commission's decision shall not hinder the reimbursement of eligible costs already incurred by the Participating States before the decision to terminate, proportionally reduce or suspend the Union's financial	<i>[no change]</i>	<i>Presidency's compromise proposal: no change</i>

	contribution is notified to the Metrology Partnership.	contribution is notified to the Metrology Partnership.		
116	Article 11	<i>[no change]</i>	<i>[no change]</i>	
117	Ex post audits	<i>[no change]</i>	<i>[no change]</i>	
118	1. The <i>ex post</i> audits of expenditure on indirect actions referred to in Article 6(1), point (a), shall be carried out by EURAMET in accordance with Article 48 of Regulation ...[Horizon Europe](EU) [XXX] [].	1. The <i>ex post</i> audits of expenditure on indirect actions referred to in Article 6(1), points (a) and (b) , shall be carried out by EURAMET in accordance with Article 48 of Regulation (EU) 2021/695 .	<i>[no change]</i>	<i>Presidency's compromise proposal: adapted text</i> 1. The <i>ex post</i> audits of expenditure on indirect actions referred to in Article 6(1), points (a), shall be carried out by EURAMET in accordance with Article 53(3) of Regulation (EU) 2021/695 .
119	2. The Commission may decide to carry out the audits referred to in paragraph 1 itself. In such cases, the Commission shall do so in accordance with the applicable rules, in particular Article 48(3) of Regulation (EU) [XXX] [Horizon Europe] and Article 127 of Regulation (EU, Euratom) 2018/1046.	<i>[no change]</i>	<i>[no change]</i>	
119a		2a. With the purpose of administrative simplification for the beneficiaries, double audits shall be avoided and audit rules shall be clear, consistent and coherent.		

120	Article 12	<i>[no change]</i>	<i>[no change]</i>	
121	Protection of the financial interests of the Union	<i>[no change]</i>	<i>[no change]</i>	
122	1. The Commission shall take appropriate measures to ensure that, when actions financed under this Decision are implemented, the financial interests of the Union are protected by the application of preventive measures against fraud, corruption and any other illegal activities, by effective checks and, if irregularities are detected, by the recovery of the amounts wrongly paid and, where appropriate, by effective, proportionate and dissuasive penalties.	<i>[no change]</i>	<i>[no change]</i>	
123	2. In implementing the Metrology Partnership, the Participating States shall take the legislative, regulatory, administrative and other measures necessary to protect the financial interests of the Union, in particular, to ensure full recovery of any amounts due to the Union in accordance with Regulation (EU, Euratom) 2018/1046.	<i>[no change]</i>	<i>[no change]</i>	

124	3. EURAMET shall grant Commission staff and other persons authorised by the Commission, as well as the Court of Auditors, access to its sites and premises and to all the information, including information in electronic format, needed in order to conduct their audits.	<i>[no change]</i>	<i>[no change]</i>	
125	4. The European Anti-Fraud Office (OLAF) may carry out investigations, including on-the-spot checks and inspections, in accordance with the provisions and procedures laid down in Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council ¹⁸ and Council Regulation (Euratom, EC) No 2185/96 ¹⁹ with a view to establishing whether there has been fraud, corruption or any other illegal activity affecting the financial	<i>[no change]</i>	<i>[no change]</i>	

¹⁸ Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18.9.2013, p. 1).

¹⁹ Council Regulation (Euratom, EC) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspections carried out by the Commission in order to protect the European Communities' financial interests against fraud and other irregularities (OJ L 292, 15.11.1996, p. 2).

	interests of the Union in connection with an agreement, a decision or a contract funded under this Decision.			
126	5. The European Public Prosecutor's Office (EPPO) may carry out investigations in accordance with the provisions and procedures laid down in Council Regulation (EU) 2017/1939 ²⁰ , with a view to investigating criminal offences affecting the financial interests of the Union as set out in Article 4 of that Regulation.	<i>[no change]</i>	<i>[no change]</i>	
127	6. Without prejudice to paragraphs 3, 4 and 5, agreements, decisions and contracts resulting from the implementation of this Decision shall contain provisions expressly empowering the Commission, EURAMET, the Court of Auditors, the EPPO and OLAF to conduct such audits, on-the-spot checks and investigations in accordance with their respective competences.	<i>[no change]</i>	<i>[no change]</i>	

²⁰ Council Regulation (EU) 2017/1939 of 12 October 2017 implementing enhanced cooperation on the establishment of the European Public Prosecutor's Office ('the EPPO')(OJ L 283, 31.10.2017, p. 1).
